Explanatory Note

On September 17, 2012, Simmons First National Corporation (the “Company”) filed a Current Report on Form 8-K (the “Report”) to report that its wholly-owned subsidiary, Simmons First National Bank (the “Bank”), had entered into a purchase and assumption agreement with loss a loss share agreement and a separate loan sale agreement with the Federal Deposit Insurance Corporation (“FDIC”) dated September 14, 2012 (collectively, the “Agreement”) to purchase certain loans and other assets and to assume certain deposits and other liabilities of Truman Bank in St. Louis, Missouri (“Truman”).

On September 20, 2012, the Company filed an amended Current Report on Form 8-K/A (Amendment No. 1) to report under Item 1.01 and Item 2.01 additional details of the terms and conditions of the Agreement, a copy of which was included as Exhibits 2.1 and 2.2 to Amendment No. 1.

This Current Report on Form 8-K/A (Amendment No. 2) is being filed to amend and supplement the disclosure provided in the Original Report, as previously amended and supplemented by Amendment No. 1. This Amendment No. 2 provides an audited Statement of Assets Acquired and Liabilities Assumed, and updates the disclosures provided in Item 2.01 and 9.01 of the Original Report. All financial and other numeric measures of Truman as described below were based upon information as of September 14, 2012, and may be subject to change.

Statements made in this Amendment, other than those concerning historical financial information, may be considered forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and are subject to risks and uncertainties. These forward-looking statements include, without limitation, statements regarding the Company’s expectations concerning its financial condition, operating results, cash flows, liquidity and capital resources. A discussion of risks, uncertainties and other factors that could cause actual results to differ materially from management’s expectations is set forth under the captions “Cautionary Note Regarding Forward-Looking Statements,” “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the Company’s Annual Report on Form 10-K and 10-K/A for the year ended December 31, 2011, and in its Quarterly Reports on Form 10-Q for the quarters ended March 31, 2012, June 30, 2012 and September 30, 2012.

Item 2.01 Completion of Acquisition or Disposition of Assets

The following discussion of assets acquired and liabilities assumed are presented at estimated fair value on the date of the Agreement. The fair values of the assets acquired and liabilities assumed were determined as described in Note 3 to the Company’s audited Statement of Assets Acquired and Liabilities Assumed, dated as of September 14, 2012, and the accompanying notes thereto, which is attached hereto as Exhibit 99.2 and incorporated herein by reference (the Audited Statement). These fair value estimates are based on the information available, and are subject to change for up to one year after the closing date of the acquisition as additional information relative to closing date fair values may become available. The Bank and the FDIC are engaged in on-going discussions that may impact which assets and liabilities are ultimately acquired or assumed by the Bank and/or the purchase price. In addition, the tax treatment of FDIC assisted acquisitions is complex and subject to interpretations that may result in future adjustments of deferred taxes as of the acquisition date. The disclosure set forth in this Item 2.01 reflects the status of these items to the best of management’s knowledge as of September 14, 2012.

Effective September 14, 2012, the Bank assumed substantially all deposits and acquired certain assets and liabilities of Truman from the FDIC, as receiver for Truman (the “Acquisition”), pursuant to the terms of the Agreement entered into by and among the Bank, the FDIC, as receiver for Truman, and the FDIC.

Under the terms of the Agreement, the Bank acquired approximately \$253.2 million in assets, including approximately \$153.4 million in loans held and other real estate owned by Truman, \$23.5 million of investment securities, \$22.5 million of cash and cash equivalents (excluding cash paid by the FDIC to complete the Acquisition), a \$26.7 million FDIC indemnification asset and \$4.2 million of other assets. The Bank also assumed approximately \$252.1 million in liabilities, including approximately \$228.6 million in customer deposits, \$21.5 million in Federal funds sold and other borrowings, and \$0.8 million in other liabilities. Additionally, Simmons First National Corporation recorded a deferred tax liability of \$0.4 million associated with the \$1.1 million pre-tax gain on the transaction. The deposits were acquired at no premium, and net assets were acquired at an aggregate discount to historic book value as of September 14, 2012, of approximately \$28.2 million, subject to customary adjustments. In connection with the Acquisition, the FDIC has made a payment to the Bank in the amount of approximately \$10.5 million and the bank has established a payable to the FDIC of approximately \$1.3 million, subject to customary post-closing adjustments based upon the final closing date balance sheets for Truman. The cash payment and receivable is settlement for the net equity received, assets discount bid, charge-offs since June 22, 2012, and other customary closing adjustments. The terms of the Agreement provide for the FDIC to indemnify the Bank against certain claims, including claims with respect to liabilities of Truman not assumed or otherwise purchased by the Bank, claims made by shareholders of Truman and claims based on any prior action or inaction by Truman's directors, officers and other employees.

In connection with the Acquisition, the Bank entered into a loss sharing agreement on certain assets with the FDIC. Pursuant to the terms of the loss sharing agreement, the FDIC is obligated to reimburse the Bank for 80% of all losses with respect to covered assets. The Bank will reimburse the FDIC for 80% of recoveries with respect to losses for which the FDIC paid the Bank 80% reimbursement under the loss sharing Agreement. The loss sharing agreement does not provide loss sharing for various consumer loans, real estate loans or commercial and industrial loans estimated to have a fair value of approximately \$73.4 million (including loans acquired under the separate loan agreement), which we acquired from Truman.

In addition, on November 14, 2020 (the "True-Up Date"), the Bank has agreed to pay to the FDIC 50% of the excess, if any, of (A) 25% of the product of (i) a fraction, the numerator which is the total shared loss recoveries, and the denominator is the net loss amount (the sum of all losses less the sum of all recoveries on the covered assets) plus (ii) a fraction, the numerator which is the total shared loss assets as of closing date, and the denominator is the total loans and other real estate acquired as of closing date, times (B) (i) the intrinsic loss estimate of \$29.9 million minus the net loss amount less (ii) the asset discount bid of \$20.9 million times a fraction, the numerator which is the intrinsic shared loss estimate of \$29.9 million, and the denominator is the intrinsic loss estimate of \$23.7 million, less (C) 2.5% of the total shared loss assets as of the bank closing date, as specific in the Agreement.

All capitalized terms used herein but not otherwise defined are ascribed the meanings as given in the Agreement. The foregoing summary of the Agreement is not complete and is qualified in its entirety by reference to the full text of the Agreement and certain exhibits attached thereto, a copy of which is attached hereto as Exhibits 2.1 and 2.2 and incorporated by reference herein.

The following table summarizes the assets covered by the loss sharing agreement, the amount covered by the FDIC and the fair value:

	September 14, 2012	
	Amount	
	Covered	
	By FDIC	Fair Value
	(In Thousands)	
Assets covered by FDIC loss share:		
Loans acquired, covered by FDIC loss share	\$87,620	\$ 57,141
Foreclosed assets acquired covered by FDIC loss share	20,723	15,116
Total assets covered by FDIC loss share	\$108,343	\$ 72,257

The amounts covered by the loss sharing agreement are the pre-acquisition book values of the underlying covered assets, the contractual balance of unfunded commitments that were acquired and certain future net direct costs. The loss sharing agreement applicable to all of the covered assets provides for FDIC loss sharing for five years and the Bank reimbursement of recoveries to the FDIC for eight years.

The loss sharing agreement is subject to certain servicing procedures as specified in the agreement with the FDIC. The expected reimbursements under the loss sharing agreement were recorded as an indemnification asset at their estimated fair values of \$26.7 million for the agreement, on the acquisition date. The indemnification asset reflects the present value of the expected net cash reimbursement related to the loss sharing agreement described above. Based upon the acquisition date fair values of the net assets acquired, no goodwill was recorded. The transaction resulted in a pre-tax gain of \$1.1 million, which will be included in non-interest income in the Company's December 31, 2012, Consolidated Statements of Income. Due to the difference in tax bases of the assets acquired and liabilities assumed, the Company recorded a deferred tax liability of \$0.4 million, resulting in an after-tax gain of \$0.7 million.

An analysis of the likely short-term and long-term effects of the loss sharing agreement on the Company's cash flows and reported results is included in Item 9.01(a) below.

Item 9.01 Financial Statements and Exhibits

(a) Financial Statements of Business Acquired

As set forth in Item 2.01 above, on September 14, 2012, the Bank acquired certain assets and assumed substantially all deposits and certain liabilities of Truman pursuant to the Agreement. A narrative description of the anticipated effects of the Acquisition on the Company's financial condition, liquidity, capital resources and operating results is presented below. This discussion should be read in conjunction with the historical financial statements and the related notes of the Company, which have been filed with the SEC and the Audited Statement, which is attached hereto as Exhibit 99.2.

The Acquisition increased the Company's total assets and total deposits by approximately 7.8% and 8.7%, respectively, as compared with balances at June 30, 2012, and is expected to positively affect the Company's operating results, to the extent the Company earns more from interest earned on its assets than it pays in interest on deposits and other borrowings. The ability of the Company to successfully collect interest and principal on loans acquired and collect reimbursement from the FDIC on the related indemnification asset will also impact cash flows and operating results.

The Company considers that the determination of the initial fair value of loans and other real estate owned acquired in the September 14, 2012, FDIC assisted transaction and the initial fair value of the related FDIC indemnification asset involves a high degree of judgment and complexity. The carrying value of the acquired loans, the other real estate owned and the FDIC indemnification asset reflect management's best estimate of the amount to be realized on each of these assets. The Company estimated the acquisition date fair value of the acquired assets and assumed liabilities in accordance with Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") Topic 805, Business Combinations (formerly Statement of Financial Accounting Standards ("SFAS") No. 141(R), Business Combinations). However, the amount that the Company realizes on these assets could differ materially from the carrying value reflected in the attached Audited Statement primarily as a result of changes in the timing and amount of collections on the acquired loans and sales of other real estate owned in future periods. Because of the loss sharing agreement with the FDIC on these assets, as described in Item 2.01 above, the Company does not expect to incur significant losses. To the extent the actual values realized for the acquired loans and other real estate owned differ from the estimated amounts; the indemnification asset will generally be impacted in an offsetting manner due to the loss sharing support from the FDIC.

Financial Condition

In the Acquisition, the Bank purchased \$130.5 million in loans receivable, at fair value, net of a \$46.4 million estimated discount to the outstanding principal balance, representing approximately 7.7% of the Company's total loans (net of the allowance for loan losses) at June 30, 2012. Foreclosed assets acquired were \$22.9 million at fair value, approximately 65.0% of the Company's total foreclosed assets at June 30, 2012.

The Bank acquired \$22.5 million in cash and cash equivalents in the transaction. In addition to the cash and cash equivalents acquired, the Bank received \$9.2 million from the FDIC (a net of \$10.5 million was received in cash and the Bank has established a payable to the FDIC of approximately \$1.3 million). The Bank also acquired \$23.5 million in securities, at fair value. These assets provided additional liquidity to the Company.

The following table presents information with respect to the fair value of certain acquired earning assets and loans, as well as their book balance at acquisition date, contractual term and average effective yield.

Total loans	\$176,979	\$130,536		
Total earning assets	\$212,857	\$166,414		

In the acquisition, the Bank assumed \$228.6 million in deposits, at fair value. This amount represents approximately 8.7% of the Company's total deposits of \$2.63 billion at June 30, 2012. Demand and non-interest bearing, savings and interest bearing transaction accounts, and time deposits assumed were \$22.3 million, \$70.7 million and \$135.6 million, respectively.

In its assumption of the deposit liabilities, the Company believed that the customer relationships associated with these deposits have intangible value. The Company applied FASB ASC 805, which prescribes the accounting for goodwill and other intangible assets such as core deposit intangibles, in a business combination. The Bank determined the estimated fair value of the core deposit intangible asset totaled \$1.2 million, which will be amortized utilizing a straight line method over an estimated economic life of 10 years. In determining the estimated life and valuation, deposits were analyzed based on factors such as type of deposit, deposit retention, interest rates, age of deposit relationships, and the maturities of time deposits.

Future amortization of this core deposit intangible asset over the estimated life will decrease results of operations, net of any potential tax effect. Future capital will be reduced by the amount of expected amortization, net of any tax effect. Since amortization is a noncash item, it will have no effect upon future liquidity and cash flows. For the calculation of regulatory capital, this core deposit intangible asset, net of related deferred taxes, is disallowed and is a reduction to equity capital. It is expected that the results of disallowing this intangible asset should not materially affect the Company's or the Bank's regulatory capital ratios.

The core deposit intangible asset is subject to significant estimates by management of the Company related to the value and the life of the asset. These estimates could change over time. The Company will review the valuation of this asset periodically to ensure that no impairment has occurred. If any impairment is subsequently determined, the Company will record the impairment as an expense in its Consolidated Statement of Income.

Nonperforming Loans

ASC Topic 310-30, Loans and Debt Securities Acquired with Deteriorated Credit Quality, applies to a loan with evidence of deterioration of credit quality since origination, for which it is probable, at acquisition, that the investor will be unable to collect all contractually required payments receivable. ASC Topic 310-30 prohibits carrying over or creating an allowance for loan losses upon initial recognition for loans that fall under its scope. The Company evaluated loans purchased in conjunction with the Truman acquisition for impairment in accordance with the provisions of ASC Topic 310-30. Purchased covered loans are considered impaired if there is evidence of credit deterioration since origination and if it is probable that not all contractually required payments will be collected. All covered loans acquired in this transaction were deemed to be impaired loans. These loans were not classified as nonperforming assets at September 14, 2012, as the loans are accounted for on a pooled basis and the pools are considered to be performing. Therefore, interest income, through accretion of the difference between the carrying amount of the loans and the expected cash flows, is being recognized on all purchased impaired loans.

Operating Results and Cash Flows. The Company's management has from time to time become aware of acquisition opportunities and has performed various levels of review related to potential acquisitions in the past. This Acquisition was attractive to the Company for a variety of reasons, including the:

- ability to expand within the state of Missouri into an opportunistic market with Simmons' first entry into the St. Louis metropolitan area;
 - anticipated profitability in the pricing of the acquired loan portfolio including the indemnification asset;
- opportunity to utilize the infrastructure it has built over the past 2 years related to management and resolution of assets acquired from the FDIC;
- ability to leverage and deploy a portion of the excess capital, while maintaining a well capitalized position.

Based on these and other factors, including the level of FDIC support related to the acquired loans and foreclosed assets, the Company believes that this acquisition will have an immediate positive impact on its earnings.

The Truman transaction had a small immediate accretive impact to the Company's financial results as it recognized a pre-tax gain on acquisition of \$1.1 million. The transaction resulted in an \$0.7 million after-tax gain, before considering merger related costs.

Based on June 30, 2012, information, total assets acquired make up 7.8%, or \$253.2 million, of the Company's total assets of \$3.26 billion, and total deposits assumed make up 8.7%, or \$228.6 million, of the Company's total deposits of \$2.63 billion. The Company believes that the transaction will improve the Company's net interest income, as the Bank earns more interest on its loans and investments than it pays in interest on deposits and borrowings.

The extent to which the Bank's operating results may be adversely affected by the acquired loans and other real estate owned is largely offset by the loss sharing agreement and the related discounts reflected in the estimated fair value of these assets at the acquisition date. In accordance with the provisions of ASC Topic 310-30, the fair values of the acquired loans and other real estate owned reflect an estimate of expected credit losses related to these assets. As a result, the Company's operating results would only be adversely affected by loan losses to the extent that such losses exceed the expected credit losses reflected in the fair value of these assets at the acquisition date. In addition, to the extent that the stated interest rate on acquired loans was not considered a market rate of interest at the acquisition date, appropriate adjustments to the acquisition-date fair values were recorded. These adjustments mitigate the risk associated with the acquisition of loans earning a below-market rate of return.

The long-term effects that the Company may experience will depend primarily on the ability of the borrowers under the various loans covered by the loss sharing agreement to make payments over time. As the loss sharing agreement covers losses and expenses over a 5-year period, changing economic conditions will likely impact the timing of future charge-offs and the resulting reimbursements from the FDIC. The Company believes that any recapture of interest income and recognition of cash flows from the borrowers or received from the FDIC (as part of the FDIC indemnification asset) may be recognized unevenly over this period, as the Company exhausts its collection efforts under its normal practices. In addition, the Company recorded substantial discounts related to the purchase of these covered assets.

Liquidity and Capital Resources. The transaction significantly enhanced the liquidity position of the Bank. The Company acquired \$34.8 million in cash and cash equivalents as well as \$23.5 million of investment securities. In addition, the FDIC transferred \$10.5 million in cash to the Bank to compensate for the net liability that resulted from the transfer of Truman's assets and liabilities adjusted for the Bank's discount bid.

Deposits in the amount of \$228.6 million were also assumed. Of this amount, 40.7%, or \$93.0 million, were in the form of highly liquid transaction accounts. Certificates of deposit and other time deposits comprised 59.3%, or \$135.6 million, of total deposits.

At June 30, 2012, the Company was considered "well-capitalized" under relevant regulatory ratios. The Company remains "well-capitalized" after taking into consideration the results of the transaction. The Company had the following pro-forma capital ratios at September 14, 2012 (includes the effects of this FDIC assisted transaction) and June 30, 2012:

	Pro-Forma September 14, 2012		June 30, 2012
Tier 1 leverage ratio	11.2	%	12.1 %
Tier 1 risk-based capital ratio	20.4		21.3
Total risk-based capital ratio	21.6		22.6

At June 30, 2012, the Bank was considered "well-capitalized" under relevant regulatory ratios. The Bank remains "well-capitalized" after taking into consideration the results of the transaction, which required no additional capital to be injected by the Company. The Bank had the following pro-forma capital ratios at September 14, 2012 (includes the effects of this FDIC assisted transaction) and June 30, 2012:

	Pro-Forma September 14, 2012		June 30, 2012
Tier 1 leverage ratio	8.5	%	9.7 %
Tier 1 risk-based capital ratio	17.3		18.9
Total risk-based capital ratio	18.1		19.8

Financial Statements

Attached hereto as Exhibit 99.2 and incorporated by reference into this Item 9.01(a) is an audited Statement of Assets Acquired and Liabilities Assumed by Simmons First National Bank (a wholly owned subsidiary of Simmons First National Corporation) related to its acquisition of Truman at September 14, 2012, and the accompanying notes thereto.

Report of Independent Registered Public Accounting Firm Statement of Assets Acquired and Liabilities Assumed at September 14, 2012 Notes to Statement of Assets Acquired and Liabilities Assumed

The Company has omitted certain financial information of Truman required by Rule 3-05 of Regulation S-X and the related pro forma financial information under Article 11 of Regulation S-X in accordance with a request for relief submitted to the Commission in accordance with the guidance provided in Staff Accounting Bulletin 1:K, Financial Statements of Acquired Troubled Financial Institutions (SAB:1K). SAB 1:K provides relief from the requirements of Rule 3-05 in certain instances, such as the transaction, where a registrant engages in an acquisition of a significant amount of assets of a troubled financial institution that involves pervasive federal assistance and audited financial

statements of the troubled financial institution that are not reasonably available.
