ITEM 1.01 ENTRY INTO MATERIAL DEFINITIVE AGREEMENTS

On August 30, 2006, Euroweb International Corp. (the "Company"), entered into the following two agreements:

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form 8-K

1. A general purpose Joint Venture Agreement by and between the Company and Ashfield Finance LLC, a Delaware Corporation to form, develop and initially fund EA Emerging Ventures Corp ("EVC"), a Nevada Corporation which is a Joint Venture between the Company and Ashfield Finance LLC ("Ashfield") for the purpose of identifying Electronic Design Automation ("EDA") and IT development projects and possible real estate properties related thereto and other business ventures and investments. EA Emerging Ventures Corp. is owned 50% by the Company and 50% by Ashfield. The Company shall provide the initial funds for implementation of the business purposes of the Joint Venture and shall be entitled to a first priority return on any proceeds or income received by the Joint Venture. Ashfield shall provide services in the area of business, finance and taxation advice and has entered into a Consulting Agreement with EVC regarding these services. In consideration for such services, EVC shall receive its 50% interest as well as a payment of \$10,000 per month.

2. Subsequently, as the first transaction in connection with the Joint Venture with Ashfield Finance as set forth in (1) above, a Term Sheet to be formally documented in a Joint Venture Agreement with associated exhibits, License Agreement and Warrants by and between the Company and Dr. Danny Rittman in connection with the formation and joint venture and initial funding of Micrologic, Inc., a Nevada corporation, for the design and production of EDA applications and Integrated Circuit ("IC") design processes; specifically, the development and production of the NanoToolBox(TM) tools suite which shortens the time to market factor. NanoToolBox(TM) is a smart platform that is designed to accelerate IC's design time and shrink time to market factor. IC design firms will have the capability to produce more IC's in less time. The Term Sheet provides for an initial investment by the Company of up to \$1,000,000, with Warrants to purchase additional equity for additional investment. Initially, the Company will own 25.1% and Dr. Rittman will own 74.9% of Micrologic, Inc. but such equity positions would be revised depending upon the exercise of the Warrants. Micrologic, Inc. will enter into a License Agreement with Dr. Danny Rittman which grants Micrologic, Inc. the right to technology invented, owned and registered by Dr. Rittman. Upon execution of the final Joint Venture Agreement of Micrologic, Inc. between the parties, a subsequent Form 8K will be filed.
