Form 10-Q
May 02, 2014

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended March 31, 2014

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Paramount Gold and Silver Corp.
(Exact name of registrant as specified in its charter)

Delaware 0-51600 20-3690109
(State or Other Jurisdiction (Commission (I.R.S. Employer
of Incorporation) File Number) Identification No.)

665 Anderson Street, Winnemucca, Nevada 89445
(Address of Principal Executive Office) (Zip Code)

(775) 625-3600
(Issuer's telephone number, including area code)

N/A
(Former name, former address and former fiscal year, if changed since last report)

Indicate by a check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to the filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
(Do not check if smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act)
Yes No

**APPLICABLE ONLY TO ISSUERS INVOLVED IN BANKRUPTCY
PROCEEDINGS DURING THE PRECEDING FIVE YEARS**

Indicate by check mark whether the Registrant has filed all documents and reports required to be filed by Section 12, 13, or 15 (d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes No

APPLICABLE ONLY TO CORPORATE ISSUERS:

Indicate the number of shares outstanding of each of the issuer's classes of Common Stock as of the latest practicable date: 157,742,867 shares of Common Stock, \$.001 par value as of May 1, 2014.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

This Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2014 contains “forward-looking statements”. Generally, the words “believes,” “anticipates,” “may,” “will,” “should,” “expect,” “intend,” “estimate,” “continue,” and similar expressions or the negative thereof or comparable terminology are intended to identify forward-looking statements which include, but are not limited to, statements concerning the Company’s expectations regarding its working capital requirements, financing requirements, business prospects, and other statements of expectations, beliefs, future plans and strategies, anticipated events or trends, and similar expressions concerning matters that are not historical facts. Such statements are subject to certain risks and uncertainties, including the matters set forth in this Quarterly Report or other reports or documents the Company files with the Securities and Exchange Commission from time to time, which could cause actual results or outcomes to differ materially from those projected.

These forward-looking statements were based on various factors and were derived utilizing numerous assumptions and other factors that could cause our actual results to differ materially from those in the forward-looking statements. These factors include, but are not limited to, economic, political and market conditions and fluctuations, the prevailing market price for gold and silver, government and industry regulation, interest rate risk, U.S. and global competition, and other factors. Most of these factors are difficult to predict accurately and are generally beyond our control. You should consider the areas of risk described in connection with any forward-looking statements that may be made herein.

Undue reliance should not be placed on these forward-looking statements which speak only as of the date hereof. Except for our ongoing obligations to disclose material information under the Federal securities laws, we undertake no obligation to release publicly any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events. For any forward-looking statements contained in any document, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

OTHER PERTINENT INFORMATION

When used in this report, the terms “Paramount,” the “Company,” “we,” “our,” and “us” refers to Paramount Gold and Silver Corp., a Delaware corporation.

Notes to Condensed Consolidated Interim Financial Statements

For the Nine Month Period Ended March 31, 2014

(Expressed in United States dollars, unless otherwise stated)

(Unaudited)

1. Principal Accounting Policies:

Paramount Gold and Silver Corp. (the “Company”), incorporated under the General Corporation Law of the State of Delaware, and its wholly-owned subsidiaries are engaged in the acquisition, exploration and development of precious metal properties. The Company’s wholly owned subsidiaries include Paramount Gold de Mexico S.A. de C.V., Magnetic Resources Ltd, Minera Gama SA de CV, and Paramount Nevada Gold Corp. (formerly X-Cal Resources Ltd.). The Company is an exploration stage mining company in the process of exploring its mineral properties in both the United States and Mexico, and has not yet determined whether its properties contain reserves that are economically recoverable.

Basis of Presentation and Preparation

The accompanying unaudited condensed consolidated interim financial statements of the Company have been prepared in accordance with accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the disclosures required by U.S. generally accepted accounting principles (“U.S. GAAP”) for complete financial statements. In the opinion of management, all of the normal and recurring adjustments necessary to fairly present the interim financial information set forth herein have been included. The results of operations for interim periods are not necessarily indicative of the operating results of a full year or of future years.

These interim financial statements have been prepared in accordance with generally accepted accounting principles in the United States and, with the exception of new accounting pronouncements described in Note 2, follow the same accounting policies and methods of their application as the most recent annual financial statements. The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany accounts and transactions are eliminated in consolidation. These interim financial statements should be read in conjunction with the consolidated financial statements and related footnotes included in the Annual Report on Form 10-K of Paramount Gold and Silver Corp. for the year ended June 30, 2013.

Use of Estimates

The preparation of these condensed consolidated interim financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the condensed consolidated interim financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Significant estimates made by management in the accompanying financial statements include collectability of amounts receivable, the adequacy of the Company’s asset retirement obligations and fair value of stock based compensation.

Stock Based Compensation

The Company has adopted the provisions of FASB ASC 718, “Stock Compensation” (“ASC 718”), which establishes accounting for equity instruments exchanged for employee services. Under the provisions of ASC 718, stock-based compensation cost is measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the employee’s requisite service period (generally the vesting period of the equity grant). New shares of the Company’s Common Stock will be issued for any options exercised or awards granted.

Mineral Properties

Mineral property acquisition costs are capitalized when incurred and will be amortized using the units –of – production method over the estimated life of the reserve following the commencement of production. If a mineral property is subsequently abandoned or impaired, any capitalized costs will be expensed in the period of abandonment or impairment.

Acquisition costs include cash consideration and the fair market value of shares issued on the acquisition of mineral properties.

(Expressed in United States dollars, unless otherwise stated)

(Unaudited)

1. Principal Accounting Policies (Continued):

Exploration Costs

Exploration costs, which include maintenance, development and exploration of mineral claims, are expensed as incurred. When it is determined that a mineral deposit can be economically developed as a result of establishing proven and probable reserves, the costs incurred after such determination will be capitalized and amortized over their useful lives. To date, the Company has not established the commercial feasibility of its exploration prospects; therefore, all exploration costs are being expensed.

Derivatives

The Company accounts for its derivative instruments not indexed to our stock as either assets or liabilities and carries them at fair value. Derivatives that are not defined as hedges must be adjusted to fair value through earnings.

Warrants and options issued in prior periods with exercise prices denominated in Canadian dollars are no longer considered indexed to our stock, as their exercise price is not in the Company's functional currency of the US dollar, and therefore no longer qualify for the scope exception and must be accounted for as a derivative. These warrants and options are reclassified as liabilities under the caption "Warrant liability" and recorded at estimated fair value at each reporting date, computed using the Black-Scholes valuation method. Changes in the liability from period to period are recorded in the Statements of Operations under the caption "Change in fair value of warrant liability."

The Company elected to record the change in fair value of the warrant liability as a component of other income and expense on the statement of operations as we believe the amounts recorded relate to financing activities and not as a result of our operations.

Net Loss per Share

Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of shares outstanding during each period. Diluted loss per share reflect the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock.

Concentration of Credit Risk and Amounts Receivable

Financial instruments that potentially subject the Company to a concentration of credit risk consist principally of cash and cash equivalents and amounts receivable. We deposit our cash with financial institutions which we believe have sufficient credit quality to minimize risk of loss.

Impuesto al Valor Agregado taxes (IVA) are recoverable value-added taxes charged by the Mexican government on goods sold and services rendered at a rate of 16%. Under certain circumstances, these taxes are recoverable by filing a tax return and as determined by the Mexican taxing authority. Each period, receivables are reviewed for collectability. When a receivable is determined to not be collectable we allow for the receivable until we are either

assured of collection or assured that a write-off is necessary. Allowances in association with our receivable from IVA from our Mexico subsidiaries are based on our determination that the Mexican government may not allow the complete refund of these taxes. The Company believes that all amounts recorded as a receivable from the Mexican government will be recovered.

1. Principal Accounting Policies (Continued):

Marketable Securities

The Company classifies its marketable securities as available-for-sale securities. The securities are measured at fair market value in the financial statements with unrealized gains and temporary losses on investments classified as available for sale are included within accumulated other comprehensive income, net of any related tax effect. Upon realization, such amounts are reclassified from accumulated other comprehensive income to other income, net, realized gains and losses and other than temporary impairments, if any, are reflected in the statements of operations as other income or expenses. The Company does not recognize changes in the fair value of its investments in income unless a decline in value is considered other than temporary.

Foreign Currency

The parent company's functional currency is the United States dollar. The functional currencies of the Company's wholly-owned subsidiaries are the U.S. Dollar and the Canadian Dollar. Monetary assets and liabilities denominated in foreign currencies are translated using the exchange rate prevailing at the consolidated balance sheet date. Foreign currency transaction gains and losses are included in the statement of operations and comprehensive loss. The aggregate foreign transaction loss for the nine month period ended March 31, 2014 that is included in the statement of operations is \$29,947.

The financial statements of the subsidiaries are translated to United States dollars in accordance with ASC 830 using period-end rates of exchange for assets and liabilities, and average rates of exchange for the period for revenues and expenses. Translation gains (losses) are recorded in accumulated other comprehensive income (loss) as a component of stockholders' equity.

2. Recent Accounting Pronouncements Adopted and New Accounting Pronouncements:

Accounting Pronouncements Adopted During the Period

i) ASU 2012-04

On July 1, 2013, the Company adopted ASU 2012-04, "Technical Corrections and Improvements". The amendments in this update cover a wide range of Topics in the Accounting Standards Codification. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The adoption of ASU 2012-04 did not have a material impact on our financial position or results of operations.

ii) ASU 2013-02

On July 1, 2013, the Company adopted ASU 2013-02, "Comprehensive Income (Topic 220): Reporting of Amounts Reclassified out of Accumulated Other Comprehensive Income." This updated guidance improves the reporting of

significant items reclassified out of accumulated other comprehensive income and requires an entity to present, either on the face of the statement where net income is presented or in the notes, separately for each component of comprehensive income, the current period reclassifications out of accumulated other comprehensive income by the respective line items of net income affected by the reclassification. Other than requiring additional disclosures, the adoption did not have an effect on our financial position or results of operations.

(Expressed in United States dollars, unless otherwise stated)

(Unaudited)

2. Recent Accounting Pronouncements Adopted and New Accounting Pronouncements (Continued):

New Accounting Pronouncements Not Yet Adopted

i) ASU 2013-05

In March 2013, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2013-05, “Foreign Currency Matters (Topic 830); Parents Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity.” This guidance applies to the release of the cumulative translation adjustment into net income when a parent either sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets that is a business (other than a sale of substance real estate or conveyance of oil and gas, mineral rights) within a foreign entity. ASU No. 2013-05 is effective prospectively for fiscal years (and interim reporting periods with those years) beginning after December 15, 2013. We are currently reviewing the provisions of ASU No. 2013-05 on our financial position or results of operations.

ii) ASU 2013-11

In July 2013, FASB issued ASU 2013-11, “Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or Tax Credit Carryforward Exits.” The FASB’s objective in issuing this ASU is to eliminate diversity in practice resulting from a lack of guidance on this topic in current U.S. GAAP. This ASU applies to all entities with unrecognized tax benefits that also have tax loss or tax credit carryforwards in the same tax jurisdiction as of the reporting date. ASU No. 2013-11 is effective for public entities for fiscal years beginning after December 15, 2013, and interim periods within those years. Early adoption is permitted. The amendments should be applied to all unrecognized tax benefits that exist as of the effective date. Entities may choose to apply the amendments retrospectively to each prior reporting period presented. We are currently assessing the impact of the adoption of this update on our financial position or results of operations.

3. Marketable Securities:

The following table summarizes the Company’s available-for sale securities on hand as of March 31, 2014 and June 30, 2013:

	Cost Basis	Impairment Charge	Adjusted Cost	Gross Unrealized Losses	Gross Unrealized Gains	Fair Value
Marketable securities at March 31, 2014	\$499,950	-	-	-	\$ 122,488	\$622,438
Marketable securities at June 30, 2013	\$4,500,000	\$4,050,000	\$450,000	-	-	\$450,000

In the three month period ended March 31, 2014, the Company recorded an unrealized gain of \$126,286 (2012 – \$1,860,000 loss). In the nine month period ended March 31, 2014, the Company recorded an unrealized gain of \$122,488 (2013 - \$4,800,000 loss). The marketable securities reflected in the table above include a convertible preferred share with an attached purchase warrant of a single entity involved in the exploration of precious metals. The Company performs a quarterly assessment on its marketable securities with unrealized losses to determine if the security is other than temporarily impaired.

Index

PARAMOUNT GOLD AND SILVER CORP.

(An Exploration Stage Mining Company)

Notes to Condensed Consolidated Interim Financial Statements

For the Nine Month Period Ended March 31, 2014

(Expressed in United States dollars, unless otherwise stated)

(Unaudited)

On July 30, 2013, the Company sold 6 million shares of common stock of Valor Gold Corporation for proceeds of approximately \$450,000.

On August 7, 2013, the Company purchased convertible preferred shares and stock purchase warrants of Pershing Gold Corporation, a gold exploration and development company, in the amount of \$499,950.

4. Fair Value Measurements:

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is estimated by applying the following hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization with the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs that are both significant to the fair value measurement and unobservable.

The following table sets forth the Company's financial assets and liabilities measured at fair value by level within the fair value hierarchy. As required by ASC 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Total	Fair Value at March 31, 2014			June 30, 2013
		Level 1	Level 2	Level 3	Total
Cash and cash equivalents	\$4,197,045	\$4,197,045	\$ -	\$-	\$11,524,051
Marketable Securities	\$622,438	\$-	\$ -	\$622,438	\$450,000

The Company's cash and cash equivalents and short-term investments are classified within Level 1 of the fair value hierarchy because they are valued using quoted market prices. The cash and cash equivalents that are valued based on

quoted market prices in active markets are primarily comprised of commercial paper, short-term certificates of deposit and U.S. Treasury securities.

The Company's marketable securities include convertible preferred stock and stock purchase warrants. The convertible preferred stock is recorded at fair market value in the financial statements based on quoted market prices of the underlying common stock security with an adjustment made using a European put option model to reflect certain restrictions from resale. The stock purchase warrants' fair value is recorded using a Black Scholes options model using inputs such as contractual terms, stock volatility and implied interest rates. The Company's marketable securities are classified within Level 3 of the fair value hierarchy.

5. Non-Cash Transactions:

During the nine months ended March 31, 2014, the Company did not enter into any non-cash activities.

	2014	2013
Operating and Financing Activities		
From issuance of shares for cashless exercise of options	\$ -	\$ 113,975
Receipt of shares for sale of mineral properties	\$ -	\$ 7,361,233

6. Capital Stock:

a) Share issuances:

Authorized capital stock consists of 200,000,000 common shares with par value of \$0.001 per share. At March 31, 2014 and June 30, 2013 there were 155,731,068 shares issued and outstanding.

During the nine months ended March 31, 2014 and 2013, the Company issued the following shares:

	Common Shares 2014	2013
For exercise of warrants and options	- 8,118,465	- 8,118,465

b) Stock options:

On August 23, 2007, the board and stockholders approved the 2007/2008 Stock Incentive & Compensation Plan thereby reserving an additional 4,000,000 common shares for issuance to employees, directors and consultants.

On February 24, 2009, the stockholders approved the 2008/2009 Stock Incentive & Equity Compensation Plan thereby reserving an additional 3,000,000 common shares for future issuance. The stockholders also approved the re-pricing of the exercise price of all outstanding stock options to \$0.65 per share.

On December 2, 2011, the stockholders approved the 2011/2012 Stock Incentive & Equity Compensation Plan thereby reserving an additional 4,000,000 common shares for future issuance to employees, directors and consultants.

Stock Based Compensation

The Company uses the Black-Scholes option valuation model to value stock options granted. The Black-Scholes model was developed for use in estimating the fair value of traded options that have no vesting restrictions and are fully transferable. The model requires management to make estimates which are subjective and may not be representative of actual results. Changes in assumptions can materially affect estimates of fair values.

Edgar Filing: PARAMOUNT GOLD & SILVER CORP. - Form 10-Q

For purposes of the calculation, the following assumptions were used for the three month periods ended March 31, 2014 and 2013:

	March 31, 2014	March 31, 2013		
WA Risk free interest rate	0.12 %	0.18 %		
WA Expected dividend yield	0 %	0 %		
WA Expected stock price volatility	58 %	61 %		
	2	2		
WA Expected life of options	years	years

6. Capital Stock (Continued):

Changes in the Company's stock options for the nine months ended March 31, 2014 are summarized below:

Options	Number	Weighted Avg. Exercise Price	Weighted-Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at June 30, 2013	3,776,500	\$ 2.20	2.28	\$ 0
Issued	2,251,000	1.41	-	-
Cancelled / Expired	(120,000)	2.46	-	-
Exercised	-	-	-	-
Outstanding at March 31, 2014	5,907,500	\$ 1.90	2.46	\$ 0
Exercisable at March 31, 2014	5,717,501	\$ 1.87	2.51	\$ 0

At March 31, 2014, there were 5,907,500 options outstanding. Options outstanding above that have not vested at period end are 189,999 which have a maximum service term of 1- 4 years. The vesting of these options is dependent on market conditions which have yet to be met. As of March 31, 2014, there was \$91,953 (2013 - \$185,452) of unrecognized compensation cost related to non-vested stock options to be recognized over a weighted average period of 1.23 years.

A summary of the non-vested options as of June 30, 2013 and changes during the nine months ended March 31, 2014 are as follows:

Non-vested Options	Number	Weighted Avg. Grant-Date Fair Value
Non-vested at June 30, 2013	189,999	\$ 2.12
Issued	2,251,000	0.46
Vested	(2,251,000)	0.46
Forfeited	-	-
Non-vested at March 31, 2014	189,999	\$ 2.12

For the three and nine months ended March 31, 2014, the Company recognized a stock based compensation expense in the amount of \$982,985 and \$1,103,822 respectively (2013 - \$90,324 and \$379,735).

7. Related Party Transactions:

During the three and nine months ended March 31, 2014, directors earned fees in the amount of \$45,000 and \$153,000 respectively (2013 -\$54,000 and \$151,500) for their services as directors or members of committees of the Company's Board. During the three and nine months ended March 31, 2014, the Company also recorded a non-cash transaction

to recognize stock based compensation for directors in the amount of \$485,499 and \$517,445 respectively (2013 -\$79,251 and \$193,853)

All transactions with related parties are made in the normal course of operations and measured at exchange value.

8. Mineral Properties:

The Company has capitalized acquisition costs on mineral properties as follows:

	March 31, 2014	June 30, 2013
Iris Royalty	50,000	50,000
San Miguel Project	23,452,263	23,452,263
Sleeper	25,891,490	25,891,490
Mill Creek	2,096,616	2,096,616
Spring Valley	385,429	385,429
	\$51,875,798	\$51,875,798

San Miguel Project:

The 100% owned San Miguel Project is located in southwestern Chihuahua, a state in Northern Mexico. It consists of 40 mining concessions which total approximately 551 square miles. The concessions were acquired from 2005 to 2012 over a series of transactions with third parties.

Sleeper:

The Sleeper Gold Project was acquired through our acquisition of X-Cal Resources Ltd. in August 2010. Sleeper is located in northern Nevada approximately 26 miles northwest of the town of Winnemucca. When acquired in 2010, the Sleeper Gold Mine consisted of 1,044 unpatented mining claims. In August 2011 and July 2012, the Company has staked a total of 1,526 additional unpatented lode mining claims.

Mill Creek:

The Mill Creek property consists of 36 unpatented lode mining claims totaling 720 acres south of Battle Mountain Nevada.

Spring Valley:

The Spring Valley property consists of 38 unpatented lode mining claims located in Pershing County, Nevada.

9. Property and Equipment:

Property and equipment consist of the following:

	March 31, 2014	June 30, 2013
Exploration and other equipment	\$331,944	\$330,705

Edgar Filing: PARAMOUNT GOLD & SILVER CORP. - Form 10-Q

Buildings and leaseholds	325,207	325,207
Furniture and computer equipment	240,483	238,278
Subtotal	897,634	894,190
Accumulated depreciation	(505,570)	(461,903)
Total	\$392,064	\$432,287

During the nine months ended March 31, 2014, net additions to property, and equipment were \$3,444 (2013-\$28,957). During the nine months ended March 31, 2014 the Company recorded depreciation of \$43,667 (2013-\$48,498).

June 30, 2013			
Mineral properties	\$28,273,535	\$23,602,263	\$51,875,798
Property and equipment	\$66,595	\$365,692	\$432,287

11. Reclamation and Environmental:

The Company holds an insurance policy related to its Sleeper Gold Project that covers reclamation costs in the event the Company defaults on payments of its reclamation costs up to an aggregate of \$25 million. The insurance premium is being amortized over ten years and the current and non-current prepaid insurance balance at March 31, 2014 is \$183,911 (June 30, 2013 - \$367,822).

As a part of the policy, the Company has funds in a commutation account which is used to reimburse reclamation costs and indemnity claims. The balance of the commutation account at March 31, 2014 is \$2,657,035 (June 30, 2013 - \$2,718,384).

Reclamation and environmental costs are based principally on legal requirements. Management estimates costs associated with reclamation of mineral properties and properties under mine closure. On an ongoing basis the Company evaluates its estimates and assumptions; however, actual amounts could differ from those based on estimates and assumptions.

The asset retirement obligation at the Sleeper Gold Project has been measured using the following variables:

1) Expected costs for earthwork, re-vegetation, in-pit water treatment, on-going monitoring, labor and management, 2) Inflation adjustment, and 3) Market risk premium. The sum of the expected costs by year is discounted using the Company's credit adjusted risk free interest rate from the time it expects to pay the retirement obligation to the time it incurs the obligation. The reclamation and environmental obligation recorded on the balance sheet is equal to the present value of the estimated costs.

Changes to the Company's asset retirement obligations for the nine months ended March 31, 2014 are as follows:

	March 31, 2014	June 30, 2013
Balance at beginning of period	\$1,263,584	\$1,198,179

Edgar Filing: PARAMOUNT GOLD & SILVER CORP. - Form 10-Q

Accretion expense	92,049	167,744
Payments	(64,008)	(102,339)
Balance at end of period	\$1,291,625	\$1,263,584

PARAMOUNT GOLD AND SILVER CORP.

(An Exploration Stage Mining Company)

Notes to Condensed Consolidated Interim Financial Statements

For the Nine Month Period Ended March 31, 2014

(Expressed in United States dollars, unless otherwise stated)

(Unaudited)

12. Subsequent Event:

As of April 30, the Company sold 2,011,799 shares for gross proceeds of \$2,113,585 pursuant to a Controlled Equity Offering Sales Agreement entered into with Cantor Fitzgerald & Co. on April 11, 2014.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following information should be read in conjunction with (i) our accompanying interim consolidated financial statements and related notes (included elsewhere in this report) and (ii) our consolidated financial statements, related notes and management's discussion and analysis of financial condition and results of operations included in our June 30, 2013 annual report filed on Form 10-K with the Securities and Exchange Commission on September 9, 2013.

We are an exploratory stage mining company that currently has mining concessions in Mexico and mining claims in Nevada, USA. We have no proven reserves at our San Miguel project in Mexico or at our Sleeper Gold project in Nevada but are currently exploring both projects. The following discussion updates our planned operations for this fiscal year. It also analyzes our financial condition and summarizes the results of operations for the three and nine month period ended March 31, 2014 and compares those results to the three and nine month period ended March 31, 2013.

Plan of Operation:

Exploration

Mexico

Our plan at the San Miguel Project is to conduct exploration drilling by testing new areas or expanding on known mineralized zones with infill drilling. Over fifty drill holes have been completed since our last material estimate. The Company plans to update this estimate in the first half of 2014. The Company also intends to evaluate silver metallurgical recovery alternatives for the Don Ese Zone. Paramount plans to update its Preliminary Economic Assessment (the "San Miguel PEA") in the second half of 2014. The San Miguel PEA will test the economic viability of the open pit/heap leach operations at multiple zones and further, it will include the updated resources.

The Company's exploration plan and budget for the San Miguel Project will be managed by its in-house technical staff.

Nevada

Our plan for our current fiscal year is to continue focusing on our Sleeper Gold Project. The budget activities will include drilling, modeling and metallurgical testing. The drill plans include drilling to obtain metallurgical samples, infill drilling to increase confidence in mineralized material and exploration drilling in the south Sleeper zone.

We plan to update our mineralized material model with drill hole data that was not previously included. This will allow us, along with a newly created geo-metallurgical model, to update our Preliminary Economic Assessment (the "Sleeper PEA") which we completed in 2012.

Our work at both the San Miguel Project and Sleeper Gold Project is consistent with Paramount's strategy of expanding and upgrading known, large-scale precious metal occurrences in established mining camps, defining their economic potential and then partnering them with nearby producers.

Index

Highlights from Q3 – January 1, 2014 to March 31, 2014

In January 2014, the Company reported favorable gold recoveries from bio-oxidation testing on the sulfide material at the West Wood Zone at the Sleeper Gold Project. The resources at the West Wood Zone were not included in a previous Sleeper PEA due to poor recoveries from the heap leach operation proposed for Sleeper in the PEA.

During the quarter, the Company reported numerous assays results at its Don Ese zone which lies within the Company's San Miguel Project. Data from 16 new cores holes totaling 26,335 feet of drilling at Don Ese zone will be incorporated in a new material estimate expected by June 2014.

In April 2014, subsequent to the quarter end, the company reported assays from a re-logging program from 19 core holes drilled by previous owners of the Sleeper Gold Project. These uncut and unassayed intervals were typically entered into the material estimate model database with an assumed grade of zero which would have had the effect of understating the resource size and grade.

Liquidity and Capital Resources

At March 31, 2014, we had cash and cash equivalents of \$4,197,045 compared to \$11,524,051 as at June 30, 2013. The decrease of \$7,327,006 was the result of the funding of our exploration programs and corporate overhead.

At March 31, 2014, we had working capital in the amount of \$5,939,673. We anticipate our cash expenditures to fund exploration programs and general corporate expenses to be approximately \$2.0 million during the next three months. Anticipated cash outlays will be funded by our available cash reserves.

At March 31, 2013, the amounts receivable amount of \$1,409,490 primarily consisted of value added tax due from the Mexican government

Historically, we have funded our exploration and development activities through equity financing arrangements. We continue to assess our needs for additional capital to ensure sufficient financial resources are available to fund our exploration and working capital needs. If, however, we are unable to obtain additional capital or financing, our exploration and development activities will be significantly affected.

Comparison of Operating Results for the nine month period ended March 31, 2014 as to the nine month period ended March 31, 2013

Net Loss

Our net loss before other items for the nine month period ended March 31, 2014 was \$8,835,691 compared to a loss of \$5,088,720 in the comparable period in the prior year. The increase in net loss of \$3,746,971 or 74% was due to reduction of a gain on sale of mineral property recorded in the prior period. We will continue to incur losses for the foreseeable future as we continue with our planned explorations programs at both projects.

Expenses

Our level of exploration expenditures for the nine month period ended March 31, 2014 decreased by 39% from the prior year period. The decrease is mainly due to the reduced exploration drilling activity at both our San Miguel and Sleeper Gold Projects.

Index

The following table summarizes our drilling activities at both projects for the nine month period ended March 31, 2014 and 2013:

	Nine month period ended March 31, 2014		Nine month period ended March 31, 2013	
	Cumulative Length in HolesFeet		Cumulative Length in HolesFeet	
San Miguel Project, Mexico	24	36,900	30	43,191
Sleeper Gold Project, USA	-	-	37	39,430
Total	24	36,900	67	82,621

Our general corporate expenses which include professional fees, corporate communications, consulting fees and office and administration totaled \$1,643,264 for the nine month period ended March 31, 2014. This is a 5% decrease over the comparable nine month period in the 2013. Decreases in professional fees and office and administration expenses were offset by an increase in consulting fees.

Comparison of Operating Results for the three month period ended March 31, 2014 to the three month period ended March 31, 2013.

Net Loss

Our net loss before other items for the three month period ended March 31, 2014 was \$4,344,474 compared to a loss of \$3,905,246 in the comparable period in the prior year. The increase in net loss of \$439,228 or 11% was mainly due to an increase of stock based compensation offset by lower exploration expenses over the comparable period in the prior year. We expect to incur losses for the foreseeable future as we continue with our planned explorations programs at both projects.

Expenses

Our level of exploration expenditures for the three month period ended March 31, 2014 has remained consistent from the prior year period as we continue to advance both the Sleeper Gold and the San Miguel Projects.

The following table summarizes our drilling activities at both projects for the three month period ended March 31, 2014 and 2013:

	Three month period ended March 31, 2014		Three month period ended March 31, 2013	
	Cumulative Length in HolesFeet		Cumulative Length in HolesFeet	
San Miguel Project, Mexico	15	23,839	9	14,478
Sleeper Gold Project, USA	-	-	10	10,157
Total	15	23,839	19	24,635

Our general corporate expenses which include professional fees, corporate communications, consulting fees and office and administration totaled \$742,145 for the three month period ended March 31, 2014. This 48%% increase over the comparable three month period in the 2013 was mainly driven by stock based compensation recorded in the period.

Index

Critical Accounting Policies

Management considers the following policies to be most critical in understanding the judgments that are involved in preparing the Company's consolidated financial statements and the uncertainties that could impact the results of operations, financial condition and cash flows. Our financial statements are affected by the accounting policies used and the estimates and assumptions made by management during their preparation. Management believes the Company's critical accounting policies are those related to mineral property acquisition costs, exploration and development cost, stock based compensation, derivative accounting and foreign currency translation.

Estimates

The Company prepares its consolidated financial statements and notes in conformity to U.S. GAAP and requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and the reported amounts of revenue and expenses during the reporting period. On an ongoing basis, management evaluates these estimates, including those related to allowances for doubtful accounts receivable long-lived assets and reclamation and environmental obligations. Management bases these estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Mineral property acquisition costs

The Company capitalizes the cost of acquiring mineral properties and will amortize these costs over the useful life of a property following the commencement of production or expense if it is determined that the mineral property has no future economic value or the properties are sold or abandoned. Costs include cash consideration and the fair market value of shares issued on the acquisition of mineral properties. Properties acquired under option agreements, whereby payments are made at the sole discretion of the Company, are recorded in the accounts of the specific mineral property at the time the payments are made.

The amounts recorded as mineral properties reflect actual costs incurred to acquire the properties and do not indicate any present or future value of economically recoverable reserves.

Exploration expenses

The company expenses exploration costs as incurred. When it is determined that a precious metal resource deposit can be economically and legally extracted or produced based on established proven and probable reserves, further exploration expenses related to such reserves incurred after such a determination will be capitalized. To date, the Company has not established any proven or probable reserves and will continue to expense exploration expenses as incurred.

Derivatives

The Company has adopted the amended provisions of ASC 815 on determining what types of instruments or embedded features in an instrument held by a reporting entity can be considered indexed to its own stock. The Company has issued stock purchase warrants with exercise prices denominated in a currency other than its functional currency of U.S. dollars. As a result, these warrants are no longer considered indexed to our stock and must be accounted for as a derivative.

Warrants that are issued with exercise prices other than the Company's functional currency of the U.S. dollar are accounted for as liabilities. The fair value of the outstanding warrants liabilities is determined at each reporting date

with any change to the liability from a previous period recorded in the Statement of Operations. We record changes in fair value of the warrant liabilities as a component of other income and expense as we believe the amounts recorded relate to financing activities and not as a result of our operations. If a stock purchase warrant is exercised, the Company is only obligated to issue shares in its common stock.

25

Index

If the Company were to issue stock purchase warrants with exercise prices in its functional currency, the warrants would be considered indexed to our stock and the fair value at date of issue recorded as equity. There would be no requirement under U.S. GAAP to report changes in its fair value from period to period.

Foreign Currency Translation

The parent company's functional currency is the United States dollar. The functional currencies of the Company's wholly-owned subsidiaries are the U.S. Dollar and the Canadian Dollar. Monetary assets and liabilities denominated in foreign currencies are translated using the exchange rate prevailing at the consolidated balance sheet date. Foreign currency transaction gains and losses are included in the statement of operations and comprehensive loss. The financial statements of the subsidiaries are translated to United States dollars in accordance with ASC 830 using period-end rates of exchange for assets and liabilities, and average rates of exchange for the period for revenues and expenses. Translation gains (losses) are recorded in accumulated other comprehensive income (loss) as a component of stockholders' equity.

Reclassification

Certain comparative figures have been reclassified to conform to the current quarter presentation.

Off-Balance Sheet Arrangements

We are not currently a party to, or otherwise involved with, any off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, or capital resources.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company's market risk profile has not changed significantly from its year ended June 30, 2013.

Foreign Currency Exchange Rate Risk

The Company holds cash balances in both U.S. and Canadian dollars. We transact most of our business in US and Canadian dollars. Some of our expenses, including labor and operating supplies are denominated in Mexican Pesos. As a result, currency exchange fluctuations may impact our operating costs. We do not manage our foreign currency exchange rate risk through the use of financial or derivative instruments, forward contracts or hedging activities.

In general, the strengthening of the U.S. dollar or Canadian dollar will positively impact our expenses transacted in Mexican Pesos. Conversely, any weakening of the U.S. dollar or Canadian dollar will increase our expenses transacted in Mexican Pesos. We do not believe that any weakening of the U.S. or Canadian dollar as compared to the Mexican Peso will have an adverse material effect on our operations.

Interest Rate Risk

The Company's investment policy for its cash and cash equivalents is focused on the preservation of capital and supporting the liquidity requirements of the Company. The Company's interest earned on its cash balances is impacted on the fluctuations of U.S. and Canadian interest rates. We do not use interest rate derivative instruments to manage exposure to interest rate changes. We do not believe that interest rate fluctuations will have any effect on our operations.

Index

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) and determined that our disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report on Form 10-Q. The evaluation considered the procedures designed to ensure that the information required to be disclosed by us in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and communicated to our management as appropriate to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control over Financial Reporting

During the period covered by this Quarterly Report on Form 10-Q, there was no change in our internal control over financial reporting (as such term is defined in Rules 13a-15(d) and 13d-15(d) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

(c) Inherent Limitations of Disclosure Controls and Internal Controls over Financial Reporting

Because of its inherent limitations, internal controls over financial reporting may not prevent or detect misstatements. Projections of any evaluation or effectiveness to future periods are subject to risks that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

None

Item 1A. Risk Factors

There have been no material changes in our risk factors from those disclosed in our Annual Report on Form 10-K for the period ended June 30, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Item 6. Exhibits
