

HURCO COMPANIES INC  
Form 10-Q  
June 05, 2009

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

FORM 10-Q

(Mark One)

- Quarterly report pursuant to section 13 or 15(d) of the Securities Exchange Act of 1934 for the quarterly period ended April 30, 2009 or  
 Transition report pursuant to section 13 or 15(d) of the Securities Exchange Act of 1934 for the transition period from \_\_\_\_\_ to \_\_\_\_\_.

Commission File No. 0-9143

HURCO COMPANIES, INC.  
(Exact name of registrant as specified in its charter)

Indiana  
(State or other jurisdiction of  
incorporation or organization)

35-1150732  
(I.R.S. Employer Identification Number)

One Technology Way  
Indianapolis, Indiana  
(Address of principal executive offices)

46268  
(Zip code)

Registrant's telephone number, including area code (317) 293-5309

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Sections 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to the filing requirements for the past 90 days:

Yes  No

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit and post such files).

Yes  No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a small reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer  (Do not check if a smaller reporting company)

Smaller reporting company

Edgar Filing: HURCO COMPANIES INC - Form 10-Q

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes o No x

The number of shares of the Registrant's common stock outstanding as of June 1, 2009 was 6,420,851.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

1. GENERAL

The unaudited Condensed Consolidated Financial Statements include the accounts of Hurco Companies, Inc. and its consolidated subsidiaries. As used in this report, and unless the context indicates otherwise, the terms “we”, “us”, “our” and similar language refer to Hurco Companies, Inc. and its consolidated subsidiaries. We design and produce computerized machine tools, interactive computer control systems and software for sale through our distribution network to the worldwide metal cutting market. We also provide software options, computer control upgrades, accessories and replacement parts for our products, as well as customer service and training support.

The condensed financial information as of April 30, 2009 and for the three and six months ended April 30, 2009 and April 30, 2008 is unaudited; however, in our opinion, the interim data includes all adjustments, consisting only of normal recurring adjustments, necessary to present fairly our consolidated financial position, results of operations, changes in shareholders’ equity and cash flows at the end of the interim periods. We suggest that you read these condensed consolidated financial statements in conjunction with the financial statements and the notes thereto included in our Annual Report on Form 10-K for the year ended October 31, 2008.

2. SHORT-TERM INVESTMENTS

As of October 31, 2008 we held \$6.7 million of investments in auction rate securities, which represented investments in student loan obligations and municipal bonds. These auction rate securities were intended to provide liquidity via an auction process that resets the applicable interest rate at predetermined intervals allowing us to either roll over the holdings or sell the investment at par value. We classified our auction rate securities as “available for sale” in accordance with the provisions of FASB Statement No. 115, “Accounting for Certain Investments in Debt and Equity Securities”.

During the second quarter of fiscal 2008, we recorded an unrealized loss of \$202,000, net of tax in Accumulated Other Comprehensive Loss as we had concluded there was a temporary decline in the estimated fair value of the auction rate securities. In the first quarter of fiscal 2009, we sold all of our holdings of auction rate securities at par value and accordingly reversed our unrealized loss of \$202,000, net of tax, in Accumulated Other Comprehensive Loss. As a result, no gain or loss was recognized in our statement of operations for the six months ended April 30, 2009, on the sale of the auction rate securities.

3. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

On February 1, 2009, we adopted FASB Statement No. 161, “Disclosures about Derivative Instruments and Hedging Activities” (“SFAS 161”), an amendment of FASB Statement No. 133, “Accounting for Derivative Instruments and Hedging Activities” (“SFAS 133”). The adoption of SFAS 161 did not have a material impact on our consolidated financial position or results of operations, but does require increased disclosure of our derivative and hedging activities, including how derivative and hedging activities affect our consolidated financial statements. These disclosures are provided below.

We are exposed to certain market risks relating to our ongoing business operations, including foreign currency risk, interest rate risk and credit risk. We manage our exposure to these and other market risks through regular operating and financing activities. Currently, the only risk that we manage through the use of derivative instruments is foreign currency risk.

We operate on a global basis and are exposed to the risk that our financial condition, results of operations and cash flows could be adversely affected by changes in foreign currency exchange rates. To reduce the potential effects of foreign exchange rate movements on our net equity investment in our foreign subsidiary, gross profit and net earnings, we enter into derivative financial instruments in the form of foreign exchange forward contracts with a major financial institution. We are primarily exposed to foreign currency exchange rate risk with respect to transactions and net assets denominated in Euros, Pounds Sterling, Canadian Dollars, Singapore Dollars and New Taiwan Dollars.

We account for derivative instruments designated as hedging instruments in accordance with SFAS 133, and report all derivative instruments as assets or liabilities at fair value on our consolidated balance sheet.

#### Derivatives Designated as Hedging Instruments

We enter into foreign currency forward exchange contracts periodically to hedge certain forecasted inter-company sales and purchases denominated in foreign currencies (the Pound Sterling, Euro and New Taiwan Dollar). The purpose of these instruments is to mitigate the risk that the U.S. Dollar net cash inflows and outflows resulting from sales and purchases denominated in foreign currencies will be adversely affected by changes in exchange rates. These forward contracts have been designated as cash flow hedge instruments, and are recorded in the Condensed Consolidated Balance Sheets at fair value in Derivative Assets and Derivative Liabilities. The effective portion of the gains and losses resulting from the changes in the fair value of these hedge contracts are deferred in Accumulated Other Comprehensive Loss and recognized as an adjustment to Cost of Sales in the period that the corresponding inventory sold that is the subject of the related hedge contract is recognized, thereby providing an offsetting economic impact against the corresponding change in the U.S. Dollar value of the inter-company sale or purchase being hedged. The ineffective portion of gains and losses resulting from the changes in the fair value of these hedge contracts is reported in Other Income (Expense) immediately. We perform quarterly assessments of hedge effectiveness by verifying and documenting the critical terms of the hedge instrument and determining that forecasted transactions have not changed significantly. We also assess on a quarterly basis whether there have been adverse developments regarding the risk of a counterparty default.

For forward contracts outstanding as of April 30, 2009, we have obligations to purchase Euros and Pounds Sterling and sell New Taiwan Dollars at set maturity dates ranging from May 2009 through April 2010. The contract amount at forward rates in U.S. Dollars at April 30, 2009 to purchase Euros and Pounds Sterling was \$20.2 million and \$1.3 million, respectively. The contract amount at forward rates in U.S. Dollars to sell New Taiwan Dollars was \$14.3 million at April 30, 2009. At April 30, 2009, we had \$1.5 million of gains, net of tax, related to cash flow hedges deferred in Accumulated Other Comprehensive Loss. Of this amount, \$589,000 represents unrealized gains, net of tax, related to cash flow hedge instruments that remain subject to currency fluctuation risk. These deferred gains will be recorded as an adjustment to Cost of Sales in periods through April 2010, in which the corresponding inventory that is the subject of the related hedge contract is sold, as described above.

We are also exposed to foreign currency exchange risk related to our investment in net assets in foreign countries. To manage this risk, we entered into a forward contract on November 26, 2007 with a notional amount of €3.0 million. We designated this forward contract as a hedge of our net investment in Euro denominated assets. We selected the forward method under the guidance of the Derivatives Implementation Group Statement 133 Issue H8, "Foreign Currency Hedges: Measuring the Amount of Ineffectiveness in a Net Investment Hedge". The forward method requires all changes in the fair value of the forward to be reported as a cumulative translation adjustment in Accumulated Other Comprehensive Loss, net of tax, in the same manner as the underlying hedged net assets. This forward contract matured on November 25, 2008 and we entered into a new forward contract for the same notional amount that is set to mature in November 2009. At April 30, 2009, we had \$355,000 of realized gains and \$58,000 of unrealized losses, net of tax, recorded as cumulative translation adjustments in Accumulated Other Comprehensive Loss related to these forward contracts.

#### Derivatives Not Designated as Hedging Instruments

We enter into foreign currency forward exchange contracts to protect against the effects of foreign currency fluctuations on receivables and payables denominated in foreign currencies. These derivative instruments are not designated as hedges under SFAS 133 and, as a result, changes in their fair value are reported currently as Other Expense (Income), Net in the Condensed Consolidated Statement of Operations consistent with the transaction gain or

loss on the related non-hedged gains and losses.

8

---

For forward contracts outstanding as of April 30, 2009, we have obligations to purchase Euros, Pounds Sterling, Canadian Dollars and Singapore Dollars and sell New Taiwan Dollars at set maturity dates ranging from May 2009 through March 2010. The contract amounts at forward rates in U.S. Dollars at April 30, 2009 to purchase Euros, Pounds Sterling, Canadian Dollars and Singapore Dollars totaled \$36.4 million. The contract amount at forward rates in U.S. Dollars to sell New Taiwan Dollars was \$3.0 million at April 30, 2009.

#### Fair Value of Derivative Instruments

We recognize the fair value of derivative instruments as assets and liabilities on a gross basis on our consolidated balance sheet. As of April 30, 2009 and October 31, 2008, all derivative instruments are recorded at fair value on the balance sheet as follows (in thousands):

Derivatives	Balance Sheet Location	2009		2008	
		Fair Value	Balance Sheet Location	Fair Value	Balance Sheet Location
<b>Designated as Hedging Instruments:</b>					
Foreign exchange forward contracts	Derivative assets	\$ 1,344	Derivative assets	\$ 9,733	
Foreign exchange forward contracts	Derivative liabilities	\$ 486	Derivative liabilities	\$ 2,568	
<b>Not Designated as Hedging Instruments:</b>					
Foreign exchange forward contracts	Derivative assets	\$ 102	Derivative assets	\$ 2,730	
Foreign exchange forward contracts	Derivative liabilities	\$ 966	Derivative liabilities	\$ 124	

#### Effect of Derivative Instruments on the Balance Sheets, Statements of Changes in Shareholders' Equity and Statements of Operations

Derivative instruments had the following effects on our consolidated balance sheets, statements of changes in shareholders' equity and statements of operations, net of tax during the quarter ended April 30, 2009 and 2008 (in thousands):

Derivatives	Amount of Gain Recognized in Other Comprehensive Income		Location of Gain (Loss) Reclassified from Other Comprehensive Income	Amount of Gain (Loss) Reclassified from Other Comprehensive Income	
	2009	2008		2009	2008

4.

## STOCK OPTIONS

In March 2008, we adopted the Hurco Companies, Inc. 2008 Equity Incentive Plan (the “2008 Plan”), which allows us to grant awards of stock options, Stock Appreciation Rights settled in stock (SARs), restricted shares, performance shares and performance units. The 2008 Plan replaced the 1997 Stock Option and Incentive Plan (the “1997 Plan”) which expired in March 2007. The Compensation Committee of the Board of Directors has authority to determine the officers, directors and key employees who will be granted awards; designate the number of shares subject to each award; determine the terms and conditions upon which awards will be granted; and prescribe the form and terms of award agreements. We have granted stock options under both plans which are currently outstanding. No stock option may be exercised more than ten years after the date of grant or such shorter period as the Compensation Committee may determine at the date of grant. The total number of shares of our common stock that may be issued as awards under the 2008 Plan is 750,000. The market value of a share of our common stock, for purposes of the 2008 Plan, is the closing sale price as reported by the Nasdaq Global Select Market on the date in question or, if not a trading day, on the last preceding trading date.

During the first six months of fiscal 2009, no options to purchase shares were exercised. During the first six months of fiscal 2008, options to purchase 28,631 shares were exercised, resulting in cash proceeds of approximately \$151,000 and an additional tax benefit of approximately \$36,000.

Effective November 1, 2005, we adopted SFAS No. 123(R), “Share Based Payment,” using the modified prospective method, and began applying its provisions to all options granted, as well as to the nonvested portion of previously granted options outstanding at that date. Compensation expense is determined at the date of grant using the Black-Scholes valuation model.

On April 16, 2009, the Compensation Committee granted a total of 21,000 options under the 2008 Plan to three new employees. The fair value of the options was estimated on the date of grant using a Black-Scholes valuation model with assumptions for expected volatility based on the historical volatility of our common stock, the ten year contractual term of the options and a risk-free interest rate based upon the five-year U.S. Treasury yield as of the date of grant. The options granted to the employees vest over a five-year period beginning one year from the date of grant. Based upon the foregoing factors, the grant date fair value of the options was determined to be \$14.84 per share.

During the first six months of both fiscal 2009 and 2008, we recorded approximately \$114,000 of stock-based compensation expense related to grants under the plans. As of April 30, 2009, there was approximately \$427,000 of total unrecognized stock-based compensation cost that we expect to recognize by the end of fiscal 2014.

A summary of stock option activity for the six-month period ended April 30, 2009, is as follows:

	Stock Options	Weighted Average Exercise Price
Outstanding at October 31, 2008	64,369	\$ 20.29
Options granted	21,000	14.84
Options exercised	—	—
Options cancelled	—	—

Outstanding at April 30, 2009	85,369	\$	18.96
-------------------------------	--------	----	-------

The aggregate intrinsic value of exercised stock options was \$0 for the six-month period ended April 30, 2009 as no stock options were exercised during that period, and \$1.2 million, for the six-month period ended April 30, 2008. The intrinsic value a stock option is calculated as the difference between the stock price as of April 30 and the exercise price of the option.

Summarized information about outstanding stock options as of April 30, 2009, that are already vested and those that are expected to vest, as well as stock options that are currently exercisable, is as follows:

	Options Already Vested and Expected to Vest	Options Currently Exercisable
Number of outstanding options	85,369	54,369
Weighted average remaining contractual life (years)	7.86	6.64
Weighted average exercise price per share	\$ 18.96	\$ 19.12
Intrinsic value	\$ 280,000	\$ 270,000

5. **EARNINGS PER SHARE**

Basic and diluted earnings per common share are based on the weighted average number of shares of our common stock outstanding. Diluted earnings per common share give effect to shares underlying outstanding stock options using the treasury method. The dilutive number of shares for the six months ended April 30, 2009 and 2008 was 9,000 and 34,000, respectively.

6. **ACCOUNTS RECEIVABLE**

Accounts receivable are net of allowances for doubtful accounts of \$1.2 million as of April 30, 2009 and \$678,000 as of October 31, 2008.

7. **INVENTORIES**

Inventories, priced at the lower of cost (first-in, first-out method) or market, are summarized below (in thousands):

	April 30, 2009	October 31, 2008
Purchased parts and sub-assemblies	\$ 13,006	\$ 13,098
Work-in-process	5,032	11,243
Finished goods	46,842	42,027
	\$ 64,880	\$ 66,368

8. **SEGMENT INFORMATION**

We operate in a single segment: industrial automation systems. We design and produce interactive computer control systems and software and computerized machine tools for sale through our own distribution network to the worldwide metal-working market. We also provide software options, control upgrades, accessories and replacement parts for our products, as well as customer service and training support.

9. **GUARANTEES**

From time to time, our subsidiaries guarantee third party payment obligations in connection with the sale of certain machines to customers that use lease financing. As of April 30, 2009, we had 51 outstanding third party guarantees totaling approximately \$1.9 million. The terms of our subsidiaries' guarantees are consistent with the underlying customer financing terms. Upon shipment, the customer has the risk of ownership, but does not obtain title until the machine lease is paid in full. A retention of title clause allows us to recover the machine if the customer defaults on the lease. We believe that the proceeds obtained from liquidation of the machine would cover any payments required by the guarantee.

We provide warranties on our products with respect to defects in material and workmanship. The terms of these warranties are generally one year for machine labor and service parts. We recognize a reserve with respect to this obligation at the time of product sale, with subsequent warranty claims recorded against the reserve. The amount of the warranty reserve is determined based on historical trend experience and any known warranty issues that could cause future warranty costs to differ from historical experience. The warranty reserve may vary due to changes in sales volume, product mix and sales by region. A reconciliation of the changes in our warranty reserve is as follows (in thousands):

	Six months ended	
	April 30, 2009	April 30, 2008
Balance, beginning of period	\$ 2,536	\$ 2,449
Provision for warranties during the period	248	1,461
Charges to the reserve	(829)	(1,257)
Impact of foreign currency translation	(6)	141
Balance, end of period	\$ 1,949	\$ 2,794

#### 10. COMPREHENSIVE INCOME

A reconciliation of our net income to comprehensive income was as follows (in thousands):

	Three months ended	
	April 30, 2009	April 30, 2008
Net income (loss)	\$ (281)	\$ 5,467
Translation of foreign currency financial statements	896	1,828
Unrealized loss on derivative instruments, net of tax	(1,806)	(725)
Unrealized loss on investments, net of tax	—	(202)
Comprehensive income (loss)	\$ (1,191)	\$ 6,368

#### 11. DEBT AGREEMENTS

We are party to an unsecured domestic credit agreement that provides us with a \$30.0 million unsecured revolving credit facility and a separate letter of credit facility in the amount of 100.0 million New Taiwan Dollars. We are also party to a Taiwan revolving credit agreement of 100.0 million New Taiwan Dollars, which is an uncommitted demand credit facility. In the event the Taiwan facility is not available, the Taiwan letter of credit facility from the domestic agreement would enable us to provide credit enhancement to a replacement lender in Taiwan. We also have a £1.0 million revolving credit facility in the United Kingdom.

The domestic and U.K. facilities mature on December 7, 2012.

Borrowings under the domestic facility may be used for general corporate purposes and will bear interest at a LIBOR-based rate or an alternate base rate, in each case, plus an applicable margin determined by reference to the ratio of the interest-bearing debt and obligations and the undrawn face amount of all letters of credit outstanding, on a consolidated basis, to consolidated EBITDA. The domestic facility contains customary affirmative and negative covenants and events of default for an unsecured commercial bank credit facility, including, among other things, limitations on consolidations, mergers and sales of assets. The financial covenants are a minimum rolling four quarter consolidated net income covenant and a covenant establishing a maximum ratio of consolidated total indebtedness to total indebtedness and net worth.

As of April 30, 2009, we had no debt or borrowings outstanding under our domestic or European credit facilities and no outstanding letters of credit issued to non-U.S. suppliers for inventory purchase commitments. As of April 30, 2009, we had unutilized credit facilities of \$36.5 million available for either direct borrowings or commercial letters of credit.

## 12. INCOME TAXES

On November 1, 2007, we adopted the provisions of Financial Accounting Standards Board Interpretation No. 48 "Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109," ("FIN 48"). Our total balance of unrecognized tax benefits as of April 30, 2009 was approximately \$761,000, which included accrued interest.

We recognize accrued interest and penalties related to unrecognized tax benefits as components of our income tax provision. As of April 30, 2009, the gross amount of interest accrued and reported in other liabilities was approximately \$103,000.

We file U.S. federal and state income tax returns, as well as tax returns in several foreign jurisdictions. The statute of limitations will expire between July 2009 and July 2010 with respect to unrecognized tax benefits related to FIN 48.

## 13. FAIR VALUE

On November 1, 2008, we adopted the provisions of FASB Statement No. 157 "Fair Value Measurements" ("SFAS 157") as it relates to financial assets and liabilities recorded at fair value on a recurring basis. Financial Accounting Standards Board Staff Position (FSP) No. 157-2 has delayed the effective date of SFAS 157 for nonfinancial assets and liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis. We do not expect that the full adoption of SFAS 157 will have a material impact on our consolidated financial statements.

SFAS 157 established a three-tier fair value hierarchy, which categorizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs, such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exist, therefore requiring an entity to develop its own assumptions.

In accordance with SFAS 157, the following table represents the fair value hierarchy for our financial assets and liabilities measured at fair value as of April 30, 2009 (in thousands):

	Level I	Level II	Level III	Total
<b>Assets:</b>				
Derivative Assets	\$	—\$ 1,446	\$	—\$ 1,446
<b>Liabilities:</b>				
Derivative Liabilities	\$	—\$ 1,452	\$	—\$ 1,452

Included as Level II fair value measurements are derivative assets and liabilities related to hedged and unhedged gains and losses on foreign currency forward exchange contracts entered into with a third party. We estimate the fair value of these derivatives on a recurring basis using foreign currency exchange rates obtained from active markets.

## 14. EMPLOYEE BENEFITS

We maintain defined contribution plans in which a majority of our employees participate. Our contributions to these plans are discretionary. The purpose of these plans is generally to provide additional financial security during retirement by providing employees with an incentive to save throughout their employment. Our contributions to the

plans are based upon employee contributions or compensation. As of April 1, 2009, we suspended our discretionary contributions to the plans for an indefinite period.

## Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### EXECUTIVE OVERVIEW

Hurco Companies, Inc. is an industrial technology company operating in a single segment. We design and produce computerized machine tools, featuring our proprietary computer control systems and software, for sale through our own distribution network to the worldwide metal cutting market. We also provide software options, control upgrades, accessories and replacement parts for our products, as well as customer service and training support.

The primary drivers of the sustained growth we experienced between fiscal 2002 and the beginning of fiscal 2009 has been the increasing worldwide demand for machine tools during that period, the expansion of our product line that includes more expensive, higher-margin products, customer acceptance of our products and our successes in selling and manufacturing outside the United States.

The market for machine tools is international in scope. We have both significant foreign sales and foreign manufacturing operations. During fiscal 2008, more than 75% of our revenues were attributable to customers located abroad. The percentage of revenues attributable to customers located abroad decreased during the first two quarters of fiscal 2009 to approximately 67%, due in part to deterioration of the European and Asian markets for machine tool products as well as the effect of a stronger U.S. Dollar when translating foreign sales to U.S. Dollars for financial reporting purposes. We sell our products through more than 100 independent agents and distributors in countries throughout North America, Europe and Asia. We also have our own direct sales and service organizations in Canada, France, Germany, Italy, Spain, Poland, Singapore, China, South Africa, and the United Kingdom. Our machine tools are manufactured in Taiwan to our specifications by our wholly owned subsidiary, Hurco Manufacturing Limited (HML).

Our sales to foreign customers are denominated, and payments by those customers are made, in the prevailing currencies—primarily the Euro and Pound Sterling—in the countries in which those customers are located. Our product costs are incurred and paid primarily in the New Taiwan Dollar and the U.S. Dollar. Changes in currency exchange rates may have a material effect on our operating results and consolidated balance sheets as reported under U.S. Generally Accepted Accounting Principles. For example, when a foreign currency increases in value relative to the U.S. Dollar, sales made (and expenses incurred) in that currency, when translated to U.S. Dollars for reporting in our financial statements, are higher than would be the case when that currency has a lower value relative to the U.S. Dollar. In our comparison of period-to-period results, we discuss not only the increases or decreases in those results as reported in our financial statements (which reflect translation to U.S. Dollars at exchange rates prevailing during the period covered by those financial statements), but also the effect that changes in exchange rates had on those results.

Our high levels of foreign manufacturing and sales also subject us to cash flow risks due to fluctuating currency exchange rates. We seek to mitigate those risks through the use of various derivative instruments – principally foreign currency forward exchange contracts.

Since the fourth quarter of fiscal 2008, we have been adversely affected by the ongoing global recession. During periods of adverse economic conditions, manufacturers and suppliers of capital goods, such as our company, are often the first to experience reductions in demand as their customers defer or eliminate investments in capital equipment. Additionally, customers who may want to purchase capital goods often find it difficult to obtain financing due to disruptions in the credit markets. During the first half of fiscal 2009, these conditions had the greatest impact on the European sales region where we primarily market our more expensive, higher-margin machines. As a result, we experienced a 59% decline in sales and a 65% decline in orders during the first half of fiscal 2009 in comparison to

the same period of fiscal 2008.

14

---

We have implemented various initiatives to reduce expenses, including management and employee pay reductions, workforce reductions, the suspension of corporate 401K matching contributions and restrictions on travel expenditures, while staying committed to our strategic plan of product innovation and penetration of developing markets. We are also taking steps to reduce our inventories to reflect the decline in customer demand. Since our production lead time is approximately six months, the impact of reduced production levels on our inventories may not be fully realized until the end of calendar year 2009. We will continue to take actions to control costs and manage cash flow so long as current market conditions persist.

We believe that our cash position and lack of outstanding debt provide us with the capability to weather the current global economic recession.

## RESULTS OF OPERATIONS

### Three Months Ended April 30, 2009 Compared to Three Months Ended April 30, 2008

**Sales and Service Fees.** Sales and service fees for the second quarter of fiscal 2009 were \$20.5 million, a decrease of \$37.8 million, or 65%, from the second quarter of fiscal 2008. The drop of second quarter revenues was primarily the result of the global economic recession. Due to the effects of a stronger U.S. Dollar when translating foreign sales to U.S. Dollars for financial reporting purposes, sales and service fees for the second quarter of fiscal 2009 were approximately \$3.2 million, or 5%, less than would have been the case if foreign sales had been translated at the same rate of exchange that was utilized for the second quarter of 2008.

The following tables set forth net sales (in thousands) by geographic region and product category for the second quarter of 2009 and 2008, respectively:

#### Net Sales and Service Fees by Geographic Region

	Three months ended April 30,				Change	
	2009		2008		Amount	%
North America	\$ 6,171	30.1%	\$ 11,706	20.1%	\$ (5,535)	(47.3)%
Europe	13,042	63.7%	42,653	73.2%	(29,611)	(69.5)%
Asia Pacific	1,276	6.2%	3,926	6.7%	(2,650)	(67.5)%
Total	\$ 20,489	100.0%	\$ 58,285	100.0%	\$ (37,796)	(64.9)%

Similar to the first quarter of fiscal 2009, sales were down sharply across all regions due to the worldwide recession. In addition to declining volume and the unfavorable impact of currency translation, approximately 29% of the sales decline was attributable to a decrease in sales of our more expensive, higher-margin VMX machines in the Europe sales region, and global competitive pricing pressures.

#### Net Sales and Service Fees by Product Category

	Three months ended April 30,				Change	
	2009		2008		Amount	%
Computerized Machine Tools	\$ 16,518	80.6%	\$ 52,062	89.3%	\$ (35,544)	(68.3)%
Service Fees, Parts and Other	3,971	19.4%	6,223	10.7%	(2,252)	(36.2)%
Total	\$ 20,489	100.0%	\$ 58,285	100.0%	\$ (37,796)	(64.9)%

Sales of computerized machine tools during the second quarter of fiscal 2009 decreased 68% from the corresponding period in fiscal 2008. The decrease in sales of computerized machine tools was due to lower demand stemming from the worldwide recession, the significant decline in sales of our more expensive, higher-margin VMX machines, global competitive pricing pressures and fluctuations in currency exchange rates.

Orders. New order bookings in the second quarter of fiscal 2009, were \$18.1 million, a decrease of \$40.8 million, or 69%, compared to the prior year period. Orders in the North America, Europe and Asia Pacific regions decreased \$6.2 million, or 56%, \$31.6 million, or 72%, and \$3.0 million, or 75%, respectively, continuing a decrease that began in the first quarter as Hurco customers, consisting primarily of small job shops, reacted to the economic downturn in their markets. The impact of currency translation on new orders booked in the second quarter and first half was consistent with the impact on sales.

**Gross Margin.** Gross margin for the second quarter of fiscal 2009 was 26%, compared to 35% for the 2008 period. The decrease in margin as a percentage of sales was primarily due to a lower sales volume, the significant decline in sales of higher-margin VMX machines in the European sales region, and global competitive pricing pressures.

**Operating Expenses.** Selling, general and administrative expenses were \$7.5 million, a decrease of \$4.2 million, or 36%, from the corresponding period in 2008, reflecting lower sales commissions, the benefit of cost reduction initiatives, and the favorable effect of a stronger U.S. Dollar in 2009 when translating foreign operating expenses for financial reporting purposes.

**Operating Income (Loss).** The operating loss for the second quarter of fiscal 2009 was \$2.3 million, or 11% of sales and service fees, compared to operating income of \$8.7 million, or 15% of sales and service fees, for the prior year period. The reduction in operating income year-over-year was primarily due to lower demand globally as a result of the worldwide recession, lower sales of VMX machines in the European sales region, and global competitive pricing pressures.

**Other (Income) Expense, net.** The increase in other income of \$2.1 million for the second quarter of fiscal 2009 compared to the same period in fiscal 2008 was primarily due to \$2.2 million of net realized gains on hedge contracts closed before maturity due to forecasted reductions in production and sales for the next six months.

**Income Taxes.** Our effective tax rate for the second quarter of fiscal 2009 of approximately 42% is higher than the 36% for the same period in fiscal 2008 primarily due to net losses in international jurisdictions that have tax rates that are lower than U.S. statutory rates. Our provision for income taxes during the second quarter of fiscal 2009 was approximately \$3.3 million lower than in the same period in fiscal 2008 as a result of the decrease in operating income.

#### Six months Ended April 30, 2009 Compared to Six months Ended April 30, 2008

**Sales and Service Fees.** Sales and service fees for the first half of fiscal 2009 were \$48.8 million, a decrease of \$70.4 million, or 59%, over the first half of fiscal 2008. The decrease in sales and service fees was primarily the result of the current global recession. Due to the effects of a stronger U.S. Dollar when translating foreign sales to U.S. Dollars for financial reporting purposes, sales and service fees for the first half of fiscal 2009 were approximately \$6.1 million, or 5%, less than would have been the case if foreign sales had been translated at the same rate of exchange that was utilized for the first half of fiscal 2008.

The following tables set forth net sales (in thousands) by geographic region and product category for the first half of 2009 and 2008, respectively:

#### Net Sales and Service Fees by Geographic Region

	Six months ended April 30,				Change	
	2009		2008		Amount	%
North America	\$ 15,808	32.4%	\$ 24,785	20.8%	\$ (8,977)	(36.2)%
Europe	31,102	63.7%	87,705	73.6%	(56,603)	(64.5)%
Asia Pacific	1,886	3.9%	6,718	5.6%	(4,832)	(72.0)%
Total	\$ 48,796	100.0%	\$ 119,208	100.0%	\$ (70,412)	(59.1)%

Sales were down sharply across all regions due to the worldwide recession that resulted in lower demand for our products combined with the significant decline in sales of our more expensive, higher-margin VMX machines, global competitive pricing pressures and fluctuations in currency exchange rates.

## Net Sales and Service Fees by Product Category

	Six months ended April 30,				Change	
	2009		2008		Amount	%
<b>Computerized</b>						
Machine Tools	\$ 40,466	82.9%	\$ 106,986	89.7%	\$ (66,520)	(62.2)%
Service Fees, Parts and Other	8,330	17.1%	12,222	10.3%	(3,892)	(31.9)%
<b>Total</b>	<b>\$ 48,796</b>	<b>100.0%</b>	<b>\$ 119,208</b>	<b>100.0%</b>	<b>\$ (70,412)</b>	<b>(59.1)%</b>

Sales of computerized machine tools during the first half of fiscal 2009 decreased 62% over the corresponding period in fiscal 2008. The decrease in sales of computerized machine tools was due to lower demand stemming from the worldwide recession, the significant decline in sales of our more expensive, higher-margin VMX machines, global competitive pricing pressures and fluctuations in currency exchange rates.

Orders. New order bookings in the first half of fiscal 2009, were \$42.7 million, a decrease of \$77.4 million, or 65%, over the prior year period. Of that decrease, Europe, North America and Asia Pacific orders decreased \$62.3 million, or 69%, \$9.9 million, or 42%, and \$5.2 million, or 77%, respectively.

Gross Margin. Gross margin for the first half of fiscal 2009 was 28%, compared to 38% for the 2008 period. The decrease in margin as a percentage of sales was primarily due to a lower sales volume, the decline in sales of higher-margin VMX machines in the European sales region, and global competitive pricing pressures.

Operating Expenses. Selling, general and administrative expenses were \$15.5 million for the first half of fiscal 2009, a reduction of \$8.5 million from the 2008 period, reflecting various initiatives to reduce expenses that include management and employee pay reductions, workforce reductions, the suspension of corporate 401K matching contributions, and restriction on travel and other expenditures. The reduction in expenses also includes the favorable effect of a stronger U.S. Dollar in 2009 when translating foreign operating expenses for financial reporting purposes.

Operating Income (Loss). The operating loss for the first half of fiscal 2009 was \$1.8 million, or 4% of sales and service fees, compared to operating income of \$21.1 million, or 18% of sales and service fees, for the prior year period. The reduction in operating income (loss) year-over-year was primarily due to lower demand globally as a result of the worldwide recession, lower sales of VMX machines in the Europe sales region, and global competitive pricing pressures.

Other (Income) Expense, net. The increase in other income of \$2.5 million for the first half of fiscal 2009 compared to the same period in fiscal 2008 was primarily due to \$2.2 million of net realized gains on hedge contracts closed before maturity due to forecasted reductions in production and sales for the next six months.

Income Taxes. Our provision for income taxes during the first half of fiscal 2009 was \$7.6 million lower than in the same period in fiscal 2008 as a result of the decrease in operating income.

## LIQUIDITY AND CAPITAL RESOURCES

At April 30, 2009, we had cash of \$27.9 million, compared to cash and short term investments of \$33.1 million at October 31, 2008. Cash used for operations totaled \$893,000 for the quarter ended April 30, 2009 compared to \$1.3 million in the prior year period. Cash used for investing activities was \$1.6 million for the second fiscal quarter of 2009 compared to cash provided by investing activities of \$4.9 million for the prior year period, primarily due to the sale of auction rate securities in the prior year. Approximately 67% of the \$27.9 million of cash and cash equivalents

is denominated in U.S. Dollars. The remaining balances are held outside the U.S. in the local currencies of our various foreign entities and are subject to fluctuations in currency exchange rates.

Working capital, excluding cash and cash equivalents and short-term investments, was \$69.5 million at April 30, 2009, compared to \$67.1 million at October 31, 2008. The \$2.4 million increase in working capital was primarily driven by reduced accounts payable as a result of lower production levels and a reduction in accrued expenses.

We have a number of domestic and international credit facilities, including a \$30.0 million unsecured revolving line of credit. As of April 30, 2009, we had no borrowings outstanding under any of these facilities and were in compliance with all terms and conditions, including financial covenants. One of the financial covenants applicable to the \$30.0 million credit facility requires us to report consolidated net income of not less than \$0 for four consecutive quarters on a rolling basis. If we continue to report losses for the third and fourth quarters of the current fiscal year, we would not be permitted to borrow under our current loan agreement.

We believe our cash resources will permit us to stay committed to our strategic plan of product innovation and targeted penetration of developing markets. In order to sustain profitability and cash flow during these current economic conditions we have significantly reduced production levels, removed overtime, reduced our work force, eliminated hiring and salary increases and reduced pay for select salaried employees by 5-10%.

Capital expenditures were primarily for purchases of equipment for our manufacturing facilities and software development costs. We funded these expenditures with cash flow from operations.

As of April 30, 2009, we had no debt under any of our credit facilities.

We have an effective “shelf” registration statement on file with the SEC that allows us to offer and sell a variety of securities, including common stock, preferred stock, warrants, depositary shares and debt securities, up to an aggregate amount of \$200.0 million, if and when authorized by the Board of Directors. At present, we have no plans to offer or sell securities.

Although we have not made any significant acquisitions in the recent past and we have no present plans for acquisitions, we continue to receive information on businesses and assets, including intellectual property assets that are available for purchase.

#### NEW ACCOUNTING PRONOUNCEMENTS

There are no recently issued accounting pronouncements that we have yet to adopt that are expected to have a significant effect on our financial position, results of operations, or cash flows.

#### CRITICAL ACCOUNTING POLICIES

Our accounting policies, which are described in our Annual Report on Form 10-K for the fiscal year ended October 31, 2008, require management to make significant estimates and assumptions using information available at the time the estimates are made. These estimates and assumptions significantly affect various reported amounts of assets, liabilities, revenues, and expenses. If our future experience differs materially from these estimates and assumptions, our results of operations and financial condition would be affected. There were no material changes to our critical accounting policies during the first six months of fiscal 2009.

#### CONTRACTUAL OBLIGATIONS AND COMMITMENTS

There have been no material changes related to contractual obligations and commitments from the information provided in our Annual Report on Form 10-K for the fiscal year ended October 31, 2008. As of April 30, 2009, our FIN 48 liabilities were \$761,000. The periods in which the FIN 48 liabilities will be paid cannot be reliably estimated and are, therefore, excluded from our contractual obligations. For additional information regarding FIN 48, see Note 12 of Notes to Condensed Consolidated Financial Statements.

#### OFF BALANCE SHEET ARRANGEMENTS

From time to time, our subsidiaries guarantee third party payment obligations in connection with the sale of certain machines to customers that use financing. As of April 30, 2009, we had 51 outstanding third party guarantees totaling approximately \$1.9 million. The terms of our subsidiaries' guarantees are consistent with the underlying customer financing terms. Upon shipment, the customer has the risk of ownership, but does not obtain title until the machine is paid in full. A retention of title clause allows us to recover the machine if the customer defaults on the lease. We believe that the proceeds obtained from liquidation of the machine would cover any payments required by the guarantee.

## CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

Certain statements made in this report constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from those expressed or implied by the statements. These risks, uncertainties and other factors include:

- The impact of the current global economic recession on demand for our products and our customers’ access to credit and ability to pay us for the products they purchase;
  - The cyclical nature of the machine tool industry;
  - The risks of our international operations;
  - The limited number of our manufacturing sources;
  - The effects of changes in currency exchange rates;
  - Our dependence on new product development;
  - The need to make technological advances;
  - Competition with larger companies that have greater financial resources;
  - Changes in the prices of raw materials, especially steel and iron products;
    - Possible obsolescence of our technology;
  - Acquisitions that could disrupt our operations and affect operating results;
    - Impairment of our goodwill or other assets;
    - The need to protect our intellectual property assets;
  - The impact of the continuing downturn in the U.S. economy;
  - The impact of ongoing disruptions in the credit markets on our investment securities; and
    - The effect of the loss of key personnel.

We discuss these and other important risks and uncertainties that may affect our future operation in Part I, Item 1A – Risk Factors in our most recent Annual Report on Form 10-K and may update that discussion in Part II, Item 1A – Risk Factors in this report or a Quarterly Report on Form 10-Q we file hereafter.

Readers are cautioned not to place undue reliance on these forward-looking statements. While we believe the assumptions on which the forward-looking statements are based are reasonable, there can be no assurance that these forward-looking statements will prove to be accurate. This cautionary statement is applicable to all forward-looking statements contained in this report.

## Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

## Interest Rate Risk

Interest on borrowings on our bank credit agreements are tied to prevailing U.S. and European interest rates. At April 30, 2009, there were no outstanding borrowings under our bank credit agreements.

## Foreign Currency Exchange Risk

In fiscal 2008, we derived more than 75% of our revenues, including export sales, from foreign markets. All of our computerized machine tools and computer control systems, as well as certain proprietary service parts, are sourced by our U.S.-based engineering and manufacturing division and re-invoiced to our foreign sales and service subsidiaries, primarily in their functional currencies.

Our products are sourced from foreign suppliers or built to our specifications by either our wholly owned subsidiary in Taiwan or an affiliated contract manufacturer. Our purchases are predominantly in foreign currencies and in some cases our arrangements with these suppliers include foreign currency risk sharing agreements, which reduce (but do not eliminate) the effects of currency fluctuations on product costs. The predominant portion of the exchange rate risk associated with our product purchases relates to the New Taiwan Dollar.

We enter into foreign currency forward exchange contracts from time to time to hedge the cash flow risk related to forecasted inter-company sales and purchases denominated in, or based on, foreign currencies (primarily the Euro, Pound Sterling, and New Taiwan Dollar). We also enter into foreign currency forward exchange contracts to protect against the effects of foreign currency fluctuations on receivables and payables denominated in foreign currencies. We do not speculate in the financial markets and, therefore, do not enter into these contracts for trading purposes.

Forward contracts for the sale or purchase of foreign currencies as of April 30, 2009, which are designated as cash flow hedges under FASB SFAS 133 were as follows:

Forward Contracts	Notional Amount in Foreign Currency	Weighted Avg. Forward Rate	Contract Amount at Forward Rates in U.S. Dollars	Contract Date	April 30, 2009	Maturity Dates
<b>Sale Contracts:</b>						
Euro	15,230,000	1.3956	21,254,988		20,187,061	May 2009 – April 2010
Pound Sterling	900,000	1.5480	1,393,200		1,334,100	May 2009 – April 2010
<b>Purchase Contracts:</b>						
New Taiwan Dollar	460,000,000	31.79*	14,470,141		14,295,233	May 2009 – April 2010

\*NT Dollars per U.S. Dollar

Forward contracts for the sale or purchase of foreign currencies as of April 30, 2009, which were entered into to protect against the effects of foreign currency fluctuations on receivables and payables and are not designated as hedges under SFAS 133 denominated in foreign currencies, were as follows:

Forward Contracts	Notional Amount in Foreign Currency	Weighted Avg. Forward Rate	Contract Amount at Forward Rates in U.S. Dollars		
			Contract Date	April 30, 2009	Maturity Dates
<b>Sale Contracts:</b>					
Euro	22,353,985	1.2965	28,981,941	29,631,999	May 2009 – January 2010
Pound Sterling	558,470	1.4434	806,096	827,769	May 2009 – June 2009
Canadian Dollar	275,431	.8218	226,349	230,834	May 2009 – June 2009
Singapore Dollar	8,481,355	1.5501	5,471,489	5,734,714	March 2010
<b>Purchase Contracts:</b>					
New Taiwan Dollar	97,409,700	33.56*	2,902,441	2,978,286	May 2009 – June 2009

\* NT Dollars per U.S. Dollar

We are exposed to foreign currency exchange risk related to our investment in net assets in foreign countries. To manage this risk, we entered into a forward contract on November 26, 2007 with a notional amount of €3.0 million. We designated this forward contract as a hedge of our net investment in Euro denominated assets. We selected the forward method under the guidance of the Derivatives Implementation Group Statement 133 Issue H8, "Foreign Currency Hedges: Measuring the Amount of Ineffectiveness in a Net Investment Hedge". The forward method requires all changes in the fair value of the forward to be reported as a cumulative translation adjustment in Accumulated Other Comprehensive Loss, net of tax, in the same manner as the underlying hedged net assets. This forward contract matured on November 25, 2008 and we entered into a new forward contract for the same notional amount. As of April 30, 2009, we had a realized gain of \$355,000 and an unrealized loss of \$58,000, net of tax, recorded as cumulative translation adjustments in Accumulated Other Comprehensive Loss, related to these forward contracts.

Forward contracts for the sale or purchase of foreign currencies as of April 30, 2009, which are designated as net investment hedges under SFAS 133 were as follows:

Forward Contracts	Notional Amount in Foreign Currency	Weighted Avg. Forward Rate	Contract Amount at Forward Rates in U.S. Dollars		
			Contract Date	April 30, 2009	Maturity Date
<b>Sale Contracts:</b>					
Euro	3,000,000	1.2936	3,880,800	3,975,960	November 2009

Item 4. CONTROLS AND PROCEDURES

We carried out an evaluation under the supervision and with participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of April 30, 2009, pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended. Based upon that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of the evaluation date.

There were no changes in our internal controls over financial reporting during the quarter ended April 30, 2009 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II - OTHER INFORMATION

## Item 1. LEGAL PROCEEDINGS

We are involved in various claims and lawsuits arising in the normal course of our business. We believe it is remote that any of these claims will have a material adverse effect on our consolidated financial position or results of operations.

## Item 1A. RISK FACTORS

There have been no material changes from the risk factors disclosed in Part I, Item 1A – Risk Factors in our Annual Report on Form 10-K for the year ended October 31, 2008.

## Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Our annual meeting of the shareholders was held on March 19, 2009. The election of eight directors to the Board of Directors was the only matter submitted to a vote.

The following table sets forth the results of voting for the election of the Board of Directors.

Election of Directors Name	Number of Votes FOR	Number of Votes WITHHELD	Abstentions or Broker Non-Votes
Stephen H. Cooper	5,345,701	226,524	848,626
Robert W. Cruickshank	4,825,587	746,638	848,626
Michael Doar	5,417,395	154,830	848,626
Philip James	5,411,556	160,669	848,626
Michael P. Mazza	5,419,695	152,530	848,626
Richard T. Niner	4,863,218	709,007	848,626
Charlie Rentschler	5,414,770	157,455	848,626
Janaki Sivanesan	5,378,649	193,576	848,626

## Item 5. OTHER INFORMATION

During the period covered by this report, the Audit Committee of our Board of Directors did not engage our independent registered public accounting firm to perform any non-audit services. This disclosure is made pursuant to Section 10A9(i)(2) of the Securities Exchange Act of 1934, as added by Section 202 of the Sarbanes-Oxley Act of 2002.

Item 6.
