To Our Shareholders

November 10, 2010

As we have discussed in prior letters, periods of economic uncertainty and recovery usually see robust issuance of convertible securities because CFOs see their equity prices as too low and the risk premia demanded by bond buyers to be too high. This combination often induced the CFOs of companies looking to add to their capital to issue convertible securities because they could be viewed as both lower cost senior capital (debt or preferred stock) and higher priced common stock. Forward looking companies have often repaired or even expanded their balance sheets using convertible securities as recoveries unfold.

This recovery is different, however. Some companies are choosing not to expand their capital structures at this time and are actually looking to reduce their overall debt. Indeed, the belief that many companies have too much leverage has taken hold in the financial community as several industries (especially banks and insurance companies) are actively seeking to improve their equity to total assets ratio. Many companies are improving this ratio through such measures as buying in their debt from capital generated by reducing their fixed costs and capital expenditures rather than just by issuing new equity securities. We still anticipate that convertible securities will be issued to fill these needs, but the yields are likely to continue to decline. There is clearly a demand for these securities despite the current reluctance of potential issuers.

The process of reducing debt levels across the American financial landscape of corporations, households and government is likely to take years. Further, new regulations such as those contained in the Basel III accords will require higher equity ratios in all banks, which will effectively reduce debt available through banks. Higher equity ratios among financial firms imply slower, but perhaps more sustainable, growth rates, low interest rates, and low inflation rates.

The convertible securities market is strong and healthy as it continues to provide more than competitive performance against equities. It has been projected by Citi that there will be between 90 and 100 new issues of convertible securities issued in 2010, a reasonable number, but that many of these issues are smaller than average. While dollars raised by new issuance may be low, the market capitalization of the Bank of America/ Merrill Lynch Convertible Index (BAML Index) still rose to \$229.8 billion, well above the year-end 2008 capitalization of \$177.4 billion and modestly above the year-end 2009 capitalization of \$220.9 billion. With 574 issues in the Index, there is a diversity of available securities for us to work with. The average current yield on the BAML Index has fallen to 3.47% from 3.71% at the end of 2009; the average premium to conversion value has fallen to 56.8% from 68.3% while the measured delta, a measure of sensitivity to stock price movements, has remained unchanged at 0.569.

Performance for the Fund's fiscal year was enhanced by its exposure to Computer Hardware, Healthcare and Automotive industries. Performance was held back, however, by the Fund's exposure to Aerospace and Defense, as well as to the Transportation industry.

The Fund's market return outperformed the BAML Index for the year-to-date, one-, five- and ten years ended September 30, 2010. The Fund's net asset value (NAV) outperformed the BAML Index for the year-to-date, one- and ten-year periods, and performed almost as well as the BAML Index for the five-year period, also ended September 30, 2010 (when the NAV is

adjusted for the fiscal 2004 rights offering and the fact that the Index does not include expenses). For the ten-year performance, the volatility of the Fund's NAV and market return, as measured by standard deviation, were lower than that of the BAML Index. The Fund has sought to provide total returns to shareholders that compare favorably to those provided by the equity markets, but with less volatility. It is therefore worth noting that the Fund's shares and the Fund's NAV outperformed equities as represented by the S&P 500® Index for all periods presented and did so with lower 10-year volatility as measured by standard deviation.

At its October 11, 2010 meeting, the Board of Trustees declared a distribution of \$0.071 per share, consisting of undistributed net investment income. The distribution is payable on November 24, 2010 to shareholders of record on October 21, 2010.

The 2011 annual meeting of shareholders will be held on January 14, 2011. Time and location will be included in the proxy statement, scheduled to be mailed to shareholders on November 29, 2010. All shareholders are welcome to attend and we hope to see you there.

Dividends and distributions are assumed for the purposes of this calculation to be reinvested at prices obtained under the Fund's Automatic Dividend Investment and Cash Payment Plan. Net asset value total return is calculated on the same basis, except that the Fund's net asset value is used on the purchase and sale dates instead of market value.

Notes to Financial Statements

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

(a) Organization - Ellsworth Fund Ltd. (the Fund), is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company.

(b) Indemnification - Under the Fund's organizational documents, each trustee, officer or other agent of the Fund (including the Fund's investment adviser) is indemnified against certain liabilities that may arise out of performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss as a result of such indemnification is considered remote.

(c) Security Valuation - Investments in securities traded on a national securities exchange are valued at market using the last reported sales price, supplied by an independent pricing service, as of the close of regular trading. Listed securities, for which no sales were reported, are valued at the mean between closing reported bid and asked prices as of the close of regular trading. Unlisted securities traded in the over-the-counter market are valued using an evaluated quote provided by the independent pricing service, or, if an evaluated quote is unavailable, such securities are valued using prices received from dealers, provided that if the dealer supplies both bid and asked prices, the price to be used is the mean of the bid and asked prices. The independent pricing service derives an evaluated quote by obtaining dealer quotes, analyzing the listed markets, reviewing trade execution data and employing sensitivity analysis. Evaluated quotes may also reflect appropriate factors such as individual characteristics of the issue, communications with broker-dealers, and other market data. Securities for which quotations are not readily available, restricted securities and other assets are valued at fair value as determined in good faith pursuant to procedures approved by the Board of Trustees. Short-term debt securities with original maturities of 60 days or less are valued at amortized cost.

The Fund has adopted authoritative fair valuation accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion in changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

Level 1 - Quoted unadjusted prices for identical instruments in active markets.

Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-driven valuation in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or instances where prices vary substantially over time or among brokered market makers, and those received from an independent pricing service.

Level 3 - Model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Fund's own assumptions that market participants would use to price an asset or liability based on the best available information.

ELLSWORTH FUND LTD. 2010 ANNUAL REPORT TO SHAREHOLDERS

Notes to Financial Statements (continued)

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

The following is a summary of the inputs used to value the net assets of Ellsworth Fund Ltd. as of September 30, 2010:

	Level 1	Level 2	Level 3	Total
Investments in Securities:				
Common Stocks:				
Energy	\$ 1,235,025	\$	\$	\$ 1,235,025
Media and Entertainment	993,300			993,300
Pharmaceuticals	870,593			870,593
Telecommunications	3,345,500			3,345,500
Total Common Stocks	6,444,418			6,444,418
Convertible Bonds and Notes		73,579,192		73,579,192
Convertible Preferred Stocks		8,299,255	750,000	9,049,255
Mandatory Convertible Securities		9,494,571		9,494,571
Corporate Bonds and Notes		412,500		412,500
Total Investments	\$ 6,444,418	\$ 91,785,518	\$ 750,000	\$ 98,979,936

The following is a reconciliation of assets for which level 3 inputs were used in determining value:

	Convertible Bonds and Notes	Corporate Bonds and Notes	Convertible Preferred Stocks	Total
Beginning balance	\$	\$ 750,000	\$	\$ 750,000
Change in unrealized appreciation (depreciation)				
Net transfers in/out of level 3		(750,000)	750,000	
Ending balance	\$	\$	\$ 750,000	\$ 750,000

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of the markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

In January 2010, the FASB issued Accounting Standards Update Improving Disclosures about Fair Value Measurements (ASU). The ASU requires enhanced disclosures about a) transfers into and out of Levels 1 and 2, and b) purchases, sales, issuances, and settlements on a gross basis relating to Level 3 measurements. The first disclosure is effective for the first reporting period beginning after December 15, 2009, and for interim periods within those fiscal years. There were no significant transfers into and out of Levels 1 and 2 during the current period presented.

The second disclosure will become effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Management is currently evaluating the impact this disclosure may have on the Fund's financial statements.

ELLSWORTH FUND LTD. 2010 ANNUAL REPORT TO SHAREHOLDERS

Notes to Financial Statements (continued)

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Federal Income Taxes - The Fund's policy is to distribute substantially all of its taxable income within the prescribed time and to otherwise comply with the provisions of the Internal Revenue Code applicable to regulated investment companies. Therefore, no provision for federal income or excise taxes is believed necessary.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is more-likely-than-not to be sustained assuming examination by taxing authorities. Management of the Fund has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years (2007-2009), or expected to be taken in the Fund's 2010 tax returns. The major tax authority for the Fund is the Internal Revenue Service. The Fund is not aware of any tax positions for which it is reasonably likely that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

(e) Securities Transactions and Related Investment Income - Securities transactions are accounted for on the trade date (the date the order to buy or sell is executed) with gain or loss on the sale of securities being determined based upon identified cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis, including accretion of discounts and amortization of non-equity premium. For certain securities, known as contingent payment debt instruments, Federal tax regulations require the Fund to record non-cash, contingent interest income in addition to interest income actually received. Contingent interest income amounted to approximately 5 cents per share for the twelve months ended September 30, 2010. In addition, Federal tax regulations require the Fund to reclassify realized gains on contingent payment debt instruments to interest income. At September 30, 2010, there were unrealized losses of approximately 6 cents per share on contingent payment debt instruments.

(f) Distributions to Shareholders - Distributions to shareholders from net investment income are recorded by the Fund on the ex-dividend date. Distributions from capital gains, if any, are recorded on the ex-dividend date and paid annually.

The amount and character of income and capital gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. The tax character of distributions paid during the fiscal years ended September 30, 2010 and 2009 were as follows:

	2010	2009
Ordinary income	\$ 4,013,350	\$ 4,209,494
Net realized gain on investments		
	\$ 4,013,350	\$ 4,209,494

At September 30, 2010, the components of distributable earnings and federal tax cost were as follows:

Unrealized appreciation	\$ 9,445,269
Unrealized depreciation	(6,835,401)
Net unrealized appreciation	2,609,868
Undistributed ordinary income	739,692
Capital loss carryforward	(14,307,948)
Total distributable net earnings	(\$ 10,958,388)
Cost for federal income tax purposes	\$ 96,370,068

To the extent the Fund's net realized capital gains, if any, can be offset by capital loss carryforwards, it is the policy of the Fund not to distribute such gains. As determined at September 30, 2010, the Fund had unused capital loss carryforwards of \$ 14,307,948, of which \$4,900,857 expires in 2017 and \$9,407,091 expires in 2018, available for federal income tax purposes to offset net realized capital gains.

Edgar Filing: ELLSWORTH FUND LTD - Form N-CSR

The differences between book-basis and tax-basis unrealized appreciation/(depreciation) is attributable to differing methods of recognizing interest and ordinary income on bonds for tax purposes.

ELLSWORTH FUND LTD. 2010 ANNUAL REPORT TO SHAREHOLDERS

Notes to Financial Statements *(continued)*

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(g) Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(h) Market Risk - It is the Fund's policy to invest at least 65% of its assets in convertible securities. Although convertible securities do derive part of their value from that of the securities into which they are convertible, they are not considered derivative financial instruments. However, the Fund's mandatory convertible securities include features which render them more sensitive to price changes of their underlying securities. Thus they expose the Fund to greater downside risk than traditional convertible securities, but generally less than that of the underlying common stock. The market value of those securities was \$9,494,571 at September 30, 2010, representing 8.9% of net assets.

(i) Reclassification of Capital Accounts - Accounting principles generally accepted in the United States require that certain components of net assets relating to permanent differences be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share. At September 30, 2010 the Fund increased net investment income by \$253,560 and increased accumulated net realized loss on investments by \$253,560.

NOTE 2 - MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The Fund has entered into an investment advisory agreement with Dinsmore Capital Management Co. (Dinsmore Capital). The Fund, pursuant to an administrative services agreement with Dinsmore Capital, has agreed to pay Dinsmore Capital for certain accounting and other administrative services provided to the Fund. Under the administrative services agreement, the Fund pays Dinsmore Capital on the last day of each month a fee for such month computed at an annual rate of 0.05% of the Fund's net asset value in such month.

Certain officers and trustees of the Fund are officers and directors of Dinsmore Capital.

In preparing the financial statements as of September 30, 2010, management considered the impact of subsequent events for potential recognition or disclosure in these financial statements.

**Report of Independent Registered
Public Accounting Firm**

**To the Shareholders and Board of Trustees of
Ellsworth Fund Ltd.**

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments of Ellsworth Fund Ltd. (the Fund) as of September 30, 2010, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of September 30, 2010, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Ellsworth Fund Ltd. as of September 30, 2010, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Miscellaneous Notes

Automatic Dividend Investment and Cash Payment Plan

The Fund has an Automatic Dividend Investment and Cash Payment Plan (the Plan). Any shareholder may elect to join the Plan by sending an application to American Stock Transfer & Trust Company, P.O. Box 922, Church Street Station, NY 10269-0560 (the Plan Agent). You may also obtain additional information about the Plan as well as the Plan application by calling the Plan Agent toll free at (800) 937-5449. If your shares are held by a broker or other nominee, you should instruct the nominee to join the Plan on your behalf. Some brokers may require that your shares be taken out of the broker's street name and re-registered in your own name. Shareholders should also contact their broker to determine whether shares acquired through participation in the Plan can be transferred to another broker, and thereafter, whether the shareholder can continue to participate in the Plan.

Under the Plan, all dividends and distributions are automatically invested in additional Fund shares. Depending on the circumstances, shares may either be issued by the Fund or acquired through open market purchases at the current market price or net asset value, whichever is lower (but not less than 95% of market price). For the first three fiscal quarter distributions, when the market price is lower, the Plan Agent will combine your dividends with those of other Plan participants and purchase shares in the market, thereby taking advantage of the lower commissions on larger purchases. There is no other charge for this service. For the fourth quarter distribution when the market price is lower, the Fund will issue shares at the market price.

All dividends and distributions made by the Fund (including capital gain dividends and dividends designated as qualified dividend income, which are eligible for taxation at lower rates) remain taxable to Plan participants, regardless of whether such dividends and distributions are reinvested in additional shares of the Fund through open market purchases or through the issuance of new shares. Plan participants will be treated as receiving the cash used to purchase shares on the open market and, in the case of any dividend or distribution made in the form of newly issued shares, will be treated as receiving an amount equal to the fair market value of such shares as of the reinvestment date. Accordingly, a shareholder may incur a tax liability even though such shareholder has not received a cash distribution with which to pay the tax.

Plan participants may also voluntarily send cash payments of \$100 to \$10,000 per month to the Plan Agent, to be combined with other Plan monies, for purchase of additional Fund shares in the open market. You pay only a bank service charge of \$1.25 per transaction, plus your proportionate share of the brokerage commission. All shares and fractional shares purchased will be held by the Plan Agent in your dividend reinvestment account. You may deposit with the Plan Agent any Fund share certificates you hold, for a one-time fee of \$7.50.

At any time, a Plan participant may instruct the Plan Agent to liquidate all or any portion of such Plan participant's account. To do so, a Plan participant must deliver written notice to the Plan Agent prior to the record date of any dividend or distribution requesting either liquidation or a share certificate. The Plan Agent will combine all liquidation requests it receives from Plan participants on a particular day and will then sell shares of the Fund that are subject to liquidation requests in the open market. The amount of proceeds a Plan participant will receive shall be determined by the average sales price per share, after deducting brokerage commissions, of all shares sold by the Plan Agent for all Plan participants who have given the Plan Agent liquidation requests.

The Plan Agent or the Fund may terminate the Plan for any reason at any time by sending written notice addressed to the Plan participant's address as shown on the Plan Agent's records. Following the date of termination, the Plan Agent shall send the Plan participant either the proceeds of liquidation, or a share certificate or certificates for the full shares held by the Plan Agent in the Plan participant's account. Additionally, a check will be sent for the value of any fractional interest in the Plan participant's account based on the market price of the Fund's shares on that date.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Board of Trustees of the Fund has determined that Trustee and Audit Committee Chair, Daniel D. Harding, who is independent as such term is used in Form N-CSR, possesses the attributes required to be considered an audit committee financial expert under applicable federal securities laws.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Set forth in the table below are the aggregate fees billed to the Fund by its principal accountant, Tait, Weller & Baker LLP (Tait Weller), for professional services rendered to the Fund during the Fund's last two fiscal years ended September 30, 2010 and 2009.

Fiscal Year-End	Audit Fees	Audit-Related Fees (1)	Tax Fees (2)	All Other Fees
September 30				
2009	\$ 35,100	\$ 0	\$ 3,000	\$ 0
2010	\$ 35,100	\$ 0	\$ 3,000	\$ 0

- (1) The Fund's Audit Committee pre-approves all Audit-Related Fees, with exceptions. For the Fund's last two fiscal years ended September 30, 2010 and 2009, no Audit-Related Fees were approved by the Fund's Audit Committee pursuant to Rule 2.01(c)(7)(i)(C) of Regulation S-X, which waives the pre-approval requirement for certain *de minimus* fees.

- (2) Tax Fees include those fees billed by Tait Weller in connection with its review of the Fund's income tax returns for fiscal years 2009 and 2010. The Fund's Audit Committee pre-approves all Tax Fees, with exceptions. For the Fund's last two fiscal years ended September 30, 2010 and 2009, no Tax Fees were approved by the Fund's Audit Committee pursuant to Rule 2.01(c)(7)(i)(C) of Regulation S-X, which waives the pre-approval requirement for certain *de minimus* fees.

Non-Audit Services

During each of the last two fiscal years ended September 30, 2009 and 2010, Tait Weller did not provide any non-audit services to the Fund, with the exception of the services for which the Fund paid the Tax Fees noted above. Tait Weller did not provide any non-audit services to the Fund's investment adviser, Dinsmore Capital Management Co. (Dinsmore Capital) or its affiliates or otherwise bill the Fund or Dinsmore Capital or its affiliates for any such non-audit services.

Audit Committee Pre-Approval Policies and Procedures

The Audit Committee pre-approves all audit and permissible non-audit services that are proposed to be provided to the Fund by its independent registered public accountant before they are provided to the Fund. Such pre-approval also includes the proposed fees to be charged by the independent registered public accountant for such services. The Audit Committee may delegate the pre-approval of audit and permissible non-audit services and related fees to one or more members of the Audit Committee who are independent, as such term is used in Form N-CSR. Any such member's decision to pre-approve audit and/or non-audit services and related fees is presented to the full Audit Committee, solely for informational purposes, at its next scheduled meeting.

The Audit Committee also pre-approves non-audit services to be provided by the Fund's independent registered public accountant to the Fund's investment adviser if the engagement relates directly to the operations and financial reporting of the Fund and if the Fund's independent registered

public accountant is the same as, or affiliated with, the investment adviser's independent registered public accountant.

Bancroft Fund Ltd.

Ellsworth Fund Ltd.

Dinsmore Capital Management Co.

Proxy Voting Guidelines

(Adopted March 26, 2009)

These proxy voting guidelines have been adopted by the Boards of Trustees of Bancroft Fund Ltd. and Ellsworth Fund Ltd. (collectively, the Funds), as well as by the Board of Directors of Dinsmore Capital Management Co. (Dinsmore Capital).

The Boards of Trustees of the Funds have delegated to Dinsmore Capital responsibility for voting proxies received by the Funds in their capacities as shareholders of various companies. The Boards recognize that, due to the nature of the Funds investments, the Funds do not frequently receive proxies.

Dinsmore Capital exercises its voting responsibility with the overall goal of maximizing the value of the Funds investments. The portfolio managers at Dinsmore Capital oversee the voting policies and decisions for the Funds. In evaluating voting issues, the portfolio managers may consider information from many sources, including management of a company presenting a proposal, shareholder groups, research analysts, and independent proxy research services.

Set forth below are the proxy voting guidelines:

A. Matters Related to the Board of Directors

1. The Funds generally will support the election of nominees recommended by management for election as directors. In determining whether to support a particular nominee, Dinsmore Capital will consider whether the election of that nominee will cause a company to have less than a majority of independent directors.

2. The Funds generally will support proposals to de-classify boards of directors if fewer than 66 2/3% of the directors are independent, and will generally vote against proposals to classify boards of directors.

3. The Funds generally will withhold a vote in favor of a director who has served on a committee which has approved excessive compensation arrangements or proposed equity-based compensation plans that unduly dilute the

ownership interests of stockholders.

B. Matters Related to Independent Auditors

1. The Funds generally will vote in favor of independent accountants approved by the company. Prior to such vote, however, Dinsmore Capital will take into consideration whether non-audit fees make up more than 50 to 75% of the total fees paid by the company to the independent auditors, and the nature of the non-audit services provided.

C. Corporate Governance Matters

1. Except as provided in Section E.1, as a general rule, the Funds will vote against proposals recommended by management of a company that are being made primarily to implement anti-takeover measures, and will vote in favor of proposals to eliminate policies that are primarily intended to act as anti-takeover measures.

2. Subject to the other provisions of these guidelines, including without limitation provision C.1. above, the Funds generally will vote in accordance with management's recommendations regarding routine matters, including the following:

a. Fixing number of directors;

b. Stock splits; and

c. Change of state of incorporation for specific corporate purposes.

D. Matters Related to Equity-Based Compensation Plans

1. The Funds generally will vote in favor of broad-based stock option plans for executives, employees or directors which would not increase the aggregate number of shares of stock available for grant under all currently active plans to over 10% of the total number of shares outstanding.

2. The Funds generally will vote in favor of employee stock purchase plans and employee stock ownership plans permitting purchase of company stock at 85% or more of fair market value.

E. Contested Matters

1. Contested situations will be evaluated on a case by case basis by the portfolio manager or analyst at Dinsmore Capital principally responsible for the particular portfolio security.

F. Miscellaneous Matters

1. The Funds may in their discretion abstain from voting shares that have been recently sold.

2. The Funds generally will abstain from voting on issues relating to social and/or political responsibility.

3. Proposals that are not covered by the above-stated guidelines will be evaluated on a case by case basis by the portfolio manager or analyst at Dinsmore Capital principally responsible for the particular portfolio security.

G. Material Conflicts of Interest

1. Conflicts of interest may arise from time to time between Dinsmore Capital and the Funds. Examples of conflicts of interests include:

a. Dinsmore Capital may manage a pension plan, administer employee benefit plans, or provide services to a company whose management is soliciting proxies;

b. Dinsmore Capital or its officers or directors may have a business or personal relationship with corporate directors, candidates for directorships, or participants in proxy contests;

c. Dinsmore Capital may hold a position in a security contrary to shareholder interests.

2. If a conflict of interest arises with respect to a proxy voting matter, the portfolio manager will promptly notify the Funds' Audit Committee and counsel for independent trustees and the proxies will be voted in accordance with direction received from the Audit Committee.

H. Amendments

1. Any proposed material amendment to these Guidelines shall be submitted for review and approval to:

a. the Funds' Board of Trustees, including a majority of the disinterested trustees; and

b. the Adviser's Board of Directors.

2. Non-material amendments to these Guidelines may be made by the Chair of the Funds, upon consultation with counsel to the Funds and the Funds' Chief Compliance Officer, and will be reported to the Funds' Board of Trustees at their next scheduled in-person meeting.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

(a) (1) Mr. Thomas H. Dinsmore, Chairman and Chief Executive Officer, serves as the Portfolio Manager of the Fund. He has served in that capacity since 1996. This information is as of December 6, 2010. Mr. Dinsmore usually receives investment recommendations from a team of research analysts prior to making investment decisions about transactions in the portfolio.

(2) The following table provides information relating to other (non-registrant) accounts for which this portfolio manager is primarily responsible for day-to-day management as of September 30, 2010. The portfolio manager does not manage such accounts or assets with performance-based advisory fees or other pooled investment vehicles.

Portfolio Manager	Registered Investment		Other Pooled	Other
	Companies		Investment Vehicles	Accounts
Thomas H. Dinsmore	Number:	1	n/a	n/a
	Total Assets:	\$97,735,859	n/a	n/a

Mr. Dinsmore is the Portfolio Manager of one other account, Bancroft Fund Ltd. (Bancroft), a registered investment company with total net assets of \$97,735,859 as of September 30. Mr. Dinsmore is Chairman and Chief Executive Officer of Bancroft. This information is as of September 30, 2010. The Fund and Bancroft have similar investment objectives and strategies. As a result, material conflicts of interest may arise between the two funds if a security is not available in a sufficient amount to fill open orders for both funds. To deal with these situations, the investment adviser for the Fund and Bancroft has adopted Trade Allocation Procedures (the Allocation Procedures). The Allocation Procedures set forth a method to allocate a partially filled order among the funds. Pursuant to the method, the amount of shares that each

fund purchases is allocated *pro rata* based on the dollar amount of each fund's intended trade or, if the order is subject to a minimum lot size, as closely as possible to such an allocation.

The Allocation Procedures permit the adviser to allocate an order in a way that is different from the method set forth above if (i) each fund is treated fairly and equitably and neither fund is given preferential treatment, and (ii) the allocation is reviewed by the adviser's chief compliance officer.

(3) This information is as of September 30, 2010. The Portfolio Manager is compensated by Dinsmore Capital through a three-component plan, consisting of a fixed base salary, annual cash bonus, and benefit retirement plan. His compensation is reviewed and approved by the Adviser's Board of Directors annually. His compensation may be adjusted from year to year based on the perception of the Adviser's Board of Directors of the portfolio manager's overall performance and his management responsibilities. His compensation is not based on (i) a formula specifically tied to the performance of the Fund or Bancroft, including performance against an index, or (ii) the value of assets held in the Fund's portfolio.

(4) As of September 30, 2010, Mr. Dinsmore's beneficial ownership in the Fund's shares was in the range of

\$100,001-\$500,000.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

During the period covered by this report, there were no purchases made by or on behalf of the Fund or any affiliated purchaser, as defined in Rule 10b-18(a)(3) under the Exchange Act (17 CFR 240.10b-18(a)(3)), of shares or other units of any class of the Fund's equity securities registered by the Fund pursuant to Section 12 of the Exchange Act (15 U.S.C. 781).

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the Fund's Board of Trustees since those procedures were last disclosed in response to the requirements of Item 407(c)(2)(iv) of Regulation S-K (17 CFR 229.407) (as required by Item 22(b)(15) of Schedule 14A (17 CFR 240.14a-101)), or Item 10 of Form N-CSR.

ITEM 11. CONTROLS AND PROCEDURES.

Conclusions of principal officers concerning controls and procedures:

(a) As of December 6, 2010, an evaluation was performed under the supervision and with the participation of the officers of the Fund, including the Principal Executive Officer (PEO) and the Principal Financial Officer (PFO), to assess the effectiveness of the Fund's disclosure controls and procedures, as that term is defined in Rule 30a-3(c) (17 CFR 270.30a-3(c)) under the Investment Company Act of 1940 (the Act), as amended. Based on that evaluation, as required by Rule 30a-3(b) under the Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Exchange Act (17 CFR 240.13a-15(b) or 240.15d-15(b)), the Fund's officers, including the PEO and PFO, concluded that, as of December 6, 2010, the Fund's disclosure controls and procedures were reasonably designed so as to ensure: (1) that information required to be disclosed by the Fund on Form N-CSR is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Securities and Exchange Commission and (2) that material information relating to the Fund is made known to the PEO and PFO as appropriate to allow timely decisions regarding required disclosure.

(b) There have been no changes in the Fund's internal control over financial reporting (as defined in Rule 30a-3(d) under the Act (17 CFR 270.30a-3(d))) that occurred during the second fiscal quarter of the period covered by this

report that has materially affected, or is reasonably likely to materially affect, the Fund's internal control over financial reporting.
