NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2008
(Unaudited)

NOTE A - DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Organization

Company Background

- o The Company was originally incorporated as DIDAX, Inc, in January 1997
- o Until December 2002 the Company operated under the name Crosswalk.com; its primary businesses were operation of the Christian web portal crosswalk.com(TM) and a direct mail advertising service.
- o During the last quarter of 2002, the Company sold substantially all of its assets with the exception of the Company's accumulated Net Operating Loss ("NOL") and changed its name to AMEN Properties, Inc.
- o A revised business plan was approved by the shareholders in 2002, and called for the Company to grow via the selective acquisition of cash-generating assets in three categories:
 - o Commercial real estate in secondary stagnant markets
 - o Commercial real estate in out of favor growth markets
 - o Oil and gas royalties

During the time the Company operated as Crosswalk.com, it generated a Net Operating Loss in excess of \$30 million. Provisions in the United States Federal Tax Code dictate that a significant ownership change (in excess of

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

50% in a three-year period) would eliminate the Company's ability to use the NOL to offset its Federal Income Tax liability. It is the Company's intention to preserve its NOL, which requires funding our growth without access to many traditional sources of capital which would result in a significant change in ownership.

Company Organization

In initiating the 2002 business plan the Company, in October 2002, formed the following entities:

- o NEMA Properties LLC, ("NEMA") a Nevada limited liability company 100% owned by AMEN
- o AMEN Delaware LP, (the "Delaware Partnership") a Delaware limited partnership owned 99% by NEMA as the sole limited partner and 1% by AMEN, as the sole general partner
- o AMEN Minerals LP, (the "Minerals Partnership") a Delaware limited partnership, owned 99% by NEMA as the sole limited partner and 1% by AMEN, as the sole general partner.

On July 30, 2004, the Company formed W Power and Light LP, (the "W Power Partnership") a Delaware limited partnership owned 99% by NEMA as the sole limited partner and 1% by AMEN, as the sole general partner. (See Note R). On May 18, 2006, the Company acquired 100% of Priority Power Management, Ltd. and Priority Power Management Dallas, Ltd., (collectively the "PPM Partnership") effective April 1, 2006. Priority Power is owned 1% by AMEN, as the sole general partner, and 99% by NEMA, as the sole limited Partner.

Corporate Reorganization

On December 17, 2007, the Company approved a corporate reorganization (the "Reorganization") effective January 1, 2008. As part of the Reorganization, the Delaware Partnership, the Minerals Partnership, the PPM Partnership, and the W Power Partnership were each converted from limited partnerships into limited liability companies with AMEN owning 100% of the shares and as the sole managing member of each entity. The converted entities are:

- o AMEN Delaware, LLC, ("Delaware")
- o AMEN Minerals, LLC, ("Minerals")
- o NEMA Properties, LLC, ("NEMA")
- o Priority Power Management, LLC ("Priority Power")
- o W Power and Light, LLC, ("W Power")

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

On May 31, 2008, as part of the Reorganization NEMA was converted from a Nevada Limited Liability Company to a Texas Limited Liability Company.

Standard Reference

As used herein, the terms "Company" and "AMEN" and references to "we" and "our" refer to all of AMEN Properties, Inc., NEMA, Delaware, the Delaware Partnership, Minerals, the Minerals Partnership, and W Power, the W Power Partnership, Priority Power, and the Priority Power Partnership unless the context otherwise requires.

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

2. Basis of Presentation

The consolidated financial statements include the accounts of the Company and its majority-owned/controlled subsidiaries and affiliates. Inter-company balances and transactions have been eliminated.

Management uses estimates and assumptions in preparing the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets, liabilities, revenues and expenses in the consolidated financial statements, and the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

3. Cash Equivalents

The Company considers cash on hand, cash on deposit in banks, money market mutual funds and highly liquid debt instruments purchased with a maturity of three months or less to be a cash equivalent.

4. Investments

The Company invests in U.S. government bonds and treasury notes, municipal bonds, certificates of deposit, corporate bonds and other securities. Investments with original maturities greater than three months but less than twelve months from the balance sheet date are short-term investments. Those investments with original maturities greater than twelve months from the balance sheet date are long-term investments.

The Company's marketable securities are classified as available-for-sale as of the balance sheet date, and are reported at fair value with unrealized gains and losses, net of tax, recorded in stockholders' equity. Realized gains or losses and permanent declines in value, if any, on available-for-sale investments are reported in other income or expense as incurred.

5. Fair Value of Financial Instruments

The carrying value of cash and cash equivalents, investments, accounts receivable, notes receivable, and accounts payable approximate fair value because of the relatively short maturity of these instruments. The fair value of the fixed rate debt, based upon current interest rates for similar debt instruments with similar payment terms and expected payoff dates, would be approximately \$2,842,835 as of September 30, 2008. Disclosure about fair value of financial instruments is based on pertinent information available to management as of September 30, 2008.

6. Accounts Receivable

Management regularly reviews accounts receivable and estimates the necessary amounts to be recorded as an allowance for doubtful accounts.

W Power's unbilled revenue is accrued based on the estimated amount of unbilled power delivered to customers using the average customer billing rates. Unbilled revenue also includes accruals for estimated Transmission

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

and Distribution Service Provider ("TDSP") charges and monthly service charges applicable to the estimated usage for the period. As of September 30, 2008, W Power no longer has any unbilled revenue. W Power's allowance for doubtful accounts at September 30, 2008 was \$103,538. This amount is equal to the entire receivable balance. Management believes further collections from W Power customers are unlikely given the age of the accounts and the Company's exit from the retail electric business.

Priority Power trade accounts receivable arise from aggregation fees and other management services. An allowance for doubtful accounts is provided, when considered necessary by management, for estimated amounts not expected to be collectible. No allowance was provided or deemed necessary at September 30, 2008.

At September 30, 2008 accounts receivable consisted of the following:

Billed Aggregation fees	\$ 372,414
Unbilled Aggregation fees	127,898
Other receivables	156

Accounts receivable, net	\$ 500,468
	=====

7. Other Current Assets

The Company had a relationship with a reseller that marketed W Power's services on a pre-pay basis. During the third quarter 2007, the reseller's receivable balance grew to \$300 thousand due to cash flow issues caused by billing issues and customer turnover. The Company previously collateralized a portion of this receivable balance and increased the allowance for doubtful accounts by \$233 thousand specifically for this account. At June 30, 2008 management determined that the likelihood of collecting the balance was remote and wrote off the entire remaining balance. In addition, the Company expensed outstanding TDSP obligations the Company paid on behalf of the reseller.

At September 30, 2008, Other Current Assets consisted of the following:

Yarborough Allen Field related receivables	\$ 105,534
Miscellaneous current assets and receivables	16,453

Other Current Assets, net	\$ 121,987
	=====

8. Depreciation, Amortization and Depletion

Property and equipment are stated at cost. Depreciation is determined using the straight-line method over the estimated useful lives ranging from three to 10 years. Royalty acquisitions are stated at cost. Depletion is determined using the units-of-production method based on the estimated oil and gas reserves.

9. Impairment of Long-Lived Assets

The Company periodically evaluates the recoverability of the carrying value of its long-lived assets and identifiable intangibles by monitoring and evaluating changes in circumstances that may indicate that the carrying amount of the asset may not be recoverable. Examples of events or changes in circumstances that indicate that the recoverability of the carrying amount of an asset should be assessed include but are not limited to the following: a significant decrease in the market value of an asset, a significant change in the extent or manner in which an asset is used or a

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

significant physical change in an asset, a significant adverse change in legal factors or in the business climate that could affect the value of an asset or an adverse action or assessment by a regulator, an accumulation of costs significantly in excess of the amount originally expected to acquire or construct an asset, and/or a current period operating or cash flow loss combined with a history of operating or cash flow losses or a projection or forecast that demonstrates continuing losses associated with an asset used for the purpose of producing revenue.

9

AMEN Properties, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2008
(Unaudited)

The Company considers historical performance and anticipated future results in its evaluation of potential impairment. Accordingly, when indicators or impairments are present, the Company evaluates the carrying value of these assets in reaction to the operating performance of the business and future discounted and non-discounted cash flows expected to result from the use of these assets. Impairment losses are recognized when the sum of expected future cash flows are less than the assets' carrying value.

10. Investments in Joint Ventures

In 2006, the Company sold a significant interest in certain real estate and contributed its retained 18% undivided ownership interest in the real estate to an investment.

The Company and the other selling partners, the Buyers and affiliates of the Buyers entered into a Contribution and Assumption Agreement dated March 19, 2007 (the "Contribution Agreement"), whereby the Company and others contributed their remaining interests, other property interests, and cash to HPG Acquisition LLC ("HPG") in exchange for membership interests in HPG, all effective as of March 2, 2007.

The Company's investment in real estate and the SFF Group (see Note Q) is recorded at cost, adjusted for its equity share of earnings, using the equity method of accounting, and cash contributions and distributions.

11. Goodwill

The Company follows the provisions of Statement of Financial Accounting Standards (SFAS) No. 142, "Goodwill and Other Intangible Assets". SFAS No. 142 requires that goodwill and other intangible assets with investment lives no longer be amortized. The intangible assets are tested for impairment annually. If there is impairment, the amount will be expensed and the intangible assets will be written down accordingly.

12. Stock-Based Compensation

On January 1, 2006 the Company adopted Statement of Financial Accounting Standards (SFAS) No. 123(R), Accounting for Stock-Based Compensation, to account for its stock-based compensation. In December 2004, the Financial Accounting Standards Board issued SFAS 123(R) effective for small business issuers after December 15, 2005. The new Statement requires mandatory reporting of all stock-based compensation awards on a fair value basis of accounting. Generally, companies are required to calculate the fair value of all stock awards and amortize that fair value as compensation expense over the vesting period of the awards.

13. Income and Franchise Taxes

The Company accounts for income taxes in accordance with SFAS No. 109, "Accounting for Income Taxes". Under this method, deferred tax assets and liabilities are determined based on differences between the financial reporting and tax basis of assets and liabilities, and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. At September 30, 2008, no federal income tax expense has been incurred due to the utilization of the Company's net operating losses.

On May 18, 2006, the Texas Governor signed into law a new Texas Margin Tax, which restructured the state business tax by replacing the taxable capital and earned surplus components of the tax with a new taxable margin component. The new franchise tax is effective for returns due on or after January 1, 2008. The Texas franchise tax is imposed on taxable entities chartered, organized, or doing business in Texas. While the State of Texas does not classify the tax as a tax on income, the tax is considered an income tax for purposes of SFAS No. 109 because the tax is based on a measure of income. Texas franchise tax expense for the nine months ended September 30, 2008 and 2007 was estimated to be approximately \$59 thousand and \$0, respectively.

14. Deferred Revenue

Deferred revenue consists of prepaid aggregation fees. Deferred revenue is amortized over the life of the aggregation contract for prepaid aggregation fees.

15. Corporate Tithing

The Company shall, to the extent permitted by law, expend from the revenues of the Company such sums as are deemed prudent by the Board of Directors to support, encourage, or sustain persons or entities which in the judgment of the Board of Directors are expected to make significant efforts to propagate the Gospel of Jesus Christ in any manner not in conflict with the Statement of Faith. Such expenditures may be made without regard to the tax status or nonprofit status of the recipient. It is expected that the expenditures paid out under the provisions of this policy shall approximate ten percent (10%) of the amount that would otherwise be the net profits of the Company for the accounting period.

16. Minority Interest

Minority interest represents the interest of unit holders of TCTB, other than the Company, in the net earnings and net equity of TCTB. In 2007, the remaining assets of TCTB were distributed to the unit holders thereby eliminating the minority interest balance at December 31, 2007.

17. Contingently Convertible Securities

On August 31, 2007, the Company converted all then outstanding classes of

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

its Preferred Stock into 1,349,764 shares of the Company's Common Stock as shown in the following table:

Series	Number of Shares	Purchase Price	Conversion Rate	Number of Common Shares
-----	-----	-----	-----	-----
A	80,000	\$ 2,000,000	\$ 3.2444	616,447

C	125,000	2,000,000	4.000	500,000

18. Revenue Recognition

The Company's gross revenues for aggregation and other services to our customers are recognized upon delivery and include estimated aggregation fees and other services delivered but not billed by the end of the period.

19. Advertising Expense

All advertising costs are expensed when incurred. Advertising expenses for the nine months ended September 30, 2008 and 2007 were approximately \$11 thousand and \$3 thousand, respectively.

20. Income (Loss) Per Share

11

AMEN Properties, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2008
(Unaudited)

In accordance with provisions of SFAS No. 128, Earnings per Share, basic income per common share is computed on the basis of the weighted-average number of common shares outstanding during the periods. Diluted income per common share is computed based upon the weighted-average number of common shares outstanding plus the assumed issuance of common shares for all potentially dilutive securities.

21. Environmental

The Company is subject to extensive federal, state and local environmental laws and regulations. These laws regulate asbestos in buildings that require the Company's real estate investments to remove or mitigate the environmental effects of the disposal of the asbestos at the buildings.

Environmental costs that relate to current operations are expensed or capitalized as appropriate. Costs are expensed when they relate to an existing condition caused by past operations and will not contribute to current or future revenue generation. Liabilities related to environmental assessments and/or remedial efforts are accrued when property or services are provided or can be reasonably estimated.

22. New Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. This statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. The provisions of this Statement shall be effective for financial statements issued for fiscal years

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

beginning after November 15, 2007, and interim periods within those fiscal years.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities - Including an amendment of FASB Statement No. 115. This Statement permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is expected to expand the use of fair value measurement, which is consistent with the Board's long-term measurement objectives for accounting for financial instruments. The provisions of this Statement shall be effective as of the beginning of each reporting entity's first fiscal year that begins after November 15, 2007; this Statement should not be applied retrospectively to fiscal years beginning prior to the effective date, except as permitted in paragraph 30 for early adoption.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), Business Combinations ("SFAS 141(R)"), which replaces FASB Statement No. 141. SFAS 141(R) establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, any non-controlling interest in the acquiree and the goodwill acquired. The Statement also establishes disclosure requirements that will enable users to evaluate the nature and financial effects of the business combination. SFAS 141(R) is effective for acquisitions that occur in an entity's fiscal year that begins after December 15, 2008. The impact, if any, will depend on the nature and size of business combinations that Company consummates after the effective date.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements - an amendment of ARB No. 51 ("SFAS 160"). SFAS 160 requires that accounting and reporting for minority interests will be recharacterized as noncontrolling interests and classified as a component of equity. SFAS 160 also establishes reporting requirements that provide sufficient disclosures that clearly identify and distinguish between the interests of the parent and the interests of the noncontrolling owners. SFAS 160 applies to all entities that prepare consolidated financial statements, except not-for-profit organizations, but will affect only those entities that have an outstanding noncontrolling interest in one or more subsidiaries or that deconsolidate a subsidiary. This statement is effective as of the beginning of an entity's first fiscal year beginning after December 15, 2008.

NOTE B - BUSINESS COMBINATIONS

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

Cogdill Enterprises

On September 11, 2007 the Company announced the acquisition of 100% of Cogdill Enterprises, Inc. ("CEI"), effective August 31, 2007 for an aggregate consideration of \$6,000 and a obligation to pay 95% of the total revenues actually received by the Company each month directly as a result of the contracts originated by Trenton Cogdill for and on behalf of CEI prior to August 31, 2007. CEI provides energy consulting services to over 1,200 religious and related organizations in Texas and the Company believes that CEI's business will integrate with the Company's PPM subsidiary.

NOTE C - CONCENTRATIONS OF CREDIT RISK

The Company maintains cash balances at four financial institutions, which at times may exceed federally insured limits. The Company had approximately \$3.5 million of uninsured cash and cash equivalents at September 30, 2008. The Company has not experienced any losses in such accounts and believes that it is not exposed to any significant credit risks on such accounts.

W Power and Priority Power's revenues are derived principally from uncollateralized customer electricity billings. The concentration of credit risk in a limited number of industries affects its overall exposure to credit risk because customers may be similarly affected by changes in economic and other conditions.

NOTE D - RESTRICTED CASH EQUIVALENTS

On October 18, 2005, the Company entered into a continuing agreement for commercial and standby letters of credit (the "Letters of Credit") with JPMorgan Chase Bank, N.A., Houston, Texas, ("Chase"). Under the agreement Chase may, but is not obligated to, issue one or more standby or commercial letters of credit on behalf of W Power. The Letters of Credit are generally required in the normal course of business operations to support the Company's obligations to collateralize certain obligations to electric power providers, TDSPs, and ERCOT. Currently the Letters of Credit bear an interest rate of seven-tenths of one percent (0.70%) payable quarterly in advance. In order to support the Letters of Credit, the Company, Chase and JP Morgan Securities Inc. ("JPMorgan") maintain a tri-party control agreement that creates a security interest in favor of Chase in a certain Money Market Fund the Company maintains with JPMorgan. The Company had deposits with JPMC totaling \$537,000 collateralizing outstanding Letters of Credit at September 30, 2008.

NOTE E - PROPERTY AND EQUIPMENT

Property and equipment, at cost, consisted of the following at September 30, 2008:

Furniture, fixtures and equipment	\$ 365,390
Less: accumulated depreciation	(247,671)

	\$ 117,719
	=====

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

(Unaudited)

Depreciation expense for the nine months ended September 30, 2008 and 2007 was approximately \$132 thousand and \$54 thousand, respectively.

NOTE F - INVESTMENT IN REAL ESTATE

Effective September 27, 2006, the Company entered into an Agreement to Distribute Assets with and among the partners of TCTB Partners, Ltd. Contemporaneous with the distribution of the assets, the Company along with the General Partner and the other Limited Partners of TCTB collectively agreed to sell and sold 75% of their collective undivided interest in the assets. This sale resulted in the Company retaining an undivided interest of approximately 18% in the assets which was subsequently contributed into HPG Acquisition, LLC.

The Company's Investment in real estate consisted of the following at September 30, 2008:

Real estate investment	\$ 2,311,443
Equity earnings	45,739

	\$ 2,357,182
	=====

A portion of the Company's real estate investment and equity earnings results for 2008 are based on the results of HPG Acquisition, LLC and its subsidiaries. HPG Acquisition, LLC reported the following consolidated financial information at September 30, 2008:

Total Assets	\$ 16,967,708
Total Liabilities	758,006
Net Income (for the nine months ended September 30, 2008)	355,255

NOTE G - ROYALTY INTERESTS

The Company, through its wholly-owned subsidiary Amen Minerals, LLC, currently directly owns two separate oil and gas royalty interests, one in the state of Texas and one in the state of Oklahoma. The total consideration paid by the Company for the royalty interests was \$162,854. Under accounting principles generally accepted in the United States of America, revenues and expenses are recognized on an accrual basis. Royalty income is generally received one to two months following the month of production and the Company uses estimates to accrue royalty income for the quarter ended September 30, 2008 and 2007.

Depletion expense was approximately \$2 thousand for the nine months ended September 30, 2008 and 2007. Accumulated depletion was \$38 thousand and \$35 thousand, respectively.

The Company also indirectly owns working and royalty interests through its investment in SFF Royalty, LLC and SFF Production, LLC, as discussed in Note Q.

NOTE H - GAIN ON LIQUIDATION OF SANTA FE ENERGY TRUST INVESTMENT

On February 29, 2008, the trustees of the Santa Fe Energy Trust made a distribution of the net proceeds from the sale of the Trust's assets. The Company, as a unit-holder in the Trust, received a portion of this distribution. In addition, in 2007 the Company stripped \$2,778,300 of U.S.

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

Treasury Bonds from its units in the Trust. These stripped Treasury Bonds were sold on January 1, 2008.

NOTE J - INCOME TAXES

There was no federal income tax expense or benefit to report for the nine months ended September 30, 2008 and 2007. As of September 30, 2008, the Company has net operating loss carry-forwards totaling approximately \$28 million for federal income tax purposes expiring in 2012 through 2027.

On May 18, 2006, the Texas Governor signed into law a new Texas Franchise Tax, which restructured the state business tax by replacing the taxable capital and earned surplus components of the tax with a new taxable margin component. The new franchise tax is effective for returns due on or after January 1, 2008. While the State of Texas does not classify the tax as a tax on income, the tax is considered an income tax for purposes of FASB Statement No. 109, Accounting for Income Taxes, because the tax is based on a measure of income. The Company's franchise tax liability at September 30, 2008 and 2007 was approximately \$59 thousand and \$0, respectively.

NOTE K - OPERATING SEGMENTS

The Company's business activities are mainly comprised of two reportable

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

segments: energy management and real estate operations.

The provision of energy management services is primarily conducted through Priority Power.

The commercial real estate portfolio consists of the Company's investment in a real estate joint venture (see note F), consisting of an ownership of approximately 18% in two office properties located in Midland, Texas comprising an aggregate of approximately 428,560 square feet of gross leasable area.

Retail electricity operations were previously included as an operating segment. They are now included as part of discontinued operations. (See Note R).

Each segment's accounting policies are the same as those described in the summary of significant accounting policies and the following tables reflect totals for the quarters ended September 30, 2008 and 2007, respectively.

NOTE L - LONG-TERM OBLIGATIONS

NEMA entered into twenty-two promissory notes (the "NEMA Notes") on May 18, 2006, effective April 1, 2006 totaling \$3,230,051 to purchase 100% ownership interest in Priority Power Management, Ltd, a Texas limited partnership, and Priority Power Management Dallas, Ltd, a Texas limited partnership (see note B). The notes are due in quarterly installments of \$142,985 beginning on September 30, 2006 with a final maturity of December 31, 2013. The term notes bear interest at a fixed rate per annum of 7.75%.

PPM entered into an agreement effective August 31, 2007 to purchase 100% ownership interest in Cogdill Enterprises, Inc. As part of the agreement PPM is obligated to pay 95% of the total revenues actually received by PPM each month directly as a result of the contracts originated by Trenton Cogdill for and on behalf of the Company prior to August 31, 2007. The estimated net present value of the expected future obligation under the Cogdill agreement is classified as a long-term obligation, less the current portion (the "Cogdill Note").

NOTE N - COMMITMENTS AND CONTINGENCIES

Legal Proceedings

The Company is subject to claims and lawsuits which arise primarily in the ordinary course of business. It is the opinion of management that the disposition or ultimate resolution of such claims and lawsuits will not have a material adverse effect on the consolidated financial position of the Company.

NOTE O - STOCK OPTION PLAN

Since the inception of the Company, various options have been granted by the Board of Directors to founders, directors, employees, consultants and ministry partners. In February 1997, the Company authorized 67,100 additional shares of common stock to underlie additional options reserved for key employees and for future compensation to members of the Board of Directors. The Board of Directors also adopted and the Stockholders approved, the 1997 Stock Option Plan ("1997 Plan"), which provides for the granting of either qualified or non-qualified options to purchase an aggregate of up to 514,484 shares of common stock, inclusive of the 67,100 shares mentioned above, and any and all options or warrants granted in prior years by the Company. As of September 30, 2008, all options available under the 1997 Plan have been granted: 75,079 options have been exercised, and 78,510 options are outstanding which are fully vested and range in price from \$3.50 to \$61.36.

The 1998 Stock Option Plan ("1998 Plan") was approved by the Board of Directors in April 1998, with approved amendment in May 2000. The 1998 Plan gives the Company the authority to issue 300,000 options to purchase AMEN common stock. If any stock options granted under the 1998 Plan terminate, expire or are canceled, new stock options may thereafter be granted covering such shares. In addition, any shares purchased under the 1998 Plan

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

subsequently repurchased by the Company, if management elects, pursuant to the terms hereof may again be granted under the 1998 Plan. The shares issued upon exercise of stock options under the 1998 Plan may, in whole or in part, be either authorized but unissued shares, or issued shares reacquired by the Company. As of September 30, 2008, 4,859 options have been exercised and 155,292 options are outstanding and are fully vested and range in price from \$1.98 to \$45.50.

During the three months ended September 30, 2008 the Company issued 3,838 options to the following members of the Board of Directors as compensation for their service to the Company:

Director	Issuance Date	# Options Issued	Strike Price
Bruce Edgington	9/30/08	988	\$8.00
Earl Gjelde	9/30/08	988	8.00
Randy Nicholson	9/30/08	875	8.00
Don Blake	9/30/08	988	8.00
Total		3,838	

The fair value of each option is estimated on the date of grant using the Black-Scholes option-pricing model.

The table below summarizes the stock option activity for the quarter ended September 30, 2008:

NOTE Q - INVESTMENT IN SFF GROUP

On December 17, 2007, the Company invested \$7.6 million in SFF Royalty, LLC ("SFF Royalty") and \$2.4 million in SFF Production ("SFF Production") in exchange for a one-third ownership interest in each entity. Also on December 17, 2007, SFF Royalty and SFF Production acquired the following properties from Santa Fe Energy Trust (the "Trust") and Devon Energy Production Company, LP ("Devon"):

Acquiring Entity	Acquired from the Trust		Acquired from Devon		Total Purchase
	Description	Purchase Amount	Description	Purchase Amount	
SFF Royalty	Net profits interests in royalty interests owned by Devon	\$ 21,077,688	Royalty interests subject to Trust's net profits interests	\$ 2,254,662	\$ 23,332,350

Totals		\$ 27,149,813		\$ 2,904,193	\$ 30,054,006

To secure the \$10 million required for the investments in SFF Royalty and SFF Production, the Company issued Preferred Stock and short-term promissory notes and secured stub financing.

Class D Preferred Stock

429,100 shares of Class D Preferred Stock ("Preferred D") were issued at a share price of \$10 for total proceeds of \$4,291,000. Below is a summary of the significant characteristics of the Preferred D:

- o Pays a coupon of 8.5% annually.
- o Has limited voting rights.
- o Is not convertible into common stock.
- o Is redeemable upon demand by the Company.

Promissory Notes

The Company also signed promissory notes with the recipients of the Preferred D totaling \$2,709,000. Below is a summary of the significant characteristics of the promissory notes:

- o Due and payable on June 30, 2009.
- o Interest rate of Prime plus 1%. (6.00% at September 30, 2008).

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS September 30, 2008 (Unaudited)

The holders of the promissory notes were issued warrants to purchase a total of 450,000 shares of the Company's common stock at a strike price of \$6.02 per share. These warrants expire on June 30, 2009 and the proceeds from their issuance will be used to retire the related promissory notes. No value has been assigned to these warrants as shareholder approval is required before the warrants can be exercised.

Certain of the Company's Directors participated in this transaction and received shares of Preferred D stock, promissory notes and warrants, as described in Note M.

Stub Financing

In order to secure the cash required for the Company's investment in SFF Royalty and SFF Production on December 17, 2007, stub financing was arranged via the execution of two promissory notes with SoftVest, LP totaling \$3.5 million. These notes were due and payable on December 31, 2007 and carry an annual interest rate of 8.5%. The balance was paid on March 13, 2008.

As discussed in Note M, Mr. Eric Oliver, the Company's Chairman of the Board, is the Managing Partner of SoftVest, LP.

The Company's Investment in SFF Group consisted of the following at September 30, 2008:

NOTE R - DISCONTINUED OPERATIONS

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

Businesses to be Disposed of Other than by Sale

On June 25, 2008 the Company approved a plan to discontinue the operations of W Power. Management recommended this plan to the Board based on significant adverse changes in the business climate of the Texas retail electricity market. These conditions were exacerbated by the heightened volatility in commodity costs. The Company settled W Power's existing supply contracts and transferred its customers and their contracts to another retail electricity provider in the third quarter.

23

AMEN Properties, Inc. and Subsidiaries
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 September 30, 2008
 (Unaudited)

As a result of this plan all retail electric provider ("REP") operations will be eliminated from the Company's ongoing operations and the Company will not have any significant continuing involvement in the REP business. Given the current conditions in the Texas retail power market the Company does not believe there is a market to sell W Power and, as such, does not have an active program to locate a buyer of the business. The Company will not dispose of W Power's assets or liabilities by sale. Subsequent to the end of the third quarter the Company submitted notice to the Public Utility Commission of Texas that W Power intends to relinquish its REP license.

The Company believes it has accrued for all material costs related to the shutdown of W Power and has recorded an expense and liability for that amount. This expense was based on the Company's mark-to-market liquidation cost for its forward power contracts, retail power contracts, and other associated disposal costs. In addition, the company expensed an additional \$400 thousand related to changes in estimated unbilled revenue as the result of an increase of 1% in W Power's allowance for line-loss. Line-loss is energy waste resulting from the transmission of electrical energy across power lines. These losses occur due to the conversion of electricity to heat and electromagnetic energy. A small amount of loss occurs even in the most efficiently engineered systems. The company also impaired substantially all of the remaining assets and all of the accounts receivable for W Power.

In accordance with SFAS No. 144, the Company has included W Power in discontinued operations and recognized the loss associated with disposal in income (loss) from continuing operations.

The following is a summary of historical financial information about W Power for the nine months ended September 30:

operating loss carry forward.

In the third quarter the Company entered into agreements to liquidate its supply contacts and transfer its existing customer base. On July 9, 2008 W Power liquidated all of its forward positions in fixed price and floating price forward energy contracts dated after July 2008. The liquidation mark-to-market expense was approximately \$500 thousand.

On July 16, 2008, W Power entered into an asset purchase agreement with Green Mountain Energy Company ("Green Mountain") whereby Green Mountain purchased all but a few of the retail electricity customer agreements of W Power. This agreement was executed as part of the plan to discontinue the operations of W Power. The remainder of W Power's customers switched away or were transferred to another REP for a nominal cost.

Under the terms of the agreement, the parties transferred the acquired residential and commercial customers to Green Mountain. W Power's few remaining customers are being transitioned to other retail providers. At closing, W Power paid a mark-to-market payment to Green Mountain of \$190,762 for the purpose of covering the expected excess energy-related costs that Green Mountain will incur to provide electricity service to certain fixed price customers for the term of those customer agreements.

Businesses Held for Sale

In the first quarter of 2008, the Company adopted a plan to sell its online electricity brokering business, ChooseEnergy.com. Its primary business, as previously described, is to provide competitive electricity pricing alternatives for residential and small commercial electricity consumers. The Company completed the sale of ChooseEnergy.com subsequent to the end of the quarter.

In accordance with SFAS No. 144, the Company has reflected the operating results as discontinued operations in the consolidated statements of operations for all periods presented. There are no capitalized assets or depreciation expenses to be reflected on the consolidated balance sheet as held for sale.

ITEM 2. Management's Discussion and Analysis or Plan of Operation

The following discussion and analysis should be read in conjunction with the Company's unaudited consolidated financial statements and related footnotes presented in Item 1 and the Company's December 31, 2007 Form 10-KSB.

Overview

AMEN Properties, Inc. (the "Company") is in the business of acquiring profitable, cash-generating businesses with proven track records and the ability to create sustained value. The Company is a holding company and conducts its business through the following subsidiaries:

- o AMEN Delaware, LLC ("Delaware") - real estate investments
- o AMEN Minerals, LLC ("Minerals") - oil and gas royalties, other investments
- o W Power & Light, LLC ("W Power") - retail electricity provider in the State of Texas
- o Priority Power Management, LLC. ("Priority Power") - energy management, consulting and aggregation

Application of Critical Accounting Policies

Our discussion and analysis of financial condition and results of operations is based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, and contingencies as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. We evaluate our assumptions and estimates on an ongoing basis. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. These estimates form the basis for making judgments about the carrying values of assets and liabilities where that information is available from other sources. Certain estimates are particularly sensitive due to their significance to the financial statements. Actual results may differ significantly from management's estimates.

We believe that the most significant accounting policies that involve the use of estimates and assumptions as to future uncertainties and, therefore, may result in actual amounts that differ from estimates are the following:

- Impairments,
- Business combinations,
- Revenue recognition,
- Gain recognition on sale of real estate assets,
- Consolidation of variable interest entities,
- Allowance for doubtful accounts and
- Stock options

Impairments

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

Real estate and leasehold improvements are classified as long-lived assets held for sale or long-lived assets to be held and used. In accordance with SFAS No. 144, we record assets held for sale at the lower of carrying value or sales price less costs to sell. For assets classified as held and used, these assets are tested for recoverability when events or changes in circumstances indicate that the estimated carrying amount may not be recoverable. An impairment loss is recognized when expected undiscounted future cash flows from a Property is less than the carrying value of the Property. Our estimates of cash flows of the Properties requires us to make assumptions related to future rental rates, occupancies, operating expenses, the ability of the properties' tenants to perform pursuant to their lease obligations and proceeds to be generated from the eventual sale of our investment in the Properties. Any changes in estimated future cash flows due to changes in our plans or views of market and economic conditions could result in recognition of additional impairment losses.

If events or circumstances indicate that the fair value of an investment accounted for using the equity method has declined below its carrying value and we consider the decline to be "other than temporary," the investment is written down to fair value and an impairment loss is recognized. The evaluation of impairment for an investment would be based on a number of factors, including financial condition and operating results for the investment, inability to remain in compliance with provisions of any related debt agreements, and recognition of impairments by other investors. Impairment recognition would negatively impact the recorded value of our investment and reduce net income.

27

Business Combinations

We allocate the purchase price of acquired businesses to tangible and identified intangible assets acquired based on their fair values in accordance with SFAS No. 141, "Business Combinations." We initially record the allocation based on a preliminary purchase price allocation with adjustments recorded within one year of the acquisition.

In making estimates of fair value for purposes of allocating purchase price, management utilizes sources, including, but not limited to, independent value consulting services, independent appraisals that may be obtained in connection with financing the respective business, and other market data. Management also considers information obtained about each business as a result of its pre-acquisition due diligence in estimating the fair value of the tangible and intangible assets acquired.

The aggregate value of the tangible assets acquired is measured based on the sum of (i) the value of the property and (ii) the present value of the amortized in-place tenant improvement allowances over the remaining term of each lease. Management's estimates of the value of the property are made using models similar to those used by independent appraisers. Factors considered by management in its analysis include an estimate of carrying costs such as real estate taxes, insurance, and other operating expenses and estimates of lost rentals during the expected lease-up period assuming current market conditions. The value of the property is then allocated among building, land, site improvements, and equipment. The value of tenant improvements is separately estimated due to the different depreciable lives.

The aggregate value of intangible assets acquired is measured based on the difference between (i) the purchase price and (ii) the value of the tangible assets acquired as defined above. This value is then allocated among above-market and below-market in-place lease values, costs to execute similar leases (including leasing commissions, legal expenses and other related expenses), in-place lease values and customer relationship values.

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

Above-market and below-market in-place lease values for acquired properties are calculated based on the present value (using a market interest rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) management's estimate of fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining non-cancelable term of the lease for above-market leases and the initial term plus the term of the below-market fixed rate renewal option, if any, for below-market leases. We perform this analysis on a lease by lease basis. The capitalized above-market lease values are amortized as a reduction to rental income over the remaining non-cancelable terms of the respective leases. The capitalized below-market lease values are amortized as an increase to rental income over the initial term plus the term of the below-market fixed rate renewal option, if any, of the respective leases.

Management estimates costs to execute leases similar to those acquired at the property at acquisition based on current market conditions. These costs are recorded based on the present value of the amortized in-place leasing costs on a lease by lease basis over the remaining term of each lease.

The in-place lease values and customer relationship values are based on management's evaluation of the specific characteristics of each customer's lease and our overall relationship with that respective customer. Characteristics considered by management in allocating these values include the nature and extent of our existing business relationships with the customer, growth prospects for developing new business with the customer, the customer's credit quality, and the expectation of lease renewals, among other factors. The in-place lease value and customer relationship value are both amortized to expense over the initial term of the respective leases and projected renewal periods, but in no event does the amortization period for the intangible assets exceed the remaining depreciable life of the building.

Should a tenant terminate its lease, the unamortized portion of the in-place lease value and the customer relationship value and above-market and below-market lease values would be charged to expense.

Revenue Recognition

The Company's gross revenues for energy management services provided to our customers are recognized upon delivery and include estimated aggregation fees and other services delivered but not billed by the end of the period.

Accrued unbilled aggregation revenues are based on our estimates of customer electricity usage since the date of the last meter reading provided by the independent system operators or electric distribution companies. Volume estimates are based on average daily volumes, estimated customer usage and applicable customer aggregation rates. Unbilled aggregation revenues are calculated by multiplying volume estimates by our estimated rates by customer. Estimated amounts are adjusted when actual usage and rates are known and billed.

28

Leases with tenants are accounted for as operating leases. Minimum annual rentals are recognized on a straight-line basis over the terms of the respective leases.

Consolidation of Variable Interest Entities

We perform evaluations of each of our investment partnerships, real estate partnerships and joint ventures to determine if the associated entities

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

constitute a Variable Interest Entity, or VIE, as defined under Interpretations 46 and 46R, "Consolidation of Variable Interest Entities," or FIN 46 and 46R, respectively. In general, a VIE is an entity that has (i) an insufficient amount of equity for the entity to carry on its principal operations, without additional subordinated financial support from other parties, (ii) a group of equity owners that are unable to make decisions about the entity's activities, or (iii) equity that does not absorb the entity's losses or receive the benefits of the entity. If any one of these characteristics is present, the entity is subject to FIN 46R's variable interest consolidation model.

Quantifying the variability of VIEs is complex and subjective, requiring consideration and estimates of a significant number of possible future outcomes as well as the probability of each outcome occurring. The results of each possible outcome are allocated to the parties holding interests in the VIE and, based on the allocation, a calculation is performed to determine which party, if any, has a majority of the potential negative outcomes (expected losses) or a majority of the potential positive outcomes (expected residual returns). That party, if any, is the VIE's primary beneficiary and is required to consolidate the VIE. Calculating expected losses and expected residual returns requires modeling potential future results of the entity, assigning probabilities to each potential outcome, and allocating those potential outcomes to the VIE's interest holders. If our estimates of possible outcomes and probabilities are incorrect, it could result in the inappropriate consolidation or deconsolidation of the VIE.

For entities that do not constitute VIEs, we consider other GAAP, as required, determining (i) consolidation of the entity if our ownership interests comprise a majority of its outstanding voting stock or otherwise control the entity, or (ii) application of the equity method of accounting if we do not have direct or indirect control of the entity, with the initial investment carried at costs and subsequently adjusted for our share of net income or less and cash contributions and distributions to and from these entities.

Allowance for Doubtful Accounts

Our accounts receivable balance is reduced by an allowance for amounts that may become uncollectible in the future. Our receivable balance is composed primarily of billed and unbilled customer retail electricity usage flowed for a given period and billed and unbilled customer management fees based on electricity usage flowed for a given period. The allowance for doubtful accounts is reviewed at least quarterly for adequacy by reviewing such factors as the credit quality of our customers, any delinquency in payment, historical trends and current economic conditions. If the assumptions regarding our ability to collect accounts receivable prove incorrect, we could experience write-offs in excess of the allowance for doubtful accounts, which would result in a decrease in net income. The Company does not believe further collection on W Power's accounts is likely. As such, the allowance for doubtful accounts related to W Power's billed account receivables is equal to the entire outstanding receivable balance at September 30, 2008. Priority Power's trade accounts receivable arise from aggregation fees and other management services. An allowance for uncollectible accounts receivable is provided for amounts not expected to be collectible. As of September 30, 2008 the Company considers Priority Power's accounts receivable to be fully collectible; accordingly, no allowance for doubtful accounts is required.

Stock Options

The Company accounts for its stock-based compensation in accordance with SFAS No. 123R, Accounting for Stock-Based Compensation. In December 2004, the Financial Accounting Standards Board issued SFAS 123(R) effective for small business issuers after December 15, 2005. The new Statement requires mandatory reporting of all stock-based compensation awards on a fair value basis of

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

accounting. Generally, companies are required to calculate the fair value of all stock awards and amortize that fair value as compensation expense over the vesting period of the awards.

3Q08 vs. 3Q07

- o The change in 3rd quarter earnings from continuing operations from 2007 to 2008 was caused primarily by increased investment income from the Company's investment in the SFF Group. The Company recorded approximately \$574 thousand in investment income related to SFF Group for the quarter.
- o Priority Power generated approximately \$302 thousand in income for the quarter ended September 30, 2008 as compared to approximately \$596 thousand for the same quarter in 2007. This decrease in earnings was caused by flat revenue and an increase in payroll expenses related to the addition of sales staff.
- o W Power incurred a loss of approximately \$252 thousand for the quarter ended September 30, 2008 as compared to income of approximately \$34 thousand for the same quarter in 2007. The sharp decrease in earnings at W Power was caused primarily by charges related to the discontinuation of the business. The Company does not expect further material expenses related to W Power. (See Note R).

In the second quarter of 2008 W Power and Light experienced a significant adverse impact from price escalation in wholesale electricity and natural gas prices. Management determined that the escalation was likely to continue into the future. Additionally, the Company recognized significant changes in the ERCOT electricity spot market driven both by high natural gas prices and a fundamental shift in energy and capacity availability across Texas.

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

After noting these structural market changes, and assessing their impact on W Power's retail electricity business unit, management presented a plan to the Board of Directors to discontinue all retail electricity power operations. Recognizing the significant opportunities for business development, acquisitions, and growth in other areas of the Corporation, in addition to the large capital requirements to grow REP operations, the Board of Directors approved the plan to discontinue operations. The Company does not expect further material expenses related to W Power.

Revenues

- o The Company's consolidated revenues, after reclassifying W Power to discontinued operations, were approximately \$1.15 million for the quarter ended September 30, 2008, compared to \$1.17 million for the same quarter in 2007. This modest variation is primarily attributable to changes in Priority Power's customer portfolio and small changes in customers' energy usage.

Operating Expenses

- o Total operating expenses for the quarter ended September 30, 2008 and 2007 were \$1.1 million and \$894 thousand, respectively; this increase was primarily attributable to growth in general and administrative expenses as described below.
- o For the quarter ended September 30, 2008 general and administrative costs increased approximately \$355 thousand versus the same quarter in 2007. This increase is primarily associated with growth in the Priority Power sales force and audit fees related to the Company's investment in the SFF Group.

Other (expense) income

For the quarter ended September 30, 2008 as compared to the same quarter in 2007 the Company experienced an increase of approximately \$563 thousand in other income. This increase was caused by the following factors:

- o Earnings from the Company's investment in the SFF Group of approximately \$574 thousand.
- o An increase of approximately \$37 thousand in income from the Yarborough Allen Field.
- o A decrease of approximately \$76 thousand in interest income resulting from a reduction in interest bearing cash deposits.

30

First nine months of 2008 vs. First nine months of 2007

- o The increase in earnings from continuing operations from 2007 to 2008 was caused primarily by \$1.4 million in earnings from the Company's investment in the SFF Group as well as the recognition in 2008 of a \$535 thousand gain from the final distribution paid to the Company as a unit-holder in the Santa Fe Energy Trust.
- o Priority Power generated approximately \$1.2 million in net income for the nine months ended September 30, 2008 as compared to a net income of approximately \$1.6 million for the nine month ended September 30, 2007. The reduction in income is primarily attributable to increased payroll expenses resulting from the addition of sales people.

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

- o W Power incurred a loss of approximately \$1.5 million for the nine months ended September 30, 2008 as compared to net income of approximately \$615 thousand for the nine months ended September 30, 2007. The sharp decrease in earnings at W Power was caused primarily by charges related to the discontinuation of retail electric operations and adjustments in line loss estimates. (See Note R).

Revenues

- o The Company's consolidated revenues, after reclassifying W Power to discontinued operations, were approximately \$3.5 million for the nine months ended September 30, 2008, compared to \$2.9 million for the nine months ended September, 2007. This change is primarily due to an increase in aggregation fee revenue and \$300 thousand earned as part of a power plant development contract recognized in the first quarter of 2008.

Operating Expenses

- o Total operating expenses for the nine months ended September 30, 2008 and 2007 were \$3.3 million and \$2.3 million, respectively; this increase was primarily attributable to growth in general & administrative expenses as described below.
- o For the nine months ended September 30, 2008 general and administrative costs increased approximately \$945 thousand versus the nine months ended September 30, 2007. This increase is primarily associated with growth in the Priority Power sales force and corporate governance costs such as Sarbanes Oxley compliance.

Other (expense) income

For the nine months ended September 30, 2008 as compared to the nine months ended September 30, 2007 the Company experienced an increase of approximately \$1.7 million in other income. This increase was caused by the following factors:

- o The final distribution made to the Company as a unit-holder in the Santa Fe Energy Trust, which resulted in a gain of approximately \$535 thousand.
- o Earnings from the Company's investment in the SFF Group of approximately \$1.4 million.
- o The Company also had an increase of approximately \$100 thousand in interest expense, primarily related to acquisition related debt and a decrease of interest income of approximately \$148 thousand, primarily related to a reduction in interest bearing cash deposits.

Book Value per Share

The primary metric that the Company's management uses when making operating and investment decisions is Book Value per Share ("BVPS"). BVPS is calculated as Total Shareholder Equity divided by the Fully Diluted Number of Shares Outstanding as of the measurement date. Management's belief is that if the Company consistently delivers increases in BVPS, it will maximize value to the shareholder over the long term. As of September 30, 2008 the Company's BVPS is \$3.95 compared to \$3.97 at September 30, 2007.

Analysis of Cash Flows

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

Operating Activities

During the first nine months of 2008, net cash used in operating activities was approximately \$592 thousand. This was driven by a number of factors:

- Income from continuing operations of approximately \$2 million
- Cash outflows of approximately \$1 million for W Power's exit from the retail electric market.
- Earnings of \$1.4 million from the Company's investment in SFF Group.

31

Investing Activities

For the first nine months of 2008, the net cash provided by investing activities was approximately \$6.2 million. This was driven by three primary activities:

- Liquidation of the Company's investment in the Santa Fe Energy Trust, which provided \$4.0 million in cash.
- Distributions totaling \$2.6 million from the SFF Group.
- The purchase of the Yarborough Allen Field assets for \$1.7 million.
- A decrease in restricted cash which provided \$1.7 million in cash.

Based on current commodity prices and production volumes, the Company expects to receive regular cash distributions from SFF Group ranging from approximately \$300 - 500 thousand per quarter.

Financing Activities

Net cash used in financing activities for the first nine months of 2008 was approximately \$4.0 million. This is primarily related to repayment of notes for the purchase of Priority Power (the "NEMA" notes - See Note L) and stub financing related to the purchase of an interest in the SFF Group (See Note Q). Additionally, the Company paid \$274 thousand in preferred dividends on the Preferred Class D stock in the first nine months of 2008.

Currently, the Company has a net operating tax loss ("NOL") carry forward in excess of \$28 million. This NOL is mainly related to the Company's operations prior to the Company presenting the 2002 business plan to shareholders. The Company believes that the utilization, without limitation, of the Company's NOL will be determined by the ability of management to limit the issue of new equity due to IRC Section 382 restrictions.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

Item 6, "Management's Discussion and Analysis or Plan of Operation" of the Company's Annual Report on Form 10-KSB for the year ended December 31, 2007, contains a detailed discussion of our risk factors under the subheading "Risk Factors". There are no material changes in our risk factors as previously described in our Annual Report on Form 10-KSB for the year ended December 31, 2007.

ITEM 4T. Controls and Procedures

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting. The Company uses a risk-based business process activity approach for its assessment of internal

Edgar Filing: AMEN PROPERTIES INC - Form 10-Q

control. This approach is based on the framework provided by the Committee of Sponsoring Organizations ("COSO") of the Treadway Commission.

The Company documents its assessment of internal controls over financial reporting to allow for internal review and to facilitate evaluation of the adequacy of management's documentation. The documentation includes the following:

- o The design of controls over all relevant assertions related to all significant accounts and disclosures in the financial statements;
- o Information about how significant transactions are initiated, authorized, recorded, processed, and reported;
- o Sufficient information about the flow of transactions to identify the points at which material misstatements due to error of fraud could occur;
- o Controls designed to prevent or detect fraud, including who performs the controls and the related segregation of duties;
- o Controls over the period-end financial reporting process;
- o Controls over the safeguarding of assets; and
- o The results of management's testing and evaluation.

The Company's management believes it maintains an adequate and effective system of controls over financial reporting.

There have not been any changes in the Company's disclosure controls and procedures during the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's disclosure controls and procedures over financial reporting.

32

The Company's annual report for December 31, 2007 did not include an attestation report of the company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the company to provide only management's report in its annual report.
