**Gilat announces 2003 second-quarter results**

**Reports quarterly revenues of US\$52 Million**  
**Company streamlines organization and improves cost efficiency**

**Solid deal flow during first half of year**

Petah Tikva, Israel, August 14, 2003 Gilat Satellite Networks Ltd. (Nasdaq: GILTF), a worldwide leader in satellite networking technology, today reported its results for the quarter ended June 30, 2003.

Revenues were US\$52.1 million for the second quarter of 2003, an increase of US\$0.5 million over the US\$51.6 million result for the same period in 2002, as well as an increase of US\$1.0 million over the US\$51.1 in the first quarter of 2003. Operating loss for the second quarter was US\$31.5 million and net loss was US\$36.2 million or US\$2.79 per share. The results above include a total of US\$21 million in write-offs associated with Statement of Accounting Standard #144 Accounting for the Impairment or Disposal of Lived Assets SFAS #144, (US\$18.9 million), and charges relating to the company's restructuring process (US\$2.1 million). The total cash and cash equivalents during the quarter decreased by US\$2.5 million leaving the Company with a stable cash position.

During the quarter, a new management team and Board of Directors was elected, headed by Shlomo Rodav as the new Chairman of the Board, and Oren Most as the new President and CEO. With the Company's financial restructuring process successfully completed, Gilat also embarked on an effort to streamline the Company's operations in order to increase efficiency and reduce costs. This effort included a variety of measures including organizational and structural changes and office consolidation leading to increased efficiency as well as a reduction in the worldwide workforce by 13%, significantly reducing the company's labor costs by 30%.

Management is optimistic that the combination of the new strategy it is currently finalizing and putting into place, as well as the steps taken to streamline the Company's cost structure and improve operations, together with leveraging Gilat's strong technology and competitive position in the global marketplace, will lead to improved economies and strengthen the Company's position as one of the industry leaders.

**Second Quarter Events**

Gilat announces Alcatel subsidiaries join SATLYNX, R&D agreement with SES Global, a major agreement in Bulgaria, an important deployment in Australia and a continued strong deal flow for its Spacenet subsidiary

During the quarter, the Company announced a series of agreements that contributed to the Company's continued strong deal flow and demonstrated the growing confidence in the Company and in its technology.

- In June, Gilat and SES Global, the joint founding shareholders of SATLYNX, Europe's premier 2-way satellite broadband services provider, announced that Alcatel Space and SkyBridge LP, subsidiaries of Alcatel, have joined the company and made an investment which will yield up to a 17.9% stake in the venture.
- Separately, SES and Gilat also executed an agreement to fund the development of a low cost, Ka-band version of Gilat's popular Skystar 360E family product line.
- Also in Europe, Gilat signed an important agreement with the Bulgarian company TRANSAT to deploy a Skystar 360E hub and VSAT network with sites throughout Bulgaria. The network will provide data connectivity to 450 gas stations, 17 corporate regional branches, 30 bank branches and other applications.

- Australia's major telecom Optus, was hired to run an IDL network for the Australian government initiative to deliver education to small rural towns, isolated schools, and remote homesteads in New South Wales and the Northern Territory, using Gilat's Skystar 360E VSAT platform. Gilat is providing a 310-site, two-way satellite communications network to deliver broadband Internet services to these rural communities, plus 540 more VSATs to Australia's world renowned School of the Air.

#### **Spacenet Continues Strong Deal Flow**

- Gilat's subsidiary, Spacenet, has been awarded a five-year contract by Rent-Way, Inc. to provide a two-way satellite-based IP network to all of Rent-Way's 750+ stores. Rent-Way is one of the nation's largest operators of rental-purchase stores. Rent-Way's Connexstar Enterprise network is designed to support a wide variety of services, including point-of-sale and inventory control applications, as well as Internet and intranet access.
- Spacenet has been selected by RTM Restaurant Group Inc. to provide a broadband VSAT network to their Arby's restaurants and other quick service restaurant locations. The five-year commitment calls for Spacenet's Connexstar Enterprise service to be deployed at 825 restaurant locations for a range of applications including credit authorization, point-of-sale and store polling as well as intranet-based back office applications.
- Spacenet signed an agreement with The Kroger Co. to provide remote VSAT and base-band hub technology for a nationwide two-way satellite network. The network will initially link multiple video studios with Fred Meyer grocery store locations through a broadband connection allowing high-speed Video on Demand (VoD) delivery and Voice over IP (VoIP) return for Interactive Distance Learning (IDL) and videoconferencing applications.
- Spacenet has been chosen by Golden Corral Corporation to deploy the Connexstar CX-500 commercial-grade, broadband satellite service to its chain of Golden Corral family restaurants. This service will be used by Golden Corral to run a broad range of IP-based applications including high-speed credit authorization, point-of-sale polling and web-based, back-office applications.
- Spacenet has signed an agreement with leading auto parts retailer Genuine Parts Company (GPC) to provide a high-speed satellite communications network for its NAPA auto parts retail stores. GPC's network will utilize Connexstar Enterprise, a new variant of Spacenet's popular Connexstar service. The agreement calls for Spacenet's VSAT service to be deployed at a minimum of 750 of GPC's more than 5,000 locations.
- Spacenet has also been selected by International Dairy Queen, Inc. as its exclusive provider of satellite-based broadband connectivity for its restaurant brands, including Dairy Queen/Brazier® restaurants, throughout the United States. The Connexstar service is a key component of Dairy Queen's plans to enhance point-of-sale applications and link all franchise locations to corporate headquarters.

#### **About Gilat Satellite Networks Ltd.**

Gilat Satellite Networks Ltd., with its global subsidiaries Spacenet Inc., Gilat Latin America and rStar Corporation (RSTRC), is a leading provider of telecommunications solutions based on Very Small Aperture Terminal (VSAT) satellite network technology with nearly 400,000 VSATs shipped worldwide. Gilat, headquartered in Petah Tikva, Israel, markets the Skystar Advantage®, DialAw@y IP, FaraWay, Skystar 360E and SkyBlaster® 360 VSAT products in more than 70 countries around the world. Gilat provides satellite-based, end-to-end enterprise networking and rural telephony solutions to customers across six continents, and markets interactive broadband data services. Gilat is a joint venture partner with SES GLOBAL, and Alcatel Space and SkyBridge LP, subsidiaries of Alcatel, in SATLYNX, a provider of two-way satellite broadband services in Europe. Skystar Advantage, Skystar 360E, DialAw@y IP and FaraWay are trademarks or registered trademarks of Gilat Satellite Networks Ltd. or its subsidiaries. Visit Gilat at [www.gilat.com](http://www.gilat.com). (\*SkyBlaster is marketed in the United States by StarBand Communications Inc. under its own brand name.)
