Edgar Filing: TELEFONICA S A - Form 6-K

This Form 6-K is incorporated by reference into the registration statement of Telefonica, S.A. and Telefonica S.A.U. filed with the Securities and Exchange Commission on April 12, 2006 (File No. 333-133251). In addition, this Form 6-K amends and supercedes the Form 6-K filed with the Securities and Exchange Commission on April 12, 2006, accepted at 16:09:15 (File No. 001-09531).

TABLE OF CONTENTS

ITEM	DOCUMENT	PAGE NUMBER
1.	Report of Independent Auditors	A-1
2.	Consolidated audited UK GAAP financial statements of O2 plc, reconciled to U.S. GAAP, for years ended March 31, 2004 and 2005	A-2
3.	Consolidated unaudited interim IFRS financial statements of O2 plc, reconciled to U.S. GAAP, for the six months ended September 30, 2004 and 2005	B-1

REPORT OF INDEPENDENT AUDITORS

To the Board of Directors and Shareholders of O2 plc:

In our opinion, the accompanying consolidated balance sheets and the related consolidated profit and loss accounts, statements of total recognised gains and losses, reconciliations of movements in shareholders' funds and cash flow statements present fairly, in all material respects, the financial position of O2 plc and its subsidiaries at 31 March 2005 and 31 March 2004, and the results of their operations and their cash flows for the two years in the period ended 31 March 2005, in conformity with accounting principles which, as described in note 1, are generally accepted in the United Kingdom. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in note 1 to the consolidated financial statements, O2 plc and its subsidiaries changed its method of classifying own shares held through an employee share ownership trust in 2005, in accordance with accounting principles generally accepted in the United Kingdom. The change has been accounted for by restating comparative information at 1 April 2003.

Accounting principles generally accepted in the United Kingdom vary in certain significant respects from accounting principles generally accepted in the United States of America. The application of the latter would have affected the determination of consolidated profit and loss for each of the two years in the period ended 31 March 2005 and the determination of shareholders' funds at 31 March 2005 and 31 March 2004 to the extent summarised in note 32 to the

Edgar Filing: TELEFONICA S A - Form 6-K

consolidated financial statements.

1. ACCOUNTING POLICIES

ACCOUNTING CONVENTIONS

The financial statements are prepared under the historical cost convention and in accordance with applicable accounting standards and generally accepted accounting principles in the United Kingdom (UK GAAP). These differ in certain significant respects from accounting standards in the United States of America and a reconciliation to generally accepted accounting principles in the United States of America (US GAAP) is included in note 32 to the financial statements.

The financial statements include the results for O2 plc and its subsidiaries. All principal subsidiary undertakings' financial years are coterminous with those of O2 plc. On consolidation, all intercompany balances and transactions have been eliminated.

Certain amounts relating to the 2004 financial year have been reclassified to conform with the presentation adopted for the financial year ended 31 March 2005.

BASIS OF PREPARATION

CAPITAL REORGANISATION

O2 plc was incorporated on 10 December 2004 as part of the capital reorganisation described in note 19. The purpose of the capital reorganisation was to create distributable reserves in O2 plc to allow the implementation of the Group's distribution policy.

On 14 March 2005, O2 plc was introduced as the new holding company of the mmO2 plc Group pursuant to a Scheme of Arrangement (the Scheme) under section 425 of the Companies Act 1985, whereby O2 plc issued shares in return for the existing shares in mmO2 plc. Subsequently, O2 plc effected a reduction in its share capital to create distributable reserves. Shareholders were also offered the opportunity to realise, for cash, their shareholding in mmO2 plc in a cost

Edgar Filing: TELEFONICA S A - Form 6-K

effective manner. Subsequent to the year end, O2 plc also de-listed from the NYSE and deregistered from the SEC.

The Directors consider that in substance the Scheme constituted two distinct transactions being firstly, the insertion of the new holding company, O2 plc, and secondly, a placing of shares on behalf of certain shareholders who elected to receive the consideration for their shares in mmO2 plc in cash. The insertion of a new holding company constitutes a group reconstruction as defined by FRS 6 "Acquisitions and mergers" and has been accounted for using merger accounting principles. The premium paid to shareholders who elected to receive their consideration in cash has been recognised as a deduction from the Group profit and loss account reserve.

The consolidated financial statements for the year ended 31 March 2005 comprise the results of O2 plc from incorporation to 31 March 2005 together with the results of the O2 plc Group from the 14 March 2005 to the end of the financial year and the results of the mmO2 Group from 1 April 2004 to 13 March 2005. The comparative information presented is as previously published for the mmO2 plc Group except where otherwise stated.

CHANGE IN ACCOUNTING POLICY

The Group has adopted the Urgent Issues Task Force (UITF) Abstract 38 "Accounting for ESOP trusts" in the year ended 31 March 2005, which requires that a company's own shares held through an ESOP trust be shown as a deduction from shareholders' funds until such time as the shares vest unconditionally. Previously these shares were recorded at cost less amortisation charged to date and shown as a fixed asset investment.

The comparative figures have been restated to reflect the adoption of UITF 38. The aggregate impact on the previously reported figures is to reduce total equity shareholders' funds at 1 April 2003 by L3 million (31 March 2004: increase by L3 million). The adoption of UITF 38 has no effect on the profit and loss account.

A-6

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Estimates are used when accounting for certain items such as provision for bad and doubtful debtors, depreciation and amortisation, valuation of inventory, pensions and other benefits, and asset impairment.

TURNOVER

Group turnover, which excludes value added tax and other sales taxes, comprises the value of services provided, equipment sales and other revenue.

Mobile telecommunications service turnover includes turnover earned for usage of the Group's wireless network for voice and data transmission by the Group's customers, subscription fees and interconnect revenue. Post-pay customers are billed in arrears based on usage and turnover is recognised when the service is rendered. Turnover for pre-pay customers is recorded as deferred revenue prior to commencement of services and is recognised as the pre-pay services are rendered. Inbound roaming revenue, earned from other mobile operators whose

Edgar Filing: TELEFONICA S A - Form 6-K

customers roam onto the O2 network, and outbound roaming revenue, earned from the Group's customers roaming outside their domestic coverage area, are recognised based upon usage. Subscription fees are recognised evenly throughout the periods to which they relate.

Hardware turnover principally consists of revenue from the sale of wireless mobile devices. The revenue and related expenses associated with the sale of wireless handsets and accessories are recognised when the products are delivered and accepted by the customer. Other sales include connection charges which are deferred and recognised over the estimated customer relationship period.

Revenue is recognised on a gross basis where the Group's role is that of principal in a transaction. The gross basis represents the gross value of the billing to the customer after trade discounts, with any related costs being charged to operating expenses. Where the Group acts as agent in a transaction, the net revenue earned is recognised as turnover.

SUBSCRIBER ACQUISITION COSTS

Subscriber acquisition costs, which include the commission costs associated with acquiring new subscribers and other incremental costs of customer acquisition, are charged to the profit and loss account as incurred.

RESEARCH AND DEVELOPMENT

Expenditure on research and development is written off in the year in which it is incurred.

ADVERTISING

Advertising costs are included in administrative expenses and are expensed as incurred.

FOREIGN CURRENCIES

Transactions denominated in foreign currencies are translated at the exchange rate on the day the transaction occurred or at the contracted forward rate of exchange if hedged by a forward exchange contract or similar hedging arrangement. Monetary assets and liabilities denominated in foreign currencies are translated at the rates ruling at the balance sheet date or at the forward rate of exchange if hedged.

A-7

Net assets of foreign subsidiary undertakings, including related goodwill, are translated into sterling at the rates ruling at the balance sheet date. The profit or loss and cash flows for the year of foreign subsidiary undertakings are translated at the average rates of exchange for the year. Exchange adjustments arising on the translation into sterling of the opening net assets and profits or losses for the year retained by foreign subsidiary undertakings are recognised in reserves and reported in the statement of total recognised gains and losses. Exchange gains and losses arising on foreign currency net borrowings used to hedge the Group's foreign currency net investments are also recognised directly in reserves.

All other exchange gains or losses are dealt with in the profit and loss account.

Edgar Filing: TELEFONICA S A - Form 6-K

GOODWILL

Goodwill, arising from the purchase of subsidiary undertakings and interests in joint ventures and associates, represents the excess of the fair value of the purchase consideration over the fair value of the net assets acquired.

For all acquisitions arising on or after 1 April 1998, the goodwill arising is capitalised as an intangible asset. The goodwill is amortised on a straight-line basis from the time of acquisition over a period estimated by management to be its useful economic life. The useful economic life is normally 20 years and is subject to review if and when an event or change occurs which may affect the asset life.

For acquisitions made before the adoption of FRS 10 "Goodwill and intangible assets" on 1 April 1998, the goodwill arising was written off directly to reserves. The goodwill written off directly to reserves will be charged to the profit and loss account on the subsequent disposal of the business to which it relates.

OTHER INTANGIBLE FIXED ASSETS

Licence fees paid to governments, which permit telecommunication activities to be operated for defined periods, are capitalised at cost and are amortised from the market launch of service to the end of the licence period on a straight-line basis. Other licences are amortised over the period of the licence on a straight-line basis. Other intangible assets are amortised over their useful economic life on a straight-line basis.

TANGIBLE FIXED ASSETS

Tangible fixed assets are stated at historical cost less depreciation. The cost of tangible fixed assets includes directly attributable incremental costs incurred in their acquisition and installation.

Depreciation is provided on tangible fixed assets from the date they are brought into use over their estimated useful lives on a straight-line basis, taking into account any residual values. The lives assigned to tangible fixed assets are:

Freehold buildings.....	40 years
Leasehold land and buildings.....	Unexpired portion of lease or 40 years, whichever is the shorter
Network assets.....	5 to 15 years
Computers, software and office equipment..	2 to 6 years
Motor vehicles.....	5 years

No depreciation is provided on freehold land or assets in course of construction.

A-8

OTHER FIXED ASSET INVESTMENTS

Other investments held as fixed assets comprise equity shareholdings and other interests and are stated at cost less provision for impairment.

Edgar Filing: TELEFONICA S A - Form 6-K

JOINT VENTURES AND ASSOCIATES

Investments in joint ventures and associates are included in the consolidated financial statements using the equity method of accounting. The profit and loss account includes the Group's share of profits or losses of joint ventures and associates. In instances in which the Group holds an interest in the net liabilities of its joint ventures and associates, such interests are recognised in creditors: amounts falling due within one year.

FIXED ASSET IMPAIRMENT

Goodwill and other intangible assets are reviewed for impairment at the end of the first full financial year following acquisition and, together with tangible fixed assets, in other periods if events or changes in circumstances indicate that the carrying values may not be recoverable. Such events may include continuing operating losses, technological obsolescence or significant adverse changes in the business or the market in which the fixed asset is used.

The impairment review is performed by comparing the carrying value of the asset, or group of assets, with their recoverable amount. For assets used in the continuing operations of the Group the recoverable amount is the assets' value in use which is estimated by calculating the present value of its future cash flows. For assets to be disposed, the recoverable amount is the assets' net realisable value. Impairment charges are recognised in the profit and loss account to the extent that the carrying value exceeds the recoverable amount in the period in which the impairment is identified.

STOCKS

Stocks comprise mainly handsets and are stated at the lower of cost and net realisable value (which reflects the value to the business of the handset in the hands of the subscriber) on a first-in, first-out basis, after provisions for obsolescence.

DEBTORS

Debtors are stated at estimated net realisable value. Net realisable value is the invoiced amount less provisions for bad and doubtful debtors. Provisions are made specifically against debtors where there is evidence of a dispute or an inability to pay. An additional provision is made based on an analysis of balances by age, previous losses experienced and general economic conditions.

PROVISIONS

Provisions are recognised by the Group when three criteria are met: (i) the Group has a constructive or legal obligation as a result of a past event; (ii) if it is probable that a transfer of economic benefits will be required to settle the obligation; and (iii) a reliable estimate of the obligation can be made.

A provision is made for the present value of the cost of restoration of mast sites at the date of acquisition of the site in accordance with FRS 12 "Provisions, contingent liabilities and contingent assets".

SHARE BASED PAYMENTS

The cost of awards to employees of shares or share options is recognised as an operating expense over the period of the employees' performance to which the award relates. The cost of the award is based on the difference between the award or option exercise price and the market value of the shares at the date

of grant and is adjusted for the likelihood of performance criteria being achieved. The profit and loss account charge is matched by a reserve recognised within shareholders' funds for equity settled awards.

The Group has taken advantage of the exemption available under UITF 17 (revised) "Employee share schemes" not to account for Inland Revenue approved Save-As-You-Earn (SAYE) schemes.

The assets and liabilities of ESOP trusts are included in the accounts of the sponsoring employer. Until such time as own shares vest unconditionally in employees, the consideration paid for the shares is deducted from the profit and loss account reserve.

POST-RETIREMENT BENEFITS

The Group operates a number of pension schemes as disclosed in note 31 to the financial statements. All pension schemes are accounted for in accordance with the provisions of Statement of Standard Accounting Practice (SSAP) 24 "Accounting for pension costs". The Group continues to apply the transitional disclosure requirements set out in FRS 17 "Retirement benefits".

For funded and unfunded defined benefit schemes, the expected costs of providing pensions and other post-retirement benefits, as calculated periodically by professionally qualified independent actuaries, are charged to the profit and loss account so as to spread the cost over the service lives of employees in the schemes in such a way that the pension cost is a substantially level percentage of current and expected future pensionable payroll. For the funded schemes, the assets of the schemes are held separately from those of the principal employer. For the unfunded schemes, no contributions are made by either employees or the employer to a separate pension fund and a provision is recorded on the balance sheet to recognise the cumulative accrued liability of the Group.

The Group also supports a number of defined contribution pension schemes where the benefits are based on the level of contributions paid. Costs arising from these schemes are charged to the profit and loss account in the period to which they relate.

DEFERRED TAXATION

Deferred tax is provided in full on all timing differences which result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

DEBT ISSUE COSTS

Debt instruments are stated at the amount of net proceeds received. Debt issue costs are amortised over the term of the debt to ensure a constant rate of charge.

DERIVATIVE FINANCIAL INSTRUMENTS

Derivative financial instruments are used to manage the Group's exposure to

Edgar Filing: TELEFONICA S A - Form 6-K

fluctuations in interest rates and foreign currency exchange rates. Interest rate swaps, currency swaps and forward exchange contracts are accounted for as hedges when they alter the risk profile of an existing underlying exposure of the Group.

All derivative financial instruments held for hedging purposes are identified as hedges of the underlying asset or liability from inception. To qualify as a hedge the derivative must be established in accordance with specific guidelines and must be effective on inception and throughout its life.

A-10

Forward exchange contracts, used to hedge net foreign currency investments in overseas businesses, are translated at the closing rates of exchange. Net realised and unrealised gains and losses arising on these hedging instruments are recognised in the statement of total recognised gains and losses to offset the translation gains or losses arising on the net investments being hedged. Forward points (comprising the interest rate differential between the currencies) inherent in forward exchange contracts are recognised in the profit and loss account over the term of the contracts.

Interest rate differentials on interest rate swaps qualifying as hedges are recognised by adjusting interest payable.

Other forward exchange contracts hedging transaction exposures are revalued at the year end at the prevailing forward rate with net unrealised gains and losses being matched to the underlying transactions being hedged.

LEASES AND HIRE PURCHASE CONTRACTS

Rentals under operating leases are charged to the profit and loss account in equal annual amounts over the periods of the leases.

Assets held under finance leases and hire purchase contracts are capitalised at the present value of the minimum lease payments on the inception of the leases and depreciated over the shorter of the period of the lease and the estimated useful economic lives of the assets. The finance charges are allocated over the period of the lease in proportion to the capital amount outstanding and are charged to the profit and loss account.

2. SEGMENTAL ANALYSIS

The Group's operations have been divided internally into two classes of business, in line with the day-to-day managerial and budgetary control during the year ended 31 March 2005:

1. the supply of mobile telecommunications services and products; and
2. other businesses, comprising O2 Airwave, a secure national radio service business, and Manx Telecom, a fixed and mobile telecommunications business in the Isle of Man.

In the year ended 31 March 2004, the Group undertook a restructuring of its central functions and rationalised its property portfolio as described in note 5. For the year ended 31 March 2005 the activities of O2 Online and Products O2, which were previously reported as the "mobile internet services" segment, are reported within the segments in which they now reside. As the information is not readily available, the comparatives have not been restated and these businesses are reported separately in line with day-to-day managerial and budgetary control

Edgar Filing: TELEFONICA S A - Form 6-K

at that time.

Businesses within the mobile telecommunications services segment mainly derive their turnover from the calls made and received by their customers using mobile telephones, from subscription fees charged to their contract customers and from handset equipment sales. Mobile internet services generate revenue through advertising, provision of content and applications and from e-commerce and m-commerce activities.

Turnover is based on the country of invoice origination, which is not materially different to turnover by destination. Central overheads and adjustments includes central costs and other consolidation adjustments.

JOINT VENTURES AND ASSOCIATES

Total turnover for the year ended 31 March 2005 was L6,890 million (2004: L5,859 million) and included L196 million (2004: L165 million) representing the Group's share of the turnover of its joint ventures and associates in the UK mobile telecommunications business and L11 million (2004: nil) representing the Group's share of the turnover of its joint venture in the German mobile telecommunications business. The Group's share of the operating loss of its joint ventures and associates was L3 million (2004: nil). The Group's interest in the aggregate liabilities of its joint ventures and associates at 31 March 2005 was L1 million (2004: assets of L5 million).

Administrative expenses	(2,196)	(26)	(2,222)
	-----	----	-----
GROUP OPERATING PROFIT/(LOSS) ..	159	(1)	158
	=====	====	=====

Net operating expenses comprise cost of sales and administrative expenses (including exceptional operating items) and total L6,342 million in 2005 (2004: L5,536 million).

The sale of O2 Netherlands completed on 3 June 2003 in accordance with FRS 3 "Reporting financial performance", the results of O2 Netherlands for the year ended 31 March 2004 have been classified as discontinued.

4. GROUP OPERATING PROFIT

Group operating profit is stated after charging/(crediting):

	2005	2004
	----- Lm	----- Lm
Depreciation of tangible assets:		
Owned(1)	904	900
Held under hire purchase contracts..	33	28
Amortisation of intangible fixed assets (before impairment):		
Goodwill	200	201
UMTS licences	169	--
Other	82	7
Rentals under operating leases:		
Hire of plant and machinery	12	10
Other operating leases	154	158
Staff costs (note 30)	613	548

Edgar Filing: TELEFONICA S A - Form 6-K

Own work capitalized	(118)	(106)
Loss on disposal of fixed assets	2	5
Research and development costs	8	10

(1) Includes exceptional depreciation of L6 million in 2005 and L2 million in 2004.

In the year ended 31 March 2005 the Group incurred advertising costs of L227 million(2004: L224 million).

5. EXCEPTIONAL ITEMS

In the year ended 31 March 2005, the Group incurred an exceptional operating charge of L45 million and an exceptional non-operating charge of L20 million.

The exceptional operating charge relates to the redeployment of resources within O2 UK into customer facing areas and away from non-customer facing areas. This is in line with O2 UK's strategy of delivering an enhanced customer experience and increasing customer loyalty. The charge comprises redundancy and property costs. No cash was expended in the year ended 31 March 2005. The exceptional non-operating charge relates to the costs of the capital reorganisation described in note 19. This charge gave rise to a cash outflow of L15 million in the year.

In the year ended 31 March 2004, the Group incurred an exceptional charge of L75 million in respect of the restructuring of central functions and the resultant rationalisation of the Group's property portfolio. This arose on the transfer of O2 Online, Products O2 and certain other central functions to the Group's operating businesses in the UK, Germany and Ireland and includes provisions relating to redundancies and the termination of property leases. This charge gave rise to a cash outflow of L17 million in that year.

A-15

On 14 April 2003, the Group announced that it had agreed the sale of its wholly owned Dutch subsidiary, O2 Netherlands, to Greenfield Capital Partners, an independent private equity and corporate finance group with existing interests in the fixed telecoms sector, for E25 million cash. The sale was completed on 3 June 2003 and took the form of the sale of all the issued shares of O2 Netherlands. In the year ended 31 March 2003, the Group recognised a non-operating exceptional provision for the loss on disposal of O2 Netherlands of L1,364 million. This represented the impairment of the assets of O2 Netherlands, and goodwill relating to the original purchase of the stake in O2 Netherlands, down to their net recoverable amount which in this case was the sale proceeds less the estimated direct costs of disposal. The total loss on sale arising on completion was L1,369 million which, after utilisation of the provision recognised in 2003, resulted in a non-operating exceptional loss of L5 million in the year ended 31 March 2004.

CURRENT TAX

In the year ended 31 March 2005, the profit on ordinary activities before taxation was L309 million (2004: L95 million).

The tax assessed for each of the two financial years varied from the amount computed by applying the corporation tax rate to profit or loss on ordinary activities before taxation. The differences were attributable to the following factors:

	2005	2004
	----	----
	Lm	Lm
United Kingdom corporation tax on profit at 30%	(93)	(29)
Non-deductible depreciation, amortisation and impairment ...	(122)	(78)

Edgar Filing: TELEFONICA S A - Form 6-K

Non-deductible non-United Kingdom losses	1	--
Non-United Kingdom tax rate differences	35	16
Capital allowances in excess/(deficit) of depreciation	31	(1)
Losses carried forward	--	(30)
Losses brought forward and utilised	134	138
Non-deductible losses on sale of discontinued operations ...	--	(2)
Other timing differences and adjustments	(1)	(28)
Prior year adjustments	1	1
	----	---
CURRENT TAX CHARGE FOR YEAR	(14)	(13)
	====	===

The Group expects to be able to claim capital allowances in excess of depreciation in future years which will affect future tax charges.

DEFERRED TAX

The deferred taxation credit arises as follows:

	2005	2004
	----	----
	Lm	Lm
Excess capital allowances	22	(15)
Other timing differences	(21)	101
Adjustments in respect of prior periods ..	5	(2)
	---	---
TOTAL DEFERRED TAX CREDIT	6	84
	===	===

Other timing differences include the recognition of a deferred tax asset of L55 million in respect of UK tax losses carried forward owing to greater certainty regarding the availability of future taxable profits.

Deferred tax assets in respect of certain other UK and German losses carried forward and other timing differences totalling L5,185 million have not been recognised due to insufficient certainty regarding the availability of appropriate future taxable profits.

In each financial year presented no deferred tax has been recognised on unremitted earnings of overseas subsidiaries.

8. DIVIDENDS

	PENCE PER SHARE	2005
	-----	----
		Lm
Proposed final ...	2.25	196
	====	===

Edgar Filing: TELEFONICA S A - Form 6-K

The final dividend of 2.25 pence per share was paid on 26 August 2005 to shareholders on the register at the close of business on 5 August 2005.

9. EARNINGS PER SHARE

Earnings per share has been calculated by dividing the profit for the year by the weighted average number of ordinary shares in issue during that year, as follows:

	2005	2004
	-----	-----
Profit for the financial year (L million)	301	166
	=====	=====
Weighted average number of ordinary shares in issue during the year and used to calculate basic earnings per share (number of shares, millions)	8,681	8,671
Dilutive potential ordinary shares (number of shares, millions) ...	120	44
	-----	-----
Weighted average number of ordinary shares outstanding and used to calculate diluted earnings per share (number of shares, millions)	8,801	8,715
	=====	=====
BASIC EARNINGS PER SHARE (PENCE)	3.5	1.9
	=====	=====
DILUTED EARNINGS PER SHARE (PENCE)	3.4	1.9
	=====	=====

In accordance with the principles of merger accounting as applicable to group reorganisations described in note 1, earnings per share has been calculated as if O2 plc had in issue the share capital of mm02 plc prior to 14 March 2005.

In January 2002 mmO2 plc issued two debentures in the form of a E1,000 million 6.375% fixed rate bond and a L375 million 7.625% fixed rate bond which have a five and ten-year term respectively. The debentures are recognised at the amount of net proceeds received and after the effects of any related hedging instruments. At 31 March 2005 the carrying value includes unamortised issue costs of L4 million (2004: L5 million).

Loan notes of L132 million were issued by O2 UK between March 1999 and April 2000 for the purchase of certain businesses. At 31 March 2005 loan notes totalling L7 million (2004: L8 million) were outstanding and repayable on demand.

	---	---
	308	325
	===	====

Obligations under finance leases and hire purchase contracts are mainly in respect of hire purchase agreements for plant and equipment. On 30 March 2001 and 9 April 2001 hire purchase financing contracts were signed between O2 UK and a number of US leasing trusts. Under the contracts O2 UK sold and repurchased material portions of its GSM radio and switching equipment. O2 UK has deposited sufficient funds with a trust company to meet the future hire purchase obligations. The deposit account is included in current asset investments. The hire purchase agreement is for 16 years with an early buy out option after 12 years. In accordance with the Separation Agreement signed on demerger, BT plc continues to guarantee all future hire purchase obligations of O2 UK which has provided a counter indemnity to BT plc for this guarantee.

CALLLED UP, ALLOTTED AND FULLY PAID		

Edgar Filing: TELEFONICA S A - Form 6-K

Ordinary shares of 0.1 pence each.....	8,704,068,599	9
	=====	==

02 plc was incorporated as a public limited company on 10 December 2004 with an authorised share capital of L51,000, comprising 10,000 ordinary shares of 10 pence each and 50,000 redeemable preference shares of L1 each. Of these shares, 2 ordinary shares of 10 pence each were taken up by the subscribers to the memorandum of association. By ordinary resolution passed on 21 December 2004, 50,000 non-voting redeemable preference shares of L1 each were issued and allotted at par. On 5 January 2005, a further 14 ordinary shares of 10 pence each were issued and allotted at par. By extraordinary general meeting on 5 January 2005, the ordinary shares of 10 pence each were consolidated at a ratio of 8 to 1 into ordinary shares of 80 pence each and the authorised share capital was increased from L51,000 to L16,000,050,000 by the creation of 19,999,998,750 additional ordinary shares of 80 pence each.

On 14 March 2005, pursuant to a Court approved scheme of arrangement under section 425 of the Companies Act 1985, the Company purchased mm02 plc (mm02) for share consideration. Certain mm02 shareholders, holding 299,500,644 ordinary shares of mm02 plc, elected to receive the consideration for their shares in mm02 in cash. All other shareholders, holding 8,403,362,095 ordinary shares of 0.1 pence each in mm02, received the same number of new ordinary shares of 80 pence each in the Company as they previously held in mm02. In order to fund the cash consideration the Company issued and allotted 299,500,644 ordinary shares in the Company via a placement with investors on the London Stock Exchange's market for listed securities on 17 March 2005. This placement raised L374,375,805. The remaining cash consideration of L14,975,032, representing a premium of five pence per share owing to shareholders electing to receive the cash, was funded by the Group.

Further, on 14 March 2005, the two 80 pence ordinary shares arising on the share consolidation on 5 January 2005 were transferred to the Company at par value and were cancelled in accordance with sections 146(1)(b) and 146(2)(a) of the Companies Act 1985.

On 16 March 2005, the share capital of the Company was reduced by cancelling paid up share capital to the extent of 79.9 pence on each issued ordinary share and reducing the nominal value of each such share from 80 pence to 0.1 pence; and reducing the nominal value of each unissued ordinary share of 80 pence to 0.1 pence. This created distributable reserves of L6,714,286,314.

On 17 March 2005, 50,000 L1 redeemable preference shares were redeemed at par.

During the period from 1 April 2004 to 13 March 2005 mm02 issued 28.2 million ordinary shares of 0.1 pence each for a total cash consideration of L23.4 million. Since the Court approved capital reduction on 14 March 2005, the Company has issued 1.2 million ordinary shares of 0.1 pence each for a total cash consideration of L0.9 million. All proceeds received during the year arose on the exercise of employee (including Director) share options. Details of the share option and share award schemes operated by the Group are described in note 30.

During the year ended 31 March 2004, mm02 issued 4,508,141 ordinary shares of 0.1 pence each for a total cash consideration of L3,129,203.

(1) Transaction arising during capital reorganisation described in note 19.

Other reserves originally arose on the Group's demerger from British Telecommunications plc (BT). They relate to the difference between the carrying value of the Group held by BT prior to demerger (representing BT's investments and funding in the Group) and amounts settled with BT on demerger to acquire the assets and liabilities of the Group. The merger difference arising in the year ended 31 March 2005 during the capital reorganisation has been offset against these other reserves.

Aggregate goodwill as at 31 March 2005 in respect of acquisitions completed prior to 1 April 1998 of L15 million (2004: L15 million) has been written off against reserves in accordance with the accounting policy existing prior to the adoption of FRS 10 "Goodwill and intangible assets".

DISCLOSURES UNDER UITF 38

The O2 plc Share Ownership Trust (the "Trust") was established in 2001 to encourage and facilitate the holding and distribution of shares and other benefits for certain Group employees. The shares are conditionally gifted to employees under certain share award plans and held in the Trust.

23. ACQUISITIONS

In February 2001, Telenor exercised a put option to sell its remaining 49.5 per cent. interest in O2 Ireland to the Group and this transaction was completed in April 2001, following approval by the regulator.

The total consideration for this stake was L877 million including expenses resulting in additional goodwill of L884 million. The consideration included US\$49 million payable to the former Managing Director for his 2 per cent. stake in the non-voting shares of O2 Ireland, of which the last tranche of L8 million was paid during the year ended 31 March 2004.

mm02 plc has provided a guarantee of all liabilities of Airwave O2 Limited under its contracts with the Police Information Technology Organisation (PITO) and the police force customers.

In each financial year presented, other than those detailed in note 17, the Group has no contingent liabilities or guarantees on which material losses are expected. The Group has insurance cover to certain limits for major risks on property and major claims in connection with legal liabilities arising in the course of its operations.

In each financial year presented, the Group did not believe there were any pending legal proceedings which would have a material adverse effect on the financial position or results of operations of the Group.

25. RELATED PARTY DISCLOSURES

In each financial year presented, the Group entered into transactions with related parties as follows:

Edgar Filing: TELEFONICA S A - Form 6-K

During the year ended 31 March 2005, the Group provided partly paid equity totalling L4 million to its joint venture, Tchibo Mobilfunk. The balance outstanding at 31 March 2005 was L2 million.

During the year ended 31 March 2005, the group provided a combination of loans and partly paid equity totalling L3 million (2004: L6 million) to its joint venture, Tesco Mobile Limited. The loan balance outstanding at 31 March 2005 was 12 million (2004: L3 million). The group also provided other services to Tesco Mobile Limited with a value of L7 million (2004: L3 million) and equipment and other services to Tchibo Mobilfunk with a value of L15 million. at 31 March 2005, Tchibo Mobilfunk owed 16 million to the group. All transactions were at arm's length rates.

Directors' emoluments are disclosed in note 29.

A-29

26. PRINCIPAL SUBSIDIARY UNDERTAKINGS AND ASSOCIATES

The Directors consider that disclosing full particulars of all subsidiary undertakings would lead to a statement of excessive length. The principal operating subsidiary undertakings are detailed below, all of which are included in the Group financial statements.

NAME	COUNTRY OF INCORPORATION AND OPERATION	ACTIVITY
----	-----	-----
mm02 plc.....	England and Wales	Intermediate holding company
O2 Holdings Limited(1).....	England and Wales	Intermediate holding company
O2 (UK) Limited.....	England and Wales	Mobile cellular telephone system provider and operator
O2 (Germany) GmbH & Co. OHG.....	Germany	Mobile cellular telephone system provider and operator
O2 Communications (Ireland) Limited..	Ireland	Mobile cellular telephone system provider and operator
Airwave O2 Limited(2).....	England and Wales	Secure digital radio service for public safety organisations
Manx Telecom Limited.....	Isle of Man	Telecommunication services supplier

Edgar Filing: TELEFONICA S A - Form 6-K

-
- 1 O2 Limited changed its name to O2 Holdings Limited on 10 December 2004.
 - 2 Airwave mm02 Limited changed its name to Airwave O2 Limited on 14 March 2005.

The shares held in mm02 plc are held directly by O2 plc. The shares in O2 Holdings Limited are held directly by mm02 plc. The shares of the other operating companies are held by O2 Holdings Limited or its wholly owned subsidiaries. The accounting reference date of the principal operating subsidiary undertakings is 31 March. As a consequence of the acquisition of the Group by Telefonica as disclosed in the subsequent events section in note 32, the by accounting reference date of the principal operating subsidiary undertakings has changed, or will be changed, to 31 January.

The Group also owns a 50 per cent. stake in two joint ventures, Tesco Mobile Limited and Tchibo Mobilfunk GmbH & Co KG, and a 40 per cent. stake in an associate, The Link Stores Limited. Tesco Mobile Limited supplies mobile electronic communications and related services to consumers and is incorporated in England and Wales and operates throughout the United Kingdom. The accounting reference date of Tesco Mobile Limited is 28 February. Tchibo Mobilfunk is a telecommunications equipment retailer and is incorporated and operates in Germany. The Link Stores Limited is a telecommunications equipment retailer which is incorporated and operates in England and Wales. The accounting reference date of The Link Stores Limited is 30 April.

During the year ended 31 March 2004 the Group sold its entire interest in O2 Netherlands as disclosed in note 5.

27. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

TREASURY MANAGEMENT AND POLICIES

Treasury is operated as a centralised service for the Group. The role of treasury is to identify, monitor and manage financial risk within the framework of Board approved policies and delegated authorities. Treasury is not permitted to add to the financial risks inherent in the business and may not undertake speculative activity.

The principal financial risks of the Group in each of the financial years presented were:

BANKING COVENANTS

It was the Group's policy to fully fund its business plan by access to the debt capital markets and other sources of funding. Borrowing is centralised and there are no material local facilities. The Group is committed to maintaining the key financial ratios as set out in the covenants relating to the multi-currency revolving credit facility, of Group EBITDA to interest and net debt to Group EBITDA.

FOREIGN EXCHANGE MANAGEMENT

The policy of the Group was to hedge (primarily by the use of foreign currency forward contracts) identified foreign exchange flows, although the level of transaction risk exposure is low due to the fact that cash flows are primarily domestic in each Group company. The policy of the Group regarding foreign exchange translation risk is to manage material risk on the translation of foreign currency assets and liabilities into pounds sterling primarily through natural offsets and the use of currency debt, cross-currency and foreign exchange swaps. In line with the development of positive cash flows in our

Edgar Filing: TELEFONICA S A - Form 6-K

overseas businesses and as visibility of the future financial profile of the Group becomes clearer, the Board anticipates increasing the level of hedging of the Group's overseas assets through the redenomination of existing debt and the use of cross-currency and foreign exchange swaps.

INTEREST RATE MANAGEMENT

The debt level within the Group was a key determinant of the impact of interest rates. It is the Group's policy to fix or protect expected interest flows where Group profits or key financial ratios would be materially at risk from interest rate movements. Treasury maintains the proportion of fixed rate debt within a Board approved range of 25 to 75 per cent. by the issuance of fixed rate debt and the use of derivative instruments (primarily interest rate swaps).

CREDIT RISK MANAGEMENT

It was the Group's policy to mitigate credit risk to financial counter-parties through the application of strict counter-party limits. Counter-party limits are based on credit ratings issued by the main credit rating agencies and outstanding transactions are weighted according to potential risk to the Group. Counter-party limits are reviewed on a regular basis by Treasury.

OFF BALANCE SHEET ARRANGEMENTS

The Group did not participate in, or secure financing for, any unconsolidated special purpose entities in any of the financial years presented.

DISCLOSURES

Short-term debtors and creditors, where permitted by FRS 13 "Derivatives and Other Financial Instruments: Disclosures", have been excluded from the following disclosures, which are after taking account of interest rate and currency swaps where applicable.

A-30

The Group holds or issues financial instruments principally to finance its operations, for the temporary investment of short-term funds and to manage currency and interest rate risks arising from its operations.

The Group uses derivative financial instruments to manage its exposure to market risks such as changes in interest rates and foreign exchange rates. The objective is to match the profile and characteristics of Group funding of equity and debt to that of the assets funded and to mitigate foreign exchange risk under the guidelines approved by the Board of Directors in accordance with the Group's treasury policy.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The book and fair values of the Groups financial assets and financial liabilities at 31 March are:

Forward foreign exchange contracts..	24	25	4	4
	----	----	----	----
	24	49	29	65
	====	====	====	====

FAIR VALUE

Fair value is the amount at which a financial instrument could be exchanged in an arm's length transaction between informed and willing parties, other than in a forced or liquidation sale. Book values are stated before deducting any unamortised issue costs, which are disclosed in note 17.

The fair value of interest rate swaps, currency swaps and forward foreign exchange contracts is based on the market price of comparable instruments where available or, if not available, by the discounting of future cash flows to net present values using appropriate interest and currency rates.

The fair value of short-term deposits, money market funds, cash at bank and short-term borrowings approximates to the book carrying value due to the short-term or on demand maturity of these instruments. For long-term borrowings the fair value of the sterling and Euro denominated bonds have been estimated using quoted market prices.

Edgar Filing: TELEFONICA S A - Form 6-K

HEDGING ACTIVITIES

Under the Group's accounting policy detailed in note 1 to the financial statements, certain gains and losses on derivative instruments used for hedging are not recognised in the financial statements. The gains and losses are as follows:

CURRENCY EXPOSURES

At 31 March 2005, the net foreign currency exposure comprising of monetary assets and liabilities of the Group that are not denominated in the functional currency of the individual Group company was L7 million (2004: L4 million) denominated primarily in US\$.

FINANCIAL INSTRUMENTS HELD FOR TRADING PURPOSES

The Group does not trade in financial instruments.

A-32

FINANCIAL ASSETS

Financial assets consist of sterling and Euro denominated cash at bank, short-term money market deposits and investments in a AAA-rated money market fund. Money market deposits have a maturity profile between overnight and three

Edgar Filing: TELEFONICA S A - Form 6-K

months and earn interest at market rates. Investments in the money market fund can be called on either a same day or next day basis and yield income or interest on the basis of performance of the underlying assets measured against one-week and three-month LIBOR/EURIBOR benchmarks.

	===	===	===	=====	===

The cash flows of the Group's overseas businesses, O2 Germany and O2 Ireland, and the improved visibility of the future financial profile of the Group, has resulted in a decision to increase the level of hedging of our overseas assets.

Edgar Filing: TELEFONICA S A - Form 6-K

This was achieved through the redenomination of the Group's existing Euro borrowings and through the use of E1,800 million of forward foreign exchange contracts, which commenced in June 2004.

The ongoing effect of the hedge implementation is that the Euro borrowings totalling E1,000 million, which are a component of net debt, are exposed to foreign exchange rate fluctuations, and the interest charge is impacted by the forward foreign exchange contracts which have reduced the current year net interest charge by L24 million. Additionally, the foreign exchange gains or losses, arising on the retranslation of the Euro borrowings and on the forward foreign exchange contracts, are recognised in the statement of total recognised gains and losses as they hedge certain assets of the overseas businesses.

A-33

The Group has E1,000 million of Euro borrowings that are classified as floating rate at 31 March 2005 (2004: E500 million). The Group had E500 million of cross currency interest rate swaps, which classified E500 million of Euro borrowings as floating rate in sterling for the year ended 31 March 2004. The cross-currency element was cancelled during the year ended 31 March 2005 realising a one-off cash inflow of L22 million which, when combined with the revaluation of the relevant Euro denominated debt at that time, had no material impact on net debt.

Floating rate financial liabilities bear interest rates, based on relevant EURIBOR equivalents, which are fixed in advance for periods of six months.

BORROWING FACILITIES

At 31 March 2005, the Group had an undrawn committed floating rate syndicated facility totalling L1,000 million, which matures in 2009. This facility incurs commitment fees at market rates. At 31 March 2005, all conditions precedent had been met.

At 31 March 2004, the Group had an undrawn 364-day bilateral facility of L100 million expiring within one year. If the facility is not renewed for a further period by the bank at its expiry, it can be drawn and then repaid in September 2006, otherwise it lapses. The Group also had a facility of L1,725 million expiring in more than two years, being the five-year tranche of the RCF, which was due to mature in September 2006 but was renegotiated and reduced in the year ended 31 March 2005. All facilities incur commitment fees at market rates.

A-34

28. AUDITORS' REMUNERATION

The aggregate fees paid to auditors during the year for audit and other services are analysed below:

2005	2004
-----	-----
L000	L000

Audit services:

Edgar Filing: TELEFONICA S A - Form 6-K

UK	665	600
Other countries	370	400
	-----	-----
TOTAL STATUTORY AUDIT FEES	1,035	1,000
Audit-related regulatory reporting	32	32
Sarbanes-Oxley compliance reporting	279	--
International Financial Reporting Standards reporting ..	150	--
	-----	-----
TOTAL AUDIT AND AUDIT-RELATED FEES	1,496	1,032
	=====	=====
Non-audit fees		
Other assurance services	869	339
Tax compliance	180	166
Tax advisory	338	280
	-----	-----
TOTAL NON-AUDIT FEES	1,387	785
	=====	=====

Other non-audit assurance services includes fees totalling L630,000 in respect of the capital reorganisation described in note 19. Non-audit fees arising in the UK were L991,000 (2004: L498,000).

29. DIRECTORS' EMOLUMENTS

The emoluments of the Directors and the benefits received under long-term incentive plans were, in summary, as follows:

	2005	2004
	-----	-----
	L000	L000
Salaries	2,336	2,405
Performance related bonus	1,925	2,265
Other benefits	172	249
	-----	-----
	4,433	4,919
Payments to non-executive Directors ..	325	399
	-----	-----
TOTAL EMOLUMENTS	4,758	5,318
	=====	=====

During the year ended 31 March 2005, three Directors (2004: three) accrued retirement benefits under a defined benefit pension plan.

Gains arising during the year ended 31 March 2005 on the exercise of share options were L1,214,442, and on the vesting of long-term incentive plans were L1,399,955 (2004: share options nil, long-term incentive plans L146,717).

-
- 1 Salaries and fees are reviewed each year.
 - 2 Benefits include car provision or cash allowance, healthcare, financial planning, dental care, home security and life cover.
 - 3 Certain Directors received pension supplements for the year ended 31 March 2005. Details of these payments can be found in the section Pension Provisions below.
 - 4 Total aggregate remuneration for 2004 excludes long-term incentive gains which were included in the report for the year ended 31 March 2004.
 - 5 Includes aggregate fees earned as a non-executive Director and Chairman designate for the period 1 April 2004 to 28 July 2004.
 - 6 Highest paid Director.
 - 7 Excludes L146,717 gains from long-term incentives which were included in the report for the year ended 31 March 2004.
 - 8 Rudolf Groger's remuneration has been converted from Euro to Sterling at an exchange rate of L1 = E1.45836. (2004: L1=E1.4403).
 - 9 Appointed as Deputy Chairman of the Company on 1 January 2005.
 - 10 Appointed on 30 March 2005.
 - 11 Appointed on 10 August 2004.
 - 12 Andrew Sukawaty stepped down as Deputy Chairman of the Company on 31 December 2004 but remains on the Board.
 - 13 Retired at the conclusion of the Company's AGM on 28 July 2004.

Edgar Filing: TELEFONICA S A - Form 6-K

- 14 In addition to the benefits listed in Note 2, David Varney received a payment for outstanding holiday entitlement.
- 15 Resigned from the Board on 31 August 2004.
- 16 Resigned from the Board on 30 March 2005.
- 17 Resigned from the Board on 10 August 2004.
- 18 As at 31 March 2005.

On 1 September 2005 Judy Gibbons was appointed as a non-executive Director.

On 23 January 2006, following the acquisition of O2 by Telefonica, Sir David Arculus stepped down as Chairman; Peter Erskine was appointed Chairman; David Chance, Judy Gibbons, Stephen Hodge, Rudolf Lamprecht, Patrick Lupo and Kathleen O'Donovan stepped down as non-executive Directors; Matthew Key, Danuta Gray, Jaime Smith and Sohail Qadri were appointed as executive directors; and Cesar Alierta, Julio Linares and Antonio Viana-Baptista were appointed as non-executive Directors.

A-36

AGGREGATE REMUNERATION PAID TO THE SENIOR MANAGEMENT TEAM

The aggregate remuneration of the Senior Management Team for services in all capacities during the 2005 financial year was L2.6 million (2004: L2.4 million). In addition, loans outstanding to senior officers of the Company as at 31 March 2005 were L119,643 (2004: L141,071).

PENSION PROVISIONS

The table below includes the information required in relation to defined benefit schemes under the UKLA Listing Rules and Schedule 7A of the Companies Act 1985.

	TOTAL ACCRUED PENSION (1) - AT 31 MARCH		TRANSFER VALUE OF ACCRUED BENEFIT (2, 3) - AT 31 MARCH		REAL INCREASE IN ACCRUED PENSION DURING YEAR		INCREASE IN ACCRUED PENSION DURING YEAR (INCLUDING INFLATION)		TRANSFER VALUE OF REAL INCREASE IN ACCRUED BENEFIT (LESS DIRECTOR CONTRIBUTIONS) (2)

Edgar Filing: TELEFONICA S A - Form 6-K

- 1 The accrued annual pension represents the maximum defined benefit liability for O2. The amounts will be reduced by any retained benefits from previous employment.
- 2 The transfer values have been calculated on the basis of actuarial advice. The transfer values of the Inland Revenue approved benefits have been calculated in accordance with Actuarial Guidance Note GN11 using the assumptions adopted by the O2 Pension Plan Actuary. The unapproved element of pension benefits has been valued using assumptions appropriate to the FRS 17 accounting standard, which are consistent with GN11 principles. The increase in transfer values has been caused by each executive Director's increase in salary and length of service.
- 3 These figures represent liabilities of the Company and the O2 Pension Plan, not sums paid or due to the individual.
- 4 Rudolf Groger became an executive Director on 1 April 2003. Therefore, no figures are shown for the year prior to this date.
- 5 Rudolf Groger's pension has been converted from Euro to sterling at an exchange rate of E1: L0.6803 (2004: E1 L0.6943).

For the year ended 31 March 2005, David Arculus received employer's contributions of L16,482 (L28,254 per annum) into his personal pension arrangements. Under arrangements to provide David Finch with supplementary benefits in respect of earnings above the statutory earnings cap for the year ended 31 March 2005, L89,250 (2004: L83,125) was paid to a defined contribution Funded Unapproved Retirement Benefit Scheme (FURBS) and L48,875 (2004: L45,521) was paid as a cash supplement.

In the year ended 31 March 2005, David McGlade and Kent Thexton received a cash allowance of L117,833 and nil respectively (2004: L74,500 and L66,000 respectively) in lieu of pension benefits.

A-37

SHARE PRICE

The closing market price of O2 shares at 31 March 2005 was 119.25p (31 March 2004: 100.5p) and the range from 1 April 2004 to that date was 84.25p to 131.25p (1 April 2003 to 31 March 2004: 45.75p to 112p).

BENEFICIAL INTERESTS IN ORDINARY SHARES

The beneficial interests of the Directors and their immediate families in O2 ordinary shares of 0.1p each as at 31 March are set out in the table below.

	AS AT 31 MARCH 2005	AS AT 31 MARCH 2004
	-----	-----
David Varney(1,2)....	--	279,554(3)
Peter Erskine(1,2)...	965,910	537,027

Patrick Lupo	73,048	--

-
- 1 Between 1 April 2005 and 10 January 2006, Peter Erskine and David Finch each acquired 1,013 additional Ordinary Shares.
 - 2 Includes shares held by the trustee of the O2 Share Ownership Plan.
 - 3 Includes 1,000 shares in the form of 100 O2 American Depositary Shares (ADSs) (1 ADS = 10 Ordinary Shares).
 - 4 Includes 4,130 shares in the form of 413 O2 American Depositary Shares (ADSs) (1 ADS = 10 Ordinary Shares).

LONG-TERM INCENTIVES

The Remuneration Committee ("the Committee") believes that long-term incentives should form a key part of the executive remuneration package, and that executives should look to the performance-related elements of the package to achieve superior reward. The Committee believes it is important to adapt the incentive arrangements offered each year to support the Group's strategic objectives. This is achieved through a flexible portfolio of long-term incentives, which the Committee actively reviews to ensure that incentives remain appropriate to the needs of the business.

The Portfolio is the primary vehicle for aligning the interests of key employees and executive Directors with those of shareholders. It comprises four elements:

- performance shares;
- deferred equity shares;
- share options; and
- restricted shares.

All employees of the O2 Group, including executive Directors, are eligible to be invited to participate in long-term incentives, at the discretion of the Committee. The Committee determines the appropriate performance targets, and reviews the extent to which they have been met. Awards and options are not pensionable.

A-38

The Portfolio provides a range of plans that can be tailored to meet the needs of the Group. Other than in exceptional circumstances, executives will only be made an award under one plan in any year. In the year ended 31 March 2005, only the deferred equity shares element of the portfolio was operated for executive directors (2004: performance shares only).

Performance under the long-term incentives is measured by Total Shareholder

Edgar Filing: TELEFONICA S A - Form 6-K

Return (TSR). TSR compares the net return of a shareholder in O2 (share price growth and assumed reinvestment of any dividends) with that of a shareholder in each of a group of comparator companies.

VESTING UNDER THE O2 EXECUTIVE SHARE PORTFOLIO AS A RESULT OF TELEFONICA OFFER

As a result of the offer from Telefonica as discussed in the subsequent events section in note 32, vesting levels for conditional share awards under the PSP and the DEIP (which are performance-related) required the exercise of discretion by the Remuneration Committee of O2 in relation to the offer. Aside from a small number of Performance Share Awards granted in July 2005 based on O2 Germany performance, awards were subject to O2's relative Total Shareholder Return performance which, over the period from each grant date to 31 December 2005, was such as to place the Company at first or second in the comparator group.

The Remuneration Committee of O2 considered the excellent performance to date against all of the measures and other relevant factors, and reached an indicative decision (which was confirmed on 23 January 2006, the date on which the Telefonica offer became unconditional (the Unconditional Date)) that:

- awards made in 2003 and 2004 would vest in full, and the O2 Shares under those awards would be released immediately; and
- awards made in 2005 will vest in full, but the offer proceeds for those O2 Shares would only be released on the first anniversary of the Unconditional Date subject to the participant (i) not having given notice to resign their employment, and (ii) not having been dismissed for cause in accordance with their service contract, in both cases prior to such first anniversary.

Sir David Arculus held a conditional share award over 292,397 O2 Shares, granted under the RSP, which would have normally vested in July 2007 provided he built up a personal holding of 350,877 O2 Shares by 29 July 2005 (which he had done). The terms of the award provided that, where Sir David becomes a director of an acquiring company following a change of control of O2, the award would be rolled over into an equivalent number of shares in the acquiring company and will vest in July 2007 provided he retained an equivalent coinvestment. The Remuneration Committee of O2 concluded that the above consequences would be inappropriate in the context of the current proposals (notably, Sir David's proposed non-executive directorship of Telefonica, and a cash offer for O2) and that the award should vest in respect of the full number of O2 Shares on the Unconditional Date.

In accordance with the terms of each arrangement, O2 Deferred Shares awarded in July 2005, and Deferred Awards made under the DEIP in July 2004, neither of which have performance conditions other than continuous employment, vested in full as a result of the change of control.

SHARE OPTION PLAN

There were no awards of share options under the Share Option Plan in the year ended 31 March 2005. The vesting of options previously granted is subject to the Company's relative TSR performance against the constituents of the FTSE 100 index (at the date of grant) over a three-year period as set out below.

TSR RANKING	% OF OPTIONS EXERCISABLE
-----	-----
Below median.....	0%
Median.....	50%

Edgar Filing: TELEFONICA S A - Form 6-K

Upper quartile (top 25%).. 100%

A-39

Vesting occurs on a straight line basis between median and upper quartile performance.

If the performance goal is not satisfied in full on the first performance test, it can be retested on the fourth and fifth anniversaries of grant, extending the length of the performance period at each test.

Should options be granted in the future, the Group will have regard to best practice at the time on retesting and performance conditions.

In July 2005, options granted in 2002/03 became exercisable in full as a result of O2's TSR ranking of 1st in the relevant comparator group at the first performance test.

In addition, TSR performance was re-tested in respect of the remaining 26% of options granted in 2001/02 and as a result of O2's TSR performance being above upper quartile, the 26% also became exercisable from November 2005.

YEAR ENDED 31 MARCH 2005

The table below shows the options which remained outstanding under the Share Option Plan held by Directors during the year ended 31 March 2005.

	PLAN	GRANT DATE	NUMBER AT 1 APRIL 2004	OPTIONS GRANTED DURING THE YEAR ENDED 31 MARCH 2005	EXERCISED	LAPSED	NUMBER AT 31 MARCH 2005
	-----	-----	-----	-----	-----	-----	-----
D Varney...	Executive share option plan	23 November 2001(1,2)	1,724,137	--	(1,275,860)	--	448,277
		25 July 2002(1,4)	3,260,869	--	--	--	3,260,869
P Erskine..	Executive share option plan	23 November 2001(2)	1,724,137	--	--	--	1,724,137
		25 July 2002(4)	3,554,347	--	--	--	3,554,347
D Finch....	Executive share option plan	23 November 2001(2)	1,206,896	--	--	--	1,206,896
		25 July 2002(4)	2,445,652	--	--	--	2,445,652

Edgar Filing: TELEFONICA S A - Form 6-K

R Groger...	Executive share option plan	23 November 2001(2)	625,168	--	(462,624)	--	162,544
		25 July 2002(4)	1,763,373	--	--	--	1,763,373
D McGlade..	Executive share option plan	23 November 2001(23)	122,059	--	(90,323)	(31,736)	
		25 July 2002(4,5)	2,184,782	--	--	--	2,184,782

-
- 1 On retiring as Chairman of the Company on 28 July 2004, the Committee permitted David Varney to retain his options for the maximum periods referred to above. The exercisability of these options is dependent on the applicable performance targets being met.
 - 2 For options granted in the year ended 31 March 2002 (i.e. 23 November 2001), the first performance test took place in November 2004. TSR performance from 19 November 2001 (the start of the performance period) to 18 November 2004 placed the Company at 31st position within the comparator group and resulted in 74 per cent. of share options becoming exercisable. Performance will be tested in respect of the unexercisable portion of the option on 18 November 2005. Should the remaining portion of the option not be exercisable at that time, a final retest will occur on 18 November 2006. In the case of David McGlade who resigned from the Board on 31 March 2005, the balance of his option outstanding lapsed in full.
 - 3 The options granted to David McGlade on 23 November 2001 were in the form of ADSs (one ADS = 10 O2 shares) at \$11.873 per ADS. The value realisable from shares acquired on exercise is the difference between the price on the date of exercise and the option price. David McGlade converted his option over ADSs to ordinary shares on exercise and made a gain of L576,622. The sterling-dollar exchange rate on 7 March 2005 was L1= \$1.9114.
 - 4 For options granted in the year ended 31 March 2003 (i.e. 25 July 2002), the first performance test is expected to be July 2005. TSR performance from 18 July 2002 (the start of the performance period) to 31 March 2005 placed the Company at first position within the comparator group.
 - 5 On resigning as a Director of O2 plc on 31 March 2005, the Committee permitted David McGlade to retain his options for the maximum periods referred to in the final column above. The exercisability of these options is dependent on the applicable performance targets being met.

A-40

YEAR ENDED 31 MARCH 2004

The table below shows the options which remained outstanding under the Share Option Plan held by Directors during the year ended 31 March 2004.

Edgar Filing: TELEFONICA S A - Form 6-K

	PLAN	GRANT DATE	NUMBER AT 1 APRIL 2003	OPTIONS GRANTED DURING THE YEAR ENDED 31 MARCH 2004	EXERCISED	LAPSED	NUMBER 31 MAR 2004
D Varney...	Executive share option plan	23 November 2001	1,724,137	--	--	--	1,724,
		25 July 2002	3,260,869	--	--	--	3,260,
P Erskine..	Executive share option plan	23 November 2001	1,724,137	--	--	--	1,724,
		25 July 2002	3,554,347	--	--	--	3,554,
D Finch....	Executive share option plan	23 November 2001	1,206,896	--	--	--	1,206,
		25 July 2002	2,445,652	--	--	--	2,445,
R Groger...	Executive share option plan	23 November 2001	625,168	--	--	--	625,
		25 July 2002	1,763,373	--	--	--	1,763,
D McGlade..	Executive share option plan	23 November 2001 (1)	122,059	--	--	--	122,
		25 July 2002	2,184,782	--	--	--	2,184,

1 The options granted to David McGlade on 23 November 2001 were in the form of ADSs (one ADS = 10 O2 shares) at \$11.873 per ADS.

DEFERRED EQUITY INCENTIVE PLAN

The Committee operated the Deferred Equity Incentive Plan as the primary form of long-term incentive for executive Directors in the year ended 31 March 2005.

A-41

AWARD

- During 2004/05, each of the executive Directors received a Deferred Award and Performance Uplift. Details of these awards can be found below.
- The Deferred Award is an entitlement to shares equal in value to half of the annual bonus earned in respect of the preceding financial year (i.e. 2003/04). Vesting is subject to continued employment, but no further corporate performance condition.
- Vesting of the Performance Uplift is subject to the Company's relative TSR performance against a comparator group over a fixed three year period as set out below.

Edgar Filing: TELEFONICA S A - Form 6-K

TSR RANKING	% PERFORMANCE UPLIFT VESTS
Below median.....	0%
Median.....	30%
Upper quintile (top 20%)...	100%

Vesting occurs on a straight line basis between median and quintile performance.

- The comparator group consists of the constituents of the FTSEurofirst 300 Telecoms Service Index at the time the award is made.
- Awards will only vest to the extent that the Committee is satisfied that the Company's TSR performance is a genuine reflection of the Company's underlying financial performance over the period. There are no retesting opportunities.

The table below shows the number of deferred equity shares awarded to executive Directors during the year ended 31 March 2005.

GRANTED DURING THE YEAR ENDED 31 MARCH 2005						
DATE OF AWARD	NUMBER AT 1 APRIL 2004	NUMBER OF DEFERRED AWARD SHARES	NUMBER OF PERFORMANCE UPLIFT SHARES	TOTAL NUMBER OF SHARES	VESTED	L
Peter Erskine.....	29 July 04	--	329,941	659,883	989,824	--
David Finch.....	29 July 04	--	212,865	425,730	638,595	--
Rudolf Groger.....	29 July 04	--	282,105	564,210	846,315	--
David McGlade(1)...	29 July 04	--	270,175	540,350	810,525	-- (8

1 David McGlade left the Company on 31 March 2005 and his award over deferred equity shares lapsed in full.

PERFORMANCE SHARE PLAN

There were no awards of performance shares under the Performance Share Plan to Directors in the year ended 31 March 2005.

AWARD

- During 2003/04, each of the executive Directors was made an award of Performance Shares equal to 120 per cent. of salary. Details of these awards are included in the table on page 114.

PERFORMANCE MEASURES

Edgar Filing: TELEFONICA S A - Form 6-K

- Vesting is subject to the Company's relative TSR performance against a comparator group over a fixed three-year period as set out below:

Upper quartile (top 25 per cent.) ..	100%

Vesting occurs on a straight line basis between median and maximum performance.

- The comparator group consists of the constituents of the FTSEuroFirst 300 Telecoms Service Index at the time the award is made.
- Awards will only vest to the extent that the Committee is satisfied that the Company's TSR performance is a genuine reflection of the Company's underlying financial performance over the period. There are no retesting opportunities.

The table below shows the number of performance shares which remained outstanding to executive Directors as at 31 March 2005.

	GRANT DATE	NUMBER AT 1 APRIL 2004	GRANTED DURING THE YEAR ENDED 31 MARCH 2005	VESTED	LAPSED	NUMBER AT 31 MARCH 2005
Peter Erskine	31 July 2003	1,403,773	--	--	--	1,403,773
David Finch	31 July 2003	905,660	--	--	--	905,660
Rudolf Groger	31 July 2003	859,245	--	--	--	859,245
David McGlade(1) ...	31 July 2003	815,094	--	--	(815,014)	--

1 David McGlade left the company on 31 March 2005 and his award over performance shares lapsed in full.

ALL-EMPLOYEE SHARE SCHEMES

Executive Directors are eligible to participate in the Group's all-employee share schemes on the same terms as other eligible employees. There are no performance conditions attached to these schemes and both operate within specific tax legislation:

- the O2 Sharesave Plan, under which the Directors can grant options to all employees across the business to acquire shares at an exercise price set at a discount of up to 20 per cent. to the market value of a share at the time of invitation.
- the O2 Share Ownership Plan, under which the Directors can award shares to UK employees on a variety of tax-favoured terms.

-
- David McGlade resigned from the Board on 31 March 2005 and his sharesave options lapsed in full.
 - David Varney resigned from the Board on 28 July 2004 and his sharesave options lapsed in full.

YEAR ENDED 31 MARCH 2004

The table below shows the sharesave options over O2 ordinary shares held by Directors during the year ended 31 March 2004.

	GRANT DATE	NUMBER AT GRANT AND AT 1 APRIL 2003	EXERCISED	LAPSED	NUMBER AT 31 MARCH 2004	EXERCISE PRICE
David Varney	21 December 2001	12,978	--	--	12,978	73.2
Peter Erskine	21 December 2001	12,978	--	--	12,978	73.2
David Finch	21 December 2001	12,978	--	--	12,978	73.2
David McGlade	20 December 2002	21,477	--	--	21,477	44

No options lapsed or were exercised in the year ended 31 March 2004.

A-44

RESTRICTED SHARES

YEAR ENDED 31 MARCH 2005

The table below shows the number of restricted shares which remained outstanding

Edgar Filing: TELEFONICA S A - Form 6-K

to Directors during the year ended 31 March 2005.

	GRANT DATE	MARKET PRICE ON DATE OF AWARD	NUMBER AT 1 APRIL 2004	AWARDED DURING THE YEAR ENDED 31 MARCH 2005	VESTED	LAPSED
David Arculus(1) ...	29/07/04	85.5p	--	292,397	--	--
Peter Erskine(2) ...	23/11/01	--	575,815	--	(575,815)	--
David Finch(2,3) ...	23/11/01	--	201,536	--	(201,536)	--
Rudolf Groger(2) ...	23/11/01	--	156,592	--	--	(156,592)
David McGlade(2,4,5) ..	23/11/01	--	38,579	--	(33,549)	(5,030)

- 1 David Arculus was granted a restricted share award over 292,397 shares (with a market value of 85.5p at the time of grant) with effect from 29 July 2004. This represents an amendment to the original award terms involving a reduction in the number of shares under award and the removal of a corporate performance condition to which the original award was subject. The restricted share award was intended to vest on 29 July 2007 provided Mr Arculus had built up a personal shareholding of 350,877 shares by 28 July 2005 and remained with the Company until the vesting date.
- 2 Restricted share awards were granted on terms that they will only vest on the third anniversary of grant, if a significant personal shareholding in the Company equal to the number of shares under award is built within 18 months of grant and retained until the vesting date as well as remaining in employment with the Group. The awards vest on a pro-rata basis if the participant builds up a lower personal investment.
- 3 The personal shareholding requirement for David Finch was equal to one-third of the shares under award at 23 November 2001.
- 4 The restricted share award granted to David McGlade on 23 November 2001 was in the form of ADSs (one O2 ADS= 10 ordinary shares).
- 5 The sterling-dollar exchange rate on the date of vesting was L1 = \$1.8688.

YEAR ENDED 31 MARCH 2004

The table below shows the number of restricted shares awarded to executive Directors under the operation of the Portfolio.

	GRANT DATE	NUMBER AT 1 APRIL 2003(1)	VESTED	LAPSED	NUMBER AT 31 MARCH 2004	VESTING DATE
Peter Erskine(2) ...	23 November 2001	575,815	--	--	575,815	23 November 2004
David Finch(3)	23 November 2001	403,071	(201,535)	--	201,536	23 November 2004
Rudolf Groger	23 November 2001	156,592	--	--	156,592	23 November 2004
David McGlade	23 November 2001	385,790	--	--	385,790	23 November 2004

Edgar Filing: TELEFONICA S A - Form 6-K

 1 Restricted share awards were granted to a small group of senior executives (including executive Directors) shortly after demerger. Most awards were granted on terms that they will normally only vest on the third anniversary of grant if the participant builds up a significant personal shareholding in the Company within 18 months of grant and retains this until the vesting date as well as remaining in employment with the O2 Group until this time. The awards vest on a pro rata basis if the participant builds up a lower personal investment.

As at 31 March 2004 both Peter Erskine and David Finch had met their shareholding requirement, and are required to maintain that shareholding until the third anniversary of award in order for their restricted share awards to vest in full.

2 Vesting is subject to the satisfaction of a personal shareholding requirement as set out in note 1. The personal shareholding requirement for Peter Erskine is equal to the number of shares under award.

3 Vesting is subject to the satisfaction of a personal shareholding requirement. The personal shareholding requirement for David Finch is equal to one-third of the shares under award. The market price of an O2 share on the grant date was 87p. Under the terms of David Finch's Restricted Share Plan award, 201,535 shares vested on 23 November 2002 at 54.25p and 201,535 shares vested on 23 November 2003 at 72.8p being the market value of a share at those dates. In relation to the awards which vested on 23 November 2002 and 23 November 2003, David Finch received L109,333 and L146,717 on these two dates respectively.

BT LEGACY SHARE AWARDS

Peter Erskine had the following O2 shares under award from BT Legacy Share Awards. Following demerger, these awards were adjusted to relate solely to O2 shares, and any performance measure has been translated into a measure of O2 performance from demerger to the end of the performance period.

YEAR OF AWARD	BT EXECUTIVE SHARE PLAN 1998(1)	BT EXECUTIVE SHARE PLAN 1999(2)	BT INCENTIVE SHARE PLAN 2000(3)	BT DEFERRED BONUS PLAN(4) 2001
-----	-----	-----	-----	-----
Number of O2 shares at 1 April 2003	154,057	144,198	312,750	127,656
Vested	--	--	--	--
Lapsed	(154,057)	--	(312,750)	--
-----	-----	-----	-----	-----
Number of O2 shares at 31 March 2004 ...	--	144,198	--	127,656
Vested	--	--	--	(127,656)
Lapsed	--	(144,198)	--	--
-----	-----	-----	-----	-----
Number of O2 shares at 31 March 2005 ...	--	--	--	--
-----	=====	=====	=====	=====

 1 The performance period for the 1998 BT Executive Share Plan ended on 31 March 2003. The performance condition was not met and as a result 154,057 shares lapsed in August 2003 following the year ended 31 March 2003.

2 The performance period for the 1999 BT Executive Share Plan ended on 31

Edgar Filing: TELEFONICA S A - Form 6-K

March 2004. The performance condition was not met and as a result 144,198 shares lapsed in August 2004.

- 3 The performance period for the 2000 BT Incentive Share Plan ended on 31 March 2003. The performance condition was not met and as a result 312,750 shares lapsed in August 2003 following the year ended 31 March 2003.
- 4 The vesting of shares awarded under the BT Deferred Bonus Plan was subject only to the continued employment of the Director with the Company.

A-45

LEGACY OPTION PLAN

Subsisting options over BT shares granted under BT executive share option plans were replaced with options over O2 shares, granted under the O2 Legacy Option Plan, for those participants now employed by O2. The replacement options were granted on the same terms and are exercisable between the same dates as the options for which they were exchanged.

There are no performance conditions relating to the vesting of these options other than continued employment with the O2 Group. This reflects the terms of the underlying BT Option plan. The legacy options will be satisfied using new issue shares, and options granted under this plan do not count towards the dilution limits established for O2 share option plans. No further options will be granted under this plan.

YEAR ENDED 31 MARCH 2005

The table below shows options over BT shares held by David Varney and David McGlade prior to demerger as at 31 March 2005.

	GRANT DATE	NUMBER AT 1 APRIL 2004	EXERCISED	LAPSED	NUMBER AT 31 MARCH 2005	OPTION PRICE	PR D EX
David McGlade(1) ...	1 October 2000	113,440	(113,440)	--	--	\$23.243	
David Varney	22 June 2001	491,272	(491,272)	--	--	101.7p	

- 1 David McGlade's legacy options were awarded in the form of ADSs (one O2 ADS = 10 ordinary shares) and on exercise the ADSs were converted into ordinary shares. David McGlade made a gain of L48,893. The sterling-dollar exchange rate on 7 March 2005 was L1 = \$1.9114.

YEAR ENDED 31 MARCH 2004

The table below shows options over BT shares held by David Varney and David McGlade prior to demerger as at 31 March 2004.

	NUMBER AT 1 APRIL	OPTIONS GRANTED DURING THE YEAR ENDED	NUMBER AT 31 MA
--	----------------------	--	--------------------

Edgar Filing: TELEFONICA S A - Form 6-K

PLAN	GRANT DATE	2003	31 MARCH 2004	EXERCISED	LAPSED	2004
----	-----	-----	-----	-----	-----	-----
D Varney ...	22 June 2001	491,272(1)	--	--	--	491,272
D McGlade ..	1 October 2000	113,440(1)	--	--	--	113,440

1 The options were regranted over O2 shares on 20 December 2001. David McGlade's legacy options were awarded in the form of ADSs (one ADS = 10 O2 shares) at \$23.243 per ADS, and vest in three equal annual tranches on the first, second and third anniversaries of grant.

NON-BENEFICIAL INTERESTS

At 31 March 2005, all executive Directors had a non-beneficial interest in 956,316 O2 ordinary shares (2004: 1,858,232) and nil O2 American Depositary Shares (2004: 81,573) held in trust by Hill Samuel Offshore Trust Company Limited as trustee of the O2 Restricted Share Plan, O2 Performance Share Plan, and O2 Deferred Equity Incentive Plan.

At 31 March 2004, Peter Erskine had a non-beneficial interest in 893,175 O2 ordinary shares held in trust by Ilford Trustees Limited as trustee of the BT Executive Share Plan and BT Deferred Bonus Plan.

	---	---
TOTAL STAFF COSTS	613	548
	===	===

At 31 March 2005, the Group employed 14,914 (2004: 12,905) full time employee equivalents.

The Group operates a number of employee incentive schemes including a sharesave plan, a share ownership plan and various executive and employee option schemes.

As a result of the capital reorganisation described in note 19, on 14 March 2005 all mmO2 plc options and awards outstanding at that date were replaced by options and awards over O2 plc shares.

The share option plans operated by the Group are:

O2 SHARESAVE PLAN

The O2 Sharesave Plan is a savings related share option scheme available to all UK, Isle of Man and Irish employees. The scheme enables employees to acquire shares in O2 plc at an agreed price through monthly savings at the end of a three-year or five-year SAYE contract. A sharesave scheme also operates in Germany.

O2 EXECUTIVE SHARE OPTION PLAN

Executive Share Options have been granted to certain employees of the Group on terms such that they usually become exercisable on the third anniversary of grant subject to the achievement of certain performance criteria. If these criteria are not met on the third anniversary of grant, they are retested on the fourth and fifth anniversaries. All such options have an exercise price equal to the market value at grant date and have a life of ten years. In the year ended 31 March 2005, no options were granted to employees under this plan (2004: nil).

A-47

O2 LEGACY OPTION PLAN

Options over BT shares granted under BT Executive Share Option Plans were replaced with options over O2 shares, granted under the Legacy Option Plan, for those participants now employed by O2. The replacement options were granted on the same terms, and are exercisable between the same dates, as the options for which they were exchanged. The exercise price of these options equals the market value as at original grant date. Options are normally exercisable up until the tenth anniversary of the date of the original grant.

Options outstanding under the O2 Sharesave Plan, O2 Executive Share Option Plan and O2 Legacy Option Plan as at 31 March, together with their exercise prices and vesting periods, are as follows:

(1) Share options over American Depositary Shares (ADSs) have exercise prices termed in US Dollars. For purposes of disclosure, these options' exercise prices have been translated into sterling at the year end exchange rate. As each ADS represents ten ordinary shares, the number of options and exercise prices have been adjusted by this ratio to reflect the options on a like for like basis. As a consequence of the implementation of the capital reorganisation in March 2005, the mm02 ADS programme was terminated, and all ADSs have been converted into either O2 plc ordinary shares or cash.

SHARE AWARD PLANS

The share award plans operated by the Group are:

O2 RESTRICTED SHARE PLAN

Restricted share awards have been granted to a small group of senior executives on terms that they will normally only vest on the third anniversary of grant if the participant builds up a predetermined personal shareholding in the Group and remains in employment with the Group. The weighted average market value at grant date of the 2 million shares granted under this plan in the year ended 31 March 2005 was L0.88. No shares were granted under this plan in the years ended 31 March 2004 and 31 March 2003.

O2 PERFORMANCE SHARE PLAN

Performance related share awards were granted to certain senior employees during the year ended 31 March 2005 and 31 March 2004. These awards will vest on the third anniversary of grant if O2 plc meets certain performance criteria, and the participant remains in employment with the Group. The weighted average market value at grant date of the 12 million (2004: 26.4 million) shares granted under this plan in the year ended 31 March 2005 was L0.88 (2004: L0.53).

O2 DEFERRED EQUITY INCENTIVE PLAN (DEIP)

Participants in the DEIP receive share awards that include a deferred element and a performance element. The deferred element generally vests three years after grant subject to continued employment with the Group. The performance element is subject to the long-term performance of the Group and continued employment with the Group. DEIP awards have been granted to a small group of

Edgar Filing: TELEFONICA S A - Form 6-K

senior executives during the year ended 31 March 2005. The weighted average market value at grant date of the 8 million shares in the year ended 31 March 2005 was L0.88.

31. PENSION COSTS

The Group operates a number of pension schemes in its businesses. All the Group's pension schemes are provided through either defined benefit or defined contribution arrangements. Defined benefit schemes generally provide pensions based on the employee's length of service and their final pensionable salary. Defined contribution schemes offer employees individual funds which are converted into pension benefits on retirement. The assets of the schemes are held independently of the Group's finances.

A-49

THE O2 PENSION PLAN

The O2 Pension Plan (O2 PP) provides the pension benefits for the majority of UK employees and is divided into defined contribution and defined benefit sections.

DEFINED CONTRIBUTION SECTION

Prior to 1 July 2002, the Group participated in the BT Retirement Plan (BTRP), a defined contribution scheme established by BT. Members of the BTRP could elect to transfer their funds under management into the new O2 Plan (defined contribution section) on its inception. These funds were transferred on 14 March 2003.

DEFINED BENEFIT SECTION

Following the Group's demerger from BT and until 30 June 2002, the Group was a participating employer in the BT Pension Scheme (BTPS), a funded defined benefit pension scheme. While participating the Group paid to the BTPS a predetermined percentage of the pensionable payroll costs of those Group employees who were members of the scheme. These costs have been charged in the period to which they relate. Details of the financial position of the BTPS and further information regarding the scheme are contained in the financial statements of BT Group plc.

On 1 July 2002 the O2 PP was established for employees in the United Kingdom by the Group. Any active member of the BTPS employed by the Group could join a defined benefit section of, and elect to transfer their past service liability from the BTPS to, the new plan. The vast majority of those eligible to transfer elected to do so. The benefits of all deferred and pensioner members at 30 June 2002 remain in the BTPS. A share of the assets of the BTPS, determined on the basis of the past service liabilities of the members electing to transfer their benefits to the new plan, were transferred to the O2 PP on 17 March 2003.

From 1 July 2002, the Group has been the principal employer of the O2 PP. The pension costs have been assessed in accordance with the advice of a qualified independent actuary using the projected unit method and taking assets at market value. The defined benefits sections of the O2 PP are closed to new entrants and therefore the current service cost is likely to increase as the members approach retirement.

ACTUARIAL VALUATION

A full actuarial valuation of the defined benefit sections of the O2 PP was undertaken at 30 September 2005 by a professionally qualified independent

Edgar Filing: TELEFONICA S A - Form 6-K

actuary using the projected unit method. The purpose of this valuation was to design a future funding plan to ensure that contributions to the plan are sufficient to meet future liabilities. As at 30 September 2005 the assets of the O2 PP had a market value of L407 million and were sufficient to cover 83 per cent of the benefits accrued to members at that date on the ongoing funding measure. As a result of the valuation, the Group has increased the employer's regular contribution rate from 13.1 to 20.1 per cent of pensionable salaries with effect from 30 September 2005. The employee's contribution rate remains at 6 per cent of pensionable salary. In December 2005 a one off cash contribution of L81 million was paid into the O2 PP to fund the deficit.

The main actuarial assumptions used in the valuation were as follows:

	%

Nominal rate of increase in salaries	4.90
Nominal rate of increase of pensions in payment	2.70-2.90
Investment return pre retirement	7.00
Investment return post retirement	5.50
Inflation assumption	2.90

A-50

OTHER GROUP PENSION PLANS

The Group operates several other defined benefit pension schemes. In the Isle of Man benefits are provided by a funded defined benefit pension scheme that is closed to new entrants. The Group also operates unfunded defined benefit schemes in the UK and in Germany. A provision, determined in accordance with SSAP 24, is recorded on the balance sheet to recognise the cumulative accrued liability for the unfunded schemes as disclosed in note 18.

Until May 2001 the O2 Germany main scheme was unfunded. This scheme has been changed to a funded arrangement with payments being made to provide for previously unfunded liabilities over the period to the active members' retirements. The vast majority of members of the O2 Germany main scheme are now accruing benefits under an insured arrangement. The other defined benefit schemes in Germany are unfunded.

The Group operates defined contribution schemes in Germany, Ireland and the Isle of Man. The assets of these defined contribution arrangements are held separately from those of the Group in independently administered funds.

The assets and liabilities of the O2 Netherlands pension scheme were included in the disposal of O2 Netherlands to Greenfield Capital Partners.

DISCLOSURES UNDER SSAP 24

The total cost charged to the profit and loss account for all the Group's pension schemes is as follows:

2005	2004
----	----

Edgar Filing: TELEFONICA S A - Form 6-K

	Lm	Lm
O2 Pension Plan cost.....	16	16
Other defined benefit schemes..	3	3
Defined contribution schemes...	7	7
	----	----
	26	26
	====	====

Within the total cost analysed above, the regular cost is L23 million (2004: L24 million).

The Group has recognised an asset of L5 million (2004: nil) representing the excess of cumulative funding over the accumulated pension cost on the O2 PP and amounts totalling a net liability of L16 million (2004: L15 million) representing the excess of cumulative pension cost over accumulated funding on other schemes.

At 31 March 2004, using SSAP 24, a deficit of L12 million existed in the mmO2 PP. This difference between the assets and liabilities was amortised over the expected future working lives of the active membership, of 13 years, using the straight line method and is included in the cost.

A-51

As at 30 June 2003, the assets of the O2 PP were sufficient to cover 95 per cent of the benefit: accrued to members based on the SSAP 24 accounting basis, which is used to calculate the pension charge recognised in the profit and loss account.

The number of members in each of the Group's main pension schemes is as follows:

	2005 ACTIVE NO.	2005 TOTAL NO.	2004 ACTIVE NO.	2004 TOTAL NO.
	-----	-----	-----	-----
O2 PP.....	5,113	6,133	4,014	4,596
O2 Germany schemes	3,148	3,267	2,996	3,008
Isle of Man scheme	273	448	281	437
O2 Ireland scheme	996	1,481	918	1,112
UK unfunded arrangement ..	13	23	15	23
	-----	-----	-----	-----
	9,543	11,352	8,224	9,176
	=====	=====	=====	=====

The principal assumptions used to determine the pension cost under SSAP 24 for the defined benefit section of the O2 PP for the years presented were:

2005

2004

Edgar Filing: TELEFONICA S A - Form 6-K

	----- %	----- %
Nominal rate of increase in salaries.....	3.75-4.25	3.75-4.25
Nominal rate of increase of pensions in payment ..	2.50	2.50
Investment return pre retirement	7.50	7.50
Investment return post retirement	5.70	5.70
Inflation assumption	2.50	2.50
	=====	=====

The assumptions for the other defined benefit schemes around the Group are consistent with those used for the O2 PP.

DISCLOSURES UNDER FRS 17 "RETIREMENT BENEFITS"

In accordance with the transitional arrangements of FRS 17 "Retirement benefits", certain information regarding the Group's pension arrangements are disclosed below.

The actuarial valuation of the O2 PP as at 30 June 2003 has been updated to 31 March 2005 by an independent qualified actuary in accordance with the transitional arrangements of FRS 17. In accordance with FRS 17, the defined benefit liabilities have been measured using the projected unit method. Plan assets are stated at their market value.

The main assumptions adopted for the O2 PP under FRS 17 are as follows:

	2005 O2 PP ----- %	2004 O2 PP ----- %
Nominal rate of increase in salaries	4.15-4.65	4.05-4.55
Nominal rate of increase of pensions in payment.....		
- Pension increases with inflation	2.90	2.80
- Pension increases with inflation limited to 5 per cent. p.a..	2.70	2.60
Discount rate	5.50	5.70

32. RECONCILIATION FROM UK GAAP TO US GAAP AND SUPPLEMENTARY INFORMATION

The Group's financial statements are prepared in accordance with accounting principles generally accepted in the United Kingdom. Note 1 to the financial statements provides additional information on the basis of preparation of the Group's financial statements. UK GAAP differs in certain material respects from US GAAP. The following notes, disclosures and tables set out the key differences between US and UK GAAP.

The following tables summarise the significant adjustments between net profit and shareholders' funds from that reported under UK GAAP to that which would have been reported had US GAAP been applied.

		2005	2004

A-55

DISCONTINUED OPERATION

On 3 June 2003 the Group completed the sale of O2 Netherlands, its wholly owned Dutch subsidiary, to Greenfield Capital Partners for E25 million in cash. Note 2 and note 3 to the financial statements disclose the results of O2 Netherlands as a discontinued operation for the year ended 31 March 2004 under UK GAAP. There were no discontinued operations in the year ended 31 March 2005. The US GAAP net profit/(loss) analysed between continuing operations and

Edgar Filing: TELEFONICA S A - Form 6-K

discontinued operations is as follows:

	2004

	Lm
Net profit/(loss) adjusted for US GAAP comprises:	
Continuing operations	192
Discontinued operation	(12)

Net profit as adjusted for US GAAP	180
	====
Basic and diluted earnings/(loss) per share, in pence, comprises:	
Continuing operations	2.2
Discontinued operation	(0.1)

Basic and diluted earnings per share, as adjusted for US GAAP (pence)	2.1
	====

The following are the main differences between UK GAAP and US GAAP which are relevant to the Group's financial statements.

(a) Capitalisation of interest

Under UK GAAP, the Group does not capitalise interest in its financial statements. To comply with US GAAP, the estimated amount of interest incurred whilst constructing major capital projects is included in fixed assets and depreciated over the lives of the related assets. This includes capitalisation of interest incurred on funding UMTS licences for the period up to the market launch of the related services. As at 31 March 2005, under US GAAP, gross capitalised interest of L1,385 million (2004: L1,324 million) was subject to depreciation over periods of five to 20 years.

(b) Goodwill and other intangible and tangible assets

Under UK GAAP, goodwill arising on the acquisition of subsidiary undertakings, joint ventures and associates completed prior to 1 April 1998 by the Group was written off against shareholders' funds. The goodwill is reflected in the net income in the period of disposal, as part of the calculation of the gain or loss on divestment, to the extent it has not already been recognised in the profit and loss account. Goodwill arising on acquisitions completed on or after 1 April 1998 is recognised as an intangible asset in the balance sheet and is amortised over its useful life. Under US GAAP, such goodwill has always been held as an intangible asset in the balance sheet and until 31 March 2002 was previously amortised over its useful life with only the unamortised portion being included in any gain or loss on divestment.

From 1 April 2002, in accordance with Statement of Financial Accounting Standard (SFAS) No. 142 "Goodwill and Other Intangible Assets", such intangible fixed assets are no longer amortised on an annual basis and are reviewed for impairment annually, or sooner should a triggering event occur.

Those intangible and tangible fixed assets with definite useful lives continue to be amortised over their useful life, with impairment reviews being carried out when triggering events occur. Such definite lived intangible assets are tested for impairment in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". In considering whether a

Edgar Filing: TELEFONICA S A - Form 6-K

triggering event has occurred under SFAS No. 142 and SFAS No. 144, the Group looks for the existence of facts and circumstances, either internal or external, which indicate that the carrying value of the asset may not be recovered.

Certain intangible fixed assets recognised under the US GAAP purchase accounting rules are subsumed within goodwill under UK GAAP. Under US GAAP, these separately identified intangible assets are valued and amortised over their useful lives. These include customer bases and internally developed software.

Under US GAAP the carrying value of UMTS licences in O2 Germany and O2 UK is significantly higher than under UK GAAP owing to the impairment of these assets in the year ended 31 March 2003 being significantly lower under US GAAP. Accordingly, amortisation charges for these licences, which has commenced during the current year, is higher under US GAAP.

YEAR ENDED 31 MARCH 2005 AND 31 MARCH 2004

In the years ended 31 March 2005 and 2004, the Group has not identified any triggering events which would indicate that an impairment review should be undertaken in respect of definite-lived tangible and intangible fixed assets. In accordance with SFAS No. 142 the Group's indefinite-lived goodwill was tested

A-56

for impairment at 31 March 2005 and 2004. These impairment reviews indicated that no impairment of goodwill had arisen.

The changes in the carrying amount of goodwill for the segments and in total for the years ended 31 March 2005 and 31 March 2004 are as follows:

	MOBILE TELECOMMUNICATIONS			OTHER BUSINESS	TOTAL
	UK	GERMANY	IRELAND		
	Lm	Lm	Lm		
At 1 April 2003	2,411	731	548	5	3,695

At 31 March 2004	2,411	707	531	--	3,649
Foreign exchange and other movements	--	19	15	--	34
AT 31 MARCH 2005	2,411	726	546	--	3,683

The following table analyses definite lived intangible assets for US GAAP purposes at March 31, 2005 and 2004:

GROSS BOOK VALUE 2005	ACCUMULATED AMORTISATION 2005	NET BOOK VALUE 2005	GROSS BOOK VALUE 2004	ACCUMULATED AMORTISATION 2004	NET BOOK VALUE 2004
Lm	Lm	Lm	Lm	Lm	Lm

Edgar Filing: TELEFONICA S A - Form 6-K

Licences	10,336	(545)	9,791	10,052	(23)	10,029
Other intangible assets	501	(361)	140	499	(329)	170
	-----	----	-----	-----	----	-----
	10,837	(906)	9,931	10,551	(352)	10,199
	=====	=====	=====	=====	=====	=====

Under US GAAP the Group recorded impairment charges of L409 million and L1,475 million for the year ended 31 March 2003 to reduce the carrying value of the goodwill that arose on the acquisitions of O2 UK and O2 Ireland respectively. Under UK GAAP the Group recorded an impairment charge of L8,300 million against the intangible assets of O2 UK, O2 Germany and O2 Ireland, of which L2,401 million related to the impairment of goodwill and L5,899 million related to the impairment of long-lived assets. The difference between the impairment charges under UK and US GAAP is a result of the requirement under US GAAP to initially test the carrying value of long-lived assets using undiscounted cash flows and the difference in methodology used in calculating the impairment of goodwill.

As a result of the disposal of O2 Netherlands, the carrying values of the net assets of O2 Netherlands were written down to their net realisable amount, being the sale proceeds less direct costs of disposal. This resulted in an impairment charge of L1,424 million being recognised in the profit and loss account for the year ended 31 March 2003 of which L684 million related to goodwill and L740 million related to long-lived assets. The difference between the impairment charge recorded under US GAAP and UK GAAP (under which a provision of L1,364 million was recognised) in respect of O2 Netherlands is due to the different carrying values of the net assets under each GAAP.

(c) Employee stock compensation

The Group operates a number of share option and share award plans for its Directors and employees. Full details are included in note 29 to the financial statements.

Under UK GAAP, share options and share awards granted over the Company's ordinary shares are accounted for using the intrinsic value method, with the difference between the share price of the shares at grant date and the exercise price charged to the profit and loss account over the service period. Under US GAAP, the Group accounts for share options and share awards in accordance with the requirements of Accounting Principles Board (APB) Opinion No. 25, "Accounting for Stock Issued to Employees".

A-57

APB No. 25 requires the use of an intrinsic value method which differs to the UK GAAP accounting treatment based on whether the options and share awards are considered fixed or variable. Under APB No. 25 the cost of compensation for fixed awards (being awards under which both the exercise price and the number of shares is fixed) is determined at the date the award becomes fixed, based on the difference between the fair value of the shares under award and the exercise price. The compensation cost is expensed over the vesting period. Until the plan is fixed (including performance conditions are met), it is considered a variable plan and compensation cost is measured as the difference between the market price at the period end and the exercise price based on the number of awards expected to vest.

Share options have been granted under the O2 Sharesave Plan at a 20 per cent discount to the market price of the date of grant. The Sharesave Plan falls outside the scope of the intrinsic value methodology under UK GAAP. Under US

Edgar Filing: TELEFONICA S A - Form 6-K

GAAP, a plan is considered compensatory when the discount to market price is in excess of 15 per cent. Compensation cost is recognised for the difference between the exercise price of the share options granted and the quoted market price of the shares at the measurement date and is recognised over the vesting period of the options. During the year ended 31 March 2003 Sharesave options were granted at a lower exercise price than previous awards. The Group has applied the guidance in FASB Emerging Issues Task Force (EITF) 00-23 such that an offer to enter into a new Sharesave Plan at a lower price than a previous award requires variable accounting to commence for all existing higher priced awards when the offer is made. Variable accounting continues until the awards are exercised, are forfeited or expire unexercised.

Additionally, under US GAAP, provision for employee payroll taxes on employee stock compensation is recognised on the exercise date. Under UK GAAP, provision is made for payroll taxes on shares that are expected to be exercised and spread over the service period.

(d) Other employee compensation expense

Under UK GAAP, certain amounts paid to former owners of purchased companies who are also employees are included as part of the acquisition cost of these companies. Under US GAAP, where payment of those amounts is based on achievement of certain performance goals, they qualify as employee compensation expense and are recognised in the financial statements when the performance goals are met.

(e) Restructuring costs

In 2005 and 2004 the Group has recognised reorganisation and restructuring charges related to employee termination benefits and real estate closures. For the year ended 31 March 2005, this related to the redeployment of resources within O2 UK into customer facing areas and away from non-customer facing areas. The charge comprises redundancy and property costs.

For the year ended 31 March 2004 the restructuring involved the transfer of O2 Online, Products O2 and certain other central functions to the operating businesses in the UK, Germany and Ireland, and includes provisions relating to redundancies and the termination of property leases.

Under US GAAP, site closure costs can only be recognised for the period after cessation of operations at that site. Employee termination benefits paid to employees that are required to render service beyond their minimum retention period are accrued over their remaining service period. Employee termination benefits can also only be recognised if amongst other things the terms of the benefit arrangement are known in sufficient detail to enable employees to determine the type and amounts of benefits that they will receive. Under UK GAAP the provision may be recognised at the time of managements' commitment, communication and reasonable estimate of the associated cost. Accordingly, adjustments have been made to eliminate the UK GAAP provisions for restructuring that do not meet the US GAAP criteria.

A-58

(f) Derivative financial instruments

Under UK GAAP certain derivative financial instruments qualify for hedge accounting, but do not qualify for hedge accounting under US GAAP. As a result, the movement in the fair value of these instruments is recognised in the profit and loss account.

Edgar Filing: TELEFONICA S A - Form 6-K

(g) Long-term licence creditors

In the year ended 31 March 2003, O2 Ireland purchased a UMTS "B" licence. The total licence fee was E114 million with payments phased over 15 years. Under US GAAP the asset cost has been recorded at the discounted present value of the payments and a corresponding creditor established. Over the 15-year period an interest cost will be expensed to recognise the full E114 million due. Under UK GAAP the asset and creditor are recognised at their undiscounted value.

(h) Loss on disposal of O2 Netherlands

The carrying value of O2 Netherlands under US GAAP exceeded the carrying value under UK GAAP, owing to the recognition of capitalised interest costs in relation to fixed assets. Accordingly the loss on disposal in 2004 under US GAAP is L6 million higher than under UK GAAP.

(i) Asset retirement obligations

SFAS No. 143, "Accounting for Asset Retirement Obligations" requires the Group to record the fair value of a liability for an asset retirement obligation (ARO) in the period in which it is incurred and capitalise the amount as part of the book value of the long-lived asset. Over time the liability is accreted to its present value and the capitalised cost is depreciated over the useful life of the related asset. For US GAAP purposes the Group adopted this new pronouncement with effect from 1 April 2003.

The Group has certain legal obligations related to network infrastructure, principally mast sites, which fall within the scope of SFAS No. 143. These legal obligations may include obligations to restore the leased site to its original condition at the termination of the lease. Under UK GAAP the Group follows the requirements of FRS 12 "Provisions, contingent liabilities and contingent assets" and a provision is made for the present value of the cost of restoration of mast sites at the date of acquisition. Under US GAAP an expected cash flow approach to the measurement of the fair value of the ARO is used, which considers the costs a third party would incur in performing the tasks necessary for it to retire the asset. The different methods used in calculating the ARO under US GAAP and UK GAAP result in an additional charge of L4 million for the year ended 31 March 2005 (2004: L8 million, including an accumulative adjustment of L4 million which represents the adjustment required for 2003 and prior periods).

(j) Deferred tax on US GAAP adjustments

As at 31 March 2005, the adjustment of L426 million (2004: L334 million) reconciling shareholders' funds under UK GAAP to those under US GAAP principally relates to the tax effect of US GAAP adjustments. This comprises an adjustment to increase non-current assets by L633 million (2004: L822 million) and increase long-term liabilities by L1,059 million (2004: L1,156 million).

(k) Pension liability

Under UK GAAP all pension schemes are accounted for in accordance with the provisions of Statement of Standard Accounting Practice (SSAP) 24 "Accounting for pension costs". The expected costs of providing pensions, as calculated periodically by professionally qualified independent actuaries, are charged to the profit and loss account so as to spread the cost over the service lives of employees in the schemes.

Edgar Filing: TELEFONICA S A - Form 6-K

Under US GAAP, the pension cost for the period is calculated at the start of the financial period using a different valuation to that used under UK GAAP. This gives a current service cost, an interest charge (being the unwinding of the discount rate on the fund's liabilities for the year) and an expected return on assets for the year, which are all charged or credited to the profit and loss account. The cumulative amounts arising from changes in the assumptions used for the actuarial valuation at the commencement of the year and those at the end of the year, any differences between the actual return and the expected return on the plan's assets and any experience gains or losses, are amortised through the profit and loss account over the average remaining service lives of the employees.

A minimum liability of L2 million (2004: L2 million), based on accrued obligations, has been recognised in other comprehensive income under US GAAP whereas under UK GAAP this balance is not recognised.

(l) Foreign exchange

The Group carries a significant portion of its net assets in Euros. The foreign exchange adjustment reflects the retranslation of US GAAP adjustments which are Euro denominated and have been recognised in other comprehensive income under US GAAP.

(m) Earnings per share

The Group's potentially dilutive share options were anti-dilutive for the year ended 31 March 2005 as the Group was loss making under US GAAP. In accordance with US GAAP, anti-dilutive options are not included in the calculation of weighted average shares used in computing the diluted loss per share. In the year ended 31 March 2004 dilutive shares have been included but the impact of including them in the calculation is not material and therefore basic and diluted earnings per share is the same.

(n) Dividends payable

Under UK GAAP, cash dividends proposed after the year end are treated as an adjusting event where they relate to the previous financial period. Under US GAAP, cash dividends proposed after the end of a financial period are not reflected in that year's financial statements. The dividend proposed for the 31 March 2005 financial year end was proposed after 31 March 2005 and has therefore been reversed for US GAAP purposes.

CAPITAL REORGANISATION

On 14 March 2005 O2 plc was introduced as the new holding company of the mm02 plc Group pursuant to a Scheme of Arrangement (the Scheme) under section 425 of the Companies Act 1985, whereby O2 plc issued shares in return for the existing shares in mm02 plc. Details of the Scheme are provided in note 19.

Under UK GAAP the insertion of a new holding company constitutes a group reconstruction as defined by Financial Reporting Standard (FRS) 6 "Acquisition and mergers" and has been accounted for using merger accounting principles. Under US GAAP merger accounting is not permitted. The different method of accounting for the capital reorganisation under US GAAP results in different classifications of amounts within equity compared with UK GAAP, although total equity remains unchanged.

Edgar Filing: TELEFONICA S A - Form 6-K

SUBSEQUENT EVENTS

On 31 October 2005, the Boards of Telefonica, S.A. ("Telefonica") and O2 jointly announced that they had agreed the terms of a recommended cash offer to be made on behalf of Telefonica for the entire issued and to be issued share capital of O2 (the "Telefonica Offer"). Shareholders were offered L2 or a Loan Note Alternative for every one O2 Share which they held in the Company. The Telefonica Offer was declared wholly unconditional on 23 January 2006 at which time Telefonica became the Company's ultimate holding company. As a consequence of the acquisition, in the period ended 31 January 2006, the Group has recognised exceptional costs totally L187 million which comprised additional depreciation and amortisation related to a review of the useful lives of certain of its tangible fixed assets and provisions against certain irrecoverable debts, and incurred costs as a consequence of the transaction of L 133 million.

GROUP CASH FLOW STATEMENTS

Under UK GAAP, the Group cash flow statement is presented in accordance with FRS 1 (Revised) "Cash flow statements". The statements prepared under FRS 1 (Revised) present substantially the same information as that required under SFAS No. 95 "Statement of Cash Flows". The main presentational differences are described below.

The US GAAP cash flow statement reports changes in cash and cash equivalents, which includes short-term highly liquid investments with original maturities of three months or less. Under UK GAAP the cash balance includes only cash at bank and other cash balances. Under US reporting three categories of cash flows are reported: operating activities (including tax and interest), investing activities (including capital expenditure and disposals) and financing activities. Under FRS 1 (Revised), there are four additional categories. Cash flows are presented for operating activities, returns on investments and servicing of finance, taxation, capital expenditure and financial investments, acquisitions and disposals, dividends paid and management of liquid resources and financing. Cash flows under FRS 1 (Revised) in respect of interest received, interest paid and taxation would be included within operating activities under SFAS No. 95.

The following statements summarise the combined cash flow statements as if they had been presented in accordance with US GAAP, and include the adjustments that reconcile cash and cash equivalents under US GAAP to cash at bank and in hand reported under UK GAAP.

	2005	2004
	Lm	Lm
	-----	-----
Net cash provided by operating activities	1,697	1,316
Net cash used in investing activities	(1,350)	(1,120)
Net cash used by financing activities	(27)	(50)
	-----	-----
NET INCREASE IN CASH AND CASH EQUIVALENTS	320	146
Exchange movement on cash and cash equivalents	8	16
Cash and cash equivalents under US GAAP at the beginning of the year	723	561
	-----	-----
CASH AND CASH EQUIVALENTS UNDER US GAAP AT THE END OF THE YEAR	1,051	723
Short-term investments	(1,010)	(700)

CASH AT BANK AND IN HAND UNDER UK GAAP AT THE END OF THE YEAR	----- 41	----- 23
	=====	=====

ADDITIONAL US GAAP DISCLOSURES

INVESTMENTS

Under UK GAAP, the Group accounts for joint venture and associate investments using the equity method of accounting. The profit and loss account includes the Group's share of the operating profit or loss, interest income or expense and

A-61

attributable taxation of those companies. The balance sheet shows the Group's share of the assets and liabilities of those companies and attributed goodwill. Under US GAAP, these investments would be accounted for using the net equity method. The profit and loss account would include on one line an item with the Group's share of the loss of L3 million (2004: nil). There is no difference in the balance sheet classifications under US GAAP.

EXCEPTIONAL ITEMS

Under UK GAAP exceptional costs totalling L45 million have been recognised (2004: L75 million). Under US GAAP these would not be considered exceptional items and would be classified within net operating expenses.

USE OF ESTIMATES IN PREPARATION OF FINANCIAL STATEMENTS

The preparation of financial statements in conformity with accounting principles generally accepted in the United Kingdom and the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities to the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

RECENT US GAAP ACCOUNTING PRONOUNCEMENTS

STATEMENTS OF FINANCIAL ACCOUNTING STANDARDS NO. 123 (REVISED 2004): SHARE-BASED PAYMENT

In December 2004, the FASB issued SFAS No. 123 (revised 2004), Shared Based Payments (SFAS 123R). This statement eliminates the option to apply the intrinsic value measurement provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees" to stock compensation awards issued to employees. Rather, SFAS 123R requires companies to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. That cost will be recognised over the period during which an employee is required to provide services in exchange for the award - the requisite service period (usually the vesting period). SFAS 123R applies to all awards granted after the required effective date, December 15, 2005, and to awards modified, repurchased, or cancelled after that date. SFAS 123R will be effective as of the beginning of the first interim or annual reporting period that begins after June 15, 2005 and therefore we will apply this standard for US GAAP purposes in our the fiscal year beginning January 1, 2006. The Company does not anticipate that adoption of this Standard will have a material effect on its financial position, results of operations, or cash flows.

Edgar Filing: TELEFONICA S A - Form 6-K

SAB NO. 107: SHARED BASED PAYMENT

On March 29, 2005, the SEC released a Staff Accounting Bulletin (SAB) relating to the FASB accounting standard for stock options and other share-based payments. The interpretations in SAB No. 107, "Share-Based Payment," (SAB 107) express views of the SEC Staff regarding the application of SFAS No. 123 (revised 2004), "Share-Based Payment" (Statement 123R). Among other things, SAB 107 provides interpretive guidance related to the interaction between Statement 123R and certain SEC rules and regulations, as well as provides the Staff's views regarding the valuation of share-based payment arrangements for public companies. The Company does not anticipate that adoption of SAB 107 will have any effect on its financial position, results of operations or cash flows.

A-62

STATEMENTS OF FINANCIAL ACCOUNTING STANDARDS NO. 151: INVENTORY COSTS - AN AMENDMENT OF ARB NO. 43, CHAPTER 4

On November 24, 2004, the FASB issued SFAS No. 151, "Inventory Cost, a revision of ARB No. 43, Chapter 4". The amendments to SFAS No. 151 aim to improve financial information, stating that the expenses of inactive facilities, transportation costs, manipulation costs and scrap material costs should be recorded in the statement of operation as expenses of the period. The application of fixed cost to inventories should be based on the normal capacity of the production facilities. SFAS No. 151 will be applicable to valuation of Inventories for inventory costs incurred during fiscal years beginning after June 15, 2005. Earlier application is permitted for inventory costs incurred during fiscal years beginning after the date this Statement is issued. The Company does not anticipate that the adoption of SFAS No. 151 will have a material impact on its financial position, cash flows or results of operations.

STATEMENTS OF FINANCIAL ACCOUNTING STANDARDS NO. 153: EXCHANGES OF NON-MONETARY ASSETS - AN AMENDMENT OF APB OPINION NO. 29

On December 16, 2004, the FASB issued SFAS NO.153, "Exchanges of Non-monetary Assets - an amendment of APB Opinion No. 29", which amends Accounting Principles Board Opinion No. 29 "Accounting for non-monetary Transactions". This amendment is based on the idea that exchange transactions should be valued in accordance with the value of the exchanged assets. The exception made for similar non-monetary productive assets is eliminated and substituted by a more extensive exception related to non-monetary assets with a non-commercial consideration. APB No. 29 stated that the exchange transaction of a productive asset for a similar one should be recorded at the book value of the exchanged asset.

SAS No. 153 will be applicable for non-monetary asset exchange transactions occurring in fiscal periods beginning after June 15, 2005. The Company does not anticipate that the adoption of SFAS No. 153 will have a material impact on its financial position, cash flows or results of operations.

STATEMENTS OF FINANCIAL ACCOUNTING STANDARDS NO. 154: ACCOUNTING CHANGES AND ERROR CORRECTIONS - A REPLACEMENT OF APB OPINION NO. 20 AND FASB STATEMENT NO. 3

On May, 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections - a replacement of APB Opinion No. 20 and FASB Statement No. 3". This Statement requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change.

Edgar Filing: TELEFONICA S A - Form 6-K

SFAS No. 154 shall be effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. Early adoption is permitted for accounting changes and corrections of errors made in fiscal years beginning after the date the Statement is issued. The Company does not anticipate that the adoption of SFAS No. 154 will have a material impact on its financial position, cash flows or results of operations.

STATEMENT OF FINANCIAL ACCOUNTING STANDARDS NO. 155 ACCOUNTING FOR CERTAIN HYBRID FINANCIAL INSTRUMENTS AN AMENDMENT OF FASB STATEMENTS NO. 133 AND 140

On February 2006 the FASB issued this Statement that amends FASB Statements No. 133, Accounting for Derivative Instruments and Hedging Activities, and No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. This Statement resolves issues addressed in Statement 133 Implementation Issue No. D1, "Application of Statement 133 to Beneficial Interests in Securitized Financial Assets."

This Statement permits fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation, clarifies which interest-only strips and principal-only strips are not subject to the requirements of Statement 133, establishes a requirement to evaluate interests in securitised financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation, clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives and amends Statement 140 to eliminate the prohibition on a qualifying special purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. This Statement is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins

A-63

after September 15, 2006. Earlier adoption is permitted as of the beginning of an entity's fiscal year, provided the entity has not yet issued financial statements, including financial statements for any interim period for that fiscal year. The Company does not anticipate that the adoption of this new statement at the required effective date will have a significant effect in its results of operations, financial position or cash flows.

STATEMENT OF FINANCIAL ACCOUNTING STANDARDS NO. 156 ACCOUNTING FOR SERVICING OF FINANCIAL ASSETS AN AMENDMENT OF FASB STATEMENT NO. 140

On March 2006 the FASB issued this Statement that amends FASB Statements No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, with respect to the accounting for separately recognised servicing assets and servicing liabilities. The new Statement should be adopted as of the beginning of the first fiscal year that begins after September 15, 2006. The Company does not anticipate that the adoption of this new statement at the required effective date will have a significant effect in its results of operations, financial position or cash flows.

THE MEANING OF OTHER-THAN-TEMPORARY IMPAIRMENT AND ITS APPLICATION TO CERTAIN INVESTMENTS

On November 2, 2005, the FASB issued Financial Staff Position ("FSP") FAS 115-1 and FAS 124-1, "The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments," which nullifies certain requirements of Emerging Issues Task Force ("EITF") Issue No. 03-1, "The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments" and supersedes EITF Abstracts Topic No. D-44, "Recognition of Other-Than-Temporary

Edgar Filing: TELEFONICA S A - Form 6-K

Impairment Upon the Planned Sale of a Security whose Cost Exceeds Fair Value." The guidance in this FSP will be applied to reporting periods beginning after December 15, 2005. The Company does not expect that the adoption of this guidance will have a material effect on its financial position, results of operations or cash flows.

DETERMINING THE AMORTIZATION PERIOD FOR LEASEHOLD IMPROVEMENTS PURCHASED AFTER LEASE INCEPTION OR ACQUIRED IN A BUSINESS COMBINATION

At the June 15 and 16 EITF meeting, and further modified at the September 15, 2005 meeting, the EITF discussed Issue 05-6, "Determining the Amortization Period for Leasehold Improvements Purchased after Lease Inception or Acquired in a Business Combination," ("EITF 05-6"), and concluded on the appropriate amortisation periods for leasehold improvements either acquired in a business combination or which were not pre-existing and were placed in service significantly after, and not contemplated at, the beginning of the lease term. This Issue is effective for leasehold improvements (that are within the scope of this Issue) that are purchased or acquired in reporting periods beginning after June 29, 2005. The Company does not anticipate that the adoption of EITF 05-6 will have a material effect on its financial position, results of operations or cash flows.

1. BASIS OF PREPARATION

INTERIM STATEMENT

These financial statements are the unaudited interim financial statements (the "interim statement") of the O2 plc Group ("the Group") and do not constitute statutory financial statements within the meaning of Section 240 of the Companies Act 1985. The interim statement for the six months ended 30 September 2005 was approved by the Directors on 13 November 2005.

The Group is required, under European Union Regulation No. 1606/2002, to adopt International Financial Reporting Standards ("IFRS") as its primary basis of accounting for periods commencing on or after 1 January 2005 in place of UK Generally Accepted Accounting Principles ("UK GAAP"). O2 plc and its subsidiaries have changed their accounting reference date from 31 March to 31 January and accordingly the Group's first set of IFRS financial statements will be for the ten month period ended 31 January 2006. Up to and including 31 March 2005, the Group has prepared and presented its financial statements in accordance with UK GAAP.

Edgar Filing: TELEFONICA S A - Form 6-K

Accordingly, this interim statement has been prepared on the basis of and in accordance with the accounting policies described below. The Group will adopt "IFRS as adopted by the European Commission for use in the European Union" ("EU GAAP") for the first time in its financial statements for the ten month period ended 31 January 2006, which will include comparative financial statements for the year ended 31 March 2005. IFRS 1 "First-time Adoption of International Financial Reporting Standards" requires that an entity develop accounting policies based on the standards and related interpretations effective at the reporting date of its first annual IFRS financial statements. IFRS 1 also requires that those policies be applied as of the date of transition to IFRS and throughout all periods presented in the first IFRS financial statements.

The comparative figures included in this interim statement in respect of the six months ended 30 September 2004 have been restated to reflect the adoption of IFRS.

The interim statement has been prepared in accordance with those IFRS Standards and IFRIC Interpretations issued and effective at the time of preparing this interim statement and has been prepared in accordance with IAS 34 "Interim Financial Reporting" and the accounting policies described below. The amendment to IAS 19 "Employee Benefits - Actuarial Gains and Losses, Group Plans and Disclosures", which the Group has elected to apply, has now been endorsed by the EU. In addition, the EU has adopted an amended version of IAS 39 "Financial Instruments: Recognition and Measurement" which excludes certain requirements arising on the fair value option for financial liabilities and certain aspects of hedge accounting. The sections excluded from the EU endorsed version of IAS 39 are not relevant to the Group.

CAPITAL REORGANISATION

O2 plc was incorporated on 10 December 2004 as part of the Group's capital reorganisation undertaken during the year ended 31 March 2005. The purpose of the capital reorganisation was to create distributable reserves in O2 plc to allow the implementation of the Group's distribution policy. On 14 March 2005 O2 plc was introduced as the new holding company of the O2 Group pursuant to a Scheme of Arrangement (the Scheme) under section 425 of the Companies Act 1985, whereby O2 plc issued shares in return for the existing shares in mmO2 plc. Subsequently, O2 plc effected a reduction in its share capital to create distributable reserves. Subsequently, O2 plc also de-listed from the NYSE and deregistered from the SEC.

PRESENTATION OF INTERIM STATEMENT

Items of income or expense which require separate disclosure, owing to their size or incidence, are disclosed as "exceptional items" on the face of the income statement, as the Group believes such presentation is relevant to an understanding of financial performance.

The Group defines "net debt" as its cash and cash equivalents and other financial assets and current and non-current borrowings together with the fair value of related derivatives, excluding liabilities relating to accrued interest on borrowings.

ACCOUNTING POLICIES

IFRS 1 TRANSITION EXEMPTIONS

IFRS 1 "First time adoption of International Financial Reporting Standards" prescribes how the Group should apply IFRS for the first time in preparing its consolidated financial statements. In general, the accounting policies expected to be adopted by the Group at 31 January 2006 should be applied retrospectively in preparing the transition balance sheet at 1 April 2004 and in all subsequent

Edgar Filing: TELEFONICA S A - Form 6-K

periods.

IFRS 1 contains certain exemptions from the requirement to fully adopt IFRS in the opening balance sheet. The Group has applied the relevant exemptions as follows:

B-5

IFRS 3 - BUSINESS COMBINATIONS

The Group has elected not to apply IFRS 3 retrospectively to business combinations occurring prior to the transition to IFRS on 1 April 2004. Accordingly the carrying value of the Group's goodwill under IFRS is L3,189 million, being the UK GAAP carrying value at 1 April 2004.

IAS 16 - FAIR VALUE OR REVALUATION AS DEEMED COST

The Group has elected to continue to recognise all property, plant and equipment ("PPE") at its historic UK GAAP carrying value and not to measure any item of PPE at fair value at 1 April 2004.

IAS 19 - EMPLOYEE BENEFITS

The Group has elected to recognise all cumulative actuarial gains and losses as at 1 April 2004 on the consolidated balance sheet.

IAS 21 - CUMULATIVE TRANSLATION DIFFERENCES

The Group will retain all existing translation differences arising on its foreign operations in reserves rather than utilise the exemption to set these translation differences to zero on transition to IFRS.

IAS 32 AND IAS 39 - FINANCIAL INSTRUMENTS

The Group has applied IAS 39 from transition on 1 April 2004 and has not taken advantage of the exemption to apply IAS 39 from 1 April 2005.

IFRS 2 - SHARE-BASED PAYMENT TRANSACTIONS

The Group has elected not to apply IFRS 2 to share-based payments granted prior to 7 November 2002. The Group has not accounted for share-based payments granted prior to that date.

TRANSITION DATE

The Group's transition date, being the beginning of the earliest period for which full comparative information is presented in accordance with IFRS, is 1 April 2004 in accordance with IFRS 1.

SELECTED ACCOUNTING POLICIES

The accounting policies of the Group under IFRS, which differ to those applied under UK GAAP and are applied in the preparation of the consolidated IFRS interim statement, are set out below. The IFRS accounting policies have been applied consistently to all periods presented and in preparing an opening IFRS balance sheet at 1 April 2004 for the purposes of the transition to IFRS.

The consolidated IFRS interim statement has been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative instruments) at fair value through

Edgar Filing: TELEFONICA S A - Form 6-K

the income statement.

GOODWILL

Goodwill, arising from the purchase of subsidiary undertakings, represents the excess of the cost of acquisition over the fair value of the Group's share of the net identifiable assets and liabilities acquired at the date of acquisition. Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

B-6

IMPAIRMENT OF ASSETS

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units).

OTHER INTANGIBLE ASSETS

Software

Non-current assets which incorporate both tangible and intangible elements are assessed to determine whether they should be classed as an intangible fixed asset or as property, plant and equipment. The treatment is determined by an assessment of which element is more significant.

EMPLOYEE BENEFITS

Pension obligations

The Group operates both defined benefit and defined contribution plans. A defined benefit plan is a pension plan that sets the amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation. A defined contribution plan is a pension plan under which the Group pays fixed contributions on behalf of employees and under which there is no legal or constructive obligation to pay further contributions for employees' service in the current and prior periods.

The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability.

In accordance with IAS 19 "Employee benefits", on transition to IFRS the Group has elected to recognise the full assets and liabilities of its defined benefit

Edgar Filing: TELEFONICA S A - Form 6-K

pension schemes on the consolidated balance sheet. Thereafter, the Group has elected to recognise actuarial gains and losses in full in the statement of recognised income and expense in the period in which they arise.

For defined contribution plans, the Group pays contributions to publicly or privately administered pension insurance plans on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Share-based payments

The Group has accounted for share awards and share options granted since 7 November 2002 using fair values. The fair values have been calculated using a Black-Scholes valuation adjusted for the expected effect of performance conditions.

The Group recognises an expense for share based payments based on the fair value of the service rendered by the employee in return for the share awards or share options. The fair value is calculated at the grant date and excludes the impact of non-market conditions. Instead, the expense is adjusted for the effect of non-market conditions at each reporting date through the number of share awards or share options expected to be exercisable. The effect of market conditions is included in the fair value at the date of grant and is recognised as an expense irrespective of whether the market condition is satisfied.

B-7

DEFERRED TAXATION

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, if the deferred income tax arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit nor loss, it is not accounted for. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.

Edgar Filing: TELEFONICA S A - Form 6-K

ACCOUNTING FOR DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

Derivatives are initially recognised at fair value on the date the derivative contract is entered into and are subsequently re-measured at their fair value at each reporting date. The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The Group designates certain derivatives as either:

- (1) hedges of the fair value of recognised assets or liabilities (fair value hedge);
- (2) hedges of highly probable forecast transactions (cash flow hedges); or
- (3) hedges of net investments in foreign operations.

The Group documents at the inception of the transaction the relationship between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions. The Group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items.

ACCOUNTING FOR DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

Fair value hedges

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the income statement, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges are recognised in equity. The gain or loss relating to the ineffective portion is recognised immediately in the income statement.

Amounts accumulated in equity are recycled in the income statement in the periods when the hedged item will affect profit or loss. When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in the income statement. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in equity is immediately transferred to the income statement.

Hedges of net investments in foreign operations

Any gain or loss on the hedging instrument, which is used to hedge a net investment in a foreign operation, relating to the effective portion of the hedge is recognised in equity; the gain or loss relating to the ineffective portion is recognised immediately in the income statement. The ineffective portion relates to the forward points (comprising the interest rate differential between the currencies) excluded from the effectiveness testing which is completed on a spot to spot basis.

Edgar Filing: TELEFONICA S A - Form 6-K

Gains and losses accumulated in equity are included in the income statement when the foreign operation is disposed of.

Derivatives which are not designated as hedges

Derivative financial instrument which are used as economic hedges of foreign exchange exposures on recognised monetary assets or liabilities are not designated as hedges. In these circumstances, hedge accounting is not applied and gains or losses arising on the hedging instruments are recognised in the income statement and offset the movement in value of the monetary asset or liability.

2. SEGMENTAL ANALYSIS

The Group operates two business segments:

1. the supply of mobile telecommunications services and products; and
2. other businesses, comprising O2 Airwave, a terrestrial trunked radio business, and Manx Telecom, the fixed and mobile telecommunications business in the Isle of Man.

The Group's business segments are managed on a country-by-country basis. Mobile telecommunication services and products are provided by the Group's subsidiaries in the UK, Germany and Ireland. The other businesses operate in the UK and the Isle of Man.

DEFINITIONS

Revenue is recorded according to the country in which the customer is located. Segment results include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly interest bearing loans, borrowings, corporate assets and expenses. Inter-segment pricing is determined on an arm's length basis.

The final dividend for the year ended 31 March 2005 of 2.25 pence per share was paid on 26 August 2005 to shareholders on the register at the close of business on 5 August 2005.

The interim dividend for the ten months ended 31 January 2006 of 1.54 pence per share has not been recognised in the interim statement, and was paid on 2 December 2005 to shareholders on the register at the close of business on 11 November 2005.

B-10

6. EARNINGS PER SHARE

Edgar Filing: TELEFONICA S A - Form 6-K

Earnings per share has been calculated for all periods by dividing the profit for the period by the weighted average number of ordinary shares in issue during that period, as follows:

	SIX MONTHS ENDED 30 SEPTEMBER 2005	SIX MONTHS ENDED 30 SEPTEMBER 2004
	-----	-----
Profit for the period attributable to equity shareholders (Lm)	350	336
	=====	=====
Basic weighted average share capital (number of shares, million)	8,723	8,672
Dilutive potential ordinary shares (number of shares, million)	104	83
	-----	-----
Diluted weighted average share capital (number of shares, million)	8,827	8,755
	=====	=====
BASIC EARNINGS PER SHARE (PENCE)	4.0	3.9
	=====	=====
DILUTED EARNINGS PER SHARE (PENCE)	4.0	3.8
	=====	=====

In accordance with the basis of preparation described in note 1, earnings per share have been calculated as if O2 plc had in issue the share capital of mm02 plc prior to 14 March 2005.

DESCRIPTION OF DIFFERENCES BETWEEN IFRS AND US GAAP

B-12

The main differences between IFRS and US GAAP which are relevant to the Group's interim financial statements are described below.

(A) CAPITALISATION OF INTEREST

Under IFRS, the Group does not capitalise interest in its financial statements. To comply with US GAAP, the estimated amount of incremental interest incurred whilst constructing major capital projects is included in fixed assets and depreciated over the lives of the related assets. This includes capitalisation of interest incurred on funding UMTS licences for the period up to the market launch of the related services. Under US GAAP, at 30 September 2005 gross capitalised interest of L1,386 million (2004: L1,354 million) was subject to depreciation over periods of five to 20 years. For the six months ended 30 September 2005, L1 million of interest was capitalised and depreciation totalling L81 million was charged. For the six months ended 30 September 2004,

Edgar Filing: TELEFONICA S A - Form 6-K

L30 million of interest was capitalised and depreciation totalling L79 million was charged.

(B) GOODWILL AND OTHER INTANGIBLE AND TANGIBLE ASSETS

Prior to the adoption of IFRS, goodwill arising on acquisitions before 1998 accounted for under the purchase method was eliminated against equity. Goodwill arising on acquisitions between 1998 and 31 March 2004 was capitalised and amortised over its useful life. Under IFRS, from 1 April 2004, goodwill arising on acquisitions is not amortised and instead is allocated to cash generating units and assessed for impairment at least annually. The goodwill is reflected in net income in the period of disposal of the business to which it relates, as part of the calculation of the gain or loss on divestment, to the extent it has not already been recognised in the income statement.

Under US GAAP, such goodwill has always been held as an intangible asset in the balance sheet and until 31 March 2002 was amortised over its useful life with only the unamortised portion being included in any gain or loss on divestment. From 1 April 2002, in accordance with Statement of Financial Accounting Standard (SFAS) No. 142 "Goodwill and Other Intangible Assets", such intangible fixed assets are no longer amortised on an annual basis and are reviewed for impairment annually, or sooner should a triggering event occur.

Those intangible and tangible fixed assets with definite useful lives continue to be amortised over their useful life, with impairment reviews being carried out when triggering events occur. Such definite lived intangible assets are tested for impairment in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". In considering whether a triggering event has occurred under SFAS No. 142 and SFAS No. 144, the Group looks for the existence of facts and circumstances, either internal or external, which indicate that the carrying value of the asset may not be recovered.

Certain intangible fixed assets recognised under the US GAAP purchase accounting rules are subsumed within goodwill under IFRS. Under US GAAP, these separately identified intangible assets are valued and amortised over their useful lives. These include customer bases and internally developed software.

Under US GAAP the carrying value of UMTS licences in O2 Germany and O2 UK is significantly higher than under IFRS (and the predecessor accounting rules under UK GAAP) owing to the impairment of these assets recognised in the year ended 31 March 2003 under UK GAAP being significantly lower under US GAAP. The amortisation of O2 Germany's UMTS licence commenced during the period ended 30 September 2004 and O2 UK commenced during the second half of the year ended 31 March 2005. Accordingly the amortisation charge for UMTS licences for the six months ended 30 September 2004 and 2005 is higher under US GAAP.

SIX MONTHS ENDED 30 SEPTEMBER 2005 AND 30 SEPTEMBER 2004

In the years ended 31 March 2005 and 2004, the Group has not identified any triggering events which would indicate that an impairment review should be undertaken in respect of definite-lived tangible and intangible fixed assets. In accordance with SFAS No. 142 the Group's indefinite-lived goodwill was tested for impairment at 31 March 2005 and 2004. These impairment reviews indicated that no impairment of goodwill had arisen. Additional consideration has been given to whether any additional factors have arisen during the periods ended 30 September 2005 and 30 September 2004 which may change this conclusion and none have been identified.

Edgar Filing: TELEFONICA S A - Form 6-K

The changes in the carrying amount of goodwill for the segments and in total for the periods ended 30 September 2005 and 30 September 2004 are as follows:

	MOBILE TELECOMMUNICATIONS			
	UK	Germany	Ireland	TOTAL
	----- Lm	----- Lm	----- Lm	----- Lm
At 1 April 2004	2,411	707	531	3,649
Foreign exchange and other movements	--	20	15	35
	-----	---	---	-----
AT 30 SEPTEMBER 2004	2,411	727	546	3,684
	=====	===	===	=====
At 1 April 2005	2,411	726	546	3,683
Foreign exchange and other movements	--	(4)	(4)	(8)
	-----	---	---	-----
AT 30 SEPTEMBER 2005	2,411	722	542	3,675
	=====	===	===	=====

	AT 30 SEPTEMBER 2005			At 30 September 2004		
	Gross book value	Accumulated amortisation	Net book value	Gross book value	Accumulated amortisation	Net book value
	----- Lm	----- Lm	----- Lm	----- Lm	----- Lm	----- Lm
Licences	10,297	(835)	9,462	10,301	(203)	10,098
Other intangible assets	498	(374)	124	512	(353)	159
	-----	-----	-----	-----	-----	-----
	10,795	(1,209)	9,586	10,813	(555)	10,247
	=====	=====	=====	=====	=====	=====

Under US GAAP the Group recorded impairment charges of L409 million and L1,475 million for the year ended 31 March 2003 to reduce the carrying value of the goodwill that arose on the acquisitions of O2 UK and O2 Ireland respectively. Under UK GAAP the Group recorded an impairment charge of L8,300 million against the intangible assets of O2 UK, O2 Germany and O2 Ireland, of which L2,401 million related to the impairment of goodwill and L5,899 million related to the impairment of long-lived assets. The difference between the impairment charges under UK and US GAAP is a result of the requirement under US GAAP to initially test the carrying value of long-lived assets using undiscounted cash flows and the difference in methodology used in calculating the impairment of goodwill.

(C) EMPLOYEE STOCK COMPENSATION

Under IFRS, the Group has accounted for share awards and share options granted since 7 November 2002 using fair values. The fair values have been calculated using an adjusted Black-Scholes valuation model taking into account the expected effect of performance conditions. The Group recognises an expense for share based payments based on the fair value of the service rendered by the employee in return for the share awards or share options. The fair value is calculated at the grant date and excludes the impact of non-market conditions. Instead, the expense is adjusted for the effect of non-market conditions at each reporting date through the number of share awards or share options expected to be

Edgar Filing: TELEFONICA S A - Form 6-K

exercisable. The effect of market conditions is included in the fair value at the date of grant and is recognised as an expense irrespective of whether the market condition is satisfied.

Under US GAAP, the Group accounts for share options and share awards in accordance with the requirements of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees". APB No. 25 requires the use of an intrinsic value method which differs to the IFRS accounting treatment based on whether the options and share awards are considered fixed or variable. Under APB No. 25 the cost of compensation for fixed awards (being awards under which both the exercise price and the number of shares is fixed) is determined at the date the award becomes fixed, based on the difference between the fair value of the shares under award and the exercise price. The compensation cost is expensed over the vesting period. Until the plan is fixed (including performance conditions are met), it is considered a variable plan and compensation cost is measured as the difference between the market price at the period end and the exercise price based on the number of awards expected to vest.

SAYE schemes under IFRS are accounted for using fair values determined at the grant date. Under US GAAP, a plan is considered compensatory when the discount to market price is in excess of 15 per cent. Compensation cost is recognised for the difference between the exercise price of the share options granted and the quoted market price of the shares at the measurement date and is recognised over the vesting period of the options. The Group has applied the guidance in FASB Emerging Issues Task Force ("EITF") 00-23 such that an offer to enter into a new Sharesave Plan at a lower price than a previous award requires variable accounting to commence for all existing higher priced awards when the offer is made. Variable accounting continues until the awards are exercised, are forfeited or expire unexercised.

Additionally, under US GAAP, provision for employee payroll taxes on employee stock compensation is recognised on the exercise date. Under IFRS, provision is made for payroll taxes on shares that are expected to be exercised and spread over the service period.

(D) OTHER EMPLOYEE COMPENSATION EXPENSE

B-14

Under IFRS, certain amounts paid to former owners of purchased companies who are also employees are included as part of the acquisition cost of these companies. Under US GAAP, where payment of those amounts is based on achievement of certain performance goals, they qualify as employee compensation expense and are recognised in the financial statements when the performance goals are met.

(E) RESTRUCTURING COSTS

Under US GAAP, site closure costs can only be recognised for the period after cessation of operations at that site. Employee termination benefits paid to employees that are required to render service beyond their minimum retention period are spread over their remaining service period. Employee termination benefits can also only be recognised if the terms of the benefit arrangement are known in sufficient detail to enable employees to determine the type and amounts of benefits that they will receive. Under IFRS the provision may be recognised at the time of managements' commitment, communication and reasonable estimate of the associated cost. Accordingly, adjustments have been made to eliminate the IFRS provisions for restructuring that do not meet the US GAAP criteria.

At 31 March 2005 and 31 March 2004 the Group recognised reorganisation and

Edgar Filing: TELEFONICA S A - Form 6-K

restructuring charges related to employee termination benefits and real estate closures.

For the year ended 31 March 2005, this related to the redeployment of resources within O2 UK into customer facing areas and away from non-customer facing areas. The charge comprised redundancy and property costs. At 30 September 2005, the remaining difference between the IFRS and US GAAP charges was L24 million.

For the year ended 31 March 2004 the restructuring involved the transfer of O2 Online, Products O2 and certain other central functions to the operating businesses in the UK, Germany and Ireland, and included provisions relating to redundancies and the termination of property leases. At 30 September 2004, the remaining difference between the IFRS and US GAAP charges was L17 million.

(F) DERIVATIVE FINANCIAL INSTRUMENTS

Under IFRS certain derivative financial instruments qualify for hedge accounting, but do not qualify for hedge accounting under US GAAP. As a result, the movement in the fair value of these instruments is recognised in the profit and loss account.

(G) ASSET RETIREMENT OBLIGATIONS

SFAS No. 143, "Accounting for Asset Retirement Obligations" requires the Group to record the fair value of a liability for an asset retirement obligation ("ARO") in the period in which it is incurred and capitalise the amount as part of the book value of the long-lived asset. Over time the liability is accreted to its present value and the capitalised cost is depreciated over the useful life of the related asset.

The Group has certain legal obligations related to network infrastructure, principally mast sites, which fall within the scope of SFAS No. 143. These legal obligations may include obligations to restore the leased site to its original condition at the termination of the lease. Under IFRS the Group follows the requirements of IAS 37 "Provisions, contingent liabilities and contingent assets" and a provision is made for the present value of the cost of restoration of mast sites at the date of acquisition of the site. Under US GAAP an expected cash flow approach to the measurement of the fair value of the ARO is used, which considers the costs a third party would incur in performing the tasks necessary for it to retire the asset. The different methods used in calculating the ARO under US GAAP and IFRS result in an additional charge of L4 million for the six months ended 30 September 2005 (2004: L1 million).

(H) PENSION LIABILITY

Under IFRS, pension assets, defined benefit pension liabilities and pension expense are determined using the projected unit credit method in a similar manner to US GAAP. However, under IFRS all actuarial gains and losses which arise in calculating the present value of the defined benefit obligation and the fair value of plan assets are recognised immediately in the statement of recognised income and expense.

Under US GAAP, unrecognised actuarial gains and losses in excess of a corridor are recognised in the income statement over the average remaining service life of the employees. The corridor is the greater of 10% of scheme assets and scheme projected benefits obligation. Also, under US GAAP an additional minimum liability is recorded when the accumulated benefit obligation exceeds the fair value of the plan assets by an amount greater than the liability recognised in the balance sheet. In addition, there is a transition asset or obligation recognised upon the adoption of FAS 87 'Employers' Accounting for Pensions', which is then released to the income statement over the average remaining service lives of the employees.

Edgar Filing: TELEFONICA S A - Form 6-K

B-15

As the entire defined benefit pension liability is recognised on the balance sheet under IFRS, whereas only a portion is recognised under US GAAP, the liability under IFRS is greater. The pension liability under IFRS at 30 September 2005 is L125 million (2004: L105 million) whereas under US GAAP it is L72 million (2004: L61 million).

The US GAAP pension charge is higher than that under IFRS as under US GAAP the charge must include the amortisation of actuarial gains and losses in excess of the corridor, whereas under IFRS these are recognised in the SORIE as they arise. The US GAAP defined benefit charge for the 6 months ended 30 September 2005 is L3 million higher than IFRS (2004: no difference).

(I) DEFERRED TAX

IFRS and US GAAP both provide for deferred taxation on a full provision basis. However, there are certain different GAAP bases on which this calculation is made such as the recognition of deferred taxation on the share based payment charge using the intrinsic value under US GAAP versus fair value under IFRS.

In addition, IAS 12 "Income taxes" requires a deferred tax liability in respect of rolled over gains to be recognised, irrespective of whether there is an expectation that the gain will crystallise. Accordingly, the Group has recognised a deferred tax liability of L358 million under IFRS relating to a gain arising prior to the Group's demerger from BT. The gain arose on BT's disposal of a non-mobile UK business which was rolled over into the goodwill purchased on the acquisition of O2 Germany. On the subsequent disposal of this goodwill for tax purposes, the deferred tax liability will reverse and be recognised as a credit in the profit and loss account of the Group in the period in which it reverses. A deferred tax liability for the rolled over gain is not required to be recognised under US GAAP for this as FAS 109 prohibits the recognition of a deferred tax liability relating to goodwill for which amortisation is not deductible for tax purposes. IFRS also prohibits the recognition of such a deferred tax liability upon initial recognition of goodwill, however the deferred tax impact of subsequent basis differences in goodwill are required to be recognised.

As at 30 September 2005, the adjustment of L608 million (2004: L393 million) reconciling shareholders' funds under IFRS to those under US GAAP principally relates to the tax effect of US GAAP adjustments.

(J) FOREIGN EXCHANGE

The Group carries a significant portion of its net assets in Euros. The foreign exchange adjustment reflects the retranslation of US GAAP adjustments which are Euro denominated and have been recognised in other comprehensive income under US GAAP.

(K) EARNINGS PER SHARE

In the six months ended 30 September 2004 and 30 September 2005 dilutive shares have been included but the impact of including them in the calculation is not material and therefore basic and diluted earnings per share is the same.

SUBSEQUENT EVENTS

On 31 October 2005, the Boards of Telefonica, S.A. ("Telefonica") and O2 jointly

Edgar Filing: TELEFONICA S A - Form 6-K

announced that they had agreed the terms of a recommended cash offer to be made on behalf of Telefonica for the entire issued and to be issued share capital of O2 (the "Telefonica Offer"). Shareholders were offered L2 or a Loan Note Alternative for every one O2 Share which they held in the Company. The Telefonica Offer was declared wholly unconditional on 23 January 2006 at which time Telefonica became the Company's ultimate holding company. As a consequence of the acquisition, in the ten month period ended 31 January 2006, the Group has recognised exceptional costs totally L187 million which comprised additional depreciation and amortisation related to a review of the useful lives of certain of its tangible fixed assets and provisions against certain irrecoverable debts, and incurred costs as a consequence of the transaction of L133 million.

A full actuarial valuation of the defined benefit sections of the O2 Pension Plan was undertaken at 30 September 2005 by a professionally qualified independent actuary which indicated that as at 30 September 2005 the assets of the O2 PP had a market value of L407 million and were sufficient to cover 83 per cent of the benefits accrued to members at that date on the ongoing funding measure. In December 2005 a one off cash contribution of L81 million was paid into the O2 PP to fund the deficit.

GROUP CASH FLOW STATEMENTS

B-16

The cash flow statement prepared in accordance with IFRS is the same as if it had been prepared under US GAAP.

ADDITIONAL US GAAP DISCLOSURES

USE OF ESTIMATES IN PREPARATION OF FINANCIAL STATEMENTS

The preparation of financial statements in conformity with IFRS and the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities to the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

RECENT US GAAP ACCOUNTING PRONOUNCEMENTS

STATEMENTS OF FINANCIAL ACCOUNTING STANDARDS NO. 123 (REVISED 2004): SHARE-BASED PAYMENT

In December 2004, the FASB issued SFAS No. 123 (revised 2004), Shared Based Payments (SFAS 123R). This statement eliminates the option to apply the intrinsic value measurement provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees" to stock compensation awards issued to employees. Rather, SFAS 123R requires companies to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. That cost will be recognised over the period during which an employee is required to provide services in exchange for the award - the requisite service period (usually the vesting period). SFAS 123R applies to all awards granted after the required effective date, December 15, 2005, and to awards modified, repurchased, or cancelled after that date. SFAS 123R will be effective as of the beginning of the first interim or annual reporting period that begins after June 15, 2005 and therefore we will apply this standard for US GAAP purposes in our the fiscal year beginning February 1, 2006. The Company does not anticipate that adoption of this Standard will have a material effect on its financial position, results of operations, or cash flows.

Edgar Filing: TELEFONICA S A - Form 6-K

SAB NO. 107: SHARED BASED PAYMENT

On March 29, 2005, the SEC released a Staff Accounting Bulletin (SAB) relating to the FASB accounting standard for stock options and other share-based payments. The interpretations in SAB No. 107, "Share-Based Payment," (SAB 107) express views of the SEC Staff regarding the application of SFAS No. 123 (revised 2004), "Share-Based Payment" (Statement 123R). Among other things, SAB 107 provides interpretive guidance related to the interaction between Statement 123R and certain SEC rules and regulations, as well as provides the Staff's views regarding the valuation of share-based payment arrangements for public companies. The Company does not anticipate that adoption of SAB 107 will have any effect on its financial position, results of operations or cash flows.

STATEMENTS OF FINANCIAL ACCOUNTING STANDARDS NO. 151: INVENTORY COSTS - AN AMENDMENT OF ARB NO. 43, CHAPTER 4

On November 24, 2004, the FASB issued SFAS No. 151, "Inventory Cost, a revision of ARB No. 43, Chapter 4". The amendments to SFAS No. 151 aim to improve financial information, stating that the expenses of inactive facilities, transportation costs, manipulation costs and scrap material costs should be recorded in the statement of operation as expenses of the period. The application of fixed cost to inventories should be based on the normal capacity of the production facilities. SFAS No. 151 will be applicable to valuation of Inventories for inventory costs incurred during fiscal years beginning after June 15, 2005. Earlier application is permitted for inventory costs incurred during fiscal years beginning after the date this Statement is issued. The Company does not anticipate that the adoption of SFAS No. 151 will have a material impact on its financial position, cash flows or results of operations.

STATEMENTS OF FINANCIAL ACCOUNTING STANDARDS NO. 153: EXCHANGES OF NON-MONETARY ASSETS - AN AMENDMENT OF APB OPINION NO. 29

On December 16, 2004, the FASB issued SFAS NO.153, "Exchanges of Non-monetary Assets - an amendment of APB Opinion No. 29", which amends Accounting Principles Board Opinion No. 29 "Accounting for Nonmonetary Transactions". This amendment is based on the idea that exchange transactions should be valued in accordance with the value of the exchanged assets. The exception made for similar non-monetary productive assets is eliminated and substituted by a more extensive exception related to non-monetary assets with a non-commercial consideration. APB No. 29 stated that the exchange transaction of a productive asset for a similar one should be recorded at the book value of the exchanged asset. SAS No. 153 will be applicable for non-monetary asset exchange transactions occurring in fiscal periods beginning after June 15, 2005. The Company does not anticipate that the adoption of SFAS No. 153 will have a material impact on its financial position, cash flows or results of operations.

B-17

STATEMENTS OF FINANCIAL ACCOUNTING STANDARDS NO. 154: ACCOUNTING CHANGES AND ERROR CORRECTIONS - A REPLACEMENT OF APB OPINION NO. 20 AND FASB STATEMENT NO. 3

On May, 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections - a replacement of APB Opinion No. 20 and FASB Statement No. 3". This Statement requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change.

Edgar Filing: TELEFONICA S A - Form 6-K

SFAS No. 154 shall be effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. Early adoption is permitted for accounting changes and corrections of errors made in fiscal years beginning after the date the Statement is issued. The Company does not anticipate that the adoption of SFAS No. 154 will have a material impact on its financial position, cash flows or results of operations.

STATEMENT OF FINANCIAL ACCOUNTING STANDARDS NO. 155 ACCOUNTING FOR CERTAIN HYBRID FINANCIAL INSTRUMENTS AN AMENDMENT OF FASB STATEMENTS NO. 133 AND 140

On February 2006 the FASB issued this Statement that amends FASB Statements No. 133, Accounting for Derivative Instruments and Hedging Activities, and No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. This Statement resolves issues addressed in Statement 133 Implementation Issue No. D1, "Application of Statement 133 to Beneficial Interests in Securitized Financial Assets."

This Statement permits fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation, clarifies which interest-only strips and principal-only strips are not subject to the requirements of Statement 133, establishes a requirement to evaluate interests in securitised financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation, clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives and amends Statement 140 to eliminate the prohibition on a qualifying special purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. This Statement is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. Earlier adoption is permitted as of the beginning of an entity's fiscal year, provided the entity has not yet issued financial statements, including financial statements for any interim period for that fiscal year. The Company does not anticipate that the adoption of this new statement at the required effective date will have a significant effect in its results of operations, financial position or cash flows.

STATEMENT OF FINANCIAL ACCOUNTING STANDARDS NO. 156 ACCOUNTING FOR SERVICING OF FINANCIAL ASSETS AN AMENDMENT OF FASB STATEMENT NO. 140

On March 2006 the FASB issued this Statement that amends FASB Statements No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, with respect to the accounting for separately recognized servicing assets and servicing liabilities.

The new Statement should be adopted as of the beginning of the first fiscal year that begins after September 15, 2006. The Company does not anticipate that the adoption of this new statement at the required effective date will have a significant effect in its results of operations, financial position or cash flows.

THE MEANING OF OTHER-THAN-TEMPORARY IMPAIRMENT AND ITS APPLICATION TO CERTAIN INVESTMENTS

On November 2, 2005, the FASB issued Financial Staff Position ("FSP") FAS 115-1 and FAS 124-1, "The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments," which nullifies certain requirements of Emerging Issues Task Force ("EITF") Issue No. 03-1, "The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments" and supersedes EITF Abstracts Topic No. D-44, "Recognition of Other-Than-Temporary Impairment Upon the Planned Sale of a Security whose Cost Exceeds Fair Value."

Edgar Filing: TELEFONICA S A - Form 6-K

The guidance in this FSP will be applied to reporting periods beginning after December 15, 2005. The Company does not expect that the adoption of this guidance will have a material effect on its financial position, results of operations or cash flows.

DETERMINING THE AMORTIZATION PERIOD FOR LEASEHOLD IMPROVEMENTS PURCHASED AFTER LEASE INCEPTION OR ACQUIRED IN A BUSINESS COMBINATION

At the June 15 and 16 EITF meeting, and further modified at the September 15, 2005 meeting, the EITF discussed Issue 05-6, "Determining the Amortization Period for Leasehold Improvements Purchased after Lease Inception or Acquired in a Business Combination," ("EITF 05-6"), and concluded on the appropriate amortization periods for leasehold improvements either acquired in a business combination or which were not preexisting and were placed in service significantly after, and not contemplated at, the beginning of the lease term. This Issue is effective for leasehold improvements (that are within the scope of this Issue) that are purchased or acquired in reporting periods beginning after June 29, 2005. The Company does not anticipate that the adoption of EITF 05-6 will have a material effect on its financial position, results of operations or cash flows.

Non-recognition of dividends	7	196	-	
Deferred tax liability	8	(358)	(358)	
Other employee benefits	9	(2)	(2)	
		-----	-----	
Restated under IFRS		10,195 =====	10,046 =====	

The major areas of difference between UK GAAP and IFRS which impact the Group's financial information comprise the following:

ADJUSTMENT 1 - REVENUE RECOGNITION

O2 UK receives income and incurs a related expense on calls which are "ported" to another mobile operator. Porting arises when an O2 customer leaves O2 and joins another operator and takes ("ports") their existing mobile number to the new network. All calls received by that customer are still routed via the O2 network to the network of the new operator. For all incoming calls to the O2 network, O2 receives a termination fee per minute and is required to pass that termination fee to the new operator. The receiving operator pays O2 a small commission for conveying the call.

Under UK GAAP the Group recognised the termination fees on a gross basis and thus included these amounts in both revenue and cost of sales. The Group has reconsidered this policy under IAS 18, which states that in an agency relationship the gross inflows of economic benefits include amounts collected on behalf of the principal and which do not result in increases in equity for the entity. The amounts collected on behalf of the principal are therefore not revenue. Instead, revenue is the amount of commission. Accordingly under IFRS, the Group will recognise the termination payments on a net basis.

B-19

The impact of this adjustment on the income statement of the Group and O2 UK is as follows:

	YEAR ENDED 31 MARCH 2005 Lm	SIX 30 SE
Revenue	(108)	
Cost of sales	108	

Gross profit	-	

=====

This adjustment reduces O2 UK's service revenue and cost of sales and is solely a reclassification which does not alter profit or cash flows.

The commission received by O2 from the receiving operator, described above, which totals L12 million for the year ended 31 March 2005, has been reclassified from service revenue to other revenue. This adjustment has no effect on the Group's total revenue.

ADJUSTMENT 2 - GOODWILL AMORTISATION

IFRS 3 "Business combinations" prohibits the annual amortisation of goodwill and instead subjects such goodwill to an annual impairment review. The carrying value of goodwill at the date of transition to IFRS is L3,189 million and the amortisation charge ceases from that date.

Accordingly, the impact on the income statement of the Group is as follows:

	YEAR ENDED 31 MARCH 2005	SIX M 30 SEP
	Lm	
Goodwill amortisation	200	
	=====	

ADJUSTMENT 3 - PENSIONS

In accordance with IAS 19 "Employee benefits", on transition to IFRS the Group has elected to recognise the net deficit of its defined benefit pension schemes on the consolidated balance sheet. Thereafter, the Group has elected to recognise actuarial gains and losses in full in the statement of recognised income and expense, rather than in the income statement, in the period in which they arise.

The impact on the Group's income statement of the adoption of IAS 19 is as follows:

	YEAR ENDED 31 MARCH 2005	SIX MO 30 SEPT
	Lm	
Pension costs - administrative expenses	(6)	
Pension costs - net financing costs	(1)	

	(7)	
	=====	
Actuarial losses - in statement of total recognised income and expense	(19)	
	=====	

Edgar Filing: TELEFONICA S A - Form 6-K

The pension deficit recognised on the consolidated balance sheet is as follows:

	AT	
	31 MARCH 2005	1
	Lm	
Retirement benefit obligations	(126)	
	=====	

The operating charge included within administrative expenses under IAS 19 represents the current service cost, and the net financing charge represents the net of the expected return on scheme assets and the unwinding of the discount on the scheme liabilities. The actuarial losses arise on experience adjustments (being the effects of the differences between the previous actuarial assumptions and what has actually occurred) and the impact of changes in actuarial assumptions.

ADJUSTMENT 4 - SHARE-BASED PAYMENTS

The Group has historically accounted for share scheme costs under UK GAAP using the intrinsic value. IFRS 2 "Share based payments" requires the value of all share based payments to be measured, and an expense recognised in the income statement, based on fair value. Additionally, under UK GAAP, Inland Revenue approved SAYE schemes are exempt from the requirement to recognise a charge whereas under IFRS there is no such exemption.

B-20

The impact on the Group's income statement of the adoption of IFRS 2 in accounting for share-based payments is as follows:

	YEAR ENDED	
	31 MARCH 2005	SIX M
	Lm	30 SEP
Administrative expenses	(2)	
	=====	

ADJUSTMENT 5 - FINANCIAL INSTRUMENTS

The Group holds financial instruments principally to finance its operations, for the temporary investment of short term funds and to manage currency and interest rate risks arising from its operations. IAS 39 "Financial instruments: Recognition and measurement" addresses the accounting for financial instruments.

Since the transition to IFRS on 1 April 2004, the Group has prepared documentation and performed effectiveness testing procedures for certain derivative financial instruments which are designated as hedges. This permits the application of hedge accounting for these instruments.

The impact on the Group's income statement of the adoption of IAS 39 is as follows:

Edgar Filing: TELEFONICA S A - Form 6-K

	YEAR ENDED 31 MARCH 2005	SIX MON 30 SEPT
	Lm	
Net financing costs	2	
	=====	

The impact on the consolidated balance sheet of the adoption of IAS 39 is as follows:

	AT 31 MARCH 2005	1 A
	Lm	
Net assets	-	
	=====	

The Group's cash flow hedges and hedges of net investments in foreign operations do not give rise to significant adjustments under IAS 39.

The main components of the IAS 39 adjustments are:

Fair value hedges

The Group holds Euro 1,000 million of interest rate swaps which hedge certain fixed rate borrowings by denominating them as floating rate. Under IAS 39, these interest rate swaps are a fair value hedge and are accounted for using hedge accounting. The interest rate swaps at 31 March 2005 result in the recognition of a non-current asset of L21 million (1 April 2004: L56 million) with a corresponding increase in the value of the Group's non-current borrowings. There is no impact on the Group's net assets.

Derivatives which are not designated as hedges

The Group uses forward foreign exchange contracts to hedge exchange rate movements on certain monetary assets. The overall effect of recognition of these derivatives is to increase current liabilities by L1 million at 1 April 2004, with no impact at 31 March 2005.

Other adjustments - accrued interest reclassification

IAS 39 requires all accrued interest on borrowings to be classified within the "borrowings" balance in the consolidated balance sheet. Accrued interest is also required to be recorded at its un-hedged rate if it has been hedged by an interest rate swap. Under UK GAAP, interest is accrued at the hedged rate and classified as an accrual rather than as part of the borrowings balance. At 31 March 2005, accrued interest totalling L13 million was reclassified from accruals to borrowings (1 April 2004: L14 million).

IAS 39 also requires accrued interest on cash and cash equivalents to be included within the cash balance reported in the consolidated balance sheet,

Edgar Filing: TELEFONICA S A - Form 6-K

although the impact is not significant.

ADJUSTMENT 6 - UMTS LICENCE CREDITOR

B-21

In the year ended 31 March 2003, O2 Ireland purchased a UMTS "B" licence. The total licence fee was Euro 114 million with payments phased over fifteen years. Under UK GAAP the asset and liability are recognised at their undiscounted value whereas under IFRS, the asset cost is recorded at the discounted present value of the payments and a corresponding creditor established.

The effect at 1 April 2004 is to reduce the carrying value of O2 Ireland's UMTS licence and creditor by L13 million and to recognise an interest cost of L1 million in the year ended 31 March 2005 representing the unwinding of the discount on the long-term liability.

The impact on the Group's income statement is as follows:

	YEAR ENDED 31 MARCH 2005 Lm	SIX 30 SE
Net financing costs	(1)	
	=====	

The impact on the Group's consolidated balance sheet is as follows:

	AT 31 MARCH 2005 Lm	1
Other intangible assets	(13)	
Non-current liabilities: trade and other payables	10	

Net assets	(3)	
	=====	

ADJUSTMENT 7 - DIVIDENDS

Under IAS 10 "Events after the balance sheet date", if an entity declares a dividend after the balance sheet date, the entity shall not recognise that dividend as a liability at the balance sheet date.

The dividend declared by the Group in May 2005 totalling L196 million is not recognised in the year ended 31 March 2005 under IFRS but is recognised under UK GAAP. The impact on the Group's consolidated balance sheet is as follows:

AT

Edgar Filing: TELEFONICA S A - Form 6-K

31 MARCH 2005

1 A

Lm

Current liabilities: other payables

196

=====

ADJUSTMENT 8 - TAXATION

IAS 12 "Income taxes" bases the calculation of the deferred tax assets and liabilities on the difference between tax carrying values and balance sheet carrying values, rather than the income statement approach required by FRS 19. As a result, the scope of IAS 12 is wider than that of FRS 19. IAS 12 requires a deferred tax liability in respect of rolled over gains to be recognised, irrespective of whether there is an expectation that the gain will crystallise.

The Group is required to recognise a deferred tax liability of L358 million on transition to IFRS relating to a gain arising prior to the Group's demerger from BT. The gain arose on BT's disposal of a non-mobile UK business which was rolled over into the goodwill relating to one of O2's operating businesses. This deferred tax liability is expected to reverse in the short to medium term as part of an internal reorganisation and, as a result, will be recognised as a credit in the tax line in the income statement of the Group in the corresponding period.

The other adjustments between UK GAAP and IFRS have no taxation effect as each adjustment either gives rise to a deferred tax asset in an entity where it is currently inappropriate to recognise further deferred tax assets or gives rise to a deferred tax liability in an entity which is already carrying unrecognised deferred tax assets such that a portion of that asset would be recognised to the extent of the any liability.

ADJUSTMENT 9 - OTHER EMPLOYEE BENEFITS

The Group has recognised a liability of L2 million under IFRS on transition at 1 April 2004 in respect of holiday pay which under IAS 19 is defined as a short-term compensated absence.

B-22

ADJUSTMENT 10 - SOFTWARE RECLASSIFICATION

Certain software, classified as tangible fixed assets under UK GAAP, has been assessed in accordance with IAS 38 and is reclassified to intangible assets under IFRS.

The impact on the Group's income statement is as follows:

	YEAR ENDED	SIX
	31 MARCH 2005	30 SE
	Lm	
Depreciation	171	
Other amortisation	(171)	

Edgar Filing: TELEFONICA S A - Form 6-K

-
=====

The impact on the Group's consolidated balance sheet is as follows:

	AT 31 MARCH 2005 Lm	1
Property, plant and equipment	(606)	
Other intangible assets	606	

	-	
	=====	

ADJUSTMENT 11 - JOINT VENTURES AND ASSOCIATES

Under both UK GAAP and IFRS, the profits and losses of joint ventures and associates are recognised under the equity method of accounting. IFRS requires the Group's share of the post tax profits or losses to be included in one line in the income statement whereas under UK GAAP the Group's share of the interest and tax of associates are included under those headings in the profit and loss account.

The effect on the Group for the year ended 31 March 2005 is to reclassify a interest receivable of L1 million and a tax charge of L1 million to the "share of result of joint ventures and associates" line.

ADJUSTMENT 12 - CASH RECLASSIFICATION

IAS 7 "Cash flow statements" requires cash, which comprises cash on hand, demand deposits and cash equivalents to be reported in one line on the face of the balance sheet. Cash equivalents are defined as short term highly liquid investments that are readily convertible to known amounts of cash, UK GAAP does not recognise cash equivalents and such items are classified as current asset investments.

The impact on the Group's consolidated balance sheet is as follows:

	AT 31 MARCH 2005 Lm	1
Other financial assets	(968)	
Cash and cash equivalents	968	

	-
