CORPORATE INFORMATION

Initial Public Offering

In October 2000, we completed an initial public offering (IPO) of our class A common stock. In conjunction with that offering, we reorganized our corporate structure by merging Watson Wyatt & Company with a wholly-owned subsidiary of the Company. As a result, Watson Wyatt & Company became a wholly-owned subsidiary of the Company.

At the time of the reorganization, each share of Watson Wyatt & Company's redeemable common stock was converted into one share of class B-1 common stock and one share of class B-2 common stock of the Company. The class B common stock was divided into two classes to accommodate two different transfer restriction periods, which may be waived by the board of directors. The class B shares automatically convert into class A common stock following the expiration or waiver of the respective transfer restriction periods. The Company waived the transfer restriction on a total of 1,559,250 class B-1 and 1,559,250 class B-2 shares to allow for conversion into the class A shares for sale in the IPO.

Secondary Public Offering

In June 2001, we completed a secondary public offering of our class A common stock. In conjunction with this offering, the board of directors waived the transfer restrictions on a total of 3,288,215 class B-1 shares to allow for conversion into class A shares sold by selling stockholders.

Automatic Conversions

A total of 9,956,140 class B-1 shares were automatically converted to class A shares upon the expiration of the twelve-month transfer restrictions on October 16, 2001. Transfer restrictions on 10,193,509 class B-2 shares expired on October 16, 2002.

DIRECTORS MEETINGS

The board of directors conducted five meetings during fiscal year 2002. All directors attended 75% or more of the meetings of the board and the committees on which they served. None of the current directors who are employed by the Company is compensated separately for his or her services as a director or as a member of any committee of the board. The Amended and Restated Bylaws of the Company allow directors who are not active associates to receive compensation. In fiscal year 2002, independent directors of Watson Wyatt were paid a quarterly retainer of \$6,250 plus \$1,500 per day for board meetings, \$1,000 per day for regular committee meetings (\$750 if held in conjunction with a board meeting), \$2,000 per day for committee meetings if the independent director chaired that committee (\$1,000 if held in conjunction with a board meeting), and \$1,000 per day for other meetings. Telephone meetings of less than four hours duration were compensated at 40% of the applicable per day fee.

In fiscal year 2002, the fees paid to independent directors were paid in cash and in shares of Watson Wyatt's common stock. Watson Wyatt established the Voluntary Deferred Compensation Plan for Non-Employee Directors to enable independent

COMMON STOCK PURCHASE ARRANGEMENTS

Prior to the Company's IPO in October 2000, Watson Wyatt & Company had a stock purchase plan to encourage ownership of redeemable common stock by associates. The stock purchase plan was terminated upon completion of the IPO. Under the stock purchase plan, Watson Wyatt & Company regularly sold common stock to associates on or about March 1 of each year. The stock purchase plan permitted associates to borrow up to the full amount of the purchase price of the common stock from Watson Wyatt & Company's lenders, and Watson Wyatt & Company guaranteed repayment of all such loans. The loans provided for full recourse to the individual borrower and were secured by a pledge of the stock purchased. Officers, directors and executive officers had access to this credit facility on the same basis as other associates.

As of October 4, 2002, 1,964,374 shares of common stock, representing approximately 6.0% of the outstanding shares of common stock, remained pledged to the Company's lenders to secure loans to stockholders. As of the same date, the aggregate amount of outstanding loans was approximately \$2,345,000. This loan program has remained in place to accommodate the amortization of loans in existence at the time of the IPO, but has been amended, and no new loans will be extended.

- (a) No associates in salary bands 5 and above in North America received an annual merit increase on October 1, 2001, the Company's annual salary adjustment date. The variance between salary in fiscal years 2001 and 2002 is due to the salary adjustment date's impact on the fiscal year calculation.
- (b) In 1996, Watson Wyatt & Company adopted a supplemental bonus plan called the stock incentive bonus plan (SIBP). Following the IPO, the SIBP was terminated and replaced with equity-based incentives more customary to publicly-traded companies.

- (c) The first deferred stock units under the 2001 Deferred Stock Unit Plan for Selected Employees were granted in September 2002. Generally, 25% of each eligible associate's fiscal year end bonus will be delivered in the form of deferred stock units. Awards generally will vest over a two-year period at 50% per year. For the first year awards granted in September 2002, 100% of the deferred stock units vested immediately at grant. Dividends will not be paid on the deferred stock units reported in this column.
- (d) All Other Compensation consists of the following amounts: (1) Company matching contributions of 50% of the first 6% of total compensation contributed to the Company's 401(k) plan as a 401(k) salary deferral by the named executive up to the IRS maximum; (2) an additional Company matching contribution to a non-qualified savings plan of 3% of total compensation above the IRS compensation limit of \$160,000 for 1999 and 2000, and \$170,000 for 2001, if individual 401(k) contributions equal the IRS maximum; and (3) payment for the annual cash out of excess unused paid time off, as amended in 1999 (all associates are subject to the same paid time off limits).

Option Grants in Fiscal Year 2002

Under the 2000 Long-Term Incentive Plan, each associate was granted options in October 2000 (at the time of the IPO) to purchase stock valued at 40% of his or her target bonus amount, subject to a minimum grant of 100 options. The Company's executive officers and directors were granted options at that time using the same formula. These options will expire after seven years, subject to early termination in specified circumstances, and will vest in five equal annual installments over a period of five years. The Company did not grant any options under the Plan to the named executive officers in fiscal year 2002. The Company does not currently intend to issue further stock options under the 2000 Long-Term Incentive Plan.

Aggregated Option Exercises and Fiscal Year 2002 Year-End Option Values

The following table sets forth information concerning the number and value of unexercised options held by the named executive officers at fiscal year 2002 year-end. The value of unexercised in-the-money options held at fiscal year 2002 year-end represents the pre-tax total gain which the option holder would realize if he exercised all of the in-the-money options held at fiscal year 2002 year-end, and is determined by multiplying the number of shares of common stock underlying the options by the difference between \$24.22, which was the closing price per share of the Company's common stock on the New York Stock Exchange on June 28, 2002 (the last trading day of fiscal year 2002), and the applicable per share option exercise price. An option is in-the-money if the fair market value of the underlying shares exceeds the exercise price of the option. Two of the named executive officers exercised options during fiscal year 2002 - Dr. Friend exercised 500 options and Mr. Meehan exercised 1,280 options.

¹ The annual benefit at normal retirement (age 65) under the qualified plan is equal to 1.7% times the associate's average compensation for the 36 consecutive months with the highest compensation plus 0.4% times the associate's average compensation for the 36 consecutive months with the highest compensation that exceeds Social Security Covered Compensation, all times the number of completed years and months of continuous service up to 25 years.

* As required by Section 415 of the IRC, qualified plan payments may not provide annual benefits exceeding a maximum amount, currently \$160,000. For those associates who are covered under the excess plans, amounts above this maximum will be paid under the terms of the excess plans, up to the amounts shown in the table above. Pursuant to Section 401(a)(17) of the IRC, annual compensation in excess of \$200,000 cannot be taken into account in determining qualified plan benefits.

The years of credited service for the associates named in the cash compensation table as of June 30, 2002 are: Mr. Haley 25.17 years; Mr. Lofgren 13.00 years; Mr. Wood 26.75 years; Dr. Friend 7.00 years; Mr. Meehan 19.17 years. Benefits are based solely on the compensation shown in the Salary, the Cash Bonus, and Restricted Stock Award(s) columns of the Summary Compensation Table.

Supplemental Retirement Program for U.S. Associates. This non-qualified program provides additional retirement benefits to eligible associates who retire from active employment with the Company. Prior to January 1, 1997, the qualified pension plan recognized base pay only, with this Supplemental Retirement Program (SRP) recognizing total pay. Associates eligible for benefits under this program were those who had total annual average compensation in excess of a minimum compensation level (\$129,329 as of June 30, 2001 and indexed in the future) and who had attained age 50 with 10 or more years of service.

Effective January 1, 1997, the qualified pension plan was amended to recognize total pay; therefore, the SRP was phased out over a transition period that extended for five years through December 31, 2001. Associates eligible for transition benefits must meet all of the following criteria: total pay exceeds the minimum compensation level described previously; age 45 or older with 10 years or more of service as of December 31, 1996 and 60 or more points as of December 31, 1996 (sum of age and service is 60 or greater).

For purposes of the SRP, annual compensation refers to the total of the compensation amounts shown in the Salary and Bonus columns of the Summary Compensation Table. Transition benefits will equal the amount of total retirement benefits that would have been paid under the qualified plan and SRP formulas in effect prior to January 1, 1997, less any benefits paid under the qualified plan in effect after that date. Prior to January 1, 1997, the qualified plan provided a benefit equal to 2.5% times the participant's average salary (base pay only) for the three consecutive years with the highest annual salaries for each completed year and month of continuous service up to 20 years, plus 2% of such compensation for each completed year and month of continuous service over 20 years, up to a maximum of 8-1/3 years, less 30/17% of the participant's estimated Social Security benefit for each completed year and month of continuous service, up to a maximum of 28-1/3 years. Prior to January 1, 1997, the SRP formula was approximately the same as the qualified plan, except bonus compensation was also recognized. For determining benefits under the prior plans, no pay increases after December 31, 1996 were recognized. The form of benefit under the SRP was a temporary annuity from the retirement date until the eligible associate reached age 65. Any pension effect related to this program has not been considered in the preceding table, which assumes normal retirement (age 65).

Other Pension Plans. The Company also has other pension plans that have been established in various countries for the benefit of eligible associates in those jurisdictions.

General Employment Arrangement

Generally, executive officers are not parties to employment agreements with the Company. Independent directors are paid pursuant to a compensation plan approved by the Board. Executives and other associates in salary bands 4 and higher are required to sign non-competition and confidentiality agreements.

Compensation Committee Interlocks and Insider Participation

The members of the Company's Compensation Committee for fiscal year 2002 were Barbara Hackman Franklin, John J. Gabarro, R. Michael McCullough and Gilbert T. Ray (Chair). All are independent directors of the Company. The Compensation Committee members did not participate in decisions regarding their own compensation. No interlocking relationship exists between the Company's board of directors or our Compensation Committee and any member of any other company's board of directors or their compensation committee, nor has any interlocking relationship existed in the past.

Report of the Compensation Committee on Executive Compensation

The Compensation Committee was comprised of four independent directors. It oversees executive compensation policies, including the compensation of the chief executive officer (CEO), the 2001 Employee Stock Purchase Plan, the 2001 Deferred Stock Unit Plan for Selected Employees and the 2000 Long-Term Incentive Plan. The Committee held four meetings during fiscal year 2002.

Compensation Philosophy

The Company compensation philosophy is applied to all associates, including executive officers. The compensation program takes into consideration the Company's business strategy and market conditions. Specifically, the compensation program has been designed to:

1. Attract, motivate and retain associates by providing competitive compensation based on individual and Company performance;
2. Focus management on maximizing stockholder value;
3. Provide competitive base compensation, supplemented with variable compensation based on individual achievement of annual and long-term results;
4. Foster an ownership mentality among associates and reward their focus on long-term objectives;
5. Compensate associates fairly on a global basis, relative to other associates and the market; and
6. Provide compensation that reflects the Company's performance, relative to its key competitors.

The Committee commissioned an external survey of peer group senior executive compensation, including CEOs, in fiscal year 2002. Of the companies surveyed, the differences in size, complexity and organizational structure make direct competitor comparisons difficult. In making its determinations, the Committee relied on publicly available information, the above-mentioned survey and its knowledge of the market for key executives. The Committee believes that the level of executive compensation is sufficient to achieve financial objectives in a competitive environment.

Base and Bonus Compensation

For the fiscal year ending June 30, 2002, the compensation of the Company's executive officers and all other bonus-eligible associates was comprised primarily of two elements: base salary and fiscal year-end bonus. Such compensation for the company's executives who report to the CEO was determined by the CEO.

With respect to base compensation, the CEO's decisions were based on each associate's experience, competencies, expected level of responsibility in the coming year, and external market value, as well as internal equity.

The CEO's decisions with respect to bonus compensation were based on the Company's overall financial performance, business unit financial performance, and individual achievement of other business objectives.

The Company's compensation program establishes target bonuses for all bonus-eligible associates, based on their band level. Funding for the bonus pool is based on the Company's fiscal year-end net operating income and may be greater than or less than total target bonuses. Individual bonus awards are at each manager's discretion and are based on the manager's assessment of the associate's achievement of stated goals and support of Company values.

The Committee reviewed and approved the CEO's recommendations concerning base and bonus compensation for his direct reports.

Stock Programs

Edgar Filing: WATSON WYATT & CO HOLDINGS - Form DEF 14A

The Company's long-term compensation plans are designed to recognize the individual's past, present and potential future contributions. The Company believes that stock ownership aligns associate financial interest with those of other stockholders and the Company.

Stock Options

In connection with the IPO in October 2000, the Company implemented the 2000 Long-Term Incentive Plan, under which it may grant stock options. In October 2000, executive officers and other eligible associates were granted options to purchase the Company's common stock pursuant to this plan, based on a formula related to their target bonus amounts. There were no grants of options under the plan in fiscal year 2002 other than grants made to associates with pending offer letter commitments and/or administrative adjustments to existing grants. The total number of options granted in these categories was approximately 19,000.

Stock Purchase Plan

In January 2002, the Company implemented the 2001 Employee Stock Purchase Plan, which is available to all associates. Currently, 32% of associates participate in this plan.

Deferred Stock Unit Plan

In January 2002, the Company implemented the 2001 Deferred Stock Unit Plan for Selected Employees. Under this Plan, associates of the Company in bands 5 and above are granted deferred stock units in lieu of a portion of their discretionary bonus.

Compensation of the Chief Executive Officer

In addition to the specific factors listed below, quantitative and qualitative factors mentioned in the Base and Bonus Compensation section are also taken into consideration in assessing the performance of the CEO.

During fiscal year 2002, Mr. Haley's base salary was \$680,000, unchanged from fiscal year 2001. As part of the implementation of the new compensation philosophy that emphasizes variable pay, no associates in salary bands 5 and above in North America received an annual merit increase on October 1, 2001.

Mr. Haley's fiscal year 2002 bonus was approved by the board of directors based on the recommendation of the Compensation Committee. The Committee recommended, and the board approved, a bonus equal to 99 percent of Mr. Haley's target bonus. The following factors were taken into account:

1. Financial performance of the Company in light of the difficult economic environment and in comparison to its competitors;
2. Leadership in representing the Company with the investment community;
3. Successful promotion of continuous quality improvements and effective risk management;
4. Actions taken to strengthen the Latin America operations of the Company;
5. Development of succession plans for leadership teams and key client service teams;
6. Initiation of a diversity program throughout the Company; and
7. Relativity to the bonus compensation levels of the CEO's direct reports for fiscal year 2002.

Deductibility of Executive Compensation

Edgar Filing: WATSON WYATT & CO HOLDINGS - Form DEF 14A

In order to maximize the deductibility for federal income tax purposes of compensation paid to executive officers, the Company has a Senior Officers Deferred Compensation Plan that requires deferral of compensation in excess of \$1.0 million that would otherwise be payable to the CEO and the four other highest compensated executive officers.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

On April 1, 1995, Watson Wyatt & Company transferred its United Kingdom operations to R. Watson & Sons, subsequently renamed Watson Wyatt LLP, and received a beneficial interest and a 10% interest in a defined profit pool of the partnership. Watson Wyatt & Company also transferred its Continental European operations to a newly-formed holding company owned by a subsidiary of Watson Wyatt & Company and Watson Wyatt LLP in exchange for 50.1% of its shares. Effective July 1, 1998,

Edgar Filing: WATSON WYATT & CO HOLDINGS - Form DEF 14A

Watson Wyatt & Company sold one-half of its investment in the holding company to Watson Wyatt LLP. Mr. Paul N. Thornton, Senior Partner of Watson Wyatt LLP, is currently a member of the Company's board of directors. Mr. Haley is a member of the Watson Wyatt LLP Partnership Board. Watson Wyatt LLP and Watson Wyatt & Company provide various services to and on behalf of each other in the ordinary course of business.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's executive officers and directors, among others, to file with the SEC initial reports of ownership and reports of changes in ownership of the Company's common stock. Persons subject to Section 16 are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file. As a matter of practice, the Company's administrative staff assists the Company's executive officers and directors in preparing initial reports of ownership and reports of changes in ownership, and files those reports with the SEC on their behalf.

Based solely on a review of the copies of such forms furnished to the Company and written representations from the Company's executive officers and directors, the Company believes that all of its executive officers and directors filed required reports on a timely basis under Section 16(a). Due to an administrative oversight, one report of a sale of stock for Mr. John Caldarella, a Section 16(a) reporting person, was filed one day late.
