- m The Remuneration Committee members shall receive 0.125 times the base fee in addition to the base fee.

In addition, the Board of Directors proposes that the members of the Board of Directors who are not residents of Denmark are entitled to receive the following fixed travel allowance in connection with participation in board meetings in Denmark:

- m EUR 3,000 per meeting for European-based board members, and

Item 4:

This is a 11 % increase compared to the dividend declared for the 2013 financial year. No dividends will be paid on the Company’s holding of own shares.

Item 5:

All board members are to be elected or re-elected each year and were most recently elected at the Annual General Meeting in 2014. Thus, the term of each of the current board members expires at the Annual General Meeting in March 2015.

Item 5.1:

The Board of Directors proposes re-election for a one year term of Göran Ando as chairman of the Board of Directors.

Item 5.2:

The Board of Directors proposes re-election for a one year term of Jeppe Christiansen as vice chairman of the Board of Directors.

Item 5.3:

Helge Lund and Hannu Ryöppönen do not seek re-election as members of the Board of Directors.

The Board of Directors proposes re-election for a one year term of the following board members elected by the Annual General Meeting: Bruno Angelici, Liz Hewitt, and Thomas Paul Koestler.

The Board of Directors proposes election for a one year term of Sylvie Grégoire, Eivind Kolding, and Mary Szela.

The Board of Directors recommends election of Sylvie Grégoire as member of the Board of Directors primarily because of her deep knowledge of the regulatory environment in both the US and the EU having experience with all phases of the product life cycle from discovery, registration, pre-launch and managing the life cycle while on the market. In addition, Sylvie Grégoire has financial insight

The Board of Directors proposes that the dividend for 2014 is DKK 5.00 for each Novo Nordisk A or B share of DKK 0.20.

from i.a. P&L responsibility.

The Board of Directors recommends election of Eivind Kolding as member of the Board of Directors primarily because of his extensive executive experience in large multinational companies headquartered in Denmark within regulated markets and his significant financial knowledge. Eivind Kolding is also the chief executive officer of the Company's main shareholder, Novo A/S.

The Board of Directors recommends election of Mary Szela as member of the Board of Directors primarily because of

her deep understanding of the clinical, regulatory, and marketing aspects of the pharmaceutical industry in North America having both operational and strategic experience.

Please see Appendix 1 for a description of the nominated candidates' qualifications, including information about other executive functions (memberships of executive boards, boards of directors, supervisory boards, and board committees) and demanding organisational tasks held by the proposed candidates in Danish and foreign companies.

Item 6:
The Board of Directors proposes re-appointment of PricewaterhouseCoopers Statsautoriseret Revisionspartnerselskab ('PwC') as the Company's auditor.

The Board of Directors recommends re-appointment of PwC as auditor because of their significant knowledge of the pharmaceutical industry and exhaustive knowledge of Novo Nordisk. Furthermore, PwC has a global organisation that provides valuable support to Novo Nordisk's global business.

Item 7.1:
The Board of Directors proposes that the Company's B share capital is reduced from DKK 422,512,800 to DKK 412,512,800 by cancellation of part of the Company's own holding of B shares at a nominal value of DKK 10,000,000 divided into 50,000,000 B shares of DKK 0.20.

After reduction of the share capital, the Company's share capital will amount to DKK 520,000,000 divided into A share capital of DKK 107,487,200 and B share capital of DKK 412,512,800.

The purpose of the reduction of the Company's share capital is to distribute funds to the shareholders by way of the Company repurchasing shares in accordance with the authorisations granted to the Board of Directors at previous Annual General Meetings. If the proposal is adopted, the Company's holding of own shares will be reduced by 50,000,000 B shares of DKK 0.20 each.

The Board of Directors' proposal to reduce the Company's B share capital is made in order to maintain capital structure flexibility.

Adoption of the proposal implies the following amendment of Article 3.1 of the Articles of Association taking effect upon completion of the capital reduction:

"3.1 The Company's share capital amounts to DKK 520,000,000 divided into A share capital of DKK 107,487,200 and B share capital of DKK 412,512,800."

Item 7.2:
The Board of Directors proposes that an authorisation of the Board of Directors is granted to allow the Company to repurchase own shares until the next Annual General Meeting in 2016.

The Company considers it good corporate governance and consistent with the Company's strategy for its share repurchase programmes that the mandate to repurchase existing shares is limited in amount and affirmed by the Annual General Meeting on a regular basis.

Consequently, the Board of Directors proposes that the Annual General Meeting authorises the Board of Directors to allow the Company to repurchase up to a total nominal amount of DKK 52,000,000 own shares, corresponding to 10% of the share capital, subject to a holding limit of 10% of the share capital. The repurchase must take place at a price equal to the share price quoted at the time of the repurchase with a deviation of up to 10%, until the next Annual General Meeting in 2016.

Item 7.3:
The Board of Directors proposes that a new Article 18.3 be inserted in the Articles of Association authorising the Board of Directors to distribute extraordinary dividends, subject to the statutory limitations set out in the Danish Companies Act.

The purpose of this authorisation is to provide the Board of Directors with the possibility of distributing dividend more than one time per year, e.g. on a bi-annual basis.

Edgar Filing: NOVO NORDISK A S - Form 6-K

These B shares were repurchased for the total sum of DKK 12,432,500,000 which means that, in addition to the nominal reduction amount, DKK 12,422,500,000 has been distributed to the shareholders.

The new Article 18.3 will be worded as follows:

“The Board of Directors is authorised to distribute extraordinary dividends.”

Item 7.4:

The Board of Directors proposes that the revised Remuneration Principles are approved by the Annual General Meeting.

The following amendments have been made to the Remuneration Principles:

m Inclusion of a fixed fee to the members of the future Remuneration Committee:

Each A share capital amount of DKK 0.01 carries 10 votes and each B share capital amount of DKK 0.01 carries 1 vote.

General considerations

All shareholder-elected board members are to be elected or re-elected each year for a one year term and were most recently elected at the Annual General Meeting in March 2014. Thus, the term for each board member expires at the Annual General Meeting in March 2015.

Novo Nordisk A/S aims to propose a Board of Directors consisting of persons who have such knowledge and experience that the collective Board of Directors in the best possible way can attend to the interests of the Company and the shareholders, with due respect to other stakeholders of the Company.

The process of identifying and selecting suitable candidates for the Board of Directors, takes into account the required competences, the result of the Board of Directors' self-assessment process and the need for integration of new expertise and diversity.

In 2013 the Board of Directors established a Nomination Committee in order to enhance the process for nominating members to the Board. The Nomination Committee has four members elected by the Board from among its members. The Nomination Committee assists the Board with oversight of a) the competence profile and composition of the Board, b) nomination of members of the Board, c) nomination of members of Board committees, and d) other tasks.

In nominating candidates, the Nomination Committee seeks to achieve a balance between renewal and continuity. The Board of Directors actively contributes to developing the Company as a global pharmaceutical company, and supervises the management's decisions and operations.

It is the assessment of the Board of Directors that the proposed composition of the Board of Directors satisfies the criteria defined by the Board of Directors as regards the competences and composition of the Board of Directors.

The Board of Directors considers the size of the Board to be appropriate in relation to the requirements of the Company.

Independence

In the Danish Corporate Governance Recommendations 2013 (updated 2014), it is recommended that at least half of the board members elected by the General Meeting shall be independent of the Company. Independence is defined in accordance with the Danish Corporate Governance Recommendations 2013 (updated 2014).

Three of the proposed candidates set out below, Dr Ando, Mr Christiansen and Mr Kolding, are not considered to be independent of the Company as Dr Ando and Mr Christiansen hold a board position at Novo A/S and Mr Kolding is chief executive officer of Novo A/S. If all proposed candidates are elected to the Board of Directors, the Board of Directors will satisfy the requirement of the Danish Corporate Governance Recommendations 2013 (updated 2014) that at least half of the board members elected by the shareholders shall be independent.

In addition, the proposed composition of the Board of Directors will enable the Board of Directors to elect members to the Audit Committee who qualify as independent and as financial experts as required and defined by the US Securities and Exchange Commission (SEC) as well as the Danish Act on Approved Auditors and Audit Firms.

Please see the Company's website: novonordisk.com

'Board of Directors' for a more detailed description of the
competence criteria of the Board of Directors.

Novo Nordisk Annual General Meeting 2015 • page 13

The Remuneration Principles are designed to attract, retain and motivate the members of the Board of Directors and of Executive Management. Remuneration has been designed to align the interests of the executives with those of the shareholders.

1. The Board of Directors

1.1 Process

The Board of Directors reviews board fees annually based on recommendations from the Chairmanship. When preparing its recommendation, the Chairmanship will evaluate board fees against relevant benchmarks of Danish and other Nordic companies as well as European pharmaceutical companies similar to Novo Nordisk in size, complexity and market capitalisation. The remuneration of the board members for the past year and the level for the current year are approved by the Annual General Meeting as a separate agenda item.

1.2 Size

Each board member shall receive a fixed fee per year. Board members receive a fixed amount (the base fee) while the Chairmanship receives a multiple thereof: the chairman receives 3 times the base fee and the vice chairman receives 2 times the base fee.

Service on the Audit Committee entitles board members to an additional fee: the Audit Committee chairman receives 1.00 times the base fee and the other Audit Committee members receive 0.5 times the base fee.

Service on the Nomination Committee entitles board members to an additional fee: the Nomination Committee chairman receives 0.5 times the base fee and the other Nomination Committee members receive 0.25 times the base fee. If the Nomination Committee chairman also holds the position as chairman of the Board of Directors he or she shall not receive any additional fee.

Service on the Remuneration Committee entitles board members to an additional fee: the Remuneration Committee chairman receives 0.25 times the base fee and the other Remuneration Committee members receive 0.125 times the base fee. If the Remuneration Committee chairman also holds the position as chairman of the Board of Directors he or she shall not receive any additional fee.

Individual board members may take on specific ad hoc tasks outside their normal duties assigned by the Board. In each such case the Board shall determine a fixed fee (eg per diem) for the work carried out related to those tasks. The fixed fee will be disclosed in the Annual Report.

1.3 Social security taxes

Novo Nordisk pays in addition to the fixed fee such contribution to social security taxes within the EU imposed by foreign authorities in relation to the fixed fee.

1.4 Travel allowance

All board members who do not reside in Denmark are paid a fixed travel allowance when attending board meetings in Denmark. No travel allowance is paid to board members when attending board meetings outside Denmark. The travel allowance will be disclosed in the Annual Report.

1.5 Expenses

Expenses such as travel and accommodation in relation to board meetings as well as relevant education are reimbursed.

1 In Section 4 of the Recommendations on Corporate Governance designated by Nasdaq Copenhagen referred to as “remuneration policy”.

2 These Principles include general guidelines for incentive-based remuneration pursuant to Section 139 of the Danish Companies Act.

1.6 Incentive programmes

Board members are not offered stock options, warrants or participation in other incentive schemes.

2. Executive Management

Executive Management includes all the executives registered as executives with the Danish Business Authority.

2.1 Process

Executive remuneration is proposed by the Chairmanship and subsequently approved by the Board.

2.2 Size and composition

Executive remuneration is evaluated annually against relevant benchmarks of Danish and other Nordic companies as well as European pharmaceutical companies similar to Novo Nordisk in terms of size, complexity and market capitalisation. To ensure comparability, executive positions are evaluated in accordance with an international position evaluation system which among other parameters includes and reflects the development of the company size measured in terms of company revenue and number of employees. The level of fixed base salary is assessed against the market benchmark median level, and the total remuneration package is assessed against the upper quartile level for Denmark.

The remuneration package consists of a fixed base salary, a cash-based incentive, a long-term share-based incentive, a pension contribution and other benefits.

For executives being expatriated at the request of the company, the remuneration package is based on current Danish remuneration levels, including pension entitlements, while a specific expatriation package is added for the period of expatriation.

The fixed base salary is chosen to attract and retain executives with professional and personal competences required to drive the company's performance.

The Short-term Incentive Programme (STIP) is designed to incentivise the individual executive for individual performance within his/her functional area and to ensure short-term achievements in line with company needs.

The Long-term Incentive Programme (LTIP) is designed to promote the collective performance of Executive Management and to align the interests of executives and shareholders. It further ensures a balance between short-term achievements and long-term thinking.

Pension contributions are made to provide an opportunity for executives to build up an income for retirement.

Other benefits are added to ensure that overall remuneration is competitive and aligned with local practice.

2.3 Size of the components

The fixed base salary accounts for approximately 25% to 50% of the total value of the remuneration package. The interval states the span between "maximum performance" and "on-target-performance".

In addition to the fixed base salary, the executives may be eligible for incentive-based remuneration consisting of 1) a short-term incentive programme, and 2) a long-term incentive programme. The short-term incentive programme may result in a maximum payout per year equal to 12 months' fixed base salary plus pension

contribution. The long-term incentive programme may result in a maximum grant per year equal to 12 months' fixed base salary

plus pension contribution. Consequently, the aggregate maximum amount that may be granted as incentive for a given year is equal to 24 months' fixed base salary plus pension contribution.

This split between fixed and variable remuneration is intended to result in a reasonable part of the salary being linked to performance, while at the same time promoting sound business decisions to achieve the company's vision. Further, the balance between the components is assessed broadly to be in line with market practice for benchmarked companies.

2.4 Incentive programmes

2.4.1 Short-term incentive programme (STIP)

The STIP consists of a cash-based incentive which is linked to the achievement of a number of predefined functional and individual business targets for each member of Executive Management. The targets for the chief executive officer are fixed by the chairman of the Board of Directors while the targets for the executive vice presidents are fixed by the chief executive officer. The chairman of the Board evaluates the degree of target achievement for each member of Executive Management, and cash-based incentives – if any – for a particular financial year are paid at the beginning of the subsequent financial year.

The STIP for each participating member cannot exceed an amount equal to 12 months' fixed base salary plus pension contribution per year. The calculation of the STIP – if any – for a year is typically based on the salary in December.

STIP is subject to recovery or 'claw-back' by Novo Nordisk, provided the remuneration was paid on the basis of data which proved to be manifestly misstated due to wilful misconduct or gross negligence by the executive. Claw-back in relation to the STIP is possible up to 12 months after the actual payment of the cash-based incentive.

2.4.2 Long-term incentive programme (LTIP)

Each year in January the Board of Directors decides whether or not to establish an LTIP for that calendar year.

The LTIP is based on an annual calculation of shareholder value creation as compared to the budgeted performance for the year.

Aligned with Novo Nordisk's long-term financial targets, the calculation of shareholder value creation is based on reported operating profit after tax reduced by a weighted average cost of capital (WACC)-based return requirement on average invested capital.

A proportion of the calculated shareholder value creation is allocated to a joint pool for Executive Management and other members of the Senior Management Board. The Senior Management Board consists of all members of Executive Management and senior vice presidents.

For members of Executive Management the joint pool operates with a yearly maximum allocation per participant equal to 12 months' fixed base salary plus pension contribution.

The joint pool may, subject to the Board of Directors' assessment, be reduced in case of lower-than-planned performance on significant research and development projects and key sustainability projects. Targets for non-financial performance related to sustainability and research and development projects may include

achievement of certain milestones within set dates.

Once the joint pool has been approved by the Board of Directors, the total cash amount is converted into Novo Nordisk A/S B shares at market price. The market price is calculated as the average trading price for Novo Nordisk A/S B shares on Nasdaq Copenhagen in the open trading window following the release of financial results for the year prior to the bonus year; ie in the open trading window following immediately after the Board of Directors' approval of the programme.

The shares in the joint pool are allocated to the participants prorated according to their base salary as per 1 April in any given year.

The shares in the joint pool for a given year will be locked up for three years before it is transferred to the participants, including Executive Management. If a participant resigns during the lock-up period, his or her shares will remain in the joint pool for the benefit of the other participants.

In the lock-up period the Board of Directors may remove shares from the joint pool in the event of lower-than-planned value creation during such lock-up period, eg if the economic profit falls below a predefined threshold compared to the budget for a particular year.

In the lock-up period the market value of the joint pool will change dependent upon the development in the Novo Nordisk B share price, aligning the interests of participants including Executive Management with those of shareholders.

No dividends are paid on shares in the bonus pool in the lock-up period and the shares in the bonus pool are administered as part of Novo Nordisk's holding of treasury shares.

Novo Nordisk continuously covers its obligations under the LTIP through its holding of treasury shares.

LTIP is subject to recovery or 'claw-back' by Novo Nordisk, provided the remuneration was paid on the basis of data which proved to be manifestly misstated due to wilful misconduct or gross negligence by a participant. Claw-back in relation to the LTIP is possible up to 12 months after the release of the shares to the participants (ie four years after allocation).

2.5 Pension

The pension contribution is 25% to 30% of the fixed base salary including bonus.

2.6 Other benefits

Executives receive non-monetary benefits such as company cars, phones etc. Such benefits are approved by the Board by delegation of powers to the Chairmanship. The Chairmanship informs the Board of the process and outcome. In addition, executives may participate in customary employee benefit programmes, eg employee share purchase programmes.

2.7 Termination of employment

Novo Nordisk may terminate the employment of an executive by giving 12 months' notice. Executives may terminate their employment by giving Novo Nordisk six months' notice.

2.8 Severance payment

In the event of termination – whether by Novo Nordisk or by the individual – due to a merger, acquisition or takeover of Novo Nordisk, executives are, in addition to the notice period, entitled to a severance payment of 24 months' fixed base salary plus pension contribution. In case of termination by Novo Nordisk for other reasons, the severance payment is three months' fixed base salary plus pension contribution per year of employment as an executive and taking into account previous employment history; in no event, however, less than 12 or more than 24 months' fixed base salary plus pension contribution.

With regard to severance payment, the employment contracts entered into before 2008 exceed the 24-month limit described above. The severance payment to individual executives under the contracts entered into before 2008 will, however, not exceed 36 months' fixed base salary plus pension contributions.
