FEMSA Delivers Double-Digit Growth in 4Q08 and 2008
Operating Income increased 15.0% in 4Q08 and 14.9% in 2008

Monterrey, Mexico, February 26, 2009 — Fomento Económico Mexicano, S.A.B. de C.V. (“FEMSA”) announced today its operational and financial results for the fourth quarter and full year 2008.

Fourth Quarter 2008 Highlights:

- Consolidated total revenues grew 15.4% and income from operations grew 15.0%. In spite of the increasingly challenging economic environment and a more cautious consumer, FEMSA delivered robust growth in operating income driven by strong results at Coca-Cola FEMSA and FEMSA Comercio that more than offset the mixed results at FEMSA Cerveza.
- Coca-Cola FEMSA total revenues and income from operations increased 23.9% and 25.7%, respectively. Driven by double-digit income from operations growth in Mercosur and Latincentro and robust growth in Mexico.
- FEMSA Cerveza total revenues increased 8.6%. In an environment of healthy pricing and lapping solid 6.0% volume growth in 4Q07, sales volume decreased 0.7% in Mexico. In Brazil, volumes declined 3.5% having grown 9.3% in 4Q07, and as a result of unfavorable weather conditions. Export sales volume grew a robust 12.3%, despite the decline in the overall US import category. Continued raw material pressures and sustained marketing investments behind our brands across our operations resulted in a 9.3% decrease in income from operations.
- FEMSA Comercio continued its pace of strong growth and margin expansion. Income from operations increased over 27.0% for the 8th consecutive quarter, resulting in an operating margin expansion of 110 basis points to reach 9.3%.

2008 Full Year Highlights:

- Consolidated total revenues increased 13.9%. All operating units contributed to this top-line growth.
- Consolidated income from operations increased 14.9%, driven by double-digit growth at Coca-Cola FEMSA and FEMSA Comercio.
- Coca-Cola FEMSA total revenue and income from operations increased 19.8% and 19.2%, respectively. Strong growth in Mercosur, supported by the integration of Remil, and by Latincentro, as well as more tempered growth in Mexico drove these results.
- FEMSA Cerveza total revenues increased 7.1%, mainly as a result of increases in average price per hectoliter across our main operations in local currencies. Income from operations decreased 1.9%, reflecting continued pressure on raw materials and sustained investment in our brands.

- FEMSA Comercio income from operations increased 32.6%, reaching an all-time-high operating margin of 6.5% and resulting in a 100 basis point expansion. For the 7th consecutive year, income from operations increased over 25%, driven by the opening of 811 new stores during the year as well as by stable same store sales.
-

José Antonio Fernández, Chairman and CEO of FEMSA, commented: “2008 was a challenging year for businesses across geographies and industries, and yet, we were able to deliver double digit growth in revenues and income from operations. Over the past decade, our results underscore the strengths of an integrated beverage platform and continuous improvement driven at every stage of the value chain. During the year, every one of our business units advanced in the execution of our strategy, and today our competitive position and our skill set are stronger than ever before.

As we enter another tough year, the business environment continues to soften. Our products are defensive in nature and we expect the impact of the downturn to be relatively moderate, but clearly we are not immune and our consumers are going through difficult times. However, in terms of the business drivers that are within our control, we are taking broad measures to rationalize costs, expenses and investments at every level of the organization, so that we are in a good position to weather the storm and come out in even better shape than we are today”.

FEMSA Consolidated

Beginning on January 1st 2008, in accordance to changes in the Mexican Financial Reporting Standards (Mexican FRS) related to inflation effects, we discontinued inflation accounting for our subsidiaries in Mexico, Guatemala, Panama, Colombia and Brazil. 2008 figures for these subsidiaries are therefore in nominal pesos. For the rest of our subsidiaries in Nicaragua, Costa Rica, Venezuela and Argentina, we applied inflation accounting during 2008. For comparison purposes, the figures for 2007 have been restated in Mexican pesos with purchasing power as of December 31, 2007.

As a useful reference, we note that local currencies in our major operations depreciated against the US dollar during 2008, particularly during the fourth quarter. The Mexican Peso depreciated approximately 25% in the quarter and for the year, and the Brazilian Real approximately 32% and 22% in the quarter and for the year, respectively.

Total revenues increased 15.4% compared to 4Q07, to Ps. 44.816 billion. Coca-Cola FEMSA and FEMSA Comercio together accounted for over 90% of the consolidated revenue increase, while FEMSA Cerveza provided the balance.

For the full year of 2008, consolidated total revenues increased 13.9% to Ps. 168.022 billion. This growth resulted from double-digit growth at Coca-Cola FEMSA and FEMSA Comercio, combined with high-single digit growth at FEMSA Cerveza.

Gross profit increased 14.8% compared to 4Q07 to Ps. 20.945 billion in 4Q08. Gross margin decreased 30 basis points compared to the same period in 2007 to 46.7%. FEMSA Comercio gross profit improvement partially offset cost pressures at Coca-Cola FEMSA, coming from the integration of Jugos del Valle, which is currently a lower-profitability business, and the depreciation of the local currencies as applied to our US dollar denominated cost, as well as raw material pressure at FEMSA Cerveza.

For the full year of 2008, gross profit increased 14.5% to Ps. 77.623 billion. Gross margin rose 20 basis points compared to the same period in 2007 to 46.2% of total revenues. FEMSA Comercio’s gross profit increase more than offset raw material pressure at Coca-Cola FEMSA and FEMSA Cerveza and the depreciation of the local currencies against the US dollar as applied to our dollar denominated costs.

Income from operations increased 15.0% to Ps. 6.712 billion in 4Q08 as compared to the same period in 2007; double-digit growth at Coca-Cola FEMSA and FEMSA Comercio more than offset an operating income decline at FEMSA Cerveza. Consolidated operating margin remained flat as compared to 4Q07 at 15.0%, FEMSA Comercio

and Coca-Cola FEMSA operating margin improvement offset margin pressure at FEMSA Cerveza.

For the full year of 2008, income from operations increased 14.9% to Ps. 22.684 billion. Our consolidated operating margin for the year reached 13.5%, an improvement of 10 basis points as compared to the same period in 2007, as FEMSA Comercio operating margin improvement offset margin pressure at FEMSA Cerveza and Coca-Cola FEMSA.

February 26, 2009

2

Net income decreased 75.9% compared to 4Q07 to Ps. 868 million in 4Q08, reflecting a higher integral result of financing during the quarter. This increase resulted from (i) a shift from a gain to a non-cash loss in our foreign exchange position, due to the depreciation of the local currencies in our markets against the US dollar, as applied to our liability position, (ii) a shift from a gain to a loss in certain derivative instruments that do not meet hedging criteria for accounting purposes, driven by the mark-to-market recognition in our US dollar cross currency swaps and to a lesser extent, the unwinding of certain commodity hedges and iii) a shift from a gain to a loss in monetary position, reflecting changes in the Mexican Financial Reporting Standards, as inflationary adjustment is no longer applied to the vast majority of our liability position. During the quarter, the increase in other expenses resulted mainly from write-off expenses derived from asset rationalization at Coca-Cola FEMSA in Mexico. The effective tax rate was 41.2% in 4Q08 compared with 31.5% in 4Q07, as a result of lower income before taxes, and reflecting the change in the Mexican Financial Reporting Standards, pursuant to which inflation adjustments are no longer made for accounting purposes but continue to be made for tax purposes.

For the full year of 2008, in spite of robust growth in income from operations, net income decreased 22.3% compared to the same period of 2007 to Ps. 9.278 billion, mainly due to the first two factors described above for the fourth quarter as well as lower gains on monetary position. The effective tax rate was 31.2% in 2008 compared with 29.3% in 2007, reflecting additional tax provisions in some of our operations which partially offset the same factors mentioned above for the fourth quarter.

Net majority income decreased 77.8% over 4Q07, resulting in Ps. 0.16 per FEMSA Unit1 in 4Q08. Net majority income per FEMSA ADS was US\$ 0.12 for the quarter. Net majority income decreased 21.2% over 2007, resulting in Ps. 1.87 per FEMSA Unit1 (US\$ 1.36 per FEMSA ADS) for the 2008.

Capital expenditures increased 38.2% over 4Q07 to Ps. 5.409 billion in 4Q08, resulting from increased investment in the beverage business units related to additional capacity and distribution assets, and the accelerated expansion in store openings at FEMSA Comercio. For the full year of 2008, capital expenditures increased 26.4% over 2007 to Ps. 14.234 billion for the same reasons.

The consolidated balance sheet as of December 31, 2008, recorded a cash balance of Ps. 9.110 billion (US\$ 658.6 million), a decrease of Ps. 1,346 million (US\$ 97.3 million) compared to the same period of 2007, mainly as a result of cash acquisitions made by Coca-Cola FEMSA over the last twelve months, including Remil, and the payment of the maturities of our certificados bursátiles during the year. Short-term debt was Ps. 11.648 billion (US\$ 842.1 million) while long-term debt was Ps. 31.275 billion (US\$ 2.261 billion). Our net debt increased by Ps. 4.241 billion (US\$306.6 million) mainly driven by the appreciation of the US dollar as applied to our US dollar liability position and by cash acquisitions described above.

Consistent with FEMSA's conservative approach, as of December 31, 2008, our ratio of net debt to EBITDA² was only 1.1x, while our mix of US dollar-denominated debt represented 22.6% and our mix of fixed interest rate represented 55.0%. In terms of our debt profile, we have approximately Ps. 11.6 billion coming due in 2009, we expect to refinance Ps. 9.3 billion and to pay down the balance with internal cash generation. For 2010 and 2011, we have minor debt maturities, and our debt profile currently extends as far out as 2017.

As a matter of policy, FEMSA follows a conservative approach to leverage and risk management and makes limited use of derivative instruments to reduce the volatility and uncertainty of operating results by hedging risks such as interest rate, foreign exchange and the price of certain raw materials.

Soft Drinks – Coca-Cola FEMSA

Coca-Cola FEMSA's financial results and discussion are incorporated by reference from Coca-Cola FEMSA's press release, which is attached to this press release or visit www.coca-colafemsa.com.

1 FEMSA Units consist of FEMSA BD Units and FEMSA B Units. Each FEMSA BD Unit is comprised of one Series B Share, two Series D-B Shares and two Series D-L Shares. Each FEMSA B Unit is comprised of five Series B Shares. The number of FEMSA Units outstanding as of December 31, 2008 was 3,578,226,270 equivalent to the total number of FEMSA Shares outstanding as of the same date, divided by 5.

2 As used herein, Net debt/EBITDA is calculated by dividing net debt at the end of the quarter by the EBITDA for year, as reported in Mexican pesos and converted to US dollars with the period-end exchange rate.

February 26, 2009

3

Beer – FEMSA Cerveza

Mexico sales volume decreased 0.7% to 7.118 million hectoliters in 4Q08 compared with 4Q07. This decrease reflects an increasingly cautious consumer as well as price increases implemented in the first and third quarters of 2008. Our Tecate brand family had another quarter of strong performance and our new line extensions, such as Sol Limón y Sal and Sol Cero, delivered encouraging results. For the full year of 2008, despite solid volume growth during the first half of the year, consumer demand softened during the second half, reflecting strong pricing and tough comparisons, resulting in a 1.6% increase in sales volume to 27.393 million hectoliters.

Brazil sales volume declined 3.5% in 4Q08 over a solid 9.3% volume growth in 4Q07, to 3.146 million hectoliters. This decrease reflects price increases implemented at the end of the third quarter, ahead of our competitors, and to a lesser extent unfavorable weather conditions. For the full year of 2008, Brazil sales volume increased 3.9% to 10.181 million hectoliters outpacing industry growth for the second consecutive year.

Export sales volume increased 12.3% in 4Q08, cycling a 19.3% growth in 4Q07, to 752 thousand hectoliters in 4Q08, despite a challenging economic environment in the US. This increase was mainly driven by our Dos Equis and Tecate brands in the US as well as by Sol in other key markets. For the full year of 2008, export sales volume increased 9.3% to 3.479 million hectoliters, well above import category and total industry growth in the US.

Total revenues increased 8.6% over 4Q07 to Ps. 11.492 billion in 4Q08. Higher average price per hectoliter mainly in Mexico, combined with solid volume growth in exports, drove these results. Mexican beer sales represented 73.8% of total beer revenues, while Brazil and Export beer sales reached 17.3% and 8.9% of total beer revenues, respectively.

Mexico price per hectoliter increased 10.0% over 4Q07 to Ps. 1,096.9 in 4Q08, resulting from price increases implemented during the year as well as from the positive pricing effect of incremental domestic volume brought under direct distribution during the last twelve months, which now stands at 91% of our total domestic volume. Brazil price per hectoliter in Mexican pesos decreased 1.7% to Ps. 583.3 compared to the same period in 2007, driven by the depreciation of the Brazilian Real versus the Mexican Peso. However price per hectoliter in local currency was 5.8% higher, as a result of price increases implemented late in the year. Export price per hectoliter in Mexican pesos increased 16.7% to Ps. 1,251.9 in 4Q08 as compared with 4Q07, reflecting the Mexican peso depreciation versus the dollar. In US dollar terms, price per hectoliter declined 1.8% due to changes in product mix and moderate price increases implemented during the year.

For the full year of 2008, total revenues increased 7.1% to Ps. 42.385 billion. Mexican beer revenues reached 74.9% of total beer revenues up from 74.6% in the same period of 2007. Brazil beer revenues represented 15.8% of total beer revenues, down from 16.2% in the comparable period in 2007. Export beer revenues were 9.2% of total beer revenues, in line with the comparable period in 2007.

Cost of sales was Ps. 5.425 billion in 4Q08, an increase of 13.5% compared with 4Q07, well ahead of the 8.6% growth in total revenues. Cost per hectoliter increased by 14.4% as a result of continuous cost pressure coming particularly from higher grain prices resulting from hedging agreements, and the Mexican peso depreciation of 25% as applied to our dollar-denominated costs. Gross profit increased 4.6% over 4Q07 to Ps. 6.067 billion in 4Q08, while gross margin declined by 200 basis points from 54.8% in 4Q07 to 52.8% in 4Q08.

For the full year of 2008, cost of sales increased 9.6% to Ps. 19.540 billion. Gross margin declined by 100 basis points to 53.9%.

Income from operations decreased 9.3% compared to 4Q07 to Ps. 1,461 million in 4Q08, representing a margin decline of 250 basis points, driven mainly by the increase in cost per hectoliter. Cost pressure experienced during the quarter and an increase in selling expenses more than offset the robust top-line growth and administrative expense rationalization. Operating expenses increased 9.9% over 4Q07 to Ps. 4.606 billion, resulting from incremental selling expenses driven by (i) the incremental volumes that we brought under our direct distribution network, (ii) higher advertisement expense for our core export brands combined with the effect of the peso depreciation versus the US dollar as applied to these expenses, and (iii) continuous marketing investment behind our brands and at the point of sale in Mexico. Approximately 60% of the incremental selling expenses are driven by the first two items.

For the full year of 2008, income from operations decreased 1.9% to Ps. 5.394 billion, representing 12.7% of total revenues, or 120 basis points below 2007, reflecting mainly the decline in gross margin.

February 26, 2009

FEMSA Comercio

Total revenues increased 11.1% over 4Q07 to Ps. 12.206 billion in 4Q08 driven by the opening of 286 net new stores in the quarter, for a total of 811 net new store openings in the year, with stable same-store sales. As of December 31, 2008, there were a total of 6,374 stores in Mexico, exceeding the objective for the year. Same-store sales were virtually flat, up an average of 0.1% for the quarter over 4Q07, driven by a 12.1% increase in store traffic, which more than offset a 10.7% decline in the average customer ticket. As was the case during the first nine months of 2008, store ticket and traffic dynamics reflect the mix shift from prepaid wireless phone cards to the sale of electronic air-time, for which only the margin is recorded, not the full amount of the air-time recharge. On a comparable basis excluding this change, the average ticket would have grown in the mid-single-digits in 4Q08.

For the full year of 2008, total revenues increased 12.0% to Ps. 47.146 billion. FEMSA Comercio same-store sales increased an average of 0.4% driven by a 13.0% increase in store traffic, which more than offset an 11.2% reduction in average ticket.

Gross profit increased by 26.0% in 4Q08 compared to 4Q07, resulting in a 410 basis point gross margin expansion reaching 34.4%. This increase largely reflects the shift towards electronic air-time recharges as described above. The balance came from growth in higher-margin categories such as cigarettes and ready-to-drink coffee, among others, as well as better pricing strategies and improved commercial terms with our supplier partners. For the full year of 2008, gross margin expanded by 290 basis points to 30.9%.

Income from operations increased 27.0% over 4Q07 to Ps. 1.139 billion in 4Q08. Operating expenses increased 25.6% to Ps. 3,060 million, mainly driven by incremental selling expenses such as higher energy costs at the store level and expenses related to the strengthening of FEMSA Comercio's organizational structure, as planned. Operating margin expanded 110 basis points over 4Q07 reaching 9.3%, as the strong expansion of the gross margin more than offset the increase in operating expenses.

For the full year of 2008, income from operations increased 32.6% to Ps. 3.077 billion, resulting in an all-time high operating margin of 6.5%, a 100 basis point expansion as compared to the previous year.

CONFERENCE CALL INFORMATION:

Our Fourth Quarter 2008 Conference Call will be held on: Thursday February 26, 2009, 11:00 AM Eastern Time (10:00 AM Mexico City Time). To participate in the conference call, please dial: Domestic US: (1-888) 505-4328, International: (1-719) 325-2388. The conference call will be webcast live through streaming audio. For details please visit www.femsa.com/investor.

If you are unable to participate live, the conference call replay will be available through March 6, 2009; dialing Domestic US: (1-888) 203-1112, International: (1-719) 457-0820 using passcode: 4465369. Additionally, the conference call audio will be available on <http://ir.femsa.com/results.cfm>

We are a holding company whose principal activities are grouped under the following sub-holding companies and carried out by their respective operating subsidiaries: Coca-Cola FEMSA, S.A.B. de C.V., which engages in the production, distribution and marketing of non-alcoholic beverages; FEMSA Cerveza, S.A. de C.V., which engages in the production, distribution and marketing of beer and flavored alcoholic beverages; and FEMSA Comercio, S.A. de C.V., which engages in the operation of convenience stores.

The translations of Mexican pesos into US dollars are included solely for the convenience of the reader, using the noon day buying rate for pesos as published by the Federal Reserve Bank of New York at December 31, 2008, which was 13.8320 Mexican pesos per US dollar.

FORWARD LOOKING STATEMENTS

This report may contain certain forward-looking statements concerning our future performance that should be considered as good faith estimates made by us. These forward-looking statements reflect management's expectations and are based upon currently available data. Actual results are subject to future events and uncertainties, which could materially impact our actual performance.

(3) LTM figures

(4) Total debt / (long-term debt + stockholders' equity)

· Total revenues reached Ps. 22,752 million in the fourth quarter of 2008, an increase of 23.9% compared to the fourth quarter of 2007; the acquisition of Refrigerantes Minas Gerais (“Remil”) contributed approximately 35% of this growth.

· Consolidated operating income grew 25.7% to Ps. 4,053 million for the fourth quarter of 2008 mainly driven by double-digit operating income growth recorded in our Mercosur and Latincentro divisions. Our operating margin reached 17.8% for the fourth quarter of 2008.

· Consolidated majority net income decreased 69.7% to Ps. 585 million in the fourth quarter of 2008, mainly reflecting the devaluation of the Mexican peso as applied to our U.S. dollar-denominated debt, resulting in earnings per share of Ps. 0.32 in the fourth quarter of 2008.

Mexico City (February 25, 2009), Coca-Cola FEMSA, S.A.B. de C.V. (BMV: KOFL, NYSE: KOF) (“Coca-Cola FEMSA” or the “Company”), the largest Coca-Cola bottler in Latin America and the second-largest Coca-Cola bottler in the world in terms of sales volume, announces results for the fourth quarter of 2008.

"Despite of facing a challenging economic environment and pressures in our U.S. dollar-denominated raw material cost, our company delivered solid volume, revenue, and EBITDA growth for the quarter. Revenue-management and multi-segmentation strategies

across our territories, combined with the acquisitions we made during the year, drove our operations' top-and bottom-line growth. The successful integration of the Remil franchise territory in Brazil, the acquisition of the Agua de los Angeles jug water business in the Valley of Mexico and the consolidation of the Jugos del Valle line of business, specially in Mexico and Colombia, provided new avenues of growth for the company. This year, turbulent market and economic conditions present our company with the challenge of continuing to work relentlessly-without losing our focus-to achieve our goals. Our business is in a significantly better position to capture the opportunities that lie ahead in the beverage industry." said Carlos Salazar Lomelin, Chief Executive Officer of the Company.

February 25, 2009

Page 13

CONSOLIDATED FOURTH QUARTER 2008 RESULTS

Until December 31, 2007, we applied inflationary accounting for all of our operations. Beginning January 1, 2008, in accordance with changes in the Mexican Financial Reporting Standards related to inflation effects, we discontinued inflation accounting for our subsidiaries in Mexico, Guatemala, Panama, Colombia and Brazil. For the rest of our subsidiaries (Argentina, Venezuela, Costa Rica and Nicaragua) we will continue applying the inflationary accounting method. The figures for 2007 are stated in Mexican pesos with purchasing power at December 31, 2007 (instead of being restated as of December 31, 2008 as would have been the case under the previous methodology) taking into account local inflation of each country with reference to the consumer price index and converted from local currency to Mexican pesos using the official exchange rate of December 31, 2007 published by the local central bank of each country.

Beginning with the first quarter of 2008, we decided to align our quarterly disclosure based on the way we manage the business. We have regrouped our operations into three divisions: (i) Mexico division, (ii) Latincentro division, which is comprised of the territories we operate in Colombia, Venezuela, Guatemala, Nicaragua, Costa Rica and Panama, and (iii) Mercosur division, which is comprised of the territories we operate in Brazil and Argentina.

Our consolidated total revenues increased 23.9% to Ps. 22,752 million in the fourth quarter of 2008, compared to the fourth quarter of 2007, as a result of increases in all of our divisions. Pricing and volume growth accounted for more than 40% of incremental revenues. The consolidation of Refrigerantes Minas Gerais, Ltda. ("Remil") in Brazil contributed approximately 35% of incremental revenues for the quarter and a positive exchange rate translation effect provided the balance.

Total sales volume increased 7.4% to 599.8 million unit cases in the fourth quarter of 2008 as compared to the same period of 2007; excluding Remil, total sales volume increased 1.8% mainly driven by incremental volumes from brand Coca-Cola, our bottled water business and still beverages. Still beverages sales volume grew more than 120%, mainly driven by volumes from the Jugos del Valle brand in our Mexico division, accounting for more than 80% of incremental volumes in this category. Bottled water, including bulk water, represented the balance growing more than 6%, mainly driven by the consolidation of the Agua de Los Angeles business in Mexico.

Our gross profit increased 16.1% to Ps. 10,460 million in the fourth quarter of 2008, compared to the fourth quarter of 2007. Cost of goods sold increased 31.5% mainly driven by (i) the devaluation of the local currencies in our main operations as applied to our U.S. dollar-denominated raw material cost; (ii) higher year-over-year sweetener costs outside of our Mexico division; and (iii) lower profitability from the Jugos del Valle line of business, as expected this year in Mexico. Gross margin reached 46.0% in the fourth quarter of 2008 as compared to 49.1% in the same period of 2007.

Our consolidated operating income increased 25.7% to Ps. 4,053 million in the fourth quarter of 2008, mainly driven by double-digit operating income growth in our Latincentro and Mercosur divisions. Our operating margin was 17.8% in the fourth quarter of 2008, an increase of 20 basis points. Revenue growth, lower administrative and marketing expenses and operating leverage more than compensated for higher cost of goods sold.

During the fourth quarter of 2008, we recorded Ps. 426 million in the other expenses line. These expenses were mainly driven by (i) the write off of some fixed assets related to the closing of one of our production facilities in Mexico, in addition to the one previously mentioned in the third quarter press release, (ii) the loss on sale of some fixed assets and (iii) employee profit sharing recorded in the other expenses line, in accordance with the Mexican Financial Reporting Standards.

Our integral result of financing in the fourth quarter of 2008 recorded an expense of Ps. 2,823 million as compared to Ps. (162) million in the same period of 2007, mainly due to a higher foreign exchange expense driven by the devaluation of the Mexican peso as applied to our U.S. dollar-denominated debt.

During the fourth quarter of 2008, income tax, as a percentage of income before taxes, was 17.8% as a result of the cancellation of an allowance recorded in previous periods, related to tax credits in some of our operations.

Our consolidated majority net income decreased by 69.7% to Ps. 585 million in the fourth quarter of 2008 as compared to the fourth quarter of 2007, mainly reflecting the devaluation of the Mexican peso as applied to our U.S. dollar-denominated debt. Earnings per share (EPS) were Ps. 0.32 (Ps 3.17 per ADR) computed on the basis of 1,846.5 million shares outstanding (each ADR represents 10 local shares).

February 25, 2009

Page 14

BALANCE SHEET

As of December 31, 2008, Coca-Cola FEMSA had a cash balance of Ps. 6,192 million including US\$ 209 million in US dollar-currency, a decrease of Ps. 1,350 million compared to December 31, 2007, mainly as a result of cash used in the acquisitions of Remil and Agua de los Angeles.

Total short-term debt was Ps. 6,119 million and long-term debt was Ps. 12,455 million. Total debt decreased Ps. 342 million compared with year end 2007 mainly as a result of the maturities of our “Certificados Bursátiles” in April and July 2008. Net debt increased approximately Ps. 1,008 million compared to year end 2007, mainly as a result of cash used in the Remil and Agua de Los Angeles acquisition. KOF’s total debt balance includes U.S. dollar-denominated debt in the amount of US\$ 712 million (1).

The weighted average cost of debt for the quarter was 7.75%. The following charts set forth the Company’s debt profile by currency and interest rate type and by maturity date as of December 31, 2008:

Currency	% Total Debt(1)	% Interest Rate
		Floating(1)(2)
Mexican pesos	34.6%	79.8%
U.S. dollars	50.3%	64.6%
Colombian pesos	8.9%	100.0%
Venezuelan bolivars	1.9%	0.0%
Argentine pesos	4.3%	47.5%

- (1) After giving effect to cross-currency swaps and interest rate swaps.
(2) Calculated by weighting each year’s outstanding debt balance mix.

Debt Maturity Profile

Maturity Date	2009	2010	2011	2012	2013	2014 +
% of Total Debt	32.8%	10.3%	0.0%	21.3%	12.8%	22.8%

As of February 24, 2009 our cash balance was the equivalent of US\$ 651 million including US\$ 360 million in US dollar-currency and the proceeds of the bond offering made on January 28, 2009. These funds, in addition to the cash generation during the year, are sufficient to meet our maturities coming due in July of 2009, as well as other operating needs.

The difference between the reduction in debt of the balance sheet and the debt decrease in nominal terms presented in the cash flow is related to the foreign exchange impact, presented separately as translation effect, in accordance with the Mexican Financial Reporting Standards related to cash flow.

MEXICO DIVISION OPERATING RESULTS

In November 2007, Coca-Cola FEMSA together with The Coca-Cola Company acquired 100% of Jugos del Valle, S.A.B. de C.V. As of February 2008, we and the rest of the Coca-Cola bottlers are distributing the Jugos del Valle portfolio in our respective territories through the traditional channel. Volume, average price per unit case, cost of goods sold and operating expenses related to these products are recorded in our consolidated and Mexico division operating results.

Revenues

Total revenues from our Mexico division increased 4.5% to Ps. 8,450 million in the fourth quarter of 2008, as compared to the same period of the previous year. Incremental volumes accounted for the majority of incremental revenues during the quarter. Average price per unit case increased to Ps. 29.73, a 0.5% increase, as compared to the fourth quarter of 2007, reflecting higher average prices per unit case from our growing still beverage portfolio that were partially offset by lower average prices per unit case in sparkling flavors and higher volumes of brand Coca-Cola in multiserve presentations. Excluding bulk water under the brands Ciel and Agua de los Angeles, our average price per unit case was Ps. 34.75, a 1.7% increase as compared to the same period of 2007.

Total sales volume increased 3.9% to 282.9 million unit cases in the fourth quarter of 2008, as compared to the fourth quarter of 2007, resulting from incremental volumes in the still beverage category, increasing almost four times, driven by the Jugos del Valle product line and more than 8% volume growth in our bottled water business which more than compensated for a sales volume decline of 1.6% in sparkling beverages, which decline was driven mainly by flavored sparkling beverages.

Operating Income

Our gross profit decreased 1.6% to Ps. 4,287 million in the fourth quarter of 2008 as compared to the same period of 2007. Cost of goods sold increased 11.5% as a result of (i) lower profitability from the Jugos del Valle line of business, as expected this year, (ii) the devaluation of the Mexican peso as applied to our U.S. dollar-denominated raw material cost and (iii) the second stage of the concentrate increase, that offset lower year-over-year cost of sweeteners and resin. Gross margin decreased from 53.8% in the fourth quarter of 2007 to 50.7% in the same period of 2008.

Operating income increased 7.0% to Ps. 1,840 million in the fourth quarter of 2008, compared to Ps. 1,719 million in the same period of 2007, as a result of revenue growth and lower selling expenses, which more than compensated for higher cost of goods sold. Our operating margin was 21.8% in the fourth quarter of 2008, an increase of 50 basis points as compared to the same period of 2007.

February 25, 2009

Page 16

LATINCENTRO DIVISION OPERATING RESULTS (Colombia, Venezuela, Guatemala, Nicaragua, Costa Rica and Panama)

During this quarter Coca-Cola FEMSA continued to distribute Jugos del Valle in Colombia, Costa Rica, Panama and Nicaragua. Volume, average price per unit case, cost of goods sold and operating expenses related to these products are recorded in our consolidated and Latincentro division operating results.

Revenues

Total revenues reached Ps. 7,557 million in the fourth quarter of 2008, an increase of 34.1% as compared to the same period of 2007. Higher average price per unit case accounted for more than 40% of incremental revenues and a positive translation effect represented the balance. Excluding this translation effect, our Latincentro division revenues would have increased 14.1%.

Total sales volume in our Latincentro division decreased 2.6% to 139.9 million unit cases in the fourth quarter of 2008, as compared to the same period of 2007. Volume decline was mainly driven by a decrease in volumes in Venezuela due to operating disruptions in the month of December, that was partially offset by volume increases from sparkling beverages in Colombia and incremental volumes from the Jugos del Valle line of business in Colombia and Central America.

Operating Income

Gross profit reached Ps. 3,120 million, an increase of 23.2% in the fourth quarter of 2008, as compared to the same period of 2007, Cost of goods sold increased 42.9% mainly driven by the depreciation of the Colombian peso as applied to our U.S. dollar-denominated packaging costs and higher sweetener costs across the division. Gross margin decreased from 44.9% in the fourth quarter of 2007 to 41.3% in the same period of 2008, a decrease of 360 basis points.

Our operating income increased 43.1% to Ps. 983 million in the fourth quarter of 2008, compared to the fourth quarter of 2007, as a result of operating leverage achieved by higher revenues combined with lower marketing expenses in Colombia and Central America, which more than compensated for higher labor costs in Venezuela. Our operating margin reached 13.0% in the fourth quarter of 2008, resulting in an 80 basis points expansion as compared to the same period of 2007.

February 25, 2009

Page 17

MERCOSUR DIVISION OPERATING RESULTS (Brazil and Argentina)

As of June 2008, Coca-Cola FEMSA is including the Remil operations in its Mercosur division. Volume and average price per unit case exclude beer results.

Revenues

Net revenues increased 44.7% to Ps. 6,634 million in the fourth quarter of 2008, as compared to the same period of 2007. Excluding beer, which accounted for Ps. 646 million during the quarter, net revenues increased 44.1% to Ps. 5,988 million, compared to the same period of 2007. The acquisition of Remil accounted for more than 70% of this growth and higher average prices per unit case and volume growth accounted for the balance. Excluding a negative impact from currency translation, our Mercosur division revenues would have increased 48.0%

Sales volume, excluding beer, increased 24.1% to 177.0 million unit cases in the fourth quarter of 2008, as compared to the fourth quarter of 2007, mainly driven by the acquisition of Remil. Sales volume, excluding Remil and beer, increased 2.2% to reach 145.7 million unit cases. Sparkling beverages volume growth accounted for almost 50% of these incremental volumes, mainly driven by brand Coca-Cola; bottled water in Brazil and still beverages in Argentina provided the balance.

Operating Income

In the fourth quarter of 2008, our gross profit increased 43.7% to Ps. 3,053 million, as compared to the same period of the previous year. Cost of goods sold increased 47.0% driven by the devaluation of the local currencies as applied to our U.S. dollar-denominated raw material cost combined with higher sweetener cost in Brazil, as compared to the same period of last year. Our Mercosur division gross margin decreased 50 basis points to 45.3% in the fourth quarter of 2008.

Operating income increased 50.4%, reaching Ps. 1,230 million in the fourth quarter of 2008, as compared to Ps. 818 million in the same period of 2007. Operating leverage achieved by higher revenues more than compensated for (i) higher expenses related to expansion in our cooler coverage, (ii) the renewal of our distribution fleet in Brazil and (iii) higher labor and freight costs in Argentina. Our operating margin was 18.2% in the fourth quarter of 2008, an increase of 60 basis points as compared to the fourth quarter of 2007.

February 25, 2009

Page 18

SUMMARY OF FULL YEAR RESULTS

Our consolidated total revenues increased 19.8% to Ps. 82,976 million in 2008, as compared to 2007, as a result of growth in all of our divisions. The Latincentro division accounted for more than 45% of the growth, the acquisition of Remil contributed more than 20% of incremental revenues; Mexico and the Mercosur division, excluding Remil, represented the balance.

Total sales volume increased 5.8% to 2,242.8 million unit cases in 2008, as compared to the previous year. Excluding Remil, total sales volume increased 2.6% to reach 2,176.7 million unit cases; sparkling beverage sales accounted for close to 20% of these incremental volumes and our water business and still beverages represented the balance.

Our gross profit increased 17.1% to Ps. 39,081 million in 2008, as compared to the previous year, driven by gross profit growth across all of our divisions. Cost of goods sold increased 22.4% as a result of cost pressures related to the devaluation of local currencies in our main operations as applied to our U.S. dollar-denominated raw material costs and lower profitability from the Jugos del Valle line of business in Mexico, as expected this year. Gross margin reached 47.1% during 2008, a decrease of 110 basis points as compared to the same period of 2007.

Our consolidated operating income increased 19.2% to Ps. 13,695 million in 2008, as compared to 2007. Our Mercosur and Latincentro divisions accounted for close to 90% of this growth. Our operating margin remained almost flat at 16.5% in 2008.

Our consolidated majority net income was Ps. 5,598 million in 2008, a decrease of 19.0% compared to 2007, mainly reflecting the depreciation of the Mexican peso as applied to our U.S. dollar-denominated debt. EPS was Ps. 3.03 (Ps. 30.32 per ADR) in 2008, computed on the basis of 1,846.5 million shares outstanding (each ADR represents 10 local shares).

February 25, 2009

Page 19

RECENT DEVELOPEMENTS

- On January 29, 2009, Coca-Cola FEMSA successfully issued Ps. 2,000 million in 1.1 year “Certificados Bursátiles” at a yield of 28-day TIIE plus 80 basis points. The proceeds from this issuance were used to bolster existing cash reserves and complement expected free cash flow.
- On February 6, 2009 – Coca-Cola FEMSA and The Coca-Cola Company received an approval from the Colombian anti-trust authorities to jointly acquire the Brisa bottled water business (including the Brisa brand and production assets) from Bavaria, a subsidiary of SABMiller. This transaction, which we expect to close soon, will enable us to increase our presence in the water business and complement our portfolio. Brisa sold 47 million unit cases in 2008 in Colombia.

CONFERENCE CALL INFORMATION

Our fourth-quarter 2008 Conference Call will be held on: February 25, 2009, at 11:00 A.M. Eastern Time (10:00 A.M. Mexico City Time). To participate in the conference call, please dial: Domestic U.S.: 866-700-7477 or International: 617-213-8840. We invite investors to listen to the live audiocast of the conference call on the Company’s website, www.coca-colafemsa.com

If you are unable to participate live, an instant replay of the conference call will be available through March 03, 2009. To listen to the replay, please dial: Domestic U.S.: 888-286-8010 or International: 617-801-6888. Pass code: 69810319.

v v v

Coca-Cola FEMSA, S.A.B. de C.V. produces and distributes Coca-Cola, Sprite, Fanta, Lift and other trademark beverages of The Coca-Cola Company in Mexico (a substantial part of central Mexico, including Mexico City and southeast Mexico), Guatemala (Guatemala City and surrounding areas), Nicaragua (nationwide), Costa Rica (nationwide), Panama (nationwide), Colombia (most of the country), Venezuela (nationwide), Brazil (greater São Paulo, Campiñas, Santos, the state of Mato Grosso do Sul, part of the state of Goias and Minas Gerais) and Argentina (federal capital of Buenos Aires and surrounding areas), along with bottled water, beer and other beverages in some of these territories. The Company has 31 bottling facilities in Latin America and serves over 1,600,000 retailers in the region. The Coca-Cola Company owns a 31.6% equity interest in Coca-Cola FEMSA.
