- (2) Have all other periodic reports required under Section 13 or 15(d) of the Securities Exchange Act of 1934 or Section 30 of the Investment Company Act of 1940 during the preceding 12 months or for such shorter period that the registrant was required to file such report(s) been filed? If the answer is no, identify report(s).

Yes No

- (3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

As previously reported in its Current Report on Form 8-K filed on February 13, 2007, the Registrant completed a share exchange transaction (the "Share

Exchange Transaction") with Fame Good International Limited ("Fame Good"), a British Virgin Islands company, and Universe Faith Group Limited ("Universe Faith"), a British Virgin Islands company, on February 7, 2007 which resulted in a change in control of the Registrant. Prior to February 7, 2007, the Registrant was a shell corporation and was not engaged in any active business. The Share Exchange Transaction changed the Registrant's operations from the operations reported with respect to the corresponding period of the Registrant's last fiscal year. Through the Registrant's Chinese operating subsidiaries, the Registrant now manufactures and sells industrial blowers that are components of steam-driven electrical power generation plants and industrial steam and water turbines, also principally for use in electrical power generation plants.

Although the Registrant was the surviving legal entity in the Share Exchange Transaction, the transaction is accounted for as a reverse acquisition with Universe Faith deemed as the accounting acquirer. Accordingly, Universe Faith's historical results are being carried forward and the Registrant's operations will be included in the financial statements commencing on the effective date of the Share Exchange Transaction. Therefore, the amounts of revenue, net profit, assets, liabilities and shareholder's equity will differ significantly from the financial results reported with respect to the corresponding period of the Registrant's last fiscal year as a result of such reverse acquisition accounting. The Registrant is unable to provide an accurate quantitative estimate of the results for the quarters ended June 30, 2007 and 2006, as it has not yet completed the information necessary to provide such an estimate.
