99.1 Press Release issued by Mace Security International, Inc. dated May 5, 2004.

Item 12 Results of Operations and Financial Condition

On May 5, 2004, Mace Security International, Inc. issued a press release announcing its financial results for the first quarter ended March 31, 2004. A copy of the press release is attached as Exhibit 99.1 and is incorporated herein by reference in its entirety.

The press release contains a non-GAAP financial measure, EBITDA. EBITDA is calculated as income before cumulative effect of a change in accounting principle adding back interest expense, income taxes, depreciation and amortization expense. We believe that EBITDA, as presented, represents a useful measure of assessing the performance of our operating activities and resources available for strategic opportunities, as it reflects our earnings trends, without the impact of certain non-cash and unusual charges or income. EBITDA is also used by our creditors in assessing debt covenant compliance. We understand that, although security analysts frequently use EBITDA in the

evaluation of companies, it is not necessarily comparable to other similarly titled captions of other companies due to potential inconsistencies in the method of calculation. EBITDA is not intended as an alternative to cash flow provided by operating activities as a measure of liquidity, as an alternative to net income as an indicator of our operating performance, nor as an alternative to any other measure of performance in conformity with generally accepted accounting principles.
