Item 1.01 Entry into a Material Definitive Agreement

On June 12, 2011, Miller Energy Resources, Inc. (“Miller”) entered into a Contract for Construction and Sale with Voorhees Equipment and Consulting, Inc. (“Voorhees”) for the custom construction and purchase of a drilling rig to be used on our Osprey offshore platform. The contract sets a total purchase price of \$17,927,770 for the rig, which is payable in five payments as follows: an initial deposit of \$1,000,000; a first progress payment payable within 14 days of the execution of the contract of \$4,975,923; a second progress payment of \$5,975,923, payable 30 days after the first progress payment; a final progress payment of \$5,725,923, payable upon shipment of the rig; and a final payment of \$250,000 upon our acceptance of the rig. Two \$250,000 bonuses are earnable by Voorhees if (1) all of the component parts of the rig are shipped within 60 days of receipt of the first progress payment; and (2) if the rig is fully assembled and set up within 60 days after the component parts are received in Nikiski, Alaska.

Miller has the right to employ an independent inspection agency to certify that the rig has been constructed in the proper manner. The parties have estimated that the rig could be fully assembled and operational within 150 days from the receipt of the first progress payment. The title to the rig shall vest in Miller in three stages as the three progress payments are made.

In connection with the credit facility announced on June 13, 2011, we have also entered into a Collateral Assignment of Platform Rig Contract (the “Collateral Assignment”) with Guggenheim Corporate Funding, LLC as administrative agent under the loan documents. The Collateral Assignment assigns all of our right, title, and interest in the rig as it is built, and allows the administrative agent to step into our shoes under the Contract for Construction and Sale if a default occurs.

The foregoing description is qualified in its entirety by reference to the full text of the Contract for Construction and Sale, and the Collateral Assignment, filed as Exhibits 10.47 and 10.48, respectively, hereto and incorporated by reference herein.
