Company Overview

We are engaged in the design, manufacture, marketing and sale of wearable display devices also referred to as head mounted displays (or HMDs), in the form of Augmented Reality (AR) glasses, Virtual Reality (VR) glasses and Smart Glasses. Our wearable display products are referred to as Video Eyewear, head mounted wearable displays, video glasses, personal viewers, near-eye virtual displays, and near-eye displays or NEDs. Our wearable display products provide virtual large high-resolution screens, fit in a user's pocket or purse and can be viewed practically anywhere, anytime. They can also be used for VR and AR applications, in which the wearer is either immersed in a computer generated world or has their real world view augmented with computer generated information or graphics. We produce and sell two main types of wearable display products: Smart Glasses for a variety of enterprise and commercial users and applications, including AR; and Video Viewing glasses (for on-the-go users as mobile displays for entertainment, gaming as well as support for stepping into virtual worlds, simulations & VR gaming). Our products are available with varying features, including with and without application running computer processors, and are offered as either monocular or binocular display systems.

Historically, we have focused on three markets: the consumer markets for gaming, entertainment and mobile video, smart glasses products for enterprise, and rugged mobile displays for defense markets. In June 2012, we sold the assets that sold products and provided services, directly and indirectly, to military organizations and defense organizations. Accordingly, we now focus primarily on the consumer entertainment and enterprise markets.

We reported net losses of \$13,754,038 and \$12,915,091 for the nine months ended September 30, 2017 and September 30, 2016, respectively. S-2

RISK FACTORS

Any investment in our securities involves a high degree of risk. Investors should carefully consider the risks described below and all of the information contained or incorporated by reference in this prospectus, including the risk factors described in our Annual Report on Form 10-K for the year ended December 31, 2016, before deciding whether to purchase the securities offered hereby. Our business, financial condition, results of operations and prospects could be materially and adversely affected by these risks.

The holder of our outstanding shares of Series A Preferred Stock has a continuing right to maintain its pro rata ownership of the Company, which may result in dilution to then-current stockholders.

On January 2, 2015, we entered into and closed a Series A Preferred Stock Purchase Agreement, pursuant to which we issued and sold to Intel Corporation (the “Series A Purchaser”) 49,626 shares of Series A Preferred Stock. Pursuant to the Series A Preferred Stock Purchase Agreement between the Company and the Series A Purchaser, in connection with securities issuances by us in which the Series A Purchaser was not provided the right to participate, we are required to provide the Series A Purchaser, not more than twice per calendar year, with the right to acquire additional securities in such amount sufficient to maintain the Series A Purchaser’s ownership interest in the Company. Such purchases may be made at the same prices as the shares are sold to other purchasers. Any such issuances by us to the Series A Purchaser may result in dilution to then-current stockholders of the Company.

Sales of common stock by the Series A Purchaser may depress the price of our common stock.

The shares of common stock issuable upon conversion of the outstanding shares of Series A Preferred Stock currently represent approximately 18% of our outstanding common stock, giving effect to conversion of such shares of Series A Preferred Stock. On November 10, 2016, we received a letter from the Series A Purchaser stating that it had been evaluating its alternatives with respect to its significant investment in and strategic relationship with us and that it has concluded that it no longer desires to pursue a strategic relationship with us. While the Series A Purchaser stated it had high regard for the Company’s team and its technology, the technology did not fit into its strategic plans. Furthermore, the Series A Purchaser added that it wanted to work with us to undertake an orderly disposition of its stock, subject to pricing and other conditions, that would minimize disruption in the markets, although it has not made any final decisions regarding its stock or the timing of a disposition. Resale of such conversion shares by the Series A Purchaser may depress the price of our common stock.

You will experience immediate and substantial dilution as a result of this offering and may experience additional dilution in the future.

You will incur immediate and substantial dilution as a result of this offering. After giving effect to the sale by us of shares offered in this offering at the public offering price of \$6.05 per share, and after deducting placement agent fees and estimated offering expenses payable by us, investors in this offering can expect an immediate dilution of \$5.17 per share. See “Dilution.”

Because we will have broad discretion and flexibility in how we use the net proceeds from this offering, we may use the net proceeds in ways in which you disagree.

We currently intend to use the net proceeds from this offering for general corporate purposes including expanding our products, and for general working capital purposes. We may also use a portion of the net proceeds to acquire or invest in businesses, technologies, and products that are complementary to our own, although we have no current plans, commitments or agreements with respect to any acquisitions as of the date of this prospectus. See “Use of Proceeds”. Our management will have significant discretion and flexibility in applying the net proceeds of this offering. You will be relying on the judgment of our management with regard to the use of these net proceeds, and you will not have the opportunity, as part of your investment decision, to assess whether the net proceeds are being used appropriately. The failure of our management to use such funds effectively could have a material adverse effect on our business, financial condition, operating results and cash flow.

Additional stock offerings in the future may dilute then existing stockholders’ percentage ownership of our company.

Given our plans and expectations that we may need additional capital, we may need to issue additional shares of common stock or securities convertible or exercisable for shares of common stock, including convertible preferred stock, convertible notes, stock options or warrants. The issuance of additional securities in the future will dilute the percentage ownership of then existing stockholders.

The warrants are speculative in nature.

The warrants do not confer any rights of common stock ownership on its holders, such as voting rights or the right to receive dividends, but rather merely represent the right to acquire shares of common stock at a fixed price for a limited period of time. Specifically, for a period of three years commencing six months from the date of issuance, holders of the warrants may exercise their right to acquire the common stock and pay an exercise price of \$7.00 per share. Moreover, the market value of the warrants is uncertain and the warrants will not be listed or quoted for trading on any market or exchange. There can be no assurance that the market price of the common stock will ever equal or exceed the exercise price of the warrants, and consequently, whether it will ever be profitable for holders of the warrants to exercise the warrants.

We have not paid dividends in the past and do not expect to pay dividends in the future on our common stock.

We have never paid cash dividends on our common stock and do not anticipate paying cash dividends in the foreseeable future. The payment of dividends on our common stock will depend on earnings, financial condition, debt covenants in place, and other business and economic factors affecting us at such time as our board of directors may consider relevant. If we do not pay dividends, our common stock may be less valuable because a return on a stockholders' investment will only occur if our stock price appreciates. In addition, the holder of our outstanding shares of Series A Preferred Stock is entitled to certain dividends prior to payments of dividends to holders of common stock.

FORWARD-LOOKING INFORMATION

This prospectus supplement and the documents and information incorporated by reference in this prospectus supplement include forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. All statements in this prospectus supplement and the documents and information incorporated by reference in this prospectus supplement that are not historical facts are forward-looking statements. We may, in some cases, use terms such as “anticipates,” “believes,” “could,” “estimates,” “expects,” “intends,” “may,” “plans,” “potential,” “predicts,” “projects,” “would” or similar expressions or the negative of such items that convey uncertainty of future events or outcomes to identify forward-looking statements.

Forward-looking statements are made based on management’s beliefs, estimates and opinions on the date the statements are made and we undertake no obligation to update forward-looking statements if these beliefs, estimates and opinions or other circumstances should change, except as may be required by applicable law. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements.

USE OF PROCEEDS

We estimate that the net proceeds from this offering, after placement agent fees and estimated offering expenses payable by us, will be approximately \$11.5 million.

We currently intend to use the net proceeds from this offering for general corporate purposes, including expanding our products, and for general working capital purposes. We may also use a portion of the net proceeds to acquire or invest in businesses, technologies, and products that are complementary to our own, although we have no current plans, commitments or agreements with respect to any acquisitions as of the date of this prospectus supplement.

Until we use the net proceeds of this offering for the above purposes, we intend to invest the funds in short-term, investment grade, interest-bearing securities. We cannot predict whether the proceeds invested will yield a favorable return. We have not yet determined the amount or timing of the expenditures for the categories listed above, and these expenditures may vary significantly depending on a variety of factors. As a result, we will retain broad discretion over the use of the net proceeds from this offering.

The following table sets forth our consolidated cash and cash equivalents and capitalization as of September 30, 2017. Such information is set forth on the following basis:

DILUTION

If you invest in our common stock, your interest will be diluted immediately to the extent of the difference between the public offering price per share and the adjusted net tangible book value per share of our common stock after this

offering.

Our net tangible book value as of September 30, 2017 was approximately \$14.2 million, or \$0.52 per share (on an as-converted basis with respect to our outstanding shares of Series A Preferred Stock). “Net tangible book value” is total assets minus the sum of liabilities and intangible assets. “Net tangible book value per share” is net tangible book value divided by the total number of shares outstanding.

After giving effect to the sale of the common stock in this offering at the public offering price set forth on the cover page of this prospectus supplement (without attributing any value to the warrants) and after deducting estimated placement agent fees and expenses payable by us, our pro forma net tangible book value as of September 30, 2017 would have been approximately \$25.7 million or \$0.88 per share of common stock. This represents an immediate increase in net tangible book value of \$0.36 per share to our existing stockholders and an immediate dilution in net tangible book value of \$5.17 per share to investors participating in this offering. The following table illustrates this dilution per share to investors participating in this offering:

Public offering price per share	\$6.05
Net tangible book value per share as of September 30, 2017	\$0.52
Increase per share attributable to this offering	\$0.36
Pro forma net tangible book value per share as of September 30, 2017 after this offering	\$0.88
Dilution per share to new investors participating in this offering	\$5.17

S-5

The information above is as of September 30, 2017 and excludes, as of that date:

approximately 1,417,809 shares of our common stock issuable upon exercise of outstanding stock options under our equity incentive plans having a weighted average exercise price of \$5.00 per share; and

approximately 151,850 shares of our common stock issuable upon the exercise of outstanding warrants, at a weighted average exercise price of \$2.66 per share.

DESCRIPTION OF THE SECURITIES WE ARE OFFERING

In this offering, we are offering 2,066,116 shares of our common stock together with warrants to purchase up to an aggregate of 1,033,058 shares of our common stock at the combined public offering price of \$6.05 per share and half-warrant. Each warrant is exercisable for a period of three years, commencing six months after issuance upon issuance. This prospectus also includes the offering of the shares of common stock issuable upon exercise of the offered warrants.

Common Stock

The material terms and provisions of our common stock are described under the caption “Description of Common Stock” beginning on page 2 of the accompanying prospectus.

Warrants

The following is a brief summary of certain terms and conditions of the warrants and is subject in all respects to the provisions contained in the warrants.

The warrants will be issued as individual warrant agreements to the investors in this offering. You should review the form of warrant, to be filed as an exhibit to the Current Report on Form 8-K filed with the SEC in connection with this offering, for a complete description of the terms and conditions applicable to the warrants. The following brief summary of the material terms and provisions the warrants offered pursuant to this prospectus is subject to, and qualified in its entirety by, the form of warrant.

The warrants will be exercisable at any time commencing six months after their original issuance, expected to be December 18, 2017, up to the date that is three years after the date they are first exercisable. The warrants will be exercisable, at the option of each holder, in whole or in part by delivering to us a duly executed exercise notice and, at any time a registration statement registering the issuance of the shares of common stock underlying the warrants under the Securities Act is effective and available for the issuance of such shares, by payment in full in immediately available funds for the number of shares of common stock purchased upon such exercise. If a registration statement registering the issuance of the shares of common stock underlying the warrants under the Securities Act is not effective or available for the issuance of such shares, the holder may, in its sole discretion, elect to exercise the warrant through a cashless exercise, in which case the holder would receive upon such exercise the net number of shares of common stock determined according to the formula set forth in the warrant. No fractional shares of common stock will be issued in connection with the exercise of a warrant. In lieu of fractional shares, we will round up to the next whole share or pay the holder an amount in cash equal to the fractional amount multiplied by the exercise price.

The exercise price per whole share of common stock purchasable upon exercise of the warrants is \$7.00 per share of common stock. The exercise price is subject to appropriate adjustment in the event of certain stock dividends and distributions, stock splits, stock combinations, reclassifications or similar events affecting our common stock and also upon any distributions of assets, including cash, stock or other property to our stockholders.

Subject to limited exceptions, a holder of warrants will not have the right to exercise any portion of its warrants if the holder (together with such holder's affiliates, and any persons acting as a group together with such holder or any of such holder's affiliates) would beneficially own a number of shares of common stock in excess of 4.99% of the shares of our common stock then outstanding after giving effect to such exercise (the "Beneficial Ownership Limitation"); provided, however, that, upon notice to the Company, the holder may increase or decrease the Beneficial Ownership Limitation, provided that in no event shall the Beneficial Ownership Limitation exceed 9.99% and any increase in the Beneficial Ownership Limitation will not be effective until 61 days following notice of such increase from the holder to us.

In the event of a Fundamental Transaction (as defined in the Warrants), the warrants will automatically terminate if the holder does not elect to exercise the warrants effective upon the closing of such Fundamental Transaction.

We do not plan on applying to list the warrants on the NASDAQ Capital Market or any other national securities exchange or any trading system.

Except as otherwise provided in the warrants or by virtue of such holder's ownership of shares of our common stock, the holder of a warrant will not have the rights or privileges of a holder of our common stock, including any voting rights, until the holder exercises the warrant.

PLAN OF DISTRIBUTION

Pursuant to an engagement agreement dated December 13, 2017, we engaged Chardan Capital Markets, LLC ("Chardan" or the "Placement Agent") as our exclusive placement agent to solicit offers to purchase the securities in this offering. The Placement Agent is not purchasing or selling any of the securities we are offering, and it is not required to arrange the purchase or sale of any specific number of securities or dollar amount, but it has agreed to use reasonable best efforts to arrange for the sale of the securities. The Special Equities Group, a division of Chardan, holds warrants to purchase an aggregate of 61,250 shares of our common stock, which are exercisable at a price of \$2.50 per share and expire on July 30, 2018. In addition, one of the employees of the Placement Agent individually owns warrants to purchase 12,500 shares of our common stock which are exercisable at a price of \$2.25 per share and expire on August 5, 2018. These securities were not issued as compensation in connection with this offering.

The Placement Agent proposes to arrange for the sale of the securities we are offering pursuant to this prospectus supplement to one or more investors through securities purchase agreements directly between the purchasers and us. We established the price following negotiations with the Placement Agent and prospective investors and with reference to the prevailing market price of our common stock, recent trends in such price and other factors. It is possible that not all of the securities we are offering pursuant to this prospectus supplement will be sold at the closing, in which case our net proceeds would be reduced. We anticipate that the sale of the securities will be completed on the date indicated on the cover page of this prospectus supplement, subject to customary closing conditions. On the closing date, the following will occur:

- We will receive funds in the amount of the aggregate purchase price;
- Chardan will receive the Placement Agent fees in accordance with the terms of the engagement agreement between us and Chardan; and
- We will deliver the securities to the investors.

In connection with this offering, the placement agent may distribute this prospectus supplement and the accompanying prospectus electronically.

We will pay the placement agent cash fees equal to \$562,500. We will pay Craig-Hallum Capital Group LLC and Maxim Group LLC an advisory fee of \$140,000 each.

We currently anticipate that the sale of securities offered by this prospectus supplement and the accompanying base prospectus will be completed on or about December 18, 2017, subject to customary closing conditions. At the closing, The Depository Trust Company will credit the shares of common stock to the respective accounts of the purchasers, and we will deliver the warrants to the purchasers. The estimated offering expenses payable by us, excluding the placement agent fees, will be approximately \$423,500, which includes legal and printing costs and various other fees associated with registering and listing the common stock. After deducting the placement agent fees and our estimated offering expenses, we expect the net proceeds from this offering to be approximately \$11.5 million.

We have agreed to indemnify the placement agent against certain liabilities, including liabilities under the Securities Act of 1933, as amended, and liabilities arising from breaches and representations and warranties contained in the engagement agreement. We have also agreed to contribute to payments the placement agent may be required to make in respect of such liabilities.

We have also agreed to pay the placement agent a tail fee equal to 6% with respect to any public or private offering or capital raising transaction to the extent such financing or capital is provided by certain investors identified in the engagement agreement whom the placement agent introduced directly or indirectly to the Company, and such financing or capital raising transaction occurs during the three-month period following the termination or expiration of the engagement agreement.

Chardan may be deemed to be an underwriter within the meaning of Section 2(a)(11) of the Securities Act, and any commissions received by it and any profit realized on the resale of the securities sold by it while acting as principal might be deemed to be underwriting discounts or commissions under the Securities Act. As an underwriter, Chardan would be required to comply with the requirements of the Securities Act and the Exchange Act, including, without limitation, Rule 415(a)(4) under the Securities Act and Rule 10b-5 and Regulation M under the Exchange Act. These rules and regulations may limit the timing of purchases and sales of securities by Chardan acting as principal. Under these rules and regulations, Chardan:

- may not engage in any stabilization activity in connection with our securities; and

may not bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities, other than as permitted under the Exchange Act, until it has completed its participation in the distribution.

Electronic Distribution

A prospectus supplement in electronic format may be made available on websites or through other online services maintained by the placement agent of the offering, or by its affiliates. Other than the prospectus supplement and the accompanying prospectus in electronic format, the information on the placement agent's websites and any information contained in any other website maintained by the placement agent is not part of this prospectus supplement or the registration statement of which this prospectus supplement and accompanying prospectus form a part, has not been approved and/or endorsed by us or the placement agent in its capacity as placement agent and should not be relied upon by investors.
