CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

This quarterly report on Form 10-Q and certain information incorporated herein by reference contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Exchange Act. Such statements include, but are not limited to, statements about future operations, products, financial position, operating results, prospects, pipeline or potential markets therefor, and other statements that are not historical in nature, particularly those that utilize terminology such as "anticipates," "will," "expects," "plans," "potential," "future," "believes," "intends," "continue," other words of similar meaning, derivations of such words, and the use of future dates.

Uncertainties and risks may cause our actual results to be materially different than those expressed in or implied by such forward-looking statements. Uncertainties and risks include, but are not limited to, the risk that we may face with respect to importing raw materials, increased competition, delays or failure in obtaining product approval from the U.S. Food and Drug Administration ("FDA"), general business and economic conditions, market trends, product development, regulatory and other approvals and marketing.

These factors should not be construed as exhaustive and should be read in conjunction with our other disclosures, including but not limited to our Annual Report on Form 10-K for the year ended December 31, 2013, including the factors described in "Item 1A. Risk Factors," as well as our proxy statement, filed with the SEC on April 11, 2014. Other risks may be described from time to time in our filings made under the securities laws, including our quarterly reports on Form 10-Q and our current reports on Form 8-K. New risks emerge from time to time. It is not possible for our management to predict all risks. The forward-looking statements contained in this document are made only as of the date of this document. We undertake no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

ANI PHARMACEUTICALS, INC. and subsidiary

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

1. BUSINESS, PRESENTATION, AND RECENT ACCOUNTING PRONOUNCEMENTS

Overview

ANI Pharmaceuticals, Inc. and subsidiary, ANIP Acquisition Company (together, the “Company,” “we,” or “us”) is an integrated specialty pharmaceutical company developing, manufacturing, and marketing branded and generic prescription pharmaceuticals. Our targeted areas of product development currently include narcotics, oncolytics (anti-cancers), hormones and steroids, and complex formulations involving extended release and combination products. We have two pharmaceutical manufacturing facilities located in Baudette, Minnesota, which are capable of producing oral solid dose products, as well as liquids and topicals, narcotics, and potent products that must be manufactured in a fully-contained environment. Our strategy is to continue to use these manufacturing assets to develop, produce, and distribute niche generic pharmaceutical products.

On June 19, 2013, pursuant to a merger agreement dated as of April 12, 2013, ANIP Acquisition Company d/b/a ANI Pharmaceuticals, Inc. ("ANIP") became a wholly-owned subsidiary of BioSante Pharmaceuticals, Inc. (“BioSante”) in an all-stock, tax-free reorganization (the "Merger"). The Merger was accounted for as a reverse acquisition, pursuant to which ANIP was considered the acquiring entity for accounting purposes. BioSante was renamed ANI Pharmaceuticals, Inc. We now operate under the leadership of the ANIP management team and our board of directors is comprised of two former BioSante directors and five former ANIP directors. As such, ANIP's historical results of operations replace BioSante's historical results of operations for all periods prior to the Merger. The results of operations of both companies are included in our consolidated financial statements for all periods after completion of the Merger.

Basis of Presentation

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). In our opinion, the accompanying unaudited interim condensed consolidated financial statements include all adjustments, consisting of normal recurring adjustments, which are necessary to present fairly our financial position, results of operations and cash flows. The condensed consolidated balance sheet at December 31, 2013, has been derived from audited financial statements of that date. The interim condensed consolidated results of operations are not necessarily indicative of the

results that may occur for the full fiscal year. Certain information and footnote disclosure normally included in financial statements prepared in accordance with U.S. GAAP have been omitted pursuant to instructions, rules and regulations prescribed by the United States Securities and Exchange Commission. We believe that the disclosures provided herein are adequate to make the information presented not misleading when these unaudited interim condensed consolidated financial statements are read in conjunction with the audited financial statements and notes previously distributed in our annual report on Form 10-K for the year ended December 31, 2013. Certain prior period information has been reclassified to conform to the current period presentation.

Principles of Consolidation

The condensed consolidated financial statements include the accounts of ANI Pharmaceuticals, Inc. and its wholly owned subsidiary, ANIP. All significant inter-company accounts and transactions are eliminated in consolidation.

ANI PHARMACEUTICALS, INC. and subsidiary

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

1. BUSINESS, PRESENTATION, AND RECENT ACCOUNTING PRONOUNCEMENTS – continued

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. In the accompanying unaudited condensed consolidated financial statements, estimates are used for, but not limited to, stock-based compensation, allowance for doubtful accounts, accruals for chargebacks, returns and other allowances, allowance for inventory obsolescence, allowances for contingencies and litigation, fair value of long-lived assets, deferred taxes and valuation allowance, and the depreciable and amortizable lives of long-lived assets. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In July 2013, the Financial Accounting Standards Board (“FASB”) issued guidance for the presentation of an unrecognized tax benefit when a net operating loss (“NOL”) carryforward, a similar tax loss, or a tax credit carryforward exists. The guidance requires an entity to present in the financial statements an unrecognized tax benefit, or a portion of an unrecognized tax benefit, as a reduction to a deferred tax asset for an NOL carryforward, a similar tax loss, or a tax credit carryforward. If the NOL carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the jurisdiction or the tax law of the jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit will be presented in the financial statements as a liability and will not be combined with deferred tax assets. This guidance does not require any additional recurring disclosures and is effective for fiscal years beginning after December 15, 2013. The adoption of this guidance did not have a material impact on our financial statements.

In May 2014, the FASB issued guidance for revenue recognition for contracts, superseding the previous revenue recognition requirements, along with most existing industry-specific guidance. The guidance requires an entity to review contracts in five steps: 1) identify the contract, 2) identify performance obligations, 3) determine the

transaction price, 4) allocate the transaction price, and 5) recognize revenue. The new standard will result in enhanced disclosures regarding the nature, amount, timing and uncertainty of revenue arising from contracts with customers. The standard is effective for our reporting year beginning January 1, 2017 and early adoption is not permitted. We are currently evaluating the impact, if any, that this new accounting pronouncement will have on our financial statements.

In August 2014, the FASB issued guidance requiring management to evaluate on a regular basis whether any conditions or events have arisen that could raise substantial doubt about the entity's ability to continue as a going concern. The guidance 1) provides a definition for the term "substantial doubt," 2) requires an evaluation every reporting period, interim periods included, 3) provides principles for considering the mitigating effect of management's plans to alleviate the substantial doubt, 4) requires certain disclosures if the substantial doubt is alleviated as a result of management's plans, 5) requires an express statement, as well as other disclosures, if the substantial doubt is not alleviated, and 6) requires an assessment period of one year from the date the financial statements are issued. The standard is effective for our reporting year beginning January 1, 2017 and early adoption is permitted. We do not expect the adoption of this guidance to have a material impact on our financial statements.

We have evaluated all other issued and unadopted Accounting Standards Updates and believe the adoption of these standards will not have a material impact on our results of operations, financial position, or cash flows.

ANI PHARMACEUTICALS, INC. and subsidiary

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

2. Revenue Recognition AND RELATED ALLOWANCES

Revenue Recognition

Revenue is recognized for product sales and contract manufacturing product sales upon passing of risk and title to the customer, when estimates of the selling price and discounts, rebates, promotional adjustments, price adjustments, returns, chargebacks, and other potential adjustments are reasonably determinable, collection is reasonably assured, and we have no further performance obligations. Contract manufacturing arrangements are typically less than two weeks in duration, and therefore the revenue is recognized upon completion of the aforementioned factors rather than using a proportional performance method of revenue recognition. The estimates for discounts, rebates, promotional adjustments, price adjustments, returns, chargebacks, and other potential adjustments reduce gross revenues to net revenues in the accompanying unaudited condensed consolidated statements of operations, and are presented as current liabilities or reductions in accounts receivable in the accompanying unaudited condensed consolidated balance sheets (see “Accruals for Chargebacks, Returns, and Other Allowances”). Historically, we have not entered into revenue arrangements with multiple elements.

Occasionally, we engage in contract services, which include product development services, laboratory services, and royalties on net sales of certain contract manufactured products. For these services, revenue is recognized according to the terms of the agreement with the customer, which sometimes include substantive, measurable risk-based milestones, and when we have a contractual right to receive such payment, the contract price is fixed or determinable, the collection of the resulting receivable is reasonably assured, and we have no further performance obligations under the agreement.

Accruals for Chargebacks, Returns and Other Allowances

Our generic and branded product revenues are typically subject to agreements with customers allowing chargebacks, product returns, administrative fees, and other rebates and prompt payment discounts. We accrue for these items at the time of sale and continually monitor and re-evaluate the accruals as additional information becomes available. We adjust the accruals at the end of each reporting period, to reflect any such updates to the relevant facts and circumstances. Accruals are relieved upon receipt of payment from the customer or upon issuance of credit to the customer.

The following table summarizes activity in the balance sheet for accruals and allowances for the nine-month periods ended September 30, 2014 and 2013, respectively:

(in thousands)	Accruals for Chargebacks, Returns and Other Allowances			
	Chargebacks	Returns	Administrative Fees and Other Rebates	Prompt Payment Discounts
Balance at December 31, 2013	4,076	736	735	332

ANI PHARMACEUTICALS, INC. and subsidiary

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

2. Revenue Recognition AND RELATED ALLOWANCES - continued

Credit Concentration

Our customers are primarily wholesale distributors, chain drug stores, group purchasing organizations, and pharmaceutical companies.

During the three month period ended September 30, 2014, three customers represented 26%, 23%, and 16% of net revenues. During the nine month period ended September 30, 2014, these same three customers represented 26%, 20%, and 16% of net revenues. As of September 30, 2014, net accounts receivable from these customers totaled \$9.6 million. During the three month period ended September 30, 2013, three customers represented 27%, 19%, and 6% of net revenues. During the nine month period ended September 30, 2013, these same three customers represented 28%, 18%, and 10% of net revenues.

3. BUSINESS COMBINATION

Summary

On June 19, 2013, BioSante acquired ANIP in an all-stock, tax-free reorganization. We are operating under the leadership of the ANIP management team and the board of directors is comprised of two former directors from BioSante and five former ANIP directors.

BioSante issued to ANIP stockholders shares of BioSante common stock such that the ANIP stockholders owned 57% of the combined company's shares outstanding, and the former BioSante stockholders owned 43%. In addition, immediately prior to the Merger, BioSante distributed to its then current stockholders contingent value rights ("CVR") providing payment rights arising from a future sale, transfer, license or similar transaction(s) involving BioSante's LibiGel[®] (female testosterone gel).

The Merger was accounted for as a reverse acquisition pursuant to which ANIP was considered the acquiring entity for accounting purposes. As such, ANIP's historical results of operations replace BioSante's historical results of operations for all periods prior to the Merger. BioSante, the accounting acquiree, was a publicly-traded pharmaceutical company focused on developing high value, medically-needed products. ANIP entered into the Merger to secure additional capital and gain access to capital market opportunities as a public company.

The results of operations of both companies are included in our consolidated financial statements for all periods after completion of the Merger.

ANI PHARMACEUTICALS, INC. and subsidiary**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS***(unaudited)***3. BUSINESS COMBINATION – continued****Transaction Costs**

In conjunction with the Merger, we incurred approximately \$7.1 million in transaction costs, which were expensed in the periods in which they were incurred. These costs include:

Transaction Costs

Category	(in thousands)
Legal fees	\$ 1,227
Accounting fees	122
Consulting fees	119
Monitoring and advisory fees	390
Transaction bonuses	4,801
Other	429
Total transaction costs	\$ 7,088

Of the total expenses, \$0.5 million and \$6.2 million was incurred and expensed in the three and nine months ended September 30, 2013, respectively. For the three months ended September 30, 2013, the entire \$0.5 million was recognized as selling, general and administrative expense. For the nine months ended September 30, 2013, \$5.5 million was recognized as selling, general and administrative expense, \$0.3 million as interest expense, and \$0.4 million as other expense. No transaction-related expenses were incurred in the three or nine months ended September 30, 2014.

Purchase Consideration and Net Assets Acquired

Edgar Filing: ANI PHARMACEUTICALS INC - Form 10-Q

The fair value of BioSante's common stock used in determining the purchase price was \$1.22 per share, the closing price on June 19, 2013, which resulted in a total purchase consideration of \$29.8 million. The fair value of all additional consideration, including the vested BioSante stock options and CVRs, was immaterial. The following presents the final allocation of the purchase consideration to the assets acquired and liabilities assumed on June 19, 2013:

Purchase Consideration Breakdown

	(in thousands)
Total purchase consideration	\$ 29,795
Assets acquired	
Cash and cash equivalents	18,198
Restricted cash	2,260
Teva license intangible asset	10,900
Other tangible assets	79
Deferred tax assets, net	-
Goodwill	1,838
Total assets	33,275
Liabilities assumed	
Accrued severance	2,965
Other liabilities	515
Total liabilities	3,480
Total net assets acquired	\$ 29,795

ANI PHARMACEUTICALS, INC. and subsidiary**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS***(unaudited)***3. BUSINESS COMBINATION – continued**

The Teva license is related to a generic male testosterone gel product and is being amortized on a straight-line basis over its estimated useful life of 11 years. Goodwill, which is not tax deductible since the transaction was structured as a tax-free exchange, is considered an indefinite-lived asset and relates primarily to intangible assets that do not qualify for separate recognition. As a result of purchase accounting related to the Merger, we established deferred tax assets of \$9.6 million, deferred tax liabilities of \$3.9 million, and a valuation allowance of \$5.7 million, netting to deferred tax assets of \$0.

Pro Forma Condensed Combined Financial Information (unaudited)

The following unaudited pro forma condensed combined financial information summarizes the results of operations for the periods indicated as if the Merger had been completed as of January 1, 2012. Pro forma information reflects adjustments relating to (i) elimination of the interest on ANIP's senior and convertible debt, (ii) elimination of monitoring and advisory fees payable to two ANIP investors, (iii) elimination of transaction costs, and (iv) amortization of intangibles acquired. The pro forma amounts do not purport to be indicative of the results that would have been obtained if the Merger had occurred as of January 1, 2012 or that may be obtained in the future.

(in thousands)	Three months ended September 30, 2013	Nine months ended September 30, 2013
Net revenues	\$ 7,836	\$ 19,695
Net income/(loss)	\$ 1,692	\$ (3,179)

4. Earnings/(LOSS) per Share

Basic earnings/(loss) per share is computed by dividing net income available to common shareholders by the weighted-average number of shares of common stock outstanding during the period.

Edgar Filing: ANI PHARMACEUTICALS INC - Form 10-Q

Our unvested restricted shares and certain of our outstanding warrants contain non-forfeitable rights to dividends, and therefore are considered to be participating securities; the calculation of basic and diluted earnings/(loss) per share excludes from the numerator net income (but not net loss) attributable to the unvested restricted shares and to the participating warrants, and excludes the impact of those shares from the denominator. The numerator for earnings per share for the three and nine months ended September 30, 2014 is calculated for basic and diluted earnings per share as follows:

(in thousands)	Three months ended		Nine months ended	
	September 30, 2014		September 30, 2014

ANI PHARMACEUTICALS, INC. and subsidiary

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

*(unaudited)***4. Earnings/(LOSS) per Share - continued**

The numerators for earnings per share from continuing operations and from the gain on discontinued operations for the three and nine months ended September 30, 2013 are calculated for basic and diluted earnings per share as follows:

(in thousands)	Three months ended September 30, 2013		Nine months ended September 30, 2013	
	Basic	Diluted	Basic	Diluted
Net income/(loss) from Continuing Operations	\$ 1,041	\$ 1,041	\$ (3,282)	\$ (3,282)
Preferred stock dividends	-	-	(4,974)	(4,974)
Net income allocated to warrants	(19)	(19)	-	-
Net income/(loss) from Continuing Operations allocated to common shares	\$ 1,022	\$ 1,022	\$ (8,256)	\$ (8,256)
Gain on discontinued operations	\$ 150	\$ 150	\$ 150	\$ 150
Net gain on discontinued operations allocated to warrants	(3)	(3)	(3)	(3)
Gain on discontinued operations allocated to common shares	\$ 147	\$ 147	\$ 147	\$ 147

For periods of net income, and when the effects are not anti-dilutive, we calculate diluted earnings per share by dividing net income available to common shareholders by the weighted-average number of shares outstanding plus the impact of all potential dilutive common shares, consisting primarily of common stock options, unvested restricted stock awards, and stock purchase warrants, using the treasury stock method. For periods of net income, anti-dilutive shares consist of out-of-the-money Class C Special stock, out-of-the-money common stock options, out-of-the-money warrants exercisable for common stock, and certain participating securities, if the effect of including both the income allocated to the participating security and the impact of the potential common shares would be anti-dilutive. Anti-dilutive shares have been excluded from the computation of diluted earnings per share.

For periods of net loss, diluted loss per share is calculated similarly to basic loss per share because the impact of all dilutive potential common shares is anti-dilutive. For periods of net loss, anti-dilutive shares consist of Class C Special stock, common stock options, unvested restricted stock awards, and warrants exercisable for common stock (and prior to the Merger, equity-linked securities, convertible preferred stock, and stock purchase warrants exercisable for preferred stock), and have been excluded from the computation of diluted loss per share. Prior to the Merger (Note

3), anti-dilutive shares included equity-linked securities, convertible preferred stock, and stock purchase warrants exercisable for preferred stock.

The number of anti-dilutive shares, which have been excluded from the computation of diluted earnings/(loss) per share, was 0.7 million and 0.9 million for the three month periods ended September 30, 2014 and 2013, respectively and 0.7 million and 3.7 million for the nine month periods ended September 30, 2014 and 2013, respectively.

As of September 30, 2014, we had 460 thousand options outstanding to purchase common stock, 79 thousand unvested restricted stock awards, and 469 thousand warrants to purchase common stock.

ANI PHARMACEUTICALS, INC. and subsidiary**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS***(unaudited)***5. INVENTORIES**

Inventories consist of the following as of:

(in thousands)	September 30, 2014	December 31, 2013
Raw materials	\$ 4,455	\$ 1,480
Packaging materials	671	766
Work-in-progress	391	162
Finished goods	1,945	1,152
	7,462	3,560
Reserve for excess/obsolete inventories	(116)	(42)
Inventories, net	\$ 7,346	\$ 3,518

Vendor Concentration

We source the raw materials for our products, including active pharmaceutical ingredients (“API”), from both domestic and international suppliers. Generally, only a single source of API is qualified for use in each product due to the costs and time required to validate a second source of supply. As a result, we are dependent upon our current vendors to supply reliably the API required for ongoing product manufacturing. During the three months ended September 30, 2014, we purchased approximately 49% of our inventory from two suppliers. During the nine months ended September 30, 2014, we purchased approximately 43% of our inventory from the same two suppliers. As of September 30, 2014, amounts payable to these suppliers was \$0.8 million. During the three months ended September 30, 2013, we purchased approximately 52% of our inventory from two suppliers. During the nine months ended September 30, 2013, we purchased approximately 32% of our inventory from two suppliers.

6. PROPERTY, PLANT, AND EQUIPMENT

Property, plant, and equipment consist of the following as of:

Edgar Filing: ANI PHARMACEUTICALS INC - Form 10-Q

(in thousands)	September 30, 2014	December 31, 2013
Land	\$ 87	\$ 87
Buildings	3,682	3,682
Machinery, furniture and equipment	4,478	3,736
Construction in progress	432	229
	8,679	7,734
Less: accumulated depreciation	(3,633)	(3,197)
Property, Plant and Equipment, net	\$ 5,046	\$ 4,537

Depreciation expense for the three month periods ended September 30, 2014 and 2013 totaled \$153 thousand and \$134 thousand, respectively. Depreciation expense for the nine month periods ended September 30, 2014 and 2013 totaled \$436 thousand and \$400 thousand, respectively. During the three and nine month periods ended September 30, 2014 and 2013, there was no material interest capitalized into construction in progress.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

7. GOODWILL AND INTANGIBLE ASSETS

Goodwill

As a result of the Merger (Note 3), we recorded goodwill of \$1.8 million in our one reporting unit. We assess the recoverability of the carrying value of goodwill as of October 31 of each year, and whenever events occur or circumstances changes that would, more likely than not, reduce the fair value of our reporting unit below its carrying value. There have been no events or changes in circumstances that would have reduced the fair value of our reporting unit below its carrying value from the most recent assessment on October 31, 2013, through September 30, 2014. No impairment losses were recognized during the three and nine months ended September 30, 2014 or 2013.

Acquisition of Abbreviated New Drug Applications

On December 26, 2013, we entered into an agreement to purchase (the “Teva Purchase Agreement”) Abbreviated New Drug Applications (“ANDAs”) to produce 31 generic drug products from Teva Pharmaceuticals (“Teva”) for \$12.5 million in cash and a percentage of future gross profits from product sales. According to the terms of the Teva Purchase Agreement, Teva was required to provide soft copy materials and transfer ownership of the ANDAs to us within five business days of signing the Teva Purchase Agreement, and we were required to pay the first installment of \$8.5 million upon receipt thereof. Teva provided the soft copy materials and transferred ownership of the ANDAs to us on January 2, 2014 and we paid the first installment of \$8.5 million to Teva on January 2, 2014. Teva was also required to provide hard copy materials to us within 90 days of signing the Teva Purchase Agreement. Teva provided the hard copy materials on March 5, 2014 and we paid the \$4.0 million balance on March 6, 2014.

The drug products include 20 solid-oral immediate release products, four extended release products and seven liquid products. We performed an assessment of the assets purchased and determined that this transaction was an asset purchase and not a business combination. The ANDAs are being amortized in full over their useful lives, averaging 10 years.

Acquisition of Lithobid® Product Rights

In July 2014, we entered into an agreement to purchase (the “Lithobid Purchase Agreement”) the product rights to Lithobid from Noven Therapeutics, LLC (“Noven”) for \$11.0 million in cash at closing, and \$1.0 million in cash if certain approvals are received from the FDA on or before June 30, 2015. This \$1.0 million contingent payment is probable and is included in accounts payable at September 30, 2014 in the condensed consolidated balance sheets. Pursuant to the terms of the Lithobid Purchase Agreement, we acquired the intellectual property rights and NDA associated with Lithobid, as well as a small amount of raw material inventory. The \$12.0 million product rights intangible asset is being amortized over its estimated useful life of 10 years.

Acquisition of Vancocin® Product Rights

In August 2014, we entered into an agreement to purchase (the “Vancocin Purchase Agreement”) the product rights to Vancocin from Shire ViroPharma Incorporated (“Shire”) for \$11.0 million in cash at closing. Pursuant to the terms of the Vancocin Purchase Agreement, we acquired the U.S. intellectual property rights and NDA associated with Vancocin, two related ANDAs, and certain equipment and inventory. The \$10.5 million product rights intangible asset is being amortized over its estimated useful life of 10 years.

ANI PHARMACEUTICALS, INC. and subsidiary**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS***(unaudited)***7. GOODWILL AND INTANGIBLE ASSETS – continued****Definite-Lived Intangible Assets**

The components of our definite-lived intangible assets are as follows:

(in thousands)	September 30, 2014		December 31, 2013		Amortization Period
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization	
Acquired ANDA intangible assets	\$ 12,577	\$ (999)	\$ 60	\$ (55)	3-10 years
Product rights	22,522	(573)	100	(100)	2-10 years
Teva license intangible asset	10,900	(1,239)	10,900	(496)	11 years
	\$ 45,999	\$ (2,811)	\$ 11,060	\$ (651)	

Our acquired ANDA intangible assets consist of the exclusive rights, including all of the applicable technical data and other relevant information, to produce certain pharmaceutical products that we acquired from various companies, including those acquired pursuant to the Teva Purchase Agreement. The product rights assets consist of the exclusive rights, including all of the applicable technical data and other relevant information, to produce certain branded pharmaceutical products that we acquired from various companies, including those acquired pursuant to the Lithobid Purchase Agreement and the Vancocin Purchase Agreement. The Teva license was acquired as part of the Merger (Note 3). Definite-lived intangible assets are stated at the lower of cost or fair value, net of amortization using the straight line method over the expected useful lives of the product rights. Amortization expense was \$1.0 million and \$0.2 million for the three months ended September 30, 2014 and 2013, respectively. Amortization expense was \$2.2 million and \$0.3 million for the nine months ended September 30, 2014 and 2013, respectively.

We test for impairment of definite-lived intangible assets when events or circumstances indicate that the carrying value of the assets may not be recoverable. No such triggering events were identified during the three months or nine months ended September 30, 2014 and 2013 and therefore no impairment loss was recognized in the three or nine months ended September 30, 2014 or 2013.

Expected future amortization expense is as follows:

(in thousands)	
2014 (remainder of the year)	\$1,122
2015	4,485
2016	4,485
2017	4,485
2018	4,485
2019 and thereafter	24,126
Total	\$43,188

8. STOCK-BASED COMPENSATION

All stock options and restricted stock are granted under the ANI Pharmaceuticals, Inc. Fourth Amended and Restated 2008 Stock Incentive Plan (the “2008 Plan”). As of September 30, 2014, 628 thousand shares of our common stock remained available for issuance under the 2008 Plan.

On August 20, 2014, the Board of Directors approved a grant of options to purchase 25 thousand shares of common stock to one of our officers.

On April 1, 2014, the Board of Directors approved grants of options to purchase 59 thousand shares of common stock and 30 thousand shares of restricted stock to our officers and options to purchase 16 thousand shares of common stock to non-employee directors. While the stock options were granted with no restrictions, the restricted stock was granted subject to shareholder approval of an increase in the total restricted stock available for grant under the 2008 Plan. The increase in total restricted stock available for grant under the 2008 Plan was approved by shareholders at the May 22, 2014 annual meeting and the restricted stock was granted as of May 22, 2014.

On July 12, 2013 and August 1, 2013, our Board of Directors approved grants to employees of stock options to purchase 325 thousand shares of ANI stock under the 2008 Plan, subject to shareholder approval of an increase in the total shares available for issuance under the 2008 Plan. The increase in total shares was approved by shareholders at the May 22, 2014 annual meeting, at which time we began recognizing stock-based compensation expense related to these awards.

In 2013, the Board of Directors granted options to purchase 21 thousand shares of common stock and 50 thousand shares of restricted stock to non-officer directors under the 2008 Plan.

Total expense related to stock options for the three months ended September 30, 2014 was \$0.6 million. Total expense related to stock options for the nine months ended September 30, 2014 was \$2.5 million, \$1.3 million of which was a catch-up charge related to the 325 thousand stock options previously approved by the Board of Directors on July 12, 2013 and August 1, 2013 and granted at the May 22, 2014 annual meeting. Total expense related to restricted stock

grants for the three and nine months ended September 30, 2014 was \$97 thousand and \$218 thousand, respectively. Total expense related to stock options was \$3 thousand for the three and nine months ended September 30, 2013. There was no expense related to restricted stock grants in the three and nine months ended September 30, 2013.

Options to purchase 5 thousand shares of common stock were exercised and 4 thousand options expired during the three months ended September 30, 2014. Options to purchase 36 thousand shares of common stock were exercised and 64 thousand options expired during the nine month period ended September 30, 2014. No options were exercised and no options expired during the three and nine months ended September 30, 2013. No restricted stock vested or was forfeited during the three and nine months ended September 30, 2014 or 2013.

9. STOCKHOLDER'S EQUITY

On March 10, 2014, we completed a follow-on public offering of 1.6 million shares of our common stock at a public offering price of \$31.00 per share (the "March 2014 Offering"). We received gross proceeds of \$50.0 million, or net proceeds of \$46.7 million after deducting costs of \$3.3 million, including the underwriters' fees and commissions, as well as expenses directly related to the March 2014 Offering. The number of shares sold in the March 2014 Offering includes the exercise in full by the underwriters of their option to purchase an additional 0.2 million shares of common stock.

In January 2014, warrants to purchase an aggregate of 20 thousand shares of common stock were exercised at \$9.00 per share. Warrants to purchase an aggregate of 67 thousand and 198 thousand shares of common stock expired unexercised during the three and nine months ended September 30, 2014, respectively.

ANI PHARMACEUTICALS, INC. and subsidiary

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

10. INCOME TAXES

We use the asset and liability method of accounting for income taxes. Deferred tax assets and liabilities are determined based on differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that are expected to be in effect when the differences are expected to reverse. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that such tax rate changes are enacted. The measurement of a deferred tax asset is reduced, if necessary, by a valuation allowance if it is more likely than not that some portion or all of the deferred tax asset will not be realized. Based upon historical losses and uncertainty of future taxable income, we have fully reserved for all net deferred tax assets as of September 30, 2014 and December 31, 2013. For interim periods, we recognize an income tax provision/(benefit) based on our estimated annual effective tax rate expected for the entire year. We calculate income tax benefits related to stock-based compensation arrangements using the with and without method.

We use a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return, as well as guidance on derecognition, classification, interest and penalties and financial statement reporting disclosures. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. We have not identified any uncertain income tax positions that could have a material impact on the financial statements. We are subject to taxation in various jurisdictions and remain subject to examination by taxing jurisdictions for the years 1998 and all subsequent periods due to the availability of NOL carryforwards.

We recognize interest and penalties accrued on any unrecognized tax exposures as a component of income tax expense. We did not have any amounts accrued relating to interest and penalties as of September 30, 2014 and December 31, 2013.

The effective tax rates for the three and nine months ended September 30, 2014 were 18.6% and 16.9% of pre-tax income reported in the period, respectively, calculated based on the estimated annual effective rate anticipated for the year ending December 31, 2014. The Company has elected to exclude the impacts from significant pre-tax non-recognized subsequent events from its estimated annual effective rate. Our estimated annual effective rate is primarily driven by our forecasted pre-tax income, estimated temporary and permanent differences, and the use of our existing NOLs. Changes in the estimated annual effective rate during the year are primarily driven by periodic changes to our forecasted pre-tax income. The utilization of our NOL carryforwards will be limited in future years as prescribed by Section 382 of the U.S. Internal Revenue Code. For the comparable three and nine month periods ended

September 30, 2013, we did not have tax provisions due to the projected loss for the year, accumulated losses, which resulted in NOL carryforwards, and a full valuation allowance.

11. COMMITMENTS AND CONTINGENCIES

Operating Leases

We lease equipment under operating leases that expire in May 2017. We also lease office space under operating leases that expire beginning in February 2016 through September 2018. Future minimum lease payments due under these leases total \$223 thousand as of September 30, 2014.

Rent expense for the three months ended September 30, 2014 and 2013 totaled \$17 thousand and \$11 thousand, respectively. Rent expense for the nine months ended September 30, 2014 and 2013 totaled \$53 thousand and \$26 thousand, respectively.

11. COMMITMENTS AND CONTINGENCIES – continued

Government Regulation

Our products and facilities are subject to regulation by a number of federal and state governmental agencies. The Food and Drug Administration (“FDA”), in particular, maintains oversight of the formulation, manufacture, distribution, packaging and labeling of all of our products. The Drug Enforcement Administration (“DEA”) maintains oversight over our products that are controlled substances.

Unapproved Products

Two of our products, Esterified Estrogen with Methyltestosterone tablets (“EEMT”) and Opium Tincture, are marketed without approved New Drug Applications (“NDAs”) or ANDAs. In March 2014, we formally requested a pre-IND meeting with the FDA to discuss applying for an NDA for our Opium Tincture product. During the three months ended September 30, 2014 and 2013, net revenues for these products totaled \$8.9 million and \$4.4 million, respectively. During the nine months ended September 30, 2014 and 2013, net revenues for these products totaled \$19.4 million and \$7.7 million, respectively.

The FDA’s policy with respect to the continued marketing of unapproved products is stated in the FDA’s September 2011 compliance policy guide, *Marketed New Drugs without Approved NDAs or ANDAs*. Under this policy, the FDA has stated that it will follow a risk-based approach with regard to enforcement against such unapproved products. The FDA evaluates whether to initiate enforcement action on a case-by-case basis, but gives higher priority to enforcement action against products in certain categories, such as those marketed as unapproved drugs with potential safety risks or that lack evidence of effectiveness. We believe that, so long as we comply with applicable manufacturing and labeling standards, the FDA will not take action against us under the current enforcement policy. There can be no assurance, however, that the FDA will continue this policy or not take a contrary position with any individual product or group of products. If the FDA were to take a contrary position, we may be required to seek FDA approval for these products or withdraw such products from the market. If we decide to withdraw the products from the market, our net revenues for generic pharmaceutical products would decline materially, and if we decide to seek FDA approval, we would face increased expenses and might need to suspend sales of the products until such approval was obtained, and there are no assurances that we would receive such approval.

In addition, one group of products that we manufacture on behalf of a contract customer is marketed by that customer without an approved NDA. If the FDA took enforcement action against such customer, the customer may be required to seek FDA approval for the group of products or withdraw them from the market. Our contract manufacturing revenues for these unapproved products for the three months ended September 30, 2014 and 2013 were \$0.2 million and \$0.5 million, respectively. Our contract manufacturing revenues for these unapproved products for the nine months ended September 30, 2014 and 2013 were \$0.7 million and \$1.7 million, respectively.

We receive royalties on the net sales of a group of contract-manufactured products, which are marketed by the contract customer without an approved NDA. If the FDA took enforcement action against such customer, the customer may be required to seek FDA approval for the group of products or withdraw them from the market. Our royalties on the net sales of these unapproved products for each of the three months ended September 30, 2014 and 2013 were \$0.1 million. Our royalties on the net sales of these unapproved products for each of the nine months ended September 30, 2014 and 2013 were \$0.2 million and \$0.3 million, respectively.

In October 2012, we received a telephone call requesting a meeting with the FDA representatives from the Minneapolis district of the FDA to discuss continued manufacturing and distribution of the Opium 10mg/mL Solution 118mL product (“Opium Tincture”), which is a non-NDA Product. That meeting was held on October 25, 2012 by conference telephone call and included FDA representatives from the Office of Compliance at the Center for Drug Evaluation and Research. Our counsel sent a letter to the FDA on November 9, 2012 in support of our position. On April 2, 2014, we received communication from the FDA confirming that the inspection was closed.

11. COMMITMENTS AND CONTINGENCIES – continued

Shareholder Class Action and Derivative Lawsuits

On February 3, 2012, a purported class action lawsuit was filed in the United States District Court for the Northern District of Illinois under the caption Thomas Lauria, on behalf of himself and all others similarly situated v. BioSante Pharmaceuticals, Inc. and Stephen M. Simes, naming BioSante Pharmaceuticals, Inc. and our former President and Chief Executive Officer, Stephen M. Simes, as defendants. The complaint alleges that certain of our disclosures relating to the efficacy of LibiGel® and its commercial potential were false and/or misleading and that such false and/or misleading statements had the effect of artificially inflating the price of our securities resulting in violations of Section 10(b) of the Exchange Act, Rule 10b-5 and Section 20(a) of the Exchange Act.

Although a substantially similar complaint was filed in the same court on February 21, 2012, such complaint was voluntarily dismissed by the plaintiff in April 2012. The plaintiff sought to represent a class of persons who purchased our securities between February 12, 2010 and December 15, 2011, and sought unspecified compensatory damages, equitable and/or injunctive relief, and reasonable costs, expert fees and attorneys' fees on behalf of such purchasers. On November 6, 2012, the plaintiff filed a consolidated amended complaint. On December 28, 2012, we and Mr. Simes filed motions to dismiss the consolidated amended complaint. On September 11, 2013, the Illinois district court judge granted defendants' motions to dismiss, without prejudice, and gave plaintiffs 28 days to file an amended complaint. The plaintiffs did not file an amended complaint and the matter has been concluded.

On May 7, 2012, Jerome W. Weinstein, a purported stockholder of BioSante, filed a shareholder derivative action in the United States District Court for the Northern District of Illinois under the caption Weinstein v. BioSante Pharmaceuticals, Inc. et al., naming our directors as defendants and BioSante as a nominal defendant. A substantially similar complaint was filed in the same court on May 22, 2012 and another substantially similar complaint was filed in the Circuit Court for Cook County, Illinois, County Department, Chancery Division, on June 27, 2012. The suits generally related to the same events that are the subject of the class action litigation described above. The complaints alleged breaches of fiduciary duty, abuse of control, gross mismanagement and unjust enrichment as causes of action occurring from at least February 2010 through December 2011. The complaints sought unspecified damages, punitive damages, costs and disbursements, and unspecified reforms and improvements in our corporate governance and internal control procedures.

On September 24, 2012, the United States District Court consolidated the two shareholder derivative cases before it and on November 20, 2012, the plaintiffs filed their consolidated amended complaint. On January 11, 2013, the defendants filed a motion to dismiss the amended complaint. On September 11, 2013, the Illinois district court judge granted defendants' motions to dismiss, without prejudice, and gave plaintiffs 28 days to file an amended complaint. The plaintiffs did not file an amended complaint and the district court matter has been concluded.

On November 27, 2012, the plaintiff in the shareholder derivative action pending in Illinois state court filed an amended complaint. On January 18, 2013, the defendants filed a motion to dismiss the amended complaint. On July 1, 2013, the Illinois state court judge granted defendants' motions to dismiss, without prejudice, and gave plaintiffs until July 31, 2013 to file an amended complaint. On September 9, 2013, the Illinois state court judge granted defendants' motion to dismiss, with prejudice. On October 9, 2013, the plaintiffs filed a notice of appeal to Illinois state appellate court. The plaintiffs reached a settlement with the Company's insurance carrier in June 2014, which consisted of a one-time payment of \$60,000. On July 2, 2014, the Illinois state appellate court granted the plaintiffs motion for voluntary dismissal with prejudice, which concluded the matter.

11. COMMITMENTS AND CONTINGENCIES – continued

Louisiana Medicaid Lawsuit

On September 11, 2013, the Attorney General of the State of Louisiana filed a lawsuit in Louisiana state court against numerous pharmaceutical companies, including us, under various state laws, alleging that each defendant caused the state's Medicaid agency to provide reimbursement for drug products that allegedly were not approved by the FDA and therefore allegedly not reimbursable under the federal Medicaid program. The lawsuit relates to three cough and cold prescription products manufactured and sold by our former Gulfport, Mississippi operation, which was sold in September 2010. Through its lawsuit, the state seeks unspecified damages, statutory fines, penalties, attorneys' fees and costs. On October 15, 2013, the defendants removed the lawsuit to the U.S. District Court. On November 14, 2013, the state filed a motion to remand the lawsuit to the Louisiana state court. On September 30, 2014, the U.S. District Court remanded the case from the federal to the state court. While we cannot predict the outcome of the lawsuit at this time, we could be subject to material damages, penalties and fines. We intend to vigorously defend against all claims in the lawsuit.

Other Commitments and Contingencies

All manufacturers of the drug Reglan and its generic equivalent metoclopramide, including us, are facing allegations from plaintiffs in various states claiming bodily injuries as a result of ingestion of metoclopramide or its brand name Reglan prior to the FDA's February 2009 Black Box warning requirement. We have been named and served in 92 separate complaints, including three in Pennsylvania, nine in New Jersey, and 80 in California, covering 2,944 plaintiffs in total. In August 2012, we were dismissed with prejudice from all New Jersey cases. We consider our exposure to this litigation to be limited due to several factors: (1) the only generic metoclopramide manufactured by us prior to the implementation of the FDA's warning requirement was an oral solution introduced after May 28, 2008; (2) our market share for the oral solution was a very small portion of the overall metoclopramide market; and (3) once we received a request for change of labeling from the FDA, we submitted our proposed changes within 30 days, and such changes were subsequently approved by the FDA. At the present time, we are unable to assess the likely outcome of the remaining cases. Our insurance company has assumed the defense of this matter. In addition, our insurance company renewed our product liability insurance on September 1, 2012 and 2013 with absolute exclusions for claims related to Reglan and metoclopramide. We are unable to predict the outcome of these matters and the possible loss or range of loss, if any, associated with their resolution or any potential effect the legal action may have on our

operations. Furthermore, we cannot provide assurances that the outcome of these matters will not have an adverse effect on our business, results of operations, financial condition, and cash flow. Like all pharmaceutical manufacturers, we in the future may be exposed to other product liability claims, which could harm our business, results of operations, financial condition, and cash flows.

12. FAIR VALUE DISCLOSURES

Fair value is the price that would be received from the sale of an asset or paid to transfer a liability assuming an orderly transaction in the most advantageous market at the measurement date. U.S. GAAP establishes a hierarchical disclosure framework that prioritizes and ranks the level of observability of inputs used in measuring fair value.

The inputs used in measuring the fair value of cash and cash equivalents are considered to be level 1 in accordance with the three-tier fair value hierarchy. The fair market values are based on period-end statements supplied by the various banks and brokers that held the majority of our funds. The fair value of short-term financial instruments (primarily accounts receivable, prepaid expenses, accounts payable, accrued expenses, borrowings under line of credit, and other current liabilities) approximate their carrying values because of their short-term nature.

ANI PHARMACEUTICALS, INC. and subsidiary**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS***(unaudited)***12. FAIR VALUE DISCLOSURES – continued****Financial Assets and Liabilities Measured at Fair Value on a Recurring Basis**

Our CVRs, which were granted coincident with the Merger, are considered contingent consideration and are classified as liabilities. As such, the CVRs were recorded as purchase consideration at their estimated fair value, using level 3 inputs, and are marked to market each reporting period until settlement. The fair value of CVRs is estimated using the present value of our projection of the expected payments pursuant to the terms of the CVR agreement, which is the primary unobservable input. If our projection or expected payments were to increase substantially, the value of the CVRs could increase as a result. The present value of the liability was calculated using a discount rate of 15%. We determined that the fair value of the CVRs, and the changes in such fair value, was immaterial as of and for the three and nine months ended September 30, 2013 and 2014.

Prior to the Merger, ANIP's warrants to purchase common and preferred stock were classified as derivative liabilities and were measured at fair value using level 3 inputs. The fair value of stock purchase warrants was determined using a two-step process that included valuing ANIP's equity using both market and discounted cash flow methods, and then apportioning that value, using an equity allocation model, to each of ANIP's classes of stock. These models require the use of unobservable inputs such as fair value of ANIP's common and preferred stock, expected term, anticipated volatility, future interest and interest rates, expected cash flows and the number of outstanding common and preferred shares as of a future date. All such stock purchase warrants expired in connection with the Merger.

The following table presents our financial assets and liabilities accounted for at fair value on a recurring basis as of September 30, 2014 and December 31, 2013, by level within the fair value hierarchy:

(in thousands)

Description	Fair Value at September 30, 2014	Level 1	Level 2	Level 3
Liabilities				
CVRs	\$-	\$-	\$-	\$-

Description	Fair Value at December 31, 2013	Level 1	Level 2	Level 3
Liabilities				
CVRs	\$-	\$-	\$-	\$-

Non-Financial Assets and Liabilities Measured at Fair Value on a Recurring Basis

We do not have any non-financial assets and liabilities that are measured at fair value on a recurring basis.

Non-Financial Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis

We measure our long-lived assets, including property, plant and equipment, intangible assets and goodwill, at fair value on a non-recurring basis. These assets are recognized at fair value when they are deemed to be other-than-temporarily impaired. No such fair value impairment was recognized in the three and nine months ended September 30, 2014 and 2013.

ANI PHARMACEUTICALS, INC. and subsidiary

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

12. FAIR VALUE DISCLOSURES – continued

Acquired Non-Financial Assets Measured at Fair Value

In July 2014, we acquired from Noven the product rights associated with Lithobid, as well as a small amount of raw material inventory, for total consideration of \$12.0 million (Note 7). In addition, we capitalized \$45 thousand of legal costs directly related to the transaction. These assets were recorded at their relative fair values, which were determined based on Level 3 unobservable inputs. In order to determine the fair value of the product rights, we used the present value of the estimated cash flows related to the product rights, using a discount rate of 10%. The \$12.0 million of product rights will be amortized over their 10 year useful life, and will be tested for impairment when events or circumstances indicate that the carrying value of the assets may not be recoverable. No such triggering events were identified during the three months ended September 30, 2014 and therefore no impairment loss was recognized in the three months ended September 30, 2014. We recorded \$86 thousand of inventory. The value of the raw material inventory was determined based on the most recent purchase price of the material.

In August 2014, we acquired from Shire the U.S. product rights associated with Vancocin, certain equipment, and inventory, for total consideration of \$11.0 million (Note 7). In addition, we capitalized \$0.1 million of legal costs directly related to the transaction. These assets were recorded at their relative fair values, which were determined based on Level 3 unobservable inputs. In order to determine the fair value of the product rights, we used the present value of the estimated cash flows related to the product rights, using a discount rate of 10%. The \$10.5 million of product rights will be amortized over their 10 year useful life, and will be tested for impairment when events or circumstances indicate that the carrying value of the assets may not be recoverable. No such triggering events were identified during the three months ended September 30, 2014 and therefore no impairment loss was recognized during the period from the date of acquisition to September 30, 2014. The value of the equipment was determined based on the amount for which we believe we would be able to sell the equipment. The \$0.2 million of equipment will be depreciated over its estimated 10 year useful life, and would be re-valued at the fair value if deemed to be other-than-temporarily impaired. We recorded \$0.4 million of inventory. The value of the raw material inventory was determined based on the most recent purchase price of the material. The value of the finished goods inventory was determined based on the estimated sales to be generated from the finished goods, less costs to sell, including a reasonable margin.

13. COLLABORATIVE ARRANGEMENTS

Sofgen Pharmaceuticals

In April 2014, we entered into a collaboration agreement with Sofgen Pharmaceuticals (“Sofgen”) to develop an oral soft gel prescription product (the “April 2014 Sofgen Agreement”). The product will be subject to an ANDA filing once developed. In general, Sofgen will be responsible for the development, manufacturing and regulatory submission of the product, including preparation of the ANDA, and we will provide payments based on the completion of certain milestones. Upon approval, Sofgen will manufacture the drug and we will be responsible for the marketing and distribution, under our label, of the product in the United States, providing a percentage of profits from sales of the drug to Sofgen.

Under the April 2014 Sofgen Agreement, Sofgen will own all the rights, title and interest in the product. During the term of the April 2014 Sofgen Agreement, both parties are prohibited from developing, selling or distributing any product in the United States that is identical or bioequivalent to the product covered under the April 2014 Sofgen Agreement. The April 2014 Sofgen Agreement can be terminated or amended under certain specified circumstances. The April 2014 Sofgen Agreement has an initial term of ten years from the launch of the product, which term will automatically renew for two year terms until either party terminates the agreement.

We recognize the costs incurred with respect to the April 2014 Sofgen Agreement as expense and classify the expenses based on the nature of the costs. We have recorded \$27 and \$36 thousand of research and development expense related to the April 2014 Sofgen Agreement in the three months ended September 30, 2014 and since the inception of the agreement. No revenue has yet been recognized with respect to the April 2014 Sofgen Agreement.

ANI PHARMACEUTICALS, INC. and subsidiary

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

13. COLLABORATIVE ARRANGEMENTS - continued

Dexcel Pharma Technologies Ltd

In June 2014, we entered into a collaboration agreement with Dexcel Pharma Technologies Ltd (“Dexcel”) to commercialize and sell a generic drug product (the “June 2014 Dexcel Agreement”). The product is subject to FDA approval of an ANDA filing. In general, Dexcel will be responsible for the manufacturing and regulatory submission of the product, including obtaining approval of the ANDA, and we will provide payments based on the completion of certain milestones. Upon approval, Dexcel will manufacture the drug and we will be responsible for the marketing and distribution, under our label, of the product in the United States, providing a percentage of profits from sales of the drug to Dexcel.

Under the June 2014 Dexcel Agreement, Dexcel will own all the rights, title and interest in the product. During the term of the June 2014 Dexcel Agreement, both parties are prohibited from developing, selling, or distributing any product in the United States that is identical or bioequivalent to the product covered under the June 2014 Dexcel Agreement. The June 2014 Dexcel Agreement can be terminated or amended under certain specified circumstances. The June 2014 Dexcel Agreement has an initial term of five years from the launch of the product, which term can be renewed for two year terms if both parties agree, until either party terminates the agreement.

We recognize the costs incurred with respect to the June 2014 Dexcel Agreement as expense and classify the expenses based on the nature of the costs. We have not yet incurred any expense related to the June 2014 Dexcel Agreement and no revenue has yet been recognized with respect to the June 2014 Dexcel Agreement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the unaudited condensed consolidated financial statements and the accompanying notes thereto included in Part I, Item 1 of this Form 10-Q quarterly report. This discussion contains forward-looking statements, based on current expectations and related to future events and our future financial performance, that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of many important factors, including those set forth under "Risk Factors" in our annual report on Form 10-K for the year ended December 31, 2013.

OVERVIEW

ANI Pharmaceuticals, Inc. and subsidiary (the "Company," "we," or "us") is an integrated specialty pharmaceutical company developing, manufacturing and marketing branded and generic prescription pharmaceuticals. Our targeted areas of product development currently include narcotics, oncolytics (anti-cancers), hormones and steroids, and complex formulations involving extended release and combination products. We have two pharmaceutical manufacturing facilities located in Baudette, Minnesota that are capable of producing oral solid dose products, as well as liquids and topicals, narcotics, and potent products that must be manufactured in a fully-contained environment. Our strategy is to continue to use these manufacturing assets to develop, produce, and distribute niche generic pharmaceutical products. These areas of focus reflect our specialized manufacturing experience and capabilities and offer a large number of attractive niche generic product opportunities.

Our product portfolio consists of both branded and generic pharmaceuticals, including:

Generic Products

Esterified Estrogen with Methyltestosterone Tablets
Fluvoxamine Maleate Tablets
Hydrocortisone Enema
Metoclopramide Syrup

Opium Tincture

Branded Products

Cortenema®
Reglan® Tablets
Lithobid®

Vancocin®

We consider a variety of criteria in determining which products to develop, all of which influence the level of competition upon product launch. These criteria include:

Formulation Complexity. Our development and manufacturing capabilities enable us to manufacture pharmaceuticals that are difficult to produce, including highly potent, extended release, combination, and low dosage products. This ability to manufacture a variety of complex products is a competitive strength that we intend to leverage in selecting products to develop or manufacture.

Patent Status. We seek to develop products whose branded bioequivalents do not have long-term patent protection or existing patent challenges.

Market Size. When determining whether to develop or acquire an individual product, we review the current and expected market size for that product at launch, as well as forecasted price erosion upon conversion from branded to generic pricing. We endeavor to manufacture products with sufficient market size to enable us to enter the market with a strong likelihood of being able to price our products both competitively and at a profit.

Profit Potential. We research the availability and cost of active pharmaceutical ingredients along with anticipated market share in determining which products to develop or acquire. In determining the potential profit of a product, our management forecasts our anticipated market share, pricing, which includes expected price erosion caused by competition from other generic manufacturers, and the estimated cost to manufacture the products.

Manufacturing. We generally seek to develop and manufacture products at our own manufacturing plants in order to maximize the capacity and utilization of our facilities, to ensure quality control in our products, and to maximize profit potential.

Competition. When determining whether to develop or acquire an individual product, we research the existing and expected market share of generic competitors. We seek to develop products for which we can obtain a large market share, and may decline to develop a product if we anticipate that many generic competitors will be entering that product's market. Our highly specialized manufacturing facilities provide a means of entering niche markets, such as hormone therapies, in which fewer generic companies would be able to compete.

GENERAL

The following table summarizes our results of operations for the periods indicated:

(in thousands)	Three Months Ended		Nine Months Ended	
	September 30,	September 30,	September 30,	September 30,
	2014	2013	2014	2013

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED SEPTEMBER 30, 2014 AND 2013**Net Revenues**

(in thousands)	Three Months Ended September 30,				% Change
	2014	2013	Change	%	
Generic pharmaceutical products	\$10,188	\$5,627	\$4,561	81.1	%
Branded pharmaceutical products	4,806	745	4,061	545.1	%
Contract manufacturing	1,350	1,326	24	1.8	%
Contract services and other income	1,043	138	905	655.8	%
Total net revenues	\$17,387	\$7,836	\$9,551	121.9	%

We derive substantially all of our revenues from sales of generic and branded pharmaceutical products, contract manufacturing, and contract services, which include product development services, laboratory services, and royalties on net sales of certain products.

Net revenues for the three months ended September 30, 2014 were \$17.4 million compared to \$7.8 million for the same period in 2013, an increase of \$9.6 million, or 121.9%, primarily as a result of the following factors:

Net revenues for generic pharmaceutical products were \$10.2 million during the three months ended September 30, 2014, an increase of 81.1% compared to \$5.6 million for the same period in 2013. The primary reason for the increase was increased sales of Esterified Estrogen with Methyltestosterone tablets ("EEMT"), due to increases in prices per bottle. In addition, we experienced increased sales for our Fluvoxamine, HC Enema, and Opium Tincture products.

As described in Note 11, *Commitments and Contingencies*, in the unaudited condensed consolidated financial statements included in Part I, Item 1 of this Form 10-Q quarterly report, we market EEMT and Opium Tincture without FDA-approved New Drug Applications ("NDAs"). The FDA's policy with respect to the continued marketing of unapproved products appears in the FDA's September 2011 Compliance Policy Guide Sec. 440.100 titled "Marketed New Drugs without Approved NDAs or ANDAs." Under this policy, the FDA has stated that it will follow a risk-based approach with regard to enforcement against marketing of unapproved products. The FDA evaluates whether to initiate enforcement action on a case-by-case basis, but gives higher priority to enforcement action against products in certain categories, such as those with potential safety risks or that lack evidence of effectiveness. While we believe that, so long as we comply with applicable manufacturing and labeling standards,

the FDA will not take action against us under the current enforcement policy, we can offer no assurances that the FDA will continue this policy or not take a contrary position with any individual product or group of products. Our combined net revenues for these products for the three months ended September 30, 2014 and 2013 were \$8.9 million and \$4.4 million, respectively.

Net revenues for branded pharmaceutical products were \$4.8 million during the three months ended September 30, 2014, an increase of 545.1% compared to \$0.7 million for the same period in 2013. The primary reasons for the increase were three months and two months of sales from our Lithobid and Vancocin products, respectively, the product rights to which were acquired during the third quarter of 2014, as well as higher unit sales of Reglan tablets.

Contract manufacturing revenues were \$1.4 million during the three months ended September 30, 2014, a slight increase of 1.8% compared to \$1.3 million for the same period in 2013, due to timing of orders from contract manufacturing customers in the period. As described in Note 11, *Commitments and Contingencies*, in the unaudited condensed consolidated financial statements included in Part I, Item 1 of this Form 10-Q quarterly report, we contract manufacture a group of products on behalf of a customer that are marketed by that customer without an FDA-approved NDA. If the FDA took enforcement action against such customer, the customer may be required to seek FDA approval for the group of products or withdraw them from the market. Our contract manufacturing revenues for the group of unapproved products for the three months ended September 30, 2014 and 2013 were \$0.2 million and \$0.5 million, respectively.

Contract services and other income were \$1.0 million during the three months ended September 30, 2014, an increase of 655.8% from \$0.1 million for the same period in 2013, due primarily to royalties received on sales of the authorized generic of Vancocin, the product rights to which were acquired in the third quarter of 2014. As described in Note 11, *Commitments and Contingencies*, in the unaudited condensed consolidated financial statements included in Part I, Item 1 of this Form 10-Q quarterly report, we receive royalties on the net sales of a group of contract-manufactured products, which are marketed by the customer without an FDA-approved NDA. If the FDA took enforcement action against such customer, the customer may be required to seek FDA approval for the group of products or withdraw them from the market. Our royalties on the net sales of these unapproved products were \$0.1 million for each of the three month periods ended September 30, 2014 and 2013.

Cost of Sales (Excluding Depreciation and Amortization)

(in thousands)	Three Months Ended September 30,			
	2014	2013	Change	% Change
Cost of sales (excl. depreciation and amortization)	\$ 3,061	\$ 2,710	\$ 351	13.0 %

Cost of sales consists of direct labor, including manufacturing and packaging, active and inactive pharmaceutical ingredients, freight costs, and packaging components. Cost of sales does not include depreciation and amortization expense, which is reported as a separate component of operating expenses on our condensed consolidated statements of operations.

For the three months ended September 30, 2014, cost of sales increased to \$3.1 million from \$2.7 million for the same period in 2013, an increase of \$0.4 million or 13.0%, primarily as a result of royalties due on proceeds from sales of Vancocin and its authorized generic. The contractual requirement to pay these royalties ends on December 31, 2014. Cost of sales as a percentage of net revenues decreased to 17.6% during the three months ended September 30, 2014, from 34.6% during same period in 2013, primarily as a result of price increases for EEMT and a favorable shift in product mix toward higher margin products, including our two new branded products, Lithobid and Vancocin.

We source the raw materials for our products, including active pharmaceutical ingredients (“API”), from both domestic and international suppliers. Generally, only a single source of API is qualified for use in each product due to the cost and time required to validate a second source of supply. Changes in API suppliers usually must be approved by the FDA, which can take 18 months or longer. As a result, we are dependent upon our current vendors to reliably supply the API required for ongoing product manufacturing. In addition, certain of our APIs for our drug products, including those that are marketed without approved NDAs or ANDAs, are sourced from international suppliers. From time to time, we have experienced temporary disruptions in the supply of certain of such imported APIs due to FDA inspections. During the three months ended September 30, 2014, we purchased 49% of our inventory from two suppliers. As of September 30, 2014, amounts payable to these suppliers were \$0.8 million. In the three months ended September 30, 2013, we purchased 52% of our inventory from two suppliers.

Each year, we must submit a request to the Drug Enforcement Agency (“DEA”) for a quota to purchase the amount of API needed to manufacture Opium Tincture. Without an approved quota from the DEA, we would not be able to purchase API from our supplier. As a result, we are dependent upon the DEA to annually approve a sufficient quota of API to support the continued manufacture of Opium Tincture.

Other Operating Expenses

(in thousands)	Three Months Ended September 30,				
	2014	2013	Change	% Change	
Research and development	\$ 883	\$ 454	\$ 429	94.5	%
Selling, general and administrative	4,057	3,480	577	16.6	%
Depreciation and amortization	1,187	382	805	210.7	%
Total other operating expenses	\$ 6,127	\$ 4,316	\$ 1,811	42.0	%

Other operating expenses consist of research and development costs, selling, general and administrative expenses, and depreciation and amortization.

For the three months ended September 30, 2014, other operating expenses increased to \$6.1 million from \$4.3 million for the same period in 2013, an increase of \$1.8 million, or 42.0%, primarily as a result of the following factors:

Selling, general and administrative expenses increased from \$3.5 million to \$4.1 million, primarily due to increases in stock-based compensation expense in 2014.

Research and development expenses increased from \$0.5 million to \$0.9 million, due to work on new development projects, including the ANDAs purchased from Teva Pharmaceuticals (“Teva”) in the first quarter of 2014, and new collaborations.

Depreciation and amortization increased from \$0.4 million to \$1.2 million, an increase of 210.7%, due to amortization of the ANDAs purchased from Teva and amortization of product rights for Lithobid and Vancocin purchased during the third quarter.

Other Income

(in thousands)	Three Months Ended September 30,				
	2014	2013	Change	% Change	
Interest income	\$ 10	\$ -	\$ 10	100.0	%
Other income	82	148	(66)	(44.6)%
Total other income	\$ 92	\$ 148	\$ (56)	(37.8)%

Edgar Filing: ANI PHARMACEUTICALS INC - Form 10-Q

For the three months ended September 30, 2014, we recognized other income of \$92 thousand versus \$148 thousand for the same period in 2013, a decrease of \$56 thousand, or 37.8%. This change resulted primarily from the following factors:

- Interest income increased to \$10 thousand as a result of interest earned on our cash balance in 2014.

Other income decreased from \$148 thousand to \$82 thousand. Other income in the three months ended September 30, 2013 related to settling of older liabilities and other income in the three months ended September 30, 2014 related primarily to the receipt of an abatement for prior year property taxes resulting from a reassessment of the property value for our manufacturing facilities.

Gain on Discontinued Operation

(in thousands)	Three Months Ended September 30,			
	2014	2013	Change	% Change
Gain on discontinued operation, net of tax	\$ -	\$ 150	\$ (150)	(100.0)%

Gain on discontinued operation consists of revenue and expenses associated with the Company's over-the-counter pharmaceutical products operation in Gulfport, Mississippi. This operation was sold in September 2010.

During the three month period ended September 30, 2013, the gain on discontinued operation resulted from finalizing a portion of the remaining liabilities.

RESULTS OF OPERATIONS FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2014 AND 2013**Net Revenues**

(in thousands)	Nine Months Ended September 30,			
	2014	2013	Change	% Change
Generic pharmaceutical products	\$ 23,077	\$ 11,102	\$11,975	107.9 %
Branded pharmaceutical products	6,149	2,742	3,407	124.3 %
Contract manufacturing	4,121	4,876	(755)	(15.5)%
Contract services and other income	1,586	830	756	91.1 %
Total net revenues	\$ 34,933	\$ 19,550	\$15,383	78.7 %

We derive substantially all of our revenues from sales of generic and branded pharmaceutical products, contract manufacturing, and contract services, which include product development services, laboratory services, and royalties on net sales of certain products.

Net revenues for the nine months ended September 30, 2014 were \$34.9 million compared to \$19.6 million for the same period in 2013, an increase of \$15.4 million, or 78.7%, primarily as a result of the following factors:

Net revenues for generic pharmaceutical products were \$23.1 million during the nine months ended September 30, 2014, an increase of 107.9% compared to \$11.1 million for the same period in 2013. The primary reason for the increase was increased sales of EEMT, which was the result of increases in both market share and prices per bottle. In addition, we experienced increased sales for our Fluvoxamine, Opium Tincture, and HC Enema products. In the third quarter of 2013, a significant competitor stopped producing EEMT, which led to a material increase in our market share and enabled us to significantly increase the price we charge for the product. However, in the first half of 2014, the same competitor re-entered the market, which negatively impacted our EEMT unit sales and revenues during the period, which impact we expect will continue. Revenues for the nine months ended September 30, 2014 were reduced by \$3.9 million in charges related to price protection contract obligations for EEMT.

As described in Note 11, *Commitments and Contingencies*, in the unaudited condensed consolidated financial statements included in Part I, Item 1 of this Form 10-Q quarterly report, we market EEMT and Opium Tincture without FDA-approved NDAs. The FDA's policy with respect to the continued marketing of unapproved products appears in the FDA's September 2011 Compliance Policy Guide Sec. 440.100 titled "Marketed New Drugs without Approved NDAs or ANDAs." Under this policy, the FDA has stated that it will follow a risk-based approach with regard to enforcement against marketing of unapproved products. The FDA evaluates whether to initiate enforcement action on a case-by-case basis, but gives higher priority to enforcement action against products in certain categories, such as those with potential safety risks or that lack evidence of effectiveness. While we believe that, so long as we comply with applicable manufacturing and labeling standards, the FDA will not take action against us under the current enforcement policy, we can offer no assurances that the FDA will continue this policy or not take a contrary position with any individual product or group of products. Our combined net revenues for these products for the nine months ended September 30, 2014 and 2013 were \$19.4 million and \$7.7 million, respectively.

Net revenues for branded pharmaceutical products were \$6.1 million during the nine months ended September 30, 2014, an increase of 124.3% compared to \$2.7 million for the same period in 2013. The primary reasons for the increase was three months and two months of sales from our Lithobid and Vancocin products, respectively, the product rights to which were acquired during the third quarter of 2014. This increase was partially offset by lower unit sales of our Cortenema product and a slight decrease in unit sales of Reglan tablets.

Contract manufacturing revenues were \$4.1 million during the nine months ended September 30, 2014, a decrease of 15.5% compared to \$4.9 million for the same period in 2013, due to decreased orders from contract manufacturing customers during the period. As described in Note 11, *Commitments and Contingencies*, in the unaudited condensed consolidated financial statements included in Part I, Item 1 of this Form 10-Q quarterly report, we contract manufacture a group of products on behalf of a customer that are marketed by that customer without an FDA-approved NDA. If the FDA took enforcement action against such customer, the customer may be required to seek FDA approval for the group of products or withdraw them from the market. Our contract manufacturing revenues for the group of unapproved products for the nine months ended September 30, 2014 and 2013 were \$0.7 million and \$1.7 million, respectively.

Contract services and other income were \$1.6 million during the nine months ended September 30, 2014, an increase of 91.1% from \$0.8 million for the same period in 2013, due primarily to royalties received on sales of the authorized generic of Vancocin, the product rights to which were acquired in the third quarter of 2014, partially offset by decreased contract services. As described in Note 11, *Commitments and Contingencies*, in the unaudited condensed consolidated financial statements included in Part I, Item 1 of this Form 10-Q quarterly report, we receive royalties on the net sales of a group of contract-manufactured products, which are marketed by the customer without an FDA-approved NDA. If the FDA took enforcement action against such customer, the customer may be required to seek FDA approval for the group of products or withdraw them from the market. Our royalties on the net sales of these unapproved products for each of the nine month periods ended September 30, 2014 and 2013 were \$0.2 million and \$0.3 million.

Cost of Sales (Excluding Depreciation and Amortization)

(in thousands)

Nine Months Ended September 30,

Edgar Filing: ANI PHARMACEUTICALS INC - Form 10-Q

	2014	2013	Change	% Change	
Cost of sales (excl. depreciation and amortization)	\$ 7,800	\$ 7,290	\$ 510	7.0	%

Cost of sales consists of direct labor, including manufacturing and packaging, active and inactive pharmaceutical ingredients, freight costs, and packaging components. Cost of sales does not include depreciation and amortization expense, which is reported as a separate component of operating expenses on our condensed consolidated statements of operations.

For the nine months ended September 30, 2014, cost of sales increased to \$7.8 million from \$7.3 million for the same period in 2013, an increase of \$0.5 million or 7.0%, primarily as a result of an increase in sales of generic pharmaceutical products, as well as royalties due on proceeds from sales of Vancocin and its authorized generic. The contractual requirement to pay these royalties ends on December 31, 2014. Cost of sales as a percentage of net revenues decreased to 22.3% during the nine months ended September 30, 2014, from 37.3% during same period in 2013, primarily as a result of price increases for EEMT, a favorable shift in product mix toward higher margin products, including our two new branded products, Lithobid and Vancocin, as well as decreases in the cost of raw material for Opium Tincture.

We source the raw materials for our products, including API, from both domestic and international suppliers. Generally, only a single source of API is qualified for use in each product due to the cost and time required to validate a second source of supply. Changes in API suppliers usually must be approved by the FDA, which can take 18 months or longer. As a result, we are dependent upon our current vendors to reliably supply the API required for ongoing product manufacturing. In addition, certain of our APIs for our drug products, including those that are marketed without approved NDAs or ANDAs, are sourced from international suppliers. From time to time, we have experienced temporary disruptions in the supply of certain of such imported APIs due to FDA inspections. During the nine months ended September 30, 2014, we purchased 43% of our inventory from two suppliers. As of September 30, 2014, amounts payable to these suppliers were \$0.8 million. In the nine months ended September 30, 2013, we purchased 32% of our inventory from two suppliers.

Each year, we must submit a request to the DEA for a quota to purchase the amount of API needed to manufacture Opium Tincture. Without an approved quota from the DEA, we would not be able to purchase API from our supplier. As a result, we are dependent upon the DEA to annually approve a sufficient quota of API to support the continued manufacture of Opium Tincture.

Other Operating Expenses

(in thousands)	Nine Months Ended September 30,				
	2014	2013	Change	% Change	
Research and development	\$ 2,110	\$ 1,188	\$922	77.6	%
Selling, general and administrative	13,193	12,961	232	1.8	%
Depreciation and amortization	2,596	673	1,923	285.7	%
Total other operating expenses	\$ 17,899	\$ 14,822	\$3,077	20.8	%

Other operating expenses consist of research and development costs, selling, general and administrative expenses, and depreciation and amortization.

For the nine months ended September 30, 2014, other operating expenses increased to \$17.9 million from \$14.8 million for the same period in 2013, an increase of \$3.0 million, or 20.8%, primarily as a result of the following factors:

Research and development expenses increased from \$1.1 million to \$2.1 million, due to work on new development projects, including the Teva products, new collaborations, and a filing fee for an ANDA submission of an anti-cancer drug.

Selling, general and administrative expenses increased slightly, from \$13.0 million to \$13.2 million, primarily due to the increases in personnel and consulting, legal, and other fees related to becoming a public company, as well as increased stock-based compensation expense, including a \$1.3 million catch-up charge for non-cash stock-based compensation, which was recognized upon shareholder approval of an increase in shares available for issuance under our stock compensation plan. These increases were partially offset by the lack of \$5.0 million of Merger-related expenses incurred in the prior year period.

Depreciation and amortization increased from \$0.7 million to \$2.6 million, an increase of 285.7%, due to amortization of the ANDAs purchased from Teva in the first quarter of 2014, amortization of product rights for Lithobid and Vancocin purchased during the third quarter of 2014, and a full nine months of amortization of the Teva license acquired in the Merger.

Other Income/(Expense)

(in thousands)	Nine Months Ended September 30,			
	2014	2013	Change	% Change
Interest income/(expense)	\$ 13	\$ (467) \$ 480	(102.8)%
Other income/(expense)	72	(336) 408	(121.4)%
Total other income/(expense)	\$ 85	\$ (803) \$ 888	(110.6)%

For the nine months ended September 30, 2014, we recognized other income of \$85 thousand versus other expense of \$803 thousand for the same period in 2013, a change of \$888 thousand, or 110.6%. This change resulted primarily from the following factors:

Interest income/(expense) changed from \$467 thousand of expense to \$13 thousand of income as a result of interest earned on our cash balance in 2014, as well as paying down our revolving line of credit in the second quarter of 2013, in connection with the Merger. Interest expense in the nine months ended September 30, 2013 also included a termination fee and accelerated amortization of deferred loan costs.

Other income/(expense) changed from \$336 thousand of other expense to \$72 thousand of other income, due primarily to the absence of payments of \$390 thousand to certain of our investors for monitoring and advisory fees in 2013. Upon completion of the Merger, our obligation to pay monitoring and advisory fees was terminated.

Gain on Discontinued Operation

(in thousands)	Three Months Ended September 30,			
	2014	2013	Change	% Change
Gain on discontinued operation, net of tax	\$ -	\$ 150	\$ (150)	(100.0)%

Gain on discontinued operation consists of revenue and expenses associated with the Company's over-the-counter pharmaceutical products operation in Gulfport, Mississippi. This operation was sold in September 2010.

During the nine month period ended September 30, 2013, the gain on discontinued operation resulted from finalizing a portion of the remaining liabilities.

LIQUIDITY AND CAPITAL RESOURCES

The following table highlights selected liquidity and working capital information from our balance sheets:

(in thousands)	September 30, 2014	December 31, 2013
Cash and cash equivalents	\$ 35,050	\$ 11,105
Accounts receivable, net	14,570	12,513
Inventories	7,346	3,518
Prepaid expenses	599	580
Total current assets	\$ 57,565	\$ 27,716
Accounts payable	\$ 3,059	\$ 1,429
Accrued expenses	3,888	1,326
Returned goods reserve	1,178	736
Deferred revenue	20	47
Total current liabilities	\$ 8,145	\$ 3,538

At September 30, 2014, we had \$35.1 million in unrestricted cash and cash equivalents. At December 31, 2013, we had \$11.1 million in unrestricted cash and cash equivalents. We received net proceeds of \$46.7 million from a follow-on public offering that closed on March 10, 2014 and generated \$11.3 million of cash from operations in the nine months ended September 30, 2014. In addition, in the first quarter of 2014, we acquired ANDAs related to 31 products for \$12.5 million from Teva. In the third quarter of 2014, we acquired the intellectual property rights and NDA associated with Lithobid, as well as raw material inventory, for \$11.0 million, not including the \$1.0 million contingency payment, and also acquired the U.S. intellectual property rights and NDA associated with Vancocin, two related ANDAs, and certain equipment and inventory for \$11.0 million.

We are focused on expanding our business and product pipeline through collaborations, and also through acquisitions of products and companies. We are continually evaluating potential asset acquisitions and business combinations. To finance such acquisitions, we might raise equity capital, incur debt, or both.

We believe that our financial resources, consisting of current working capital and anticipated future operating revenue, will be sufficient to enable us to meet our working capital requirements for at least the next 12 months.

The following table summarizes the net cash and cash equivalents provided by/(used in) operating activities, investing activities and financing activities for the periods indicated:

(in thousands)	Nine Months ended September 30,	
	2014	2013
Operating Activities	\$ 11,292	\$ (2,619)
Investing Activities	\$ (35,416)	\$ 18,036
Financing Activities	\$ 48,069	\$ (4,498)

Net Cash Provided By/(Used In) Operations

Net cash provided by operating activities was \$11.3 million for the nine months ended September 30, 2014, compared to \$2.6 million used in operating activities during the same period in 2013, a change of \$13.9 million between the periods. This increase was due to changes in net income and changes in current assets and current liabilities. Net income from operations for the nine months ended September 30, 2014 increased by \$10.9 million from the same period in 2013, after adjusting for non-cash expenses. Changes in current assets and current liabilities for the nine months ended September 30, 2014 used \$1.8 million of cash compared to \$4.6 million for the same period in 2013, a decrease in use of cash of approximately \$2.8 million between the periods. Accounts receivable increased by \$2.1 million in the nine months ended September 30, 2014 as compared with an increase of \$4.1 million in the prior year period. Accrued expenses increased by \$3.0 million in the nine months ended September 30, 2014, as compared with a decrease of \$0.4 million in the prior year period. Accounts payable increased by \$0.6 million in the nine months

ended September 30, 2014 as compared with \$0.1 million in the prior year period. These increases to cash provided were partially offset by an increase to inventory of \$3.3 million in the nine months ended September 30, 2014 as compared with a slight decrease of \$1 thousand in the prior year period.

Net Cash (Used In)/Provided By Investing Activities

Net cash used in investing activities for the nine months ended September 30, 2014 was \$35.4 million, principally due to the \$12.5 million asset acquisition of the Teva ANDA products, \$11.0 million and \$11.0 million asset purchases related to Lithobid and Vancocin, respectively, in addition to \$0.9 million of capital expenditures during the period. Net cash provided by investing activities was \$18.0 million during the same period in 2013, relating primarily to the net cash acquired in the Merger, partially offset by capital expenditures.

Net Cash Provided By/(Used In) Financing Activities

Net cash provided by financing activities was \$48.1 million for the nine months ended September 30, 2014, resulting primarily from \$46.7 million of net proceeds received in our March 10, 2014 follow-on public offering. We also received \$0.8 million of cash from stock option exercises and \$0.2 million from warrant exercises during the nine months ended September 30, 2014. Net cash used in financing activities was \$4.5 million during the same period in 2013, resulting primarily from the repayment in September 2013 of our revolving line of credit in connection with the Merger.

CRITICAL ACCOUNTING POLICIES AND USE OF ESTIMATES

This Management's Discussion and Analysis of Financial Condition and Results of Operations is based on our unaudited condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The preparation of financial statements in conformity with U.S. GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. In our unaudited condensed consolidated financial statements, estimates are used for, but not limited to, stock-based compensation, allowance for doubtful accounts, accruals for chargebacks, returns and other allowances, allowance for inventory obsolescence, accruals for contingent liabilities and litigation, fair value of long-lived assets, deferred taxes and valuation allowance, and the depreciable and amortizable lives of long-lived assets.

A summary of our significant accounting policies is included in Item 8. Consolidated Financial Statements, Note 1 — Description of Business and Summary of Significant Accounting Policies, in our Annual Report on Form 10-K for the year ended December 31, 2013. Certain of our accounting policies are considered critical, as these policies require significant, difficult or complex judgments by management, often requiring the use of estimates about the effects of matters that are inherently uncertain. Such policies are summarized in Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" of our Annual Report on Form 10-K for the year ended December 31, 2013.

RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

In July 2013, the Financial Accounting Standards Board ("FASB") issued guidance for the presentation of an unrecognized tax benefit when a net operating loss ("NOL") carryforward, a similar tax loss, or a tax credit carryforward exists. The guidance requires an entity to present in the financial statements an unrecognized tax benefit, or a portion of an unrecognized tax benefit, as a reduction to a deferred tax asset for an NOL carryforward, a similar tax loss, or a tax credit carryforward. If the NOL carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the jurisdiction or the tax law of the jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit will be presented in the financial statements as a liability and will not be combined with deferred tax assets. This guidance does not require any additional recurring disclosures and is effective for fiscal years beginning after December 15, 2013. The adoption of this guidance did not have a material impact on our financial statements.

CONTRACTUAL OBLIGATIONS AND OFF-BALANCE SHEET ARRANGEMENTS

As of September 30, 2014 and December 31, 2013, we did not have any off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of Regulation S-K promulgated by the SEC.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not required due to Smaller Reporting Company status.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Our management has carried out an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act), as of September 30, 2014. Based upon that evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective. In designing and evaluating our disclosure controls and procedures, we recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended September 30, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II — OTHER INFORMATION

Item 1. Legal Proceedings

Please refer to Note 11, *Commitments and Contingencies*, in the unaudited condensed consolidated financial statements included in Part I, Item 1 of this Form 10-Q quarterly report, which is incorporated into this item by reference.

Item 1A. Risk Factors

In addition to the other information set forth in this report, please carefully consider the factors described in our most recent annual report on Form 10-K for the fiscal year ended December 31, 2013 under the heading “Part I — Item 1A. Risk Factors.” The risks described are not the only risks facing us. Additional risks and uncertainties not currently known to us, or that our management currently deems to be immaterial, also may adversely affect our business, financial condition and/or operating results. Other than as described below, there has been no material change to those risk factors.

Our ability to utilize our net operating loss and tax credit carryforwards in the future is subject to substantial limitations and we may not be able to use certain identified net operating loss and tax credit carryforwards in the

future, which could result in increased tax payments in future periods.

Under Section 382 of the Internal Revenue Code, if a corporation undergoes an ownership change (generally defined as a greater than 50% change (by value) in its equity ownership over a three-year period), the corporation's ability to use its pre-change net operating loss ("NOL") carryforwards and other pre-change tax attributes to offset its post-change income may be limited. On June 19, 2013, BioSante experienced an ownership change. Accordingly, our ability to utilize BioSante's NOL and tax credit carryforwards attributable to periods prior to June 19, 2013 is subject to substantial limitations. In addition, as a result of the offering that closed on March 10, 2014, we believe that ANIP Acquisition Company experienced an ownership change. Accordingly, our ability to utilize ANIP Acquisition Company's NOL and tax credit carryforwards attributable to periods prior to the offering is subject to substantial limitations. These limitations, in turn, could result in increased future tax payments, which could be material.

Item 2. Unregistered Sales of Equity and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

None.

Item 5. Other Information

None.

Item 6. Exhibits

The exhibits listed in the Index to Exhibits, which is incorporated herein by reference, are filed or furnished as part of this quarterly report on Form 10-Q.
