Compugen Reports Third Quarter 2007 Financial Results

TEL AVIV, ISRAEL October 23, 2007 Compugen Ltd. (NASDAQ: CGEN) today reported financial results for the third quarter ended September 30, 2007.

We were pleased to announce during the past quarter the signing of a collaboration agreement with Teva Pharmaceutical Industries covering CGEN-54, a drug candidate for chronic inflammatory diseases, which we initially predicted *in silico* using our splice variant discovery engine and then validated experimentally, stated Alex Kotzer, Compugen's President and CEO. In addition, Mr. Kotzer continued, during the quarter we received the first milestone payments from one of our existing immunoassay diagnostic agreements.

Martin Gerstel, Compugen's Chairman, added, With respect to our cash status, we currently estimate that approximately \$10 million, in addition to the \$19 million we now have, would be sufficient to continue our progress through at least mid-2010, by which time we anticipate that the company will be in a very different strategic and financial position. Based on this and our expectation that continuing validation of our capabilities and product candidates will support a strengthening of our share price, any equity offering based on our current share price would likely be limited to that amount.

Revenues for the third quarter of 2007 were \$90,000 compared to no revenues for the third quarter of 2006. Revenues for the nine months ended September 30, 2007 were \$90,000, compared to \$205,000 for the same period in 2006.

The net loss from continuing operations for the most recent quarter was \$2.7 million (including a non-cash expense of \$619,000 related to stock based compensation) or \$0.09 per share, compared with a net loss from continuing operations of \$2.3 million (including a non-cash expense of \$493,000 related to stock based compensation), or \$0.08 per share, for the corresponding quarter of 2006. The net loss from continuing operations for the first nine months of 2007 was \$8.3 million (including a non-cash expense of \$1.9 million related to stock based compensation), or \$0.29 per share, compared with a net loss from continuing operations of \$8.4 million (including a non-cash expense of \$1.5 million related to stock based compensation), or \$0.30 per share, for the same period in 2006.

The net loss for the most recent quarter was \$2.7 million (including a non-cash expense of \$619,000 related to stock based compensation) or \$0.09 per share, compared with a net loss of \$2.5 million (including a non-cash expense of \$551,000 related to stock based compensation), or \$0.09 per share, for the corresponding quarter of 2006. The net loss for the first nine months of 2007 was \$9.0 million (including a non-cash expense of \$1.9 million related to stock based compensation), or \$0.32 per share, compared with a net loss of \$9.2 million (including a non-cash expense of \$1.6 million related to stock based compensation), or \$0.33 per share, for the same period in 2006.

Edgar Filing: COMPUGEN LTD - Form 6-K

Research and development expenses of \$2.3 million for the most recent quarter, compared to \$2.5 million for the third quarter of 2006, remain the Company's largest expense. Research and development expenses for the first nine months of 2007 were \$6.9 million compared to \$7.8 million for the comparable period in 2006. These amounts are before the deduction of governmental and other grants, which totaled \$379,000 for the third quarter ended September 30, 2007, compared with \$820,000 for the corresponding quarter in 2006, and \$969,000 for the first nine months of 2007, compared with \$1.3 million for the comparable period in 2006.

As of September 30, 2007, Compugen had \$19.1 million in cash, cash equivalents, short and long term deposits, and marketable securities, a decrease of \$7.3 million for the first nine months of 2007, consistent with our previously announced outlook of total cash usage for the full year of \$10 million.

Conference Call and Web Cast Information

Compugen will hold a conference call to discuss its third quarter results on October 23, 2007 at 10:00 am EDT. To access the conference call, please dial 1-888-281-1167 from the US or +972-3-918-0610 internationally. A replay of the conference call will also be available approximately two hours after the completion of the live conference call. To access the replay, please dial 1-888-782-4291 from the US or +972-3-925-5901 internationally. The replay will be available until 12 noon EDT on October 25, 2007. The call will also be available via live Web cast through Compugen's Website, located at www.cgen.com.

About Compugen

Compugen's mission is to be the world leader in the discovery and licensing of product candidates to the drug and diagnostic industry. The Company's powerful discovery engines enable the predictive discovery of numerous potential therapeutics and diagnostic biomarkers. This capability results from the Company's decade-long pioneering efforts in the deeper understanding of important biological phenomena at the molecular level through the incorporation of ideas and methods from mathematics, computer science and physics into biology, chemistry and medicine. To date, Compugen's product discovery efforts and its initial discovery engines have focused mainly within the areas of cancer, immune-related and cardiovascular diseases. The Company's primary commercialization pathway for its product candidates is to enter into milestone and revenue sharing out-licensing and joint development agreements with leading therapeutic and diagnostic companies. Compugen has established an agricultural biotechnology affiliate Evogene, and a small-molecule drug discovery affiliate Keddem Bioscience. For additional information, please visit Compugen's corporate Website at www.cgen.com.
