On May 4, 2005 Fresenius Medical Care AG (the Company) issued a press release announcing its earnings results for the quarter ended March 31, 2005. A copy of the press release is furnished as Exhibit 99.1.

The attached press release contains non-GAAP financial measures. For purposes of Regulation G, a non-GAAP financial measure is a numerical measure of a company's performance, financial position, or cash flows that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles. To supplement our first quarter 2005 consolidated financial results presented in accordance with generally Accepted Accounting Principles in the United States, or GAAP, we have used non-GAAP financial measure of (a) operating income excluding depreciation, amortization, and minority interests, and (b) free cash flow. These non-GAAP measures are provided to enhance the user's overall understanding of our current financial performance and our prospects for the future. In addition, because we have historically reported certain non-GAAP financial measures in our financial results, we believe the inclusion of these non-GAAP financial measures provides consistency and comparability in our financial reporting to prior periods for which these non-GAAP financial measures were previously reported. These non-GAAP financial measures should not be used as a substitute for or be considered superior to GAAP financial measures. Reconciliation of the non-GAAP financial measures to the most comparable GAAP financial measures are included in the attached press release.

The Exhibit attached hereto, shall not be deemed filed for purposes of Section 18 of the Securities and Exchange Act of 1934 (the Exchange Act) or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act, regardless of any general incorporation language in such filing.
