Forward-Looking Statements

Certain statements contained in this Annual Report on Form 10-K are forward-looking statements. Forward-looking statements typically use words such as “believe,” “anticipate,” “should,” “intend,” “plan,” “will,” “expect,” “estimate,” “project,” “positioned,” “strategy” and similar expressions. These are based on assumptions and assessments made by our management in light of experience and perception of historical trends, current conditions, expected future developments and other factors that we believe to be appropriate. These forward-looking statements are subject to a number of risks and uncertainties, including without limitation, competition; product demand; the economy; the ability to hire and retain qualified employees; consumer debt levels; inflation; weather; raw material costs of our suppliers; energy prices; war and the prospect of war, including terrorist activity; availability of commercial transportation; construction delays; access to available and feasible financing; and changes in laws or regulations. Forward-looking statements are not guarantees of future performance and actual results, developments and business decisions may differ from those contemplated by such forward-looking statements, and such events could materially and adversely affect our business. Forward-looking statements speak only as of the date made. Except as required by applicable law, we undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. Actual results may materially differ from anticipated results. Please refer to the Risk Factors section contained in Item 1 under Part I of this Form 10-K, for more details.

PART I**Item 1. Business****Introduction**

We are the nation's leading specialty retailer of automotive parts and accessories, with most of our sales to do-it-yourself ("DIY") customers. We began operations in 1979 and at August 26, 2006 operated 3,771 stores in the United States, and 100 in Mexico. Each of our stores carries an extensive product line for cars, sport utility vehicles, vans and light trucks, including new and remanufactured automotive hard parts, maintenance items, accessories and non-automotive products. In many of our stores we also have a commercial sales program that provides commercial credit and prompt delivery of parts and other products to local, regional and national repair garages, dealers and service stations. We also sell the ALLDATA brand automotive diagnostic and repair software. On the web at www.autozone.com, we sell diagnostic and repair information, auto and light truck parts, and accessories. We do not derive revenue from automotive repair or installation.

At August 26, 2006, our stores were in the following locations:

Marketing and Merchandising Strategy

We are dedicated to providing customers with superior service, value and quality automotive parts and products at conveniently located, well-designed stores. Key elements of this strategy are:

Customer Service

Customer service is the most important element in our marketing and merchandising strategy, which is based upon consumer marketing research. We emphasize that our AutoZoners (employees) should always put customers first by providing prompt, courteous service and trustworthy advice. Our electronic parts catalog assists in the selection of parts; and lifetime warranties are offered by us or our vendors on many of the parts we sell. Our wide area network in our stores helps us to expedite credit or debit card and check approval processes, to locate parts at neighboring AutoZone stores and in some cases to place orders directly with our vendors.

Our stores generally open at 7:30 or 8 a.m. and close between 8 and 10 p.m. Monday through Saturday and typically open at 9 a.m. and close between 6 and 9 p.m. on Sunday. However, some stores are open 24 hours, and some have extended hours of 6 or 7 a.m. until midnight seven days a week.

We also provide specialty tools through our Loan-A-Tool® program. Customers can borrow a specialty tool, such as a steering wheel puller, for which a DIY customer or a repair shop would have little or no use other than for a single job. AutoZoners also provide other free services, including check engine light readings; battery charging; oil recycling; and testing of starters, alternators, batteries, sensors and actuators.

Merchandising

The following table shows some of the types of products that we sell:

Hard Parts	Maintenance Items	Accessories and Non-Automotive
A/C Compressors	Antifreeze & Windshield Washer	Air Fresheners
Alternators	Belts & Hoses	Cell Phone Accessories
Batteries & Accessories	Chemicals, including Brake & Power	Drinks & Snacks
Brake Drums, Rotors, Shoes & Pads	Steering Fluid, Oil & Fuel Additives	Floor Mats
Carburetors	Fuses	Hand Cleaner
Clutches	Lighting	Neon
CV Axles	Oil & Transmission Fluid	Mirrors
Engines	Oil, Air, Fuel & Transmission Filters	Paint & Accessories
Fuel Pumps	Oxygen Sensors	Performance Products
Mufflers	Protectants & Cleaners	Seat Covers
Shock Absorbers & Struts	Refrigerant & Accessories	Steering Wheel Covers
Starters	Sealants & Adhesives	Stereos
Water Pumps	Spark Plugs & Wires	Tools
	Wash & Wax	
	Windshield Wipers	

We believe that the satisfaction of DIY customers and professional technicians is often impacted by our ability to provide specific automotive products as requested. Our stores generally offer approximately 21,000 stock keeping units (“SKUs”), covering a broad range of vehicle types. Each store carries the same basic product lines, but we tailor our parts inventory to the makes and models of the vehicles in each store’s trade area. Our hub stores carry a larger assortment of products that can be delivered to commercial customers or local satellite stores. In excess of 750,000 additional SKUs of slower-selling products are available either through our vendor direct program (“VDP”), which offers overnight delivery, or through our salvage auto parts and original equipment manufacturer (“OEM”) parts programs.

We are constantly updating the products that we offer to assure that our inventory matches the products that our customers demand.

Pricing

We want to be perceived by our customers as the value leader in our industry by consistently providing quality merchandise at the right price, backed by a good warranty and outstanding customer service. On many of our products we offer multiple value choices in a good/better/best assortment, with appropriate price and quality differences from the “good” products to the “better” and “best” products. A key component is our exclusive line of in-house brands: Valucraft, AutoZone, Duralast and Duralast Gold. We believe that our overall prices and value compare favorably to those of our competitors.

Marketing: Advertising and Promotions

We believe that targeted advertising and promotions play important roles in succeeding in today’s environment. We are constantly working to understand our customers’ wants and needs so that we can build long-lasting, loyal relationships. We utilize promotions and advertising primarily to advise customers about the overall importance of vehicle maintenance, our great value and the availability of high quality parts. Broadcast and targeted loyalty efforts are our primary marketing methods of driving traffic to our stores. We utilize in-store signage and creative product placement to help educate customers about products they need.

Store Design and Visual Merchandising

We design and build stores for a high visual impact. The typical AutoZone store has an industrial “high tech” appearance by utilizing colorful exterior and interior signage, exposed beams and ductwork and brightly lighted interiors. Maintenance products, accessories and miscellaneous items are attractively displayed for easy browsing by customers. In-store signage and special displays promote products on floor displays, end caps and on the shelf.

Commercial

Our commercial sales program is one of the largest aftermarket sellers of automotive parts and other products to local, regional and national repair garages, dealers and service stations in the United States. As a part of the program we offer credit and delivery to our commercial customers. The program operated out of 2,134 stores as of August 26, 2006. Through our hub stores, we offer a greater range of parts and products desired by professional technicians, and this additional inventory is available for our DIY customers as well. Commercial has a national sales team focused on national and regional commercial accounts, as well as an outside sales force for customers located around our commercial stores.

Store Operations

Store Formats

Substantially all AutoZone stores are based on standard store formats, resulting in generally consistent appearance, merchandising and product mix. Approximately 85% to 90% of each store's square footage is selling space, of which approximately 40% to 45% is dedicated to hard parts inventory. The hard parts inventory area is generally fronted by counters or pods that run the depth or length of the store, dividing the hard parts area from the remainder of the store. The remaining selling space contains displays of maintenance, accessories and non-automotive items.

7

We have knowledgeable AutoZoners available to assist customers with their parts needs, utilizing our proprietary electronic parts catalog with a display screen that is visible to both the AutoZoner and the customer. In addition to helping ensure fast, accurate parts look-up in both English and Spanish, the parts catalog will also suggest additional items that a customer should purchase to properly install the merchandise being purchased.

We believe that our stores are “destination stores,” generating their own traffic rather than relying on traffic created by adjacent stores. Therefore, we situate most stores on major thoroughfares with easy access and good parking.

Store Personnel and Training

Each store typically employs from 10 to 16 AutoZoners, including a manager and, in some cases, an assistant manager. AutoZoners typically have prior automotive experience. All AutoZoners are encouraged to complete courses resulting in certification by the National Institute for Automotive Service Excellence (“ASE”), which is broadly recognized for training certification in the automotive industry. Although we do on-the-job training, we also provide formal training programs, including an annual national sales meeting, regular store meetings on specific sales and product issues, standardized training manuals and a specialist program that trains AutoZoners in several areas of technical expertise from both the Company and from independent certification agencies. Training is supplemented with frequent store visits by management.

Store managers receive financial incentives through performance-based bonuses. In addition, our growth has provided opportunities for the promotion of qualified AutoZoners. We believe these opportunities are important to attract, motivate and retain quality AutoZoners.

All store support functions are centralized in our store support centers located in Memphis, Tennessee and Mexico. We believe that this centralization enhances consistent execution of our merchandising and marketing strategies at the store level, while reducing expenses and cost of sales.

Store Automation

All of our stores have a proprietary electronic parts catalog that provides parts information based on the make, model and year of a vehicle. The electronic catalog also tracks inventory availability at the store, at other nearby stores and through special order. The catalog display screens are placed on the hard parts counter or pods, where both AutoZoners and customers can view the screen. In addition, our wide area network enables the stores to expedite credit or debit card and check approval processes, to access immediately national warranty data, to implement real-time inventory controls and to locate and hold parts at neighboring AutoZone stores.

Our stores utilize our computerized proprietary Store Management System, which includes bar code scanning and point-of-sale data collection terminals. The Store Management System provides administrative assistance and improved personnel scheduling at the store level, as well as enhanced merchandising information and improved inventory control. We believe the Store Management System also enhances customer service through faster processing of transactions and simplified warranty and product return procedures.

Store Development

The following table reflects store development during the past five fiscal years:

	2006	2005	Fiscal Year 2004	2003	2002
Beginning Domestic Stores	3,592	3,420	3,219	3,068	3,019
New Stores	185	175	202	160	102
Replaced Stores	18	7	4	6	15
Closed Stores	6	3	1	9	53
Net New Stores	179	172	201	151	49
Ending Domestic Stores	3,771	3,592	3,420	3,219	3,068
Ending Mexico Stores	100	81	63	49	39
Ending Total Stores	3,871	3,673	3,483	3,268	3,107

The fiscal 2006 closed store count reflects 4 stores that remain closed temporarily from hurricane damage. We believe that expansion opportunities exist both in markets that we do not currently serve, as well as in markets where we can achieve a larger presence. We attempt to obtain high visibility sites in high traffic locations and undertake substantial research prior to entering new markets. The most important criteria for opening a new store are its projected future profitability and its ability to achieve our required investment hurdle rate. Key factors in selecting new site and market locations include population, demographics, vehicle profile, number and strength of competitors' stores and the cost of real estate. In reviewing the vehicle profile, we also consider the number of vehicles that are seven years old and older- "our kind of vehicles," as these are generally no longer under the original manufacturers' warranties and will require more maintenance and repair than younger vehicles. We generally seek to open new stores within or contiguous to existing market areas and attempt to cluster development in markets in a relatively short period of time. In addition to continuing to lease or develop our own stores, we evaluate and may make strategic acquisitions.

Purchasing and Supply Chain

Merchandise is selected and purchased for all stores through our two store support centers located in Memphis, Tennessee and Mexico. No one class of product accounts for as much as 10 percent of our total sales. In fiscal 2006, no single supplier accounted for more than 10 percent of our total purchases. We generally have few long-term contracts for the purchase of merchandise. We believe that we have good relationships with suppliers. We also believe that alternative sources of supply exist, at similar cost, for most types of product sold. Most of our merchandise flows through our distribution centers to our stores by our fleet of tractors and trailers or by third-party trucking firms.

Our hub stores have increased our ability to distribute products on a timely basis to many of our stores. A hub store is able to provide replenishment of products sold and deliver other products maintained only in hub store inventories to a store in its coverage area generally within 24 hours. Hub stores are generally replenished from distribution centers multiple times per week.

Competition

The sale of automotive parts, accessories and maintenance items is highly competitive in many areas, including name recognition, product availability, customer service, store location and price. AutoZone competes in both the retail DIY and commercial do it for me ("DIFM") auto parts and accessories markets.

Competitors include national and regional auto parts chains, independently owned parts stores, wholesalers and jobbers, repair shops, car washes and auto dealers, in addition to discount and mass merchandise stores, department

stores, hardware stores, supermarkets, drugstores and home stores that sell aftermarket vehicle parts and supplies, chemicals, accessories, tools and maintenance parts. AutoZone competes on the basis of customer service, including the trustworthy advice of our AutoZoners, merchandise selection and availability, price, product warranty, store layouts and location.

Trademarks and Patents

We have registered several service marks and trademarks in the United States Patent and Trademark office as well as in certain other countries, including our service marks, “AutoZone” and “Get in the Zone,” and trademarks, “AutoZone,” “Duralast,” “Duralast Gold,” “Valucraft” and “ALLDATA.” We believe that the “AutoZone” service marks and trademarks are important components of our merchandising and marketing strategy.

Employees

As of August 26, 2006, we employed approximately 53,000 persons, approximately 57 percent of whom were employed full-time. About 91 percent of our AutoZoners were employed in stores or in direct field supervision, approximately 6 percent in distribution centers and approximately 3 percent in store support functions. Included in the above numbers are approximately 1,600 persons employed in our Mexico operations.

We have never experienced any material labor disruption and believe that relations with our AutoZoners are generally good.

AutoZone Website

AutoZone’s primary website is at <http://www.autozone.com>. We make available, free of charge, at our investor relations website, <http://www.autozoneinc.com>, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities and Exchange Act of 1934, as amended, as soon as reasonably feasible after we electronically file such material with, or furnish it to, the Securities and Exchange Commission.

Item 1A. Risk Factors

Our business is subject to a variety of risks. Set forth below are certain of the important risks that we face and that could cause actual results to differ materially from historical results. These risks are not the only ones we face. Our business could also be affected by additional factors that are presently unknown to us or that we currently believe to be immaterial to our business.

We may not be able to increase sales by the same historic growth rates.

We have increased our store count in the past five fiscal years, growing from 3,040 stores at August 25, 2001, to 3,871 stores at August 26, 2006, an average store count increase per year of 5%. Additionally, we have increased annual revenues in the past five fiscal years from \$4.818 billion in fiscal 2001 to \$5.948 billion in fiscal 2006, an average increase per year of 5%. Annual revenue growth is driven by the opening of new stores and same-store sales. We cannot provide any assurance that we can continue to open stores or increase same-store sales.

Our business depends upon qualified employees.

At the end of fiscal 2006, our consolidated employee count was approximately 53,000. We cannot assure that we can continue to hire and retain qualified employees at current wage rates. If we do not maintain competitive wages, our customer service could suffer by reason of a declining quality of our workforce or, alternatively, our earnings could decrease if we increase our wage rates.

If demand for our products slows, then our business may be materially affected.

Demand for products sold by our stores depends on many factors. In the short term, it may depend upon:

- the number of miles vehicles are driven annually, as higher vehicle mileage increases the need for maintenance and repair. Mileage levels may be affected by gas prices and other factors.

the number of vehicles in current service that are seven years old and older, as these vehicles are no longer under the original vehicle manufacturers' warranties and will need more maintenance and repair than younger vehicles.

- the weather, as vehicle maintenance may be deferred.

the economy. In periods of rapidly declining economic conditions, both retail DIY and commercial DIFM customers may defer vehicle maintenance or repair. During periods of expansionary economic conditions, more of our DIY customers may pay others to repair and maintain their cars instead of working on their own vehicles or they may purchase new vehicles.

For the long term, demand for our products may depend upon:

the quality of the vehicles manufactured by the original vehicle manufacturers and the length of the warranty or maintenance offered on new vehicles.

restrictions on access to diagnostic tools and repair information imposed by the original vehicle manufacturers or by governmental regulation.

If we are unable to compete successfully against other businesses that sell the products that we sell, we could lose customers and our sales and profits may decline.

The sale of automotive parts, accessories and maintenance items is highly competitive based on many factors, including name recognition, product availability, customer service, store location and price. Competitors are rapidly opening locations near our existing stores. AutoZone competes as a supplier in both the DIY and DIFM auto parts and accessories markets.

Competitors include national, regional and local auto parts chains, independently owned parts stores, jobbers, repair shops, car washes and auto dealers, in addition to discount and mass merchandise stores, department stores, hardware stores, supermarkets, drugstores and home stores that sell aftermarket vehicle parts and supplies, chemicals, accessories, tools and maintenance parts. Although we believe we compete effectively on the basis of customer service, including the knowledge and expertise of our AutoZoners, merchandise quality, selection and availability, product warranty, store layout, location and convenience, price, and the strength of our AutoZone brand name, trademarks and service marks; some competitors may have competitive advantages, such as greater financial and marketing resources, larger stores with more merchandise, longer operating histories, more frequent customer visits and more effective advertising. If we are unable to continue to develop successful competitive strategies, or if our competitors develop more effective strategies, we could lose customers and our sales and profits may decline.

If we cannot profitably increase our market share in the commercial auto parts business, our sales growth may be limited.

Although we are one of the largest sellers of auto parts in the commercial market, to increase commercial sales we must compete against national and regional auto parts chains, independently owned parts stores, wholesalers and jobbers, repair shops and auto dealers. Although we believe we compete effectively on the basis of customer service, merchandise quality, selection and availability, price, product warranty and distribution locations, and the strength of our AutoZone brand name, trademarks and service marks, some automotive aftermarket jobbers have been in business for substantially longer periods of time than we have, have developed long-term customer relationships and have large available inventories. We can make no assurances that we can profitably develop new commercial customers or make available inventories required by commercial customers.

If our vendors continue to consolidate, we may pay higher prices for our merchandise.

In recent years, several of our vendors have merged and others have announced plans to merge. Further vendor consolidation could limit the number of vendors from which we may purchase products and could materially affect the prices we pay for these products.

Consolidation among our competitors may negatively impact our business.

In recent years, several large auto parts chains have merged. We do not know the impact these mergers will have upon competition in the automotive aftermarket. If our competitors are able to achieve efficiencies in their mergers, then there may be greater competitive pressures in the markets in which they are stronger.

War or acts of terrorism or the threat of either may negatively impact availability of merchandise and adversely impact our sales.

War or acts of terrorism, or the threat of either, may have a negative impact on our ability to obtain merchandise available for sale in our stores. Some of our merchandise is imported from other countries. If imported goods become difficult or impossible to bring into the United States, and if we cannot obtain such merchandise from other sources at similar costs, our sales and profit margins may be negatively affected.

In the event that commercial transportation is curtailed or substantially delayed, our business may be adversely impacted, as we may have difficulty shipping merchandise to our distribution centers and stores.

Rising energy prices may negatively impact our profitability.

As mentioned above, rising energy prices may impact demand for the products that we sell, overall transaction count and our profitability. Energy prices impact our merchandise distribution, commercial delivery, utility, and product costs.

Demand for our merchandise may decline if vehicle manufacturers refuse to make available the information our customers need to work on their own vehicles.

Demand for our merchandise may decline if vehicle manufacturers refuse to make available to the automotive aftermarket industry diagnostic, repair and maintenance information our customers, both retail (DIY) and commercial (DIFM), require to diagnose, repair and maintain their vehicles. Without public dissemination of this information, consumers may be forced to have all diagnostic work, repairs and maintenance performed by the vehicle manufacturers' dealer network.

Item 2. Properties

The following table reflects the square footage and number of leased and owned properties for our stores as of August 26, 2006:

	No. of Stores	Square Footage
Leased	1,764	10,440,562
Owned	2,107	14,272,799
Total	3,871	24,713,361

We have over 3.3 million square feet in distribution centers servicing our stores, most of which is owned, except for approximately 1.2 million square feet that is leased. Our distribution centers are located in Arizona, California, Georgia, Illinois, Ohio, Tennessee, Texas and Mexico. We opened a new distribution center near Dallas, Texas in fiscal 2005 and closed our smaller facilities in San Antonio, Texas in fiscal 2005 and Lafayette, Louisiana in fiscal 2006. Our primary store support center, which we own, is located in Memphis, Tennessee, and consists of approximately 260,000 square feet. We also own and lease other properties that are not material in the aggregate.

Item 3. Legal Proceedings

AutoZone, Inc. is a defendant in a lawsuit entitled "Coalition for a Level Playing Field, L.L.C., et al., v. AutoZone, Inc. et al.," filed in the U.S. District Court for the Southern District of New York in October 2004. The case was filed by more than 200 plaintiffs, which are principally automotive aftermarket warehouse distributors and jobbers (collectively "Plaintiffs"), against a number of defendants, including automotive aftermarket retailers and aftermarket automotive parts manufacturers. In the amended complaint, the plaintiffs allege, inter alia, that some or all of the automotive aftermarket retailer defendants have knowingly received, in violation of the Robinson-Patman Act (the "Act"), from various of the manufacturer defendants benefits such as volume discounts, rebates, early buy allowances and other allowances, fees, inventory without payment, sham advertising and promotional payments, a share in the manufacturers' profits, benefits of pay on scan purchases, implementation of radio frequency identification technology, and excessive payments for services purportedly performed for the manufacturers. Additionally, a subset of plaintiffs alleges a claim of fraud against the automotive aftermarket retailer defendants based on discovery issues in a prior litigation involving similar Robinson-Patman Act claims. In the prior litigation, the discovery dispute, as well as the underlying claims, were decided in favor of AutoZone and the other automotive aftermarket retailer defendants who proceeded to trial, pursuant to a unanimous jury verdict which was affirmed by the Second Circuit Court of Appeals. In the current litigation, plaintiffs seek an unspecified amount of damages (including statutory trebling), attorneys' fees, and a permanent injunction prohibiting the aftermarket retailer defendants from inducing and/or knowingly receiving discriminatory prices from any of the aftermarket manufacturer defendants and from opening up any further stores to compete with plaintiffs as long as defendants allegedly continue to violate the Act. The Company believes this suit to be without merit and is vigorously defending against it. Defendants have filed motions to dismiss all claims with prejudice on substantive and procedural grounds. Additionally, the Defendants have sought to enjoin plaintiffs from filing similar lawsuits in the future. If granted in their entirety, these dispositive motions would resolve the litigation in Defendants' favor.

On June 22, 2005, the Attorney General of the State of California, in conjunction with District Attorneys for San Bernardino, San Joaquin and Monterey Counties, filed suit in the San Bernardino County Superior Court against AutoZone, Inc. and its California subsidiaries. The San Diego County District Attorney later joined the suit. The lawsuit alleges that AutoZone failed to follow various state statutes and regulations governing the storage and handling of used motor oil and other materials collected for recycling or used for cleaning AutoZone stores and parking lots. The suit seeks \$12.0 million in penalties and injunctive relief.

AutoZone is involved in various other legal proceedings incidental to the conduct of our business. Although the amount of liability that may result from these other proceedings cannot be ascertained, we do not currently believe

that, in the aggregate, they will result in liabilities material to our financial condition, results of operations, or cash flows.

Item 4. Submission of Matters to a Vote of Security Holders

PART II

Item 5. Market for Registrant's Common Equity and Related Stockholder Matters

AutoZone's common stock is listed on the New York Stock Exchange under the symbol "AZO." On October 17, 2006, there were 3,589 stockholders of record, which does not include the number of beneficial owners whose shares were represented by security position listings.

We currently do not pay a cash dividend on our common stock. Any payment of dividends in the future would be dependent upon our financial condition, capital requirements, earnings, cash flow and other factors.

The following table sets forth the high and low sales prices per share of common stock, as reported by the New York Stock Exchange, for the periods indicated:

	Price Range of Common Stock	
	High	Low
Fiscal Year Ended August 26, 2006:		
Fourth quarter	\$ 94.61	\$ 83.81
Third quarter	\$ 102.00	\$ 91.35
Second quarter	\$ 99.32	\$ 86.50
First quarter	\$ 97.08	\$ 77.76
Fiscal Year Ended August 27, 2005:		
Fourth quarter	\$ 103.94	\$ 82.21
Third quarter	\$ 99.90	\$ 81.06
Second quarter	\$ 96.25	\$ 84.02
First quarter	\$ 89.70	\$ 73.16

During 1998 the Company announced a program permitting the Company to repurchase a portion of its outstanding shares not to exceed a dollar maximum established by the Company's Board of Directors. The program was most recently amended in March 2006, to increase the repurchase authorization to \$4.9 billion from \$4.4 billion. The program does not have an expiration date.

Shares of common stock repurchased by the Company during the quarter ended August 26, 2006, were as follows:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value that May Yet Be Purchased Under the Plans or Programs
May 7, 2006, to June 3, 2006	782,600	\$ 90.26	90,263,428	\$ 489,488,845
June 4, 2006, to July 1, 2006	2,279,095	92.23	92,542,523	279,293,809
July 2, 2006, to July 29, 2006	405,986	86.32	92,948,509	244,248,534
July 30, 2006, to August 26, 2006	273,600	88.01	93,222,109	220,168,283

Total	3,741,281	\$	90.87	93,222,109	\$	220,168,283
-------	-----------	----	-------	------------	----	-------------

The Company also repurchased, at fair value, an additional 62,293 shares in fiscal 2006, 87,974 shares in fiscal 2005, and 102,084 shares in fiscal 2004 from employees electing to sell their stock under the Company's Third Amended and Restated Employee Stock Purchase Plan, qualified under Section 423 of the Internal Revenue Code, under which all eligible employees may purchase AutoZone's common stock at 85% of the lower of the market price of the common stock on the first day or last day of each calendar quarter through payroll deductions. Maximum permitted annual purchases are \$15,000 per employee or 10 percent of compensation, whichever is less. Under the plan, 51,167 shares were sold to employees in fiscal 2006, 59,479 shares were sold in fiscal 2005, and 66,572 shares were sold in fiscal 2004. At August 26, 2006, 425,036 shares of common stock were reserved for future issuance under this plan. Once executives have reached the maximum under the employee stock purchase plan, the Amended and Restated Executive Stock Purchase Plan permits all eligible executives to purchase AutoZone's common stock up to 25 percent of his or her annual salary and bonus. Purchases by executives under this plan were 811 shares in fiscal 2006, 5,366 shares in fiscal 2005 and 11,005 shares in fiscal 2004. At August 26, 2006, 264,294 shares of common stock were reserved for future issuance under this plan.
