Notes to Schedule of Investments (unaudited)

The cost of investments for federal income tax purposes was \$204,353,057. The tax basis gross appreciation and depreciation of portfolio securities were \$4,558,668 and \$17,498,129, respectively. Net depreciation was \$12,939,461.

Security Valuation Net asset value per share is calculated as of the close of business of the New York Stock Exchange (NYSE), normally 4:00 PM Eastern Time. Securities traded on an exchange are valued at the last sales price on the primary exchange or market on which they are traded. Securities not listed on an exchange or security market, or securities for which there is no last sales price, are valued at the mean of the most recent bid and asked prices or are valued by J. & W. Seligman & Co. Incorporated, the Fund's investment manager, based on quotations provided by primary market makers in such securities. Notwithstanding these valuation methods, the Fund may adjust the value of securities as described below in order to reflect the fair value of such securities.

Many securities markets and exchanges outside the United States (US) close prior to the close of the NYSE; therefore, the closing prices for securities in such markets or on such exchanges may not fully reflect events that occur after the local market close but before the close of the NYSE. The Fund's Board of Directors (the Board) approved fair value procedures under which a third-party pricing service on a regular basis recommends adjustments to the local closing prices of certain foreign equity securities. The adjustments are based on a statistical analysis of the historical relationship between the price movements of a security and independent variables such as US market movements, sector movements, movements in the ADR of a security (if any), and movements in country or regional exchange-traded funds or futures contracts. The factors used vary with each security, depending on which factors have been most important historically.

Other securities for which market quotations are not readily available (or are otherwise no longer valid or reliable) are valued at fair value determined in accordance with procedures approved by the Board. This can occur in the event of, among other things, natural disasters, acts of terrorism, market disruptions, intra-day trading halts, and extreme market volatility. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other mutual funds to determine net asset value or the price that may be realized upon the actual sale of the security.

Short-term holdings that mature in more than 60 days are valued at current market quotations. Short-term holdings maturing in 60 days or less are valued at current market quotations or amortized cost if the Fund's investment manager believes it approximates fair value.

The books and records of the Fund are maintained in US dollars. The market value of investment securities, other assets, and liabilities denominated in foreign currencies are translated into US dollars at the daily rate of exchange as reported by a pricing service.

ITEM 2. CONTROLS AND PROCEDURES.

- a. The registrant's principal executive officer and principal financial officer have concluded, based upon their evaluation of the registrant's disclosure controls and procedures as conducted within 90 days of the filing date of this report, that these disclosure controls and procedures provide reasonable assurance that material information required to be disclosed by the registrant in the report it files or submits on Form N-Q is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms and that such material information is accumulated and communicated to the registrant's management, including its principal executive officer and principal financial officer, as appropriate, in order to allow timely decisions regarding required disclosure.
- b. The registrant's principal executive officer and principal financial officer are aware of no changes in the registrant's internal control over financial reporting that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 3. EXHIBITS.

- (a) Certifications of principal executive officer and principal financial officer as required by Rule 30a-2(a) under the Investment Company Act of 1940.
-
