Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the
Exchange Act (17 CFR 240.13e-4(c))

ITEM 2.02. RESULTS OF OPERATIONS AND FINANCIAL CONDITION

On February 9, 2006, DRS Technologies, Inc. announced financial results for the
third quarter and nine-month period of fiscal 2006 ended December 31, 2005. The

Edgar Filing: DRS TECHNOLOGIES INC - Form 8-K

press release is furnished as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.

The press release includes the non-GAAP financial measures "EBITDA" and "free cash flow." We reference these non-GAAP financial measures frequently in our decision-making because it provides supplemental information that facilitates internal comparisons to historical operating performance of prior periods and external comparisons to competitors' historical operating performance. We define EBITDA as net earnings from continuing operations before net interest and related expenses (primarily amortization of debt issuance costs), income taxes, depreciation and amortization. EBITDA is presented as additional information because we believe it to be a useful indicator of an entity's debt capacity and its ability to service its debt. EBITDA is not a substitute for operating income, net earnings or cash flows provided by operating activities of continuing operations, as determined in accordance with generally accepted accounting principles (GAAP). EBITDA is not a complete cash flow measure because EBITDA is a measure of liquidity that does not include reductions for cash payments for an entity's obligation to service its debt, fund its working capital, business acquisitions and capital expenditures, pay its income taxes and fund its discontinued operations. Rather, EBITDA is one potential indicator of an entity's ability to fund these cash requirements. EBITDA also is not a complete measure of an entity's profitability because it does not include costs and expenses for depreciation and amortization, interest and related expenses, income taxes and the results of operations of discontinued operations. We disclose free cash flow because we believe that it is a measurement of cash flow generated that is available for investing and financing activities. Free cash flow is defined as net cash provided by operating activities of continuing operations less capital expenditures. We believe that the most directly comparable GAAP financial measure to free cash flow is net cash provided by operating activities from continuing operations. Free cash flow represents cash generated after paying for interest on borrowings, income taxes, capital expenditures and changes in working capital, but before repaying outstanding debt, investing cash to acquire businesses, make other strategic investments and fund discontinued operations. Thus, key assumptions underlying free cash flow are that the Company will be able to refinance its existing debt when it matures with new debt and that the Company will be able to finance any new acquisitions it makes by raising new debt or equity capital.

The information furnished pursuant to this Current Report on Form 8-K shall be considered to be "filed" under the Securities Exchange Act of 1934, as amended (other than information under the headings "New Contract Awards and Backlog" and "Fiscal 2006 Outlook," and information related to organic revenue growth and projections regarding future performance).

ITEM 8.01. OTHER EVENTS

On February 8, 2006, the initial purchasers in DRS's recent private placement of \$300.0 million of 2.0% convertible senior notes due 2026 elected to exercise their option to purchase an additional \$45.0 million in principal amount of the notes. DRS expects to use the net proceeds to repay indebtedness under its revolving credit facility.

DRS will pay interest on the convertible notes at an annual rate equal to 2.0 percent until maturity on February 1, 2026, subject to earlier repurchase, redemption or conversion. The notes will have an initial conversion rate of

16.7504 shares of DRS's common stock per \$1,000 principal amount of convertible

Edgar Filing: DRS TECHNOLOGIES INC - Form 8-K

notes, representing an initial conversion price of \$59.70.

DRS will settle each \$1,000 principal amount of convertible notes surrendered for conversion by delivering cash in an amount equal to the lesser of the principal amount of convertible notes surrendered for conversion or the conversion value; if the conversion value is greater than the principal amount, DRS will deliver an amount of shares equal to the sum of the daily share amounts for each trading day during the applicable conversion period.

DRS may redeem all or some of the convertible notes for cash at any time after February 1, 2009, subject to certain conditions. The holders of the convertible notes may require DRS to repurchase the convertible notes for cash on February 1, 2011, 2016 and 2021 at the par amount plus accrued interest, if any.

The notes and common stock issuable upon conversion of the notes have not been registered under the Securities Act of 1933, as amended, or applicable state securities laws, and unless so registered, may not be offered or sold in the United States, except pursuant to an applicable exemption from the registration requirements of the Securities Act of 1933, as amended, and applicable state securities laws.

ITEM 9.01. FINANCIAL STATEMENTS AND EXHIBITS

(c) Exhibits

The following press release is included as an exhibit to this report:

Exhibit No.	Description
