PROXY STATEMENT

TO THE SHAREHOLDERS OF TRI-VALLEY CORPORATION:

GENERAL INFORMATION ABOUT THE SHAREHOLDERS MEETING

The only items of business which management intends to present at the meeting are listed in the Notice of Annual Meeting of Shareholders. This proxy statement provides details about the meeting.

The proxy material relating to Tri-Valley Corporation from our Board of Directors is provided to you as the direct or beneficial owner of our common stock, with our sincere request that you give those materials your prompt and thorough consideration. Your vote at the annual meeting is important to Tri-Valley.

The board of directors of Tri-Valley Corporation hereby solicits your proxy (on the enclosed proxy form) for use at our Annual Meeting of Shareholders to be held October 17, 2009, at 9:30 A.M. (local time) at The Four Points Sheraton, 5101 California Avenue, Bakersfield, California 93309.

By returning your signed proxy ballot, you authorize management to vote your shares as you indicate on these items of business and to vote your shares in accordance with management's best judgment in response to proposals initiated by others at the meeting.

Our administrative office is located at 4550 California Avenue, Suite 600, Bakersfield, California 93309. The approximate date on which this proxy statement and proxy will first be sent to the shareholders is September 30, 2009. The costs of this proxy notification will be paid by the company and are estimated to be approximately \$10,500. A professional proxy solicitor has not been engaged.

If you are unable to attend this meeting, we request that you returned the enclosed proxy ballot, properly executed, in order that your shares will be represented and voted at the meeting.

Changing or Revoking Your Proxy Vote

You may revoke your proxy at any time before it is exercised at the annual meeting. You may do this by advising our secretary in writing of your desire to revoke your proxy, or by submitting a duly executed proxy ballot bearing a later date. We will honor the proxy ballot with the latest date. You may also revoke your proxy by attending the annual meeting and indicating that you wish to vote in person.

Who May Vote

As of August 3, 2009, 27,623,967 shares of our common stock were outstanding. Each share is entitled to one vote per director in the election of directors and one vote in all other matters to be voted upon at the meeting. **Shareholders of record as of the close of business at 5:00 P.M. on Tuesday, August 18, 2009, are the only persons entitled to vote at this meeting.**

Voting in Person

Although we encourage you to complete and return your proxy to ensure that your vote is counted, you can attend the annual meeting and vote your shares in person.

How Your Votes Are Counted

We will hold the annual meeting if holders of a majority of the outstanding shares are present either in person or by proxy. If you sign and return your proxy ballot, your shares will be counted to determine whether we have a quorum even if you abstain or fail to vote on any of the matters listed on the proxy card.

The vote of a plurality of the shares present at the meeting, in person or by proxy, is necessary to elect directors.

Voting by Street Name Holders

If your shares are held in a brokerage account or by another nominee, you are considered the beneficial owner of shares held in street name, and these proxy materials are being forwarded to you by your broker or nominee (the record holder) along with a voting instruction card. As the beneficial owner, you have the right to direct your record holder how to vote your shares, and the record holder is required to vote your shares in accordance with your instructions. If you do not give instructions to your record holder, the record holder will be entitled to vote your shares in its discretion on Proposal 1 (Election of Directors), but will not be able to vote your shares on Proposals 2, 3 or 4, and your shares will be considered a broker non-vote on those proposals.

As the beneficial owner of shares, you are invited to attend the annual meeting. Please note, however, that if you are a beneficial owner, you may not vote your shares in person at the meeting unless you obtain a legal proxy from the record holder that holds your shares.

ABSTAINING IS THE SAME AS VOTING NO

If you mark "Abstain" with respect to any proposal on your proxy ballot, your shares will be counted in the number of votes cast. **However, a vote to Abstain has the same effect as voting no. Management requests that you vote either For or Against on each proposal to come**

before the meeting.

A "broker non-vote" occurs when a broker or other nominee submits a proxy for your shares but does not indicate a vote for a particular proposal because the broker does not have authority to

2

vote on that proposal and has not received voting instructions from you. A broker non-vote will have the same effect as a No vote on Proposal 1. Because brokers may not vote on Proposals 2, 3 or 4, broker non-votes will not have any effect on those proposals.

ITEMS OF BUSINESS

Proposal 1: ELECTION OF DIRECTORS

The Board of Directors consists of seven (7) members. At the 2008 annual meeting, eight (8) directors were elected. In November 2008, Director William H. Marumoto passed away, and he was not replaced on the Board. The Board has determined to reduce the size of the Board to stand for election at the upcoming meeting to seven members. Each director serves for a term of one (1) year. All seven (7) director positions are up for election at the meeting. All seven of the currently serving directors have been nominated for re-election. All seven of the currently serving directors were elected by the shareholders at the 2008 annual meeting.

Voting

The seven nominees receiving the highest number of votes will be elected. Proxies solicited by the board of directors will be voted in favor of each nominee unless shareholders specify otherwise in their proxies. Should any of the nominees become unavailable at the time of the meeting to accept nomination or election as a director, the proxy holders named in the enclosed proxy will vote for substitute nominees at their discretion. Votes withheld for a nominee will not be counted. Our certificate of incorporation does not provide for cumulative voting in elections for director, and cumulative voting for directors will not be permitted at the annual meeting.

The Board of Directors unanimously recommends a vote FOR the election of each of the following seven nominees for director.

Each director must be elected by a plurality vote of the shares represented at the meeting.

Nominees for the Board of Directors

Each nominee for director was unanimously nominated by the Nominating and Corporate Governance Committee and by the Board of Directors, including all of the independent directors.

The following pages describe the nominees for director, including their principal occupations for the past five years, certain other directorships, age, length of service as a Tri-Valley director, membership on committees, and attendance at Board and committee meetings. Executive Compensation

Compensation Discussion and Analysis

The core mission of Tri-Valley Corporation is *to increase the value and liquidity of Tri-Valley stock in order to build the wealth of Tri-Valley Corporation investors*. To fulfill this mission, we have developed a tightly defined business strategy. This strategy is to identify, obtain, and transform exploration projects of exceptional size and potential where exploration, discovery, and operational success may substantially grow the intrinsic value of the company and market value of its stock to investors.

Tri Valley strives to incorporate a "team" approach to its business in order to achieve strong operating and financial results. Consistent with this philosophy, Tri-Valley maintains a policy of executive compensation commensurate with long-term risk-value assumed by Tri-Valley Corporation investors and shareholders. Consequently, Tri-Valley's Chief Executive Officer compensation is structured in the form of a base cash compensation recognized to be below comparative peer corporate levels, coupled with stock options which may result in competitive to above-competitive levels at some future date, depending on the market performance of TIV's stock.

The philosophy of low base salary coupled with options has now been implemented in the recruitment of executives at the Vice President level of Tri-Valley and its subsidiary companies. This approach has proven successful in attracting key talented individuals with

Edgar Filing: TRI VALLEY CORP - Form DEF 14A

major industry experience who share the Company's long-term shareholder value philosophy and performance motivation. Given the competitive human resources market and industry within which Tri-Valley Corporation operates, equity options are now being used to secure key staff and operating personnel within the organization as a means to counterbalance lower base compensation.

Overview of Tri-Valley Corporation Executive Compensation Program

This Compensation Discussion and Analysis (CD&A) reviews the compensation policies and decisions of the Personnel and Compensation Committee with respect to the following individuals:

F. Lynn Blystone, CEO and President, Tri-Valley Corporation

Arthur M. Evans, CFO, Tri-Valley Corporation

Joseph Kandle, President, Tri-Valley Oil & Gas

James G. Bush, President, Select Resources, Tri-Valley Corporation

Tri-Valley Corporation executive compensation program has fixed compensation elements, which comprise base salary and benefits, as well as variable compensation elements related to performance. Each compensation component is described in further detail below.

Objectives of Tri-Valley Corporation Executive Compensation Program

Tri-Valley Corporation believes the skill and dedication of Tri-Valley Corporation executive officers and other management personnel are critical factors impacting Tri-Valley Corporation's long-term success in meeting its business objectives as well as fostering growth and profitability. Accordingly, the Personnel and Compensation Committee has designed Tri-Valley Corporation's compensation program in accordance with the company's compensation philosophy, the objectives of which are to:

motivate and retain Tri-Valley Corporation current executive officers,

attract new executives with the requisite skill sets to implement and achieve Tri-Valley Corporation business strategy, and

align executive compensation with the attainment of strategic business objectives that increase shareholder value.

Setting Executive Compensation and Role of the Personnel and Compensation Committee, Management, and Corporate Board of Directors

The Personnel and Compensation Committee reviews, monitors, evaluates and recommends Tri-Valley Corporation executive compensation policies and programs to the Corporate Board of Directors. The Committee recommends both current compensation levels and short and long term incentives for Tri-Valley Corporation executives to the Corporate Board of Directors. In order to perform its function, the Personnel and Compensation Committee relies, in part, on

input from the Chief Executive Officer and other members of senior management in determining the needs of Tri-Valley Corporation and their perceptions of the employment market environment in which the corporation operates. Input from the human resources department of Tri-Valley Corporation is important in determining availability of talent, and, from the Chief Financial Officer, in determining appropriate resource ability of the company for compensation.

Use of Benchmarking and Peer Company Comparisons

The Personnel and Compensation Committee strives to support an executive compensation program that is structured to provide Tri-Valley Corporation executive officers with compensation packages which are commensurate with the Corporation's size and sufficient to retain personnel considered essential. To achieve this objective, the Personnel and Compensation Committee compares all compensation components for Tri-Valley Corporation executive officers, at least annually, with data on similar positions at other organizations in Tri-Valley Corporation industry that are similar in number of employees, level of operations, gross revenue and total assets with which we compete for talent.

Tri-Valley researched comparative market data on executive compensation practices and programs (the Survey Data) based on an analysis of six (6) energy related companies that are competitors of Tri-Valley Corporation (the Peer Group). The Peer Group, reviewed annually by the Personnel and Compensation Committee, is used to benchmark executive compensation levels against companies that have executive positions with responsibilities similar in breadth and scope to Tri-Valley Corporation and have global businesses that compete with us for executive talent. With this information, the Personnel and Compensation Committee reviews and analyzes the Survey Data for each senior executive officer as well as general economic conditions and marketplace compensation trends, and recommends adjustments as appropriate.

The following six (6) companies comprised the Peer Group used for the Personnel and Compensation Committee's 2008 compensation decisions: Gasco Energy, Panhandle Oil & Gas, PrimeEnergy, CanArgo Energy, Meridian Resources and Tri-Valley Corporation and Double Eagle Petroleum. These companies were selected as peers based upon the fact that all six (6) of the peer companies are in the oil exploration and production industry, based on the availability of the data related to the company, based on the level of operational sophistication, and based on market capitalization. Tri-Valley uses the same six (6) companies in its corporate Survey Data and Peer Group for last year's 2007 Annual Report. The corporation believes that the Peer Group used for Tri-Valley Corporation compensation decisions provides a more appropriate comparison for Tri-Valley Corporation compensation program.

In addition to the Peer Group noted above, the Personnel and Compensation Committee uses nationally recognized compensation surveys to assess the broader market competitiveness of Tri-Valley Corporation executive compensation. This data is the product of published and private surveys Tri-Valley Corporation representing compensation amounts for similar positions within Tri-Valley Corporation industry. The Personnel and Compensation Committee uses data from these surveys to provide additional data against which they may compare the competitiveness of Tri-Valley Corporation executive compensation based against the broader market. Collectively, this competitive market data provides a frame of reference for the Personnel and Compensation

Edgar Filing: TRI VALLEY CORP - Form DEF 14A

Committee when evaluating executive compensation, but is not the determinative factor for the compensation of Tri-Valley Corporation executive officers.

By comparing the Peer Group numbers to the Tri-Valley executive compensation table, Tri-Valley baseline executive compensation is approximately 25% of industry average for President/CEO and 35% of industry average for Senior Officers and Vice-Presidents.

These results assure shareholders that Tri-Valley Corporation does not engage in excessive executive compensation. It is further assurance that Tri-Valley Corporation executives, like Tri-Valley Corporation shareholders, accept compensation based upon the long-term performance of TIV toward its ultimate attainment of rewards tomorrow that would in other organizations be received today.

Section 162(m). The Company believes that all compensation paid or payable to its executive officers covered under Section 162(m) of the Internal Revenue Code will qualify for deductibility under such Section.

Compensation Components

Tri-Valley Corporation executive and key management compensation is comprised of three major components: (1) base salary evaluated annually by the Personnel and Compensation Committee, with recommendations to the Board as appropriate; (2) non-guaranteed annual cash bonuses awarded based on individual performance and the performance of Tri-Valley Corporation company; and (3) long-term equity-based incentives, typically delivered through stock option and/or restricted stock grants awarded based on individual performance and the performance of Tri-Valley Corporation. Tri-Valley Corporation executive officers may also be eligible for other elements of indirect compensation, comprised of health and welfare benefits, retirement and savings plans and certain perquisites. These are provided on a non-discriminatory basis to all of Tri-Valley Corporation employees. The Personnel and Compensation Committee considers each of these elements when evaluating the overall compensation program design.

Base Salary

The Personnel and Compensation Committee establishes base salaries that are sufficient to attract and retain individuals with the qualities it believes necessary for Tri-Valley Corporation long-term financial success and that are competitive in the marketplace. An executive officer's base salary generally reflects the officer's responsibilities, risk, tenure, job performance, and direct competition for the executive officer's services. The Personnel and Compensation Committee reviews the base salaries of each executive officer, including the Chief Executive Officer, on an annual basis. In addition to these annual reviews, the Personnel and Compensation Committee may at any time review the salary of an executive officer who has received a significant promotion, whose responsibilities have been increased significantly or who is the object of competitive pressure. Any adjustments are based on the results of the annual review of market salary data, increases in the cost of living, job performance of the executive officer over time and the expansion of duties and responsibilities, if any. No pre-determined weight, formula, or emphasis is placed on any one of these factors.

Annual Cash Bonus Awards

No Guaranteed Bonuses. There are no guaranteed annual bonuses per the employment contracts of all Tri-Valley executives.

Annual Incentive Compensation. Annual cash bonus awards are subjective and non-guaranteed. If distributed, annual cash bonus awards are intended to compensate, and thus provide incentives to, individuals for exceptional effort and job performance, thereby facilitating Tri-Valley Corporation's continued growth and success by providing rewards that are commensurate with individual achievement. Cash bonus awards are favored by the Personnel and Compensation Committee in situations where it believes that an executive is worthy of an incentive-based award and when it believes that the base salary of such executive is not at the level of competitiveness that the Personnel and Compensation Committee feels appropriate. The Personnel and Compensation Committee considers the achievements of Tri-Valley Corporation, and the employee's relationship thereto, in order to determine the level of the cash bonus, if any, to be awarded. The Personnel and Compensation Committee's considerations focus on Tri-Valley Corporation earnings, the return on shareholders' equity, the growth in proved oil and gas reserves and the successful completion of specific projects to determine the level of bonus awards, if any.

Long-Term Equity Based Incentives

Stock option and restricted stock awards are utilized for aligning the executives' interests with those of the shareholders by giving each executive an individual direct ownership in Tri-Valley Corporation. The company further believes these awards serve as an incentive to remain with Tri-Valley Corporation since unvested stock grants and options are forfeited should the executive terminate their employment. The Personnel and Compensation Committee focuses on Tri-Valley Corporation's earnings, the return on shareholders' equity, growth in proved oil and gas reserves and the successful completion of specific projects to determine the level of stock option and restricted awards, if any. The Personnel and Compensation Committee recommends awards of stock options in order to provide a form of tangible compensation which is also tied to Tri-Valley Corporation performance and provides incentives to retain an employee. Stock option awards are given as long-term incentives to Tri-Valley Corporation employees to establish a vested interest in Tri-Valley Corporation performance and to remain an employee over the long term. Decisions to grant stock options are normally made when industry conditions cause concern of serious employee turnover. Periodic long-term equity based incentives are recommended by the Personnel and Compensation Committee to the executive officers.

Other Benefits

In addition to base salaries, annual cash bonus awards and long-term equity-based incentives, Tri-Valley Corporation provides the following other forms of compensation:

401(k) Profit Sharing Plan. TIV has a defined contribution profit sharing/401(k) plan, designed to assist Tri-Valley Corporation eligible officers and employees in providing for their retirement. The company matches the contributions of Tri-Valley Corporation employees to the plan, in cash, at the rate of up to three percent (3%) of an employee's wages or salary. Tri-Valley Corporation matching contribution vests immediately upon receipt.

Health and Welfare Benefits. Tri-Valley Corporation executive officers are eligible to participate in medical, dental, vision, life insurance, and flexible healthcare spending accounts to meet their health and welfare needs. These benefits are provided so as to assure a competitive compensation position in terms of attracting and retaining officers and other employees. This is a fixed component of compensation and the benefits are provided on a non-discriminatory basis to all employees.

Employment Agreements, Severance Benefits, and Change in Control Provisions

Tri-Valley Corporation maintains employment and other compensatory agreements with certain of its corporate officers to ensure they will perform their roles for an extended period of time. Certain provisions contained in these agreements, such as change in control payments are essential to retaining Tri-Valley Corporation talent and protecting Tri-Valley Corporation stockholders. The company believes it is appropriate to compensate individuals to refrain from working with competitors following termination, and its compensation enhances the enforceability of such agreements. These executive agreements and Tri-Valley Corporation severance terminology are described in more detail elsewhere within this report. These agreements provide for severance compensation to be paid should the officer's employment terminate under certain defined conditions, such as among others, following a corporate change, involuntary termination, termination by us for cause, death or disability, each as defined in the applicable executive's agreement.

The employment and other compensation agreements between Tri-Valley Corporation and the *Named Executive Officers* and the related severance provisions are designed to provide incentive to those officers to remain in Tri-Valley Corporation employ. Tri-Valley Corporation agreements with the Named Executive Officers provide different types of compensation for terminations with cause, termination without cause and for circumstances involving a change of control of the company. By providing minimal or no benefits in the cases of voluntary resignation or termination with cause, the Named Executive Officers are motivated to remain in the employ of Tri-Valley and perform their duties as required. On the other hand, they are given security and are encouraged to remain with Tri-Valley Corporation by providing extra compensation and benefits in the event of termination without cause or in conjunction with a change in control.

Stock Ownership Guidelines and Hedging Prohibition

Tri-Valley Corporation Insider Trading Policy prohibits Tri-Valley Corporation executive officers from entering into certain types of derivative transactions related to Tri-Valley Corporation common stock.

Tax Treatment of Executive Compensation Decisions

In conducting Tri-Valley Corporation executive compensation programs, the Personnel and Compensation Committee considers the effects of Section 162(m) of the Internal Revenue Code, which denies publicly-held companies a tax deduction for annual compensation in excess of \$1 million paid to their chief executive officer or any of the corporation's four other most highly compensated corporate officers, other than the chief financial officer, who is employed on the last day of a given year, unless their compensation is based on performance criteria that are established by a committee of outside directors and approved, as to their material terms, by Tri-Valley Corporation stockholders. The company has in the past and may from time to time in the future, pay compensation that is not deductible to Tri-Valley Corporation executive officers.

Accounting Treatment of Executive Compensation Decisions

Tri-Valley Corporation accounts for stock-based awards based on their grant date fair value, as determined under Statement of Financial Accounting Standards Board No. 123 (revised 2004), *Share-Based Payment* (SFAS 123(R)). Compensation expense for these awards, to the extent such awards are expected to vest, is recognized on a straight-line basis over the requisite service period of the award (or to an employee's eligible retirement date, if earlier). If the award is subject to a performance condition, however, the cost will vary based on Tri-Valley Corporation estimate of the number of shares that ultimately will vest over the requisite service or other period over which the performance condition is expected to be achieved. In connection with its approval of stock-based awards, the Personnel and Compensation Committee is cognizant of and sensitive to the impact of such awards on stockholder dilution. The Personnel and Compensation Committee also endeavors to avoid stock-based awards made subject to a market condition, which may result in an expense that must be marked-to-market on a quarterly basis. The accounting treatment for stock-based awards does not otherwise impact the Personnel and Compensation Committee's compensation recommendations to the Board of Directors.

Personnel and Compensation Committee Report

The Personnel and Compensation Committee has reviewed and discussed the foregoing Compensation Discussion and Analysis with management, and based upon such review and discussion, it has recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Company's Annual Report on Form 10-K.

Submitted by the Personnel and Compensation Committee of the Board of Directors.

Employment Agreement with Our President

We have an employment agreement with F. Lynn Blystone, our President and Chief Executive Officer, which ends on January 1, 2011. The terms of the contract are for a base salary amount of \$210,000 per year plus 5,000 shares of our common stock at the end of each year of service. Mr. Blystone is also entitled to a bonus (not to exceed \$25,000) equal to 10% of net operating cash flow before taxes, including interest income and excluding debt service. Mr. Blystone is also entitled to a bonus of 4% of the company's annual net after-tax income. The total of the bonuses from cash flow and net income may not exceed \$50,000 per year, although the Board of Directors may authorize additional bonuses and compensation if it so desires. The employment agreement also provides a severance payment to Mr. Blystone if he is terminated within 12 months after a sale of control of Tri-Valley. The severance payment equals \$150,000. For purposes of the severance provision, a sale of control is deemed to be the sale of ownership of 30% of the outstanding stock of Tri-Valley or the acquisition by one person of enough stock to appoint a majority of the board of directors of the company.

We carry key man life insurance of \$500,000 on Mr. Blystone's life.

Employee Pension, Profit Sharing or Other Retirement Plans

During 2008, the Company established a 401-K program allowing for the deferral of employee income. The plan provides for the Company to contribute 3% of gross wages. For the year ended December 31, 2008 the Company contributed \$91,580 to such plan.

Audit Fees

The following table lists the fees that we paid to our independent auditors in 2008 and 2007:

Year	Audit Services	Tax Services	Audit Related
2008	\$ 103,607	\$28,226	\$32,303
2007	\$ 132,592	\$60,390	\$54,202

All of our auditors were full time, permanent employees of the accounting firm auditing our financial statements.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditors

The Audit Committee pre-approves all audit and non-audit services provided by the independent auditors prior to the engagement of the independent auditors with respect to such services. The Chairman of the Audit Committee has been delegated the authority by the Committee to pre-approve interim services by the independent auditors other than the annual exam. The Chairman must report all such pre-approvals to the entire Audit Committee at the next committee meeting.

Proposal 2: INCREASE AUTHORIZED SHARES OF PREFERRED STOCK

Stockholders are being asked to approve a 15,000,000 share increase (from 5,000,000 to 20,000,000 shares) in the number of authorized shares of preferred stock in order make additional shares available for capital formation by means of equity investments in the Company. The Company currently has 100,000 shares of preferred stock outstanding as a result of a sale of preferred shares to a director in July 2009. If the amendment is approved, the Company would have 19,900,000 shares of preferred stock available for issuance. If the amendment is not approved, the Company will continue to have 4,900,000 shares of preferred stock available for issuance. The preferred shares could be issued from time to time for such purposes and consideration as the Board of Directors may determine to be appropriate without further action by the shareholders, except for those instances where applicable law or stock exchange rules require shareholder approval.

The Company is considering ways to increase its shareholders' equity, including the issuance of preferred shares, and the increase in the number of authorized preferred shares is recommended in the event they are needed for future capital formation purposes. However, the Company presently has no commitments, understandings or agreements to issue any more preferred shares.

The authorization of additional shares of preferred stock will not, by itself, have any effect on the rights of present shareholders. Under the Company's Amended and Restated Certificate of Incorporation, the Company's shareholders do not have preemptive rights to subscribe for additional shares of capital stock which may be issued by the Company, which means that current shareholders do not have a prior right to purchase any new issue of capital stock of the Company in order to maintain their proportionate ownership of such shares. This is also the case with the currently authorized shares of preferred stock. In addition, if the Board of Directors elects to issue additional shares of preferred stock, such issuance could have a dilutive effect on the earnings per share, voting power and holdings of current shareholders.

Anti-Takeover Effects

The authorized but unissued shares of preferred stock could have anti-takeover effects. Under certain circumstances, any or all of the preferred stock could be used as a method of discouraging, delaying or preventing a change in control of the Company. For example, the Board could designate and issue a series of preferred stock with voting rights that sufficiently increases the number of outstanding voting shares to overcome a vote by the holders of common stock or with rights and preferences that include special voting rights to veto a change in control.

Use of preferred stock in the foregoing manner could delay or frustrate a merger, tender offer or proxy contest, the removal of incumbent Directors, or the assumption of control by shareholders, even if such proposed actions would be beneficial to the Company's shareholders. This could include discouraging bids for the Company even if such bid represents a premium over the Company's then-existing trading price and thereby prevent shareholders from receiving the maximum value for their shares.

Approval of Amendment

An amendment to Article Four of the Company's Certificate of Incorporation is required to increase the number of authorized shares. The text of this proposed amendment no. 1 is attached to this proxy statement as Appendix A. If the amendment is approved, it will become effective upon filing a certificate of amendment with the Secretary of State of Delaware, which the Company expects to do shortly after the annual meeting. The affirmative vote of a majority of the Company's shareholders represented and entitled to vote at the meeting is required to approve the proposal. With respect to this vote, abstentions will have the effect of a no vote and broker non-votes will have no effect on the vote.

The Board of Directors recommends a vote FOR adoption of the amendment to our Certificate of Incorporation to increase the number of shares of authorized preferred stock.

Proposal 3: AUTHORIZE BOARD OF DIRECTORS TO DESIGNATE SERIES AND SET TERMS OF PREFERRED STOCK

Under Delaware law, the shareholders may authorize the Board of Directors to issue separate series of preferred stock and to designate the terms of the shares of preferred stock of each series. The Board recommends that the shareholders also adopt a second amendment to Article Four of the Certificate of Incorporation to permit the Board to designate series of preferred stock with differing rights and preferences, including:

The number of shares and title of each series;

Dividends, if any, to be paid on shares of preferred stock, whether dividends are to be paid in cash, securities or other consideration, and the relation dividends on one series will bear to other series or classes of stock;

Edgar Filing: TRI VALLEY CORP - Form DEF 14A

Whether the shares are redeemable at the option of the corporation or callable at the option of the shareholder;

Whether a series receives any preference over other shares or series upon liquidation of the corporation;

Restrictions on the issuance of additional shares of the same series or other series; and

Voting rights, if any, of the holders of the shares.

The Board of Directors believes that the shareholders should grant to the Board the authority to make the decisions described above with respect to future preferred stock issuances. Issuance of preferred stock is often the subject of negotiation with underwriters or potential investors, and the Board will require the flexibility to determine the rights and preferences of preferred series in order to effectively raise capital. The alternative to adopting this amendment would be to require shareholder approval of any separate issuance of a series of preferred stock, which would be unworkable.

An amendment to Article Four of the Company's Certificate of Incorporation is required to permit the Board to issue preferred shares in series and designate the terms of each series. The text of this proposed amendment no. 2 is attached to this proxy statement as Appendix B. If the amendment is approved, it will become effective upon filing a certificate of amendment with the Secretary of State of Delaware, which the Company expects to do shortly after the annual meeting. The affirmative vote of a majority of the Company's shareholders represented and entitled to vote at the meeting is required to approve the proposal. With respect to this vote, abstentions will have the effect of a no vote and broker non-votes will have no effect on the vote.

The Board of Directors recommends a vote FOR adoption of the amendment to our Certificate of Incorporation to authorize the Board to issue preferred stock in series and designate the terms of each preferred series.

Proposal 4: OTHER MATTERS

At the date of mailing of this proxy statement, we are not aware of any business to be presented at the annual meeting other than those items previously discussed. The proxy being solicited by the Board of Directors provides authority for the proxy holder designated by the Board, F. Lynn Blystone, to use his discretion to vote on such other matters as may lawfully come before the meeting, including matters incidental to the conduct of the meeting, and any adjournment thereof.

The Board of Directors recommends a vote FOR the proposal to permit the proxy holder use his discretion to vote on other matters that lawfully come before the meeting.
