ITEM 1. DESCRIPTION OF BUSINESS

Pay88 was incorporated on March 22, 2005 under the name "Pay88, Ltd." in the State of New Hampshire. We subsequently decided to reincorporate in the State of Nevada by merging with and into Pay88, Inc., a Nevada corporation formed for such purpose on July 7, 2005. Such merger was effectuated on August 9, 2005.

Through our wholly-owned subsidiary, Chongqing Qianbao Technology Ltd. ("Qianbao"), a Chinese limited liability company, we are currently engaged in the sale of prepaid telephone and game cards through its internet website, <http://www.iamseller.com>. We currently offer for sale on such website over 800 software products, including cooking and language software and prepaid game cards for online games, as further described below.

Our History

Pay88 was incorporated on March 22, 2005 under the name "Pay88, Ltd." in the State of New Hampshire. We subsequently decided to reincorporate in the State of Nevada by merging with and into Pay88, Inc., a Nevada corporation formed for such purpose on July 7, 2005. Such merger was effectuated on August 9, 2005.

Between the date of our incorporation and our acquisition of Qianbao on September 6, 2006, we were focused on becoming involved in the business of facilitating money transfers from the United States to China. During such time period, our operations were focused on organizational, start-up, and fund raising activities and entering into an agreement with Chongqing Yahu Information Development Co., Ltd., as described below. We never commenced our proposed business operations or generated revenues in connection with such proposed operations.

In furtherance of our intentions to enter into the money transfer business between customers in the U.S. and China, on August 3, 2005, we entered into a five year agreement with Chongqing Yahu Information Development Co., Ltd. Pursuant to such agreement, Chongqing Yahu Information Development Co., Ltd. agreed to provide the system software to us. Mr. Tao Fan, a brother of Mr. Guo Fan, a director and officer of Pay88, is the Chief Executive Officer of Chongqing Yahu Information Development Co., Ltd. and owns 5% of its issued shares of capital stock. Chongqing Yahu Information Development Co., Ltd. is a member of CECA (China Electronic Commerce Association) a nationwide organization in the electronic commerce field in China. Chongqing Yahu Information Development Co., Ltd. has over 650 commercial users and over 250,000 individual users. The agreement provides for two services to be provided to us by Chongqing Yahu Information Development Co., Ltd. The first service is the provision of all proprietary software needed to effectuate fund transfers between the United States and China. The second service to be provided is technical assistance in the areas of installation and future product support. This support includes assistance with all technical aspects of the software as well as problem resolution and general inquiries. Both of these services are to be provided to us by Chongqing Yahu Information Development Co., Ltd. for a licensing fee that is based upon 20% of the gross fund transfer revenues. The fee is payable on a quarterly basis. The use of the software will enable us to provide wire transfers from the United States to China.

On September 5, 2006, we acquired Qianbao pursuant to a Share Purchase Agreement, dated as of such date, among Pay88, Qianbao, and Qianbao's two shareholders, Ying Bao and Chongqing Yahu Information Development Co., Ltd. Pursuant to such Share Purchase Agreement, Pay88 agreed to acquire Qianbao at a closing held simultaneously therewith by purchasing from Qianbao's shareholders all of their respective shares of Qianbao's registered capital stock, which represented 100% of the issued and outstanding registered capital stock of Qianbao. In consideration therefor, Pay88 agreed to issue to the Qianbao shareholders an aggregate of 5,000,000 shares of the Company's Series A Convertible Preferred Stock, to be allocated between the Qianbao shareholders as follows: 4,950,000 shares to Chongqing Yahu Information Development Co., Ltd. and 50,000 shares to Ying Bao. Mr. Tao Fan, a brother of Mr. Guo Fan, a director and officer of Pay88, is the Chief Executive Officer of Chongqing Yahu Information Development Co., Ltd. and owns 5% of its issued shares of capital stock.

Qianbao was incorporated on April 24, 2006, under the name "Chongqing Qianbao Technology Ltd." under the laws of the People's Republic of China. Qianbao engages in the sale of prepaid telephone and game cards on its internet website, www.iamseller.com, as further described below. On July 3, 2006, Qianbao purchased an office located at No. 78 1st Yanghe Village, Jiangbei District, Chongqing, China for a purchase price of approximately \$393,000. Such office serves as Qianbao's executive offices. Although we own the three units of office space, the underlying land is owned by the People's Republic of the State of China. Our right to use the land expires in 2037 and may be extended at that time.

Our Business

Through our subsidiary, Qianbao, we are engaged in the sale of prepaid telephone and game cards through Qianbao's website, www.iamseller.com. We have determined to focus all of our resources on the development of such business, in addition to the development of our web distribution platform. We presently have no intention to engage in the money transfer business. Nonetheless, we may in the future resume our plans to develop the money transfer business, as discussed below.

Qianbao's Business

Qianbao sells prepaid telephone cards and prepaid online video games on its website, www.iamseller.com, to consumers or retailers visiting such website. At present, the main products offered for sale on such website include the following: prepaid game cards, which allow the holder thereof to play online video games for the designated allotted time; and prepaid telephone calling cards. We also hope to add for sale on such website prepaid study cards, which allow the holder thereof to use online software that assists in the learning of various subjects including Chinese, English and cooking.

Qianbao does not manufacture any of the products offered for sale on its website. Qianbao purchases such products from third-party suppliers and thereafter resells them on Qianbao's website. Qianbao also arranges with some third-party suppliers to make their products available for sale on Qianbao's website, and Qianbao earns a commission on such sales. Such commission is a percentage of the revenues generated from such sales. The specific amount of such percentage is negotiated between Qianbao and each such supplier, but generally ranges from 1% to 5%. We have arranged for the following companies to supply products to be sold on Qianbao's website: Shandong Tianfu Online Platform (supplier of game cards); Sifang Online Distribution Platform (supplier of game cards); Chongqing Digital World (supplier of phone cards); Chongqing E Net Chongqing Sifang (supplier of phone cards); Chongqing Taoxing (supplier of study cards); and Chongqing Dezheng Technology Development.

Qianbao has many companies which have financial, technical and marketing resources significantly greater than those of Qianbao. Qianbao's major competitors include Yun Web, Cobuy, Star software, Jun Web, 17173, China card Net and gotogame. All of these competitors have been in operation for over two years, while we began our business this year.

Qianbao currently has forty-eight employees, all of whom are employed on a full-time basis. Twenty employees are involved in technical operations of the company, twenty are involved in sales and marketing, and the remainder is involved in human resources and finances.

All employees are employed pursuant to our standard employment contract, which sets forth the term of the employment, duties, compensation, and other such matters. In addition, all of our employees are required to sign our standard confidentiality agreement, pursuant to which they agree to maintain the confidentiality of all proprietary information of our company. We do not believe that any of these contracts are material to our business or operations.

Our Planned Money Transfer Business

Although we are presently focused on developing Qianbao's business, we intend in the future to resume our plans regarding our planned money transfer business. In such event, we hope to be able to facilitate secure online money transfer services from the United States to China. We would like to initially focus our services to people within the United States seeking to wire transfer money to China. Therefore, we hope to build and execute a marketing campaign that targets areas within the United States that has a large population of Chinese expatriates. We intend to employ various methods of marketing which may include internet advertising, telemarketing and commercial advertisements.

As discussed above, on August 3, 2005, we entered into a five (5) year agreement with Chongqing Yahu Information Development Co., Ltd. ("Yahu"), pursuant to which Yahu will provide to us the software we need to process money transfers, should we determine to commence such operations in the future. We hope that this agreement will assist us towards establishing us as a quality internet money transfer service provider. We believe that such software is easy to use for the consumer, has the ability to interact with relative ease with other businesses and financial institutions, and is secure enough to accommodate the strict internet security regulations of both the United States and China. We also believe that the software addresses the following requirements: experience in the China marketplace; real time transactions; ease of use; reliable and detailed account information; system expandability; internet based; where no bank/credit card is available, payment can be made when client deposits money with a financial institution which holds the money for the client (known as an electronic purse) ; transactions and transaction data be encrypted with the state-of-the-art network security technology; free registration; low cost of transaction; and on-going technical assistance and support.

We recognize that our current management and Board of Directors do not have sufficient marketing experience to create and execute an effective marketing plan. Accordingly, it is our intention to seek out a consulting firm(s) that specializes in this arena.

The electronic money transfer industry is highly competitive. The payment network we plan to introduce will encounter strong competition from many other banks and money wire transfer companies, including many with greater financial resources than ours. As the global money transfer market continues to expand, we expect there to be significant competition from companies similar to ours, as well as from larger and more established companies. Our competitors include the following:

Capital Electronic-Store (Capital Electronic-Store Online Payment Platform) was founded in March 1999. It is the earliest online payment service platform that implemented online transactions among multiple banks and multiple regions. Now it supports China's 19 banks and 60 plus cards and 4 international credit cards for online payment. It owns huge customers groups comprised of individual consumers as well as nearly 600 business enterprises and institutions, government agencies and social organizations.

The IPS of Universal e-Commerce China Ltd (IPS) is an internet payment system (IPS) developed by Universal Technologies Holdings Ltd. Its fast and secure trade mode has been widely accepted. The system has been widely used in many well-known e-commerce web sites. While they are not presently our direct competitors, they possess all the necessary software and regulation requirements as well as a solid customer base to swiftly become active in our environment.

SmartPay Jieyin Limited was funded in 2001. It is a company devoted to mobile payments that can be made from a clients' cell phone. A cell phone user can use his handset as a payment terminal to pay service or products via Jieyin's mobile payment system. While we do not offer "mobile payments", the ability to effectuate a wire transfer is similar in function.

Financial transaction reporting and state banking department regulations affect our business. As a money transmitter, we must comply with a number of domestic and international regulatory requirements, including the following: state licensing laws; federal and state anti-money laundering and the federal government's Office of Foreign Assets Control ("OFAC") regulations; laws of various foreign countries regulating the ability to conduct a money transfer business and requiring compliance with anti-money laundering regulations; state unclaimed property reporting; and state, federal and international privacy laws.

In the United States, 45 states require us to be licensed in order to conduct business within their jurisdiction. Requirements to be so licensed generally include minimum net worth, surety bonds, operational procedures and reserves or "permissible investments" that must be maintained in an amount equivalent to all outstanding payment obligations issued by us. The state minimum net worth requirements range from \$5,000 to \$100,000, depending on the number of offices or agents within the particular state. The types of securities that are considered "permissible investments" vary from state to state, but generally include United States government securities and other highly rated debt instruments. Most states require us to file reports on a quarterly or more frequent basis, verifying our compliance with their requirements. To assist in obtaining all required licenses, the company anticipates allocating \$50,000 towards the procurement of the required regulatory licenses. Such funds may come from the sale of equity and/or debt securities and/or loans.

The State of New Hampshire, which is the first state in which we intend to conduct our money transfer business, does not require us to be so licensed in order to conduct our business within its jurisdiction. However, the legislature of the State of New Hampshire is currently considering proposed legislation that would require us to be so licensed. If such legislation is passed, we will have to ensure that we are in compliance.

China, which is the only foreign state in which we currently anticipate doing business, may impose new or additional rules on money transfers, including regulations which (i) prohibit transactions in, to or from certain countries, governments, nationals and individuals and entities; (ii) impose additional identification, reporting or recordkeeping requirements; (iii) limit the entities capable of providing money transfer services and sales of payment instruments; (iv) limit or restrict the revenue which may be generated from money transfers, including revenue derived from foreign exchange; (v) require additional consumer disclosures; or (vi) limit the number or principal amount of money transfers which may be sent to or from the jurisdiction.

Under the USA Patriot Act, money service businesses, including our agents, are required to establish anti-money laundering compliance programs that include: internal policies and controls; the designation of a compliance officer; ongoing employee training; and an independent review function.

Unclaimed property laws of every state require that we track the relevant information on each money order or money transfer and, if unclaimed at the end of the statutory abandonment period, that we remit the proceeds of the unclaimed property to the appropriate jurisdiction. State abandonment periods for money orders and money transfers range from three to seven years, while those for official checks are generally three to five years. Certain foreign jurisdictions also may have unclaimed property laws.

In the ordinary course of our business, we collect certain types of consumer data and thus are subject to privacy laws. We are subject to the Gramm-Leach-Bliley Act of 1999 (the "GLB Act"), which requires that financial institutions have in place policies regarding the collection and disclosure of information considered nonpublic personal information. We intend to comply with the GLB Act by posting a privacy notice on our website, as well as posting a privacy notice on the forms completed by individuals in order to use services (for example, on our money transfer "send" form). We also intend to have confidentiality/information security agreements in place with our third-party vendors and service providers to the extent required by the GLB Act.

If we fail to comply with any applicable laws and regulations, this failure could result in restrictions on our ability to provide our products and services, as well as the imposition of civil fines and criminal penalties. We need to develop a compliance program to monitor and address legal and regulatory requirements and developments.

Such office was purchased by Qianbao on July 3, 2006, for a purchase price of approximately \$393,000. Although we own the three units of office space, the underlying land is owned by the People's Republic of the State of China. Our right to use the land expires in 2037 and may be extended at that time.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion should be read in conjunction with our financial statements and notes thereto included in this report. All information presented herein is based on our fiscal year ended December 31, 2006. Although Qianbao is a subsidiary of Pay88, the acquisition of Qianbao by Pay88 that was consummated on September 5, 2006 has been treated as a reverse merger of Qianbao. This means that Qianbao is the continuing entity for financial reporting purposes.

Plan of Operation

Through our subsidiary, Qianbao, we will continue to focus over the next twelve months on developing our internet distribution platform on Qianbao's website and increasing the volume of our sales of products on such website. Qianbao will continue to focus on developing its website, www.iamseller.com, and to build other internet websites on which it will operate a distribution platform through which we will be able to offer products for sale to consumers or retailers visiting such websites. Qianbao will continue to its efforts to arrange for suppliers to offer for sale on such website the following products: prepaid game cards, which allow the holder thereof to play online internet games for the designated allotted time; prepaid calling cards; and study cards, which allow the holder thereof to use online software that assists in the learning of various subjects including Chinese, English and cooking. Qianbao is in the process of arranging for the following companies to supply products to be sold on Qianbao's website: Shandong Tianfu Online Platform (supplier of game cards); Sifang Online Distribution Platform (supplier of game cards); Chongqing Digital World (supplier of phone cards); Chongqing E Net Chongqing Sifang (supplier of phone cards); Chongqing Taoxing (supplier of study cards); and Chongqing Dezheng Technology Development. We have not entered into any agreements with any of such suppliers. However, there is no assurance that we will be successful at marketing and selling these products, developing the distribution platform and any other of our objectives.

As of December 31, 2006, Pay88 had \$17,084 in cash. We believe that such funds will not be sufficient to effectuate our plans with respect to the business of Qianbao over the next twelve months. If Qianbao's internet distribution platform is developed, we will need to seek additional capital for the purpose of financing our marketing efforts.

We may also seek additional capital for the purpose of financing our plans with respect to our anticipated money transfer business. When and if we decide to resume our plans with respect to our money transfer business, we expect to incur a minimum of \$250,000 in expenses in order to effectuate such plans. We estimate that this will be comprised mostly of professional fees including; \$50,000 towards the procurement of the required regulatory licenses, \$75,000 towards the planning of a comprehensive marketing campaign and \$25,000 towards addressing technological infrastructure concerns. Additionally, \$100,000 will be needed for general overhead expenses such as for salaries, corporate legal and accounting fees, office overhead and general working capital. Accordingly, we will have to raise the funds to pay for these expenses.

There can be no assurance that additional capital will be available to us. Although we generally intend to raise additional funds, we have no specific plans, understandings or agreements with respect to such an offering, and we have given no contemplation with respect to the securities to be offered or any other issue with respect to any offering. We may seek to raise the required capital by other means. We will have to issue debt or equity or enter into a strategic arrangement with a third party. We currently have no agreements, arrangements or understandings with any person to obtain funds through bank loans, lines of credit or any other sources. Since we have no such arrangements or plans currently in effect, our inability to raise funds for a marketing program will have a severe negative impact on our ability to remain a viable company.

Results of Operations

For the period from April 24, 2006 (inception) to December 31, 2006 gross revenue was \$1,199,927, the cost of sales was \$1,173,264, and the gross profit was \$26,663. If we continue to realize gross margins similar to our historical amounts, we will continue to have cash flow problems. The revenues were derived from online product sales of prepaid game and telephone cards. Operating expenses were \$321,436. We had a loss from operations in the amount of \$294,773. The net loss during such period was \$297,764.

Liquidity and Capital Resources

Cash flow used in operations for the period from April 24, 2006 (inception) to December 31, 2006 was \$427,901.

The Company had a working capital deficiency of \$140,018 at December 31, 2006, and has funded its cash needs since inception with revenues generated from operations, related-party loans, and funds available from the initial and subsequent capitalizations of Qianbao. There can be no assurance that we will generate sufficient cash flows to fund operations. We have no lines of credit or other financing arrangements as of December 31, 2006. Accordingly, we may have to continue to rely on borrowings from our officers as we have done historically. Since any earnings, if realized, are anticipated to be reinvested in operations, cash dividends are not expected to be paid in the foreseeable future.

We have no current plans for the purchase or sale of any significant amounts of plant or equipment.

We have no current plans to make any significant changes in the number of employees.

Lack of Insurance

The Company currently has no insurance in force for its office facilities and operations and it cannot be certain that it can cover the risks associated with such lack of insurance or that it will be able to obtain and/or maintain insurance to cover these risks at economically feasible premiums.

Going Concern

The Company incurred a net loss of \$297,764 for the period April 24, 2006 (inception) to December 31, 2006. In addition, the Company had a working capital deficiency of \$140,018 at December 31, 2006. These factors raise substantial doubt about the Company's ability to continue as a going concern.

Critical Accounting Policies and Estimates

Recent Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" ("Interpretation No. 48"). Interpretation No. 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS No. 109, "Accounting for Income Taxes." Interpretation No. 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Interpretation No. 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. ITEM 7. FINANCIAL STATEMENTS

The Company's audited financial statements for the periods ended December 31, 2006 and 2005 are attached hereto as F-1 through F-13.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTANTS AND FINANCIAL DISCLOSURE

Wolinetz, Lafazan & Company, P.C. is our auditor. There have not been any changes in or disagreements with accountants on accounting and financial disclosure or any other matter.

ITEM 8A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 ("Exchange Act"), within the end of the period covered by this Annual Report on Form 10-KSB. Based on this evaluation, our principal executive officer and our principal financial officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective and adequately designed to ensure that the information required to be disclosed by us in the reports we submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the applicable rules and forms and that such information was accumulated and communicated to our chief executive officer and chief financial officer, in a manner that allowed for timely decisions regarding required disclosure.

Changes in Internal Controls

During the quarter ended December 31, 2006, there was no change in internal control over financial reporting that has materially affected, or is reasonably likely to materially affect our internal control over financial reporting.

Pay88's management, including the chief executive officer and chief financial officer, do not expect that its disclosure controls or internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. In addition, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake.

Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management's override of the control. The design of any systems of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of these inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected. Individual persons perform multiple tasks which normally would be allocated to separate persons and therefore extra diligence must be exercised during the period these tasks are combined. It is also recognized Star has not designated an audit committee and no member of the board of directors has been designated or qualifies as a financial expert. The Company should address these concerns at the earliest possible opportunity.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders
Pay88, Inc. (A Nevada Corporation)

We have audited the accompanying consolidated balance sheet of Pay88, Inc. and Subsidiary (“the Company”) as of December 31, 2006 and the related consolidated statements of operations, stockholders’ equity and cash flows for the period April 24, 2006 (inception) to December 31, 2006. These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion. Also, an audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company at December 31, 2006, and the results of their operations and their cash flows for the period April 24, 2006 (inception) to December 31, 2006 in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has incurred a net loss for the period April 24, 2006 (inception) to December 31, 2006 and as of December 31, 2006, had a working capital deficiency. These factors raise substantial doubt about the Company’s ability to continue as a going concern. Management’s plans regarding those matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

PAY88, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - Description of Business and Basis of Presentation

Organization

The Company was originally incorporated on March 22, 2005 under the laws of the State of New Hampshire as Pay88, Ltd. On July 7, 2005, Pay88, Inc. a Nevada corporation, was formed. Subsequently, the New Hampshire corporation was merged with and into the Nevada corporation. On September 5, 2006, Pay88, Inc. ("Pay88") entered into a Share Purchase Agreement (the "Share Purchase Agreement") with Chongqing Qianbao Technology Ltd., a limited Liability company organized under the laws of the People's Republic of China ("Qianbao"), Ying Bao ("Bao"), and Chongqing Yahu Information Development Co., Ltd., a limited liability company organized under the laws of the People's Republic of China ("Yahu"; and together with Bao, the "Qianbao Shareholders"). Pursuant to the Share Purchase Agreement, Pay88 agreed to acquire Qianbao at a closing held simultaneously therewith by purchasing from the Qianbao Shareholders all of their respective shares of Qianbao's registered capital stock, which represent 100% of the issued and outstanding registered capital stock of Qianbao. In consideration therefore, Pay88 agreed to issue to the Qianbao Shareholders an aggregate of 5,000,000 shares of Pay88 Series A Convertible Preferred Stock, to be allocated between the Qianbao Shareholders as follows: 4,950,000 shares to Yahu and 50,000 shares to Bao. Mr. Tao Fan, a brother of Mr. Guo Fan, a director and officer of Pay88, is the Chief Executive Officer of Yahu and owns 5% of its issued shares of capital stock.

The 5,000,000 shares of Pay88 Series A Preferred Stock is convertible into 14,000,000 shares of Pay88 common stock. The holders of shares of Series A Preferred Stock are entitled to the number of votes equal to the number of shares of common stock into which such shares of Series A Preferred Stock could be converted. With the issuance of the 5,000,000 shares of Pay88 Series A Preferred Stock, Qianbao's stockholders have voting control of Pay88 (approximately 58%) and therefore the acquisition was accounted for as a reverse acquisition. The combination of the two companies is recorded as a recapitalization of Qianbao pursuant to which Qianbao is treated as the continuing entity although Pay88 is the legal acquirer. The consolidated financial statements include the operations of Qianbao from April 24, 2006 (inception) to December 31, 2006, and the operations of Pay88 from September 6, 2006 to December 31, 2006.

Qianbao was incorporated on April 24, 2006 in Chongqing, China. Qianbao is currently primarily engaged in the sale of prepaid telephone cards and prepaid online video game cards that allow the user to play online video games for designated allotted times. Qianbao also intends to build a web distribution platform to provide effective services for connecting diversified service providers and consumer product suppliers to retailers and consumers in the Chinese market.

Pay88, Inc. and Chongqing Qianbao Technology Ltd. are hereafter collectively referred to as "the Company".

Going Concern

The Company incurred a net loss of \$297,764 for the period April 24, 2006 (inception) to December 31, 2006. In addition, the Company had a working capital deficiency of \$140,018 at December 31, 2006. These factors raise substantial doubt about the Company's ability to continue as a going concern.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 -

Basis of Presentation (Continued)

Going Concern (Continued)

There can be no assurance that sufficient funds will be generated during the next year or thereafter from operations or that funds will be available from external sources such as debt or equity financings or other potential sources. The lack of additional capital could force the Company to curtail or cease operations and would, therefore, have a material adverse effect on its business. Furthermore, there can be no assurance that any such required funds, if available, will be available on attractive terms or that they will not have a significant dilutive effect on the Company's existing stockholders.

During the period April 24, 2006 (inception) to December 31, 2006, the Company relied heavily for its financing needs on two of its officers and significant stockholders. In addition, the Company obtained financing through the sale of registered capital shares of Qianbao.

During the period April 24, 2006 (inception) to December 31, 2006 the Company:

- Received approximately \$212,000 in advances from two of its officers and significant stockholders;
- Received approximately \$721,000 from the initial and subsequent investments in connection with the founding of Qianbao.

The Company is attempting to address its lack of liquidity by raising additional funds, either in the form of debt or equity or some combination thereof. The Company is attempting to expand its game card and phone card sales and provide additional internet services. There can be no assurances that the Company will be able to raise the additional funds it requires and/or achieve its business goals.

The accompanying consolidated financial statements do not include any adjustments related to the recoverability or classification of asset-carrying amounts or the amounts and classifications of liabilities that may result should the Company be unable to continue as a going concern.

NOTE 2 -

NOTE 2 - Summary of Significant Accounting Policies (Continued)

Inventories

Inventories consist primarily of purchased game and phone cards. Inventories are carried at the lower of cost or market using the first-in, first-out method.

Property and Equipment

Property and equipment is stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets.

Revenue Recognition

For revenue from product sales, the Company recognizes revenue in accordance with Staff Accounting Bulletin No. 104, "Revenue Recognition" ("SAB No. 104"), which superseded Staff Accounting Bulletin No. 101, "Revenue Recognition in Financial Statements" ("SAB No. 101"). SAB No. 104 requires that four basic criteria must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists, (2) delivery has occurred; (3) the selling price is fixed and determinable; and (4) collectibility is reasonably assured. Determination of criteria (3) and (4) are based on management's judgment regarding the fixed nature of the selling prices of the products delivered and the collectibility of those amounts. Provisions for discounts and rebates to customers, estimated returns and allowances, and other adjustments are provided for in the same period the related sales are recorded. The Company recognized a bad debt provision of \$1,214 for the period ended December 31, 2006.

Advertising Costs

Advertising costs are expensed as incurred. Advertising costs amounted to \$19,773 for the period ended December 31, 2006.

Research and Development

Research and development costs are expensed as incurred.

Website Development Costs

Website development costs are expensed as incurred.

Income Taxes

The Company accounts for income taxes using the asset and liability method described in SFAS No. 109, "Accounting For Income Taxes", the objective of which is to establish deferred tax assets and liabilities for the temporary differences between the financial reporting and the tax bases of the Company's assets and liabilities at enacted tax rates expected to be in effect when such amounts are realized or settled. A valuation allowance related to deferred tax assets is recorded when it is more likely than not that some portion or all of the deferred tax assets will not be realized.

NOTE 2 - Summary of Significant Accounting Policies (Continued)

Foreign Currency Translation

The financial statements of the Company are translated pursuant to Statement of Financial Accounting Standards (SFAS) No. 52 - "Foreign Currency Translation." Qianbao is located and operated in China. The Chinese Yuan is the functional currency. The financial statements of Qianbao is translated to U.S. dollars using month-end rates of exchange for assets and liabilities, and average rates of exchange for revenues, costs and expenses. Translation gains and losses are deferred and recorded in accumulated other comprehensive income as a component of stockholders' equity.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Net Loss Per Common Share

Basic loss per share is computed by dividing net loss by the weighted average number of common shares outstanding during the period. The common stock issued and outstanding with respect to the pre-merger Pay88 stockholders has been included since April 24, 2006.

Diluted loss per share is computed similarly to basic loss per share except that it includes the potential dilution that could occur if dilutive securities were converted. Accordingly, dilutive loss per share includes the conversion of 5,000,000 shares of Pay88 Series A Convertible Preferred Stock into 14,000,000 shares of Pay88 common stock.

Fair Value of Financial Instruments

The carrying amounts of the Company's cash, accounts receivable, accounts payable, and notes and loans payable approximate fair value because of the immediate or short-term maturity of these financial instruments.

Recently Issued Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" ("Interpretation No. 48"). Interpretation No. 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS No. 109, "Accounting for Income Taxes." Interpretation No. 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Interpretation No. 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Interpretation No. 48 is effective beginning January 1, 2007. The Company believes that the adoption of Interpretation No. 48 will not have a material impact on its financial statements.

Commitments and Contingencies

Yahu Agreement

On August 3, 2005, the Company entered into a five year agreement with Chongqing Yahu Information Limited (“Yahu”). Yahu is a Chinese corporation formed by Mr. Tao Fan, a brother of Mr. Guo Fan, a significant stockholder, director and officer of the Company. As a result of the Share Purchase Agreement (see Note 1) Yahu owns 4,950,000 shares of Pay88 Series A Preferred Stock, representing approximately 53% voting control. The Agreement provides for two services to be provided to the Company by Yahu. The first service is the provision of all proprietary software needed to effectuate fund transfers between the U.S. and China. The second service to be provided is technical assistance in the areas of installation and future product support. This support includes assistance with all technical aspects of the software as well as problem resolution and general inquiries. Both of these services are to be provided to the Company by Yahu for a licensing fee that is based upon 20% of the gross fund transfer revenues. The fee is payable on a quarterly basis. The use of the software will enable the Company to provide wire transfers from the U.S. to China. Although this agreement is in force, it has been dormant and we presently have no intention to engage in the money transfer business.

Lack of Insurance

The Company currently has no insurance in force for its office facilities and operations and it cannot be certain that it can cover the risks associated with such lack of insurance or that it will be able to obtain and/or maintain insurance to cover these risks at economically feasible premiums.

NOTE 7 -

The initial capitalization was \$362,790 of which Yahu contributed \$350,280 and the individual contributed \$12,510. Subsequently, there was an additional capital contribution of \$358,705 of which Yahu contributed \$358,420 and the individual contributed \$285.

Pursuant to the Share Purchase Agreement (see Note 1), on September 5, 2006 5,000,000 shares of Pay88 Series A Convertible Preferred Stock was issued to the stockholders of Qianbao in exchange for 100% of the registered capital shares of Qianbao. The 5,000,000 shares of Pay88 Series A Preferred Stock is convertible into 14,000,000 shares of Pay88 common stock. The holders of shares of Series A Preferred Stock are entitled to the number of votes equal to the number of shares of common stock into which such shares of Series A Preferred Stock could be converted.

The Company's Board of Directors may, without further action by the Company's stockholders, from time to time, direct the issuance of any authorized but unissued or unreserved shares of preferred stock in series and at the time of issuance, determine the rights, preferences and limitations of each series. The holders of preferred stock may be entitled to receive a preference payment in the event of any liquidation, dissolution or winding-up of the Company before any payment is made to the holders of the common stock. Furthermore, the board of directors could issue preferred stock with voting and other rights that could adversely affect the voting power of the holders of the common stock.

Mr. Tao Fan is the Chief Executive Officer and Chairman of the Board of Directors of Qianbao, our wholly-owned subsidiary. NOTE 10 - Income Taxes

At December 31, 2006, the Company had available a net-operating loss carry-forward for Federal tax purposes of approximately \$248,000, which may be applied against future taxable income, if any, from 2025 to 2026. Certain significant changes in ownership of the Company may restrict the future utilization of these tax loss carry-forwards.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 10 -

Income Taxes

At December 31, 2006, the Company had available a foreign net-operating loss carryforward of approximately \$270,000, which may be applied against future foreign taxable income, if any, through 2011. The utilization of the foreign tax loss carryforwards are subject to the tax regulations of China, which, among other things, may require approval by the tax regulation agency of the utilization.

At December 31, 2006, the Company has a deferred tax asset of approximately \$186,000 representing the benefit of its federal, state and foreign net operating loss carry-forwards. The Company has not recognized the tax benefit because realization of the tax benefit is uncertain and thus a valuation allowance has been fully provided against the deferred tax asset. The difference between the Federal Statutory Rate of 34% and the Company's effective tax rate of 0% is due to an increase in the valuation allowance of approximately \$30,000.
