PART I

Forward-Looking Statements

This Annual Report on Form 10-K, together with other statements and information publicly disseminated by Kite Realty Group Trust (the “Company”), contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such statements are based on assumptions and expectations that may not be realized and are inherently subject to risks, uncertainties and other factors, many of which cannot be predicted with accuracy and some of which might not even be anticipated. Future events and actual results, performance, transactions or achievements, financial or otherwise, may differ materially from the results, performance, transactions or achievements expressed or implied by the forward-looking statements. Risks, uncertainties and other factors that might cause such differences, some of which could be material, include, but are not limited to:

- national and local economic, business, real estate and other market conditions;
- the ability of tenants to pay rent;
- the competitive environment in which the Company operates;
- financing risks;
- property ownership and management risks;
- the level and volatility of interest rates;
- the financial stability of tenants;
- the Company’s ability to maintain its status as a real estate investment trust (“REIT”) for federal income tax purposes;
- acquisition, disposition, development and joint venture risks;
- potential environmental and other liabilities;
- other factors affecting the real estate industry generally; and
- other risks identified in this Annual Report on Form 10-K and, from time to time, in other reports we file with the Securities and Exchange Commission (the “SEC”) or in other documents that we publicly disseminate.

The Company undertakes no obligation to publicly update or revise these forward-looking statements, whether as a result of new information, future events or otherwise.

ITEM 1. BUSINESS

Unless the context suggests otherwise, references to “we,” “us,” “our” or the “Company” refer to Kite Realty Group Trust and our business and operations conducted through our directly or indirectly owned subsidiaries, including Kite Realty Group, L.P., our operating partnership (the “Operating Partnership”). References to “Kite Property Group” or the “Predecessor” mean our predecessor businesses.

Overview

We are a full-service, vertically integrated real estate company engaged in the ownership, operation, management, leasing, acquisition, construction, expansion and development of neighborhood and community shopping centers and certain commercial real estate properties in selected growth markets in the United States. We also provide real estate facility management, construction, development and other advisory services to third parties.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

We were formed in March 2004 and organized as a Maryland real estate investment trust. From our inception until August 16, 2004, neither we, our Operating Partnership, nor our other subsidiaries had any operations. We commenced operations on August 16, 2004 after completing our initial public offering ("IPO"), concurrently with the consummation of various formation transactions that consolidated into our Operating Partnership the ownership of a portfolio of properties

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

and property interests, and certain commercial real estate businesses of our predecessor, the Kite Property Group (our "Predecessor"), a nationally recognized real estate owner and developer. Kite, Inc., a former affiliate of Kite Property Group, was founded in 1960 by our Chairman, Al Kite, and grew from an interior construction company to a full-service, vertically integrated real estate development, construction and management company.

We conduct all of our business through our Operating Partnership, of which we are the sole general partner. As of December 31, 2007, we held an approximate 78% interest in our Operating Partnership. Concurrent with our IPO and related formation transactions, certain individuals received units of the Operating Partnership in exchange for their interests in certain properties (the "Limited Partners"). These Limited Partners owned the remaining 22% of the interest in our Operating Partnership at December 31, 2007.

As of December 31, 2007, we owned interests in a portfolio of 50 retail operating properties totaling approximately 7.4 million square feet of gross leasable area (including approximately 2.7 million square feet of non-owned anchor space). Our retail operating portfolio was 94.8% leased as of December 31, 2007 to a diversified tenant base, with no single retail tenant accounting for more than 3.5% of our total annualized base rent. See "Item 2. Properties" for a list of our top 25 tenants by annualized base rent.

As of December 31, 2007, we also had an interest in 11 retail properties in our development/redevelopment pipeline. Upon completion, our development/redevelopment properties are anticipated to have approximately 1.8 million square feet of gross leasable area (including approximately 0.8 million square feet of non-owned anchor space). In addition to our current development/redevelopment pipeline, we have a significant "visible shadow" development pipeline which includes land parcels that are undergoing pre-development activities and are in the final stages of preparation for construction to commence. As of December 31, 2007, this visible shadow pipeline consisted of six projects that are expected to contain approximately 3.1 million square feet of total gross leasable area (including non-owned anchor space) upon completion.

In addition, as of December 31, 2007, we owned interests in other land parcels comprising approximately 112 acres. These land parcels are classified as "Land held for development" in the accompanying consolidated balance sheet.

Our operating portfolio, development/redevelopment pipeline and land parcels are located in Indiana, Florida, Texas, Illinois, New Jersey, Georgia, Washington, North Carolina, Ohio, and Oregon.

We also own interests in four commercial operating properties totaling approximately 563,000 square feet of net rentable area and an associated parking garage, all located in Indiana. Occupancy of our commercial operating portfolio was 93.0% as of December 31, 2007, with no single commercial tenant accounting for more than 2.3% of our total annualized base rent.

Significant 2007 Activities

2007 Acquisition Activities. During 2007, we made the following significant acquisitions of land:

- In January 2007, we purchased approximately 10 acres of land in Naples, Florida for approximately \$6.3 million with borrowings from our then-existing secured revolving credit facility. This land is adjacent to 15.4 acres that we purchased in 2005 and is being held for future development;
- In March 2007, we purchased approximately 105 acres of land in Apex, North Carolina for approximately \$14.5 million with borrowings from our unsecured revolving credit facility. We are in the process of developing this land into an approximately 345,000 total square foot shopping center to be called Broadstone Station. This property was added to our visible shadow pipeline in March 2007;
- In August 2007, our unconsolidated joint venture with Prudential Real Estate Investors (the "Venture") purchased approximately 17 acres of land in Cary, North Carolina for a purchase price of approximately \$3.4 million, including assignment costs, which was funded through draws from the Venture's variable rate construction loan. This land is adjacent to 100 acres of land we previously purchased in July 2006. The Venture is in the process of developing this land, along with the acreage purchased in 2006 that was subsequently contributed to the Venture, into an approximately 1.5 million square foot mixed use shopping center to be called Parkside Town Commons. In December 2007, we owned a 40% interest in the Venture which, under terms of the Venture, will be reduced to 20% upon the commencement of construction; and

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

- In August 2007, we purchased approximately 14 acres of land in South Elgin, Illinois for approximately \$5.9 million with borrowings from our unsecured revolving credit facility. We subsequently refinanced this debt with a variable rate construction loan. We are in the process of developing this land into an approximately 308,000 square foot shopping center to be called South Elgin Commons. This property was added to our visible shadow pipeline in September 2007.

2007 Development & Redevelopment Activities. During 2007, we added two projects to our development pipeline and reclassified one operating property to our redevelopment pipeline:

- *Beacon Hill Shopping Center, Phase II*, Crown Point, IN. Once completed, we expect this development property (together with the already completed Phase I) to be an estimated 128,000 square foot neighborhood shopping center (including 77,400 square feet of non-owned anchor space). This phase of the project consists of approximately 19,160 square feet and has a current total estimated cost of approximately \$5 million. The first tenant in this phase opened in December 2007;
- *Spring Mill Medical II*, Carmel, IN. We expect this commercial joint venture development to be an estimated 41,000 square foot medical office adjacent to our existing Spring Mill Medical commercial joint venture property. The project has a current total estimated cost of \$8.5 million and an estimated opening date in late 2008. Upon completion, we will evaluate a potential sale of our interests in both phases of Spring Mill Medical; and
- *Glendale Town Center*, Indianapolis, IN. In March 2007, this property was transitioned from our operating portfolio to our redevelopment pipeline. This redevelopment will be an approximately 685,000 square foot neighborhood shopping center (including 281,000 square feet of non-owned anchor space to be occupied by Target, Lowe's Home Improvement and Walgreens). Macy's, Staples, and Kerasotes Theatre are additional existing anchor tenants at this property. The redevelopment has a current total estimated total cost of approximately \$15 million, net of third party contributions. During the period of redevelopment, approximately 335,000 square feet of space at this property is being leased by tenants that are also expected to continue to occupy space upon completion of the redevelopment.

Also during 2007, we completed the following development projects and added them to our operating portfolio:

- *Tarpon Springs Plaza*, a 276,300 square foot neighborhood shopping center (including 183,800 square feet of non-owned anchor space and outparcels) located in Naples, Florida. The first tenant at this property opened in April 2007. This property became fully stabilized and was transferred to our operating portfolio in the fourth quarter of 2007. This property is anchored by Staples, Cost Plus, and AC Moore as well as a non-owned Target;
- *Estero Town Commons*, a 206,600 square foot neighborhood shopping center (including 181,000 square feet of non-owned anchor space) located in Naples, Florida. A large portion of this property is ground leased to Lowe's Home Improvement;
- *Beacon Hill Shopping Center, Phase I*, a 108,600 square foot (including 77,400 square feet of non-owned anchor space) neighborhood shopping center located in Crown Point, Indiana. This property is anchored by Strack & Van Til's and Walgreens, both non-owned. The second phase of this property is currently under development. Once completed, the combined square footage will be an estimated 128,000 square feet; and
- *Cornelius Gateway*, a 35,800 square foot shopping center (including 14,800 square feet of non-owned anchor space) located in Portland, Oregon. This property is anchored by a non-owned Walgreens.

In addition to Beacon Hill Shopping Center and Tarpon Springs Plaza, four of our retail development properties became partially operational during 2007:

- *Bridgewater Marketplace*, a 50,800 square foot shopping center (including 24,800 square feet of non-owned anchor space) located in Indianapolis, Indiana. The first tenant at this property opened in January 2007. This property is anchored by a non-owned Walgreens;
- *Sandifur Plaza*, a 27,200 square foot shopping center located in Pasco, Washington. The first tenant at this property opened in January 2007. In December 2007, the Company sold the Walgreens anchor at this property to a third party;
- *Gateway Shopping Center*, a 289,000 square foot neighborhood shopping center (including 206,000 square feet of non-owned anchor space) located in Seattle, Washington. The first tenant at this property opened in April 2007. This property is anchored by Ross Stores and PetSmart, as well as non-owned Kohl's and Winco Foods; and

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

- *Bayport Commons*, a 286,000 square foot neighborhood shopping center (including 188,800 square feet of non-owned anchor space) located in Tampa, Florida. The first tenant at this property opened in September 2007. This property is anchored by Michaels, PetSmart and Best Buy as well as a non-owned Target.

2007 Disposition Activity and Subsequent Acquisition: In November 2007, we sold our interest in our 176th & Meridian property, located in Seattle, Washington, for net proceeds of \$7.0 million and a gain, net of Limited Partners' interests, of \$1.6 million. We anticipated utilizing the proceeds from the sale to execute a like-kind exchange under Section 1031 of the Internal Revenue Code, therefore the net proceeds of this sale were held by an intermediary at December 31, 2007 and are classified as escrow deposits in the accompanying consolidated balance sheet included in Item 8 of this Annual Report. In February 2008 we completed the like-kind exchange and purchased Rivers Edge, a neighborhood and community shopping center located in Indianapolis, Indiana, for \$18.3 million. We utilized approximately \$2.7 million of proceeds from the sale of 176th & Meridian and funded the remaining purchase price of \$15.6 million through a draw on our unsecured credit facility, and subsequently refinanced with a variable rate debt instrument.

Line of Credit. In February 2007, the Operating Partnership entered into an amended and restated four-year \$200 million unsecured revolving credit facility (the "unsecured facility") with a group of lenders and Key Bank National Association, as agent. The Company and several of the Operating Partnership's subsidiaries are guarantors of the Operating Partnership's obligations under the unsecured facility. The unsecured facility has a maturity date of February 20, 2011, with a one-year extension option. Borrowings under the new unsecured facility bear interest at a floating interest rate of LIBOR plus 115 to 135 basis points, depending on our leverage. The unsecured facility has a 0.125% to 0.20% commitment fee applicable to the average daily unused amount. Subject to certain conditions, including the prior consent of the lenders, we have the option to increase borrowings under the unsecured facility to a maximum of \$400 million. The unsecured facility also includes a short-term borrowing line of \$25 million with a variable interest rate. Borrowings under the short-term line may not be outstanding for more than five days.

The amount that we may borrow under the unsecured facility is based on the value of properties in our unencumbered property pool. The Company currently has 46 unencumbered assets, 44 of which are wholly owned and used to calculate the amount available for borrowing under the unsecured credit facility, and two of which are joint venture assets. Our major unencumbered assets include: Silver Glen Crossing, Glendale Town Center, King's Lake Square, Hamilton Crossing, Waterford Lakes, Eastgate Pavilion, Wal-Mart Plaza, Market Street Village, and Courthouse Shadows.

Our ability to borrow under the unsecured facility is subject to our ongoing compliance with a number of financial and other covenants. If an event of default under the unsecured facility exists, we may only make distributions sufficient to maintain our REIT status. However, we may not make any distributions if an event of default under the unsecured facility resulting from nonpayment or bankruptcy exists, or if our obligations under the credit facility are accelerated.

Distributions. In 2007, we declared two quarterly cash distributions of \$0.195 per common share and two quarterly cash distributions of \$0.205 per common share, or \$0.80 per common share in 2007. Based on the most recent quarter, our annualized cash distribution is \$0.82 per common share.

Business Strategy

Our primary business objectives are to generate increasing cash flow, achieve sustainable long-term growth and maximize shareholder value primarily through the development, acquisition and operation of well-located community and neighborhood shopping centers. We focus on a dual growth strategy to grow our business. The first part of this growth strategy is to focus on increasing our internal growth by leveraging our existing tenant relationships to improve the performance of our existing operating property portfolio. The second part of this strategy is to focus on achieving external growth through the expansion of our portfolio. We seek to implement our business objectives and strategies by, among other things:

- successfully completing the construction and lease-up of our development portfolio;
- continuing to selectively pursue land parcels in attractive markets that can support retail development while also focusing on conserving capital;
- selectively acquiring well-located, high-quality retail properties or portfolios through our investment and market selection process;
- maintaining a focused property management and leasing strategy by emphasizing and maximizing rent growth and cost-effective facilities;

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

- successfully redeveloping certain assets;
- selling certain assets and recycling capital; and
- leveraging our construction and advisory services businesses.

Development Activities. We serve as an in-house and third-party developer for national retailers and other clients, providing a broad range of services that include site selection, development procurement, design, leasing, construction and property management. As a vertically integrated real estate company, we control all aspects of the development process from design to operation, which improves our ability to deliver a quality product to our tenants on budget and on time. We have in-house capabilities and expertise in project design, development, leasing, construction and property management. Our construction expertise enables us to better identify and complete redevelopment and value-enhancing acquisition opportunities. We believe that our vertically integrated platform allows us to achieve attractive returns on our development projects while substantially mitigating the risks associated with ground-up development.

We have an extensive current development pipeline that includes projects for which construction has commenced. We expect our current development pipeline to be a significant source of growth for us over the next several years. As of December 31, 2007, we had nine retail properties in the current development pipeline that are expected to contain approximately 1.0 million square feet, of which approximately 0.5 million square feet will be owned by us or, in some cases, through joint ventures, with the remainder to be owned by anchor stores upon completion of the development. The current total estimated cost for these properties is approximately \$146 million, of which approximately \$110 million had been incurred as of December 31, 2007. Our share of the current total estimated cost is approximately \$92 million, of which we had incurred approximately \$72 million as of December 31, 2007.

In addition to our current development pipeline, we have a significant “visible shadow” development pipeline which includes land parcels that are in the final stages of preparation for construction to commence. As of December 31, 2007, this visible shadow pipeline consisted of six projects that are expected to contain approximately 3.1 million square feet, at a total estimated project cost of approximately \$392 million. Our share of the total estimated cost is approximately \$235 million, of which we had incurred approximately \$61 million as of December 31, 2007.

As of December 31, 2007, we also owned interests in undeveloped land parcels comprising approximately 112 acres that represent future retail and commercial development opportunities, either in the form of expansion of existing properties or development of new retail properties. We believe our extensive development pipeline creates substantial opportunities to increase cash flow and create long-term shareholder value.

Investment and Market Selection Process. We seek to develop and acquire primarily neighborhood and community shopping centers in neighborhood trade areas with attractive demographics. When specific markets are selected, we seek a convenient and easily accessible location, preferably occupying a dominant corner that has abundant parking facilities, is close to residential communities, and has excellent visibility for our tenants and easy access for neighborhood shoppers. Our selection process emphasizes the following factors:

Market and Trade Area: In order to take advantage of our current resources and create economies of scale, our development and acquisition activities are focused primarily in or near the markets in which we currently operate or in which we have had previous experience. By having a presence in a market and developing relationships in that market, we have a greater awareness of market trends and opportunities.

We evaluate each market based on appropriate criteria and prospective use, including:

- historical and projected population growth;
- average household income and density of population within a one-, three- or five-mile radius of the center, depending on the characteristics of the property;
- transportation patterns and infrastructure;
- barriers to the development of competing centers; and
- diverse employment base.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

We also consider opportunities to expand into other geographic markets if we believe those markets have favorable long-term growth prospects.

Property Characteristics: We focus on neighborhood and community shopping centers anchored by market-leading retailers or smaller operators with dominant niche positions. In addition, we focus on the presence of one or more additional anchors for these centers, including off-price retailers, office superstores, grocers and fabric and clothing retailers, all of which we believe increase traffic at the centers and are generally beneficial to the value of the center. We also seek properties with a diverse tenant mix that includes service retailers, such as banks, florists, video stores, restaurants, and apparel and specialty shops. We target dominant shopping centers that generate a steady, repetitive flow of traffic by providing staple goods to the community and offering a high level of convenience with ease of access and abundant parking.

We plan to focus our new investments in the shopping center sector, but also may selectively pursue commercial development opportunities in markets where we currently operate and where we believe we can leverage our existing infrastructure and relationships to generate attractive risk adjusted returns. In evaluating future investments in properties other than neighborhood and community shopping centers, we seek properties or transactions that have unique characteristics that present a compelling case for investment. Examples might include properties having high entry yields, properties that are outside of our target markets but are being sold as part of a portfolio package, properties that are debt-free, a transaction in which we might issue units in our Operating Partnership or properties that provide substantial growth potential through redevelopment.

Retailer Relationships: We work closely with key tenants and retailers, such as Target, Lowe's, Walgreens, Old Navy, Bed Bath & Beyond, Staples, Publix, Kohl's, and Wal-Mart, to identify attractive investments in new and existing markets. We seek to maintain strong tenant and retailer relationships in order to avoid rent interruptions and reduce marketing, leasing and tenant improvement costs that result from re-tenanting space.

We believe we will continue to source a significant volume of growth opportunities through the extensive network of tenant, corporate and institutional relationships we have established through our Predecessor over the past four decades. Additionally, we believe our status as a publicly traded REIT will enhance our ability to acquire properties from tax-motivated sellers through the use of Operating Partnership units as consideration, thereby providing sellers with liquidity and diversification while providing the opportunity for substantial deferral of income taxes that otherwise would be due as a result of a cash sale.

Property Management and Leasing Strategy. We believe that focused property management, leasing and tenant retention are essential to maximizing the cash flow and value of our properties. While our property management and leasing functions are supervised and administered by personnel at our principal executive office, we do at times engage third party companies for property management functions at our properties.

Our primary goal in property management is to maintain an attractive shopping environment on a cost effective basis for our tenants. Our property managers maintain regular contact with our tenants and frequently visit each asset to supervise the local personnel and to ensure the proper implementation and execution of our policies and directives. As part of our ongoing property management, we conduct regular physical property reviews to improve our properties, react to changing market conditions and ensure proper maintenance. In addition, we have a competitive bid process for the majority of our service contracts. In the future, we may establish regional offices in certain markets such as Florida and North Carolina, where we are currently expanding our operations through development and may continue to expand through acquisitions and additional development projects.

Our relationships with several national retailers that currently occupy space at our properties are the cornerstone of our overall leasing strategy. These nationally recognized anchors enhance the stability and attractiveness of our properties by driving customer traffic, thereby enhancing the performance of our non-anchor tenants and small shops. Due to the importance of these anchors to our business, our leasing and development teams work closely with each retailer on site selection and expansion opportunities within our current and future portfolio. This focused coverage allows us to anticipate space needs, fill vacant space in our existing portfolio, and identify opportunities to enter into new markets.

Our leasing representatives have become very knowledgeable in the markets in which we operate and understand the current tenants, as well as potential local, regional and national tenants, that would complement our current tenant base. In addition, we utilize a network of brokers to source a variety of tenants for our properties. We also study demographics, tenant sales and merchandising mix to optimize the sales performance of our centers and thereby increase rents. We believe this hands-on approach maximizes the value of our shopping centers.

Redevelopment and Disposition Strategy. We review each of our assets on a regular basis to determine the appropriate capital strategy for the asset. This review involves weighing the asset's future potential growth against its current market value and may result in the decision to redevelop or dispose of certain assets.

We will consider redeveloping properties if we determine that a redevelopment would be in the best interest of our shareholders based on a number of factors, including the projected cost of the redevelopment and the current and projected operating performance of the property. As of December 31, 2007, we had two properties undergoing major redevelopment (Glendale Town Center and Shops at Eagle Creek) in our redevelopment pipeline. We anticipate our investment in the redevelopment at Glendale Town Center, net of third party contributions, will be approximately \$15 million. We anticipate our investment in the redevelopment at Shops at Eagle Creek will be approximately \$4 million. We expect to fund these investments through draws on our unsecured facility.

We will consider disposing of properties if we determine that a sale of a property would be in our best interests based on the price being offered for the property, the current and projected operating performance of the property, the tax consequences of the sale and other factors and circumstances surrounding the proposed sale, including REIT qualification rules, avoidance of the 100% "prohibited transactions tax" applicable to REITs and tax protection obligations that we undertook in connection with our formation transactions. Property dispositions that would give rise to an indemnification obligation under the tax protection obligations we undertook in connection with our formation transactions are subject to approval by a majority of our independent trustees.

In November 2007, we sold our interest in our 176th & Meridian property, located in Seattle, Washington, for net proceeds of \$7.0 million and a gain, net of Limited Partners' interests, of \$1.6 million. We anticipated utilizing the proceeds from the sale to execute a like-kind exchange under Section 1031 of the Internal Revenue Code, therefore the net proceeds of this sale were held by an intermediary at December 31, 2007 and are classified as escrow deposits in the accompanying consolidated balance sheet included in Item 8 of this Annual Report. In February 2008 we completed the like-kind exchange and purchased Rivers Edge, a neighborhood and community shopping center located in Indianapolis, Indiana, for \$18.3 million. We utilized approximately \$2.7 million of proceeds from the sale of 176th & Meridian and funded the remaining purchase price of \$15.6 million through a draw on our unsecured credit facility, and subsequently refinanced with a variable rate debt instrument.

Construction and Advisory Services Operations. We provide general construction, construction management, design/build and complete site development services and have experience in corporate, institutional, hotel, medical and retail construction. KMI Realty Advisors ("KMI"), one of our subsidiaries, is a registered real estate advisor, providing strategic property services to both the public and private sectors. KMI provides a full range of real estate consulting services including portfolio management, due diligence, acquisition, development, financial, program management, facility management and disposition services. KMI utilizes resources from our development and construction operations to customize a real estate strategy to achieve specific client goals. In addition to being a continuing source of advisory income, we believe KMI will help facilitate future access to capital and avenues for growth.

Financing Strategy

We consider a number of factors when evaluating our level of indebtedness and when making decisions regarding the additional borrowings, including the purchase price of properties to be developed or acquired with debt financing, the estimated market value of our properties upon refinancing and the ability of particular properties, as well as our Company as a whole, to generate cash flow to cover expected debt service.

Generally speaking, although we may incur any of the forms of indebtedness described below, we intend to focus primarily on financing future growth through the incurrence of secured debt on an individual property or a portfolio of properties and unsecured debt through our revolving credit facility.

We may incur debt in the form of purchase money obligations to the sellers of properties, or in the form of publicly or privately placed debt instruments, financing from other banks, institutional investors, or other lenders, any of which may be unsecured or may be secured by mortgages or other interests in our properties. This indebtedness may be recourse, non-recourse or cross-collateralized and, if recourse, that recourse may include our general assets and, if non-recourse, may be limited to the particular property to which the indebtedness relates. In addition, we may invest in properties subject to existing loans secured by mortgages or similar liens on the properties, or may refinance properties acquired on a leveraged basis. We may use the proceeds from any borrowings for working capital, to purchase additional interests in partnerships or

joint ventures in which we participate, to refinance existing indebtedness or to finance acquisitions, expansion, redevelopment of existing properties or development of new properties. We also may incur indebtedness for other purposes when, in the opinion of our board or management, it is advisable to do so. In addition, we may need to borrow to make distributions (including distributions that may be required under the Internal Revenue Code) if we do not have sufficient cash available to make those distributions.

In addition, we are exposed to capital market risk, including changes in interest rates. In order to manage volatility relating to interest rate risk, we may enter into interest rate hedging transactions from time to time. We do not utilize derivative financial instruments for trading or speculative purposes nor do we currently have any derivatives that are not designated as hedges.

Business Segments

Our principal business is the development, construction, acquisition, ownership and operation of high-quality neighborhood and community shopping centers in selected growth markets in the United States. We have aligned our operations into two business segments: (1) real estate operation and development, and (2) construction and advisory services. See Note 15 "Segment Information" in our Notes to Consolidated Financial Statements, contained in this Form 10-K, for information on our two business segments and the reconciliation of total segment revenues to total revenues, total segment operating income to operating income, total segment net income to net income and total segment assets to total assets for the years ended December 31, 2007, 2006 and 2005.

Competition

We believe that competition for the development, acquisition and operation of neighborhood and community shopping centers is highly fragmented. We face competition from institutional investors, other REITs and owner-operators engaged in the development, acquisition, ownership and leasing of shopping centers as well as from numerous local, regional and national real estate developers and owners in each of our markets. We also face competition in leasing available space at our properties to prospective tenants. The actual competition for tenants varies depending upon the characteristics of each local market in which we own and manage property. We believe that the principal competitive factors in attracting tenants in our market areas are location, price, the presence of anchor stores, and maintenance of properties.

Government Regulation

Americans with Disabilities Act. Our properties must comply with Title III of the Americans with Disabilities Act, or ADA, to the extent that such properties are public accommodations as defined by the ADA. The ADA may require removal of structural barriers to access by persons with disabilities in certain public areas of our properties where such removal is readily achievable. We believe our properties are in substantial compliance with the ADA and that we will not be required to make substantial capital expenditures to address the requirements of the ADA. However, noncompliance with the ADA could result in imposition of fines or an award of damages to private litigants. The obligation to make readily accessible accommodations is an ongoing one, and we will continue to assess our properties and make alterations as appropriate in this respect.

Environmental Regulations. Some properties in our portfolio contain, may have contained or are adjacent to or near other properties that have contained or currently contain underground storage tanks for the storage of petroleum products or other hazardous or toxic substances. These operations may have released, or have the potential to release, such substances into the environment. In addition, some of our properties have tenants which may use hazardous or toxic substances in the routine course of their businesses.

In general, these tenants have covenanted in their leases with us to use these substances, if any, in compliance with all environmental laws and have agreed to indemnify us for any damages we may suffer as a result of their use of such substances. However, these lease provisions may not fully protect us in the event that a tenant becomes insolvent. Finally, one of our properties has contained asbestos-containing building materials, or ACBM, and another property may have contained such materials based on the date of its construction. Environmental laws require that ACBM be properly managed and maintained, and fines and penalties may be imposed on building owners or operators for failure to comply with these requirements. The laws also may allow third parties to seek recovery from owners or operators for personal

injury associated with exposure to asbestos fibers. We are not currently aware of any environmental issues that may materially affect the operation of any of our properties.

Insurance

We carry comprehensive liability, fire, extended coverage, and rental loss insurance that covers all properties in our portfolio. We believe the policy specifications and insured limits are appropriate and adequate given the relative risk of loss, the cost of the coverage, and industry practice. We do not carry insurance for generally uninsurable losses such as loss from riots, war or acts of God, and, in some cases, flooding. Some of our policies, such as those covering losses due to terrorism and floods, are insured subject to limitations involving large deductibles or co-payments and policy limits that may not be sufficient to cover losses.

Offices

Our principal executive office is located at 30 S. Meridian Street, Suite 1100, Indianapolis, IN 46204. Our telephone number is (317) 577-5600.

Employees

As of December 31, 2007, we had 137 full-time employees. Of these employees, 99 were “home office,” executive and administrative personnel and 38 were on-site management and administrative personnel.

Available Information

Our Internet website address is *www.kiterealty.com*. You can obtain on our website, free of charge, a copy of our Annual Report on Form 10-K, our quarterly reports on Form 10-Q, our current reports on Form 8-K, and any amendments to those reports, as soon as reasonably practicable after we electronically file such reports or amendments with, or furnish them to, the SEC. Our Internet website and the information contained therein or connected thereto are not intended to be incorporated into this Annual Report on Form 10-K.

Also available on our website, free of charge, are copies of our Code of Business Conduct and Ethics, our Code of Ethics for Principal Executive Officer and Senior Financial Officers, our Corporate Governance Guidelines, and the charters for each of the committees of our Board of Trustees—the Audit Committee, the Corporate Governance and Nominating Committee, and the Compensation Committee. Copies of our Code of Business Conduct and Ethics, our Code of Ethics for Principal Executive Officer and Senior Financial Officers, our Corporate Governance Guidelines, and our committee charters are also available from us in print and free of charge to any shareholder upon request. Any person wishing to obtain such copies in print should contact our Investor Relations department by mail at our principal executive office.

ITEM 1A. RISK FACTORS

The following factors, among others, could cause actual results to differ materially from those contained in forward-looking statements made in this Annual Report on Form 10-K and presented elsewhere by our management from time to time. These factors, among others, may have a material adverse effect on our business, financial condition, operating results and cash flows, and you should carefully consider them. It is not possible to predict or identify all such factors. You should not consider this list to be a complete statement of all potential risks or uncertainties. Past performance should not be considered an indication of future performance.

We have separated the risks into three categories:

- risks related to our operations;
- risks related to our organization and structure; and
- tax risks.

RISKS RELATED TO OUR OPERATIONS

Our results of operations are significantly influenced by the United States economy and the market for retail space generally.

We are susceptible to adverse economic developments in the United States. The United States economy could face a challenging environment in 2008. General economic factors that are beyond our control could have a negative impact on the business of our retail tenants. In turn, this could have an adverse affect on our business because current or prospective tenants may be unwilling to enter into or renew leases with us on favorable terms or at all, or it may be more difficult for our tenants to pay us rent. These general economic factors include, but are not limited to, recession, inflation, consumer credit availability, consumer debt levels, energy costs, tax rates, business layoffs, downsizing or industry slowdowns. We are also susceptible to other developments that, while not directly tied to the economy, could have an adverse effect on our business. These developments include relocations of businesses, changing demographics, increased Internet shopping, infrastructure quality, state budgetary constraints and priorities, increases in real estate and other taxes, costs of complying with government regulations or increased regulation, decreasing valuations of real estate, and other factors.

In addition, because our portfolio of properties consists primarily of community and neighborhood shopping centers, a decrease in the demand for retail space, due to the economic factors discussed above or otherwise, may have a greater adverse effect on our business and financial condition than if we owned a more diversified real estate portfolio. The market for retail space has been and could be adversely affected by weakness in the national, regional and local economies, the adverse financial condition of some large retailing companies, the ongoing consolidation in the retail sector, the excess amount of retail space in a number of markets, and increasing consumer purchases through catalogues or the Internet. To the extent that any of these conditions occur, they are likely to negatively affect market rents for retail space and could adversely affect our financial condition, results of operations, cash flow, the trading price of our common shares and our ability to satisfy our debt service obligations and to pay distributions to our shareholders.

Because of our geographical concentration in Indiana, Florida and Texas, an economic downturn in these states could adversely affect our financial condition and results of operations.

Like the United States in general, the specific markets in which we operate could face challenging economic conditions in 2008. In particular, as of December 31, 2007, approximately 36.3% of our owned square footage and approximately 36.8% of our total annualized base rent is located in the State of Indiana, approximately 25.6% of our owned square footage and approximately 24.1% of our total annualized base rent is located in the State of Florida and approximately 19.3% of our owned square footage and approximately 19.4% of our total annualized base rent is located in the State of Texas. This level of concentration exposes us to greater economic risks than if we owned properties in numerous geographic regions. Any adverse economic or real estate developments in Indiana, Florida, Texas, or the surrounding regions, or any decrease in demand for retail space resulting from the local regulatory environment, business climate or fiscal problems in these states, could adversely affect our financial condition, results of operations, cash flow, the trading price of our common shares and our ability to satisfy our debt service obligations and to pay distributions to our shareholders.

We had approximately \$647 million of consolidated indebtedness outstanding as of December 31, 2007, which may impede our operating performance and reduce our ability to incur additional indebtedness to fund our growth.

Required repayments of debt and related interest can adversely affect our operating performance. We had approximately \$647 million of consolidated outstanding indebtedness as of December 31, 2007. Approximately \$174 million of this debt (as reduced by \$134 million of interest rate swaps for fixed interest rates) bore interest at variable rates. Interest rates are currently low relative to historical levels and may increase significantly in the future. If our interest expense increased significantly, it would adversely affect our results of operations.

We use a combination of interest rate protection agreements, including interest rate swaps and locks, to manage risk associated with interest rate volatility. This may expose us to additional risks, including a risk that a counterparty to a hedging arrangement may fail to honor its obligations. Developing an effective interest rate risk strategy is complex and no strategy can completely insulate us from risks associated with interest rate fluctuations. There can be no assurance that our hedging activities will have the desired beneficial impact on our results of operations or financial condition.

We also intend to incur additional debt in connection with future developments and acquisitions of properties. Our organizational documents do not limit the amount of indebtedness that we may incur. We may borrow new funds to develop or acquire properties. In addition, we may incur or increase our mortgage debt by obtaining loans secured by some

or all of the real estate properties we develop or acquire. We also may borrow funds if necessary to satisfy the requirement that we distribute to shareholders at least 90% of our annual REIT taxable income, or otherwise as is necessary or advisable to ensure that we maintain our qualification as a REIT for federal income tax purposes or otherwise avoid paying taxes that can be eliminated through distributions to our shareholders.

Our substantial debt may harm our business and operating results by, among other things:

- requiring us to use a substantial portion of our funds from operations to pay interest, which reduces the amount available for distributions;
- placing us at a competitive disadvantage compared to our competitors that have less debt;
- making us more vulnerable to economic and industry downturns and reducing our flexibility in responding to changing business and economic conditions; and
- limiting our ability to borrow more money for operating or capital needs or to finance acquisitions in the future.

Recent uncertainty in the credit markets could make it difficult for us to refinance our existing indebtedness or obtain additional financing on favorable terms, if at all.

The current global uncertainty in the credit markets is making it more difficult to obtain financing on favorable terms, if at all. During 2007, higher interest rates, falling real estate prices and a significant increase in the number of high risk, or sub-prime, mortgages originated in 2005 and 2006 contributed to dramatic increases in mortgage delinquencies and defaults in 2007. The anticipated future delinquencies among sub-prime borrowers in the United States is expected to continue in the foreseeable future. The uncertainty in the credit markets caused banks to reduce their loans to each other or make them at higher interest rates. Similarly, the ability of companies to obtain financing from banks became more difficult, and when financing was available, it was generally on terms less favorable than in the past.

This uncertainty in the credit markets has created additional risks related to our indebtedness. Due to the difficulty in obtaining financing, we may not be able to refinance the existing indebtedness on our properties (which, in most cases, will not have been amortized fully at maturity) or the terms of any refinancing may not be as favorable as the terms of our existing indebtedness. If we are not successful in refinancing this debt when it becomes due, we may be forced to dispose of properties on disadvantageous terms, which might adversely affect our ability to service other debt and to meet our other obligations. In addition, we may be unable to obtain permanent financing on development projects we financed with construction loans or mezzanine debt. Our inability to obtain such permanent financing on favorable terms, if at all, could delay the completion of our development projects and/or cause us to incur additional capital costs in connection with completing such projects, either of which could have an adverse affect on our business and our ability to execute our growth strategy.

We expect to continue to experience rapid growth and may not be able to adapt our management and operational systems to respond to the integration of additional properties without significant disruption or expense.

We have rapidly expanded our business in recent years. Our portfolio includes 30 operating properties that we have acquired since 1999, including 17 since our IPO, which contain approximately 2.4 million square feet of owned gross leasable area. Since our IPO, we have delivered 18 properties from our development pipeline into our operating portfolio, and we currently have under construction nine additional retail properties projected to total approximately 1.0 million square feet of gross leasable area (including non-owned anchor space). In addition to this active current development pipeline, we have an additional six land parcels in our visible shadow pipeline that are in the final stages of preparation for the commencement of construction. These parcels are expected to contain approximately 3.1 million square feet of gross leasable area. We also expect to continue to pursue additional development and acquisition opportunities.

As a result of the significant growth of our portfolio, we cannot assure you that we will be able to adapt our management, administrative, accounting and operational systems or hire and retain sufficient operational staff to integrate these properties into our portfolio and manage any future acquisitions of additional properties without operating disruptions or unanticipated costs. As we develop or acquire additional properties, we will be subject to risks associated with managing new properties, including tenant retention and mortgage default. In addition, acquisitions or developments may cause disruptions in our operations and divert management's attention away from day-to-day operations, which could impair our relationships with our current tenants, retailers and employees. In addition, our profitability may suffer because of acquisition-related costs or amortization costs for acquired intangible assets. Our failure to successfully integrate any future

properties into our portfolio could have a material adverse effect on our results of operations and financial condition and our ability to make distributions to our shareholders.

Our future developments and acquisitions may not yield the returns we expect or may result in shareholder dilution.

We expect to develop and/or acquire a number of real estate properties in the near future. New acquisitions and developments are subject to a number of risks, including, but not limited to:

- abandonment of development activities after expending resources to determine feasibility;
- construction delays or cost overruns that may increase project costs;
- our investigation of a property or building prior to our acquisition, and any representations we may receive from the seller, may fail to reveal various liabilities or defects or identify necessary repairs until after the property is acquired, which could reduce the cash flow from the property or increase our acquisition costs;
- financing risks;
- the failure to meet anticipated occupancy or rent levels;
- failure to receive required zoning, occupancy, land use and other governmental permits and authorizations and changes in applicable zoning and land use laws; and
- the consent of third parties such as tenants, mortgage lenders and joint venture partners may be required, and those consents may be difficult to obtain or be withheld.

In addition, if a project is delayed or if we are unable to lease designated space to anchor tenants, certain tenants may have the right to terminate their leases. If any of these situations occur, development costs for a project will increase, which will result in reduced returns, or even losses, from such investments. In deciding whether to acquire or develop a particular property, we make certain assumptions regarding the expected future performance of that property. If these new properties do not perform as expected, our financial performance will be adversely affected. In addition, the issuance of equity securities as consideration for any acquisitions could be substantially dilutive to our shareholders.

Mortgage debt obligations expose us to the possibility of foreclosure, which could result in the loss of our investment in a property or group of properties subject to mortgage debt.

As of December 31, 2007, a significant amount of our indebtedness was secured by our real estate assets. If a property or group of properties is mortgaged to secure payment of debt and we are unable to meet mortgage payments, the holder of the mortgage or lender could foreclose on the property, resulting in loss of our investment. Also, certain of these mortgages contain customary negative covenants which, among other things, limit our ability, without the prior consent of the lender, to further mortgage the property, to enter into new leases or materially modify existing leases, and to discontinue insurance coverage.

Our financial covenants may restrict our operating and acquisition activities.

Our revolving credit facility contains certain financial and operating covenants, including, among other things, certain coverage ratios, as well as limitations on our ability to incur debt, make dividend payments, sell all or substantially all of our assets and engage in mergers and consolidations and certain acquisitions. These covenants may restrict our ability to pursue certain business initiatives or certain acquisition transactions. In addition, failure to meet any of the financial covenants could cause an event of default under and/or accelerate some or all of our indebtedness, which could have a material adverse effect on us.

Failure by any major tenant with leases in multiple locations to make rental payments to us, because of a deterioration of its financial condition or otherwise, could seriously harm our performance.

We derive the majority of our revenue from tenants who lease space from us at our properties. Therefore, our ability to generate cash from operations is dependent on the rents that we are able to charge and collect from our tenants. Our leases generally do not contain provisions designed to ensure the creditworthiness of our tenants. At any time, our tenants may experience a downturn in their business that may

significantly weaken their financial condition. As a result, our tenants

may delay lease commencements, decline to extend or renew leases upon expiration, fail to make rental payments when due, close a number of stores or declare bankruptcy. Any of these actions could result in the termination of the tenant's leases and the loss of rental income attributable to the terminated leases. In addition, lease terminations by a major tenant or non-owned anchor or a failure by that major tenant or non-owned anchor to occupy the premises could result in lease terminations or reductions in rent by other tenants in the same shopping centers under the terms of some leases. In that event, we may be unable to re-lease the vacated space at attractive rents or at all. The occurrence of any of the situations described above, particularly if it involves a substantial tenant or a non-owned anchor with ground leases in multiple locations, could seriously harm our performance. As of December 31, 2007, the five largest tenants in our operating portfolio in terms of annualized base rent were Lowe's Home Improvement, Circuit City, Publix, the State of Indiana, and Marsh Supermarkets, with annualized base rents for each representing 3.5%, 2.6%, 2.5%, 2.3%, and 2.2%, respectively, of our total annualized base rent.

We may be unable to collect balances due from any tenants in bankruptcy.

We cannot assure you that any tenant that files for bankruptcy protection will continue to pay us rent. A bankruptcy filing by or relating to one of our tenants or a lease guarantor would bar all efforts by us to collect pre-bankruptcy debts from that tenant or the lease guarantor, or their property, unless we receive an order permitting us to do so from the bankruptcy court. A tenant or lease guarantor bankruptcy could delay our efforts to collect past due balances under the relevant leases, and could ultimately preclude collection of these sums. If a lease is assumed by the tenant in bankruptcy, all pre-bankruptcy balances due under the lease must be paid to us in full. However, if a lease is rejected by a tenant in bankruptcy, we would have only a general unsecured claim for damages. Any unsecured claim we hold may be paid only to the extent that funds are available and only in the same percentage as is paid to all other holders of unsecured claims, and there are restrictions under bankruptcy laws that limit the amount of the claim we can make if a lease is rejected. As a result, it is likely that we will recover substantially less than the full value of any unsecured claims we hold from a tenant in bankruptcy.

Our current and future joint venture investments could be adversely affected by our lack of sole decision-making authority, our reliance on joint venture partners' financial condition, any disputes that may arise between us and our joint venture partners and our exposure to potential losses from the actions of our joint venture partners.

As of December 31, 2007, we owned five of our operating properties through joint ventures, two of which were accounted for using the equity method as we do not exercise requisite control for consolidation treatment. For the twelve months ended December 31, 2007, the five properties represented approximately 7% of our annualized base rent. In addition, six of the properties in our development pipeline, representing approximately 6% of our annualized base rent as of December 31, 2007, and two properties in our visible shadow pipeline are currently owned through joint ventures, one of which was accounted for under the equity method as of December 31, 2007 as we do not exercise requisite control for consolidation treatment. We have also entered into an agreement with Prudential Real Estate Investors to pursue joint venture opportunities for the development and selected acquisition of community shopping centers in the United States. These joint ventures involve risks not present with respect to our wholly owned properties, including the following:

- we may share decision-making authority with our joint venture partners regarding major decisions affecting the ownership or operation of the joint venture and the joint venture property, such as the sale of the property or the making of additional capital contributions for the benefit of the property, which may prevent us from taking actions that are opposed by our joint venture partners;
- prior consent of our joint venture partners may be required for a sale or transfer to a third party of our interests in the joint venture, which restricts our ability to dispose of our interest in the joint venture;
- our joint venture partners might become bankrupt or fail to fund their share of required capital contributions, which may delay construction or development of a property or increase our financial commitment to the joint venture;
- our joint venture partners may have business interests or goals with respect to the property that conflict with our business interests and goals, which could increase the likelihood of disputes regarding the ownership, management or disposition of the property;
- disputes may develop with our joint venture partners over decisions affecting the property or the joint venture, which may result in litigation or arbitration that would increase our expenses and distract our officers and/or trustees from focusing their time and effort on our business, and possibly disrupt the day-to-

day operations of the property such as by delaying the implementation of important decisions until the conflict or dispute is resolved; and

- we may suffer losses as a result of the actions of our joint venture partners with respect to our joint venture investments and the activities of a joint venture could adversely affect our ability to qualify as a REIT, even though we may not control the joint venture.

In the future, we intend to co-invest with third parties through joint ventures that may involve similar or additional risks.

We face significant competition, which may impede our ability to renew leases or re-let space as leases expire, require us to undertake unbudgeted capital improvements, or impede our ability to make future developments or acquisitions or increase the cost of these developments or acquisitions.

We compete with numerous developers, owners and operators of retail shopping centers for tenants. These competitors include institutional investors, other REITs and other owner-operators of community and neighborhood shopping centers, some of which own or may in the future own properties similar to ours in the same submarkets in which our properties are located, but which have greater capital resources. If our competitors offer space at rental rates below current market rates, or below the rental rates we currently charge our tenants, we may lose potential tenants and we may be pressured to reduce our rental rates below those we currently charge in order to retain tenants when our tenants' leases expire. As a result, our financial condition, results of operations, cash flow, trading price of our common shares and ability to satisfy our debt service obligations and to pay distributions to our shareholders may be adversely affected. As of December 31, 2007, leases were scheduled to expire on a total of approximately 3.9% of the space at our properties in 2008. In addition, increased competition for tenants may require us to make capital improvements to properties that we would not have otherwise planned to make. Any unbudgeted capital improvements we undertake may reduce cash available for distributions to shareholders.

We also face significant competition for development and acquisition opportunities. Many of our competitors have greater financial resources and a greater ability to borrow funds than we do to develop or acquire properties. Competition for investments may reduce the number of suitable investment opportunities available to us and may have the effect of increasing development or acquisition costs and/or reducing the rents we can charge and, as a result, adversely affect our operating results. The current market for acquisitions is extremely competitive.

We may not be successful in identifying suitable development projects or acquisitions that meet our criteria, which may impede our growth.

A central part of our business strategy is expansion through development projects and acquisitions, which requires us to identify suitable development or acquisition candidates or investment opportunities that meet our criteria and are compatible with our growth strategy. We may not be successful in identifying suitable real estate properties or other assets that meet our development or acquisition criteria or in completing developments, acquisitions or investments on satisfactory terms. Failure to identify or complete developments or acquisitions could slow our growth, which could in turn adversely affect our operations.

Redevelopment activities may be delayed or otherwise may not perform as expected.

We are currently pursuing the redevelopment of our Glendale Town Center and Shops at Eagle Creek properties. We expect to redevelop certain of our other properties in the future. In connection with any redevelopment of our properties, we will bear certain risks, including the risk of construction delays or cost overruns that may increase project costs and make a project uneconomical, the risk that occupancy or rental rates at a completed project will not be sufficient to enable us to pay operating expenses or earn the targeted rate of return on investment, and the risk of incurrence of predevelopment costs in connection with projects that are not pursued to completion. In addition, various tenants may have the right to withdraw from a property if a development and/or redevelopment project is not completed on time. In the case of a redevelopment project, consents may be required from various tenants in order to redevelop a center. In the case of an unsuccessful redevelopment project, our entire investment could be at risk for loss.

We may not be able to sell properties when appropriate and could, under certain circumstances, be required to pay certain tax indemnities related to the properties we sell.

Real estate property investments generally cannot be sold quickly. In connection with our formation at the time of our IPO, we entered into an agreement that restricts our ability, prior to December 31, 2016, to dispose of six of our properties in taxable transactions and limits the amount of gain we can trigger with respect to certain other properties without incurring reimbursement obligations owed to certain limited partners of our Operating Partnership. We have agreed that if we dispose of any interest in six specified properties in a taxable transaction before December 31, 2016, we will indemnify the contributors of those properties for their tax liabilities attributable to the built-in gain that exists with respect to such property interest as of the time of our IPO (and tax liabilities incurred as a result of the reimbursement payment). The six properties to which our tax indemnity obligations relate represented approximately 19% of our annualized base rent in the aggregate as of December 31, 2007. These six properties are International Speedway Square, Shops at Eagle Creek, Whitehall Pike, Ridge Plaza Shopping Center, Thirty South and Market Street Village. We also agreed to limit the aggregate gain certain limited partners of our Operating Partnership would recognize, with respect to certain other contributed properties through December 31, 2016, to not more than \$48 million in total, with certain annual limits, unless we reimburse them for the taxes attributable to the excess gain (and any taxes imposed on the reimbursement payments), and to take certain other steps to help them avoid incurring taxes that were deferred in connection with the formation transactions.

The agreement described above is extremely complicated and imposes a number of procedural requirements on us, which makes it more difficult for us to ensure that we comply with all of the various terms of the agreement and therefore creates a greater risk that we may be required to make an indemnity payment. The complicated nature of this agreement also might adversely impact our ability to pursue other transactions, including certain kinds of strategic transactions and reorganizations.

Also, the tax laws applicable to REITs require that we hold our properties for investment, rather than primarily for sale in the ordinary course of business, which may cause us to forego or defer sales of properties that otherwise would be in our best interest. Therefore, we may be unable to adjust our portfolio mix promptly in response to market conditions, which may adversely affect our financial position. In addition, we will be subject to income taxes on gains from the sale of any properties owned by any taxable REIT subsidiary.

Our performance and value are subject to risks associated with real estate assets and with the real estate industry.

Our ability to make expected distributions to our shareholders depends on our ability to generate substantial revenues from our properties. Events and conditions generally applicable to owners and operators of real property that are beyond our control may decrease cash available for distribution and the value of our properties. These events include:

- adverse changes in the national, regional and local economic climate, particularly in: Indiana, where approximately 36.3% of our owned square footage and 36.8% of our total annualized base rent is located; Florida, where approximately 25.6% of our owned square footage and 24.1% of our total annualized base rent is located; and Texas, where approximately 19.3% of our owned square footage and 19.4% of our total annualized base rent is located;
- local oversupply, increased competition or reduction in demand for space;
- inability to collect rent from tenants;
- vacancies or our inability to rent space on favorable terms;
- decreased attractiveness of our properties to tenants;
- changes in market rental rates;
- inability to finance property development, tenant improvements and acquisitions on favorable terms;
- increased operating costs, including costs incurred for maintenance, insurance premiums, utilities and real estate taxes;
- the need to periodically fund the costs to repair, renovate and re-let space;

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

- weather conditions that may increase or decrease energy costs and other weather-related expenses;
- costs of complying with changes in governmental regulations, including those governing usage, zoning, the environment and taxes;

- civil unrest, acts of terrorism, earthquakes, hurricanes and other national disasters or acts of God that may result in underinsured or uninsured losses;
- the relative illiquidity of real estate investments;
- changing demographics; and
- changing traffic patterns.

In addition, periods of economic slowdown or recession, rising interest rates or declining demand for real estate, or the public perception that any of these events may occur, could result in a general decline in rents or an increased incidence of defaults under existing leases, which would adversely affect our financial condition, results of operations, cash flow, per share trading price of our common shares and ability to satisfy our debt service obligations and to make distributions to our shareholders.

Potential losses may not be covered by insurance.

We do not carry insurance for generally uninsurable losses such as loss from riots, war or acts of God, and, in some cases, flooding. Some of our policies, such as those covering losses due to terrorism and floods, are insured subject to limitations involving large deductibles or co-payments and policy limits that may not be sufficient to cover losses. If we experience a loss that is uninsured or that exceeds policy limits, we could lose the capital invested in the damaged properties as well as the anticipated future cash flows from those properties. Inflation, changes in building codes and ordinances, environmental considerations, and other factors also might make it impractical or undesirable to use insurance proceeds to replace a property after it has been damaged or destroyed. In addition, if the damaged properties are subject to recourse indebtedness, we would continue to be liable for the indebtedness, even if these properties were irreparably damaged.

Insurance coverage on our properties may be expensive or difficult to obtain, exposing us to potential risk of loss.

In the future, we may be unable to renew or duplicate our current insurance coverage in adequate amounts or at reasonable prices. In addition, insurance companies may no longer offer coverage against certain types of losses, such as losses due to terrorist acts, environmental liabilities, or other catastrophic events including hurricanes and floods, or, if offered, the expense of obtaining these types of insurance may not be justified. We therefore may cease to have insurance coverage against certain types of losses and/or there may be decreases in the limits of insurance available. If an uninsured loss or a loss in excess of our insured limits occurs, we could lose all or a portion of the capital we have invested in a property, as well as the anticipated future revenue from the property, but still remain obligated for any mortgage debt or other financial obligations related to the property. We cannot guarantee that material losses in excess of insurance proceeds will not occur in the future. If any of our properties were to experience a catastrophic loss, it could seriously disrupt our operations, delay revenue and result in large expenses to repair or rebuild the property. Events such as these could adversely affect our results of operations and our ability to meet our obligations.

Rising operating expenses could reduce our cash flow and funds available for future distributions.

Our existing properties and any properties we develop or acquire in the future are and will be subject to operating risks common to real estate in general, any or all of which may negatively affect us. The expenses of owning and operating properties are not necessarily reduced when circumstances such as market factors and competition cause a reduction in income from the properties. As a result, if any property is not fully occupied or if rents are being paid in an amount that is insufficient to cover operating expenses, we could be required to expend funds for that property's operating expenses. The properties will be subject to increases in real estate and other tax rates, utility costs, operating expenses, insurance costs, repairs and maintenance and administrative expenses.

We could incur significant costs related to government regulation and environmental matters.

Under various federal, state and local laws, ordinances and regulations, an owner or operator of real estate may be required to investigate and clean up hazardous or toxic substances or petroleum product releases at a property and may be held liable to a governmental entity or to third parties for property damage and for investigation and clean up costs incurred by such parties in connection with contamination. The cost of investigation, remediation or removal of such substances may be substantial, and the presence of such substances, or the failure to properly remediate such substances, may adversely

affect the owner's ability to sell or rent such property or to borrow using such property as collateral. In connection with the ownership, operation and management of real properties, we are potentially liable for removal or remediation costs, as well as certain other related costs, including governmental fines and injuries to persons and property. We may also be liable to third parties for damage and injuries resulting from environmental contamination emanating from the real estate.

Some of the properties in our portfolio contain, may have contained or are adjacent to or near other properties that have contained or currently contain underground storage tanks for the storage of petroleum products or other hazardous or toxic substances. These operations may have released, or have the potential to release, such substances into the environment. In addition, some of our properties have tenants that may use hazardous or toxic substances in the routine course of their businesses. In general, these tenants have covenanted in their leases with us to use these substances, if any, in compliance with all environmental laws and have agreed to indemnify us for any damages that we may suffer as a result of their use of such substances. However, these lease provisions may not fully protect us in the event that a tenant becomes insolvent. Finally, one of our properties has contained asbestos-containing building materials, or ACBM, and another property may have contained such materials based on the date of its construction. Environmental laws require that ACBM be properly managed and maintained, and may impose fines and penalties on building owners or operators for failure to comply with these requirements. The laws also may allow third parties to seek recovery from owners or operators for personal injury associated with exposure to asbestos fibers.

Our properties must also comply with Title III of the Americans with Disabilities Act, or ADA, to the extent that such properties are public accommodations as defined by the ADA. The ADA may require removal of structural barriers to access by persons with disabilities in certain public areas of our properties where such removal is readily achievable. Noncompliance with the ADA could result in imposition of fines or an award of damages to private litigants.

Our efforts to identify environmental liabilities may not be successful.

We test our properties for compliance with applicable environmental laws on a limited basis. We cannot assure you that:

- existing environmental studies with respect to our properties reveal all potential environmental liabilities;
- any previous owner, occupant or tenant of one of our properties did not create any material environmental condition not known to us;
- the current environmental condition of our properties will not be affected by tenants and occupants, by the condition of nearby properties, or by other unrelated third parties; or
- future uses or conditions (including, without limitation, changes in applicable environmental laws and regulations or the interpretation thereof) will not result in environmental liabilities.

Inflation may adversely affect our financial condition and results of operations.

Most of our leases contain provisions requiring the tenant to pay its share of operating expenses, including common area maintenance, real estate taxes and insurance. However, increased inflation could have a more pronounced negative impact on our mortgage and debt interest and general and administrative expenses, as these costs could increase at a rate higher than our rents. Also, inflation may adversely affect tenant leases with stated rent increases, which could be lower than the increase in inflation at any given time. Inflation could also have an adverse effect on consumer spending, which could impact our tenants' sales and, in turn, our overage rents, where applicable.

Our share price could be volatile and could decline, resulting in a substantial or complete loss on our shareholders' investment.

The stock markets (including The New York Stock Exchange (NYSE), on which we list our common shares) have experienced significant price and volume fluctuations. The market price of our common shares could be similarly volatile, and investors in our common shares may experience a decrease in the value of their shares, including decreases unrelated to our operating performance or prospects. Among the market conditions that may affect the market price of our publicly traded securities are the following:

- our financial condition and operating performance and the performance of other similar companies;

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

- actual or anticipated differences in our quarterly operating results;
- changes in our revenues or earnings estimates or recommendations by securities analysts;
- publication by securities analysts of research reports about us or our industry;
- additions and departures of key personnel;
- strategic decisions by us or our competitors, such as acquisitions, divestments, spin-offs, joint ventures, strategic investments or changes in business strategy;
- the reputation of REITs generally and the reputation of REITs with portfolios similar to ours;
- the attractiveness of the securities of REITs in comparison to securities issued by other entities (including securities issued by other real estate companies);
- an increase in market interest rates, which may lead prospective investors to demand a higher distribution rate in relation to the price paid for our shares;
- the passage of legislation or other regulatory developments that adversely affect us or our industry;
- speculation in the press or investment community;
- actions by institutional shareholders or hedge funds;
- changes in accounting principles;
- terrorist acts; and
- general market conditions, including factors unrelated to our performance.

In the past, securities class action litigation has often been instituted against companies following periods of volatility in their stock price. This type of litigation could result in substantial costs and divert our management's attention and resources.

A substantial number of common shares eligible for future sale could cause our common share price to decline significantly.

If our shareholders sell, or the market perceives that our shareholders intend to sell, substantial amounts of our common shares in the public market, the market price of our common shares could decline significantly. These sales also might make it more difficult for us to sell equity or equity-related securities in the future at a time and price that we deem appropriate. As of December 31, 2007, we had outstanding 28,981,594 common shares. Of these shares, approximately 27,584,000 are freely tradable, the remainder of which are mostly held by our "affiliates," as that term is defined by Rule 144 under the Securities Act. In addition, approximately 8.3 million units of our Operating Partnership are owned by certain of our executive officers and other individuals, and are redeemable by the holder for cash or, at our election, common shares. Pursuant to registration rights of certain of our executive officers and other individuals, we filed a registration statement with the SEC in August 2005 to register 9,115,149 common shares issued (or issuable upon redemption of units in our Operating Partnership) in our formation transactions. As units are redeemed for common shares, the market price of our common shares could drop significantly if the holders of such shares sell them or are perceived by the market as intending to sell them.

RISKS RELATED TO OUR ORGANIZATION AND STRUCTURE

Our organizational documents contain provisions that generally would prohibit any person (other than members of the Kite family who, as a group, are currently allowed to own up to 21.5% of our outstanding common shares) from beneficially owning more than 7% of our outstanding common shares (or up to 9.8% in the case of certain designated investment entities, as defined in our declaration of trust), which may discourage third parties from conducting a tender offer or seeking other change of control transactions that could involve a premium price for our shares or otherwise benefit our shareholders.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Our organizational documents contain provisions that may have an anti-takeover effect and inhibit a change in our management.

(1) *There are ownership limits and restrictions on transferability in our declaration of trust.* In order for us to qualify as a REIT, no more than 50% of the value of our outstanding shares may be owned, actually or constructively, by five or fewer individuals at any time during the last half of each taxable year. To make sure that we will not fail to satisfy this requirement and for anti-takeover reasons, our declaration of trust generally prohibits any shareholder (other than an excepted holder or certain designated investment entities, as defined in our declaration of trust) from owning (actually, constructively or by attribution), more than 7% of the value or number of our outstanding common shares. Our declaration of trust provides an excepted holder limit that allows members of the Kite family (Al Kite, John Kite and Paul Kite, their family members and certain entities controlled by one or more of the Kites), as a group, to own more than 7% of our outstanding common shares, so long as, under the applicable tax attribution rules, no one excepted holder treated as an individual would hold more than 21.5% of our common shares, no two excepted holders treated as individuals would own more than 28.5% of our common shares, no three excepted holders treated as individuals would own more than 35.5% of our common shares, no four excepted holders treated as individuals would own more than 42.5% of our common shares, and no five excepted holders treated as individuals would own more than 49.5% of our common shares. Currently, one of the excepted holders would be attributed all of the common shares owned by each other excepted holder and, accordingly, the excepted holders as a group would not be allowed to own in excess of 21.5% of our common shares. If at a later time, there were not one excepted holder that would be attributed all of the shares owned by the excepted holders as a group, the excepted holder limit would not permit each excepted holder to own 21.5% of our common shares. Rather, the excepted holder limit would prevent two or more excepted holders who are treated as individuals under the applicable tax attribution rules from owning a higher percentage of our common shares than the maximum amount of common shares that could be owned by any one excepted holder (21.5%), plus the maximum amount of common shares that could be owned by any one or more other individual common shareholders who are not excepted holders (7%). Certain entities that are defined as designated investment entities in our declaration of trust, which generally includes pension funds, mutual funds, and certain investment management companies, are permitted to own up to 9.8% of our outstanding common shares, so long as each beneficial owner of the shares owned by such designated investment entity would satisfy the 7% ownership limit if those beneficial owners owned directly their proportionate share of the common shares owned by the designated investment entity. Our board of trustees may waive the 7% ownership limit or the 9.8% designated investment entity limit for a shareholder that is not an individual if such shareholder provides information and makes representations to the board that are satisfactory to the board, in its reasonable discretion, to establish that such person's ownership in excess of the 7% limit or the 9.8% limit, as applicable, would not jeopardize our qualification as a REIT. In addition, our declaration of trust contains certain other ownership restrictions intended to prevent us from earning income from related parties if such income would cause us to fail to comply with the REIT gross income requirements. The various ownership restrictions may:

- discourage a tender offer or other transactions or a change in management or control that might involve a premium price for our shares or otherwise be in the best interests of our shareholders; or
- compel a shareholder who has acquired our shares in excess of these ownership limitations to dispose of the additional shares and, as a result, to forfeit the benefits of owning the additional shares. Any acquisition of our common shares in violation of these ownership restrictions will be void *ab initio* and will result in automatic transfers of our common shares to a charitable trust, which will be responsible for selling the common shares to permitted transferees and distributing at least a portion of the proceeds to the prohibited transferees.

(2) *Our declaration of trust permits our board of trustees to issue preferred shares with terms that may discourage a third party from acquiring us.* Our declaration of trust permits our board of trustees to issue up to 40,000,000 preferred shares, having those preferences, conversion or other rights, voting powers, restrictions, limitations as to distributions, qualifications, or terms or conditions of redemption as determined by our board. Thus, our board could authorize the issuance of preferred shares with terms and conditions that could have the effect of discouraging a takeover or other transaction in which holders of some or a majority of our shares might receive a premium for their shares over the then-prevailing market price of our shares. In addition, any preferred shares that we issue likely would rank senior to our common shares with respect to payment of distributions, in which case we could not pay any distributions on our common shares until full distributions were paid with respect to such preferred shares.

(3) *Our declaration of trust and bylaws contain other possible anti-takeover provisions.* Our declaration of trust and bylaws contain other provisions that may have the effect of delaying, deferring or preventing a change in control of our company or the removal of existing management and, as a result, could prevent our shareholders from being paid a premium for their common shares over the then-prevailing market prices. These provisions include advance notice requirements for shareholder proposals and our board of trustees' power to reclassify shares and issue additional common shares or preferred shares and the absence of cumulative voting rights.

Certain provisions of Maryland law could inhibit changes in control.

Certain provisions of Maryland law may have the effect of inhibiting a third party from making a proposal to acquire us or of impeding a change of control under circumstances that otherwise could provide the holders of our common shares with the opportunity to realize a premium over the then-prevailing market price of such shares, including:

- “business combination moratorium/fair price” provisions that, subject to limitations, prohibit certain business combinations between us and an “interested shareholder” (defined generally as any person who beneficially owns 10% or more of the voting power of our shares or an affiliate thereof) for five years after the most recent date on which the shareholder becomes an interested shareholder, and thereafter imposes stringent fair price and super-majority shareholder voting requirements on these combinations; and
- “control share” provisions that provide that “control shares” of our company (defined as shares which, when aggregated with other shares controlled by the shareholder, entitle the shareholder to exercise one of three increasing ranges of voting power in electing trustees) acquired in a “control share acquisition” (defined as the direct or indirect acquisition of ownership or control of “control shares” from a party other than the issuer) have no voting rights except to the extent approved by our shareholders by the affirmative vote of at least two thirds of all the votes entitled to be cast on the matter, excluding all interested shares, and are subject to redemption in certain circumstances.

We have opted out of these provisions of Maryland law. However, our board of trustees may opt to make these provisions applicable to us at any time.

Certain officers and trustees may have interests that conflict with the interests of shareholders.

Certain of our officers and members of our board of trustees own limited partnership units in our Operating Partnership. These individuals may have personal interests that conflict with the interests of our shareholders with respect to business decisions affecting us and our Operating Partnership, such as interests in the timing and pricing of property sales or refinancings in order to obtain favorable tax treatment. As a result, the effect of certain transactions on these unit holders may influence our decisions affecting these properties.

Certain members of our executive management team have outside business interests that could require time and attention.

Certain members of our executive management team own interests in properties that are not part of our Company. These properties include a 243-room Indianapolis luxury hotel and condominium development that opened in 2006 and various outlots and land parcels that are held for sale. In some cases, one or more of these individuals or their affiliates will have certain management and fiduciary obligations that may conflict with such person’s responsibilities as an officer or trustee of our company and may adversely affect our operations.

Departure or loss of our key officers could have an adverse effect on us.

Our future success depends, to a significant extent, upon the continued services of our existing executive officers. Our executive officers’ experience in real estate acquisition, development and finance are critical elements of our future success. We have employment agreements with each of our executive officers that provided for an initial term that ended in December 2007, with automatic one-year renewals unless either we or the officer elects not to renew the agreement. Each of these agreements was renewed through December 31, 2008. If one or more of our key executives were to die, become disabled or otherwise leave the company’s employ, we may not be able to replace this person with an executive officer of equal skill, ability, and industry expertise. Until suitable replacements personnel could be identified and hired, our operations and financial condition could be impaired.

We depend on external capital.

To qualify as a REIT, we will be required to distribute to our shareholders each year at least 90% of our net taxable income excluding net capital gains. In order to eliminate federal income tax, we will be required to distribute annually 100% of our net taxable income, including capital gains. Because of these distribution requirements, we likely will not be

able to fund all future capital needs, including capital for property development and acquisitions, with income from operations. We therefore will have to rely on third-party sources of capital, which may or may not be available on favorable terms, if at all. Our access to third-party sources of capital depends on a number of things, including the market's perception of our growth potential and our current and potential future earnings and our ability to qualify as a REIT for federal income tax purposes.

Our rights and the rights of our shareholders to take action against our trustees and officers are limited.

Maryland law provides that a director or officer has no liability in that capacity if he or she performs his or her duties in good faith, in a manner he or she reasonably believes to be in our best interests that an ordinarily prudent person in a like position would use under similar circumstances. Our declaration of trust and bylaws require us to indemnify our trustees and officers for actions taken by them in those capacities to the extent permitted by Maryland law. As a result, we and our shareholders may have more limited rights against our trustees and officers than might otherwise exist under common law. Accordingly, in the event that actions taken in good faith by any of our trustees or officers impede the performance of our company, our shareholders' ability to recover damages from such trustee or officer will be limited.

Our shareholders have limited ability to prevent us from making any changes to our policies that they believe could harm our business, prospects, operating results or share price.

Our board of trustees has adopted policies with respect to certain activities. These policies may be amended or revised from time to time at the discretion of our board of trustees without a vote of our shareholders. This means that our shareholders will have limited control over changes in our policies. Such changes in our policies intended to improve, expand or diversify our business may not have the anticipated effects and consequently may adversely affect our business and prospects, results of operations and share price.

TAX RISKS

Failure of our company to qualify as a REIT would have serious adverse consequences to us and our shareholders.

We believe that we have qualified for taxation as a REIT for federal income tax purposes commencing with our taxable year ended December 31, 2004. We intend to continue to meet the requirements for qualification and taxation as a REIT, but we cannot assure shareholders that we will qualify as a REIT. We have not requested and do not plan to request a ruling from the IRS that we qualify as a REIT, and the statements in this Annual Report on Form 10-K are not binding on the IRS or any court. As a REIT, we generally will not be subject to federal income tax on our income that we distribute currently to our shareholders. Many of the REIT requirements, however, are highly technical and complex. The determination that we are a REIT requires an analysis of various factual matters and circumstances that may not be totally within our control. For example, to qualify as a REIT, at least 95% of our gross income must come from specific passive sources, such as rent, that are itemized in the REIT tax laws. In addition, to qualify as a REIT, we cannot own specified amounts of debt and equity securities of some issuers. We also are required to distribute to our shareholders with respect to each year at least 90% of our REIT taxable income (excluding capital gains). The fact that we hold substantially all of our assets through our Operating Partnership and its subsidiaries and joint ventures further complicates the application of the REIT requirements for us. Even a technical or inadvertent mistake could jeopardize our REIT status and, given the highly complex nature of the rules governing REITs and the ongoing importance of factual determinations, we cannot provide any assurance that we will continue to qualify as a REIT. Furthermore, Congress and the IRS might make changes to the tax laws and regulations, and the courts might issue new rulings, that make it more difficult, or impossible, for us to remain qualified as a REIT.

If we fail to qualify as a REIT for federal income tax purposes, and are unable to avail ourselves of certain savings provisions set forth in the Internal Revenue Code, we would be subject to federal income tax at regular corporate rates. As a taxable corporation, we would not be allowed to take a deduction for distributions to shareholders in computing our taxable income or pass through long term capital gains to individual shareholders at favorable rates. We also could be subject to the federal alternative minimum tax and possibly increased state and local taxes. We would not be able to elect to be taxed as a REIT for four years following the year we first failed to qualify unless the IRS were to grant us relief under certain statutory provisions. If we failed to qualify as a REIT, we would have to pay significant income taxes, which would reduce our net earnings available for investment or distribution to our shareholders. If we fail to qualify as a REIT, such failure would cause an event of default under our credit facility and may adversely affect our ability to raise capital and to service our debt. This likely would have a significant adverse effect on our earnings and the value of our securities. In addition, we

would no longer be required to pay any distributions to shareholders. If we fail to qualify as a REIT for federal income tax purposes and are able to avail ourselves of one or more of the statutory savings provisions in order to maintain our REIT status, we would nevertheless be required to pay penalty taxes of \$50,000 or more for each such failure.

We will pay some taxes even if we qualify as a REIT.

Even if we qualify as a REIT for federal income tax purposes, we will be required to pay certain federal, state and local taxes on our income and property. For example, we will be subject to income tax to the extent we distribute less than 100% of our REIT taxable income (including capital gains). Additionally, we will be subject to a 4% nondeductible excise tax on the amount, if any, by which dividends paid by us in any calendar year are less than the sum of 85% of our ordinary income, 95% of our capital gain net income and 100% of our undistributed income from prior years. Moreover, if we have net income from “prohibited transactions,” that income will be subject to a 100% tax. In general, prohibited transactions are sales or other dispositions of property held primarily for sale to customers in the ordinary course of business. The determination as to whether a particular sale is a prohibited transaction depends on the facts and circumstances related to that sale. While we will undertake sales of assets if those assets become inconsistent with our long-term strategic or return objectives, we do not believe that those sales should be considered prohibited transactions, but there can be no assurance that the IRS would not contend otherwise. The need to avoid prohibited transactions could cause us to forego or defer sales of properties that our predecessors otherwise would have sold or that it might otherwise be in our best interest to sell.

In addition, any net taxable income earned directly by our taxable REIT subsidiaries, or through entities that are disregarded for federal income tax purposes as entities separate from our taxable REIT subsidiaries, will be subject to federal and possibly state corporate income tax. We have elected to treat Kite Realty Holdings, LLC as a taxable REIT subsidiary, and we may elect to treat other subsidiaries as taxable REIT subsidiaries in the future. In this regard, several provisions of the laws applicable to REITs and their subsidiaries ensure that a taxable REIT subsidiary will be subject to an appropriate level of federal income taxation. For example, a taxable REIT subsidiary is limited in its ability to deduct interest payments made to an affiliated REIT. In addition, the REIT has to pay a 100% penalty tax on some payments that it receives or on some deductions taken by the taxable REIT subsidiaries if the economic arrangements between the REIT, the REIT’s tenants, and the taxable REIT subsidiary are not comparable to similar arrangements between unrelated parties. Finally, some state and local jurisdictions may tax some of our income even though as a REIT we are not subject to federal income tax on that income because not all states and localities treat REITs the same as they are treated for federal income tax purposes. To the extent that we and our affiliates are required to pay federal, state and local taxes, we will have less cash available for distributions to our shareholders.

ITEM 1.B. UNRESOLVED STAFF COMMENTS

None

ITEM 2. PROPERTIES***Retail Operating Properties***

As of December 31, 2007, we owned interests in a portfolio of 50 retail operating properties totaling approximately 7.4 million square feet of gross leasable area (“GLA”) (including non-owned anchor space). The following tables set forth more specific information with respect to the Company’s retail operating properties as of December 31, 2007:

OPERATING RETAIL PROPERTIES - TABLE I

Property ^{1,2}	State	MSA	Year Built/Renovated	Year Added to Operating Portfolio	Acquired, Redeveloped, or Developed	Total GLA ²	Owned GLA ²	Percentage of Owned GLA Leased ³

* Property consists of ground leases only and no Owned GLA. As of December 31, 2007, the following were leased: Eagle Creek Lowe's – single ground lease property; Greyhound Commons – two of four outlots leased; and Weston Park Phase I – one of two outlots leased.

1 All properties are wholly owned, except as indicated. Unless otherwise noted, each property is owned in fee simple by the Company.

2 Owned GLA represents gross leasable area that we own. Total GLA includes Owned GLA, square footage attributable to non-owned anchor space, and non-owned structures on ground leases.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

- 3 Percentage of Owned GLA Leased reflects Owned GLA/NRA leased as of December 31, 2007, except for Greyhound Commons, Weston Park Phase I and Eagle Creek Lowe's (see *).
- 4 We acquired a 99.9% interest in this property through a joint venture with a third party that manages the property. At the current time, we receive 85% of the cash flow from the property, a percentage that may decrease under certain circumstances.
- 5 This property is divided into two parcels: a grocery store and small shops. We own a 25% interest in the small shops parcel through a joint venture and a 100% interest in the grocery store. The joint venture partner is entitled to an annual preferred payment of \$96,000. All remaining cash flow is distributed to us.
- 6 We own a 60% interest in this property through a joint venture with a third party that manages the property.
- 7 We do not own the land at this property. It has leased the land pursuant to two ground leases that expire in 2017. We have six five-year options to renew this lease.
- 8 We do not own the land at this property. It has leased the land pursuant to a ground lease that expires in 2027. We have five five-year renewal options.
- 9 We do not own the land at this property. It has leased the land pursuant to a ground lease that expires in 2012. We have six five-year renewal options and a right of first refusal to purchase the land.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

1 Annualized Base Rent represents the contractual rent for December 2007 for each applicable property, multiplied by 12. This table does not include Annualized Base Rent from development property tenants open for business as of December 31, 2007.

26

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

- 2 Owned GLA represents gross leasable area that we own, Total GLA includes Owned GLA, square footage attributable to non-owned anchor space and non-owned structures on ground leases.
- 3 Represents the three largest tenants that occupy at least 10,000 square feet of GLA at the property, including non-owned anchors.
- 4 A third party manages this property.
- 5 In January 2008, we entered into a lease termination agreement with Circuit City at Sunland Towne Centre. At December 31, 2007, annualized base rent revenue of Circuit City at this property was approximately \$0.4 million, or approximately 0.6% of the total annualized base rent revenue of our operating and development properties. We are in the process of identifying a replacement tenant.
- 6 We own a 60% interest in this property through a joint venture. Our portion of debt encumbering the property is \$2,265,817.

Commercial Properties

As of December 31, 2007, we owned interests in four operating commercial properties totaling approximately 563,000 square feet of net rentable area ("NRA") and an associated parking garage. The following sets forth more specific information with respect to the Company's commercial properties as of December 31, 2007:

OPERATING COMMERCIAL PROPERTIES

1 Annualized Base Rent represents the monthly contractual rent for December 2007 for each applicable property, multiplied by 12.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

- 2 We own a 50% interest in this property through a joint venture with one of the tenants at this property. Our portion of debt encumbering the property is \$5,915,288.
- 3 Annualized Base Rent for 2007 is approximately \$500,000.
- 4 Annualized Base Rent includes \$890,942 from the Company and subsidiaries as of December 31, 2007.

Retail Development/Redevelopment Properties

In addition to our operating retail properties, as of December 31, 2007, we owned 11 retail development/ redevelopment properties that are expected to contain approximately 1.8 million square feet of gross leasable area (including non-owned anchor space) upon completion. The following sets forth more specific information with respect to the Company's retail development properties as of December 31, 2007:

1 Opening Date is defined as the first date a tenant is open for business or a ground lease payment is made. Stabilization (i.e., 85% occupied) typically occurs within six to twelve months after the opening date.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

- 2 Projected Owned GLA represents gross leasable area we project we will own. It excludes square footage that we project will be attributable to non-owned outlot structures on land owned by us and expected to be ground leased to tenants. It also excludes non-owned anchor space.
- 3 Projected Total GLA includes Projected Owned GLA, projected square footage attributable to non-owned outlot structures on land that we own, and non-owned anchor space that currently exists or is under construction.
- 4 Dollars in thousands. Reflects both the Company's and partners' share of costs.
- 5 Excludes outlot land parcels we own and ground lease to tenants. Includes leases under negotiation for approximately 16,259 square feet for which we have signed non-binding letters of intent.
- 6 We own the following development properties through joint ventures: Cobblestone Plaza (50%); Sandifur Plaza (95%); Beacon Hill (preferred return, then 50%); Gateway Shopping Center (preferred return, then 50% until internal rate of return threshold is reached and then 25%); Spring Mill Medical II (preferred return, then 50%) and Bayport Commons (preferred return, then 60%).
- 7 Includes tenants that have taken possession of their space or have begun paying rent.
- 8 This property has been removed from the operating portfolio statistics during its redevelopment.
- 9 We are in the process of re-tenanting the anchor space formerly occupied by Winn-Dixie with two junior box users. We have an executed lease with Staples for approximately one-half of the former grocery space.
- 10 Target Corporation acquired 10.5 acres in April 2007 and will anchor the redevelopment. We will construct approximately 62,000 square feet of new b-shop/professional office space and leasing activities have commenced. Existing tenants that will remain throughout the redevelopment process include Macy's, Kerasotes Theaters, Staples, Indianapolis-Marion Co. Public Library, OASIS, Lenscrafters, Taco Bell, and O'Charley's.
- 11 Beacon Hill Phase I was transferred to the operating portfolio in the third quarter of 2007 at a total cost of \$12 million.

Other Development Activity

In addition to our current development pipeline, as displayed in the table above, we have a significant "visible shadow" development pipeline, which includes land parcels that are in the final stages of preparation for construction to commence. As of December 31, 2007, this visible shadow pipeline consisted of six projects that are expected to contain approximately 3.1 million square feet at a total estimated project cost of approximately \$391.8 million.

- 1 Total Estimated Cost and Estimated Total GLA based on preliminary site plans and includes non-owned anchor space that exists or is currently under construction.
- 2 We own the following development properties through joint ventures: Delray Marketplace (preferred return, then 50%) and Cobblestone Plaza (preferred return, then 50%).
- 3 In December 2006, Parkside Town Commons was acquired in a joint venture with Prudential Real Estate Investors. Our interest in this joint venture is currently 40% and will become 20% upon the commencement of construction. Our portion of debt encumbering this property at December 31, 2007 was \$19,912,566.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

- 4 “Total Estimated Cost” includes the acquisition cost of the Four Corner Square shopping center which is a component of the Maple Valley redevelopment.
- 5 Dollars in thousands. Reflects both the Company’s and partners’ share of costs.
- 6 Includes the Current Development Pipeline, Redevelopment Projects and the Visible Shadow Pipeline.
- 7 The total estimated cost of the initial phase includes retail, office, and multi-family. We intend to own 100% of the retail and office while utilizing a joint venture for the multi-family component.

Land Held for Future Development

As of December 31, 2007, we owned interests in land parcels comprising approximately 112 acres that may be used for future expansion of existing properties or development of new retail or commercial properties.

Tenant Diversification

No individual retail or commercial tenant accounted for more than 3.5% of the portfolio’s annualized base rent for the year ended December 31, 2007 or 3.9% of total retail portfolio GLA as of December 31, 2007. The following table sets forth certain information for the largest 10 tenants and non-owned anchor tenants (based on total GLA) open for business or for which ground lease payments are being made at the Company’s retail properties based on minimum rents in place as of December 31, 2007:

- 1 A ground lease with Lowe’s was entered into during the first quarter of 2006. An estimated 165,000 square feet is included in Anchor Owned GLA to account for this property. Another ground lease with Lowe’s was entered into during the second quarter of 2006. An estimated 163,000 square feet is included in Anchor Owned GLA to account for this property.
- 2 Excludes the estimated size of the structures located on land we own and ground lease to tenants.
- 3 Includes the estimated size of the structures located on land we own and ground lease to tenants.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

- 4 In January 2008, we entered into a lease termination agreement with Circuit City at Sunland Towne Centre. At December 31, 2007, annualized base rent revenue of Circuit City at this property was approximately \$0.4 million, or approximately 0.6% of the total annualized base rent revenue of our operating and development properties. We are in the process of identifying a replacement tenant. The following table sets forth certain information for the largest 25 tenants open for business at the Company's retail and commercial properties based on minimum rents in place as of December 31, 2007:

1 Annualized base rent represents the monthly contractual rent for December 2007 for each applicable tenant multiplied by 12.

2 Excludes tenants at development properties that are Build-to-Suits for sale.

3 Property held in unconsolidated joint venture. Annualized base rent is reflected at 100 percent.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

- 4 Annualized Base Rent per Sq. Ft. is adjusted to account for the estimated square footage attributed to structures on land we own and ground lease to tenants.
- 5 Excludes the estimated size of the structures located on land we own and ground leased to tenants.
- 6 In January 2008, we entered into a lease termination agreement with Circuit City at Sunland Towne Centre. At December 31, 2007, annualized base rent revenue of Circuit City at this property was approximately \$0.4 million, or approximately 0.6% of the total annualized base rent revenue of our operating and development properties. We are in the process of identifying a replacement tenant.

Geographic Information

The Company owns 50 operating retail properties, totaling approximately 4.7 million of owned square feet in nine states. As of December 31, 2007, the Company owned interests in four operating commercial properties, totaling approximately 563,000 square feet of net rentable area, and an associated parking garage. All of these commercial properties are located in the state of Indiana. The following table summarizes the Company's operating properties by state as of December 31, 2007:

	Number of Operating Properties ¹	Owned GLA/NRA ²	Percent of Owned GLA/NRA	Total Number of Leases	Annualized Base Rent ³	Percent of Annualized Base Rent	Annualized Base Rent per Leased Sq. Ft.

1 This table includes operating retail properties, operating commercial properties (including a parking garage), and development properties open for business or ground lease tenants who commenced paying rent as of December 31, 2007.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

- 2 Owned GLA/NRA represents gross leasable area or net leasable area we own. It does not include 24 parcels or outlots owned by the Company and ground leased to tenants, which contain 24 non-owned structures totaling approximately 487,253 square feet. It also excludes the square footage of Union Station Parking Garage.
- 3 Annualized Base Rent excludes \$4,119,233 in annualized ground lease revenue attributable to parcels and outlots owned by the Company and ground leased to tenants. It also excludes approximately \$500,000 in 2007 annualized minimum rent attributed to Union Station Parking Garage as well as the leases on development properties.

Lease Expirations

Approximately 3.9% of total annualized base rent and approximately 4.9% of total GLA/NRA expire in 2008. The following tables show scheduled lease expirations for retail and commercial tenants and development property tenants open for business and development property tenants open for business as of December 31, 2007, assuming none of the tenants exercise renewal options. The tables include tenants open for business at operating retail and commercial properties as of December 31, 2007.

ITEM 3. LEGAL PROCEEDINGS

We are a party to various legal proceedings, which arise in the ordinary course of business. We are not currently involved in any litigation nor, to our knowledge, is any litigation threatened against us the outcome of which would, in our judgment based on information currently available to us, have a material adverse effect on our consolidated financial position or consolidated results of operations.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matter was submitted to a vote of security holders through the solicitation of proxies or otherwise during the fourth quarter of 2007.

PART II**ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED SHAREHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

Market Information – Our common shares are currently listed and traded on the New York Stock Exchange (“NYSE”) under the symbol “KRG”. On March 7, 2008, the last reported sales price of our common shares on the NYSE was \$12.25.

The following table sets forth, for the periods indicated, the high and low sales prices and the closing prices for the Company’s common shares:

	<u>High</u>	<u>Low</u>	<u>Closing</u>
Quarter Ended March 31, 2006	\$ 16.15	\$ 14.81	\$ 15.95
Quarter Ended June 30, 2006	\$ 15.88	\$ 14.05	\$ 15.59
Quarter Ended September 30, 2006	\$ 17.10	\$ 14.88	\$ 17.04
Quarter Ended December 31, 2006	\$ 19.70	\$ 16.66	\$ 18.62
Quarter Ended March 31, 2007	\$ 21.14	\$ 18.24	\$ 19.95
Quarter Ended June 30, 2007	\$ 21.80	\$ 18.05	\$ 19.02
Quarter Ended September 30, 2007	\$ 19.49	\$ 15.02	\$ 18.80
Quarter Ended December 31, 2007	\$ 20.60	\$ 13.95	\$ 15.27

Holdings – The number of registered holders of record of our common shares was 59 as of March 7, 2008. This total excludes beneficial or non-registered holders that held their shares through various brokerage firms.

Distributions – Our Board of Trustees declared the following cash distributions per share to our common shareholders for the periods indicated:

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Quarter	Record Date	Distribution Per Share	Payment Date
1 st 2006	April 6, 2006	\$ 0.1875	April 18, 2006
2 nd 2006	July 6, 2006	\$ 0.1875	July 18, 2006
3 rd 2006	October 5, 2006	\$ 0.1950	October 17, 2006
4 th 2006	January 5, 2007	\$ 0.1950	January 16, 2007
1 st 2007	April 5, 2007	\$ 0.1950	April 17, 2006
2 nd 2007	July 6, 2007	\$ 0.1950	July 18, 2007
3 rd 2007	October 4, 2007	\$ 0.2050	October 16, 2007
4 th 2007	January 7, 2008	\$ 0.2050	January 15, 2008

We intend to continue to pay regular quarterly distributions to our common shareholders. Future distributions will be declared and paid at the discretion of our Board of Trustees, and will depend upon cash generated by operating activities, our financial condition, capital requirements, annual distribution requirements under the REIT provisions of the Internal Revenue Code of 1986, as amended, and such other factors as our Board of Trustees deem relevant. We anticipate that for the foreseeable future, cash available for distribution will be greater than earnings and profits due to non-cash expenses, primarily depreciation and amortization, to be incurred by us. Distributions by us to the extent of our current and accumulated earnings and profits for federal income tax purposes will be taxable to shareholders as either ordinary dividend income or capital gain income if so declared by us. Distributions in excess of earnings and profits generally will be treated as a non-taxable return of capital. These distributions have the effect of deferring taxation until the sale of a shareholder's common shares. In order to maintain our qualification as a REIT, we must make annual distributions to shareholders of at least 90% of our taxable income. Under certain circumstances, we could be required to make distributions in excess of cash available for distributions in order to meet such requirements. For the taxable year ended December 31, 2007, approximately 40.0% of our distributions to shareholders constituted a return of capital, approximately 37.3% constituted taxable ordinary income dividends and approximately 22.7% constituted taxable capital gains.

Under our revolving credit facility, we are permitted to make distributions to our shareholders not to exceed 95% of our Funds From Operations ("FFO") provided that no event of default exists. See page 57 for a discussion of FFO. If an event of default exists, we may only make distributions sufficient to maintain our REIT status. However, we may not make any distributions if any event of default resulting from nonpayment or bankruptcy exists, or if our obligations under the credit facility are accelerated.

The Company did not repurchase any of its common shares or sell any unregistered securities during the period covered by this report.

Performance Graph – Notwithstanding anything to the contrary set forth in any of our filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, that might incorporate Securities and Exchange Commission filings, in whole or in part, the following performance graph will not be incorporated by reference into any such filings.

The following graph compares the cumulative total shareholder return of our common shares for the period from August 11, 2004, the date that our common shares began trading on NYSE, to December 31, 2007, to the S&P 500 Index and to the published NAREIT All Equity REIT Index over the same period. The graph assumes that the value of the investment in our common shares and each index was \$100 at August 11, 2004 and that all dividends were reinvested. The shareholder return shown on the graph below is not indicative of future performance.

COMPARISON OF 40 MONTH CUMULATIVE TOTAL RETURN*
 Among Kite Realty Group Trust, The S&P 500 Index
 And The NAREIT Equity Index

* \$100 invested on 8/11/04 in stock or on 7/31/04 in index-including reinvestment of dividends. Fiscal year ending December 31.

ITEM 6. SELECTED FINANCIAL DATA

The following tables set forth, on a historical basis, selected financial and operating information. The financial information has been derived from the consolidated balance sheets and statements of operations of the Company and the combined statements of operations of our Predecessor. This information should be read in conjunction with the audited consolidated financial statements of the Company and Management's Discussion and Analysis of Financial Condition and Results of Operations appearing elsewhere in this Annual Report on Form 10-K.

Significant changes in operations in fiscal year 2007 are primarily a result of the following:

- In November 2007, we sold our 176th & Meridian property for net proceeds of \$7.0 million and a gain, net of Limited Partners' interests, of \$1.6 million. 176th & Meridian was a development property that was added to our operating portfolio in the third quarter of 2004. Therefore, the operating results related to this property have been reflected as discontinued operations for fiscal years ended December 31, 2007, 2006, 2005, and 2004; and
- the transition of six development properties that became operational or partially operational during 2007.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the accompanying historical financial statements and related notes thereto and the "Risk Factors" appearing elsewhere in this Annual Report on Form 10-K. In this discussion, unless the context suggests otherwise, references to the "Company," "we," "us" and "our" mean Kite Realty Group Trust and its subsidiaries.

Overview*Our Business and Properties*

Kite Realty Group Trust, through its majority-owned subsidiary, Kite Realty Group, L.P., is engaged in the ownership, operation, management, leasing, acquisition, construction, expansion and development of neighborhood and community shopping centers and certain commercial real estate properties in selected growth markets in the United States. We also provide real estate facility management, construction, development and other advisory services to third parties. We derive revenues primarily from rents and reimbursement payments received from tenants under existing leases at each of our properties. We also derive revenues from providing management, leasing, real estate development, construction and real estate advisory services through our taxable REIT subsidiary. Our operating results therefore depend materially on the ability of our tenants to make required payments and overall real estate market conditions.

As of December 31, 2007, we owned interests in a portfolio of 50 operating retail properties totaling approximately 7.4 million square feet of gross leasable area (including non-owned anchor space) and also owned interests in four operating commercial properties totaling approximately 563,000 square feet of net rentable area and an associated parking garage. Also, as of December 31, 2007, we had an interest in 11 properties in our development/redevelopment pipeline (including our Glendale Town Center and Shops at Eagle Creek properties, both of which are undergoing a major redevelopment). Upon completion, our development/redevelopment properties are anticipated to have approximately 1.8 million square of total gross leasable area.

In addition to our current development/redevelopment pipeline, we have a significant "visible shadow" development pipeline which includes land parcels that are undergoing pre-development activity and are in the final stages of preparation for construction to commence. As of December 31, 2007, this visible shadow pipeline consisted of six projects that are expected to contain approximately 3.1 million square feet of total gross leasable area upon completion.

Finally, as of December 31, 2007, we also owned interests in other land parcels comprising approximately 112 acres. These land parcels are classified as "Land held for development" in the accompanying consolidated balance sheet.

2007 Developments and Current Market Conditions

During 2007 and into 2008, there was, and continues to be, increasing economic uncertainty. The United States economy, as well as the specific markets that we operate in, could face a challenging economic environment in 2008. The possibility of recession or the effects of inflation, consumer credit availability, consumer debt levels, energy costs, tax rates, business layoffs, downsizing or industry slowdowns could have an adverse affect on the businesses of our retail tenants. This, in turn, could challenge our business because current or prospective tenants may be unwilling to enter into or renew leases with us on favorable terms or at all, or our tenants may have a more difficult time paying us rent. These conditions could also negatively affect the market for retail space. As an owner and developer of community and neighborhood shopping centers, our performance is linked to economic conditions in the retail industry in those markets where our centers are located. This is particularly true in Indiana, Florida and Texas, the states where the majority of our properties are located.

The challenging economic conditions in the United States have been created, in part, by recent events in the credit, mortgage and housing markets. During 2007, higher interest rates, falling real estate prices and a significant increase in the number of high risk, or sub-prime, mortgages contributed to dramatic increases in mortgage delinquencies and defaults in 2007. The anticipated future delinquencies among sub-prime borrowers in the United States is expected to continue in the foreseeable future. These conditions have caused banks to tighten credit standards, making it more difficult for individuals and companies to obtain financing on favorable terms, if at all. Obtaining favorable financing is important to our business due to, among other things, the capital needs of our existing development projects. In addition, we may seek to refinance the current indebtedness on our properties. The uncertainty in the credit markets could make it more challenging for us to carry out our financing objectives in 2008.

Current Dual Growth Strategy

Despite the current challenging environment, we believe that our strong balance sheet will continue to provide us access to reliable capital and allow us to refinance variable rate debt. For example, in January and February 2008, we were able to take advantage of low interest rates and refinance variable rate debt at seven of our consolidated properties and one of our unconsolidated properties. As a result of this refinancing, approximately 76% of debt obligations previously due in 2008 are now due in 2009 (including our share of debt at our unconsolidated property) and approximately 5% of debt obligations previously due in 2008 are now due in 2011. We will continue to try to take advantage of low interest rates to refinance variable rate debt. We also believe that, notwithstanding the challenging conditions, our strong demographics, experience with prior downturns in the economy and solid current development and visible shadow pipeline will allow us to continue to execute our dual growth strategy in 2008.

The first part of this growth strategy is to focus on increasing our internal growth by leveraging our existing tenant relationships to improve the performance of our existing operating property portfolio. We intend to focus on improving the operational efficiencies of our existing portfolio by attempting to, among other things, lowering our variable costs while increasing ancillary income at our existing properties. The second part of our growth strategy is to focus on achieving external growth through the expansion of our portfolio. We continue to develop our current development pipeline and prepare the properties in our visible shadow pipeline for the commencement of construction. In addition, we continue to pursue targeted acquisitions of both land and neighborhood and community shopping centers in attractive markets with strong economic and demographic characteristics, as well as additional joint venture capital partners. We expect to incur additional debt in connection with any future development or acquisitions of real estate. We may also dispose of certain real estate that no longer fits our portfolio or growth strategy.

Summary of Critical Accounting Policies and Estimates

Our significant accounting policies are more fully described in Note 2 of the accompanying consolidated financial statements. As disclosed in Note 2, the preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ significantly from those estimates. We believe that the following discussion addresses our most critical accounting policies, which are those that are most important to the portrayal of our financial condition and results of operations and require management's most difficult, subjective, and complex judgments.

Purchase Accounting

The purchase price of operating properties is allocated to tangible and identified intangible assets acquired based on their fair values in accordance with the provisions of Statement of Financial Accounting Standards No. 141, "Business Combinations" ("SFAS No. 141"). In making estimates of fair values for the purpose of allocating purchase price, a number of sources are utilized. We also consider information about each property obtained as a result of its pre-acquisition due diligence, marketing and leasing activities in estimating the fair value of tangible and intangible assets acquired.

A portion of the purchase price is allocated to tangible and intangible assets, including:

- the fair value of the building on an as-if-vacant basis and to land determined by real estate tax assessments, independent appraisals, or other relevant data;
- above-market and below-market in-place lease values for acquired properties are based on the present value (using an interest rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) management's estimate of fair market lease rates for the corresponding in-place leases, measured over the remaining non-cancelable term of the leases. The capitalized above-market and below-market lease values are amortized as a reduction of or addition to rental income over the remaining non-cancelable terms of the respective leases. Should a tenant terminate its lease, the unamortized portion of the lease intangibles would be charged or credited to income; and
- the value of leases acquired. We utilize independent sources for our estimates to determine the respective in-place lease values. Our estimates of value are made using methods similar to those used by independent appraisers. Factors we consider in our analysis include an estimate of costs to execute similar leases including tenant improvements, leasing commissions and foregone costs and rent received during the estimated lease-up period as if the space was vacant. The value of in-place leases is amortized to expense over the remaining initial terms of the respective leases.

We also consider whether a portion of the purchase price should be allocated to in-place leases that have a related customer relationship intangible value. Characteristics we consider in allocating these values include the nature and extent of existing business relationships with the tenant, growth prospects for developing new business with the tenant, the tenant's credit quality, and expectations of lease renewals, among other factors. To date, a tenant relationship has not been developed that is considered to have a current intangible value.

Capitalization of Certain Pre-Development and Development Costs

We incur costs prior to land acquisition and for certain land held for development, including acquisition contract deposits as well as legal, engineering and other external professional fees related to evaluating the feasibility of developing a shopping center. These pre-development costs are included in construction in progress in the accompanying consolidated balance sheets. If we determine that the development of a property is no longer probable, any pre-development costs previously incurred are immediately expensed.

We also capitalize costs such as construction, interest, real estate taxes, salaries and related costs of personnel directly involved with the development of our properties. As a portion of the development property becomes operational, we expense appropriate costs on a pro rata basis.

Impairment of Investment Properties

In accordance with Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS No. 144"), investment properties are reviewed for impairment on a property-by-property basis at least annually or whenever events or changes in circumstances indicate that the carrying value of investment properties may not be recoverable. Impairment losses for investment properties are recorded when the undiscounted cash flows estimated to be generated by the investment properties during the expected hold period are less than the carrying amounts of those assets. Impairment losses are measured as the difference between the carrying value and the fair value of the asset.

In accordance with SFAS No. 144, operating properties held for sale include only those properties available for immediate sale in their present condition and for which management believes it is probable that a sale of the property will

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

be completed within one year. Operating properties are carried at the lower of cost or fair value less costs to sell. Depreciation and amortization are suspended during the held-for-sale period.

Our properties generally have operations and cash flows that can be clearly distinguished from the rest of our activities. In accordance with SFAS No. 144, the operations reported in discontinued operations include those operating properties that were sold or were considered held-for-sale and for which operations and cash flows can be clearly distinguished. The operations from these properties are eliminated from ongoing operations, and we will not have a continuing involvement after disposition. Prior periods have been reclassified to reflect the operations of these properties as discontinued operations.

Revenue Recognition

As lessor, we retain substantially all of the risks and benefits of ownership of the investment properties and account for our leases as operating leases.

Base minimum rents are recognized on a straight-line basis over the terms of the respective leases. Certain lease agreements contain provisions that grant additional rents based on tenants' sales volume (contingent percentage rent). Percentage rents are recognized when tenants achieve the specified targets as defined in their lease agreements. Percentage rents are included in other property related revenue in the accompanying statements of operations.

Reimbursements from tenants for real estate taxes and other recoverable operating expenses are recognized as revenues in the period the applicable expense is incurred.

Gains on sales of real estate are recognized in accordance with Statement of Financial Standards ("SFAS") No. 66, "Accounting for Sale of Real Estate". In summary, gains from sales are not recognized unless a sale has been consummated, the buyer's initial and continuing investment is adequate to demonstrate a commitment to pay for the property, we have transferred to the buyer the usual risks and rewards of ownership, and we do not have a substantial continuing financial involvement in the property.

Revenues from construction contracts are recognized on the percentage-of-completion method, measured by the percentage of cost incurred to date to the estimated total cost for each contract. Project costs include all direct labor, subcontract, and material costs and those indirect costs related to contract performance costs incurred to date. Project costs do not include uninstalled materials. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined. Changes in job performance, job conditions, and estimated profitability may result in revisions to costs and income, which are recognized in the period in which the revisions are determined.

Development and other advisory services fees are recognized as revenues in the period in which the services are rendered. Performance-based incentive fees are recorded when the fees are earned.

Results of Operations

Acquisition and Development Activities

The comparability of results of operations is significantly affected by our development and acquisition activities and the effects of the IPO and related formation transactions. At December 31, 2007, we owned interests in 55 operating properties (consisting of 50 retail properties, four commercial operating properties and an associated parking garage) and had interests in 11 entities that held development or redevelopment properties (including our Glendale Town Center and Shops at Eagle Creek properties, which are undergoing major redevelopment). Of the 66 total properties held at December 31, 2007, two operating properties were owned through joint ventures that are accounted for under the equity method.

During the year ended December 31, 2007, the following development properties became operational or partially operational:

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Property Name	MSA	Economic Occupancy Date ¹	Owned GLA
Bridgewater Marketplace I	Indianapolis, IN	January 2007	26,000
Sandifur Plaza	Tri-Cities, WA	January 2007	12,538
Gateway Shopping Center	Marysville, WA	April 2007	83,000
Tarpon Springs Plaza	Naples, FL	July 2007	82,546
Bayport Commons	Tampa, FL	September 2007	97,200
Cornelius Gateway	Portland, OR	September 2007	21,000
Beacon Hill Phase II	Crown Point, IN	December 2007	19,160

¹ Represents the date in which we started receiving rental payments under tenant leases or ground leases at the property or the tenant took possession of the property, whichever is sooner.

In November 2007, we sold our 176th & Meridian property, located in Seattle, Washington, for net proceeds of \$7.0 million and a gain, net of Limited Partners' interests, of \$1.6 million. The results related to this property have been reflected as discontinued operations for fiscal years ended December 31, 2007, 2006, and 2005. We anticipated utilizing the proceeds from the sale to execute a like-kind exchange under Section 1031 of the Internal Revenue Code and, in February 2008 we did so by purchasing Rivers Edge, an approximately 111,000 square foot shopping center located in Indianapolis, Indiana, for \$18.3 million. Utilizing the proceeds from this sale, we were able to finance this purchase with only \$15.6 million of additional debt funded initially through a draw on our unsecured facility and subsequently refinanced with a variable rate debt instrument.

At December 31, 2006, we owned interests in 54 operating properties (consisting of 49 retail properties, four commercial operating properties and an associated parking garage) and had 11 properties under development. Of the 65 total properties held at December 31, 2006, two operating properties were owned through joint ventures that are accounted for under the equity method.

We acquired and placed into service the following retail properties during the year ended December 31, 2006:

Property Name	Location	Acquisition Date	Acquisition Cost (Millions)	Financing Method
Kedron Village	Peachtree, Georgia	April 3, 2006 ¹	\$ 34.9 ²	Debt
Courthouse Shadows	Naples, Florida	July 6, 2006	19.8	Debt
Pine Ridge Crossing	Naples, Florida	July 6, 2006	22.6	Debt
Riverchase	Naples, Florida	July 6, 2006	15.5	Debt

¹ When purchased, Kedron Village was under construction and not an operating property. The property became partially operational in the third quarter of 2006 and became fully operational during the fourth quarter of 2006.

² Total purchase price of approximately \$34.9 million is net of purchase price adjustments, including tenant improvement and leasing commission credits, of \$2.0 million.

In addition, the following development properties became operational or partially operational during the year ended December 31, 2006:

Property Name	MSA	Economic Occupancy Date ¹	Owned GLA
Eagle Creek Lowe's	Naples, FL	February 2006	N/A ²
Estero Town Commons	Naples, FL	April 2006	25,600

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Beacon Hill Phase I	Crown Point, IN	June 2006	57,200
Stoney Creek Commons Phase II	Indianapolis, IN	July 2006	49,300
Naperville Marketplace	Chicago, IL	August 2006	99,600
Zionsville Place	Zionsville, IN	August 2006	12,400

-
- 1 Represents the date in which we started receiving rental payments under tenant leases or ground leases at the property or the tenant took possession of the property, which ever is sooner.
 - 2 Property is ground leased to a single tenant.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

At December 31, 2005, we owned interests in 45 operating properties (consisting of 40 retail properties, four commercial operating properties and an associated parking garage) and had 14 properties under development. Of the 59 total properties held at December 31, 2005, two operating properties were owned through joint ventures that are accounted for under the equity method.

We acquired and placed in service the following operating properties during the year ended December 31, 2005:

Property Name	MSA	Acquisition Date	Acquisition Cost (Millions)	Financing Method
Fox Lake Crossing	Fox Lake, IL	February 7, 2005	\$ 15.5	Debt
Plaza Volente	Austin, TX	May 16, 2005	35.9	Debt
Indian River Square	Vero Beach, FL	May 16, 2005	16.5	Debt
Bolton Plaza	Jacksonville, FL	November 1, 2005	14.0	Common Share Offering Proceeds
Market Street Village	Hurst, TX	November 17, 2005	29.0	Debt

In addition, the following development properties became operational or partially operational during the year ended December 31, 2005:

Property Name	MSA	Economic Occupancy Date ¹	Owned GLA
Weston Park Phase I	Indianapolis, IN	March 2005	N/A ²
Greyhound Commons	Indianapolis, IN	March 2005	N/A ²
Geist Pavilion	Indianapolis, IN	March 2005	64,114
Martinsville Shops	Martinsville, IN	June 2005	10,986
Red Bank Commons	Evansville, IN	June 2005	34,308
Traders Point II	Indianapolis, IN	June 2005	46,600

1 Represents the date in which we started receiving rental payments under tenant leases or ground leases at the property or the tenant took possession of the property, whichever is sooner.

2 Property consists of ground leases only and no owned GLA. As of December 31, 2007, Weston Park Phase I had two of three outlots leased and Greyhound Commons had two of three outlots leased.

In December 2005, we sold our Mid-America Clinical Labs property. The results related to this property have been reflected as discontinued operations for fiscal year ended December 31, 2005.

Redevelopment Activities

Glendale Mall

In April 2007, we announced plans to redevelop the Glendale Mall property in Indianapolis, Indiana into a 685,000 total square foot power center (renamed Glendale Town Center) that will be anchored by a new 129,000 square foot Target (non-owned) and will also include Macy's, Lowe's Home Improvement (non-owned), Staples and Kerasotes Theatre. During the period of redevelopment, approximately 335,000 square feet of space at this property is being leased by tenants that are also expected to continue to occupy space upon completion of the redevelopment.

In connection with this redevelopment, during 2007 we terminated a number of leases and completed the demolition of major portions of the enclosed mall area. This demolition was done in preparation for us to sell a 10.5 acre pad to Target Corporation. During 2007, we sold this pad to Target, and Target began construction of a new store. We are engaged as construction manager for the construction of this new store. In addition, three new small shop structures totaling approximately 20,000 square feet were constructed and partially leased during 2007.

Target is expected to open for business in the summer of 2008. In the fourth quarter of 2007, the first shop tenant and Panera Bread, occupying an outparcel, opened for business. In addition to the new Target, Panera Bread and existing anchor tenants, Glendale Town Center will also include the Indianapolis-Marion County Public Library as well as new small shop and professional office space and one additional outlet. We currently anticipate the remaining construction work to be completed throughout 2008 and 2009.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

In connection with the redevelopment of Glendale Town Center, we received tax increment financing (“TIF”) from the City of Indianapolis totaling approximately \$5.7 million. The net proceeds of our sale of land to Target and the amount of the TIF commitment have been applied to the overall cost of the redevelopment and, accordingly, no gain or loss was recorded. Our overall net investment of approximately \$15 million is expected to be recoverable by us through projected future cash flows from the redeveloped property.

Shops at Eagle Creek

In 2005, Winn-Dixie Stores, Inc. filed for Chapter 11 bankruptcy protection to reorganize its business operations. In February 2006, Winn-Dixie announced plans to close its store at Shops at Eagle Creek in Naples, FL but had not at that date rejected the lease. In May 2006, we acquired the lease with Winn-Dixie in a bankruptcy auction for approximately \$0.9 million, net of receivables of approximately \$0.4 million due to us from Winn-Dixie. The space formerly occupied by Winn-Dixie at this property contained approximately 51,700 square feet, or approximately 68% of the total leasable square footage of the property.

We are currently redeveloping the space formerly occupied by Winn-Dixie at Shops at Eagle Creek in Naples, Florida into two smaller spaces. In December 2006, we signed a lease with Staples for approximately 25,800 square feet of the space with rent commencing in November 2007. We are continuing to market the remaining space for lease. We have also completed a number of additional renovations at the property throughout 2007, including a new roof on the Staples and remaining junior anchor spaces, new store fronts, masonry additions to the façade and columns as well as new parking lot pavement, parking bumpers and striping. This property was transitioned into the redevelopment pipeline in the fourth quarter of 2006. We anticipate our total investment in the redevelopment at Shops at Eagle Creek will be approximately \$4 million.

Comparison of Operating Results for the Years Ended December 31, 2007 and 2006

The following table reflects key line items from our consolidated statements of operations for the years ended December 31, 2007 and 2006:

	Year Ended December 31		Increase (Decrease) 2007 to 2006
	2007	2006	
Revenue:			
Rental income (including tenant reimbursements)	\$ 90,484,289	\$ 83,344,870	\$ 7,139,419
Other property related revenue	11,010,553	6,358,086	4,652,467
Construction and service fee revenue	37,259,934	41,447,364	(4,187,430)
Expenses:			
Property operating expense	15,121,325	13,580,369	1,540,956
Real estate taxes	11,917,299	11,259,794	657,505
Cost of construction and services	32,077,014	35,901,364	(3,824,350)
General, administrative, and other	6,298,901	5,322,594	976,307
Depreciation and amortization	31,850,770	29,579,123	2,271,647
Operating income	41,489,467	35,507,076	5,982,391
Add:			
Equity in earnings of unconsolidated entities	290,710	286,452	4,258
Other income, net	778,552	344,537	434,015
Deduct:			
Interest expense	25,965,141	21,221,758	4,743,383
Loss on sale of asset	—	764,008	(764,008)
Income tax expense of taxable REIT subsidiary	761,628	965,532	(203,904)
Minority interest in income of consolidated subsidiaries	587,413	117,469	469,944
Limited Partners’ interests in the continuing operations of the Operating Partnership	3,399,534	2,966,730	432,804
Income from continuing operations	11,845,013	10,102,568	1,742,445

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Operating income from discontinued operations, net of Limited Partners' interests	95,551	77,082	18,469
Gain on sale of operating property, net of Limited Partners' interests	1,582,119	—	1,582,119
Net income	\$ 13,522,683	\$ 10,179,650	\$ 3,343,033

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Rental income (including tenant reimbursements) increased approximately \$7.1 million, or 9%, due to the following:

	Increase (Decrease) 2007 to 2006
Properties acquired during 2006	\$ 5,168,027
Development properties that became operational or partially operational in 2006 or 2007	3,151,994
Properties under redevelopment during 2007	(1,839,652)
Properties fully operational during 2006 and 2007& other	659,050
Total	\$ 7,139,419

Excluding the changes due to the acquisition of properties, transitioned development properties, and the properties under redevelopment, the net \$0.7 million increase in rental income was primarily related to the following:

- \$0.8 million increase due to the write off of intangible lease obligations in connection with the termination of a lease at our Silver Glen Crossings property;
- \$0.5 million net increase in real estate tax recoveries from tenants due to increased assessments at a number of our properties;
- \$0.3 million of increased rental income at one of our properties due to two new tenants that began paying rent in the second half of 2006;
- \$0.3 million of increased common area maintenance and property insurance recoveries from tenants at a number of our properties due to higher related expenses; and
- \$0.2 million of increased rental income at one of our properties due to a new anchor tenants that began paying rent in the second half 2007.

These increases were partially offset by the following:

- \$0.8 million decrease reflecting the termination of our lease with Marsh Supermarkets at Naperville Marketplace and the subsequent sale of the facility in the second quarter of 2006; and
- \$0.7 million decrease due to the termination of a lease at our Thirty South property in the fourth quarter of 2006.

Other property related revenue primarily consists of parking revenues, overage rent, lease settlement income and gains on land sales. This revenue increased approximately \$4.7 million, or 73%, primarily as a result of \$4.0 million increased gains on land sales and an increase of \$0.9 million in lease settlement income. These were partially offset by a decrease of approximately \$0.3 million in specialty leasing income as a result of the redevelopment of Glendale Town Center.

Construction revenue and service fees decreased approximately \$4.2 million, or 10%. This decrease is primarily due to the level and timing of third party construction contracts during 2007 compared to 2006, partially offset by the net increase in proceeds from build-to-suit assets. In 2007, we had proceeds from the sale of a build-to-suit asset at Sandifur Plaza of \$6.1 million while in 2006, we had proceeds from the sale of a build-to-suit asset at Bridgewater Marketplace of \$5.3 million.

Property operating expenses increased approximately \$1.5 million, or 11%, due to the following:

	Increase (Decrease) 2007 to 2006
Properties acquired during 2006	\$ 958,716
Development properties that became operational or partially operational in 2006 or 2007	681,211
Properties under redevelopment during 2007	(714,967)

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Properties fully operational during 2006 and 2007 & other	615,996
	<hr/>
Total	\$ 1,540,956
	<hr/>

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Excluding the changes due to the acquisition of properties, transitioned development properties, and the properties under redevelopment, the net \$0.6 million increase in property operating expenses was primarily due to the following:

- \$0.4 million increase in snow removal expense primarily at our Indiana and Illinois properties, the majority of which is recoverable from tenants;
- \$0.2 million increase in landscaping and parking expense at a number of our operating properties, the majority of which is recoverable from tenants; and
- \$0.2 million net increase in repair and maintenance expense at a number of our operating properties, some of which is recoverable from tenants.

These increases were partially offset by the following:

- \$0.1 million net decrease in bad debt expense at a number of our operating properties; and
- \$0.1 million net decrease in non-recoverable legal expenses at one of our operating properties.

Real estate taxes increased approximately \$0.7 million, or 6%, due to the following:

	Increase (Decrease) 2007 to 2006
Properties acquired during 2006	\$ 537,220
Development properties that became operational or partially operational in 2006 or 2007	364,184
Properties under redevelopment during 2007	(282,416)
Properties fully operational during 2006 and 2007 & other	38,517
Total	\$ 657,505

Excluding the changes due to the acquisition of properties, transitioned development properties, and the properties under redevelopment, the net \$38,517 increase in real estate taxes represents a net increase of approximately \$0.5 million in real estate tax assessments at a number of our properties, the most significant increases at properties located in Texas and Illinois. This increase was partially offset by a real estate tax refund, net of related professional fees, of approximately \$0.5 million for fiscal years 2002 through 2004 at our Thirty South property, which was received in 2007.

Cost of construction and services decreased approximately \$3.8 million, or 11%. This decrease is primarily due to the level and timing of third party construction contracts during 2007 compared to 2006, partially offset by the net increase in costs associated with the sale of build-to-suit assets. In 2007, we had costs associated with the sale of a build-to-suit asset at Sandifur Plaza of \$4.1 million and in 2006 we had \$3.5 million of costs associated with the sale of a build-to-suit asset at Bridgewater Marketplace.

General, administrative and other expenses increased approximately \$1.0 million, or 18%. In 2007, general, administrative and other expenses were 4.5% of total revenue and in 2006, general, administrative and other expenses were 4.1% of total revenue. This increase is primarily due to higher share-based incentive compensation costs and increased staffing attributable to our growth. The costs of operating as a public company remained relatively flat between years.

Depreciation and amortization expense increased approximately \$2.3 million, or 8%, due to the following:

Increase (Decrease) 2007 to 2006

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Properties acquired during 2006	\$	1,998,616
Development properties that became operational or partially operational in 2006 or 2007		802,052
Properties under redevelopment during 2007		(713,325)
Properties fully operational during 2006 and 2007 & other		184,304
		<hr/>
Total	\$	2,271,647
		<hr/>

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Excluding the changes due to the acquisition of properties, transitioned development properties, and the properties under redevelopment, the net \$0.2 million increase in depreciation and amortization expense was primarily due to the following:

- \$0.9 million net increase in the acceleration of depreciation of vacated tenant costs at our fully operational properties during 2007 compared to 2006; and
- \$0.8 million increase due to the write off of intangible lease assets in connection with the termination of a lease at our Silver Glen Crossings property in 2007.

These increases were partially offset by the following:

- \$0.9 million decrease reflecting the termination of our lease with Marsh Supermarkets at Naperville Marketplace and the subsequent sale of the facility in the second quarter of 2006; and
- \$0.6 million of intangible lease obligations written down related to our lease with Winn-Dixie at our Shops at Eagle Creek property, which was terminated in 2006.

Other income, net increased approximately \$0.4 million, or 126%, as a result of a \$0.5 million payment received from a lender in consideration for our agreement to terminate a loan commitment in 2007.

Interest expense increased approximately \$4.7 million, or 22%, due to the following:

	Increase 2007 to 2006
Properties acquired during 2006	\$ 1,201,928
Development properties that became operational or partially operational in 2006 or 2007	1,690,255
Properties fully operational during 2006 and 2007 & other	1,851,200
Total	\$ 4,743,383

Excluding the changes due to the acquisition of properties and transitioned development properties, the net \$1.9 million increase in interest expense was primarily due to the following:

- \$2.1 million increase attributable to the addition of a fixed rate debt instrument on our Traders Point property in July of 2006;
- \$0.1 million increase due to higher average balance on our line of credit; and
- \$0.1 million increase due to fixed rate financing placed on one of our properties in December 2006.

These increases were partially offset by a \$0.4 million decrease due to interest expense incurred in the first quarter of 2006 at the Naperville Marsh Supermarkets, which was sold during the second quarter of 2006.

Loss on sale of asset was \$0.8 million in 2006. In June 2006, we terminated our lease with Marsh Supermarkets and subsequently sold the store at our Naperville Marketplace property to Caputo's Fresh Markets and recorded a loss on the sale of approximately \$0.8 million (approximately \$0.5 million after tax). The total proceeds from these transactions of \$14 million included a \$2.5 million note from Marsh with monthly installments payable through June 30, 2008, and \$2.5 million of cash received from the termination of our lease with Marsh. As of December 31, 2007, \$0.7 million was outstanding on the note. All monthly payments on the note have been made as scheduled through March 2008. The note is guaranteed by the parent company of Marsh Supermarkets and was assumed by Sun Capital Partners, Inc. upon its acquisition of Marsh. Marsh Supermarkets at Naperville Marketplace was owned by our taxable REIT subsidiary. The net proceeds from this sale were used to pay off related indebtedness of approximately \$11.6 million. We continue to develop the remainder of the Naperville Marketplace development property.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Minority interest in income of consolidated subsidiaries increased approximately \$0.5 million, or 400%. This increase was primarily due to the following:

- \$0.3 million increase as a result of the minority partners' share of income related to the sale of a merchant building at our Sandifur Plaza property in 2007; and

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

- \$0.2 million increase as a result of the minority partners' share of income related to the sale of an outlot at our Beacon Hill property in 2007.

Gain on sale of operating property, net of Limited Partners' interests increased \$1.6 million, or 100%. In November 2007, we sold our 176th & Meridian property, located in Seattle, Washington, for net proceeds of \$7.0 million and a gain, net of Limited Partners' interests, of \$1.6 million.

Comparison of Operating Results for the Years Ended December 31, 2006 and 2005

The following table reflects key line items from our consolidated statements of operations for the years ended December 31, 2006 and 2005:

	Year Ended December 31		Increase (Decrease) 2006 to 2005
	2006	2005	
Revenue:			
Rental income (including tenant reimbursements)	\$ 83,344,870	\$ 66,503,189	\$ 16,841,681
Other property related revenue	6,358,086	5,793,443	564,643
Construction and service fee revenue	41,447,364	26,419,801	15,027,563
Expenses:			
Property operating expense	13,580,369	12,336,537	1,243,832
Real estate taxes	11,259,794	7,456,098	3,803,696
Cost of construction and services	35,901,364	21,823,278	14,078,086
General, administrative, and other	5,322,594	5,327,735	(5,141)
Depreciation and amortization	29,579,123	21,695,982	7,883,141
Operating income	35,507,076	30,076,803	5,430,273
Add:			
Equity in earnings of unconsolidated entities	286,452	252,511	33,941
Other income, net	344,537	215,422	129,115
Deduct:			
Interest expense	21,221,758	17,835,845	3,385,913
Loss on sale of asset	764,008	—	764,008
Income tax expense of taxable REIT subsidiary	965,532	1,041,463	(75,931)
Minority interest in income of consolidated subsidiaries	117,469	1,267,122	(1,149,653)
Limited Partners' interests in the continuing operations of the Operating Partnership	2,966,730	3,309,208	(342,478)
Income from continuing operations	10,102,568	7,091,098	3,011,470
Operating income from discontinued operations, net of Limited Partners' interests	77,082	819,735	(742,653)
Gain on sale of operating property, net of Limited Partners' interests	—	5,525,007	(5,525,007)
Net income	\$ 10,179,650	\$ 13,435,840	\$ (3,256,190)

Rental income (including tenant reimbursements) increased approximately \$16.8 million, or 25%, due to the following:

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

	<u>Increase 2006 to 2005</u>
Properties acquired during 2005 or 2006	\$ 11,085,641
Development properties that became operational or partially operational in 2005 or 2006	4,662,805
Properties fully operational during 2005 and 2006 & other	<u>1,093,235</u>
Total	<u>\$ 16,841,681</u>

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Excluding the increase due to the acquisition and transitioned development properties, the net \$1.1 million increase in rental income was primarily related to the following:

- \$0.8 million of increased rental income at two of our properties due to the retenanting of a former tenant's spaces during 2006. These spaces were vacant during most of 2005;
- \$0.7 million due to recoveries from tenants of increased tax assessments at our properties; and
- \$0.4 million due to the write off of intangible lease obligations related to our lease with Winn-Dixie at Shops at Eagle Creek, which was terminated in 2006.

These increases were partially offset by the following:

- \$0.3 million decrease at our Cedar Hill Plaza property due to expiring leases that had lease intangibles amortized through 2005 and a decrease in tenant reimbursements at that property as the tenants vacated;
- \$0.2 million decrease related to the loss of Winn-Dixie rent at Shops at Eagle Creek;
- \$0.1 million decrease from the write off of intangible lease obligations in connection with a lease termination in 2005; and
- \$0.1 million decrease at Glendale Town Center due to activities surrounding the redevelopment of that property.

Other property related revenue primarily consists of parking revenues, overage rent, lease settlement income and gains on land sales. This revenue increased approximately \$0.6 million, or 10%, primarily as a result of an increase of \$1.0 million in lease settlement income at four of our properties, an increase in overage rent totaling \$0.2 million at five of our properties, and an increase of \$0.1 million of insurance proceeds during fiscal year 2006. These increases were partially offset by a decrease of \$0.8 million due to lower gains on land sales and land development rights fees in fiscal year 2006 compared to fiscal year 2005.

Construction revenue and service fees increased approximately \$15.0 million, or 57%. This increase is primarily due to an increase in construction contracts with third party customers and proceeds from the sale of a build-to-suit asset at Bridgewater Marketplace of \$5.3 million. In 2005, revenue from the sale of the Walgreens at our Cornelius, Oregon property was \$5.7 million.

Property operating expenses increased approximately \$1.2 million, or 10%, due to the following:

	Increase (Decrease) 2006 to 2005
Properties acquired during 2005 or 2006	\$ 1,891,788
Development properties that became operational or partially operational in 2005 or 2006	673,372
Properties fully operational during 2005 and 2006 & other	(1,321,328)
Total	\$ 1,243,832

Excluding the increase due to the acquisition and transitioned development properties, the net \$1.3 million decrease in property operating expenses was primarily due to the following:

- A net decrease of \$0.6 million in bad debt expenses at two of our properties primarily due to the write-off of the uncollectible receivable of a bankrupt tenant in 2005; and
- A net decrease of \$0.6 million at Glendale Town Center, reflecting lower occupancy levels.

Real estate taxes increased approximately \$3.8 million, or 51%, due to the following:

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

	<u>Increase 2006 to 2005</u>
Properties acquired during 2005 or 2006	\$ 1,770,395
Development properties that became operational or partially operational in 2005 or 2006	954,719
Properties fully operational during 2005 and 2006	<u>1,078,582</u>
Total	<u>\$ 3,803,696</u>

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Excluding the increase due to the acquisition and transitioned development properties, the net \$1.1 million increase in real estate taxes was primarily due to property reassessments, which are mostly recoverable from tenants. All increased property reassessments are appealed and occasionally we receive subsequent refunds on amounts previously paid.

Cost of construction and services increased approximately \$14.1 million, or 65%. This increase was primarily due to an increase in construction contracts as well as \$3.5 million of costs associated with the sale of a build-to-suit asset at Bridgewater Marketplace. These increases were partially offset by costs of \$4.1 million associated with the 2005 sale of the Walgreens at our Cornelius, Oregon property.

Depreciation and amortization expense increased approximately \$7.9 million, or 36%, due to the following:

	Increase 2006 to 2005
Properties acquired during 2005 or 2006	\$ 4,929,098
Development properties that became operational or partially operational in 2005 or 2006	1,797,725
Properties fully operational during 2005 and 2006 & other	1,156,318
Total	\$ 7,883,141

Excluding the increase due to the acquisition and transitioned development properties, the net \$1.2 million increase in depreciation and amortization expense was primarily due to tenant costs written off during fiscal year 2006 at our Glendale Town Center property in anticipation of its redevelopment.

Other income, net increased approximately \$0.1 million, or 60%, due to interest income on a deposit related to the acquisition of Market Street Village.

Interest expense increased approximately \$3.4 million, or 19%, due to the following:

	Increase (Decrease) 2006 to 2005
Properties acquired during 2005 or 2006	\$ 3,406,191
Development properties that became operational or partially operational in 2005 or 2006	1,385,255
Properties fully operational during 2005 and 2006 & other	(1,405,533)
Total	\$ 3,385,913

Excluding the increase due to the acquisition and transitioned development properties, the net \$1.4 million decrease in interest expense was primarily due to a \$2.3 million reduction in interest expense attributable to the repayment of indebtedness from proceeds from our follow-on equity offering in October 2005, and was partially offset by a \$1.0 million increase as a result of permanent loan financing during the second quarter of 2006 at Sunland Towne Center.

Loss on sale of asset was \$0.8 million in 2006. In June 2006, we terminated our lease with Marsh Supermarkets and sold the store at our Naperville Marketplace property to Caputo's Fresh Markets and recorded a loss on the sale of approximately \$0.8 million (approximately \$0.5 million after tax). The total proceeds from these transactions of \$14 million included a \$2.5 million note from Marsh with monthly installments payable through June 30, 2008, and \$2.5 million of cash received from the termination of our lease with Marsh. The note is guaranteed by the parent company of Marsh Supermarkets and was assumed by Sun Capital Partners, Inc. upon its acquisition of Marsh. Marsh Supermarkets at Naperville Marketplace was owned by our taxable REIT subsidiary. The net proceeds from this sale were used to pay off related indebtedness of approximately \$11.6 million. We continue to develop the remainder of the Naperville Marketplace development property.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Minority interest in income of consolidated subsidiaries decreased approximately \$1.1 million, or 91%. This decrease was primarily due to \$1.0 million of gains on land sales in 2005 attributable to our joint venture partner.

Operating income from discontinued operations, net of Limited Partners' interests decreased \$0.7 million, or 91%, and gain on sale of operating property, net of Limited Partners' interests decreased \$5.5 million, or 100%. In December 2005, we sold our Mid-America Clinical Labs operating property and, accordingly, have reclassified prior periods to reflect the activity of this property as discontinued operations. The amount of operating income for this property in fiscal year 2005 was approximately \$0.8 million, net of Limited Partners' interests and the gain on sale of the property, net of Limited Partners' interests, was approximately \$5.5 million.

Liquidity and Capital Resources

Current State of Capital Markets

The uncertainty in the credit markets have caused banks to tighten credit standards, making it more difficult for individuals and companies to obtain financing on favorable terms, if at all. Obtaining favorable financing is important to our business due to the capital needs of our existing development projects.

In light of the uncertainty in the credit markets and the economy in general, we intend to aggressively manage our balance sheet in 2008 and, to the extent available to us, take advantage of low interest rates to refinance variable rate debt and minimize our interest rate risk. For example, in January and February 2008, we were able to refinance variable rate debt at seven of our consolidated properties and one of our unconsolidated properties. As a result of this refinancing, approximately 76% of debt obligations previously due in 2008 are now due in 2009 (including our share of debt at our unconsolidated property) and approximately 5% of debt obligations previously due in 2008 are now due in 2011. We may also seek to reduce the aggregate amount of indebtedness outstanding under our unsecured credit facility, discussed below, and diversify our capital structure. We may do this by pursuing additional joint venture capital partners and/or disposing of properties that are no longer core to our growth strategy. We will also continue to monitor the capital markets and consider raising capital through the issuance of our common stock, preferred stock or other securities.

As of December 31, 2007, we had cash and cash equivalents on hand of \$19.0 million.

Our Unsecured Revolving Credit Facility

On February 20, 2007, our Operating Partnership entered into an amended and restated four-year \$200 million unsecured revolving credit facility with a group of lenders and Key Bank National Association, as agent (the "unsecured facility"). The Company and several of the Operating Partnership's subsidiaries are guarantors of the Operating Partnership's obligations under the unsecured facility. The unsecured facility has a maturity date of February 20, 2011, with a one-year extension option. Initial proceeds of approximately \$118 million were drawn from the unsecured facility to repay the principal amount outstanding under our then-existing secured revolving credit facility and retire the secured revolving credit facility. Borrowings under the unsecured facility bear interest at a floating interest rate of LIBOR plus 115 to 135 basis points, depending on our leverage ratio. The unsecured facility has a 0.125% to 0.20% commitment fee applicable to the average daily unused amount. Subject to certain conditions, including the prior consent of the lenders, we have the option to increase our borrowings under the unsecured facility to a maximum of \$400 million. The unsecured facility also includes a short-term borrowing line of \$25 million with a variable interest rate. Borrowings under the short-term line may not be outstanding for more than five days.

The amount that we may borrow under the unsecured facility is based on the value of properties in the unencumbered property pool. We currently have 46 unencumbered assets, 44 of which are wholly owned and used to calculate the amount available for borrowing under the unsecured credit facility and two of which are joint venture assets. The major unencumbered assets include: Silver Glen Crossings, Glendale Town Center, King's Lake Square, Hamilton Crossing, Waterford Lakes, Eastgate Pavilion, Wal-Mart Plaza, Market Street Village, and Courthouse Shadows. As of December 31, 2007, the total amount available for borrowing under the unsecured facility was approximately \$43.7 million.

Our ability to borrow under the unsecured facility is subject to ongoing compliance with various restrictive covenants similar to those in our previous secured credit facility, including with respect to liens, indebtedness, investments, dividends,

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

mergers and asset sales. In addition, the unsecured facility, like our previous secured credit facility, requires that the Company satisfy certain financial covenants, including:

- a maximum leverage ratio of 65% (or 70% in certain circumstances);
- Adjusted EBITDA (as defined in the unsecured facility) to fixed charges coverage ratio of at least 1.50 to 1;
- minimum tangible net worth (defined as Total Asset Value less Total Indebtedness) of \$300 million (plus 75% of the net proceeds of any future equity issuances);
- ratio of net operating income of unencumbered property to debt service under the unsecured facility of at least 1.50 to 1;
- minimum unencumbered property pool occupancy rate of 80%;
- ratio of floating rate indebtedness to total asset value of no more than 0.35 to 1; and
- ratio of recourse indebtedness to total asset value of no more than 0.30 to 1.

We were in compliance with all applicable covenants under the unsecured facility as of December 31, 2007.

Under the terms of the unsecured facility, we are permitted to make distributions to our shareholders of up to 95% of our funds from operations provided that no event of default exists. If an event of default exists, we may only make distributions sufficient to maintain our REIT status. However, we may not make any distributions if an event of default resulting from nonpayment or bankruptcy exists, or if our obligations under the credit facility are accelerated.

Short and Long-Term Liquidity Needs

We derive the majority of our revenue from tenants who lease space from us at our properties. Therefore, our ability to generate cash from operations is dependent on the rents that we are able to charge and collect from our tenants. While we believe that the nature of the properties in which we typically invest—primarily neighborhood and community shopping centers—provides a relatively stable revenue flow in uncertain economic times, general economic downturns or downturns in the markets in which we own properties may still adversely affect the ability of our tenants to meet their lease obligations, as discussed in more detail above in “*Overview – 2007 Developments and Current Market Conditions.*” In that event, our cash flow from operations could be materially affected.

The nature of our business, coupled with the requirements for qualifying for REIT status (which includes the stipulation that we distribute to shareholders at least 90% of our annual REIT taxable income) and to avoid paying tax on our income, necessitate that we distribute a substantial majority of our income on an annual basis which will cause us to have substantial liquidity needs over both the short term and the long term. Our short-term liquidity needs consist primarily of funds necessary to pay operating expenses associated with our operating properties, interest expense and scheduled principal payments on our debt, expected dividend payments (including distributions to persons who hold units in our Operating Partnership) and recurring capital expenditures. When we lease space to new tenants, or renew leases for existing tenants, we also incur expenditures for tenant improvements and external leasing commissions. This amount, as well as the amount of recurring capital expenditures that we incur, will vary from year to year. During the year ended December 31, 2007, we incurred approximately \$0.5 million of costs for recurring capital expenditures on operating properties. We also incurred approximately \$5.4 million of costs for tenant improvements and external leasing commissions, of which approximately \$4.5 million related to costs associated with a new tenant at our Thirty South property.

We expect to meet our short-term liquidity needs through cash generated from operations and, to the extent necessary, borrowings under the unsecured facility and new construction loans.

Our long-term liquidity needs consist primarily of funds necessary to pay for development of new properties, redevelopment of existing properties, non-recurring capital expenditures, acquisitions of properties, and payment of indebtedness at maturity. As of December 31, 2007, our Glendale Town Center and Shops at Eagle Creek properties were undergoing major redevelopment activities. We anticipate our investment in the redevelopment at Glendale Town Center, net of third party contributions, will be approximately \$15 million. We anticipate our investment in the redevelopment at

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Shops at Eagle Creek will be approximately \$4 million. We expect to fund these investments through draws on our unsecured facility.

As of December 31, 2007, we had nine development projects in our current development pipeline. The total estimated cost, including our share and our joint venture partners' share, for these projects is approximately \$146 million, of which approximately \$110 million had been incurred as of December 31, 2007. Our share of the total estimated cost is approximately \$92 million, of which we have incurred approximately \$72 million as of December 31, 2007. We expect to fund these investments through a combination of new construction loans and draws on our unsecured facility.

In addition to our current development pipeline, we have a significant "visible shadow" development pipeline which includes land parcels that are in the final stages of preparation for construction to commence. As of December 31, 2007, this visible shadow pipeline consisted of six projects that are expected to contain approximately 3.1 million square feet at a total estimated project cost of approximately \$392 million, of which our share is currently expected to be approximately \$235 million. We expect to fund these investments through a combination of new construction loans and draws on our unsecured facility.

We are actively pursuing the acquisition and development of other properties, which will require additional capital. We do not expect to have sufficient funds on hand to meet these long-term cash requirements. We will have to satisfy these needs through participation in joint venture transactions, additional borrowings, sales of common or preferred shares and/or cash generated through property dispositions. We believe we will have access to these sources of capital on favorable terms to fund our long-term liquidity requirements, but we cannot assure this will be the case. Our ability to access the capital markets will be dependent on a number of factors, including general capital market conditions.

In September 2006, the Company entered into an agreement (the "Venture") with Prudential Real Estate Investors ("PREI") to pursue joint venture opportunities for the development and selected acquisition of community shopping centers in the United States. The Venture intends to develop or acquire up to \$1.25 billion of well-positioned community shopping centers in strategic markets in the United States. Under the terms of the agreement, the Company has agreed to present to PREI opportunities to develop or acquire community shopping centers, each with estimated project costs in excess of \$50 million. The Company has the option to present to PREI additional opportunities with estimated project costs under \$50 million. It is expected that equity capital contributions of up to \$500 million will be made to the Venture for qualifying projects. The Company expects contributions would be made on a project-by-project basis with PREI contributing 80% and the Company contributing 20% of the equity required. Our first project with PREI is Parkside Town Commons, which is currently in our visible shadow development pipeline.

In August 2005, we filed a registration statement, and subsequent prospectus supplements related thereto, with the Securities and Exchange Commission allowing us to offer, from time to time, common shares or preferred shares for an aggregate initial public offering price of up to \$500 million. In October 2005, we issued 9.4 million common shares under this registration statement for gross offering proceeds of approximately \$141 million. In May 2007, we issued 30,000 common shares under this registration statement for offering proceeds, net of offering costs, of approximately \$0.5 million. We have approximately \$358 million remaining under this registration statement.

See Item 7A. for a discussion of the impact of inflation on the Company.

Cash Flows

Comparison of the Year Ended December 31, 2007 to the Year Ended December 31, 2006

Cash provided by operating activities was \$37.7 million for the year ended December 31, 2007, an increase of \$7.2 million from 2006. The increase resulted largely from the addition of four operating properties purchased in 2006, the opening of several properties that were under development during 2006, and the change in tenant receivables and deferred costs and other assets between years of \$13.1 million. These increases were partially offset by a change in accounts payable, accrued expenses, deferred revenues, and other liabilities between years of approximately \$8.3 million.

Cash used in our investing activities totaled \$96.7 million in 2007, a decrease of \$123.4 million from 2006. The decrease in cash used in investing activities was primarily a result of a decrease of \$123.6 million in property acquisition

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

and capital expenditures in 2007 compared to 2006. In addition, during 2006, we realized net proceeds of \$11.1 million from the termination of our lease with Marsh Supermarkets at Naperville Marketplace and the related sale of this asset.

Cash provided by financing activities totaled \$54.1 million during 2007, a decrease of \$144.3 million from 2006. Proceeds from loan transactions, net of loan transaction costs, decreased approximately \$206.5 million between periods. This decrease was largely due to new debt obtained during 2006 for the purchase of four operating properties, an outside partners' interest in a consolidated property, the financing of the acquisition of development land parcels, and the funding of development activity. In 2007, a significant portion of proceeds from loan transactions was related to the draw of \$118.1 million from the new unsecured credit facility to repay the principal amount outstanding under our then-existing secured revolving credit facility and retire the secured revolving credit facility. Loan payments also decreased \$63.5 million between years, which was primarily the result of the repayment of short-term borrowings related to the acquisition of properties in 2006.

Comparison of the Year Ended December 31, 2006 to the Year Ended December 31, 2005

Cash provided by operating activities was \$30.4 million for the year ended December 31, 2006, an increase of \$6.9 million from 2005. The increase resulted largely from the addition of nine fully operational or partially operational properties and was partially offset by cash used through changes in deferred costs and other assets of \$9.3 million.

Cash used in our investing activities totaled \$220.1 million in 2006, an increase of \$14.1 million from 2005. The increase largely resulted from a decrease in net proceeds from the sale of operating properties of \$9.7 million between years. During 2006, we acquired three operating properties, one property under development which subsequently became operational, the outside partner's interest in a consolidated property, and various development land parcels and operating capital expenditures for a total net purchase price of \$229.0 million while during 2005 we acquired five properties and various land parcels and operating capital expenditures for a total net purchase price of approximately \$228.9 million.

Cash provided by financing activities totaled \$198.4 million during 2006, an increase of \$10.8 million from 2005. Loan proceeds (net of transaction costs and principal payments) increased \$179.8 million between years and loan payments increased \$29.5 million between years. Net loan proceeds were primarily used to finance acquisition and development activity. In addition, during 2005, we had a follow-on offering of common shares, raising \$133.2 million after offering costs. Primarily as a result of the shares issued in connection with the follow-on offering, our distributions to shareholders increased \$5.8 million.

Off-Balance Sheet Arrangements

We do not currently have any off-balance sheet arrangements that have, or are reasonably likely to have, a material current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources. We do, however, have certain obligations to some of our unconsolidated joint venture arrangements, including our joint venture with Prudential Real Estate Investors with respect to our Parkside Town Commons development. As of December 31, 2007, we owned a 40% interest in this joint venture which, under the terms of this joint venture, will be reduced to 20% upon the commencement of construction.

As of December 31, 2007, our share of unconsolidated joint venture indebtedness was \$28.1 million. Unconsolidated joint venture debt is the liability of the joint venture and is typically secured by the assets of the joint venture. As of December 31, 2007, the Operating Partnership had guaranteed unconsolidated joint venture debt of \$19.9 million in the event the joint venture partnership defaults under the terms of the underlying arrangement. Mortgages which are guaranteed by the Operating Partnership are secured by the property of the joint venture and that property could be sold in order to satisfy the outstanding obligation. See Note 6 "Investments in Unconsolidated Joint Ventures" in our Notes to Consolidated Financial Statements, contained in this Form 10-K, for information on our unconsolidated joint ventures for the years ended December 31, 2007, 2006 and 2005.

Contractual Obligations

The following table summarizes our contractual obligations to third parties, excluding interest. In early 2008, we refinanced a number of our debt instruments, and those refinancings are reflected in the table below. Refer to footnotes 4 and 5 of this table for details on those refinancings.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

	<u>Construction Contracts</u>	<u>Tenant Improvements</u>	<u>Operating Leases</u>	<u>Consolidated Long-term Debt</u>	<u>Pro rata Share of Joint Venture Debt</u>	<u>Employment Contracts ¹</u>	<u>Total ²</u>
2008	\$ 125,519,791	\$ 2,200,122	\$ 918,300	\$ 20,564,847 ₃	\$ 217,025 ₅	\$ 1,673,750	\$ 151,093,835
2009	—	—	920,800	166,783,397	22,135,997	—	189,840,194
2010	—	—	920,800	2,960,204	96,813	—	3,977,817
2011	—	—	920,800	179,517,290 ₄	103,335	—	180,541,425
2012	—	—	920,800	38,904,933	109,258	—	39,934,991
Thereafter	—	—	11,389,545	236,263,476	5,431,242	—	253,084,263
Unamortized Debt Premiums	—	—	—	1,839,486	—	—	1,839,486
Total	\$ 125,519,791	\$ 2,200,122	\$ 15,991,045	\$ 646,833,633	\$ 28,093,670	\$ 1,673,750	\$ 820,312,011

1 In connection with the Company's IPO and related formation transactions, we entered into employment agreements with seven members of senior management. Under the agreements, each person received a stipulated annual salary through December 31, 2008. Each agreement has an automatic one-year renewal unless we or the employee elects not to renew the agreement.

2 Table includes contracts executed as of December 31, 2007.

3 In January and February 2008, we refinanced variable rate debt at a total of six of our consolidated properties and extended the maturity dates from 2008 to 2009. As a result, \$56.7 million of these obligations previously due in 2008 are now due in 2009.

4 In February 2008, we refinanced fixed rate debt at one of our properties with variable rate debt bearing interest at LIBOR + 1.35% and extended the maturity date to November 4, 2011. As a result, \$4.0 million of obligations previously due in 2008 are now due in 2011.

5 In January 2008, we refinanced variable rate debt at one of our unconsolidated joint venture properties and extended the maturity date. As a result, \$19.9 million of these obligations previously due in 2008 are now due in 2009.

Construction contracts in the table represent commitments related to new developments, redevelopments and third-party construction.

In 2007, we incurred \$26.0 million of interest expense, net of amounts capitalized of \$12.8 million.

We intend to satisfy the approximately \$151.1 million of contractual obligations that are due in 2008 (as reduced by \$80.6 million due to the variable debt refinancings) primarily with cash generated from operations, draws on our revolving line of credit, obtaining new financing, and, where appropriate, refinancing of indebtedness coming due.

In connection with our formation at the time of our IPO, we entered into an agreement that restricts our ability, prior to December 31, 2016, to dispose of six of our properties in taxable transactions and limits the amount of gain we can trigger with respect to certain other properties without incurring reimbursement obligations owed to certain limited partners. We have agreed that if we dispose of any interest in six specified properties in a taxable transaction before December 31, 2016, then we will indemnify the contributors of those properties for their tax liabilities attributable to their built-in gain that exists with respect to such property interest as of the time of our IPO (and tax liabilities incurred as a result of the reimbursement payment).

The six properties to which our tax indemnity obligations relate represented approximately 19% of our annualized base rent in the aggregate as of December 31, 2007. These six properties are International Speedway Square, Shops at Eagle Creek, Whitehall Pike, Ridge Plaza Shopping Center, Thirty South, and Market Street Village.

Outstanding Indebtedness

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

The following table presents details of outstanding indebtedness as of December 31, 2007. In early 2008, we refinanced a number of our debt instruments. Refer to the footnotes of this table for details on those refinancings.

3 In February 2008, we refinanced this debt and extended the maturity date to July 29, 2009.

4 In February 2008, we refinanced this debt and extended the maturity date to July 29, 2009.

5 In February 2008, we refinanced this debt, changing the rate to LIBOR + 1.30% and extending the maturity date to March 30, 2009.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

6 In January 2008, we refinanced this debt and extended the maturity date to May 31, 2009.

7 In February 2008, we refinanced this debt, replacing the fixed rate with a variable rate of LIBOR + 1.35% and extended the maturity date to November 4, 2011.

Funds From Operations

Funds From Operations (“FFO”), is a widely used performance measure for real estate companies and is provided here as a supplemental measure of operating performance. We calculate FFO in accordance with the best practices described in the April 2002 National Policy Bulletin of the National Association of Real Estate Investment Trusts (NAREIT), which we refer to as the White Paper. The White Paper defines FFO as net income (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciated property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures.

Given the nature of our business as a real estate owner and operator, we believe that FFO is helpful to investors as a starting point in measuring our operational performance because it excludes various items included in net income that do not relate to or are not indicative of our operating performance, such as gains (or losses) from sales of depreciated property and depreciation and amortization, which can make periodic and peer analyses of operating performance more difficult. FFO should not be considered as an alternative to net income (determined in accordance with GAAP) as an indicator of our financial performance, is not an alternative to cash flow from operating activities (determined in accordance with GAAP) as a measure of our liquidity, and is not indicative of funds available to satisfy our cash needs, including our ability to make distributions. Our computation of FFO may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definitions differently than we do.

Our calculation of FFO (and reconciliation to net income) is as follows:

	Year Ended December 31, 2007	Year Ended December 31, 2006	Year Ended December 31, 2005
Funds From Operations:			
Net income	\$ 13,522,683	\$ 10,179,650	\$ 13,435,840
Add loss on sale of asset, net of tax	—	458,405	—
Less gain on sale of operating property	(2,036,189)	—	(7,212,402)
Add Limited Partners’ interests in income	3,853,604	2,989,366	5,329,298
Add depreciation and amortization of consolidated entities and discontinued operations, net of minority interest	31,475,146	29,313,102	22,124,355
Add joint venture partners’ interests in depreciation and amortization of unconsolidated entities	403,799	401,549	344,600
	<u>47,219,043</u>	<u>43,342,072</u>	<u>34,021,691</u>
Funds From Operations of the Kite Portfolio ¹	47,219,043	43,342,072	34,021,691
Less Limited Partners’ interests in Funds From Operations	(10,529,847)	(9,838,650)	(9,629,945)
	<u>36,689,196</u>	<u>33,503,422</u>	<u>24,391,746</u>
Funds From Operations allocable to the Company ¹	\$ 36,689,196	\$ 33,503,422	\$ 24,391,746

1 “Funds From Operations of the Kite Portfolio” measures 100% of the operating performance of the Operating Partnership’s real estate properties and construction and service subsidiaries in which the Company owns an interest. “Funds From Operations allocable to the Company” reflects a reduction for the Limited Partners’ weighted average diluted interest in the Operating Partnership.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our future income, cash flows and fair values relevant to financial instruments depend upon prevailing interest rates. Market risk refers to the risk of loss from adverse changes in interest rates of debt instruments of similar maturities and terms.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Market Risk Related to Fixed Rate Debt

We had approximately \$646.8 million of outstanding consolidated indebtedness as of December 31, 2007 (inclusive of net premiums on acquired debt of \$1.8 million). During 2007, we participated in the following interest rate swaps:

- On February 28, 2007, a portion of the unsecured facility was hedged by an interest rate swap with a notional amount of \$25 million, a fixed interest rate of 6.17% and matures February 18, 2011;
- On August 1, 2007, two of our outstanding interest rate swaps totaling \$50 million matured. These swaps were entered into during 2005 to hedge variable cash flows associated with existing variable rate debt and had a fixed interest rate of 5.28% and 5.55%;
- On August 1, 2007, in connection with these maturities, an additional portion of the unsecured facility was hedged by an interest rate swap with a notional amount of \$50 million, a fixed rate of 6.32% and matures February 20, 2011;
- On August 17, 2007, a portion of our variable rate construction loan at Naperville Marketplace was hedged by an interest rate swap agreement with a notional amount of \$10 million, a fixed interest rate of 6.05% and matures December 30, 2008;
- On August 17, 2007, a portion of the Venture's variable rate construction loan at Parkside Town Commons was hedged by an interest rate swap agreement with a notional amount of \$42 million, a fixed interest rate of 5.60% and matures March 2, 2009;
- On December 21, 2007, a portion of our variable rate construction loan at Beacon Hill Shopping Center was hedged by an interest rate swap agreement with a notional amount of \$11 million, a fixed interest rate of 5.13% and matures March 30, 2009;
- On December 28, 2007, a portion of our variable rate construction loan at Estero Town Commons was hedged by an interest rate swap agreement with a notional amount of \$17.7 million, a fixed interest rate of 5.55% and matures January 3, 2009; and
- On December 28, 2007, a portion of our variable rate construction loan at Tarpon Springs Plaza was hedged by an interest rate swap agreement with a notional amount of \$20 million, a fixed interest rate of 5.55% and matures January 3, 2009.

In total, at December 31, 2007, we had \$133.7 million of consolidated interest rate swaps outstanding. Including the effects of these swaps, our fixed and variable rate debt would have been approximately \$471.2 million (73%) and \$173.7 million (27%), respectively, of our total consolidated indebtedness at December 31, 2007. Reflecting our share of unconsolidated debt, our fixed and variable rate debt was 74% and 26%, respectively, of total consolidated and our share of unconsolidated indebtedness at December 31, 2007.

Based on the amount of our fixed rate debt, a 100 basis point increase in market interest rates would result in a decrease in its fair value of approximately \$17.8 million. A 100 basis point decrease in market interest rates would result in an increase in the fair value of our fixed rate debt of approximately \$19.2 million. A 100 basis point increase or decrease in interest rates on our variable rate debt as of December 31, 2007 would increase or decrease our annual cash flow by approximately \$1.7 million.

As a matter of policy, we do not utilize financial instruments for trading or speculative transactions.

Inflation

Most of our leases contain provisions designed to mitigate the adverse impact of inflation by requiring the tenant to pay its share of operating expenses, including common area maintenance, real estate taxes and insurance. This helps reduce our exposure to increases in costs and operating expenses resulting from inflation.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The consolidated financial statements of the Company included in this Report are listed in Part IV, Item 15(a) of this report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

An evaluation was performed under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fourth quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Management Report on Internal Control Over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting for the Company, as that term is defined in Rule 13a-15(f) of the Exchange Act. Under the supervision of and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, the Company conducted an evaluation of the effectiveness of the Company's internal control over financial reporting based on the framework in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on the Company's evaluation under the framework in *Internal Control – Integrated Framework*, the Company's management has concluded that the Company's internal control over financial reporting was effective as of December 31, 2007.

The Company's independent auditors, Ernst & Young LLP, an independent registered public accounting firm, have issued a report on the Company's internal control over financial reporting as stated in their report which is included herein.

The Company's internal control system was designed to provide reasonable assurance to the Company's management and Board of Trustees regarding the preparation and fair presentation of published financial statements. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders of Kite Realty Group Trust:

We have audited Kite Realty Group Trust and Subsidiaries' internal control over financial reporting as of December 31, 2007, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Kite Realty Group Trust and Subsidiaries' management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Kite Realty Group Trust and Subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2007, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Kite Realty Group Trust and Subsidiaries as of December 31, 2007 and 2006, and the related consolidated statements of operations, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2007 and the related financial statement schedule as of December 31, 2007 of Kite Realty Group Trust and Subsidiaries and our report dated March 14, 2008 expressed an unqualified opinion thereon.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders of Kite Realty Group Trust:

We have audited the accompanying consolidated balance sheets of Kite Realty Group Trust and Subsidiaries as of December 31, 2007 and 2006, and the related consolidated statements of operations, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2007. Our audit also included the financial statement schedule listed in the index at item 15(a). These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Kite Realty Group Trust and Subsidiaries at December 31, 2007 and 2006, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2007, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Kite Realty Group Trust and Subsidiaries' internal control over financial reporting as of December 31, 2007, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 14, 2008, expressed an unqualified opinion thereon.

Kite Realty Group Trust
Notes to Consolidated Financial Statements
December 31, 2007

Note 1. Organization and Basis of Presentation

Organization

Kite Realty Group Trust (the “Company” or “REIT”) was organized in Maryland on March 29, 2004 to succeed to the development, acquisition, construction and real estate businesses of Kite Property Group (the “Predecessor”). The Predecessor was owned by Al Kite, John Kite and Paul Kite (the “Principals”) and certain executives and other family members and consisted of the properties, entities and interests contributed to the Company or its subsidiaries by its founders and is the predecessor of Kite Realty Group Trust. The Company began operations on August 16, 2004 when it completed its initial public offering (“IPO”) and concurrently consummated certain other formation transactions. The IPO consisted of the sale of 18,300,000 common shares sold to the public at \$13.00 per share, resulting in net proceeds to the Company of \$215.5 million. The net proceeds of the IPO were contributed in exchange for a 69.8% controlling interest in Kite Realty Group, L.P., the “Operating Partnership”.

The Company, through the Operating Partnership, is engaged in the ownership, operation, management, leasing, acquisition, expansion and development of neighborhood and community shopping centers and certain commercial real estate properties. The Company also provides real estate facilities management, construction, development and other advisory services to third parties through its taxable REIT subsidiaries.

At December 31, 2007, the Company owned interests in 55 operating properties (consisting of 50 retail properties, four commercial properties and an associated parking garage) and had 11 properties under development or redevelopment (including the Glendale Town Center and Shops at Eagle Creek properties, both of which are undergoing a major redevelopment – see Note 8).

Basis of Presentation

The accompanying financial statements of Kite Realty Group Trust are presented on a consolidated basis and include all of the accounts of the Company, the Operating Partnership, the taxable REIT subsidiaries of the Operating Partnership and any variable interest entities (“VIEs”) in which the Company is the primary beneficiary.

The Company consolidates properties that are wholly-owned and properties in which it owns less than 100% but it controls. Control of a property is demonstrated by:

- our ability to manage day-to-day operations,
- our ability to refinance debt and sell the property without the consent of any other partner or owner,
- the inability of any other partner or owner to replace us; and
- being the primary beneficiary of a variable interest entity.

Of the 66 total properties held at December 31, 2007, the Company owned a controlling interest in all except two operating properties and one parcel of pre-development land, the three of which are accounted for under the equity method. As of December 31, 2007 the Company had investments in six joint ventures that are VIEs in which the Company is the primary beneficiary. As of December 31, 2007, these VIEs had total debt of approximately \$93 million which is secured by assets of the VIEs totaling approximately \$158 million. The Operating Partnership guarantees the debt of these VIEs.

The Company allocates net operating results of the Operating Partnership based on the partners’ respective weighted average ownership interest. The Company adjusts the Limited Partners’ interests in the Operating Partnership at the end of each period to reflect their interests in the Operating Partnership. This adjustment is reflected in the Company’s shareholders’ equity. The Company’s and the Limited Partners’ interests in the Operating Partnership for the years ended December 31, 2007, 2006 and 2005 were as follows:

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

	Year Ended December 31,		
	2007	2006	2005
Company's weighted average interest in Operating Partnership	77.7%	77.3%	71.7%
Limited Partners' weighted average interest in Operating Partnership	22.3%	22.7%	28.3%

The Company's and the Limited Partners' interests in the Operating Partnership at December 31, 2007 and 2006 were as follows:

	Balance at December 31,	
	2007	2006
Company's interest in Operating Partnership	77.7%	77.4%
Limited Partners' interests in Operating Partnership	22.3%	22.6%

Note 2. Summary of Significant Accounting Policies

Use of Estimates

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reported period. Actual results could differ from these estimates.

Purchase Accounting

The purchase price of properties is allocated to tangible and identified intangible assets acquired based on their fair values in accordance with the provisions of Statement of Financial Accounting Standards No. 141, "Business Combinations" ("SFAS No. 141"). In making estimates of fair values for the purpose of allocating purchase price, a number of sources are utilized. We also consider information about each property obtained as a result of its pre-acquisition due diligence, marketing and leasing activities in estimating the fair value of tangible and intangible assets acquired.

A portion of the purchase price is allocated to tangible and intangible assets, including:

- the fair value of the building on an as-if-vacant basis and to land determined either by real estate tax assessments, independent appraisals or other relevant data.
- above-market and below-market in-place lease values for acquired properties are based on the present value (using an interest rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) management's estimate of fair market lease rates for the corresponding in-place leases, measured over the remaining non-cancelable term of the leases. The capitalized above-market and below-market lease values are amortized as a reduction of or addition to rental income over the remaining non-cancelable terms of the respective leases. Should a tenant terminate its lease, the unamortized portion of the lease intangibles would be charged or credited to income.
- the value of leases acquired. The Company utilizes independent sources for their estimates to determine the respective in-place lease values. The Company's estimates of value are made using methods similar to those used by independent appraisers. Factors the Company considers in their analysis include an estimate of costs to execute similar leases including tenant improvements, leasing commissions and foregone costs and rent received during the estimated lease-up period as if the space was vacant. The value of in-place leases is amortized to expense over the remaining initial terms of the respective leases.

The Company also considers whether a portion of the purchase price should be allocated to in-place leases that have a related customer relationship intangible value. Characteristics we consider in allocating these values include the nature and extent of existing business relationships with the tenant, growth prospects for developing new business with the tenant, the tenant's credit quality and expectations of lease

renewals, among other factors. To date, a tenant relationship has not been developed that is considered to have a current intangible value.

F-8

Investment Properties

Investment properties are recorded at cost and include costs of acquisitions, development, predevelopment, construction costs, certain allocated overhead, tenant allowances and improvements, and interest and real estate taxes incurred during construction. Significant renovations and improvements are capitalized when they extend the useful life, increase capacity, or improve the efficiency of the asset. If a tenant vacates a space prior to the lease expiration, any related unamortized tenant allowances are immediately expensed. Maintenance and repairs that do not extend the useful lives of the respective assets are reflected in property operating expense.

The Company incurs costs prior to land acquisition and for certain land held for development including acquisition contract deposits, as well as legal, engineering and other external professional fees related to evaluating the feasibility of developing a shopping center. These pre-development costs are included in land held for development in the accompanying consolidated balance sheets. If the Company determines that the development of a property is no longer probable, any pre-development costs previously incurred are immediately expensed. Once construction commences on the land, the related capitalized costs are transferred to construction in progress.

The Company also capitalizes costs such as construction, interest, real estate taxes, salaries and related costs of personnel directly involved with the development of our properties. As a portion of the development property becomes operational, the Company expenses appropriate costs on a pro rata basis.

In accordance with Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS No. 144"), investment properties and intangible assets within the real estate operation and development segment are reviewed for impairment on a property-by-property basis at least annually or whenever events or changes in circumstances indicate that the carrying value of investment properties may not be recoverable. Impairment losses for investment properties are recorded when the undiscounted cash flows estimated to be generated by the investment properties during the expected hold period are less than the carrying amounts of those assets. Impairment losses are measured to the extent the carrying value exceeds the fair value of the asset. In connection with the Company's standard practice of regular evaluation of development-related assets, approximately \$0.5 million, \$0.1 million and \$0.2 million was written off in 2007, 2006 and 2005, respectively (\$0.3 million, \$0.1 million and \$0.1 million after tax).

The Company's properties generally have operations and cash flows that can be clearly distinguished from the rest of the Company. In accordance with SFAS No. 144, the operations reported in discontinued operations include those operating properties that were sold or considered held-for-sale and for which operations and cash flows can be clearly distinguished. The operations from these properties are eliminated from ongoing operations and the Company will not have a continuing involvement after disposition. Prior periods have been reclassified to reflect the operations of these properties as discontinued operations.

Depreciation on buildings and improvements is provided utilizing the straight-line method over an estimated original useful lives ranging from 10 to 35 years. Depreciation on tenant allowances and improvements is provided utilizing the straight-line method over the term of the related lease. Depreciation on equipment and fixtures is provided utilizing the straight-line method over 5 to 10 years.

Escrow Deposits

Escrow deposits consists of proceeds from the sale of the Company's 17th & Meridian property that were held at an intermediary as of December 31, 2007 in anticipation of a future like-kind exchange under Section 1031 of the Internal Revenue Code (see Note 9), amounts received in connection with the Company's note with Marsh Supermarkets for the June 2006 termination of a lease and subsequent sale of the asset at Naperville Marketplace (see Note 10), as well as cash held for real estate taxes, property maintenance, insurance, and other requirements at specific properties as required by lending institutions.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of 90 days or less to be cash and cash equivalents.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Cash paid for interest, net of capitalized interest, and cash paid for taxes for the years ended December 31, 2007, 2006 and 2005 was as follows:

	For the year ended December 31,		
	2007	2006	2005
Cash Paid for Interest, net	\$ 25,870,012	\$ 30,705,377	\$ 20,656,637
Capitalized Interest	12,824,398	10,680,000	3,507,372
Cash Paid for Taxes	974,459	1,122,412	454,966

Accrued but unpaid distributions were \$7.6 million and \$7.3 million as of December 31, 2007 and 2006, respectively, and are included in accounts payable and accrued expenses in the accompanying consolidated balance sheets.

Fair Value of Financial Instruments

The carrying amounts of cash and cash equivalents, accounts receivable, escrows and deposits, and accounts payable and accrued expenses approximate fair value because of the relatively short maturity of these instruments.

Revenue Recognition

As lessor, the Company retains substantially all of the risks and benefits of ownership of the investment properties and accounts for its leases as operating leases.

Base minimum rents are recognized on a straight-line basis over the terms of the respective leases. Certain lease agreements contain provisions that grant additional rents based on tenants' sales volume (contingent percentage rent). Percentage rents are recognized when tenants achieve the specified targets as defined in their lease agreements. Percentage rents are included in other property related revenue in the accompanying statements of operations.

Reimbursements from tenants for real estate taxes and other recoverable operating expenses are recognized as revenues in the period the applicable expense is incurred.

Gains on sales of real estate are recognized in accordance with Statement of Financial Standards ("SFAS") No. 66, "Accounting for Sales of Real Estate". In summary, gains from sales are not recognized unless a sale has been consummated, the buyer's initial and continuing investment is adequate to demonstrate a commitment to pay for the property, the Company has transferred to the buyer the usual risks and rewards of ownership, and the Company does not have a substantial continuing financial involvement in the property. As part of the Company's ongoing business strategy, it will, from time to time, sell land parcels and outlots, some of which are ground leased to tenants. Gains realized on such sales were \$7.2 million, \$3.2 million, and \$4.0 million for the years ended December 31, 2007, 2006 and 2005, respectively, and are classified as other property related revenue in the accompanying consolidated financial statements.

Revenues from construction contracts are recognized on the percentage-of-completion method, measured by the percentage of cost incurred to date to the estimated total cost for each contract. Project costs include all direct labor, subcontract, and material costs and those indirect costs related to contract performance costs incurred to date. Project costs do not include uninstalled materials. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined. Changes in job performance, job conditions, and estimated profitability may result in revisions to costs and income, which are recognized in the period in which the revisions are determined.

From time to time, the Company will construct and sell build-to-suit merchant assets to third parties. Proceeds from the sale of build-to-suit merchant assets are included in construction and service fee revenue and the related costs of the sale of these assets are included in cost of construction and services in the accompanying consolidated financial statements. Proceeds from such sales were \$6.1 million, \$5.3 million and \$5.7 million for the years ended December 31, 2007, 2006 and 2005, respectively, and the associated construction costs were \$4.1 million, \$3.5 million, and \$4.1 million, respectively.

Development and other advisory services fees are recognized as revenues in the period in which the services are rendered. Performance-based incentive fees are recorded when the fees are earned.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Accounting for Investments in Joint Ventures

In December 2003, the Financial Accounting Standards Board issued FASB Interpretation No. 46 (Revised December 2003), "Consolidation of Variable Interest Entities" ("FIN 46R"). FIN 46R replaces FASB Interpretation No. 46 which was issued in January 2003. FIN 46R explains how to identify variable interest entities and how to assess whether to consolidate such entities. In general, a variable interest entity ("VIE") is a corporation, partnership, trust or any other legal structure used for business purposes that either (a) does not have equity investors with voting rights or (b) has equity investors that do not provide sufficient financial resources for the entity to support its activities. In addition, in June 2005, the FASB issued EITF 04-05, "Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights". EITF 04-05 requires the Company to consolidate certain entities in which it owns less than 100% of the equity interest if it is the general partner and the limited partners do not have substantive rights. The adoption of EITF 04-05 did not have a material impact on the Company's financial position or results of operations. Prior to the issuance of FIN 46R and EITF 04-05, a company generally included another entity in its consolidated financial statements only if it controlled the entity through voting interests. FIN 46R and EITF 04-05 change that by requiring a VIE to be consolidated by a company if that company is subject to a majority of the risk of loss from the VIE's activities or entitled to receive a majority of the entity's residual returns or both or if the company is the general partner in the agreement.

The Company accounts for its investments in unconsolidated joint ventures under the equity method of accounting as they exercise significant influence over, but do not control, operating and financial policies. These investments are recorded initially at cost and subsequently adjusted for equity in earnings and cash contributions and distributions.

The Company guarantees approximately \$110.1 million of joint venture indebtedness, including both consolidated and unconsolidated joint ventures.

Tenant Receivables and Allowance for Doubtful Accounts

Tenant receivables consist primarily of billed minimum rent, accrued and billed tenant reimbursements and accrued straight-line rent. The Company generally does not require specific collateral other than corporate or personal guarantees from its tenants.

An allowance for doubtful accounts is maintained for estimated losses resulting from the inability of certain tenants or others to meet contractual obligations under their lease or other agreements. Accounts are written off when, in the opinion of management, the balance is uncollectible.

	2007	2006	2005
Balance, beginning of year	\$ 561,282	\$ 1,030,020	\$ 511,974
Provision for credit losses, net of recoveries	319,360	344,564	1,163,204
Accounts written off	(135,163)	(813,302)	(645,158)
	\$ 745,479	\$ 561,282	\$ 1,030,020

Other Receivables

Other receivables consist primarily of receivables due in the ordinary course of the Company's construction and advisory services business.

Concentration of Credit Risk

The Company's accounts receivable from tenants potentially subjects it to a concentration of credit risk related to its accounts receivable. At December 31, 2007, approximately 34%, 23%, and 21% of property accounts receivable were due from tenants leasing space in the states of Indiana, Texas, and Florida, respectively. As of December 31, 2007, the five largest tenants in the Company's operating portfolio, in terms of annualized base rent, were Lowe's Home Improvement, Circuit City, Publix, the State of Indiana, and Marsh Supermarkets, with annualized base rents for each representing 3.5%, 2.6%, 2.5%, 2.3%, and 2.2%, respectively, of the Company's total annualized base rent.

Earnings Per Share

Basic earnings per share is calculated based on the weighted average number of shares outstanding during the period. Diluted earnings per share is determined based on the weighted average number of shares outstanding combined with the incremental average shares that would have been outstanding assuming all potentially dilutive shares were converted into common shares as of the earliest date possible.

Potential dilutive securities include outstanding share options and units of the Operating Partnership, which may be exchanged for cash or shares under certain circumstances. The only securities that had a potentially dilutive effect for the periods ended December 31, 2007, 2006, and 2005 were outstanding share options and deferred share units, the dilutive effect of which was 272,713, 169,886, and 113,081 for the years ended December 31, 2007, 2006, and 2005, respectively.

The effect of conversion of units of the Operating Partnership is not reflected in diluted common shares, as they are exchangeable for common shares on a one-for-one basis. The income allocable to such units is allocated on the same basis and reflected as Limited Partners' interests in the Operating Partnership in the accompanying consolidated statements of operations. Therefore, the assumed conversion of these units would have no effect on the determination of income per common share.

Derivative Financial Instruments

The Company applies SFAS No. 133 "Accounting for Derivative Instruments and Hedging Activities" which requires that all derivative instruments be recorded on the balance sheet at their fair value. Gains or losses resulting from changes in the values of those derivatives are accounted for depending on the use of the derivative and whether it qualifies for hedge accounting. The Company uses derivative financial instruments to mitigate its interest rate risk on a related financial instrument through the use of interest rate swaps or rate locks.

Statement No. 133 requires that changes in fair value of derivatives that qualify as cash flow hedges be recognized in other comprehensive income ("OCI") while any ineffective portion of the derivative's change in fair value be recognized immediately in earnings. Upon settlement of the hedge, gains and losses associated with the transaction are recorded in OCI and amortized over the underlying term of the hedge transaction. All of the Company's derivative instruments qualify for hedge accounting.

Income Taxes

The Company, which is considered a corporation for federal income tax purposes, qualifies as a REIT and generally will not be subject to federal income tax to the extent it distributes its REIT taxable income to its shareholders. REITs are subject to a number of organizational and operational requirements. If the Company fails to qualify as a REIT in any taxable year, the Company will be subject to federal income tax on its taxable income at regular corporate rates. The Company may also be subject to certain federal, state and local taxes on its income and property and to federal income and excise taxes on its undistributed income even if it does qualify as a REIT. For example, the Company will be subject to income tax to the extent it distributes less than 90% of its REIT taxable income (including capital gains).

Prior to the IPO, Kite Development Corporation, Kite Construction, Inc. and all of the properties were held by entities where the owners were required to include their respective share of profits or losses generated by these entities in their individual tax returns. Accordingly, no federal income tax provision has been reflected for periods prior to the IPO.

The Company has elected taxable REIT subsidiary ("TRS") status for some of its subsidiaries under Section 856(1) of the Code. This enables the Company to receive income and provide services that would otherwise be impermissible for REITs. In accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" ("SFAS No. 109"), deferred tax assets and liabilities are established for temporary differences between the financial reporting bases and the tax bases of assets and liabilities at the enacted rates expected to be in effect when the temporary differences reverse. SFAS No. 109 also requires that deferred tax assets be reduced by a valuation allowance if it is more likely than not that some portion or all of the deferred tax asset will not be realized. Income tax provisions for the years ended December 31, 2007, 2006, and 2005 were approximately \$0.8 million, \$1.0 million, \$1.0 million, respectively.

State income, franchise and other taxes were not significant in any of the periods presented.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation. Such reclassifications had no effect on net income previously reported.

Note 3. Share-Based Compensation

Overview

The Company's 2004 Equity Incentive Plan (the "Plan") authorizes options and other share-based compensation awards to be granted to employees and trustees for up to 2,000,000 common shares of the Company.

Prior to January 1, 2006, the Company accounted for its share-based compensation using the fair value based method of accounting provided under Financial Accounting Standards Board ("FASB") SFAS No. 123, "Accounting for Share-Based Compensation" ("SFAS No. 123"). In applying the fair value based method, the Company recorded compensation cost at the grant date based on the value of the award and amortized it against income over the vesting period.

Effective January 1, 2006, the Company adopted the fair value recognition provisions of SFAS No. 123(R), "Share-Based Payment", ("SFAS No. 123R"), using the modified-prospective transition method. Under this transition method, compensation cost recognized in fiscal year 2006 includes: (a) compensation cost for all share-based payments granted through January 1, 2006, but for which the requisite service period had not been completed as of January 1, 2006, based on the grant date fair value as previously estimated in accordance with the provisions of SFAS No. 123, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant date fair value estimated in accordance with the provisions of SFAS No. 123R. As a result of the adoption of SFAS No. 123R, the Company reclassified the unearned compensation balance related to share options, restricted shares and deferred share units to additional paid-in capital in the accompanying December 31, 2006 balance sheet and statement of shareholders' equity. The adoption of SFAS No. 123R did not have a significant impact on the Company's accounting for share options.

The total share-based compensation expense, net of amounts capitalized, included in general and administrative expenses for the years ended December 31, 2007, 2006, and 2005 was \$0.5 million, \$0.3 million, and \$0.1 million, respectively. Total share-based compensation cost capitalized for the years ended December 31, 2007, 2006, and 2005 was \$0.3 million, \$0.2 million, and \$0.1 million, respectively, related to development and leasing personnel.

As of December 31, 2007, there were 886,813 shares available for grant under the 2004 Equity Incentive Plan.

Share Options

Pursuant to the Plan, the Company periodically grants options to purchase common shares at an exercise price equal to the grant date per-share fair value of the Company's common shares. Granted options typically vest over a five year period and expire ten years from the grant date. The Company issues new common shares upon the exercise of options.

For the Company's share option plan, the grant date fair value of each grant was estimated using the Black-Scholes option pricing model. The Black-Scholes model utilizes assumptions related to the dividend yield, expected life and volatility of the Company's common shares and the risk-free interest rate. The dividend yield is based on the Company's historical dividend rate. The expected life of the grants is derived from expected employee duration, which is based on Company history, industry information and other factors. The risk-free interest rate is derived from the U.S. Treasury yield curve in effect at the time of grant. Expected volatilities utilized in the model are based on the historical volatility of the Company's share price and other factors.

The following summarizes the weighted average assumptions used for grants in fiscal periods 2007, 2006, and 2005:

	<u>2007</u>	<u>2006</u>	<u>2005</u>
Expected Dividend Yield	4.00%	4.78%	5.77%
Expected term of option	8 years	8 years	5 years
Risk-free interest rate	5.08%	4.55%	3.00%

A summary of option activity under the Plan as of December 31, 2007, and changes during the year then ended, is presented below:

	Options	Weighted-Average Exercise Price
Outstanding at January 1, 2007	946,801	\$ 13.32
Granted	43,750	19.60
Exercised	(4,958)	13.90
Forfeited	(23,600)	18.40
	961,993	\$ 13.48
Outstanding at December 31, 2007		
	586,059	\$ 13.23
Exercisable at December 31, 2007		

The fair value on the respective grant dates of the 43,750, 37,000, and 105,000 options granted during the periods ended December 31, 2007, 2006, and 2005 was \$2.74, \$2.19, and \$1.00 per option, respectively.

The aggregate intrinsic value of the 4,958 and 40,199 options exercised during the years ended December 31, 2007 and 2006 was \$17,460 and \$97,800, respectively. No options were exercised during the year ended December 31, 2005.

The aggregate intrinsic value and weighted average remaining contractual term of the outstanding and exercisable options at December 31, 2007 were as follows:

	Options	Aggregate Intrinsic Value	Weighted-Average Remaining Contractual Term (in years)
Outstanding at December 31, 2007	961,993	\$ 1,851,291	6.72
Exercisable at December 31, 2007	586,059	\$ 1,204,847	6.63

As of December 31, 2007, there was \$0.4 million of total unrecognized compensation cost related to outstanding unvested share option awards. This cost is expected to be recognized over a weighted-average period of 1.2 years.

Restricted Shares

In addition to share option grants, the Plan also authorizes the grant of share-based compensation awards in the form of restricted common shares. Under the terms of the Plan, these restricted shares, which are considered to be outstanding shares from the date of grant, typically vest over a period ranging from one to five years. In addition, the Company pays dividends on restricted shares that are charged directly to shareholders' equity.

The following table summarizes all restricted share activity to employees and non-employee members of the Board of Trustees as of December 31, 2007 and changes during the year then ended:

	Restricted Shares	Weighted Average Grant Date Fair Value per share
Restricted shares outstanding at January 1, 2007	37,393	\$ 15.31
Shares granted	41,618	20.21
Shares forfeited	(958)	18.43

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Shares vested	(15,709)	15.09
Restricted shares outstanding at December 31, 2007	62,344	\$ 18.59

During the years ended December 31, 2006 and 2005, the Company granted 30,206 and 4,820 restricted shares to employees and non-employee members of the Board of Trustees with weighted average grant date fair values of \$15.89 and \$15.55, respectively. The total fair value of shares vested during the years ended December 31, 2007, 2006 and 2005 was \$0.3 million, \$0.1 million, and \$0.1 million.

As of December 31, 2007, there was \$0.8 million of total unrecognized compensation cost related to restricted shares granted under the Plan, which is expected to be recognized over a weighted-average period of 1.0 years. We expect to incur

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

approximately \$0.5 million of this expense in fiscal year 2008 and approximately \$0.3 million of this expense in fiscal year 2009.

Deferred Share Units

In addition, the Plan allows for the deferral of certain equity grants into the Trustee Deferred Compensation Plan. The Trustee Deferred Compensation Plan authorizes the issuance of “deferred share units” to the Company’s non-employee trustees. Each deferred share unit is equivalent to one common share of the Company. Non-employee trustees receive an annual retainer, fees for Board meetings attended, Board committee chair retainers and fees for Board committee meetings attended. Except as described below, these fees are typically paid in cash or common shares of the Company.

Under the Plan, deferred share units may be credited to non-employee trustees in lieu of the payment of cash compensation or the issuance of common shares. In addition, beginning on the date on which deferred share units are credited to a non-employee trustee, the number of deferred share units credited is increased by additional deferred share units in an amount equal to the relationship of dividends declared to the value of the Company’s common shares. The deferred share units credited to a non-employee trustee are not settled until he or she ceases to be a member of the Board of Trustees, at which time an equivalent number of common shares will be issued.

During the years ended December 31, 2007 and 2006, two trustees elected to receive a portion of their compensation in deferred share units and an aggregate of 4,611 and 3,610 deferred share units, respectively, including dividends that were reinvested for additional share units, were credited to those non-employee trustees based on a weighted-average grant date fair value of \$17.21 and \$15.76, respectively. During each of the years ended December 31, 2007 and 2006, the Company incurred \$0.1 million of compensation expense related to deferred share units credited to non-employee trustees.

Other Equity Grants

During the years ended 2007, 2006 and 2005, the Company issued 2,091, 3,190 and 2,100 unrestricted common shares, respectively, with weighted average grant date fair values of \$17.91, \$15.76, and \$14.86 per share, respectively, to members of our Board of Trustees in lieu of 50% of their annual retainer compensation.

Note 4. Deferred Costs

Deferred costs consist primarily of financing fees incurred to obtain long-term financing and broker fees and capitalized salaries and related benefits incurred in connection with lease originations. Deferred financing costs are amortized on a straight-line basis over the terms of the respective loan agreements. Deferred leasing costs include lease intangibles and other and are amortized on a straight-line basis over the terms of the related leases. At December 31, 2007 and 2006, deferred costs consisted of the following:

	2007	2006
Deferred financing costs	\$ 8,257,925	\$ 7,259,796
Acquired lease intangibles	7,847,180	7,847,180
Deferred leasing costs and other	16,220,079	11,341,696
	32,325,184	26,448,672
Less—accumulated amortization	(11,761,520)	(8,915,733)
Total	\$ 20,563,664	\$ 17,532,939

The estimated aggregate amortization amounts from net unamortized acquired lease intangibles for each of the next five years and thereafter are as follows:

2008	\$ 808,038
2009	714,230
2010	610,509

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

2011	494,187
2012	414,346
Thereafter	1,557,470
	<hr/>
Total	\$ 4,598,780
	<hr/>

F-15

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

The accompanying consolidated statements of operations include amortization expense as follows:

	For the year ended December 31,		
	2007	2006	2005
Amortization of deferred financing costs	\$ 1,035,497	\$ 1,875,193	\$ 1,340,259
Amortization of deferred leasing costs, leasing intangibles and other	3,044,341	2,495,041	1,989,378

Amortization of deferred leasing costs, leasing intangibles and other is included in depreciation and amortization expense, while the amortization of deferred financing costs is included in interest expense.

Note 5. Deferred Revenue and Other Liabilities

Deferred revenue and other liabilities consist of the unamortized in-place lease liabilities, construction billings in excess of costs, construction retainages payable, tenant rents received in advance and deferred income taxes. The amortization of in-place lease liabilities is recognized as revenue over the remaining life of the leases through 2027. Construction contracts are recognized as revenue using the percentage of completion method. Tenant rents received in advance are recognized as revenue in the period to which they apply, usually the month following their receipt.

At December 31, 2007 and 2006, deferred revenue and other liabilities consisted of the following:

	2007	2006
Unamortized in-place lease liabilities	\$ 18,181,597	\$ 22,918,437
Construction billings in excess of cost	254,959	1,072,666
Construction retainages payable	4,449,289	4,434,173
Tenant rents received in advance	3,156,364	1,590,348
Deferred income taxes	84,834	140,675
Total	\$ 26,127,043	\$ 30,156,299

The estimated aggregate amortization of acquired lease intangibles (unamortized in-place lease liabilities) for each of the next five years and thereafter is as follows:

2008	\$ 3,207,097
2009	2,949,316
2010	2,622,601
2011	2,197,094
2012	1,705,441
Thereafter	5,500,048
Total	\$ 18,181,597

Note 6. Investments in Unconsolidated Joint Ventures

In September 2006, the Company entered into an agreement (the "Venture") with Prudential Real Estate Investors ("PREI") to pursue joint venture opportunities for the development and selected acquisition of community shopping centers in the United States. The Venture intends to develop or acquire up to \$1.25 billion of well-positioned community shopping centers in strategic markets in the United States. Under the terms

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

of the agreement, the Company has agreed to present to PREI opportunities to develop or acquire community shopping centers, each with estimated project costs in excess of \$50 million. The Company has the option to present to PREI additional opportunities with estimated project costs under \$50 million. It is expected that equity capital contributions of up to \$500 million will be made to the Venture for qualifying projects. The Company expects contributions would be made on a project-by-project basis with PREI contributing 80% and the Company contributing 20% of the equity required.

In December 2006, the Company contributed 100 acres of development land located in Cary, North Carolina, to the Venture at its cost of \$38.5 million. The contribution included the Venture's assumption of \$35.6 million of variable rate debt. In connection with the contribution, the Company was due approximately \$2.6 million from the Venture at December

F-16

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

31, 2006, which is classified as other receivables in the accompanying consolidated financial statements. This receivable was collected in full in March 2007,

In August 2007, the Venture purchased approximately 17 acres of additional land in Cary, North Carolina for a purchase price of approximately \$3.4 million, including assignment costs, which was funded through draws from the Venture's variable rate construction loan. This land is adjacent to land previously purchased by the Company in 2006. The Venture is in the process of developing this land, along with the 100 acres purchased in 2006, into an approximately 1.5 million total square foot mixed used shopping center. As of December 31, 2007, the Company owned a 40% interest in the Venture which, under the terms of the Venture, will be reduced to 20% upon the commencement of construction.

In addition to the Venture, as of December 31, 2007, the Company had two equity interests in unconsolidated entities that own and operate rental properties. The Company owned a 60% interest in The Centre and a 50% interest in Spring Mill Medical, each representing a sufficient interest in the respective entity in order to exercise significant influence, but not control, over operating and financial policies. Accordingly, these investments are accounted for using the equity method.

Combined summary financial information of entities accounted for using the equity method of accounting and a summary of the Company's investment in and share of income from these entities follows:

	<u>2007</u>	<u>2006</u>
Assets:		
Investment properties at cost:

Company share of net income	418,772	414,514	330,570
Amortization of excess investment	(128,062)	(128,062)	(78,059)
Equity in earnings of unconsolidated joint ventures	\$ 290,710	\$ 286,452	\$ 252,511

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

“Excess investment” represents the unamortized difference of the Company’s investment over its share of the equity in the underlying net assets of the joint ventures acquired. The Company amortizes excess investment over the life of the related property of no more than 35 years and the amortization is included in equity in earnings from unconsolidated entities. The Company periodically reviews its ability to recover the carrying values of its investments in joint venture properties. If the Company were to determine that any portion of its investment, including excess investment, is not recoverable, the Company would record an adjustment to write off the unrecoverable amounts.

As of December 31, 2007, the Company’s share of unconsolidated joint venture indebtedness was \$28.1 million. Unconsolidated joint venture debt is the liability of the joint venture and is typically secured by the assets of the joint venture. As of December 31, 2007, the Operating Partnership had guaranteed unconsolidated joint venture debt of \$19.9 million in the event the joint venture partnership defaults under the terms of the underlying arrangement. Mortgages which are guaranteed by the Operating Partnership are secured by the property of the joint venture and that property could be sold in order to satisfy the outstanding obligation.

The following table presents scheduled principal repayments on unconsolidated joint venture indebtedness. In early 2008, the Venture refinanced its variable rate debt instrument, and that refinancing is reflected in the table below. Refer to the footnote of this table for details on the refinancing.

	Total	Company Share
2008 ¹	\$ 389,687	\$ 217,025
2009 ¹	53,517,368	22,135,997
2010	193,626	96,813
2011	206,670	103,335
2012	218,515	109,258
Thereafter	10,862,485	5,431,242
Total	\$ 65,388,351	\$ 28,093,670

¹ In January 2008, the Venture’s variable rate construction loan at Parkside Town Commons was refinanced and the maturity date was extended. As a result, \$49.8 million (\$19.9 million is Company’s share) of obligations previously due in 2008 are now due in 2009.

Note 7. Significant Acquisition Activity

2007 Acquisitions

The Company made the following significant land acquisitions in 2007:

- In January 2007, the Company purchased approximately 10 acres of land in Naples, Florida for approximately \$6.3 million with borrowings from its then-existing secured revolving credit facility. This land is adjacent to 15.4 acres previously purchased by the Company in 2005;
- In March 2007, the Company purchased approximately 105 acres of land in Apex, North Carolina for approximately \$14.5 million with borrowings from the unsecured revolving credit facility. The Company is in the process of developing this land into an approximately 345,000 total square foot shopping center. Some portions of land at this property may be sold to third parties in the future; and
- In August 2007, the Company purchased approximately 14 acres of land in South Elgin, Illinois for approximately \$5.9 million with borrowings from its unsecured revolving credit facility. The Company is in the process of developing this land into an approximately 308,000 total square foot shopping center.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

2006 Acquisitions

The Company acquired and placed into service the following retail operating properties in 2006:

Property Name	Location	Acquisition Date	Acquisition Cost (Millions)	Financing Method
Kedron Village	Peachtree, Georgia	April 3, 2006 ¹	\$ 34.9 ₂	Debt
Courthouse Shadows	Naples, Florida	July 6, 2006	19.8 ₃	Debt
Pine Ridge Crossing	Naples, Florida	July 6, 2006	22.6 ₃	Debt
Riverchase	Naples, Florida	July 6, 2006	15.5 ₃	Debt

- 1 When purchased Kedron Village was under construction and not an operating property. The property became partially operational in the third quarter of 2006 and became fully operational during the fourth quarter of 2006. To finance this purchase, the Company incurred new short-term variable rate debt against the Traders Point property. In September 2006, permanent financing was obtained and a portion of the proceeds was used to repay the short-term debt. The new fixed rate debt has an original principal amount of \$48.0 million, bears interest at a fixed rate of 5.86% and matures in October 2016.
 - 2 Total purchase price of approximately \$34.9 million is net of purchase price adjustments, including tenant improvement and leasing commission credits, of \$2.0 million.
 - 3 To finance the purchase price for these properties, the Company incurred variable rate indebtedness of \$57.9 million. In September, 2006, permanent financing with a combined original principal amount of \$28.0 million was obtained on Pine Ridge Crossing and Riverchase at a fixed rate of 6.34% with a maturity of October 2016. In addition, \$20.3 million of variable rate debt related to the three properties was repaid in the fourth quarter of 2006. The remaining \$9.8 million of variable rate debt was repaid in February 2007 with proceeds from the line of credit (see Note 11).
- Following is a combined condensed balance sheet for the properties acquired in 2006 as of the dates of their respective acquisitions.

Assets	
Investment Properties	\$ 92,878,196
Acquired lease intangibles	7,456,262
Total Assets	\$ 100,334,458
Liabilities:	
Working capital assumed	\$ 804,816
In-place lease liabilities and deferred revenue	7,017,110
Total Liabilities	\$ 7,821,926

In addition, in July 2006, the Company acquired the remaining 15% economic interest from its joint venture partner in Wal-Mart Plaza in Gainesville, Florida for \$3.9 million and assumed management responsibilities for the property. This acquisition was financed with borrowings from the Company's revolving credit facility.

Amounts allocated to intangible assets in connection with these acquisitions totaled \$7.5 million and are included in buildings and improvements and deferred costs in the accompanying consolidated balance sheets. Amounts allocated to intangible liabilities representing the adjustment of acquired leases to market value totaled \$7.0 million and are included in deferred revenue in the accompanying consolidated balance sheets. The intangible assets and liabilities are amortized over each tenant's remaining lease term which ranged from 0.2 to 9.4 years at the date of acquisition. In the accompanying consolidated statements of operations, the operating results of the acquired properties are included

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

in results of operations from their respective dates of purchase.

Also during 2006, the Company acquired interests in various parcels of land for a total acquisition cost of approximately \$56.2 million. The Company acquired these parcels for future development.

2005 Acquisitions

The Company acquired and placed into service the following retail operating properties in 2005:

F-19

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Property Name	Location	Acquisition Date	Acquisition Cost (Millions)	Financing Method
Fox Lake Crossing	Fox Lake, IL	February 7, 2005	\$ 15.5 ₁	Debt
Plaza Volente	Austin, TX	May 16, 2005	35.9 ₂	Debt
Indian River Square	Vero Beach, FL	May 16, 2005	16.5 ₃	Debt
Bolton Plaza	Orange Park, FL	November 1, 2005	14.0 ₄	Common Share Offering Proceeds
Market Street Village	Hurst, TX	November 17, 2005	29.0 ₅	Debt ⁽⁶⁾

- 1 Inclusive of debt assumed of \$12.3 million and tax increment financing (“TIF”) receivable of \$1.5 million.
- 2 Inclusive of \$28.7 million of new debt and \$7.2 million of borrowings under the Company’s revolving credit facility incurred in connection with the acquisition.
- 3 Inclusive of \$13.3 million of new debt and \$3.2 million of borrowings under the Company’s revolving credit facility incurred in connection with the acquisition.
- 4 This property is owned through a joint venture with a third party. The Company currently receives 85% of the cash flow from this property, which percentage may decrease under certain circumstances.
- 5 Excludes escrow of \$1.7 million subject to completion of the development of an additional 7,000 square foot parcel.
- 6 Financed with borrowings under the Company’s revolving credit facility and subsequently partially paid down with the proceeds from the sale of its Mid-America Clinical Labs property in December 2005.
Also during 2005, the Company acquired interests in various parcels of land for a total acquisition cost of approximately \$86.9 million including debt assumed of \$3.9 million. The Company acquired these parcels for future development.

Amounts allocated to intangible assets in connection with the 2005 acquisitions totaled \$2.9 million as of the acquisition date and are included in buildings and improvements and deferred costs. Amounts allocated to intangible liabilities representing the adjustment of acquired leases to market value totaled \$1.8 million as of the acquisition date and the remaining unamortized portion is included in deferred revenue in the accompanying consolidated balance sheets. As of the purchase date, the intangible assets and liabilities were being amortized over each tenant’s remaining lease term at the date of acquisition which ranged from 0.5 to 22.1 years at the date of acquisition. In the accompanying consolidated statements of operations, the operating results of the acquired properties are included in results of operations from their respective dates of purchase.

The following table summarizes, on an unaudited pro forma basis, the results of operations for the years ended December 31, 2006 and 2005 as if the 2006 and 2005 property acquisitions described above occurred on January 1, 2005:

	Twelve Months Ended December 31,	
	2006	2005
Pro forma revenues	\$ 138,125,344	\$ 115,185,071
Operating expenses	(67,454,457)	(50,961,556)
Depreciation expense	(32,127,721)	(28,816,015)
Interest expense	(24,801,306)	(24,173,305)
Other expenses, net	(1,560,557)	(2,056,074)
Limited Partners’ interests in the continuing operations of the Operating Partnership	(3,213,577)	(2,809,932)
Income from continuing operations	8,967,726	6,368,189

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Discontinued operations		—	6,290,969
		<u> </u>	<u> </u>
Pro forma net income	\$	8,967,726	\$ 12,659,158
		<u> </u>	<u> </u>
Pro forma net income per share			
- basic and diluted	\$	0.31	\$ 0.59
Pro forma weighted average number of shares outstanding :			
- basic		28,733,228	21,406,980
- diluted		28,903,114	21,520,061

The Company has entered into master lease agreements with the seller in connection with certain of the above property acquisitions. These payments are due when tenant occupancy is below the level specified in the purchase agreement. The payments are accounted for as a reduction of the purchase price of the acquired property and totaled \$0.8

million, \$0.1 million and \$0.2 million in 2007, 2006 and 2005, respectively. Future amounts receivable through 2009 total \$0.1 million unless the space is leased during the period in which case the payments cease.

Note 8. Redevelopment Activity

Glendale Mall

In April 2007, the Company announced plans to redevelop the Glendale Mall property in Indianapolis, Indiana into a 685,000 total square foot power center (renamed Glendale Town Center) that will be anchored by a new 129,000 square foot Target (non-owned) and will also include Macy's, Lowe's Home Improvement (non-owned), Staples and Kerasotes Theatre. During the period of redevelopment, approximately 335,000 square feet of space at this property is being leased by tenants that are also expected to continue to occupy space upon completion of the redevelopment.

In connection with this redevelopment, during 2007 the Company terminated a number of leases and completed the demolition of major portions of the enclosed mall area. This demolition was done in preparation for the Company to sell a 10.5 acre pad to Target Corporation. During 2007, the Company sold this pad to Target, and Target began construction of a new store. The Company is engaged as construction manager for the construction of this new store. In addition, three new small shop structures totaling approximately 20,000 square feet were constructed and partially leased during 2007.

Target is expected to open for business in the summer of 2008. In the fourth quarter of 2007, the first shop tenant and Panera Bread, occupying an outparcel, opened for business. In addition to the new Target, Panera Bread and existing anchor tenants, Glendale Town Center will also include the Indianapolis-Marion County Public Library as well as new small shop and professional office space and one additional outlet. The Company currently anticipates the remaining construction work to be completed throughout 2008 and 2009.

In connection with the redevelopment of Glendale Town Center, the Company received tax increment financing ("TIF") from the City of Indianapolis totaling approximately \$5.7 million. The net proceeds of the Company's sale of land to Target and the amount of the TIF commitment have been applied to the overall cost of the redevelopment and, accordingly, no gain or loss was recorded. The Company's overall net investment of approximately \$15 million is expected to be recoverable through projected future cash flows from the redeveloped property.

Shops at Eagle Creek

In 2005, Winn-Dixie Stores, Inc. filed for Chapter 11 bankruptcy protection to reorganize its business operations. In February 2006, Winn-Dixie announced plans to close its store at Shops at Eagle Creek in Naples, Florida but had not at that date rejected the lease at this property. In May 2006, the Company acquired the lease with Winn-Dixie in a bankruptcy auction for approximately \$0.9 million, net of receivables of approximately \$0.4 million due to the Company from Winn-Dixie. The space formerly occupied by Winn-Dixie at this property contained approximately 51,700 square feet, or approximately 68% of the total leasable square footage of the property.

The Company is currently redeveloping the space formerly occupied by Winn-Dixie at Shops at Eagle Creek in Naples, Florida into two smaller spaces. In December 2006, the Company signed a lease with Staples for approximately 25,800 square feet of the space with rent commencing in November 2007. The Company is continuing to market the remaining space for lease. The Company has also completed a number of additional renovations at the property throughout 2007 including a new roof on the Staples and remaining junior anchor spaces, new store fronts, masonry additions to the façade and columns as well as new parking lot pavement, parking bumpers and striping. This property was transitioned into the redevelopment pipeline in the fourth quarter of 2006. The Company anticipates its total investment in the redevelopment at Shops at Eagle Creek will be approximately \$4 million.

Note 9. Discontinued Operations

In December 2007, the Company sold its 176th & Meridian property, located in Seattle, Washington, for net proceeds of \$7.0 million and a gain, net of Limited Partners' interests, of \$1.6 million. The Company anticipated utilizing the proceeds from the sale to execute a like-kind exchange under Section 1031 of the Internal Revenue Code in 2008 (see subsequent event disclosure in Note 22), therefore the net proceeds of this sale were being held by an intermediary at December 31, 2007 and are classified as escrow deposits in the accompanying consolidated balance sheet.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

In December 2005, the Company sold 100% of its Mid-America Clinical Labs property for net proceeds of \$20.8 million and a gain, net of Limited Partners' interests, of \$5.5 million.

The results of the discontinued operations related to the sale of these properties were comprised of the following for the years ended December 31, 2007, 2006, and 2005:

	Year ended December 31,		
	2007	2006	2005
Rental income	\$ 446,996	\$ 433,000	\$ 2,252,367
Property operations	4,156	(2,578)	265,310
Real estate taxes	—	—	2,465
Depreciation and amortization	87,855	87,255	612,578
Total expense	92,011	84,677	880,353
Operating income	354,985	348,323	1,372,014
Interest expense	(232,011)	(248,605)	(219,584)
Limited Partners' interests in discontinued operations	(27,423)	(22,636)	(332,695)
Income from discontinued operations, net of Limited Partners' interests	95,551	77,082	819,735
Gain on sale of property	2,036,189	—	7,212,402
Limited Partners' interests in gain on sale of property	(454,070)	—	(1,687,395)
Total income from discontinued operations	\$ 1,677,670	\$ 77,082	\$ 6,344,742

Note 10. Sale of Asset

In June 2006, the Company terminated its lease with Marsh Supermarkets and subsequently sold the store at its Naperville Marketplace property to Caputo's Fresh Markets and recorded a loss on the sale of approximately \$0.8 million (approximately \$0.5 million after tax). The total proceeds from these transactions of \$14 million included a \$2.5 million note from Marsh Supermarkets with monthly installments payable through June 30, 2008, and \$2.5 million of cash received from the termination of the Company's lease with Marsh Supermarkets. As of December 31, 2007, \$0.7 million was outstanding on the note. All monthly payments on the note have been made as scheduled through March 2008. The note is guaranteed by the parent company of Marsh Supermarkets. Marsh Supermarkets at Naperville Marketplace was owned by the Company's taxable REIT subsidiary. A portion of the proceeds from this sale was used to pay off related indebtedness of approximately \$11.6 million.

Note 11. Mortgage Loans and Line of Credit

Mortgage and other indebtedness consist of the following at December 31, 2007 and 2006:

Description	Balance at December 31,	
	2007	2006
Line of credit		
Maximum borrowing level of \$200 million available at December 31, 2007 and \$150 million at December 31, 2006; interest at LIBOR + 1.25% (5.85%) at December 31, 2007 and LIBOR +	\$ 152,774,024	\$ 111,550,000

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

1.35% (6.68%) at December 31, 2006

Construction Notes Payable—Variable Rate

Generally due in monthly installments of principal and interest; maturing at various dates through 2009; interest at LIBOR+1.15%-1.85%, ranging from 5.75% to 6.45% at December 31, 2007 and interest at LIBOR+1.25%-1.75%, ranging from 6.58% to 7.08% at December 31, 2006

150,128,993 94,505,099

Mortgage Notes Payable—Fixed Rate

F-22

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

LIBOR was 4.60% and 5.33% as of December 31, 2007 and 2006, respectively.

During 2007, the Company had borrowing proceeds of \$238.9 million and repayments of \$154.5 million. For the year ended December 31, 2007, the Company had the following activity in its indebtedness:

- In January, the Company purchased approximately 10 acres of land in Naples, Florida for approximately \$6.3 million with borrowings from its then-existing secured revolving credit facility;
- In February, as further described below, the Company entered into an amended and restated four-year \$200 million unsecured revolving credit facility, replacing its then-existing secured credit facility. The new unsecured facility increased the Company's borrowing capacity from \$150 million to \$200 million, before considering either facility's expansion feature. Initial proceeds of \$118.1 million were drawn from the new unsecured facility to repay the principal amount outstanding under the then-existing secured facility and retire the secured facility;
- In February, the Company repaid the \$9.8 million outstanding balance on the variable rate loan on the Courthouse Shadows property with proceeds from its new unsecured revolving credit facility;
- In March, the Company purchased approximately 105 acres of land in Apex, North Carolina for approximately \$14.5 million with borrowings from the new unsecured revolving credit facility;
- In August, the Company purchased approximately 14 acres of land in South Elgin, Illinois for approximately \$5.9 million with borrowings from its unsecured revolving credit facility. To finance the development of this land, in September 2007 the Company borrowed approximately \$4.4 million on a variable rate construction loan with a rate of LIBOR + 1.25% that matures in December 2007;
- In September, the Company repaid \$8.0 million of the unsecured revolving credit facility using proceeds from recent land sales, loan proceeds, and available working capital;
- In November, in connection with the sale of its interest in a merchant building asset at Sandifur Plaza, the Company repaid the entire \$5.5 million outstanding balance on the variable rate loan on this property;
- In December, in connection with the sale of its 176th & Meridian property, the third party buyer assumed the entire \$4.1 million outstanding balance on the fixed rate loan on this property;
- In December, the Company placed \$9.1 million of variable rate construction debt on its Delray Marketplace property. This variable rate debt has an interest rate of LIBOR + 1.85% and matures on January 3, 2009;
- In December the Company repaid \$10.0 million of the unsecured revolving credit facility using proceeds from recent land sales, loan proceeds, and available working capital;
- In addition to the preceding activity, for the year ended December 31, 2007, the Company used proceeds from its revolving credit facility and other borrowings (exclusive of repayments) totaling approximately \$81.1 million for development, redevelopment, acquisitions and general working capital purposes; and
- The Company made scheduled principal payments totaled approximately \$2.7 million during the year ended December 31, 2007.

Unsecured Revolving Credit Facility

On February 20, 2007, the Operating Partnership entered into an amended and restated four-year \$200 million unsecured revolving credit facility with a group of lenders and Key Bank National Association, as agent (the "unsecured facility"). The Company and several of the Operating Partnership's subsidiaries are guarantors of the Operating Partnership's obligations under the unsecured facility. The unsecured facility has a maturity date of February 20, 2011, with a one-year extension option. Initial proceeds of approximately \$118 million were drawn from the unsecured facility to repay the principal amount outstanding under its then-existing secured revolving credit facility and retire the secured revolving credit facility. Borrowings under the unsecured facility bear interest at a floating interest rate of LIBOR plus 115 to 135 basis points, depending on its leverage ratio. The unsecured facility has a 0.125% to 0.20% commitment fee

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

applicable to the average daily unused amount. Subject to certain conditions, including the prior consent of the lenders, the Company has the option to increase its borrowings under the unsecured facility to a maximum of \$400 million. The unsecured facility also includes a short-term borrowing line of \$25 million with a variable interest rate. Borrowings under the short-term line may not be outstanding for more than five days.

The amount that the Company may borrow under the unsecured facility is based on the value of properties in the unencumbered property pool. The Company currently has 46 unencumbered assets, 44 of which are wholly owned and used to calculate the amount available for borrowing under the unsecured credit facility and two of which are joint venture assets. The major unencumbered assets include: Silver Glen Crossings, Glendale Town Center, King's Lake Square, Hamilton Crossing, Waterford Lakes, Eastgate Pavilion, Wal-Mart Plaza, Market Street Village, and Courthouse Shadows. As of December 31, 2007, the total amount available for borrowing under the unsecured facility was approximately \$43.7 million.

The Company's ability to borrow under the unsecured facility is subject to ongoing compliance with various restrictive covenants similar to those in its previous secured credit facility, including with respect to liens, indebtedness, investments, dividends, mergers and asset sales. In addition, the unsecured facility, like its previous secured credit facility, requires that the Company satisfy certain financial covenants, including:

- a maximum leverage ratio of 65% (or 70% in certain circumstances);
- Adjusted EBITDA (as defined in the unsecured facility) to fixed charges coverage ratio of at least 1.50 to 1;
- minimum tangible net worth (defined as Total Asset Value less Total Indebtedness) of \$300 million (plus 75% of the net proceeds of any future equity issuances);
- ratio of net operating income of unencumbered property to debt service under the unsecured facility of at least 1.50 to 1;
- minimum unencumbered property pool occupancy rate of 80%;
- ratio of floating rate indebtedness to total asset value of no more than 0.35 to 1; and
- ratio of recourse indebtedness to total asset value of no more than 0.30 to 1.

The Company was in compliance with all applicable covenants under the unsecured facility as of December 31, 2007.

Under the terms of the unsecured facility, the Company is permitted to make distributions to its shareholders of up to 95% of its funds from operations provided that no event of default exists. If an event of default exists, the Company may only make distributions sufficient to maintain its REIT status. However, the Company may not make any distributions if an event of default resulting from nonpayment or bankruptcy exists, or if its obligations under the credit facility are accelerated.

Mortgage and Construction Loans

Mortgage and construction loans are secured by certain real estate are generally due in monthly installments of interest and principal and mature over various terms through 2022.

The following table presents scheduled principal repayments on mortgage and other indebtedness. In early 2008, the Company refinanced a number of its consolidated debt instruments, and those refinancings are reflected in the table below. Refer to the footnotes of this table for details on those refinancings.

2008 ^{1, 2}	\$ 20,564,847
2009 ¹	166,783,397
2010	2,960,204
2011 ²	179,517,290
2012	38,904,933
Thereafter	236,263,476

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

	644,994,147
Unamortized Premiums	1,839,486
Total	\$ 646,833,633

-
- 1 In January and February 2008, the Company refinanced variable rate debt at a total of six of its consolidated properties and extended the maturity dates from 2008 to 2009. As a result, \$56.7 million of obligations previously due in 2008 are now due in 2009.
 - 2 In February 2008, the Company refinanced fixed rate debt at one of its properties, replacing the fixed rate with variable rate at LIBOR + 1.35% and extended the maturity date from 2008 to 2011. As a result, \$4.0 million of obligations previously due in 2008 are now due in 2011.

F-24

The carrying value of the Company's variable rate construction notes payable, line of credit and mortgage notes payable approximates their fair values. As of December 31, 2007, the fair value of fixed rate debt was approximately \$358.4 million compared to the book value of \$339.4 million. The fair value was estimated using cash flows discounted at current borrowing rates for similar instruments which ranged from 4.13% to 5.57%.

Note 12. Derivative Financial Instruments

The Company is exposed to capital market risk, including changes in interest rates. In order to manage volatility relating to interest rate risk, the Company enters into interest rate hedging transactions from time to time. The Company does not utilize derivative financial instruments for trading or speculative purposes nor does the Company currently have any derivatives that are not designated as hedges.

For the year ended December 31, 2007, the Company's hedging activity was comprised of the following activities:

- In February, a portion of the unsecured facility was hedged by an interest rate swap with a notional amount of \$25 million, a fixed interest rate of 6.17%, and matures February 18, 2011;
- In August, two of our outstanding interest rate swaps totaling \$50 million matured. These swaps were entered into during 2005 to hedge variable cash flows associated with existing variable rate debt and had a fixed interest rate of 5.28% and 5.55%;
- In August, in connection with these maturities, an additional portion of the unsecured facility was hedged by an interest rate swap with a notional amount of \$50 million, a fixed rate of 6.32%, and matures February 20, 2011;
- In August, a portion of our variable rate construction loan at Naperville Marketplace was hedged by an interest rate swap agreement with a notional amount of \$10 million, a fixed interest rate of 6.05%, and matures December 30, 2008;
- In August, a portion of the Venture's variable rate construction loan at Parkside Town Commons was hedged by an interest rate swap agreement with a notional amount of \$42 million, a fixed interest rate of 5.60% and matures March 2, 2009;
- In December, a portion of our variable rate construction loan at Beacon Hill Shopping Center was hedged by an interest rate swap agreement with a notional amount of \$11 million, a fixed interest rate of 5.13% and matures March 30, 2009;
- In December, a portion of our variable rate construction loan at Estero Town Commons was hedged by an interest rate swap agreement with a notional amount of \$17.7 million, a fixed interest rate of 5.55% and matures January 3, 2009; and
- In December, a portion of our variable rate construction loan at Tarpon Springs Plaza was hedged by an interest rate swap agreement with a notional amount of \$20 million, a fixed interest rate of 5.55% and matures January 3, 2009.

In total, at December 31, 2007, the Company had \$133.7 million of consolidated interest rate swaps outstanding. At December 31, 2007 derivatives with a fair value of \$2.9 million were included in accounts payable and accrued expense and at December 31, 2006, derivatives with a fair value of \$0.3 million were included in other assets. The change in net unrealized (loss) income for the years ended December 31, 2007, 2006 and 2005 was \$(3.4) million, \$(0.1) million and \$0.4 million, respectively, and is recorded in shareholders' equity as other comprehensive income (loss). We expect

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

approximately \$1.2 million to be an offset to interest expense as the hedged forecasted interest payments occur. No hedge ineffectiveness on cash flow hedges was recognized during any period presented. Amounts reported in accumulated other comprehensive income related to derivatives will be reclassified to earnings over time as the hedged items are recognized in earnings during 2008.

The following sets forth comprehensive income for the years ended December 31, 2007, 2006, and 2005:

	Year ended December 31,		
	2007	2006	2005
Net income	\$ 13,522,683	\$ 10,179,650	\$ 13,435,840
Other comprehensive (loss) income ¹	(3,420,022)	(129,517)	427,057
Comprehensive income	\$ 10,102,661	\$ 10,050,133	\$ 13,862,897

¹ Reflects the net change in the fair value of derivative instruments accounted for as cash flow hedges.

Note 13. Lease Information

Tenant Leases

The Company receives rental income from the leasing of retail and commercial space under operating leases. The leases generally provide for certain increases in base rent, reimbursement for certain operating expenses and may require tenants to pay contingent rentals to the extent their sales exceed a defined threshold. The weighted average initial term of the lease agreements is approximately 17 years. During the periods ended December 31, 2007, 2006, and 2005, the Company earned percentage rent of \$1.1 million, \$1.2 million, and \$0.9 million, respectively, including the Company's joint venture partners' share of \$20,580, \$32,840, and \$55,790, respectively.

As of December 31, 2007, future minimum rentals to be received under non-cancelable operating leases for each of the next five years and thereafter, excluding tenant reimbursements of operating expenses and percentage rent based on sales volume, are as follows:

2008	\$ 67,709,665
2009	65,932,655
2010	61,261,382
2011	55,274,242
2012	48,582,896
Thereafter	255,904,141

Total	\$ 554,664,981

Lease Commitments

The Company is obligated under six ground leases for approximately 35 acres of land with three landowners which require fixed annual rent. The expiration dates of the initial terms of these ground leases range from 2012 to 2027. These leases have five to ten year extension options ranging in total from 20 to 30 years.

Ground lease expense incurred by the Company on these operating leases for each of the years ended December 31, 2007, 2006, and 2005 was \$0.9 million. Future minimum lease payments due under such leases for the next five years ending December 31 and thereafter are as follows:

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

		<hr/>
Total	\$	15,991,045
		<hr/>

F-26

Note 14. Shareholders' Equity and Limited Partner Interests

Common Equity

In May 2007, the Company issued 30,000 common shares under its previously filed registration statement for net offering proceeds of approximately \$0.5 million.

On October 11, 2006, the Company established a Dividend Reinvestment and Share Purchase Plan (the "Dividend Reinvestment Plan"). The Dividend Reinvestment Plan offers investors a dividend reinvestment component to invest all or a portion of the dividends on their common shares, or cash distributions on their units in the Operating Partnership, in additional common shares as well as a direct share purchase component which permits Dividend Reinvestment Plan participants and new investors to purchase common shares by making optional cash investments with certain restrictions.

On October 3, 2005, the Company completed an offering of 8,500,000 common shares at a price of \$15.01 per share for gross proceeds of approximately \$127.6 million. On October 28, 2005, the underwriters of the offering exercised a portion of their overallotment option and purchased an additional 900,000 common shares at the public offering price of \$15.01 per share, which resulted in additional gross proceeds of approximately \$13.5 million. The Company used the net proceeds of this offering of approximately \$133.2 million, after deducting underwriting discounts, commissions and other expenses to repay outstanding indebtedness, acquire an interest in a property and for general corporate purposes.

On July 29, 2005, the Company contributed approximately \$4.0 million and 122,733 units of the Operating Partnership valued at approximately \$1.9 million for a 50% interest in a joint venture that owned 82 acres of undeveloped land. Beacon Hill Shopping Center, Phase I consists of 36 acres and was developed into a 108,600 square foot (including 77,400 square feet of non-owned anchor space) neighborhood shopping center. Beacon Hill Phase II is currently being developed into an estimated 19,160 square foot neighborhood shopping center.

On March 31, 2005, the Company acquired 32.7 acres of undeveloped land in Naples, Florida (Tarpon Springs Plaza) at a price equal to Messrs. Al Kite, John Kite, Paul Kite and Tom McGowan's net equity in the property at cost plus the assumption of certain liabilities and the obligation to repay certain indebtedness. The equity portion of the purchase price was paid through the issuance of 214,049 units of the Operating Partnership valued at approximately \$3.1 million. On May 18, 2006, all 214,049 units of the Operating Partnership issued in connection with the Tarpon Springs Plaza acquisition were converted to common shares.

Limited Partner Interests

Concurrent with the Company's IPO and related formation transactions, certain individuals received units of the Operating Partnership in exchange for their interests in certain properties. Limited Partners were granted the right to redeem Operating Partnership units on or after August 16, 2005 for cash in an amount equal to the market value of an equivalent number of common shares at the time of redemption. The Company also has the right to redeem the Operating Partnership units directly from the limited partner in exchange for either cash in the amount specified above or a number of common shares equal to the number of units being redeemed.

Note 15. Segment Information

The Company's operations are aligned into two business segments: (i) real estate operation and development and (ii) construction and advisory services. The Company's segments operate only in the United States. Combined segment data of the Company for the years ended December 31, 2007, 2006 and 2005 are as follows:

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Note 16. Quarterly Financial Data (Unaudited)

Presented below is a summary of the consolidated quarterly financial data for the years ended December 31, 2007 and 2006. Certain prior period amounts have been reclassified from previously disclosed amounts to conform to the current presentation including revenues and expenses reflecting the sale of 176th & Meridian. Such reclassifications had no effect on net income previously reported.

F-29

Note 17. Commitments and Contingencies

The Company is not subject to any material litigation nor, to management's knowledge, is any material litigation currently threatened against the Company other than routine litigation, claims and administrative proceedings arising in the ordinary course of business. Management believes that such routine litigation, claims and administrative proceedings will not have a material adverse impact on the Company's consolidated financial position or consolidated results of operations.

As of December 31, 2007, the Company had outstanding letters of credit totaling \$6.2 million. At that date, there were no amounts advanced against these instruments.

Joint venture debt is the liability of the joint venture and is typically secured by the joint venture property and has limited recourse to us. As of December 31, 2007, the Company's share of joint venture indebtedness was approximately \$28.1 million.

Note 18. Employee 401(k) Plan

The Company maintains a 401(k) plan for employees under which it matches 100% of the employee's contribution up to 3% of the employee's salary and 50% of the employee's contribution up to 5% of the employee's salary, not to exceed an annual maximum of \$15,000. Prior to January 1, 2006, this plan matched 25% of the employee's contribution up to 3% of the employee's salary not to exceed an annual maximum of \$750. The Company contributed to this plan \$270,660, \$220,800, and \$30,300 for the years ended December 31, 2007, 2006, and 2005, respectively.

Note 19. Transactions With Related Parties

The following information discusses the Company's significant transactions with related parties, all of which have been approved by the independent members of the Board of Trustees.

Common costs for management, leasing, development, consulting, accounting, legal, marketing, and management information systems are allocated to the various Company entities and certain other entities owned by the Principals and not included as part of the Company ("Excluded Entities"). Common payroll and other related costs are allocated proportionately based on an estimate of time spent on behalf of each entity. Management believes the methodologies and assumptions used are reasonable. Common costs recovered from the Excluded Entities in 2006 were \$0.1 million. No amounts were allocated to the Company from the Excluded Entities in 2007 and 2005.

The Company received \$0.1 million, \$0.2 million and \$0.4 million of rental income from the Excluded Entities for the years ended December 31, 2007, 2006, and 2005, respectively. In addition, rental income receivable from these Excluded Entities as of December 31, 2007 and 2006 was approximately \$7,600 and \$0.1 million, respectively. All leases with the Excluded Entities were terminated as of January 1, 2008.

In June 2006, Al Kite, Chairman of the Company, John Kite, Chief Executive Officer and President of the Company, and Paul Kite, son of Al Kite and brother of John Kite, sold their interests in Kite, Inc. (formerly one of the Excluded Entities) to a third party and are no longer affiliated with Kite, Inc. Prior to the sale, the Company received subcontractor interior construction services totaling \$797,460, and \$42,650 from Kite, Inc. during 2005 and 2006, respectively.

In 2006, the Company entered into an agreement to reimburse one of the Excluded Entities, KMI Management, LLC, for use of an airplane owned by that Excluded Entity. This agreement allows for the use of the airplane for business related travel for an established reimbursement amount per hour. For the each of the years ended December 31, 2007 and 2006, the Company reimbursed the Excluded Entity \$0.2 million for the use of the airplane, of which approximately \$76,000 and \$32,600 was outstanding and due to the Excluded Entity as of December 31, 2007 and 2006, respectively.

On March 31, 2005, the Company acquired 32.7 acres of undeveloped land in Naples, Florida (Tarpon Springs Plaza) at a price equal to Al Kite, John Kite, Paul Kite and Tom McGowan's net equity in the property at cost plus the assumption of certain liabilities and the obligation to repay certain indebtedness. The equity portion of the purchase price was paid through the issuance of 214,049 units of the Operating Partnership valued at approximately \$3.1 million. On May 18, 2006, all 214,049 units of the Operating Partnership issued in connection with the Tarpon Springs Plaza acquisition were converted to common shares.

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

In August 2004, the Company entered into a consulting agreement with Paul Kite which expired December 31, 2007. Under the agreement, Paul Kite assisted the Company in identifying potential real estate development, construction, acquisition and/or operation opportunities that are consistent with the nature of the business of the Company. As compensation for such services, the Company paid Paul Kite \$150,000 per year.

In 2007, the Company entered into an agreement to reimburse Paul Kite for use of an airplane owned by him. This agreement allows for the use of the airplane for business related travel for an established reimbursement amount per hour plus applicable taxes. During 2007, expense reimbursement to Paul Kite was approximately \$12,100 for use of the airplane. This amount was outstanding and due to Paul Kite as of December 31, 2007.

In addition, in 2005, the Company entered into several contracts and arrangements with Circle Block Partners, LLC, the owner of the Conrad hotel located in Indianapolis and one of the Excluded Entities:

- the Company received payments from Circle Block under fee-based construction management contracts totaling \$0.3 million in 2007, \$0.8 million in 2006 and \$7.3 million in 2005;
- Circle Block paid the Company fees of \$0.6 million in 2006 for arranging debt financing in connection with Circle Block construction projects; and
- Circle Block paid the Company an annual fee of \$0.1 million in both 2007 and 2006 for investment management services provided to Circle Block in connection with the Conrad's hotel operations.

Note 20. Recent Accounting Pronouncements

In December 2007, the Financial Accounting Standards Board ("FASB") issued SFAS 160 "Non-controlling Interests in Consolidated Financial Statements." SFAS No. 160 clarifies that a noncontrolling interest in a subsidiary should be reported as equity in the consolidated financial statements. The calculation of earnings per share will continue to be based on income amounts attributable to the parent. SFAS 160 is effective for fiscal years beginning after December 15, 2008. The Company is currently evaluating and assessing the impact of this interpretation, if any, on the Company's financial position or results of operations.

In December 2007, the FASB issued SFAS No. 141R "Business Combinations – Revised." SFAS No. 141(R) requires an acquirer to measure the identifiable assets acquired, the liabilities assumed and any noncontrolling interest in the acquiree at their fair values on the acquisition date, with goodwill being the excess value over the net identifiable assets acquired. SFAS 141R requires an acquirer to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date, with limited exceptions. SFAS 141R will modify SFAS 141's cost-allocation process, which currently requires the cost of an acquisition to be allocated to the individual assets acquired and liabilities assumed based on their estimated fair values. SFAS 141R requires the costs of an acquisition to be recognized in the period incurred. SFAS 141R is effective for fiscal years beginning after December 15, 2008. The Company is currently evaluating and assessing the impact of this interpretation, if any, on the Company's financial position or results of operations.

In September 2007, the Emerging Issues Task Force ("EITF") issued EITF No. 07-6, "Accounting for the Sale of Real Estate Subject to the Requirements of FASB Statement No. 66, *Accounting for Sales of Real Estate*, When the Agreement Includes a Buy-Sell Clause." EITF No. 07-6 clarifies that a buy-sell clause in a real estate sale may constitute a prohibited form of continuing involvement that precludes partial sales treatment if the buyer cannot act independently from the seller or if the seller is economically compelled to reacquire the other investor's interest in the jointly owned entity. This issue is effective for new arrangements entered into in fiscal years beginning after December 15, 2007. The Company does not believe the adoption of EITF No. 07-6 will have a material impact on the Company's financial position or results of operations.

In February 2007, the FASB issued SFAS No. 159 "The Fair Value Option for Financial Assets and Financial Liabilities." SFAS No. 159 permits companies to choose to measure many financial instruments and certain other items at fair value. The objective of SFAS No. 159 is to improve financial reporting by providing companies with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS No. 159 does not permit fair value measurement for certain assets and liabilities, including consolidated subsidiaries, interests in VIEs, and assets and liabilities recognized as leases under SFAS No. 13 "Accounting for Leases". SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Company does not believe the adoption of SFAS No. 159 will have a material impact on the Company's financial position or results of operations.

In September 2006, the FASB issued SFAS No. 157 "Fair Value Measurements." SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosures about fair value measurements. SFAS No. 157 does not require any new fair value measurements in addition to those that are already required under other accounting pronouncements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. The Company does not believe the adoption of SFAS No. 157 will have a material impact on the Company's financial position or results of operations.

In July 2006, the FASB issued FASB Interpretation No. 48 ("FIN No. 48"), "Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109, Accounting for Income Taxes." FIN No. 48 clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN No. 48 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN No. 48 was effective for fiscal years beginning after December 15, 2006. The adoption of this Statement as of January 1, 2007 did not have a material impact on the Company's financial condition or results of operations.

Note 21. Supplemental Schedule of Non-Cash Investing/Financing Activities

The following schedule summarizes the non-cash investing and financing activities of the Company for the years ended December 31, 2007, 2006 and 2005:

	Year Ended December 31,		
	2007	2006	2005
Third party assumption of fixed rate debt in connection with the sale of 176 th & Meridian	\$ 4,103,508	\$ —	\$ —
Contribution of variable rate debt to unconsolidated joint venture	—	38,526,393	—
Acquisition of real estate interests by assumption of mortgage debt	—	—	16,168,557
Acquisition of real estate interests by issuance of Operating Partnership units	—	—	5,054,818

Note 22. Subsequent Events

Refinancing of Variable Rate Debt

In January and February 2008, the Company refinanced variable rate debt at a total of six of its consolidated properties (Fishers Station, Bayport Commons, Bridgewater Marketplace, Gateway Shopping Center, Red Bank Commons, and South Elgin Commons) and extended the maturity dates from 2008 to 2009. As a result, \$56.7 million, or approximately 70%, of consolidated debt obligations previously due in 2008 are now due in 2009. In addition, in February 2008, the Company refinanced fixed rate debt at its Indiana State Motor Pool commercial property, replacing the fixed rate with a variable rate of LIBOR + 1.35% and extended the maturity date from March 24, 2008 to November 4, 2011. As a result, \$4.0 million, or approximately 5%, of debt obligations previously due in 2008 are now due in 2011.

Also in January 2008, the Venture's variable rate construction loan at Parkside Town Commons was refinanced and the maturity date was extended from 2008 to 2009. As a result, \$49.8 million (\$19.9 million is Company's share), or approximately 99%, of unconsolidated debt obligations previously due in 2008 are now due in 2009.

Purchase of Rivers Edge

In February 2008, the Company purchased Rivers Edge, an approximately 111,000 square foot shopping center located in Indianapolis, Indiana for \$18.3 million. The Company utilized approximately \$2.7 million of proceeds from the November 2007 sale of its 176th & Meridian property in a like-kind exchange under Section 1031 of the Internal Revenue

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K

Code. The remaining purchase price of \$15.6 million was funded initially through a draw on the Company's unsecured credit facility and subsequently refinanced with a variable rate debt instrument.

Dividend Declaration

On February 5, 2008, the Company's Board of Trustees declared a cash distribution of \$0.205 per common share for the first quarter of 2008. Simultaneously, the Company's Board of Trustees declared a cash distribution of \$0.205 per Operating Partnership unit for the same period. These distributions are payable on April 17, 2008 to shareholders and unitholders of record as of April 7, 2008.

Purchase of Minority Interest at Bolton Plaza

On February 29, 2008, the Company acquired the remaining 15% economic interest from its joint venture partner in Bolton Plaza in Jacksonville, Florida for \$0.3 million.

* This is an Unencumbered Property Pool used in calculating the Company's line of credit borrowing base with Keybank, N.A., Wachovia Bank, N.A., LaSalle Bank, N.A., and Bank of America, N.A. Approximately \$152.8 million was outstanding under this line of credit as of December 31, 2007.

** This property partially opened during 2006 or 2007.

*** This category generally includes land held for development. The Company also has certain additional land parcels at its development and operating properties, which amounts are included elsewhere in this table.

Kite Realty Group Trust
Notes to Schedule III
Consolidated Real Estate and Accumulated Depreciation

Note 1. Reconciliation of Investment Properties

The changes in investment properties of the Company and its Predecessor for the years ended December 31, 2007, 2006, and 2005 are as follows:

	2007	2006	2005
Balance, beginning of year	\$ 950,858,709	\$ 774,884,021	\$ 539,625,096
Acquisitions	—	101,941,430	198,104,896
Improvements	124,043,706	97,017,271	52,217,273
Disposals	(29,286,571)	(22,984,013)	(15,063,244)
Balance, end of year	\$ 1,045,615,844	\$ 950,858,709	\$ 774,884,021

The unaudited aggregate cost of investment properties for federal tax purposes as of December 31, 2007 was \$982.7 million.

Note 2. Reconciliation of Accumulated Depreciation

The changes in accumulated depreciation of the Company and its Predecessor for the years ended December 31, 2007, 2006, and 2005 are as follows:

	2007	2006	2005
Balance, beginning of year	\$ 60,554,974	\$ 40,051,477	\$ 23,375,292
Acquisitions	—	—	—
Depreciation and amortization expense	28,028,737	26,617,564	19,199,756
Disposals	(6,715,106)	(6,114,067)	(2,523,571)
Balance, end of year	\$ 81,868,605	\$ 60,554,974	\$ 40,051,477

Depreciation of investment properties reflected in the statements of operations is calculated over the estimated original lives of the assets as follows:

Buildings	35 years
Building improvements	10-35 years
Tenant improvements	Term of related lease
Furniture and Fixtures	5-10 years

Edgar Filing: KITE REALTY GROUP TRUST - Form 10-K
