NOTE ABOUT FORWARD LOOKING STATEMENTS

This Annual Report on Form 10 contains forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 relating to the development of the Company's products and services and future operation results, including statements regarding the Company that are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected. The words "believe," "expect," "anticipate," "intend," variations of such words, and similar expressions, identify forward looking statements, but their absence does not mean that the statement is not forward looking. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and assumptions that are difficult to predict. Factors that could affect the Company's actual results include the progress and costs of the development of products and services and the timing of the market acceptance. Forward looking statements may appear throughout this report, including without limitation, the following sections: Item 1 "Business," and Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations." We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements, except as required by law. Given these risk and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements.

As used herein, "NetSol," "we", "our," and similar terms include NetSol Technologies, Inc. and its subsidiaries, unless the context indicates otherwise.

PART 1

ITEM 1 - BUSINESS

GENERAL

NetSol Technologies, Inc. (NasdaqCM: NTWK) (NasdaqDubai: NTWK) is a worldwide provider of IT and enterprise application solutions, NetSol Technologies, Inc. executes its mission of focusing technology on the operational needs of its clients. NetSol's services and solutions enable businesses to streamline their operations and compete more effectively.

The Company is organized into two main revenue areas, consisting of enterprise solutions – NetSol Financial Suite (NFS™) – for the global financing, leasing and lending industry, and a portfolio of managed services, including customized application development, systems integration, and business process engineering. In addition, NetSol's solutions portfolio includes the smartOCI®, e-Procurement search engine for SAP SRM users.

NetSol's clients include Dow-Jones 30 Industrials and Fortune 500 manufacturers and financial institutions, global vehicle manufacturers, and enterprise technology providers, all of which are serviced by NetSol delivery locations across the globe.

Founded in 1997, NetSol is headquartered in Calabasas, California. While the Company follows a global strategy for sales and delivery of its portfolio of solutions and services, it continues to maintain regional offices in the San Francisco Bay Area, for North America; the London Metropolitan area for Europe; and Bangkok, Thailand, Beijing, China and Lahore, Pakistan for Asia Pacific. The Company continues to maintain services, solutions and/or sales specific offices in Australia, China, Thailand, and Pakistan and through alliances in the Kingdom of Saudi Arabia and Japan.

OUR BUSINESS

Corporate Highlights

A few of NetSol's major successes achieved in 2011-2012 were:

- NetSol Technologies Pakistan signed multi-million dollar agreements to implement NFS™ solution, for a major European Bank in China and, an automobile manufacturer in Thailand.
- NetSol Technologies (Beijing) Co. Limited signed an agreement to license and implement NFS™ solution with Chongqing Auto Finance Co., Ltd.
 - NTPK Thailand signed a consultancy and services agreement for a premier auto manufacturer in Thailand.
- First NextGen – NFS™ went live with Thailand's Kiatnakin, a leading Bank, and a leading provider of financial services to commercial and corporate sectors in Thailand.
- NTPK Thailand and NEC India signed a partnership agreement to jointly develop and support business in the asset finance and leasing industry in India, as well as other markets in the Asia Pacific region.
- NetSol Technologies and ABeam Consulting Ltd. entered into a strategic partnership agreement to jointly develop and support business in the asset finance and leasing industry in Japan, as well as cooperating in other key markets to serve Japanese corporations operating throughout the Asia Pacific region.
- Atheeb NetSol, the Saudi Arabia joint venture of NetSol Technologies, Inc., signed four new agreements in the areas of cyber security, application development and consulting.
 - NTNA signed an enhancement project for an auto finance captive subsidiary of a leading auto manufacturer.
- Vroozi, Inc. signed a large SRM 7.0 project implementation with long term care service provider in the United States.
- Vroozi, Inc. developed a 'Big Data' loader for the smartOCI® Catalog Manager which allows large supplier catalog files to be loaded via a secure web connection.
- Vroozi, Inc., has signed an agreement with a top U.S. media company to implement a full B2B e-commerce search engine suite, including the smartOCI® Search Engine, Catalog Manager and Supplier Marketplace.
- A leading U.S. chipmaker has signed an agreement to implement smartOCI® search engine in its SAP e-Procurement environment.
- NTE jointly acquired United Kingdom-based Virtual Lease Services, Ltd. ("VLS"), together with Investec Asset Finance Plc.
- Signed a multi-million dollar agreement to implement the NFS™ solution, including its retail platforms, to a European Automobile manufacturer for its Malaysian operations.
 - Won a major contract in the area of 'Information Security' with a leading Telecom in Pakistan.

Company Business Model

In today's highly competitive marketplace, business executives with labor or services-centric budgetary responsibilities are not just encouraged but, in fact, obliged to engage in "Make or Buy" decision process when contemplating how to support and staff new development, testing, services support and delivery activities. The Company business offerings are aligned as a BestShoring® solutions strategy. Simply defined, BestShoring® is NetSol Technologies' ability to draw upon its global resource base and construct the best possible solution and price for each and every customer. Unlike traditional outsourcing offshore vendors, NetSol draws upon an international workforce and delivery capability to ensure a "BestShoring® delivers BestSolution™" approach.

NetSol combines domain expertise with competitive cost blended rates from its "center of excellence" delivery center in Pakistan and other global centers located in the USA, UK, Thailand and China, Our model also provides localized programs in key markets and project management while minimizing any implementation risk associated with a single service center. Our BestShoring® approach, which we consider a unique and cost effective global development model, is leading the way, providing value added solutions for Global Business Services™ through a win-win

partnership, rather than the traditional outsourced vendor framework. NetSol currently has locations in Bangkok, Beijing, Lahore, the London metropolitan area, the San Francisco Bay Area, and partners in Riyadh. This provides NetSol customers with the optimum balance of subject matter expertise, in-depth domain experience, and cost effective labor, all merged into a scalable solution. In this way, “BestShoring® delivers BestSolution™”.

Information technology services are valuable only if they fulfill the business strategy and project objectives set forth by the customer. NetSol's expert consultants have the technical knowledge and business experience to ensure the optimization of the development process in alignment with basic business principles. The Company offers a broad array of professional services to clients in the global commercial markets and specializes in the application of advanced and complex IT enterprise solutions to achieve its customers' strategic objectives. Its service offerings include IT consulting & services; business intelligence, information security, independent system review, outsourcing services and software process improvement consulting; maintenance and support of existing systems; and, project management.

In addition to services, our product offerings are fashioned to provide a Best Product for Best Solution model. Our offerings include our flagship global solution, NetSol Financial Suite (NFS™). NFS™, a robust suite of five software applications, is an end-to-end solution for the lease and finance industry covering the complete leasing and finance cycle starting from quotation origination through end of contract. The five software applications under NFS™ have been designed and developed for a highly flexible setting and are capable of dealing with multinational, multi-company, multi-asset, multi-lingual, multi-distributor and multi-manufacturer environments. Each application is a complete system in itself and can be used independently to address specific sub-domains of the leasing/financing cycle. NFS™ is a result of more than eight years of effort resulting in over 60 modules grouped in five comprehensive applications. When used together, they fully automate the entire leasing / financing cycle.

NFS also includes LeasePak. LeasePak provides the leasing technology industry with the development of Web-enabled and Web-based tools to deliver superior customer service, reduce operating costs, streamline the lease management lifecycle, and support collaboration with origination channel and asset partners. LeasePak can be configured to run on HP-UX, SUN/Solaris or Linux, as well as for Oracle and Sybase users. In terms of scalability, NetSol Technologies North America offers the basic solutions as well as a collection of highly specialized add on modules for systems, portfolios and accrual methods for virtually all sizes and complexities of operations. These solutions provide the equipment and vehicle leasing infrastructure at leading Fortune 500 banks and manufacturers, as well as for some of the industry's leading independent lessors.

NetSol North America, Inc. has recently launched its Infrastructure as a Service (IaaS) business line. In its updated public cloud forecast in June 2012, Gartner estimated that IaaS was the fastest growing cloud segment with a projected CAGR of 41.7% and exceeding a \$20 billion global market by 2016. NetSol's IaaS offering will differentiate itself from the competition by providing much enhanced performance at a lower cost point. At an elastic cloud price, management believes these customers will experience performance, reliability and speed usually associated with a highly scalable private cloud.

Our product offerings and services also include: LeaseSoft Portals and Modules through our European operations; LeasePak 6.0b of our NFS™ product suite; enterprise wide information systems, such as or LRMIS, MTMIS, business intelligence and information security services.

NetSol's IP smartOCI® now part of newly formed division Vroozi, Inc., a wholly owned subsidiary of NTI, develops innovative e-commerce solutions for all business sizes and industry verticals which help companies search, source, negotiate, and order goods and services from suppliers electronically optimizing organization's procurement and supply chain operations. Vroozi's business to business search engine, collaborative commerce, and electronic marketplace applications are deployed On Demand and can integrate seamlessly with major ERP vendor systems such as SAP or deployed independently on the Internet.

Vroozi's first product to market is smartOCI®; a new search engine technology and buy-side content marketplace provider which enables corporate buyers and shoppers a simple and intuitive user interface to search multiple supplier catalogs simultaneously within the SAP procurement application. The smartOCI® technology was officially released to the market in 2011 at the SAP SAPHIRE Conference in Orlando, Florida, targeting approximately 15,000+ SAP

customers and has strengthened NetSol's presence in the global SAP Services market.

NetSol global operation is broken down into three regions: North America, Europe and Asia Pacific. All of the subsidiaries are seamlessly integrated to function effectively in terms of global delivery capabilities, cross selling to multinational captives' finance companies, centralized marketing organization and a network of employees connected across the globe to support local and global customers and partners.

Our Services

Global Business Services ("GBS")

Netsol's GBS include IT consulting & services; business intelligence, independent system review (ISR); information security, outsourcing services and software process improvement consulting; maintenance and support of existing systems; and project management.

As part of the Company's GBS strategy, each subsidiary adheres to the BestShoring® provides BestSolutions™ model. Each subsidiary expounds on that model by providing IT Consulting services unique to their client base. The development of solutions for clients has resulted in the development of vertical offerings catering to various industries and accordingly, diversifying NetSol's offerings.

Business Intelligence (BI) solution providers must have both the capability to service BI customers using its own resources but also service the customers' international affiliates. Typical BI projects run into several years of phased implementation and rely on expensive international resources with a very restricted and limited accessibility. Our strategy is simple; we identify the business needs of our potential customer and involve our industry domain experts directly with business managers at the client side. This results in ownership of the project with the business group rather than the IT group which is involved in the overall initiative only from a support and facilitation standpoint.

Independent System Review (ISR) delivers high quality independent review of software systems running, or under deployment, at client sites. NetSol leverages its rich quality assurance experience in customization and implementation, as well as application development in finance and other domains. It employs a range of automated quality assurance tools in providing independent assurance to customers regarding the reliability and performance of their new software systems. The actual testing may be performed both onsite and offsite for the clients.

An ever growing awareness of highly publicized IT Security problems, coupled with greater demands by international business partners, has led the movement of companies world-wide towards compliance with internationally recognized Information Security Systems standards. Information Systems Security or Information Assurance applies to all systems in all departments of an organization whether on a computer disk, paper or in the heads of employees. Information Security services is provided by NetSol's Infosec Unit. This unit provides services to secure all corporate information and its supporting processes, systems and networks. NetSol's Information Security Services is a group of vendor-neutral, dedicated security consultants with real-life field experience. The Infosec group utilizes industry standard security best practices coupled with best-of-breed products to deliver proven and robust Information Security Management Systems (ISMS). INFOSEC services include: managed security services; BS-7799/ISO 27001 Consultancy, Information Security Assessment, Penetration Testing and Vulnerability Assessment; Disaster Recovery Planning; and, Secure Network Design.

Software Process Improvement Consulting provides quality engineering and related consulting services to technology companies. The services include: consultancy, facilitation services and implementation support for CMMI appraisal, all of these activities are broadly developed under the guidelines of SEI based CMMI processes as well as the information security consulting practices.

Additional services and products are provided to meet local needs within the operating regions.

Our Products

NetSol Financial Suite™

The Company develops advanced software systems for the lease and finance industries. Like our services, our product offerings are fashioned to provide a Best Product for Best Solution™ model. Our offerings include our flagship global solution, NetSol Financial Suite (“NFS”)™, a robust suite of five software applications, is an end-to-end solution for the lease and finance industry covering the complete leasing and finance cycle starting from quotation origination through end of contract. The Company’s over eight years of effort has resulted in over 60 modules grouped in five comprehensive applications. The five software applications under NFS™ have been designed and developed for a highly flexible setting and are capable of dealing with multinational, multi-company, multi-asset, multi-lingual, multi-distributor and multi-manufacturer environments. Each application is a complete system in itself and can be used independently to address specific sub-domains of the leasing/financing cycle. When used together, they fully automate the entire leasing / financing cycle.

The constituent software applications are:

- **Point of Sale (POS).** POS is a front office processing system for companies in the financial sector. It provides a quotation system which also incorporates a simulation for all kinds of financial products using a built-in loan calculator. POS includes a proposal module which gathers all the required information from the customer in order to create finance or leasing contracts. POS boasts a document management module which manages all the documents required in making the contract, such as bank statements and identity information. POS incorporates a workflow engine that ensures smooth transition of tasks and streamlines the processes. It can work as an independent web-based system for all types of financial institutions including, but not limited to banks and finance companies.
- **Credit Application Processing System (CAP).** CAP provides companies in the financial sector an environment to handle the incoming credit applications from dealers, agents, brokers and the direct sales force. LeaseSoft. CAP automatically gathers information from different interfaces like credit rating agencies, evaluation guides, and contract management systems and scores the applications against defined scorecards. This automated workflow permits the credit team members to make their decisions more quickly and accurately. Implementation of CAP dramatically reduces application-processing time in turn resulting in greater revenue through higher number of applications finalized in a given time. CAP reduces the probability of a wrong decision thus, again, providing a concrete business value through minimizing the bad debt portfolio. CAP is a database independent online system developed in Microsoft's .Net framework. It can be run from any PC with normal specifications, which is a key benefit for clients.
- **Contract Management System (CMS).** CMS provides comprehensive business functionality that enables its users to effectively and smoothly manage and maintain a contract with the most comprehensive details throughout its life cycle. It provides interfaces with company banks and accounting systems. CMS effectively maintains details of all business partners that do business with the company including, but not limited to, customers, dealers, debtors, guarantors, insurance companies and banks. Developed with the input of a number of leasing consultants, this product represents a complete lease and finance product. NetSol’s CMS provides business functionality for all areas that are required to run an effective, efficient and customer oriented lease and finance business.
- **Wholesale Finance System (WFS).** WFS automates and manages the floor plan/bailment activities of dealerships through a finance company. The design of the system is based on the concept of one asset/one loan to facilitate asset tracking and costing. The system covers credit limit, payment of loan, billing and settlement, stock auditing, online dealer and auditor access, and ultimately the pay-off functions. A separate online add-on module, Dealer & Auditor Access System (DAS), allows dealers to view their outstanding limits and current asset-wise balances through an interface with the finance company. WFS consists of the following four modules: Credit Request Management Module (CRM); Loan Management Module (LMS); Stock Auditing Module (SAS); and Billing

& Settlement Module (B&S).

- Fleet Management System (FMS). FMS is designed to efficiently handle all fleet management needs. FMS is easily integrated with CMS and WFS as well as with any third party contract management system to ensure a single comprehensive system. FMS' key features include: a detailed tracking information on every driver and vehicle; customizable reports; periodic reporting on fleet related aspects; internet based access to information; integration with third party software; and, linkage to GPS for real time tracking.

5

Implementation Process

Implementation is a process which starts after the delivery of license to the customer. NetSol signs separate agreements for services, if required by the customers, which is independent of the license agreement. The implementation process can span from three to six months. NetSol's software is a pre-developed solution for the leasing and finance industry. Customers with in-house abilities tend to take care of the implementation with their internal resources. The implementation process includes related software services such as configuration, data migration and any other additional third party interfaces. After the delivery of the license, customers seek enhancements and additions to improve their business processes. NetSol charges these efforts in man-day rate. If required, the services also involve migration of data from client's older system to the NFS™ database. NFS™ provides mission critical software solutions, and the entire business operations of our clients hinge on successful performance of the system. Hence in the early days after going live, NetSol consultants remain at the client site to assist the company in smooth operations. After this phase, the regular maintenance and support services phase for the implemented software begins. In addition to the daily rate paid by the customer for each consultant, the customer also pays for all the transportation related expenses, boarding of the consultants, and a living allowance. NetSol's involvement in all of the above steps is priced to bring value to our customers and increase our profitability from our interactions.

Pricing and Revenue Streams

The Company's NFS™ revenue streams occur through the following three main areas: product licensing, implementation related services, and maintenance and support related services. License fees can vary generally between \$100,000 for SaaS minimal modules to over \$2,000,000 for more robust multiple module implementations. There are various attributes which determine the level of complexity, a few of which are: number of contracts; size of the portfolio; business strategy of the customer; number of business users; and branch network of the customer. The Company recognizes revenue from license contracts without major customization when a non-cancelable, non-contingent license agreement has been signed, delivery of the software has occurred, the fee is fixed or determinable, and collectability is probable. However, revenue from sale of licenses with major customization, modification, and development is recognized on a percent of completion basis. Implementation related services, including configuration, data migration and third party interfaces are recognized in accordance with the percentage of completion method. Maintenance and support related services are then provided on a continued basis. Revenue from software services includes fixed price contracts and is recognized in accordance with the percentage of completion method using the output measure of "Unit of Work Completed." The annual maintenance fee, which usually is an agreed upon percentage of overall monetary value of the license, then becomes an ongoing revenue stream realized on yearly basis.

Growth Prospects for NFS™

Growth prospects for NFS™ are linked to the maturing of the product portfolio and its growing customer base across different geographic and product markets. With a next generation solution ready for testing at customer sites, NetSol is eyeing key international markets for growth in sales. Its sales strategy now carefully balances expansion into new geographic markets, including North and South Americas, and further penetration of our already leading position in Asia Pacific.

Growth in North America is expected to come from the huge potential market for replacement of legacy systems. The next generation version of NFS™ is aimed at providing a highly flexible solution based on latest technology and advanced architecture for the North American customers looking to replace their legacy systems.

On the other hand, growth in NetSol's traditionally strong base in Asia Pacific is expected through diversification across market segments, to include new customers in related banking and commercial lending areas. At the same time,

the existing customer base is tapped for increased service and maintenance revenues by offering enhanced features and new solutions to emerging customer needs.

NetSol has been working for nearly two years to build its name in the Japanese market for our core business. The recently announced alliance with Abeam Consulting, a major consulting group in Japan, signifies our growth positioning in a very rich and mature market. The captive auto finance and banking sectors offer hosts of new opportunities for NetSol's 'niche' product line in the large Japanese market.

In China, NetSol is the de facto leader in the leasing and finance enterprise solution domain. With this position, NetSol continues to enjoy demand for the current NFS™ solution, as well as the next generation. NetSol will continue strengthening its position within existing multinational auto manufacturers, as well as, local Chinese

captive finance and leasing companies.

In Thailand, NetSol has established an alternate delivery center in Bangkok. The first successful implementation of NFS™ from NetSol Thai in Bangkok was carried out for Mercedes Benz Finance in India. Our operation in Bangkok serves a very robust and growing market for leasing companies and regional banks. NetSol shall continue its strategic growth vision in Thailand; as we enhance our delivery and sales infrastructure.

NetSol's growth strategy through joint ventures and partnerships will provide an important thrust to the overall Company growth strategy. Our joint venture with Atheeb Holdings in Saudi Arabia was formed to establish NetSol as an IT partner with a major business group there. The scope of IT business for NetSol is not limited to the Kingdom of Saudi Arabia, but also offers tremendous new opportunities in the Gulf Cooperation Council nations in the Middle East. Atheeb NetSol Saudi Company Ltd., is a fully operational business unit based in Atheeb Group's headquarters in Riyadh, Saudi Arabia. With a team of nearly 10 employees, this entity is very active in branding NetSol in the region.

Besides the growth in revenues expected through its next generation solution, NetSol expects to continue selling its current version to businesses looking for a mature and globally tested solution. Future growth will therefore involve increased revenues from both the current version and the next generation of NFS™.

LeasePak

While the new generation of NFS™ is designed to be a truly global solution ready for customization in any market, the Company has historically provided products tailored to the various markets. In North America, NetSol Technologies North America, Inc. ("NTNA") has and continues to develop the LeasePak Productivity modules as an additional companion set of products to operate in conjunction with the LeasePak base system licensed software. LeasePak handles every aspect of the lease or loan lifecycle, including credit application origination, credit adjudication, pricing, documentation, booking, payments, customer service, collections, midterm adjustments, and end-of-term options and asset disposition.

LeasePak's tracking modules manage critical stages of the lifecycle, allowing users to process work using fully customizable task queues. LeasePak also includes an extensive collection of reports including origination and portfolio management, accounting, and asset financial management reports.

Additionally, NTNA offers LeasePak users a comprehensive toolkit of application interfaces to streamline portfolio management system with best-of-breed, third-party tools and enterprise applications. Designed to work with web services as well as with the client-server architecture, Link IT streamlines application integration and reduces version-maintenance overhead. The integrated document generation for LeasePak, Doc IT, auto-generates the letters and documents required to book and finalize a deal. Using private-label customer templates, Doc IT generates letters and documents, delivers them, and archives them for instant access throughout the life of the contract, asset, and customer relationship.

This complete and integrated toolset enables the LeasePak user to leverage the power of the system to streamline originations, integrate the dealer/vendor network, automate documentation, enhance customer service, manage risk, and control infrastructure overhead.

During 2011, the NTNA development team released LeasePak version upgrade 6.4. This set of technical and functional enhancements was successfully released for general availability and have gone into daily use by the company's various clients. With the release of versions 6.4, LeasePak users have new options in wide array of business functions. The new modules and major improvements in functionality are listed below:

-

Batch General Ledger Adjustment (New Module) - Allows the user to submit a batch file to process General Ledger Adjustment transactions to balance adjustments for General Ledger accounts. Module provides an option to preload a batch file and also checks for the existing records before preloading. This enhances automation and delivers productivity gains.

- Batch Asset Sales (New Module) - Provides an option to preload a batch file to process batch sale of asset transactions. It also checks for the existing records before preloading batch file and provides an option to delete the existing records if the records are not required. The module processes these records from LeasePak RBA table and creates both an exception and audit report once processing of records is completed. Module processes a batch file to reverse the sale of assets from inventory.
- Security Roles Module (New Module) - Allows the user to create and maintain user Roles where a single role can be assigned to a number of individuals. This update allows the user to specify an assigned role for any individual security record. This update modifies user security records assigned to a role when a change is made to the Role by updating only the values that were changed on Role. Provides extensive time saving to system administrator.

- Pool ID (New Module) - Allows the user to group a lease in one more general ledger pools. This grouping allows the general ledger transaction reporting to occur by pool instead of by PCRO. This enhancement also enhances the functionality of LeasePak to add all the matching transactions for GL Pool accounts to their corresponding appropriate pool IDs. Changes to the pool ID will appear on the Non-Monetary Archive Report. Batch updates of pool IDs on booked leases can take place through a Web Service API update.
- Enhanced IDC/IDR (New Module) - Separates the Enhanced IDC/IDR functionality from the LeasePak Vehicle Module into a separate module. The IDC/IDR fees entered will be tracked during the life of the lease, as well as provide an Amortization Schedule based on the accrual methods used when the lease was booked.

LeasePak-SaaS

LeasePak Software-As-A-Service offers a new deployment option whereby customers just need public internet and web browser to use the software. Customers pay for the use of the system through a monthly subscription fee. The LeasePak-SaaS targets small and mid-sized leasing and finance companies. The product dramatically reduces the customer's IT spend by minimizing the cost of acquiring and maintaining expensive IT infrastructure and related administrative staff.

NFS™ - WFS

NFS™ - WFS enables finance companies and dealers to manage Floor plan Financing. This software has been doing very well in the Asia Pacific region and is the market leader in the Floor plan financing space in The People's Republic of China. In 2009-2010, NetSol successfully launched NFS-WFS software in North America. Its first implementation went live at Nissan Renault Finance Mexico in November 2009. As part of the project, and after being put in production, NetSol also enhanced the software in many areas to address North American requirements. With the first NFS-WFS site up and successfully running, NetSol will be eagerly marketing and selling this new offering in North and South America.

NFS™ - DAS

NetSol's Dealer & Auditor Management System. DAS is a web-based solution that can be used in conjunction with WFS or any third-party wholesale finance system. The system addresses the needs of these user categories:

Dealer Access: The dealer access category allows dealers to perform a number of tasks including, viewing their Wholesale summary, Invoices, Stock List, Credit Status, Curtailments, Receipts, Settlement status, Asset Transfer Status and New Stock Status.

Distributor Access: The distributor access category facilitates distributors to view each dealers, wholesale stock situation, outstanding invoices, credit limit status, account receivable and units on a dealer's Floor plan.

Auditor Access: The auditor access category facilitates auditors to: schedule, conduct and view audits, audit results can be entered in the system and accessed for viewing, cross- checking and editing purposes.

LeaseSoft

In addition to offering all NetSol products, NetSol Technologies Europe, Ltd. ("NTE") products include: LeaseSoft Portal- introduced to support online access to proposals and for the foundation of web-based origination systems; LeaseSoft Document Manager- introduced to facilitate the automation production and distribution of proposal documentation, including indexation and branding of all outbound and inbound documents; LeaseSoft Auto-Decision Engine- developed to provide automation of credit checking and underwriting for standards based financial products;

LeaseSoft EDI Manager- introduced to facilitate process automation between business introducers and funders; and, Evolve- launched to provide an entry level software package for own book brokerages and small to medium size funders.

NTE successfully deployed a Business Partner portal to support to an existing client, a major European bank, high-volume vendor finance business. This project incorporated an auto-decisioning module, which takes in credit data

8

from a Europe-wide credit agency. In anticipation of increased business volumes, the bank purchased additional volume capacity from NTE to ensure full take-up of the new business flow.

In an area of the UK finance new to NTE, a customized LeaseSoft solution was delivered to a major UK short-term consumer lending business. The solution supports a wide range of consumer loan products with a focus on the sub-prime sector. This implementation has provided further proof of the powerful, high volume transactional processing engine that is the core of the LeaseSoft application. Being focused on sub-prime, the application is highly effective in the areas of customer service and delinquency management.

Virtual Lease Services (VLS) was acquired by NTE together with its joint venture partner, Investec Bank. The acquisition was designed to bolster growth in services sectors complementing our core solutions offerings. VLS continues to win new programs with leading equipment vendors and suppliers and has become the de factor leader of outsourcing services to the growing UK chip and pin vendor market. A cornerstone of VLS's range of services, Portfolio Management, is providing further identified opportunities for start-up businesses, those in run-down mode as well as portfolio acquirers.

Organic Growth, Alliances and Joint Ventures

Outsourcing Services-NetSol-Innovation

In November 2004, the Company entered into a joint venture agreement with the Innovation Group (formerly referred to as TiG) NetSol-Innovation (Pvt) Ltd., ("NetSol-Innovation"), a Pakistani company, provides support services enabling the Innovation Group to scale solution delivery operations in key growth markets. NetSol-Innovation operations are centered in NetSol's IT Village, Lahore, Pakistan. NetSol owns a majority of the venture. The entities share in the profits of the joint venture on the basis of their shareholding. The outsourcing model between the Innovation Group and NetSol involves services pertaining to business analyses, configuration, testing, software quality assurance (SQA), technical communication as well as project management for development software for the Innovation Group. Today, NetSol has developed extensive expertise across the insurance domain and has become a center of excellence.

Initiated with a 10 person outsourcing team in Lahore in February 2005, this arrangement has extended to 110 persons with the additional resources catering to the increased influx of outsourcing of configuration and testing assignments from the Innovation Group. Prominent Innovation Group's customers being serviced from Lahore include JM Family Enterprises USA, Avis Budget Car Rental Group USA, Norwich Union UK, Hertz UK, Aviva Canada, Erinaceous UK and many others. Backed up by a dedicated 4Mbps fiber optic link and an additional 2Mbps wireless backup link for communication and teleconferencing, this arrangement allows NetSol's human resources to efficiently and effectively respond to additional outsourcing and offshore configuration work.

Atheeb NetSol Saudi Company Limited

NetSol has forged a joint venture with the Atheeb Group, a very established and diversified business conglomerate based in Riyadh, Saudi Arabia whereby NetSol owns 50.1% and Atheeb own 49.9% of the joint venture. Atheeb Group was established in 1985 in Kingdom of Saudi Arabia and is operating in several business sectors in the Middle East. The Atheeb NetSol Limited joint venture focuses on market development opportunities around penetrating the software engineering arena in key business sectors such as telecommunications, defense, and finance, among others. Atheeb NetSol Limited will leverage the strength of Atheeb's local presence in key geographies where Atheeb is operating as well as supporting private, public and governmental customer business activities. NetSol will provide best practices project management and the comprehensive delivery capabilities of its CMMI Level 5 certified Center of Excellence for software engineering, research and development, as well as customer support and training.

Growth through Establishing Partner Networks

NetSol is well aware that market reach is essential to effectively market IT products and services around the globe. For this purpose, the Company is looking forward to establishing a network of partners worldwide. These companies will represent NetSol in their respective countries and will develop business for NetSol. Keeping these strategic objectives in view, NetSol has entered into a mutually non-exclusive agreement with Singapore Computer Systems (“SCS”) that allows SCS to market LeaseSoft in the entire Asia Pacific region.

NetSol is a member of the world’s largest equipment leasing association, the Equipment Leasing and Finance Association of North America, or ELFA. Boasting more than 1,000 members, the ELFA is a strong presence in the \$500 billion North American market.

In Japan, NetSol has partnered with a leading systems integrator in the Japanese asset finance and leasing industry to grow its business in Japan's lending market. The partnership will facilitate NetSol's product offerings and consulting services to clients operating in Japan, while also enabling Japanese lending companies to expand their business operations to other, high growth Asia Pacific markets. The relationship will enable NetSol and its partner to mutually leverage their respective strengths in the asset finance and leasing space with NetSol's multi-country experience and the partner's rich Japanese market expertise.

The Company remains willing to explore mergers and acquisition opportunities with a focus on strategic acquisitions that provide immediate, strong, bottom line benefits. Management believes that an ideal target will fulfill one or many of these criteria: geographic synergy/providing a foot print in a market; unique and/or complimentary product lines; provide additional, and cost effective development hubs, or complimentary or target customers in a previously untapped market. While there is no guaranty that an acquisition which appears to be sound will ultimately benefit the Company, management continues to analyze the price, value and market of any potential target. The model of targeting well established, profitable product companies, within NetSol's domain, management believes, has proven successful with our recent acquisitions. Management believes this model can be replicated over the next three years.

Strategic Alliances

With its leadership position in technology and software development in Pakistan, NetSol has been actively involved in a number of partnerships with multiple international entities and corporations. These include joint ventures, systems integration, local services, as well as consulting for large enterprises. Some of NetSol's partners are:

- Oracle Partner Network member (Oracle software, Oracle/Sun micro hardware)
- IBM Business Partner
- Microsoft Silver Identity and Security Partners
- Sun Microsystems
- HP DSPP Partner
- Daimler Financial Services
- Innovation Group PLC UK
- GE
- Software Engineering Institute
- Kaspersky Lab
- SAP
- IBM-Internet Security System
- REAL Consulting
- Intel Solutions Blueprint
- Neptune Software, plc;
- Field Solutions
- McAfee
- Barracuda
- Blue Coat
- Trustwave
- Sybase ISV Partner
- Citrix ISV Partner
- HP ISV Partner
- Sector 7 ISV Partner
- Vertex ISV Partner
- TimeValue ISV Partner
- Microbilt ISV Partner

Daimler Financial Services (“DFS”) Asia Pacific has established an “Application Support Center (ASC)” in Singapore to facilitate the regional companies in NFS related matters. This support center is powered by highly qualified technical and business personnel. ASC NFS in conjunction with our Asia Pacific Region are supporting DFS companies in seven different countries in Asia and this list can increase as other DFS companies from other countries may also opt for NFS. In July 2008, the Company entered into a Frame Agreement with Daimler Financial Services AG (“DFS”) for the Asia Pacific and Africa region. This agreement was renewed in October 2010 for an additional 3 year term. The agreement, which serves as a base line agreement for use of the NFS products by DFS companies and affiliated companies, represents an endorsement of the NFS product line and the

capabilities of NetSol to worldwide DFS entities. This continued endorsement has had a tremendous impact on our perspective customers, it has helped our sales and Business Development personnel to market and sell our NFS solution to blue chip customers around the world. This relationship has resulted in new agreements with DFS and has served as a marketing source which has resulted in agreements with companies such as Toyota and BMW.

NTE's strategic relationship with Neptune Software plc has provided the Company with the opportunity to further develop its business in Africa. Neptune has a number of Banking clients in Africa whose interest in Leasing and Asset Finance is demonstrably increasing, this being drive by a number of fiscal factors and the desire in the region to mechanise agricultural production in particular.

Technical Affiliations

The Company currently has technical affiliations such as: a Microsoft Certified GOLD Partner; a member of the Intel Solution blueprint Program; IBM Business Partner and, an Oracle Certified Partner.

Marketing and Selling

NetSol management continues its optimism that the Company will experience ever increasing opportunities for its product and services offerings in 2013 and beyond. The Company is aggressively growing the marketing and sales organizations in its regions. The objective of the Company's marketing program is to create and sustain preference and loyalty for NetSol as a leading provider of enterprise solutions, e-services consulting, software solutions and business process outsourcing. Marketing is performed at the corporate and business unit levels. The corporate marketing department has overall responsibility for communications, advertising, public relations and the website and, also engineers and oversees central marketing and communications programs for use by each of the business units.

Our dedicated marketing personnel, within the regions, undertake a variety of marketing activities, including sponsoring focused client events to demonstrate our skills and products, sponsoring and participating in targeted conferences and holding private briefings with individual companies. We believe that the industry focus of our sales professionals and our business unit marketing personnel enhances their knowledge and expertise in these industries and will generate additional client engagements.

The Markets

NetSol provides its services primarily to clients in global commercial industries. In the global commercial area, the Company's service offerings are marketed to clients in a wide array of industries including, automotive, chemical, textiles, Internet marketing, software, medical, banks, higher education and telecommunication associations, and, financial services.

Geographically, NetSol has operations on the West Coast of the United States, Central Asia, Europe, and the Asia Pacific region. NetSol took the initiative as the first US NASDAQ listed company to dual list on the NASDAQ Dubai exchange in Dubai. Although UAE markets suffered the impact of recession, this move was primarily to introduce NetSol to the potential of the most capitalized Middle Eastern countries. By design, NetSol has increased its brand recognition in one of the most vibrant and dynamically growing regions.

The Asian continent including, Australia and New Zealand, from the perspective of marketing, are targeted by the Asia Pacific Region from its Bangkok, Beijing and Lahore facilities. The marketing for our core offerings in the Americas and Europe is carried out from our San Francisco Bay Area and London Metropolitan area offices.

People and Culture

The Company believes it has developed a strong corporate culture that is critical to its success. Its key values are delivering world-class quality software, client-focused timely delivery, leadership, long-term relationships, creativity, openness and transparency and professional growth. The services provided by NetSol require proficiency in many fields, such as software engineering, project management, business analysis, technical writing, sales and marketing, communication and presentation skills.

To encourage all employees to build on our core values, we reward teamwork and promote individuals who demonstrate these values. NetSol offers all of its employees the opportunity to participate in its stock option program. Also, the Company has an intensive orientation program for new employees to introduce our core values and a number of internal communications and training initiatives defining and promoting these core values. We

believe that our growth and success are attributable in large part to the high caliber of our employees and our commitment to maintain the values on which our success has been based. NetSol worldwide is an equal opportunity employer.

NetSol believes it should give back to the community and employees as much as possible. Certain of our subsidiaries are located in regions where basic services are not readily available. Where possible, NetSol acts to not only improve the quality of life of its employees but the standard of living in these regions. Examples of such programs are:

- **Humanitarian Relief:** We are all aware of the devastation that can be wrought by natural disasters. NetSol has historically supported earthquake and flood relief where the need is the greatest. As recently as last year, the company established a fund raising effort on a worldwide basis to encourage outside and employee contributions to relief efforts.
- **Literacy Program--** launched to educate low paid illiterate employees of the organization. The main objective of this program is to enable these resources to acquire basic reading, writing and arithmetic skills. The first phase of the plan was completed with astounding accomplishments; the people who could not even write a single word are now able to write complete letters within a span of 6 months. This initiative has been extremely successful and NetSol intends to further support this program.
- **Noble Cause Fund--**A noble cause fund has been established to meet medical and education expenses of the children of the low paid employees. NetSol employees voluntarily contribute a fixed amount every month to the fund and the Company matches the employee subscriptions with an equivalent amount contribution. A portion of this fund is utilized to support social needs of certain institutions and individuals, outside NetSol.
- **Day Care Facility--**NetSol's human resources are its key assets and thus the Company takes numerous steps to ensure the provision of basic comforts to its employees. In Pakistan, the provision of outside pre-school child care is a rarity. Keeping in view this requirement, a Child Day Care facility has been created in close proximity to the work premises equipped with the necessary essential staff and equipment. Married female employees are offered the opportunity to entrust complete care of their young ones to a trained and experienced staff. Child day care allows female employees to pay unhindered focused attention to work requirements while their child remains safe and comfortable. The premises and environment are neat and clean with all basic needs fulfilled to ensure complete care of the children.
- **Preventative Health Care Program--**In addition to the comprehensive out-patient and in-patient medical benefits, preventive health care has also been introduced. This phased program focuses on vaccination of our employees against Hepatitis – A/B, Tetanus, Typhoid and Flu, etc. This is a regular annual immunization program to keep employees healthy.
- **NetSol Corporate University--** NetSol Corporate University (“NCU”) was established for developing human resources at NetSol. A need was felt to further develop and retain the talent at hand through strategic learning interventions to respond to growing competition and challenges.

Overall, NetSol as a global IT company has over 25% female employees with the biggest concentration in our development facility in Lahore and in the U.S. headquarters. The Company is an equal opportunity employer. Being a successful company with a well respected name in the business community, NetSol encourages its employees to actively participate and contribute to charitable contributions for catastrophic tragedies anywhere in the globe.

There is significant competition for employees with the skills required to perform the services we offer. The company runs an elaborate training program for different cadre of employees ranging from technical knowledge, business domains as well as communication, management and leadership skills. The Company believes that it has been

successful in its efforts to attract and retain the highest level of talent available, in part because of the emphasis on core values, training and professional growth. We intend to continue to recruit, hire and promote employees who share this vision.

As of June 30, 2012, we had 854 full-time employees and 3 part-time employees; comprised of 657 IT project and technical personnel; and 197 non-IT personnel. The non-IT personnel include 23 employees in management, 35 employees in sales and marketing, 27 employees in accounting, 18 in customer support, and 94 in general and administration. None of our employees are subject to a collective bargaining agreement.

Competition

Neither a single company, nor a small number of companies, dominates the IT market in the space in which the Company competes. A substantial number of companies offer services that overlap and are competitive with those offered by NetSol. Some of these are large industrial firms, including computer manufacturers and computer consulting firms that have greater financial resources than NetSol and, in some cases, may have greater capacity to perform services similar to those provided by NetSol.

In the NFS™ business space, the barriers to entry are getting higher. The products are getting more cutting edge while richness in functionality is paramount. Older companies have prolonged the life of their legacy products by creating web-based front ends, while the core of the systems has not been re-engineered. In the case of NFS™, we compete chiefly against leading suppliers of IT solutions to the financial industry, including names such as White Clarke < Fimasys, International Decision Systems (IDS), Data Scan, CHP Consulting, 3i Infotech, Finnone and Nucleus Software.

In the IT based business services areas, we compete with both smaller local firms and many global IT services providers, including names such as Wipro, InfoSys, Satyam Infoway, HCL and TCS (Tata Consulting).

Our competition is based primarily in high cost locations in the US, UK and other parts of Europe as opposed to NetSol with its facility in Bangkok and Lahore. NetSol is now the only company in the leasing and finance solution space that provides regional solutions in North America, Europe and Asia Pacific. In addition, it is the only company in this space that is publicly listed and provides an offshore development infrastructure with CMMI level 5 accreditation.

Many of the competitors of NetSol have longer operating history, larger client bases, and longer relationships with clients, greater brand or name recognition and significantly greater financial, technical, and public relations resources than NetSol. Existing or future competitors may develop or offer services that are comparable or superior to ours at a lower price, which could have a material adverse effect on our business, financial condition and results of operations.

Customers

Some of the customers of NetSol include: Mercedes Benz Financial Services (Australia, Japan, New Zealand, Singapore, South Korea, Thailand, Malaysia, Hong Kong, Germany, China, India and Taiwan), Investec Asset Finance; BNP Paribas Lease Group; Aldermore Bank; Singers Healthcare Finance; Scania Finance; Capital One Bank, CNH Capital Australia, Toyota Motors Finance China, Toyota Leasing Thailand, Finlease Commercial Bank Mauritius, CNH Capital Australia, Fiat Automotive Finance China, Dongfeng Nissan Auto Finance China, BMW Financial Services China, BMW Japan, Al Amthal Leasing Saudi Arabia, SANY Corporation China, GAC Sofinco, China, Nissan Motor Acceptance Corp. US, Nissan Australia, BYD China, Kiatnakin Bank Thailand, Minsheng Financial Leasing China, Volkswagen Credit U.S.A; Hyundai Capital, Isuzu Thailand, Key Equipment Financing; Chase Equipment Finance; Bmo Harris Equipment Finance, BTMU Capital, Cisco Capital Finance, BaxterCapital, IBM Global Finance, Bank of Hawaii, First Hawaiian Bank, Ford Motor Credit, Yamaha Motor Credit; Terex Corporation and, Nissan Renault Finance Mexico. In addition, NetSol provides offshore development and testing services to The Innovation Group Plc UK and their blue chip global insurance giants like Allstate, Cendent, etc. NetSol-Innovation contributes to about 8.65% of NetSol's revenues. NetSol is also a strategic business partner for Daimler (which consists of a group of many companies in different countries), which accounts for 19.72% of our revenue. Toyota Motors (which consists of a group of many companies in different countries) accounts for 2.62% of our revenues. Nissan Auto Finance (which consists of a group of many companies in different countries) accounts for 7.31% of our revenues. However, no single client represents more than 10% of the revenue for the fiscal year ended June 30, 2012.

Global Operations and Geographic Data

The Company divides its operations into two regions Asia Pacific and Americas-Europe. The regions consist of individual subsidiaries which operate as autonomous companies and are strategically managed on a regional basis.

North America and Europe Region

At NetSol Technologies North America, Inc. (“NTNA”) the operations are led by Imran Haider as COO. Mr. Haider has been with NetSol for over 10 years with an internationally proven track record in sales, marketing, and project and client relations management. Mr. Haider completed his MBA in 1999, with a focus on marketing and finance, from Lahore University of Management Sciences (LUMS) in Pakistan. Later he returned to LUMS and augmented his qualification with a certification in IT Management. He also holds a Master’s Degree in Economics from University of the Punjab, Pakistan. Mr. Haider is a domain expert in NetSol core business offerings.

Wajih Rehman, as Chief Operating Officer, NetSol Technologies Europe, Ltd (“NTE”) joined NetSol in 2005. Mr. Rehman has over 12 years of experience in delivering large scale global technology programmes, consulting, leading and mentoring large multicultural teams and operations. In addition to his technical qualifications, Mr. Rehman has recently completed his executive MBA from London Business School – rated as the #1 business school in the world by Financial Times 2009, 2010 and 2011 ranking.

Our e-commerce division, Vrooz, Inc. is headed by Shaz Khan and located in our Calabasas, California office. Mr. Khan joined NetSol in 2008 as part of our acquisition of Ciena Solutions, LLC. He has been developing innovative B2C and B2B e-commerce solutions and technology for start-ups to established software companies for over twelve years with a key focus on search engine and collaboration techniques between buyer and seller. Mr. Khan directs the Company's strategic direction, business development and marketing and is the visionary behind smartOCI®, a Business to Business (B2B) price comparison shopping engine for goods and services. Mr. Khan brings a wealth of experience in managing large ERP supply chain projects for a number of Fortune 1000 organizations. Mr. Khan received his B.A. in Computer Science and a B.A. in Economics from the University of California at Berkeley.

Asia Pacific Region

NetSol Technologies, Ltd., a majority owned subsidiary of parent company is located in Lahore, Pakistan and is headed by Salim Ghauri as CEO. Mr. Ghauri is a co-founder of NetSol Technologies and has been with the Company since 1996.

NetSol Beijing is headed by Mr. Naeem Aftab. He has been with NetSol for over 10 years with MBA from LUMS in Pakistan.

NetSol Thai, is headed by Mr. Asad Ghauri as President of Asia Pacific Region which is run from our Bangkok office. Mr. Ghauri has been with NetSol for almost 10 years and has a B.S in computer science from George Mason University in Virginia.

The Global Sales Division is headed by Mr. Naeem Ghauri as President of Sales from the NetSol Thai offices located in Bangkok. Mr. Ghauri has been with NetSol since 1999 and has over 25 combined years of experience in business and IT. He is also a member of the board of directors of the parent Company.

The Asia Pacific region including Australia/New Zealand, the Middle East, from the perspective of NFS™ marketing, is targeted by NetSol Technologies from the Asia Pacific region offices located in: Beijing China; Bangkok, Thailand; and Lahore, Pakistan. While Lahore continues to be a mainstay of the Company’s delivery and, research and development, the Bangkok’s expanded delivery and research and development facility has grown into a vibrant

delivery center as well as a back-up to the Lahore facility. With the continued growth of the Chinese market, our Beijing office continues to expand as both a sales and support facility. Finally, the Asia Pacific region maintains and will establish offices through the region as is necessary to support its customers and to explore potential markets. These offices currently include Adelaide, Australia and Riyadh, Kingdom of Saudi Arabia.

Our Asia Pacific Region accounted for approximately 74.28% of our revenues in 2012 and our Americas-Europe Region accounted for approximately 25.72% of our revenues in 2012. Information regarding financial data by geographic areas is set forth in Item 7 and Item 8 of this Annual Report on form 10-K. See note 2 of Notes to Consolidated Financial Statements under Item 8.

Web Presence

The Company is committed to regaining and extending the advantages of its direct model approach by moving even greater volumes of product sales, service and support to the Internet. The Internet provides greater convenience and efficiency to customers and, in turn, to the Company. The company maintains its corporate website at www.netsoltech.com. NetSol's software development and SQA team as well as its clients use its web based customer relationship management solution (HelpDesk) for timely and direct communication, as part of providing ongoing support and maintenance services. More details can be found on <http://www.netsolhelp.com>.

Through the company's web sites, its customers, both existing and potential, and investors can access a wide range of information about its product offerings, and support and technical matters.

Intellectual Property

The Company relies upon a combination of nondisclosure and other contractual arrangements, as well as common law trade secret, copyright and trademark laws to protect its proprietary rights. The Company enters into confidentiality agreements with its employees, generally requires its consultants and clients to enter into these agreements, and limits access to and distribution of its proprietary information. The NetSol logo and name, as well as the NFS logo and product name have been copyrighted and trademark registered in Pakistan. The NetSol logo and BestShoring® name has been registered with the U.S. Patent and Trademark Office. The Company intends to trademark and copyright its intellectual property as necessary and in the appropriate jurisdictions. The Company successfully registered the smartOCI® logo and name with the United States Patent and Trademark Office. In addition, the Company has filed for a patent on the smartOCI® technology with the United States Patent and Trademark Office.

Governmental Approval and Regulation

Current Company operations do not require specific governmental approvals. Like all companies, including those with multinational subsidiaries, we are subject to the laws of the countries in which the Company maintains subsidiaries and conducts operations. Pakistani law allows a tax exemption on income from exports of IT services and products up to 2016. While foreign based companies may invest in Pakistan, repatriation of their investment, in the form of dividends or other methods, requires approval of the State Bank of Pakistan. The present Pakistani government has effectively reformed the policies and regulations effecting foreign investors and multinational companies thus, making Pakistan an attractive and friendly country in which to do business.

Available Information

Our website is located at www.netsoltech.com, and our investor relations website is located at <http://www.netsoltech.com/IR/>. The following filings are available through our investor relations website after we file with the SEC: Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, and our Proxy Statements for our annual meetings of stockholders. These filings are also available for download free of charge on our investor relations website. We also provide a link to the section of the SEC's website at www.sec.gov that has all of our public filings, including Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, all amendments to those reports, our Proxy Statements and other ownership related filings. Further, a copy of this Annual Report on Form 10-K is located at the SEC's Public Reference Room at 100 F Street, NE, Washington D.C. 20549. Information on the operation of the Public Reference Room can be obtained by calling the SEC at 1-800-SEC-0330.

We webcast our earnings calls and certain events we participate in or host with members of the investment community on our investor relations website. Additionally, we provide notifications of news or announcements regarding our financial performance, including SEC filings, investor events, press and earnings releases, and blogs as part of our

investor relations website. Investors and others can receive notifications of new information posted on our investor relations website by signing up for e-mail alerts. Further corporate governance information, including our committee charters and code of conduct, is also available on our investor relations website at <http://www.netsoltech.com/company/corporate-governance.php>. The content of our websites are not intended to be incorporated by reference into this Annual Report on Form 10-K or in any other report or document we file with the SEC, and any references to our websites are intended to be inactive textual references only.

ITEM 1A RISK FACTORS

We have yet to remedy the material weaknesses in our internal controls over financial reporting and accordingly in our disclosure controls and procedures. this failure to remedy these weaknesses may result in a lack of confidence in our financial reporting and negatively affect our stock price and financial viability.

Beginning with our 10-K for the year ending June 30, 2011, our management concluded that our core accounting staff do not have sufficient U.S GAAP experience and training. This lack of sufficient U.S. GAAP expertise in core accounting staff led to the management's conclusion that this is a material weakness in our internal controls over financial reporting and, accordingly, in our disclosure controls and procedures. We have actively sought a U.S. CPA candidate to act as interim or permanent CFO but have yet to identify a candidate that meets the needs and requirements of a multi-national company. To date we have not identified a suitable candidate with the ability to travel to Pakistan due to geopolitical unrest as a permanent CFO. While our current CFO is seeking to acquire his U.S. CPA credentials, there is no guarantee that he will be awarded the CPA. While we will continue our efforts to remedy the weakness, there is no guarantee that we will be able to remedy the weakness in the near term.

ITEM 2 - PROPERTIES

Company Facilities

The Company's corporate headquarter has been located in Calabasas, California since 2003 and currently at 24025 Park Sorrento, Suite 410, Calabasas, CA 91302. It is located in approximately 7,210 rentable square feet, with a monthly rent of \$15,387.00. The lease is a five years and five months lease, expiring in 2017. The parent company and Vroozii are located in this office.

Other leased properties as of the date of this report are as follows:

Location/Approximate	Square Feet	Purpose/Use	Monthly Rental Expense
Alameda, CA	4,298	Computer & General Office	\$7,148
Beijing, China	3,012	General Office	\$10,242
Horsham, UK (NetSol Europe)	6,570	Computer and General Office	\$9,110
London, UK (VLS)	2,100	Computer & General Office	\$4,555
NetSol Connect (Karachi Office)	2,310	General Office	\$1,323
NetSol PK (Pindi Office)	2,250	General Office & Guest House	\$529
Bangkok, Thailand	3,791	Computer and General Office	\$8,140

The Beijing lease is a three year lease that expires in January 2014. The monthly rent is approximately \$10,242 (RMB 64,526) per month. The Bangkok lease is a three year lease expiring November 2013 with monthly rent of \$8,140 (THB 244,210). The NetSol Europe facilities, located in Horsham, United Kingdom, are leased until July 1, 2021 for an annual rent of £70,000 (approximately \$110,000). VLS operations are located in London, United Kingdom and are leased until November 5, 2015 for an annual rent of £35,000 (approximately \$55,000). The Alameda lease, where NTNA offices are located, is a three year lease with monthly rent of \$7,148 expiring November 2012. The NetSol Connect Karachi office lease is a one year lease expiring December 2012 and is rented at the rate of \$1,323. The NetSol Pindi office lease is a one year lease that expires in June 2013 and currently is rented at the rate of approximately \$529 per month.

Upon expiration of its leases, the Company does not anticipate any difficulty in obtaining renewals or alternative space.

Lahore Technology Campus

The Technology Campus was inaugurated in Lahore, Pakistan in May 2004. This facility consists of 50,000 square feet of computer and general office space. This facility is state of the art, purpose-built and fully dedicated for IT and software development; the first of its kind in Pakistan. Title to this facility is held by NetSol Technologies Ltd.

and is not subject to any mortgages. In order to cater for future business expansion and taking advantage of depressing real estate market, the company purchased two cottages adjacent to its main building. Total covered area of these cottages is 4,900 sq feet and it cost was approximately \$250,000. The management has moved its accounts, finance, internal audit, company secretariat, costing and budgeting, graphics, technical communication & procurement departments into these cottages. Due to the ever growing requirements of resources, the company started construction of its new building which is adjacent to the current one. This new building will have the capacity to house approximately 1,000 additional resources. Construction of the building is in process and is expected to be completed during the coming fiscal year.

ITEM 3 - LEGAL PROCEEDINGS

To the best knowledge of Company's management and counsel, there is no material litigation pending or threatened against the Company.

PART II

ITEM 5 - MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITY

(a) MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

MARKET INFORMATION - Common stock of NetSol Technologies, Inc. is listed and traded on NASDAQ Capital Market under the ticker symbol "NTWK".

The table shows the high and low intra-day prices of the Company's common stock as reported on the composite tape of the NASDAQ for each quarter during the last two fiscal years. Stock prices have been adjusted to reflect the Company's 1 for 10 reverse stock split on August 13, 2012.

Fiscal Quarter	2011-2012		2010-2011	
	High	Low	High	Low
1st (ended September 30)	17.80	5.60	16.90	7.10
2nd (ended December 31)	6.90	3.50	21.10	13.00
3rd (ended March 31)	9.50	3.60	23.39	15.60
4th (ended June 30)	6.10	3.70	19.40	12.80

Common stock of NetSol Technologies, Inc. is also listed and traded on the NasdaqDubai Market under the ticker symbol "NTWK" since June 16, 2008.

RECORD HOLDERS - As of August 31, 2012, the number of holders of record of the Company's common stock was 224. As of August 31, 2012, there were 7,572,088 shares of common stock issued and outstanding and no shares of preferred stock issued and outstanding.

DIVIDENDS - The Company has not paid dividends on its Common Stock in the past two fiscal years.

SECURITIES AUTHORIZED FOR ISSUANCE UNDER EQUITY COMPENSATION PLAN

The table shows information related to our equity compensation plans as of June 30, 2012:

	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity Compensation Plans approved by Security holders	1,065,151(1)	\$16.5(2)	156,601(3)

Equity Compensation Plans not approved by Security holders	None	None	None
Total	1,065,151	\$16.5	156,601

(1) Consists of 76,000 under the 2002 Incentive and Nonstatutory Stock Option Plan; 34,000 under the 2003 Incentive and Nonstatutory Stock Option Plan; 276,268 under the 2004 Incentive and Nonstatutory Stock Option Plan; 287,164 under the 2005 Incentive and Nonstatutory Stock Option Plan; and 130,000 under the 2011 Incentive and Nonstatutory Stock Option Plan.

(2) The weighted average of the options is \$19.73.

(3) Represents 156,601 available for issuance under the 2011 Incentive and Nonstatutory Stock Option Plan.

(b) RECENT SALES OF UNREGISTERED SECURITIES

In May and June of 2012, the Company's employees exercised options to acquire 194,261 shares of common stock in exchange for a total exercise price of \$98,448.84. The shares were all part of the Company's Stock Option plans which have been previously registered under Regulation S-8 of the Securities Act of 1933, as amended.

In May 2012, the Company issued 24,000 shares of common stock as part of a consulting agreement. The Shares were issued in reliance on exemption from registration available under rule 4(6) of the Securities Act of 1933, as amended.

In April 2012, the Company issued 37,500 shares of common stock as part of compensation to the Company's employees. The shares were issued in reliance on an exemption from registration available under rule 4(6) of the Securities Act, 1933, as amended.

ITEM 6 – SELECTED FINANCIAL DATA

You should read the following selected consolidated financial data in conjunction with Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our consolidated financial statements and the related notes appearing in Item 8 “Financial Statements and Supplementary Data” of this Annual Report on Form 10-K.

The consolidated statements of income data for the years ended June 30, 2011, and 2012 and the consolidated balance sheet data at June 30, 2011, and 2012 are derived from our audited consolidated financial statements appearing in Item 8 of this Annual Report on Form 10-K. The consolidated statements of income data for the years ended June 30, 2008, 2009 and 2010 and the consolidated balance sheet data at June 30, 2008, 2009, and 2010, are derived from our audited consolidated financial statements that are not included in this Annual Report on Form 10-K. The historical results are not necessarily indicative of the results to be expected in any future period.

	Year Ended June 30,				
	2008	2009	2010	2011	2012
Consolidated Statements of Income Data:					
Revenues	\$36,642,175	\$26,448,177	\$36,779,897	\$36,547,574	\$39,775,524
Income (loss) from operations	7,209,219	(6,483,169)	9,727,709	10,164,818	7,264,582
Net income	4,813,683	(8,181,448)	1,394,120	5,728,088	2,446,545

ITEM 7- MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND PLAN OF OPERATIONS

The following discussion is intended to assist in an understanding of NetSol's financial position and results of operations for the year ended June 30, 2012. It should be read together with our consolidated financial statements and related notes included under Item 8 of this Annual Report on Form 10-K.

A few of NetSol's major successes achieved in 2011-2012 were:

- NetSol Technologies Pakistan signed multi-million dollar agreements to implement NFS™ solution, for a major European Bank in China and, an automobile manufacturer in Thailand.
- NetSol Technologies (Beijing) Co. Limited signed an agreement to license and implement NFS™ solution with Chongqing Auto Finance Co., Ltd.
 - NTPK Thailand signed a consultancy and services agreement for a premier auto manufacturer in Thailand.
- First NextGen – NFS™ went live with Thailand's Kiatnakin, a leading Bank, and a leading provider of financial services to commercial and corporate sectors in Thailand.
- NTPK Thailand and NEC India signed a partnership agreement to jointly develop and support business in the asset finance and leasing industry in India, as well as other markets in the Asia Pacific region.
- NetSol Technologies and ABeam Consulting Ltd. entered into a strategic partnership agreement to jointly develop and support business in the asset finance and leasing industry in Japan, as well as cooperating in other key markets to serve Japanese corporations operating throughout the Asia Pacific region.
- Atheeb NetSol, the Saudi Arabia joint venture of NetSol Technologies, Inc., signed four new agreements in the areas of cyber security, application development and consulting.
 - NTNA signed an enhancement project for an auto finance captive subsidiary of a leading auto manufacturer.
- Vrooz, Inc. signed a large SRM 7.0 project implementation with long term care service provider in the United States.
- Vrooz, Inc. developed a 'Big Data' loader for the smartOCI® Catalog Manager which allows large supplier catalog files to be loaded via a secure web connection.
- Vrooz, Inc., has signed an agreement with a top U.S. media company to implement a full B2B e-commerce search engine suite, including the smartOCI® Search Engine, Catalog Manager and Supplier Marketplace.
- A leading U.S. chipmaker has signed an agreement to implement smartOCI® search engine in its SAP e-Procurement environment.
- NTE jointly acquired United Kingdom-based Virtual Lease Services, Ltd. ("VLS"), together with Investec Asset Finance Plc.
- Signed a multi-million dollar agreement to implement the NFS™ solution, including its retail platforms, to a European Automobile manufacturer for its Malaysian operations.
 - Won a major contract in the area of 'Information Security' with a leading Telecom in Pakistan.

The success of the Company, in the near term, will depend, in large part, on the Company's ability to: (a) continue to grow revenues and improve profits, (b) adequately capitalize for growth in various markets and verticals; (c) make progress in the North American markets and, (d) continue to streamline sales and marketing efforts in every market we operate. However, management's outlook for the continuing operations, which has been consolidated and has been streamlined, remains optimistic.

Marketing and Business Development Activities

Management has developed, and the board of directors has ratified, an aggressive 3-5 year growth strategy aimed at increasing competitiveness and financial strength.

This plan is designed to:

- Achieve 15-25% annual revenue growth for the next 5 years
- Achieve 60-65% gross margins in 2013 and average 70% for next three years.
 - Result in enhanced organic growth
 - Build a strong new ecommerce vertical under Vroozii platform
- Continue to enhance delivery and service capabilities in China, Thailand, USA and UK.
 - Strengthen NetSol brand and market shares in APAC markets
- Consistently hire the best available talent to develop the next line of managers for our growing demand

The plan contemplates the following enhanced activities and initiatives will accomplish these goals:

- o Continued expansion in the Chinese market which offers ever growing new opportunities in the auto, banking and lending sectors for NFS™.
- o NetSol is positioning China to become a dominant market for lending enterprise solutions for captive multinationals and local Chinese companies, including equipment finance, big ticket leasing markets and the banking industry. In the lease and finance domain NetSol can claim the de facto leadership position in the rapidly growing Chinese market.
- o Further augmentation of NTPK Thailand. The office space in Bangkok has been enhanced with new hires of local and international staff to address and support a very rapidly growing market. The pipeline of new customers is growing from the markets in Japan, South Korea, Australia, India and other regional markets. These markets will be serviced and supported from the Thailand office with strong sales and client support team. The Bangkok facility is intended to become an alternate delivery and implementation center for global customers and partners in Asia Pacific.
- o The new and fast growing manifestations of e-commerce, such as cloud computing, are being utilized by some of our offerings and will be further explored by us for other offerings. Our e-commerce division's smartOCI® has been demonstrated and presented to major fortune 500 companies in the US as an on-demand, catalogue content management system. The demand of e-procurement search engine seems robust and attractive. Continued new license sales activities are in the pipeline for Vrooz, Inc. Presently smartOCI® is the main asset in this entity while we explore other channels of growth in e-commerce and search engine space. There has been a surge of interest amongst fortune 500 corporations for demos and workshops for smartOCI® in recent months. To date, ten new US based major corporations have been signed up for smartOCI®.
- o Europe continues to experience a severe recession coupled with regional debt crises. NetSol Europe's operations have maintained modest growth in sales while the Company has further rationalized overall operating overheads. Despite the sluggish economy in Europe, our relationship with existing clientele is very strong and we expect to generate new revenues from these customers in this fiscal year. The integration of VLS in conjunction with Investec Bank as a JV partner should bolster growth in services sectors complementing core solutions and augmenting overall market share in the UK.
- o The market of the Kingdom of Saudi Arabia is robust, rich and well capitalized, offering vast opportunities for NetSol through our joint venture. Recently, there have been a few new local IT contracts awarded but our vision is based on long term and high value projects in the defense, public, infrastructure and multinational auto captive markets. In order to be equal partners with a major conglomerate, Atheeb Group, a \$2 billion group in revenue, we need to have the serious financial wherewithal and resources to bid on major projects exceeding \$100 million each in value. Currently, the joint venture has 10 employees based in Riyadh with direct delivery and implementation support from NetSol PK. Recently ANSCL has signed four new contracts both in defense and private sector to provide IT services and consulting in the key areas that are valued to over \$2.0MN. This is just a beginning as we see very exciting new developments as we close new contracts.
- o Our NFS™ suite of products is currently undergoing a major initiative towards developing the next generation of solutions. The Company believes that this would change the landscape for NetSol and increase both demand and the market. We are in the middle of developing a comprehensive sales and marketing plan requiring new personnel, markets and investment. However, the demand for current NFS has been very robust with some global clients and many new fortune 500 captive finance companies in China, Thailand and Japan.

- o In order to maximize the market and product potential of our SAP and Ecommerce line, highlighted by our smartOCI® product, we spun this line off into its own operational entity. We believe this will better enhance product and market development by providing a dedicated management and fulfillment staff.

Growth – New Alliances, Mergers & Acquisition

o The markets in the US and UK offer a host of complementary companies with impressive client bases to expand the distribution channels for NFS™ and its new generation product line. There are established small sized Companies, with relatively low valuations, which can become part of NetSol on an affordable basis. It is important to seek out these companies in order to grow our customer base, revenue and net margins by leveraging our delivery and implementation model.

Funding and Investor Relations:

The fundamental challenge constantly facing the management is to achieve sustainable growth with a healthy balance sheet, without too much dilution. In light of global opportunities for organic growth and through alliances and mergers and acquisitions, the Company raised cash through a public offering of shares of common stock in 2012. We are using this cash infusion to support sales and marketing, Vrooz, infrastructure, and operations and capital investment in the newly formed Chinese subsidiary, NetSol Beijing. Going forward any new capital raise would depend on new opportunities to accelerate growth organically and/or through M&A.

We are using proceeds from the last offering of shares to the public on:

- Expansion in China, Thailand and other emerging markets.
- Expanding the North American operation to roll out NetSol new generation solutions and enter Cloud Computing Solutions including building Vrooz.
- Build Vrooz as a winning name in the E-Commerce space.
- Support larger IT related public and defense sectors projects in the Kingdom of Saudi Arabia with our joint venture partner.
- Capital Expenditures for our next generation products, technology and infrastructure.
- Hiring and training of programmers, engineers, sales and marketing to create a bigger bench for technical team to cater to bigger volume new contracts.

Investor Relations efforts will include:

- Working to grow our institutional investor base.
- Sharing the NetSol story with sell side analysts, funds, portfolio managers and the financial media.
- Aggressively positioning NetSol in front of major investors' conferences and road shows to be organized by our IR consultants and investment bankers.
- Utilizing US mainstream media to highlight NetSol's image and 'niche' business offering.
-

Founding management continued investment in the Company in the open market reaffirming their commitment to the potential and the future of the Company.

Improving the Bottom Line:

Management believes that these measures will improve the bottom line on an ongoing basis:

- Improve pricing, sales volume and fee structures.
- Continue consolidation and reevaluating operating margins as ongoing activities.
- Streamline further cost of goods sold to improve gross margins to historical levels over 60%, as sales ramp up.
 - Generate higher revenues per employee, enhance productivity and lower cost per employee.
- Optimize the utilization of NetSol's best talent and resources, infrastructure, processes and disciplines to maximize the bottom-line and fully leverage the cost arbitrage.
- Grow process automation and leverage the best practices of CMMI level 5. Global delivery concept and integration will further improve both gross and net margins.
 - Cost efficient management of every operation and continue further consolidation to improve bottom line.

- Create more visibility and predictability by implementing SaaS model in mature markets. Retire Debt to reduce the interest cost significantly and to make every effort to avoid any one time charges.

Management continues to be focused on scaling up its delivery capability and has achieved key milestones in that respect. Key projects are being delivered on time and on budget, quality initiatives are succeeding, especially in maturing internal processes. CMMI level companies are reassessed every three years by independent consultants under the standards of the Carnegie Mellon University to maintain its CMMI Level 5 quality certification. As required, NetSol was reassessed in 2010 and was successfully recertified as CMMI Level 5. We believe that the CMMI standards are a key reason in NetSol's demand surge worldwide. We remain convinced that this trend will continue for all NetSol offerings promoting further beneficial alliances and increasing the number and quality of our global customers.

MATERIAL TRENDS AFFECTING NETSOL

Management has identified the following material trends affecting NetSol.

Positive trends:

- The global economic uncertainty and consolidations have opened doors for low cost solution providers such as NetSol. The BestShoring® model of NetSol is a catalyst in today's environment.
- Global economic pressures and the recession have shifted users of IT processes and technology to utilize both offshore and onshore solutions providers, to control costs and improve ROIs.
- Serious interest in NetSol's next generation solution has been expressed by a few global companies. Demos and workshops with key global clients and partners of have been very well received. Hence, the new generation solution, while not completely ready, is gaining momentum.
- First successful implementation of NextGen – NFS™ solution with a Thai bank is a very positive indicator for new deals.
- China has become the world's second largest economy, continuing to grow by over 8% a year while growth in other industrial nations has declined or grown only marginally.
- China's automobile and banking sectors have been unaffected by the global meltdown and their recent automobile sales statistics have outperformed all other economies.
- Growing interest in Japan for IT services and NFS applications within banking, equipment finance and general leasing industries.
- As reported by the Associated Press, China surpassed the US as the number one automobile market in auto sales. JD Powers & Associates anticipated further strong growth in future auto sales. It is anticipated that this market opportunity will result in further penetration by NetSol into China's burgeoning leasing and finance market.
- E-Commerce, new technologies, innovations and online activities are gaining momentum in many verticals. New areas for diversification are opening for NetSol. The B2B market has never been stronger in the US market alone thereby offering a potentially huge opportunity to grow Vroozii offerings.
- Strong entry in e-commerce space by way of developing and marketing a new IP and winning series of fortune 500 US customers.

- The surviving IT companies, such as NetSol, with price advantage and a global presence, will gain further momentum as economic indicators turn positive. The bigger customers and targeted verticals are much more cost conscious and are seeking a better rate of return on investments in IT services. NetSol has an edge due to its BestShoring® model and proven track record of delivery and implementations worldwide.
- The Kingdom of Saudi Arabia is investing billions in healthcare, education, defense, cyberspace securities, IT, infrastructure and many other new sectors. This makes it one of the most promising markets for the Atheeb NetSol joint venture.
- The dependency of our blue chip clients on NetSol solutions has further deepened; creating new enhancements, new modules, and services orders in the US.
- Improved outlook and earnings of bellwether technology companies in USA, reflecting the turnaround of this sector after recession.

- Global opportunities requiring NetSol to diversify its delivery capabilities to Bangkok and such other new emerging economies that offer geopolitical stability and low cost IT resources, thereby reducing dependency upon the Lahore technology campus.
- Our global multi-national clients have continued to pursue deeper relationships in newer regions and countries. This reflects our customers' dependencies and satisfaction with our NetSol Financial Suite of products.
- The levy of Indian IT sector excise tax of 35% (NASSCOM) on software exports is very positive for NetSol. In Pakistan there is a 15 year tax holiday on IT exports of services. There are 5 more years remaining on this tax incentive.

Negative trends:

- Geopolitical unrest due to extremism in the regions of Pakistan and Afghanistan.
 - Continued strains in US-Pakistan relations.
- The emergence of many smaller players offering IT solutions in China has resulted in greater price competition.
- The fear of renewed recession in the US and a continued sluggish European market, could adversely affect our business in North America and Europe.
- Tightened liquidity and credit restrictions in consumer spending has either delayed or reduced spending on business solutions and systems, squeezing IT budgets and extending decision making cycles.
- Restricted liquidity and financial burden due to tighter internal processes and limited budgets might cause delays in the receivables from some clients.
- Anticipated worsening US deficit and a rise in inflation in coming years would put further stress on consumers and business spending.
- Volatility in oil prices, Euro zone in European markets and uncertainty overall in global economies could deter the growth and GDP in the US.
- Unrest and growing war in Afghanistan could increase the migration of both refugees and extremists to Pakistan, thus creating domestic and regional challenges.

CRITICAL ACCOUNTING POLICIES

Our financial statements and accompanying notes are prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP"). Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. These estimates and assumptions are affected by management's application of accounting policies. Critical accounting policies for us include revenue recognition and multiple element arrangements, intangible assets, software development costs, and goodwill.

REVENUE RECOGNITION

The Company recognizes revenue from license contracts without major customization when a non-cancelable, non-contingent license agreement has been signed, delivery of the software has occurred, the fee is fixed or determinable, and collectability is probable. Revenue from the sale of licenses with major customization, modification, and development is recognized on a percentage of completion method. Revenue from the implementation of software is recognized on a percentage of completion method.

Revenue from consulting services is recognized as the services are performed for time-and-materials contracts. Revenue from training and development services is recognized as the services are performed. Revenue from maintenance agreements is recognized ratably over the term of the maintenance agreement, which in most instances is one year.

MULTIPLE ELEMENT ARRANGEMENTS

We may enter into multiple element revenue arrangements in which a customer may purchase a number of different combinations of software licenses, consulting services, maintenance and support, as well as training and development (multiple-element arrangements).

VSOE of fair value for each element is based on the price for which the element is sold separately. We determine the VSOE of fair value of each element based on historical evidence of our stand-alone sales of these elements to third-parties or from the stated renewal rate for the elements contained in the initial software license arrangement. When VSOE of fair value does not exist for any undelivered element, revenue is deferred until the earlier of the point at which such VSOE of fair value exists or until all elements of the arrangement have been delivered. The only exception to this guidance is when the only undelivered element is maintenance and support or other services, then the entire arrangement fee is recognized ratably over the performance period.

INTANGIBLE ASSETS

Intangible assets consist of product licenses, renewals, enhancements, copyrights, trademarks, trade names, and customer lists. Intangible assets with finite lives are amortized over the estimated useful life and are evaluated for impairment at least on an annual basis and whenever events or changes in circumstances indicate that the carrying value may not be recoverable. We assess recoverability by determining whether the carrying value of such assets will be recovered through the undiscounted expected future cash flows. If the future undiscounted cash flows are less than the carrying amount of these assets, we recognize an impairment loss based on the excess of the carrying amount over the fair value of the assets.

SOFTWARE DEVELOPMENT COSTS

Costs incurred to internally develop computer software products or to enhance an existing product are recorded as research and development costs and expensed when incurred until technological feasibility for the respective product is established. Thereafter, all software development costs are capitalized and reported at the lower of unamortized cost or net realizable value. Capitalization ceases when the product or enhancement is available for general release to customers.

The Company makes on-going evaluations of the recoverability of its capitalized software projects by comparing the amount capitalized for each product to the estimated net realizable value of the product. If such evaluations indicate that the unamortized software development costs exceed the net realizable value, the Company writes off the amount which the unamortized software development costs exceed net realizable value. Capitalized and purchased computer software development costs are being amortized ratably based on the projected revenue associated with the related

software or on a straight-line basis, whichever method results in a higher level of amortization.

GOODWILL

Goodwill represents the excess of the aggregate purchase price over the fair value of the net assets acquired in a purchase businesses combination. Goodwill is reviewed for impairment on an annual basis, or more frequently if events or changes in circumstances indicate that the carrying amount of goodwill may be impaired. The goodwill impairment test is a two-step test. Under the first step, the fair value of the reporting unit is compared with its carrying value (including goodwill). If the fair value of the reporting unit is less than its carrying value, an indication of goodwill impairment exists for the reporting unit and the enterprise must perform step two of the impairment test (measurement). Under step two, an impairment loss is recognized for any excess of the carrying amount of the

reporting unit's goodwill over the implied fair value of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation. The residual fair value after this allocation is the implied fair value of the reporting unit goodwill. Fair value of the reporting unit is determined using a discounted cash flow analysis. If the fair value of the reporting unit exceeds its carrying value, step two does not need to be performed.

The company does impairment testing of the goodwill on an annual basis at the balance sheet date i.e., June 30th. In addition to our annual internal impairment testing, the Company retains the services of an independent valuation specialist to validate our findings.

The source of the Company's goodwill relates to the acquisition of three companies namely NetSol PK Tech, CQ Systems, UK, VLS, UK and McCue Systems, USA. NetSol PK Tech operates in the Asia Pacific region; CQ Systems (currently NetSol Technologies Europe Limited) and VLS both operate in Europe; and McCue Systems (currently NetSol Technologies North America, Inc.) operates in the North American region. All these geographies are considered as different reporting units (segments). Goodwill arising from the acquisition of these companies has been allocated to their respective geographical segments to which they relate. While identifying reporting units/ segments, the Company takes into consideration the reports reviewed by the CEO (chief operating decision maker). As our financial reports are analyzed on this regional basis, we have defined this as segment reporting for purposes of goodwill impairment testing. Reporting unit detail of goodwill as of June 30, 2012 and 2011 is given below:

	As of June 30, 2012	As of June 30, 2011
Asia Pacific	\$ 1,303,372	\$ 1,303,372
Europe	3,685,858	3,471,813
USA	4,664,100	4,664,100
Total	\$ 9,653,330	\$ 9,439,285

There was no impairment of goodwill for the years ended June 30, 2012 and 2011. A number of factors are taken into consideration while calculating the fair value of the reporting units. These factors include the projected after tax earnings of the reporting unit, industry price earnings ratio and a reasonable discount rate to arrive at the actual fair value of the reporting unit.

As the fair value of all reporting units substantially exceeded the carrying values, no impairment was identified in the consolidated financial statements. The following table sets forth the percentage by which the fair value exceeds the carrying value for all reporting units as on June 30, 2012:

Reporting Units	Percentage by which fair value exceeds carrying value
Asia Pacific	7,138.84%
Europe	221.77%
North America	148.8%

CASH RESOURCES

We were successful in maintaining our cash position by the end of our fiscal year, June 30, 2012 with \$7.6 million in cash worldwide. In addition, \$6.47 million was injected by the exercise of options and sale of equity during the fiscal year.

RESULTS OF OPERATIONS

THE YEAR ENDED JUNE 30, 2012 COMPARED TO THE YEAR ENDED JUNE 30, 2011

Net revenues for the year ended June 30, 2012 were \$39,775,524 as compared to \$36,547,573 for the year ended June 30, 2011. Net revenues are broken out among the subsidiaries as follows:

	2012		2011	
	Revenue	%	Revenue	%
Corporate headquarters	\$-	0.00 %	\$-	0.00 %
North America:				
NTNA	3,257,059	8.19 %	4,223,863	11.56 %
Vroozi	1,295,114	3.26 %	-	0.00 %
	4,552,173	11.44 %	4,223,863	11.56 %
Europe:				
Netsol UK	-	0.00 %	-	0.00 %
NTE	4,395,364	11.05 %	7,158,145	19.59 %
VLS	1,276,838	3.21 %	-	0.00 %
HAFL	4,190	0.01 %	-	0.00 %
	5,676,392	14.27 %	7,158,145	19.59 %
Asia-Pacific:				
Netsol Tech (PK)	22,679,948	57.02 %	19,432,469	53.17 %
Netsol-Innovation	3,444,916	8.66 %	2,864,942	7.84 %
Netsol Connect	636,849	1.60 %	612,789	1.68 %
Netsol-Abraxas Australia	390,819	0.98 %	44,540	0.12 %
Netsol-Thailand	1,084,285	2.73 %	2,210,827	6.05 %
NetSol Beijing	1,310,142	3.29 %	-	0.00 %
	29,546,959	74.28 %	25,165,567	68.86 %
Total	\$39,775,524	100.00 %	\$36,547,574	100.00 %

Until Vroozi was incorporated as a new entity in the middle of the fiscal year 2012, the Vroozi revenue was recorded as a division of NTNA through the third quarter of the fiscal year 2012.

Edgar Filing: NETSOL TECHNOLOGIES INC - Form 10-K

The following table sets forth the items in our consolidated statement of operations for the years ended June 30, 2012 and 2011 as a percentage of revenues.

	For the Year Ended June 30,					
	2012			2011		
Net Revenues:						
License fees	\$13,369,701	33.61	%	\$11,284,472	30.88	%

The Company has maintained its estimated revenue projections despite severe global economic challenges. Total consolidated net revenue for fiscal year 2012, increased 8.83% from \$36,547,574 in fiscal year 2011, to \$39,775,524, in fiscal year 2012. This increase included a 5.06% growth in maintenance fee revenue, from \$7,488,388 to \$7,866,930 and a 4.3% growth in service revenue from \$17,774,714 to \$18,538,893, including consulting and implementation services. The increase in consolidated net revenue is mainly attributed to approximately a 18.48% rise in license revenue from \$11,284,472 in 2011 to \$13,369,701 in 2012. This increase in license revenue shows confidence of the customers in our flagship product NetSol Financial Suite.

The Company is well-positioned for revenue growth and has invested heavily in the development of its next generation product, which is expected to be completed during the calendar year 2013. Globally, our target customers are still using old systems for maintaining their lease and finance portfolios and are now planning to replace their legacy systems. NetSol, being a trusted name in this field, is in a good position to tap new business from these companies. The completion of this next generation software will provide the Company the capability to enter into a much larger market. We note that this product-conversion may negatively impact our license fee revenue until which point the new product gains traction in the marketplace.

The gross profit was \$21,497,501 for year ended June 30, 2012, as compared with \$21,743,448 for the same period of the previous year. This is a slight decrease of 1.13%. The gross profit percentage was 54.05% for the current fiscal year and 59.49% in the prior year. The cost of sales was \$18,278,023 in the current year compared to \$14,804,126 in the prior year. The increase in cost of sales is mainly due to increase in salaries of the technical staff, increased travel to implement the software at client sides, increase in depreciation and amortization expense and some inflationary factors affecting global economy.

Operating expenses were \$14,232,919 for the year ended June 30, 2012, as compared to, \$11,578,628 for the year ended June 30, 2011, an increase of 22.92% from the prior year. The increase is mainly attributable to reversal of lease abandonment charges upon final settlement with the lessor last year increase in salaries and wages as well as in general and administrative expenses. Depreciation and amortization expense amounted to \$1,113,758 and \$1,180,226 for the year ended June 30, 2012 and 2011, respectively. Combined salaries and wage costs were \$4,191,593 and \$3,347,896 for the comparable periods, respectively, or an increase of \$843,697 from the corresponding period last year. One of the main reasons for this increase is the acquisition of another subsidiary which salaries are consolidated for the first time. General and administrative expenses were \$4,679,840 and \$3,719,796 for the years ended June 30, 2012 and 2011, respectively, an increase of \$960,044 or 25.81%. As a percentage of sales, these expenses were 11.75% in the current year compared to 10.18% in the prior year. The increase in cost is also attributable to the first time consolidation of the new subsidiary acquired in UK.

Selling and marketing expenses slightly increased to \$3,130,379 for the year ended June 30, 2012 as compared to \$3,016,402 for the year ended June 30, 2011. As a percentage of sales, these expenses were 7.86% in the current year compared to 8.25% in the prior year. The Company provided for certain doubtful debts of \$124,291 and \$367,064, during the years ended June 30, 2012 and 2011, respectively.

Income from operations in fiscal year 2011 was \$7,264,582 as compared to \$10,164,821 in fiscal year 2011. As a percentage of sales, net income from operations was 18.26% in the current year as compared to 27.81% in the prior period.

Net income in fiscal year 2012 was \$2,446,545 as compared to \$5,728,088 in fiscal year 2011. The current fiscal year amount includes a net reduction for the minority interest in earnings of \$4,202,726 compared to a reduction of \$3,974,882 in the prior year for the 49.9% minority interest in NetSol Innovation, the 39.48% minority interest in NetSol PK and the 49% minority interest in VLS. The net earnings per share, basic and diluted, were \$0.39 in 2012 as compared to \$1.18 and \$1.16 in 2011.

The net EBITDA income was \$7,885,561 as compared to \$10,845,992 after amortization and depreciation charges of \$4,641,987 and \$4,288,512, income taxes of \$55,384 and \$120,542, interest expense of \$823,684 and \$863,707 and interest income of \$82,039 and \$154,856 respectively. The EBITDA income per share, basic & diluted was 1.27 and \$1.26 as compared to \$2.23 and \$2.19 in the year ago period. Although the net EBITDA income is a non-GAAP measure of income, we are providing it because we believe it to be an important supplemental measure of our performance that is commonly used by securities analysts, investors, and other interested parties in the evaluation of companies in our industry. It should not be considered as an alternative to net income, operating income or any other financial measures calculated and presented, nor as an alternative to cash flow from operating activities as a measure

of our liquidity. It may not be indicative of the Company's historical operating results nor is it intended to be predictive of potential future results.

Quarterly Results of Operations for the quarter ended June 30, 2012 and June 30, 2011

Net revenues for the quarter ended June 30, 2012 and 2011 are broken out among the subsidiaries as follows:

Edgar Filing: NETSOL TECHNOLOGIES INC - Form 10-K

The following table presents our unaudited quarterly results of operations for the quarters ended June 30, 2012 and 2011. You should read the following table together with the consolidated financial statements and related notes contained elsewhere in this report. We have prepared the unaudited information on the same basis as our audited consolidated financial statements. This table includes normal recurring adjustments that we consider necessary for the fair presentation of our financial position and operating results for the quarters presented. Operating results for any quarter are not necessarily indicative of results for any future quarters or for a full year.

Liquidity and Capital Resources

We note that the Company's cash position was \$7,599,607 at June 30, 2012 compared to \$4,172,802 at June 30, 2011. Further, we note that the Company's current assets, as of June 30, 2012, totaled \$36,278,106 and were 39.68% of total assets, an increase of 4.88% from \$34,590,438, or 40.39% of total assets as of June 30, 2011. As of June 30, 2012, the Company's working capital (current assets less current liabilities) totaled \$22,673,556 compared to \$14,575,589 as of June 30, 2011, an increase of \$8,097,967. As of June 30, 2012, the Company had \$13,757,637 million in accounts receivable and \$12,131,329 million in revenues in excess of billings. Net cash provided by operating activities amounted to \$8,112,715 for the year ended June 30, 2012, as compared to \$13,922,191 for the year ended June 30, 2011.

The decrease is mainly due to a decrease in accounts receivable and net profits of the company, accounts receivable. The average collection cycle for accounts receivables ranges between three to six months from the date of invoicing. Payments are usually received within the due dates. The average days sales outstanding for the year ended June 30, 2012, were 127 days as compared with 150 days in fiscal year 2011.

We note that net cash used in investing activities amounted to \$11,407,346 for the year ended June 30, 2012, as compared to \$17,795,596 for the year ended June 30, 2011. The difference is primarily a result of the less capitalization of intangible assets and decrease in purchases of fixed assets. Please note that the Company had purchases of property and equipment of \$4,912,322 compared to \$9,085,148 for the comparable period last fiscal year.

We note that net cash provided by financing activities amounted to \$9,091,751 and \$4,266,782 for years ended June 30, 2012, and 2011, respectively. The current fiscal year included the cash inflow of \$5,743,300 from the sale of common stock and \$728,500 from the exercising of stock options and warrants, compared to \$4,099,250 and \$1,615,050 in the prior year, respectively. As of June 30, 2012 the convertible notes payable, net of the associated beneficial conversion feature amounted to \$3,745,457 out of which 75% could be payable in fiscal 2013 at the option of lender.

In the current fiscal year, the Company had \$4,250,308 in proceeds from bank loans, and net capital leases payments of \$8,089,139 as compared to \$2,969,146 in proceeds from bank loans, and net capital leases payments of \$3,118,344 in the comparable period last year. The Company operates in a range of geographical regions of the world through its various subsidiaries. These subsidiaries have financial arrangements from various financial institutions to meet both their short and long term funding requirements. These loans will become due at different maturity dates the detail of which is given in Note No. 12 of the annexed financial statements. The Company and all of its subsidiaries are in compliance with our financial covenant arrangements. The Company's subsidiary, NetSol PK, has a term finance facility from Askari Bank to finance the construction of a new building. The total amount of the facility is Rs. 162,500,000 or approximately \$1,719,577 which is secured by way of first charge of Rs. 580 million of land, building, and equipment of the Company. The Company has used only Rs. 100 million (\$1,058,201 approximately) of this facility as on June 30, 2012 and the balance of Rs. 62.5 million is available depending upon the financial requirements of the Company.

The Company plans on pursuing various and feasible means of raising new funding to: expand its infrastructure, enhance product offerings and strengthen marketing and sales activities in strategic markets. A strong growth in earnings and the signing of larger contracts with Fortune 500 customers largely depends on the financial strength of NetSol. Generally, the bigger name clients and new prospects diligently analyze and take into consideration a stronger balance sheet before awarding big projects to vendors. Therefore, NetSol would continue its effort to further enhance its financial resources in order to continue to attract large name customers and big value contracts.

As a growing and dynamic company, we will continue our organic growth strategy in selective markets. While we have scaled down any major capital expenditures, there will be on-going capital expenditure needs based on our short

term and long term business plans. Although our requirements for capital expenses vary from time to time, for the next 12 months, we anticipate having the need for working capital of \$4.0 to \$6.0 million for overall expansion plans that would involve continued R&D, new product development, business development activities and infrastructure enhancements.

Management intends to further improve the accounts receivable collections process from our customers. In addition, we expect that significant executive and employee stock options exercises as a substantial amount of these options are in the money. The Company will explore injections of new capital from strategic investors, as the most feasible and viable source of new capital. Some of the joint ventures partners could be amongst the strategic investors to

strengthen our balance sheet. Management is very aware of the need to continue to reduce both short term and long term liabilities while continuously improving cash flow and net cash position. Management remains very committed and focused to strengthening overall assets and will employ all of the above mentioned tools and such others as may become available to achieve these goals.

Financial Covenants

Our UK based subsidiary, NetSol Technologies Europe Limited (NTE) has an approved overdraft facility of £200,000 which requires that the aggregate amount of invoiced trade debtors (net of provisions for bad and doubtful debts and excluding intra-group debtors) of NTE, not exceeding 90 days old, will not be less than an amount equal to 200% of the facility. NTE had been granted another credit facility of £1,000,000 for the acquisition VLS. This facility requires that NTE's adjusted tangible net worth would not be less than £600,000. For this purpose, adjusted tangible net worth means shareholders' funds less intangible assets plus non-redeemable preference shares. In addition, NTE's cash debt service coverage would not fall below 150% of the aggregate debt service cost. The Pakistani subsidiary, NetSol Technologies Limited (NTPK) has an approved facility for both export refinance and term finance from Askari Bank Limited amounting to Rupees 362.5 million (\$3,835,979) which requires NTPK to maintain a long term debt equity ratio of 60:40 and the current ratio of 1:1.

As of the date of this report, the Company and all its subsidiaries are in compliance with the financial covenants associated with its borrowings. The maturity dates of the borrowings of respective subsidiaries may accelerate if they do not comply with these covenants. In case of any change in control in subsidiaries, they may have to repay their respective credit facilities.

Dividends and Redemption

It has been the Company's policy to invest earnings in the growth of the Company rather than distribute earnings as common stock dividends. This policy, under which common stock dividends have not been paid since the Company's inception and is expected to continue, but is subject to regular review by the Board of Directors.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to financial market risks, including changes in currency exchange rates and interest rates.

Foreign Currency Exchange Risk

Economic Exposure

We transact business in various foreign currencies and have significant international revenues, as well as costs denominated in foreign currencies. This exposes us to the risk of fluctuations in foreign currency exchange rates. Since majority of the operations of the company are based in the Asia Pacific region where Pak Rupee is continuously losing its value against the US Dollar and we don't have any imports, therefore, we believe it is counter-productive to hedge this exposure. Devaluation of Pak rupee results in foreign exchange gain to the company.

Transaction Exposure

Our exposure to foreign currency transaction gains and losses is the result of certain net receivables due from our foreign subsidiaries and customers being denominated in currencies other than the functional currency of the subsidiary, primarily the Euro, Yuan, Baht and Pak Rupee. Our foreign subsidiaries conduct their businesses in local currency. Since majority of the operations of the company are based in the Asia Pacific region where Pak Rupee is continuously losing its value against the US Dollar and we don't have any imports, therefore, we believe it is

counter-productive to hedge this exposure.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The Consolidated Financial Statements that constitute Item 8 are included at the end of this report on page F-1.

33

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Except as noted in Item 9A, Kabani & Company, Inc.'s report on NetSol's financial statements for the fiscal years ended June 30, 2012 and June 30, 2011, did not contain an adverse opinion or disclaimer of opinion, and was not qualified or modified as to uncertainty, audit scope, or accounting principles.

Also except as noted in Item 9A below, In connection with the audit of NetSol's financial statements for the fiscal years ended June 30, 2012 and June 30, 2011 there were no disagreements, disputes, or differences of opinion with Kabani & Company on any matters of accounting principles or practices, financial statement disclosure, or auditing scope and procedures, which, if not resolved to the satisfaction of Kabani & Company would have caused Kabani & Company to make reference to the matter in its report.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 under the Exchange Act, as of the end of the period covered by this Annual Report on Form 10-K. Based upon that evaluation, the Chief Financial Officer and Chief Executive Officer concluded that our disclosure controls and procedures were not effective.

Management's Report on Internal Control over Financial Reporting

Our management has the responsibility to establish and maintain adequate internal controls over our financial reporting, as defined in Rule 13a-15(f) under the Securities and Exchange Act of 1934. Our internal controls are designed to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of our external financial statements in accordance with generally accepted accounting principles (GAAP).

Due to inherent limitations of any internal control system, management acknowledges that there are limitations as to the effectiveness of internal controls over financial reporting and therefore recognize that only reasonable assurance can be gained from any internal control system. Accordingly, our internal control system may not detect or prevent material misstatements in our financial statements and projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision and participation of management, including the Chief Executive Officer and Chief Financial Officer, we have performed an assessment of the effectiveness of our internal controls over financial reporting as of June 30, 2012. This assessment was based on the criteria established in Internal Control-Integrated Framework, issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on the results of our assessment, the Company has determined that as of June 30, 2012, there was a material weakness in the Company's internal control over financial reporting. Specifically, while in the performance of this assessment, management identified that its core accounting staff do not have necessary technical accounting knowledge and training relating to accounting for complex U.S. GAAP matters. Based on this evaluation, management concluded that our internal control over financial reporting was not effective as of June 30, 2012. Notwithstanding the existence of such material weakness in our internal controls over financial reporting, our management, including our Chief Executive Officer, believes that the financial statements included in this report fairly present in all material respects our financial condition, results of operations and cash flows for the periods presented.

Management is committed to remediating the material weakness as quickly as possible and we will continue to

encourage our current accounting staff to both further their continuing education and to sit for the Certified Public Accountant exam in the United States. Company is also focusing to hire additional accounting staff with necessary experience and training with respect to US GAAP.

Kabani & Company, Inc., our independent registered public accounting firm, has issued an attestation report on the effectiveness of the Company's internal control over financial reporting.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal controls over financial reporting during the fourth quarter of fiscal year 2012, that have materially affected, or are reasonable likely to materially affect, the Company's internal control over

financial reporting (as defined in Exchange Act Rules 13a – 15(f) and 15d – 15(f)).

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires that the Company's directors and executive officers and persons owning more than 10% of the outstanding Common Stock, file reports of ownership and changes in ownership with the Securities and Exchange Commission ("SEC"). Executive officers, directors and beneficial owners of more than 10% of the Company's Common Stock are required by SEC regulation to furnish the Company with copies of all Section 16(a) forms they file.

Based solely on copies of such forms furnished as provided above, or written representations that no such forms were required, the Company believes that during the fiscal year ended June 30, 2012, all Section 16(a) filing requirements applicable to its executive officers, directors and beneficial owners of more than 10% of its Common Stock were complied with.

CHANGE IN MANAGEMENT AND BOARD OF DIRECTORS

Executive Officers

Mr. Salim Ghauri is CEO of NetSol Technologies Limited, a subsidiary of the Company located in Lahore, Pakistan. Mr. Naeem Ghauri is head of Global Sales and CEO of NetSol Technologies Europe, Ltd., the Company's wholly owned UK subsidiary and Vroozi, Inc., a wholly owned subsidiary. In prior years, these individuals held titles at the Company level. A discussion of their compensation was included in the 10-K for the 2010-2011 fiscal year and in the Company's proxy statement for the meeting held in August 2012. As Mr. Naeem Ghauri continues to act as a director, and as both individuals have family relationships with the CEO and Chairman of the Company, compensation packages shall continue to be reviewed and approved by the Company's Compensation Committee.

Board of Directors

At the 2012 Annual Shareholders Meeting, the Company's current five member board stood for election. The members were elected and, according to the bylaws of the company shall retain their position as directors until the next meeting. The board of directors is made up of: Mr. Najeeb U. Ghauri, Mr. Eugen Beckert, Mr. Naeem U. Ghauri, Mr. Shahid Burki and Mr. Mark Caton.

Committees

The Audit committee is made up of Mr. Burki as Chairman, Mr. Caton and Mr. Beckert as members. The Compensation committee consists of Mr. Caton as its Chairman and Mr. Beckert and Mr. Burki as its members. The Nominating and Corporate Governance Committee consists of Mr. Beckert as chairman and Mr. Burki and Mr. Caton.

The table below provides the membership for each of the committees during Fiscal Year 2012.

Director	Audit Committee	Compensation Committee	Nominating and Corporate Governance Committee

Najeeb Ghauri				
Naeem Ghauri				
Salim Ghauri*				
Shahid J. Burki (I)	X (C)	X		X
Eugen Beckert (I)	X	X		X (C)
Mark Caton (I)	X		X (C)	X
Alex Shakow (I)*	X	X		X

(I) Denotes an independent director.

(C) Denotes the Chairperson of the committee.

* The Company determined to change the number of current directors from 7 to 5 members. Mr. Salim Ghauri and Mr. Alex Shakow did not stand for re-election. The board continues to consist of a majority of independent members.

DIRECTORS AND EXECUTIVE OFFICERS

The following table sets forth the names and ages of the current directors and executive officers of the Company, the principal offices and positions with the Company held by each person and the date such person became a director or executive officer of the Company. The Board of Directors elects the executive officers of the Company annually. Each year the stockholders elect the Board of Directors. The executive officers serve terms of one year or until their death, resignation or removal by the Board of Directors. In addition, there was no arrangement or understanding between any executive officer and any other person pursuant to which any person was selected as an executive officer.

The directors and executive officers of the Company are as follows:

Name	Year First Elected As an Officer or Director	Age	Position Held with the Registrant	Family Relationship
Najeeb Ghauri	1997	58	Chief Executive Officer, Chairman and Director	Brother to Naeem Ghauri
Boo-Ali Siddiqui	2009	38	Chief Financial Officer	None
Patti L. W. McGlasson	2004	47	Secretary, General Counsel	None
Naeem Ghauri	1999	55	Director	Brother to Najeeb Ghauri
Shahid Javed Burki	2000	72	Director	None
Eugen Beckert	2001	66	Director	None
Mark Caton	2002	61	Director	None

Business Experience of Officers and Directors:

NAJEEB U. GHAURI is the Chief Executive Officer and Chairman of NetSol. He has been a Director of the Company since 1997, Chairman since 2003 and Chief Executive Officer since October 2006. Mr. Ghauri is the founder of NetSol Technologies, Inc. He was responsible for NetSol listing on NASDAQ in 1999, the NetSol subsidiary listing on KSE (Karachi Stock Exchange) in 2005, and the NetSol listing on the NASDAQ Dubai exchange in 2008. Mr. Ghauri served as the Company's Chief Executive Officer from 1999 to 2001 and as the Chief Financial Officer from 2001 to 2005. As CEO, Mr. Ghauri is responsible for managing the day-to-day operations of the Company, as well as the Company's overall growth and expansion plan. Prior to joining the Company, Mr. Ghauri was part of the marketing team of Atlantic Richfield Company (ARCO) (now acquired by BP), a Fortune 500 company, from 1987-1997. Prior to ARCO, he spent nearly five years with Unilever as brand and sales managers. Mr. Ghauri received his Bachelor of Science degree in Management/Economics from Eastern Illinois University in 1979, and his M.B.A. in Marketing Management from Claremont Graduate School in California in 1981. Mr. Ghauri was elected Vice Chairman of US Pakistan Business Council in 2006, a Washington D.C. based council of US Chamber of Commerce. He is also very active in several philanthropic activities in emerging markets and is a founding director of Pakistan Human Development Fund, a non-profit organization, a partnership with UNDP to promote literacy, health services and poverty alleviation in Pakistan. Mr. Ghauri has participated in NASDAQ

opening and/or closing bell ceremonies in 2006, 2008 and 2009. The Nominating Committee determined that Mr. Ghauri's long term experience with the Company and his direct experience with capital markets and investment community make him qualified to serve on our Board of Directors. Mr. Ghauri is a director of DNA Health Corporation, a start-up health care business.

BOO-ALI SIDDIQUI has served as NetSol's Chief Financial Officer since April 2009. He also serves as the Chief Financial Officer and Company Secretary of NetSol Technologies Ltd. managing the finances of all companies in the Asia group since 2005. Prior to joining NetSol, he served as Deputy Registrar of Companies for the Securities & Exchange Commission of Pakistan (SECP) and as Senior Manager, Audit and Tax, for Ehtisham & Co., Chartered Accountants. Mr. Siddiqui holds a Bachelor of Commerce from Hailey College of Commerce, Lahore, University of The Punjab, Pakistan, is a Fellow Member of the Institute of Chartered Accountants of Pakistan (FCA), the Institute of Chartered Secretaries & Managers (FICS) and the Pakistan Institute of Public Finance Accountants (FPFA). He is also member of the Institute for Internal Controls USA and the Institute of Forensic Accountants of Pakistan. He completed his four years articleship from Ford Rhodes Sidat Hyder & Company a renowned accounting firm in Pakistan representing Ernest Young International.

PATTI L. W. MCGLASSON joined NetSol as General Counsel in January 2004 and was elected to the position of Secretary in March 2004. Prior to joining NetSol, Ms. McGlasson practiced at Vogt & Resnick, law corporation, where her practice focused on corporate, securities, business and cross-border transactions. As part of her Masters in Law in Transnational Business, she interned at the law firm of Loeff Claey's Verbeke in Rotterdam, the Netherlands in 1991. Ms. McGlasson was admitted to practice in California in 1991. She received her Bachelor of Arts in Political Science in 1987 from the University of California, San Diego and, her Juris Doctor and Masters in Law in Transnational Business from the University of the Pacific, McGeorge School of Law, in 1991 and 1993, respectively.

NAEEM GHOURI has been a Director of the Company since 1999 and was the Company's Chief Executive Officer from August 2001 to October 2006. Mr. Ghauri serves as the Managing Director of NetSol (UK) Ltd., a wholly owned subsidiary of the Company located in London, England. He is also the director of the Global Sales group. While instrumental in numerous transactions, his most significant contribution to the revenue of the Company was his role in closing the TiG NetSol Joint Venture in 2005. Prior to joining the Company, Mr. Ghauri was Project Director for Mercedes-Benz Finance Ltd., from 1994-1999. Mr. Ghauri supervised over 200 project managers, developers, analysis and users in nine European Countries. Mr. Ghauri earned his degree in Computer Science from Brighton University, England. Mr. Ghauri serves on the board of NetSol Technologies Europe, Ltd., a subsidiary of the Company. The Nominating Committee determined that Mr. Ghauri's experience in auto finance, a significant portion of our revenues, and his experience in developing new business opportunities and relationships for the Company make him qualified to serve on our Board of Directors.

EUGEN BECKERT was appointed to the Board of Directors in August 2001. A native of Germany, Mr. Beckert received his masters in Engineering and Economics from the University of Karlsruhe, Germany. Mr. Beckert was with Mercedes-Benz AG/Daimler Benz AG from 1973, working in technology and systems development. In 1992, he was appointed director of Global IT (CIO) for Debis Financial Services, the services division of Daimler Benz. From 1996 to 2000, he acted as director of Processes and Systems (CIO) for Financial Services of DaimlerChrysler Asia Pacific Services. During this period he was instrumental to having the LeaseSoft products of NetSol developed and introduced in several countries as a pilot customer. From 2001 to 2004, he served as Vice President in the Japanese company of DCS. Mr. Beckert retired from DaimlerChrysler in November 2006. Mr. Beckert is chairman of the Nominating and Corporate Governance Committee and a member of the Audit and Compensation Committees. The Nominating Committee determined that Mr. Beckert's experience in auto finance related IT, specifically as CIO for Debis Financial Services, together with his status as an independent director under Nasdaq rules makes him qualified to serve on our Board of Directors.

SHAHID JAVED BURKI was appointed to the Board of Directors in February 2003. Before joining the World Bank in 1974 he was a member of the Civil Service of Pakistan. He had a distinguished career with the World Bank from 1974 to 1999 where he held a number of senior positions including Chief of Policy Planning (1974-1981); Director of International Relations Department (1981-87); Director of China Department (1987-94); and Vice President of Latin America and the Caribbean Region (1994-99). Upon taking early retirement from the Bank, he took up the position of Chief Executive Officer of EMP Financial Advisors, a consulting company linked with the Washington based EMP Global, a private equity firm and worked there until 2005. He is currently Chairman the Institute of Public Policy, a think tank associated with the Beacon house National University, Lahore, Pakistan. He also spends some time each year as Senior Visiting Research Fellow at the Institute of South Asian Studies, National Singapore University. In 1996-97 he took leave of absence from the World Bank to take up the position of Finance Minister of Pakistan. Mr. Burki was educated at Government College, Lahore from where he received M.Sc. in Physics; at Oxford University as a Rhodes Scholar from where he received M.A. (Hons) in Economics; at Harvard University as a Mason Fellow from where he received M.P.A. and also studied for Ph.D. in Economics (not completed). In 1997, he received a Diploma in Advanced Management from Harvard University's Business School. Mr. Burki has authored several books and articles on development issues including Study of Chinese Communes (Harvard University Press, 1969); Pakistan Under Bhutto (Macmillan, 1990); Changing Perceptions, Altered Reality: Pakistan's Economy Under Musharraf, 1999-2006 (Oxford University Press, 2007). He is currently working on a book, Changing Asia to be published later

this year by Routledge, London. Mr. Burki is a chairman of the Audit Committee and a member of the Compensation and Nominating and Corporate Governance Committees. Mr. Burki is the Company's Financial Expert on the Audit Committee. The Nominating Committee believes that Mr. Burki's vast experience as an economist and entrepreneur with specialization on the Asia Pacific markets, his status as our financial expert and, finally, his status as an independent director under Nasdaq rules makes him qualified to serve on our Board of Directors.

MARK CATON joined the board of directors in 2007. Mr. Caton is currently President of Centela Systems, Inc. a distributor of computer peripheral solutions in the multimedia and digital electronic market segment, a position he has held since 2003. Prior to joining Centela, Mr. Caton was President of NetSol Technologies USA, responsible for US sales, from June 2002 to December 2003. Mr. Caton was employed by ePlus from 1997 to 2002 as Senior Account Representative. He was a member of the UCLA Alumni Association Board of Directors and served on the Board of Directors of NetSol from 2002-2003. Mr. Caton is a Chairman of the Compensation Committee and a member of the Audit and Nominating Committees. Mr. Caton received his BA from UCLA in psychology in 1971. The Nominating Committee believes that Mr. Caton's understanding of the US IT market, his experience in human resources related issues, and his status as an independent director under Nasdaq rules qualifies him to serve on our Board of Directors.

CORPORATE GOVERNANCE

Code of Ethics

The Company adopted on July 2, 2004, as amended and restated on July 22, 2007, a Code of Ethics applicable to every officer, director and employee of the Company, including, but not limited to the Company's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. Our Code of Ethics has been posted on our website and may be viewed at www.netsoltech.com/IR/corporate-governance.

Audit Committee

The Company has an audit committee whose members are the independent directors of the Company, specifically, Mr. Beckert, Mr. Burki and, Mr. Caton. Mr. Burki is the current chairman of the audit committee.

Audit Committee Financial Expert

The Company has identified its audit chairperson, Mr. Shahid Javed Burki as its audit committee financial expert. Mr. Burki is an independent board member as the term is defined in the Nasdaq Listing Rules. Mr. Burki's experience as Finance Minister of Pakistan, Chief Executive Officer of EMP Financial Advisors, his various roles at the World Bank, and his tenure as both an audit committee member and chair for the Company, provides him with an understanding of generally accepted accounting principles and financial reporting. Additionally, this experience provides an ability to assess the general application of accounting principles in connection with the accounting for estimates, accruals and reserves; experience analyzing financial statements that were comparable in the breadth and complexity of issues that can be reasonably expected to be raised by the Company's financial statements; an understanding of internal control over financial reporting; and an understanding of audit committee functions.

ITEM 11-EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

NetSol Technologies' Named Executive Officers, a group comprised of the Chief Executive Officer, the Chief Financial Officer and the Secretary and General Counsel in the 2011-2012 fiscal year are the following individuals:

Najeeb Ghauri	Chief Executive Officer
Boo Ali	Chief Financial Officer
Patti L. W. McGlasson	Secretary and General Counsel

Compensation Philosophy and Objectives

The Compensation Committee believes that the most effective executive compensation program is one that is designed to reward the achievement of specific annual, long-term and strategic goals by the Company, and which aligns executives' interests with those of the stockholders by rewarding performance at or above established goals, with the ultimate objective of increasing stockholder value. The philosophy of the Compensation Committee is to evaluate both performance and compensation to ensure that we maintain our ability to attract and retain superior employees in key positions and that compensation provided to key employees remains competitive relative to the compensation paid to similarly situated executives of our peer companies. To that end, the Compensation Committee believes executive compensation packages should include both cash and equity-based compensation that reward performance as measured against established goals.

Setting Executive Compensation

Management develops our compensation plans by utilizing publicly available compensation data in the media services and technology industries. We believe that the practices of these groups of companies provide us with appropriate compensation benchmarks, because these groups of companies are in similar businesses and tend to compete with us for executives and other employees. For benchmarking executive compensation, we typically review the compensation data we have collected from these groups of companies, as well as a subset of the data from those companies that have a similar number of employees as the Company. For purposes of determining executive compensation, as of the period covered by this report, we have not engaged consultants to help us analyze this data or to compare our compensation programs with the practices of the companies represented in the compensation data we review. However, the compensation committee has determined to utilize the services of a consultant for purposes of comparing our compensation program with similarly situated companies in like industries. The recommendations of these consultants will be utilized by the Committee in determining the appropriate compensation packages. While these consultants may make general recommendations about the size and components of compensation, we anticipate our philosophy to continue on the basis of a pay-for-performance philosophy.

Based on management's analyses and recommendations, the Compensation Committee has approved a pay-for-performance compensation philosophy, which is intended to establish base salaries and total executive compensation (taking into consideration the executive's experience and abilities) that are competitive with those companies with a similar number of employees represented in the compensation data we review.

We work within the framework of this pay-for-performance compensation philosophy to determine each component of an executive's initial compensation package based on numerous factors, including:

- The individual's particular background, track record and circumstances, including training and prior relevant work experience;
- The individual's role with us and the compensation paid to similar persons in the companies represented in the compensation data that we review;
- The demand for individuals with the individual's specific expertise and experience;
- Performance goals and other expectations for the position; and,
- Uniqueness of industry skills.

The terms of each executive officer's compensation are derived from employment agreements negotiated between the Company and the executive. Each executive's employment agreement is generally negotiated to cover a one to three-year period, and prescribes the base salary and other annual payments, if any, to the executive. Employment agreements for all executive officers are approved by the Board of Directors and the Compensation Committee. Employment agreements for other executives are approved by the Company's Chief Executive Officer.

2012 Executive Compensation Components

For the fiscal year ended June 30, 2012, the principal components of compensation that our named executive officers were eligible to receive were:

- Base salary;
- Long Term Equity Incentive Compensation;
- Performance-based incentive compensation (discretionary bonus); and,

- Perquisites and other personal benefits.

Base Salary

An executive's base salary is evaluated together with components of the executive's other compensation to ensure that the executive's total compensation is consistent with our overall compensation philosophy.

40

The base salaries were established in arms-length negotiations between the executive and the Company, taking into account their extensive experience, knowledge of the industry, track record, and achievements on behalf of the Company.

Base salaries are adjusted annually by the Compensation Committee. As of June 30, 2011, the annual review had not been completed and annual adjustments had not occurred.

Annual Bonus

Our compensation program includes eligibility for bonuses as rewarded by the Compensation Committee. All executives are eligible for annual performance-based cash bonuses in accordance with Company policies. The compensation committee takes into consideration the executive's performance during the previous year to determine eligibility for discretionary bonuses. Further, the compensation committee will review, if applicable, the performance criteria set forth in an executive's previous year's agreement and will determine if the executive has met such criteria in order to achieve the bonus. The Company's bonus criteria at the executive management level, is typically based on a gross revenue and per share profit targets.

During our fiscal year ended 2012, none of the named executives were awarded cash bonuses.

Long-Term Equity Incentive Compensation

We believe that long-term performance is achieved through an ownership culture that encourages long-term participation by our executives in equity-based awards. Our various Employee Stock Option Plans allow us to grant stock options to employees. We currently make initial equity awards of stock options to new executives and certain non-executive employees in connection with their employment with the Company. Annual grants of options, if any, are approved by the Compensation Committee.

Equity Incentives. Executives, certain non-executive employees, and directors who join us may be awarded stock awards and/or stock option grants after they join the Company. These grants have an exercise price equal to the fair market value of our common stock on the grant date. Such awards are intended to provide the executive with incentive to build value in the organization over an extended period of time. The size of the stock option award is also reviewed in light of the executive's track record, base salary, other compensation and other factors to ensure that the executive's total compensation is in line with our overall compensation philosophy. A review of all components of compensation is conducted when determining equity awards to ensure that total compensation conforms to our overall philosophy and objectives.

Equity incentives provided to executives are determined by the Fair Market Value of our common stock on the grant date were provided to the executives as an adjustment of their overall compensation while taking in to account the need to continue to incentivize the executive to build value in the organization. Each executive's stock award was based on an analysis of the Compensation Committee of an appropriate overall cash compensation for each individual taking into account their position and compensation at similarly situated companies. Each executive's stock award was based on a desired overall compensation cash value less the base salary as approved by the Compensation Committee.

Perquisites and Other Personal Benefits

We provide named executive officers with perquisites and other personal benefits that we believe are reasonable and consistent with our overall compensation program to better enable the Company to attract and retain superior employees for key positions. The Compensation Committee periodically reviews the levels of perquisites and other personal benefits provided to executive officers.

We maintain benefits and perquisites that are offered to all employees, including health insurance and dental insurance. Benefits and perquisites may vary in different country locations and are consistent with local practices and regulations.

Termination Based Compensation

Upon termination of employment, all executive officers with a written employment agreement are entitled to receive severance payments under their employment agreements. In determining whether to approve, and as part of the process of setting the terms of, such severance arrangements, the Compensation Committee recognizes that executives and officers often face challenges securing new employment following termination. Further, the Committee recognizes that many of the named executives and officers have participated in the Company since its founding and that this participation has not resulted in a return on their investments. Termination and Change in Control Payments considered both the risk and the dedication of these executives' service to the Company.

Our Chief Executive Officer has an employment agreement that provides, if his employment is terminated without cause or if the executive terminates the agreement with Good Reason, he is entitled to (a) all remaining salary to the end of the date of termination, plus salary from the end of the employment term through the end of the third anniversary of the date of termination, and (b) the continuation by the Company of medical and dental insurance coverage for him and his family until the end of the employment term and through the end of the third anniversary of the date of termination. Provided, however, if such benefits cannot be continued for this extended period, the Executive shall receive cash (including a tax-equivalency payment for Federal, state and local income and payroll taxes assuming Executive is in the maximum tax bracket for all such purposes) where such benefits may not be continued. These agreements further provide for vesting of all options and restrictive stock grants, if any.

Our Chief Financial Officer has an employment agreement that provides, if his employment is terminated without cause or if the executive terminates the agreement with Good Reason, he is entitled to (a) all remaining salary to the end of the date of termination, plus salary from the end of the employment term through the end of the second month of the date of termination, and (b) the continuation by the Company of medical and dental insurance coverage for him and his family until the end of the employment term and through the end of the two months from the date of termination. Provided, however, if such benefits cannot be continued for this extended period, the Executive shall receive cash (including a tax-equivalency payment for Federal, state and local income and payroll taxes assuming Executive is in the maximum tax bracket for all such purposes) where such benefits may not be continued. These agreements further provide for vesting of all options and restrictive stock grants, if any.

The Secretary of the Company has an employment agreement that provides, if she is terminated without cause or if the executive terminates the agreement with Good Reason, she is entitled to (a) all remaining salary to the end of the date of termination, plus salary from the end of the employment term through the end of the first anniversary of the date of termination, and (b) the continuation by the Company of medical and dental insurance coverage for her and her family until the end of the employment term and through the end of the first anniversary of the date of termination. Provided, however, if such benefits cannot be continued for this extended period, the Executive shall receive cash (including a tax-equivalency payment for Federal, state and local income and payroll taxes assuming Executive is in the maximum tax bracket for all such purposes) where such benefits may not be continued. These agreements further provide for vesting of all options and restrictive stock grants, if any.

Tax and Accounting Implications

Deductibility of Executive Compensation

As part of its role, the Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, which provides that we may not deduct compensation of more than \$1,000,000 that is paid to certain individuals. We believe that compensation paid under the management incentive plans is generally fully deductible for federal income tax purposes.

Accounting for Stock-Based Compensation

Commencing on July 1, 2006, we began accounting for stock-based payments, including awards under our Employee Stock Option Plans, in accordance with the requirements of Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment, or SFAS 123(R).

Summary Compensation

The following table shows the compensation for the fiscal year ended June 30, 2012 and June 30, 2011, earned by our Chairman and Chief Executive Officer, our Chief Financial Officer who is our Principal Financial and Accounting Officer, and others considered to be executive officers of the Company.

Edgar Filing: NETSOL TECHNOLOGIES INC - Form 10-K

Name and Principle Position	Fiscal Year Ended	Salary (\$)	Bonus (\$)	Stock Awards (\$) (1)	Option Awards (\$)	All Other Compensation (\$)	Total (\$)
Najeeb Ghauri CEO & Chairman	2012	\$ 389,063	\$ -	\$ 32,500	\$ 168,820(2)	\$ 78,884 (3)	\$ 669,267
Boo Ali Siddiqui Chief Financial Officer	2012	\$ 90,300	\$ -	\$ 17,875	\$ -	\$ - (4)	\$ 108,175
Patti L. W. McGlasson Secretary, General Counsel	2011	\$ 84,000	\$ -	\$ 69,250	\$ -	\$ - (4)	\$ 153,250
	2012	\$ 139,750	\$ -	\$ 17,875	\$ -	\$ 23,863 (5)	\$ 181,488
	2011	\$ 130,500	\$ -	\$ 55,400	\$ -	\$ 21,281 (5)	\$ 207,181

(1) The stock was awarded as compensation to the officers and related expense was recognized in the consolidated financial statements.

(2) 500,000 options were granted to officers during the period and related expense was recognized in the consolidated financial statements.

(3) Consists of \$36,000 and \$36,000 paid for automobile and travel allowance, \$16,758 and \$16,758 on account of life insurance and \$26,126 and \$28,845 paid for medical and dental insurance premiums paid by the Company for participation in the health insurance program for the fiscal years ended June 30, 2012 and 2011, respectively.

(4) The amount paid to the officer was in aggregate less than \$10,000 for the fiscal years ended June 30, 2012 and 2011, respectively.

(5) Consists of \$9,000 and \$9,000 paid for automobile allowance and \$14,863 and \$12,281 paid for medical and dental insurance premiums for participation in the health insurance program for the fiscal year ended June 30, 2012 and 2011 respectively.

Grants of Plan-Based Awards

Mr. Najeeb Ghauri, Mr. Naeem Ghauri and Mr. Salim Ghauri were granted, in November 2011, 50,000, 40,000 and 40,000 options, respectively, to acquire shares of common stock of the Company. The options vest quarterly and were approved by the Compensation Committee as an incentive for Messrs. Ghauri.

Discussion of Summary Compensation Table

The terms of our executive officers' compensation are derived from our employment agreements with them and the annual performance review by our Compensation Committee. The terms of Mr. Najeeb Ghauri employment agreement with the Company were the result of negotiations between the Company and the executives and were approved by our Compensation Committee and Board of Directors. The terms of Ms. McGlasson's and Mr. Siddiqui's employment agreement with the Company were the result of negotiations between our Chief Executive Officer and the employees and were approved by our Compensation Committee and Board of Directors.

Employment Agreement with Najeeb Ghauri

Effective January 1, 2007, the Company entered into an Employment Agreement with our Chief Executive Officer, Najeeb Ghauri (the "CEO Agreement"). The CEO Agreement was amended effective January 1, 2008 and again January 1, 2010. Pursuant to the CEO Agreement, as amended, between Mr. Ghauri and the Company (the "CEO Agreement"), the Company agreed to employ Mr. Ghauri as its Chief Executive Officer from the date of the CEO Agreement through December 31, 2012. The term of employment automatically renews for 36 additional months unless notice of intent to terminate is received by either party at least 6 months prior to the end of the term. Under the CEO Agreement, Mr. Ghauri is entitled to an annualized base salary of \$393,750 and is eligible for annual bonuses at

the discretion of the Compensation Committee. Pursuant to the terms of the amendment, Mr. Ghauri was entitled to the following bonuses. A bonus of One Hundred Thirty Three Thousand Dollars (\$133,000) is payable upon achieving the minimum bonus benchmark of: company-wide revenue of \$30,000,000 for the fiscal year 2009-2010; and, earnings per share of \$0.05 (the “Minimum Bonus Benchmark”). An additional bonus may be earned if an “accelerator goal” is achieved. The bonus is accelerated to a total of Two Hundred Thousand Dollars (\$200,000) if revenue of \$33,000,000 is attained together with earnings per share of \$0.10.

Mr. Ghauri is entitled to participate in the Company's stock option plans, is entitled to three weeks of paid vacation per calendar year, is to receive a car allowance totaling \$3,000 per month for the term of the CEO Agreement, and the Company shall pay premiums not to exceed \$16,600 (or \$4,150 quarterly) for life insurance for the Executive.

The CEO Agreement also includes provisions respecting severance, non-solicitation, non-competition, and confidentiality obligations. Pursuant to the CEO Agreement, if he terminates his employment for Good Reason (as described below), or, is terminated prior to the end of the employment term by the Company other than for Cause (as described below) or death, he shall be entitled to all remaining salary from the termination date until 36 months thereafter, at the rate of salary in effect on the date of termination, immediate vesting of all options and, continuation of all health related plan benefits for a period of 36 months. He shall have no obligation to seek other employment and any income so earned shall not reduce the foregoing amounts. If he is terminated by the Company for Cause (as described below), or at the end of the employment term, he shall not be entitled to further compensation. Under the CEO Agreement, Good Reason includes the assignment of duties inconsistent with his title, a material reduction in salary and perquisites, the relocation of the Company's principal office by 30 miles, if the Company asks him to perform any act which is illegal, including the commission of a crime or act of moral turpitude, or a material breach of the CEO Agreement by the Company. Under the CEO Agreement, Cause includes conviction of crime involving moral turpitude, failure to perform his duties to the Company, engaging in activities which are directly competitive to or intentionally injurious to the Company, or any material breach of the CEO Agreement by Mr. Ghauri.

The above summary of the CEO Agreement is qualified in its entirety by reference to the full text of the CEO Agreement, a copy of which was filed as an exhibit to the Company's 10-KSB for the fiscal year ended June 30, 2007. The above summary of the First Amendment is qualified in its entirety by reference to the full text of the Amendment, a copy of which was filed as an exhibit to the Company's 10-KSB for the fiscal year ended June 30, 2008. The above summary of the Second Amendment is qualified in its entirety by reference to the full text of the Amendment, a copy of which was filed as an exhibit to the Company's 10-Q for the fiscal year ended December 31, 2009.

Employment Agreement with Boo-Ali Siddiqui

Effective April 1, 2010, the Company entered into an Employment Agreement with our Chief Financial Officer, Mr. Boo-Ali Siddiqui. Pursuant to the Employment Agreement between Ms. Siddiqui and the Company (the "CFO Agreement"), the Company agreed to employ Mr. Siddiqui as its CFO from the date of the CFO Agreement through March 31, 2011. According to the terms of the CFO Agreement, the term of the agreement automatically extends for an additional thirty day periods unless notice of intent to terminate is received by either party at least two weeks prior to the end of the term. Under the CFO Agreement, Mr. Siddiqui is entitled to an annualized base salary of \$92,400 and is eligible for annual bonuses at the discretion of the Chief Executive Officer. Mr. Siddiqui shall also receive a total of 50,000 shares of common stock to be granted in 25% tranches upon each completion of a quarter of service during the term of his CFO Agreement.

The CFO Agreement also includes provisions respecting severance, non-solicitation, non-competition, and confidentiality obligations. Pursuant to the CFO Agreement, if she terminates her employment for Good Reason (as described below), or, is terminated prior to the end of the employment term by the Company other than for Cause (as described below) or death, she shall be entitled to all remaining salary from the termination date until 2 months thereafter, at the rate of salary in effect on the date of termination, immediate vesting of all options and, continuation of all health related plan benefits for a period of 2 months. He shall have no obligation to seek other employment and any income so earned shall not reduce the foregoing amounts. If he is terminated by the Company for Cause (as described below), or at the end of the employment term, he shall not be entitled to further compensation. Under the CFO Agreement, Good Reason includes the assignment of duties inconsistent with his title, a material reduction in salary and perquisites, the relocation of the Company's principal office by 60 miles, if the Company asks him to perform any act which is illegal, including the commission of a crime or act of moral turpitude, or a material breach of

the CFO Agreement by the Company. Under the CFO Agreement, Cause includes conviction of crime involving moral turpitude, failure to perform his duties to the Company, engaging in activities which are directly competitive to or intentionally injurious to the Company, or any material breach of the CFO Agreement by Mr. Siddiqui.

The above summary of the CFO Agreement is qualified in its entirety by reference to the full text of the CFO Agreement, a copy of which was filed as an exhibit to the Company's 10-Q for the quarter ended December 31, 2009.

Employment Agreement with Patti L. W. McGlasson

Effective May 1, 2006, the Company entered into an Employment Agreement with our Secretary and General Counsel, Ms. Patti L. W. McGlasson. Pursuant to the Employment Agreement between Ms. McGlasson and the Company (the "General Counsel Agreement"), the Company agreed to employ Ms. McGlasson as its Secretary and General Counsel from the date of the General Counsel Agreement through March 31, 2013. According to the terms of the General Counsel Agreement, the term of the agreement automatically extends for an additional one year periods unless notice of intent to terminate is received by either party at least 6 months prior to the end of the term. Under the General Counsel Agreement, Ms. McGlasson was entitled to an annualized base salary of \$143,000, 50,000 shares of common stock to be granted in 25% tranches after each quarter of service, and is eligible for annual bonuses at the discretion of the Chief Executive Officer. In addition, Ms. McGlasson is entitled to participate in the Company's stock option plans and, is entitled to four weeks of paid vacation per calendar year.

The General Counsel Agreement also includes provisions respecting severance, non-solicitation, non-competition, and confidentiality obligations. Pursuant to the General Counsel Agreement, if she terminates her employment for Good Reason (as described below), or, is terminated prior to the end of the employment term by the Company other than for Cause (as described below) or death, she shall be entitled to all remaining salary from the termination date until 12 months thereafter, at the rate of salary in effect on the date of termination, immediate vesting of all options and, continuation of all health related plan benefits for a period of 12 months. She shall have no obligation to seek other employment and any income so earned shall not reduce the foregoing amounts. If she is terminated by the Company for Cause (as described below), or at the end of the employment term, she shall not be entitled to further compensation. Under the General Counsel Agreement, Good Reason includes the assignment of duties inconsistent with her title, a material reduction in salary and perquisites, the relocation of the Company's principal office by 60 miles, if the Company asks her to perform any act which is illegal, including the commission of a crime or act of moral turpitude, or a material breach of the General Counsel Agreement by the Company. Under the General Counsel Agreement, Cause includes conviction of crime involving moral turpitude, failure to perform her duties to the Company, engaging in activities which are directly competitive to or intentionally injurious to the Company, or any material breach of the General Counsel Agreement by Ms. McGlasson.

The above summary of the General Counsel Agreement is qualified in its entirety by reference to the full text of the General Counsel Agreement, a copy of which was filed as an exhibit to the Company's 10-KSB for the fiscal year ended June 30, 2006 on September 27, 2006. The above summary is also qualified in its entirety by reference to the full text of the Amendment to the General Counsel Agreement, a copy of which was filed as an exhibit to the Company's 10-Q for the quarter ended March 31, 2010.

Outstanding Equity Awards at Fiscal Year-End

Pension Benefits

We do not have any qualified or non-qualified defined benefit plans.

Potential Payments upon Termination or Change of Control

Generally, regardless of the manner in which a named executive officer's employment terminates, he is entitled to receive amounts earned during his term of employment. Such amounts include the portion of the executive's base salary that has accrued prior to any termination and not yet been paid and unused vacation pay.

In addition, we are required to make the additional payments and/or provide additional benefits to the individuals named in the Summary Compensation Table in the event of a termination of employment or a change of control, as set forth below.

Change-in-Control Payments

Najeeb Ghauri, Chairman and Chief Executive Officer

In the event that Mr. Ghauri is terminated as a result of a change in control (defined below), he is entitled to all payments due in the event of a termination for Cause or Good Reason and: (a) a onetime payment equal to the product of 2.99 and his salary during the preceding 12 months; (b) a one-time payment equal to the higher of (i) Executive's bonus for the previous year and (ii) one percent of the Company's consolidated gross revenues for the previous twelve (12) months; and, at the election of the Executive, (c) a one-time cash payment equal to the cash value of all shares eligible for exercise upon the exercise of Executive's Options then currently outstanding and exercisable as if they had

been exercised in full (the “Change of Control Termination Payment”). In the event Executive elects to receive the cash value of the shares underlying Executive’s options, he shall so notify the Company of his intent.

The following table summarizes the potential payments to Mr. Ghauri assuming his employment with us was terminated or a change of control occurred on June 30, 2012, the last day of our most recently completed fiscal year.

BENEFITS AND PAYMENTS	CHANGE OF CONTROL	TERMINATION UPON DEATH OR DISABILITY	TERMINATION BY US WITHOUT CAUSE OR BY EXECUTIVE FOR GOOD REASON
Base Salary	\$ 1,181,250	\$ -	\$ 1,181,250
Bonus	-		
Salary Multiple Pay-out	1,177,313		
Bonus or Revenue One-time Pay-Out	398,127		
Net Cash Value of Options	4,893,302		
Total	\$ 7,649,992	\$ -	\$ 1,181,250

Boo-Ali Siddiqui, Chief Financial Officer

In the event that Mr. Siddiqui is terminated as a result of a change in control (defined below), he is entitled to all payments due in the event of a termination for Cause or Good Reason and: (a) a onetime payment equal to the product of 2.99 and his salary during the preceding 6 months; (b) a one-time payment equal to the higher of (i) Executive's bonus for the previous year and (ii) one-half of one percent of the Company's consolidated gross revenues for the previous six (6) months (the "Change of Control Termination Payment").

The following table summarizes the potential payments to Mr. Siddiqui assuming his employment with us was terminated or a change of control occurred on June 30, 2012, the last day of our most recently completed fiscal year.

BENEFITS AND PAYMENTS	CHANGE OF CONTROL	TERMINATION UPON DEATH OR DISABILITY	TERMINATION BY US WITHOUT CAUSE OR BY EXECUTIVE FOR GOOD REASON
Base Salary	\$ 46,200	\$ -	\$ 46,200
Bonus	-		
Salary Multiple Pay-out	138,138		
Bonus or Revenue One-time Pay-Out	199,064		
Net Cash Value of Options	-		
Total	\$ 383,402	\$ -	\$ 46,200

Patti L. W. McGlasson, Secretary and General Counsel

In the event that Ms. McGlasson is terminated as a result of a change in control (defined below), she is entitled to all payments due in the event of a termination for Cause or Good Reason and: (a) a onetime payment equal to the product of 2.99 and her salary during the preceding 12 months; (b) a one-time payment equal to the higher of (i) Executive's bonus for the previous year and (ii) one-half of one percent of the Company's consolidated gross revenues for the previous twelve (12) months; and, at the election of the Executive, (c) a one-time cash payment equal to the cash value of all shares eligible for exercise upon the exercise of Executive's Options then currently outstanding and exercisable as if they had been exercised in full (the "Change of Control Termination Payment"). In the event Executive elects to receive the cash value of the shares underlying Executive's options, she shall so notify the Company of her intent.

The following table summarizes the potential payments to Ms. McGlasson assuming her employment with us was terminated or a change of control occurred on June 30, 2012, the last day of our most recently completed fiscal year.

BENEFITS AND PAYMENTS	TERMINATION		
	CHANGE OF CONTROL	UPON DEATH OR DISABILITY	BY US WITHOUT CAUSE OR BY EXECUTIVE FOR GOOD REASON
Base Salary	\$ 143,000	\$ -	\$ 143,000
Bonus	-		
Salary Multiple Pay-out	427,570		
Bonus or Revenue One-time Pay-Out	199,064		
Net Cash Value of Options	326,800		
Total	\$ 1,096,434	\$ -	\$ 143,000

Director Compensation

Director Compensation Table

The following table sets forth a summary of the compensation earned by our Directors and/or paid to certain of our Directors pursuant to the Company's compensation policies for the fiscal year ended June 30, 2012, other than Najeeb Ghauri and Naeem Ghauri who are otherwise employed by the Company or its subsidiaries.

NAME	FEES EARNED OR PAID		SHARES AWARDS	TOTAL (\$)
	IN CASH (\$)	(\$)(1)		
Eugen Beckert	25,000	10,000		35,000
Shahid Javed Burki	31,000	10,000		41,000
Mark Caton	28,000	10,000		38,000
Alexander Shakow	18,000	10,000		28,000

- (1) During the fiscal year ended June 30, 2012, 40,000 shares were issued out of which 20,000 shares were accrued to be issued last year

Director Compensation Policy

Messrs. Ghauri are not paid any fees or other compensation for services as members of our Board of Directors.

The non-employee members of our Board of Directors received as compensation for services as directors as well as reimbursement for documented reasonable expenses incurred in connection with attendance at meetings of our Board of Directors and the committees thereof. The Company paid the following amounts to members of the Board of Directors for the activities shown during the fiscal year ended June 30, 2012.

BOARD ACTIVITY	CASH PAYMENTS
Board Member Fee	\$ 48,000
Committee Membership	\$ 18,000
Chairperson for Audit Committee	\$ 15,000
Chairperson for Compensation Committee	\$ 12,000
Chairperson for Nominating and Corporate Governance Committee	\$ 9,000

Members of our Board of Directors are also eligible to receive stock option or stock award grants both upon joining the Board of Directors and on an annual basis in line with recommendations by the Compensation Committee, which grants are non-qualified stock options under our Employee Stock Option Plans. Further, from time to time, the non-employee members of the Board of Directors are eligible to receive stock grants that may be granted if and only if approved by the shareholders of the Company.

Compensation Committee Interlocks and Insider Participation

The current members of the Compensation Committee are Messrs. Caton (Chairman), Mr. Beckert and Mr. Burki. During the fiscal year ended June 30, 2012, the Chairman of the Compensation Committee was Mr. Caton. There were no other members of the committee during the fiscal year ended June 30, 2012. All current members of the Compensation Committee are "independent directors" as defined under the NASDAQ Listing Rules. None of these individuals were at any time during the fiscal year ended June 30, 2012, or at any other time, an officer or employee of the Company.

No executive officer of the Company serves as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving as a member of the Company's Board of Directors or Compensation Committee.

Employee Stock Option Plans

The 2001 plan authorizes the issuance of up to 200,000 options to purchase common stock of which 200,000 have been granted. The grant prices range between \$7.50 and \$25.00.

The 2002 plan authorizes the issuance of up to 200,000 options to purchase common stock of which 200,000 options have been granted. The grant prices range between \$7.50 and \$50.00.

In March 2004, our shareholders approved the 2003 stock option plan. This plan authorizes up to 200,000 options to purchase common stock of which 200,000 have been granted. The grant prices range between \$6.50 and \$5.00.

In March 2005, our shareholders approved the 2004 stock option plan. This plan authorizes up to 500,000 options to purchase common stock of which 500,000 have been granted. The grant prices range between \$6.50 and \$30.00.

Edgar Filing: NETSOL TECHNOLOGIES INC - Form 10-K

In April 2006, our shareholders approved the 2005 stock option plan. This plan authorizes up to 500,000 options to purchase common stock of which 500,000 have been granted. The grant prices range between \$6.50 and \$25.50.

In June 2008, our shareholders approved the 2008 Equity incentive plan. This plan authorizes up to 100,000 grants and/or options of common stock of which 100,000 have been granted. The grant prices range between \$3.20 and \$23.20.

In May 2011, our shareholders approved the 2011 Equity incentive plan. This plan authorizes up to 500,000 grants and/or options of common stock of which 343,399 have been granted. The grant prices range between \$3.00 and \$16.70.

ITEM 12- SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following table sets forth certain information regarding the beneficial ownership of the Company's Common Stock, its only class of outstanding voting securities as of September 4, 2012, by (i) each person who is known to the Company to own beneficially more than 5% of the outstanding common Stock with the address of each such person, (ii) each of the Company's present directors and officers, and (iii) all officers and directors as a group:

		Percentage	
Najeeb Ghauri (3)	511,998	6.76	%
Naeem Ghauri (3)	392,459	5.18	%
Eugen Beckert (3)	50,890	*	
Shahid Javed Burki (3)	51,200	*	
Mark Caton (3)	23,770	*	
Patti L. W. McGlasson (3)	34,300	*	
Boo-Ali Siddiqui (3)	10,750	*	
Salim Ghauri (3)	458,163	6.50	%
Newland Capital Management LLC (5)	373,036	5.05	%
All officers and directors as a group (seven persons)	1,075,367	14.20	%

* Less than one percent

(1) Except as otherwise indicated, the Company believes that the beneficial owners of the common stock listed below, based on information furnished by such owners, have sole investment and voting power with respect to such shares, subject to community property laws where applicable. Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and generally includes voting or investment power with respect to securities.

(2) Beneficial ownership is determined in accordance with the rules of the Commission and generally includes voting or investment power with respect to securities. Shares of common stock relating to options currently exercisable or exercisable within 60 days of September 4, 2012, are deemed outstanding for computing the percentage of the person holding such securities but are not deemed outstanding for computing the percentage of any other person. Except as indicated by footnote, and subject to community property laws where applicable, the persons named in the table above have sole voting and investment power with respect to all shares shown as beneficially owned by them. Includes shares issuable upon exercise of options exercisable within 60 days, as follows: Mr. Najeeb Ghauri, 264,144; Mr. Naeem Ghauri, 134,815; Mr. Salim Ghauri, 238,644; Mr. Eugen Beckert, 15,000; Mr. Shahid Burki, 15,000; and Ms. Patti McGlasson, 11,000.

Share numbers have been adjusted to reflect the 1 for 10 reverse stock split effective August 13, 2012.

(3) Address c/o NetSol Technologies, Inc. at 24025 Park Sorrento, Suite 410, Calabasas, CA 91302.

(4) Shares issued and outstanding as of August 31, 2012 were 7,572,088.

(5) Pursuant to a form 13G/A filed on April 25, 2012 and relying upon the authenticity of the information contained therein, the following persons have shared voting power over 3,730,359 shares of common stock of the Company: Newland Capital Management, LLC (as to 3,730,359 shares), Newland Master Fund, Ltd. (as to 3,730,359), Ken Brodkowitz (as to 3,730,359 shares) and Michael Vermut (as to 3,764,259 shares). Newland Capital Management, LLC, Ken Brodkowitz and Michael Vermut with addresses c/o Newland Capital Management LLC, 350 Madison Avenue, 11th Floor, New York, New York, 10017; Newland Master Fund, Ltd., address is c/o Goldman Sachs (CAYMAN) Trust, Limited, P.O. Box 896, Gardenia Court, Suite 3307, 45 Market St., Camana Bay, Cayman Islands KY1-1103.

ITEM 13 CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE.

In July 2011, the board approved compensation for service on the Audit, Compensation and Nominating and Corporate Governance Committees. This compensation is discussed in the sections entitled "Directors' Compensation" beginning on page 50. See the discussion of Director Independence beginning on page 36.

ITEM 14 PRINCIPAL ACCOUNTANT FEES AND SERVICES

Audit Fees

Kabani & Co. audited the Company's financial statements for the fiscal years ended June 30, 2012 and June 30, 2011. The aggregate fees billed by Kabani & Co. for the annual audit and review of financial statements included in the Company's Form 10-K, services related to providing an opinion in connection with our public offering of shares of common stock and/or services that are normally provided by Kabani & Company that are normally provided by

50

the accountant in connection with statutory and regulatory filings or engagements for the year ended June 30, 2012 was \$191,000 and for the year ended June 30, 2011 was \$182,744.

Tax Fees

Tax fees for fiscal year 2012 were \$15,000 and consisted of the preparation of the Company's federal and state tax returns for the fiscal years 2011. Tax fees for fiscal year 2011 were \$15,000 and consisted of the preparation of the Company's federal and state tax returns for the fiscal year 2010.

All Other Fees

During the fiscal year 2012 a fee of \$100,000 was paid to Kabani & Co. for S-3 related due diligence for the investors.

Pre-Approval Procedures

The Audit Committee and the Board of Directors are responsible for the engagement of the independent auditors and for approving, in advance, all auditing services and permitted non-audit services to be provided by the independent auditors. The Audit Committee maintains a policy for the engagement of the independent auditors that is intended to maintain the independent auditor's independence from NetSol. In adopting the policy, the Audit Committee considered the various services that the independent auditors have historically performed or may be needed to perform in the future. The policy, which is to be reviewed and re-adopted at least annually by the Audit Committee:

- (i) Approves the performance by the independent auditors of certain types of service (principally audit-related and tax), subject to restrictions in some cases, based on the Committee's determination that this would not be likely to impair the independent auditors' independence from NetSol;
- (ii) Requires that management obtain the specific prior approval of the Audit Committee for each engagement of the independent auditors to perform other types of permitted services; and,
- (iii) Prohibits the performance by the independent auditors of certain types of services due to the likelihood that their independence would be impaired.

Any approval required under the policy must be given by the Audit Committee, by the Chairman of the Committee in office at the time, or by any other Committee member to whom the Committee has delegated that authority. The Audit Committee does not delegate its responsibilities to approve services performed by the independent auditors to any member of management.

The standard applied by the Audit Committee in determining whether to grant approval of an engagement of the independent auditors is whether the services to be performed, the compensation to be paid therefore and other related factors are consistent with the independent auditors' independence under guidelines of the Securities and Exchange Commission and applicable professional standards. Relevant considerations include, but are not limited to, whether the work product is likely to be subject to, or implicated in, audit procedures during the audit of NetSol's financial statements; whether the independent auditors would be functioning in the role of management or in an advocacy role; whether performance of the service by the independent auditors would enhance NetSol's ability to manage or control risk or improve audit quality; whether performance of the service by the independent auditors would increase efficiency because of their familiarity with NetSol's business, personnel, culture, systems, risk profile and other factors; and whether the amount of fees involved, or the proportion of the total fees payable to the independent auditors in the period that is for tax and other non-audit services, would tend to reduce the independent auditors' ability

to exercise independent judgment in performing the audit.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors

NetSol Technologies, Inc. and subsidiaries

Calabasas, California

We have audited the accompanying consolidated balance sheets of NetSol Technologies, Inc. and subsidiaries (The “Company”) as of June 30, 2012 and 2011, and the related consolidated statements of operations and comprehensive losses, equity and cash flows for each of years in the two-year period then ended. These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of NetSol Technologies, Inc. and subsidiaries as of June 30, 2012 and 2011 and the results of its consolidated operations and comprehensive loss, equity and cash flows for each of years in the two-year period then ended in conformity with accounting principles generally accepted in the United States of America.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), NetSol Technologies, Inc. and subsidiaries’ internal control over financial reporting as of June 30, 2012, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated September 5, 2012 expressed an adverse opinion.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors
NetSol Technologies, Inc. and its subsidiaries
Calabasas, California

We have audited NetSol Technologies, Inc. and its subsidiaries' (the "Company") internal control over financial reporting as of June 30, 2012, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Report of Management on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

A material weakness is a control deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis. The following material weakness has been identified and included in management's assessment. The Company did not maintain effective controls over ensuring that accounting staff and the Company's CFO had sufficient technical accounting knowledge relating to U.S. GAAP financial reporting. This material weakness was considered in determining the nature, timing, and extent of audit tests applied in our audit of the 2012 consolidated financial statements, and this report does not affect our report dated September 5, 2012 on those consolidated financial statements.

In our opinion, because of the effect of the material weaknesses described above on the achievement of the objectives of the control criteria, NetSol Technologies, Inc. and its subsidiaries has not maintained effective internal control over financial reporting as of June 30, 2012, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).
