Gilat Chosen by Terabit Wave to Provide Satcom-On-The-Move Terminals in Myanmar

Petah Tikva, Israel, September 23, 2014 -- Gilat Satellite Networks Ltd. (NASDAQ: GILT), a worldwide leader in satellite networking technology, solutions and services, announced today that Terabit Wave Co. Ltd., a telecommunications systems integrator located in Myanmar (formerly Burma), ordered the Company's Satcom-On-The-Move terminals – including tactical satcom units, vehicle-mounted satellite antennas and related equipment – for a Myanmar governmental agency.

Terabit Wave placed an order for a SkyEdge II hub and terminals – including SatTrooper Manpacks, Raysat Satcom-On-The-Move antennas, WaveStream BUCs and associated modems – with rollout expected during the third and fourth quarters of 2014. Terabit Wave won the deal through a competitive bidding process involving leading global and local solution providers.

“The name of the game in today's communications is Mobility. Gilat's Satcom-On-The-Move solutions are especially suited for the kind of emergency operations that our client was concerned about,” explained U Tay Za Tun, CEO at Terabit Wave. “We chose Gilat for its unique technology and because it is a one-stop-shop with a fully integrated solution.”

“Terabit Wave needed to provide a Ku-band Satcom-On-The-Move integrated solution,” added Erez Antebi, Gilat's CEO. “Our terminals answered their specifications not only for their compact, lightweight design but also because they can be set up and dismantled quickly and are easy to operate.”

About Terabit Wave

Terabit Wave Co. Ltd. is a Myanmar-based systems integrator with extensive experience in the telecommunications and IT industries. Its dedicated team of professionals provides a range of high-quality products and services - including implementation of telecom and IT networks and infrastructure, operations and maintenance – to the complete satisfaction of its customers.

About Gilat

Gilat Satellite Networks Ltd (NASDAQ, TASE: GILT) is a leading provider of products and services for satellite-based broadband communications. Gilat develops and markets a wide range of high-performance satellite ground segment equipment and VSATs, with an increasing focus on the consumer and Ka-band market. In addition, Gilat enables mobile SOTM (Satellite-on-the-Move) solutions providing low-profile antennas, next generation solid-state power amplifiers and modems. Gilat also provides managed network and satellite-based services for rural telephony and Internet access via its subsidiaries in Peru and Colombia.

With over 25 years of experience, and over a million products shipped to more than 85 countries, Gilat has provided enterprises, service providers and operators with efficient and reliable satellite-based connectivity solutions, including cellular backhaul, banking, retail, e-government and rural communication networks. Gilat also enables leading defense, public security and news organizations to implement advanced, on-the-move tactical communications on board their land, air and sea fleets using Gilat's high-performance SOTM solutions.
