Directors Report for the Six Months and Three Months Ended June 30, 2003

Super-Sol Ltd.

We are pleased to present the Report of the Board of Directors for the six months and three months ended June 30, 2003 in accordance with the Israeli Securities Regulations (Periodic and Immediate Reports) 1970.

A. The Company and its Business Environment

The main activity of the Company is the operation of supermarket chains and the retail sales of supermarket goods in Israel.

The Company's results of operations are directly impacted by the political, economic and security conditions in Israel. The deterioration in the economic and security conditions in Israel has had a negative effect on the Company's results of operations. The Company's results of operations will continue to be impacted by the above.

At the end of the second quarter of 2003, the Company was operating 172 stores in six supermarket chains: Super-Sol 39 stores, Hyper-Netto 74 stores, Zol LeMehadrin (formerly Birkat Rachel) 9 stores, Universe Club 9 stores, Cosmos 16 stores and Food Warehouses 25 stores. Net-Sal represents an additional marketing vehicle of the Company. It enables the Company's customers to place home-delivery orders for supermarket products via the telephone, fax or Internet.

During the second quarter, the Company opened new Zol LeMehadrin store and converted one Hyper-Netto store to the Food Warehouses chain.

The overall area of the stores at the end of the second quarter is 382,700 sq.m., compared to 381,400 sq.m. at the end of the first quarter.

B. Operating Results

The second quarter

Sales for the second quarter of 2003 were NIS 1.62 billion, a decrease of 1.7% compared to NIS 1.65 billion in the second quarter last year. The Company's same store sales decreased by 5.2% during the quarter compared to the second quarter last year. The decrease in sales is mainly the result of the deepening recession and the increasing competition in the supermarket sector, including the opening of new stores, net of the positive effect of the timing of the Passover holiday.

The difficult economic situation, the high real interest charged to households and the inflationary erosion in salaries and disposable income contributed to the decline in the public's purchasing power compared to last year.

According to the trend data published by the Israeli Central Bureau of Statistics, gross average wages in real terms during January-April 2003 decreased by 5.7% compared to the same period last year, and by 9.4% compared to average real wages in 2001.

The linkage of the majority of household mortgage payments in Israel to the Consumer Price Index, and the real increase in electricity tariffs, resulted in an even steeper decrease in the public's disposable income for consumption.

Furthermore, according to the abovementioned trend data, unemployment continues to rise, and the unemployment rate in May 2003 reached 10.8% compared to 10.4% in May 2002.

Edgar Filing: SUPER SOL LTD - Form 6-K

The increase of 1% in the VAT rate to 18%, that came into effect in June 2002 also contributed to the decrease in sales compared to the same quarter last year.

On the other hand, sales were impacted by the timing of the Passover holiday which began on April 16 this year, therefore the holiday sales were included in the results for the second quarter. Last year the Passover holiday began on March 27, therefore all of the holiday sales were included in the results for the first quarter of 2002.

Revenues from rentals and operation of shopping malls were NIS 12 million for the second quarter, compared to NIS 14 million in the second quarter last year.

Directors Report for the Six Months and Three Months Ended June 30, 2003

Super-Sol Ltd.

B. Operating Results (cont d)

Gross profit was NIS 400 million for the second quarter of 2003, a decrease of 6.0% compared to NIS 426 million in the same quarter last year. Gross margin from total sales was 24.8% for the quarter, compared to 25.9% in the second quarter last year. The decrease in the gross margin is the result of the real decrease in food prices subsequent to the deepening recession and the competition in the supermarket sector, the conversion of stores to discount formats, net of the effect of the decrease in the Consumer Price Index on the Company's inventory and the increase in sales of the Company's private label products.

The financial results for the second quarter of the year compared to the second quarter last year were impacted by the decrease in the inflation rate. During the quarter the Consumer Price Index decreased by 1.3%, compared to an increase of 3.9% in the second quarter last year. As a result, and due to the presentation of index-linked financial statements, in the second quarter the inflationary adjustment of the opening balance of the inventory resulted in an increase of NIS 6 million in gross profit. In the second quarter last year, the inflationary adjustment of the opening balance of the inventory resulted in a decrease in gross profit of NIS 19 million.

Operating, selling, general and administrative costs were NIS 414 million during the second quarter, an increase of 3.0% compared to NIS 403 million during the same quarter last year. The ratio of operating, selling, general and administrative costs to total revenues was 25.5% compared to 24.3% during the same period last year. The increase in the expenses is attributable primarily to the increase in rentals and depreciation due to the opening of new stores, increased security costs in stores further to the deterioration in the security situation, and the sharp rise in electricity tariffs, net of the effect of a decrease in salary expenses.

Operating loss for the second quarter was NIS 2 million, compared to operating profit of NIS 37 million in the same period last year. The operating margin was minus 0.2% compared to 2.2% last year.

Financing expenses, net for the second quarter of 2003 were NIS 16 million, compared to financing income, net of NIS 12 million in the same quarter last year. Financing expenses, net for the second quarter resulted from a combination of two factors:

- (1) The decrease in the index of 1.3% during the quarter resulted in the appreciation of the excess of unlinked monetary liabilities over unlinked monetary assets, net.
- (2) The decrease in the index in respect of the quarter exceeded by 0.8% the decrease in the index to which the long-term liabilities are linked. This increased financing expenses in respect of index-linked long-term bank loans and notes.

During the second quarter last year the increase in the index of 3.9% resulted in financing income from the erosion of the excess of unlinked monetary liabilities over unlinked monetary assets, net. The increase in the index in respect of the quarter exceeded by 0.9% the increase in the index to which the long-term liabilities are linked and resulted in financing income.

During the second quarter of 2003, the Company recorded other expenses, net of NIS 5 million, due mainly to capital losses, compared to other income, net of NIS 2 million in the same quarter last year.

In the second quarter of 2003 the Company recorded tax income of NIS 6 million due to the recording of a deferred tax benefit. During the same quarter last year the Company recorded a tax expense of NIS 21 million. The effective tax rate (benefit) for the quarter was 23.8%, compared to 40.9% for the same quarter last year.

The Company's net loss for the second quarter was NIS 19 million, compared to net profit of NIS 28 million during the same quarter last year.

The Company's basic and diluted loss per NIS 0.1 par value of shares for the second quarter was NIS 0.10 per share, compared to earnings per share of NIS 0.14 per share during the same period last year.

Directors Report for the Six Months and Three Months Ended June 30, 2003

Super-Sol Ltd.

B. Operating Results (cont d)

The six months ended June 30, 2003

Sales for the six month period reached NIS 3.17 billion, a decrease of 6.5% compared to NIS 3.39 billion in the same period last year. The Company's same store sales decreased by 10.1% during the six month period compared to the same period last year. The decrease in sales is mainly the result of the deepening recession and the increasing competition in the supermarket sector, including the opening of new stores, as mentioned above.

Gross profit was NIS 779 million for the six month period, a decrease of 12.7% compared to NIS 893 million for the same period last year. Gross margin was 24.6% for the six month period, compared to 26.3% for the same period last year. The decrease in the gross margin is the result of the real decrease in food prices as a result of the deepening recession and the competition in the supermarket sector, and the decrease in supplier discounts in respect of prior years, net of the effect of the decrease in the Consumer Price Index on the Company's inventory. Gross profit for the six month period last year exceeded gross profit for the same period this year by NIS 23 million due to the recording of discounts received from suppliers in respect of 2001 due to the settlement of accounts for 2001 subsequent to the signing of the financial statements for 2001.

The financial results for the six month period reflect a decrease of 0.5% in the Consumer Price Index, while the results for the same period last year reflect an increase of 6.3% in the Index. The difference of 6.8% resulted in an increase of NIS 30 million in gross profit and operating profit for the six month period compared to the same period last year, due to the inflationary adjustment of the opening balance of the inventory.

Operating, selling, general and administrative costs were NIS 810 million during the six month period this year and last year. The ratio of operating, selling, general and administrative costs to total revenues was 25.3% compared to 23.7% during the same period last year. During the period there was a decrease in salary, cleaning and maintenance expenses compared to the same period last year. On the other hand there was an increase in rentals and depreciation due to the opening of new stores, as well as increased security costs in stores further to the deterioration in the security situation, and increased electricity costs.

Operating loss for the six month period was NIS 6 million, compared to operating profit of NIS 115 million in the same period last year. The operating margin was minus 0.2% compared to 3.4% for the same period last year.

The Company's financing expenses, net were NIS 14 million for the first six months of 2003, compared to financing income, net of NIS 15 million in the same period last year. Financing expenses, net for the first six months of 2003 resulted from a combination of two factors:

- (1) The decrease in the index of 0.5% during the quarter resulted in the appreciation of the excess of unlinked monetary liabilities over unlinked monetary assets, net.
- (2) The decrease in the index in respect of the quarter exceeded by 0.3% the decrease in the index to which the long-term liabilities are linked. This increased financing expenses in respect of index-linked long-term bank loans and notes.

During the first six months last year the increase in the index of 6.3% resulted in financing income from the erosion of the excess of unlinked monetary liabilities over unlinked monetary assets, net. The increase in the index in respect of the quarter exceeded by 1.5% the increase in the index to which the long-term liabilities are linked and resulted in lower financing expenses than in the first six months of 2003.

During the first six months of 2003, the Company recorded other expenses, net of NIS 6 million, due mainly to capital losses. During the same period last year the Company had other income, net of NIS 27 million, mainly from capital gains on the sale of the Company's holdings in Avnat Ltd.

Directors Report for the Six Months and Three Months Ended June 30, 2003

Super-Sol Ltd.

B. Operating Results (cont'd)

In the first six months of 2003 the Company recorded tax income of NIS 7 million due to the recording of a deferred tax benefit. During the same period last year the Company recorded a tax expense of NIS 62 million. The effective tax rate (benefit) for the quarter was 23.9%, compared to 39.5% for the same period last year.

The Company's equity in losses of affiliated company for the first six months of 2003 was NIS 2 million, compared to NIS 10 million during the first six months of 2002 which resulted from the recording of an impairment loss by the affiliated company.

Net loss for the first six months of 2003 was NIS 22 million, compared to net profit of NIS 84 million in the same period last year.

The Company's basic and diluted loss per NIS 0.1 par value of shares for the six month period was NIS 0.11 per share, compared to earnings per share of NIS 0.41 per share during the same period last year.

C. Financial Position, Liquidity and Financing Resources

Cash flows from operating activities

Net cash inflow from operating activities was NIS 121 million in the second quarter of 2003, compared to net cash outflow from operating activities of NIS 21 million in the same quarter last year. The increase was mainly due to a decrease in trade and other payables in the second quarter of 2003 of NIS 88 million compared to NIS 325 million in these items in the second quarter of 2002. On the other hand, during the second quarter of 2003 the decrease in trade receivables was NIS 94 million compared to NIS 189 million during the second quarter last year. These changes resulted from the timing of the Passover holiday that began on April 16 this year and on March 27 last year.

Cash flows from investing activities

Net cash outflow from investing activities was NIS 58 million in the second quarter of 2003, compared to NIS 172 million in the same quarter last year. The decrease was due to the reduction in investments in fixed assets and marketable securities and due to the sale of marketable securities in the second quarter of 2003.

Cash flows from financing activities

Net cash outflow from financing activities for the second quarter of 2003 amounted to NIS 20 million, compared to NIS 3 million for the same quarter last year. The change was mainly due to the repayment of long-term loans from banks and others in the amount of NIS 46 millions and increase in short-term credit, net from banks in the amount of NIS 26 million during the quarter, compared to the repayment of long-term loans from banks and others in the amount of NIS 4 million during the second quarter last year.

At the end of the second quarter, the Company's consolidated net short-term assets (cash, deposits and marketable securities net of short-term bank credit) were NIS 113 million, compared to NIS 81 million at the end of the same quarter last year.

Long-term liabilities to banks and others and to holders of notes, including current maturities (hereafter financial debt) were NIS 784 million at the end of the quarter, compared to NIS 815 million at the end of the same quarter last year. The ratio of loans and notes to total assets was 20.2% at the end of the quarter, compared to 19.9% at the end of the same quarter last year.

Net financial debt (financial debt net of cash, deposits and marketable securities) was NIS 575 million at the end of the quarter, a decrease of 9.4% compared to NIS 633 million at the end of the same quarter last year.

Shareholders' equity at the end of the quarter was NIS 1.80 billion, compared to NIS 1.99 billion at the end of the same quarter last year. The ratio of shareholders' equity to total assets was 46.4% at the end of the quarter, compared to 48.7% at the end of the same quarter last year.

Directors Report for the Six Months and Three Months Ended June 30, 2003**Super-Sol Ltd.****E. Impact of External Factors**

On April 17, 2000, representatives of the Israel Antitrust Authority (the Authority) conducted a search at the offices of the Company in connection with suspected restrictive trade practices among supermarket chains and suppliers. The Authority seized documents of the Company, including correspondence with suppliers, relating to the years 1996-2000. To the best of the Company's knowledge, three former executive officers of the Company, one executive officer and certain employees were questioned by the Authority.

On May 29, 2003, the Israeli Antitrust Commissioner (hereafter the Commissioner) published a document describing his position regarding various trade practices among the large supermarket chains, including the Company and dominant food suppliers. The document includes a description of business practices among the large supermarket chains and dominant food suppliers, which in the opinion of the Commissioner violate the Israeli Antitrust Law of 1988 (hereafter the Antitrust Law). The Commissioner did not state in the document which large supermarket chain operated according to the said practices, in part or in entirety. The wording of the document is general and is addressed to all the chains and all the food suppliers. Furthermore, the Commissioner states in the document that he has not yet decided whether to exercise his authority regarding past activities. Along with the description of the business practices that prevailed, or continue to prevail, among the chains and the dominant food suppliers, the Commissioner stipulates a long list of future behavior rules that he wishes to implement in the relationships among the supermarket chains and the dominant food suppliers. According to the opinion of the Company's legal counsel, part of the future behavior rules are derived from the Antitrust Law and the Commissioner's determination does not alter the law. On the other hand, part of said rules are not derived from law and constitute prohibitions that are not founded in law. The Commissioner published the document for comment by the public for a 45-day period, i.e. until July 13, 2003. The date for submission of comments has been postponed to the beginning of August 2003. As the Commissioner's document is preliminary and general in nature, it is difficult, at this stage, to evaluate the impact on the Company of any actions the Commissioner may take or any final rules that may be adopted.

F. Resignation of CEO

On July 27, 2003 the Company's Board of Directors resolved to appoint Mr. Effie Rosenhaus as Chief Executive Officer of the Company, with the resignation of Mr. Joel Feldschuh, the CEO from May 26, 2003 until that date. During the period from March 12, 2003 to May 26, 2003 Mr. Chaim Elkan served as Acting CEO of the Company.

G. Dividend

On August 7, 2003 the Company's Board of Directors resolved to distribute a dividend for 2003 of 707.5% (NIS 0.71 per share). The total amount of the dividend is NIS 150 million. The dividend will be paid on September 10, 2003 to the shareholders of record as of August 24, 2003.

H. The Board of Directors

During the six months ended June 30, 2003, the Board of Directors held 12 meetings. The committees of the Board of Directors held additional meetings.

The Board of Directors of
Super-Sol Ltd.
Rishon Le-Zion

Dear Sirs,

Review of the Unaudited Interim Consolidated Financial Statements for the six and three month periods ended on June 30, 2003

At your request we have reviewed the interim consolidated balance sheet of Super-Sol Ltd. and its subsidiaries as at June 30, 2003 and the related consolidated statement of income, the statement of changes in shareholders' equity and the consolidated statement of cash flows for the six and three month periods then ended.

Our review was conducted in accordance with procedures established by the Institute of Certified Public Accountants in Israel and included, inter alia, reading the above financial statements, reading the minutes of Shareholders' Meetings and meetings of the Board of Directors and its committees as well as making inquiries of persons responsible for financial and accounting matters.

The data relating to the net asset value of the Company's investment in the affiliated company and to its equity in the operating results of the affiliated company, is based on interim financial statements which were reviewed by other auditors.

Since the review performed was limited in scope and does not constitute an examination in accordance with generally accepted auditing standards, we do not express an opinion on the above financial statements.

In the course of our review, including the reading of the review report of other auditors as stated above, nothing came to our attention which would indicate the necessity of making any material modifications to the interim financial statements referred to above in order for them to be in conformity with generally accepted accounting principles and in accordance with Section D of the Securities Regulations (Periodic and Immediate Reports), 1970.

Yours truly,

Somekh Chaikin

Notes to the Consolidated Financial Statements as at June 30, 2003 (Unaudited)

Super-Sol Ltd.

Note 1 Reporting Principles and Accounting Policies

The main activity of Super-Sol Ltd. (the Company) is the operation of supermarket chains and the retail sales of supermarket goods in Israel.

A. Unaudited interim financial statements

- These interim financial statements are prepared in a condensed format in accordance with generally accepted accounting principles in Israel for interim financial statements.
- These financial statements are as at June 30, 2003 and for the six and three month periods then ended. They should be read in conjunction with the annual audited financial statements of the Company as at December 31, 2002 and for the year then ended and their accompanying notes. Results of operations for the six month period ended June 30, 2003 are not necessarily indicative of the results that may be expected for the year ending December 31, 2003.
- The main accounting policies were applied in the preparation of the interim financial statements in a manner consistent with the audited financial statements as at December 31, 2002.

B. Adjusted financial statements

In accordance with opinions of the Institute of Certified Public Accountants in Israel, the Company presents its interim financial statements in NIS adjusted for changes in Israeli Consumer Price Index (the Israeli CPI). All figures in the interim financial statements are presented in adjusted New Israeli Shekels (Adjusted NIS), which have a constant purchasing power as of June 30, 2002.

Following are details of changes in the Israeli CPI and the exchange rate of the U.S. dollar for the reported periods:

	CPI	Exchange rate of the U.S. dollar
	%	%
Six months ended June 30, 2003	(0.5)	(9.0)
Three months ended June 30, 2003	(1.3)	(8.0)
Six months ended June 30, 2002	6.3	8.0
Three months ended June 30, 2002	3.9	2.2
Year ended December 31, 2002	6.5	7.3

Notes to the Consolidated Financial Statements as at June 30, 2003 (Unaudited)

Super-Sol Ltd.

Note 2 Events During the Second Quarter

1. On April 9, 2003, the Company received a request that was filed with the Tel Aviv District Court for recognition of, as a class action suit, a claim against the Blue Square, Kol-Bo Hatzhi-Hinam, Club Market and the Company, for monetary compensation of NIS 320 million. In as much as it relates to the Company, the claim concerns the purchase of two delicatessen products by weight.

Based on an examination of the facts of the claim against the Company, the Company considers that there is a good chance the claim against the Company will be dismissed.

2. On May 27, 2003, the Company received a motion for recognition of, as a class action suit, a claim against the Company, for monetary compensation of NIS 12 million, in accordance with clauses 17a and 17b of the Consumer Protection Law 5741 1981, regarding the display of prices upon beverage bottles.

According to the opinion of the legal advisors of the Company, at this stage it is not possible to estimate the chances of lawsuit or even the chances of the request for recognition of the claim as a class action suit.

3. On April 17, 2000, representatives of the Israel Antitrust Authority (the Authority) conducted a search at the offices of the Company in connection with suspected restrictive trade practices among supermarket chains and suppliers. The Authority seized documents of the Company, including correspondence with suppliers, relating to the years 1996 2000. To the best of the Company's knowledge, three former executive officers of the Company, one executive officer and certain employees were questioned by the Authority.

On May 29, 2003, the Israeli Antitrust Commissioner (hereafter the Commissioner) published a document describing his position regarding various trade practices among the large supermarket chains, including the Company and dominant food suppliers. The document includes a description of business practices among the large supermarket chains and dominant food suppliers, which in the opinion of the Commissioner violate the Israeli Antitrust Law of 1988 (hereafter the Antitrust Law). The Commissioner did not state in the document which large supermarket chain operated according to the said practices, in part or in entirety. The wording of the document is general and is addressed to all the chains and all the food suppliers. Furthermore, the Commissioner states in the document that he has not yet decided whether to exercise his authority regarding past activities. Along with the description of the business practices that prevailed, or continue to prevail, among the chains and the dominant food suppliers, the Commissioner stipulates a long list of future behavior rules that he wishes to implement in the relationships among the supermarket chains and the dominant food suppliers. According to the opinion of the Company's legal counsel, part of the future behavior rules are derived from the Antitrust Law and the Commissioner's determination does not alter the law. On the other hand, part of said rules are not derived from law and constitute prohibitions that are not founded in law. The Commissioner published the document for comment by the public for a 45-day period, i.e. until July 13, 2003. The date for submission of comments has been postponed to the beginning of August 2003. As the Commissioner's document is preliminary and general in nature, it is difficult, at this stage, to evaluate the impact on the Company of any actions the Commissioner may take or any final rules that may be adopted.

Notes to the Consolidated Financial Statements as at June 30, 2003 (Unaudited)

Super-Sol Ltd.

Note 3 Post-Balance Sheet Events

1. Resignation of CEO

On July 27, 2003 Mr. Effie Rosenhaus was appointed as Chief Executive Officer of the Company, with the resignation of Mr. Joel Feldschuh, the CEO from May 26, 2003 until that date. During the period from March 12, 2003 to May 26, 2003 Mr. Chaim Elkan served as Acting CEO of the Company.

2. Dividend distribution

On August 7, 2003 the Company's Board of Directors resolved to distribute a dividend for 2003 of 707.5% (NIS 0.71 per share). The total amount of the dividend is NIS 150 million. The dividend will be paid on September 10, 2003 to the shareholders of record as of August 24, 2003.

Note 4 Recent Accounting Pronouncement

In July 2001 the Israel Accounting Standards Board published Accounting Standard No. 12, Discontinuance of Adjustment of Financial Statements. According to this standard the adjustment of financial statements to the effect of the changes in the general purchasing power of the Israeli currency will be discontinued as of January 1, 2003.

In December 2002 the Israel Accounting Standards Board published Accounting Standard No. 17 according to which the implementation of the Standard No. 12 is deferred to January 1, 2004. Therefore the adjustment of the financial statements will be discontinued as of January 1, 2004. Until December 31, 2003 the Company will continue to prepare adjusted financial statements according to Opinion No. 36 of the Institute of Certified Public Accountants in Israel. The inflation adjusted amounts included in the financial statements as at December 31, 2003 will be the basis for the nominal financial reporting starting January 1, 2004. The implementation of Standard No. 12 could have a material effect on the reported business results of the Company. The extent of the effect depends on the rate of inflation, composition of assets and on the Company's sources of financing.
