Item 2.02. Results of Operations and Financial Condition.

On May 16, 2011, Ampal-American Israel Corporation (the “Company”) issued a press release announcing its results of operations for the first quarter of 2011 (the “Press Release”). In addition, on May 16, 2011, the Company made available on its website (www.ampal.com) a presentation showing the results of operations and financial condition of the Company and some of its subsidiaries and investee companies (the “Presentation”). The full text of the Press Release and the Presentation issued by the Company are furnished as Exhibit 99.1 and Exhibit 99.2, respectively, and are incorporated herein by reference.

Non-GAAP Financial Measures

In the Press Release and the Presentation, the Company disclosed adjusted EBITDA as a financial measure for its subsidiary, Gadot Chemical Tankers and Terminals Ltd. (“Gadot”). Adjusted EBITDA is a non-GAAP financial measure, as defined in Regulation G promulgated by the SEC. Reconciliations of the applicable adjusted EBITDA measures are included within the text of both the Press Release and the Presentation.

The Company defines adjusted EBITDA as earnings before interest, income tax provision, depreciation and amortization, adjusted for non-recurring expenses. The Company's management believes adjusted EBITDA for Gadot to be a meaningful indicator of its performance that provides useful information to investors regarding its financial condition and results of operations. The presentation of adjusted EBITDA is a non-GAAP financial measure commonly used by management to measure operating performance. While management considers adjusted EBITDA to be an important measure of comparative operating performance, it should be considered in addition to, but not as a substitute for, net income and other measures of financial performance reported in accordance with Generally Accepted Accounting Principles. Adjusted EBITDA does not reflect cash available to fund cash requirements. Not all companies calculate adjusted EBITDA in the same manner, and the measure as presented may not be comparable to similarly-titled measures presented by other companies.

The Press Release also contained the following other non-GAAP financial measures: the translation loss resulting from the depreciation of the U.S. Dollar against the New Israeli Shekel and the increase of the Israeli Consumer Price Index and the accounting loss from the Price Purchase Allocation and intangible asset amortizations. A reconciliation of these measures to the translation and interest expense and depreciation and amortization expense was provided in the Press Release.
