  - Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

Item 1.01. Entry into a Material Definitive Agreement.

On March 23, 2010, Nephros, Inc. entered into a development agreement with STERIS Corporation. Under the terms of the agreement, Nephros and STERIS will jointly develop filtration-based products for medical device applications. Nephros received an initial payment of \$100,000 upon entering into the agreement and is eligible to receive additional payments totaling an aggregate of \$100,000 upon successful completion of product development milestones for the development project agreed to as of the date of the agreement. If the scope of the current development project or any other development project expands, or a new development project is agreed upon, Nephros could be due additional upfront, milestone or other payments.

Nephros and STERIS will mutually determine development projects to be pursued under the agreement. Any technology developed under the agreement will be jointly owned by Nephros and STERIS. Upon the successful development of any technology under the agreement, Nephros will have the right to commercialize the technology, either on its own or through a third party, provided that Nephros may not commercialize the technology with any competitor of STERIS.

Each of Nephros and STERIS is responsible for its own expenses in developing any technology under the agreement. The parties will indemnify each other for any losses resulting from any claim for personal or product liability arising out of the party's gross negligence or willful misconduct with respect to its contributions to any development project under the agreement, except for losses resulting from the other party's breach of the agreement or negligence or intentional misconduct.

The agreement has an effective date of February 28, 2009 and will run for one year, subject to automatic renewal on an annual basis, unless a party gives 60 days written notice of termination, which notice of termination may be given at any time. During the term of the agreement and for one year after its termination, Nephros will not engage in the business of providing infection prevention, contamination prevention, microbial reduction and/or surgical support systems, products, services or technologies to healthcare, scientific, research and/or food industries in any work or project that was within the scope of any development project under the agreement.

A copy of the press release announcing the entry into the agreement is attached hereto as Exhibit 99.1. A copy of the agreement will be filed as an exhibit to Nephros' Quarterly Report on Form 10-Q for the quarter ending March 31, 2010.

Item 9.01. Financial Statements and Exhibits.
