To the Stockholders of India Globalization Capital, Inc.:

You are cordially invited to attend a special meeting of the stockholders of India Globalization Capital, Inc. (“IGC”), with respect to the proposed transactions by IGC acting directly or indirectly through one or more newly formed affiliates (with IGC, the “IGC Group”). The special meeting will be held at 10.00 a.m. Eastern Time, on _____, 2008, at the offices of Seyfarth Shaw LLP, 815 Connecticut Ave, N.W., Suite 500, Washington, D.C. 20006.

At this important meeting, you will be asked to consider and vote upon the following proposals:

- to approve the “Acquisition Proposal” of IGC acting directly or indirectly through one or more newly formed affiliates, consisting of the following proposed acquisitions: a) acquisition of a 63% equity interest in Sricon Infrastructures, Limited (“Sricon”), b) the acquisition of convertible preference shares, and a direct equity interest in Techni Bharathi (“TBL”) and c) the acquisition from Odeon Limited of convertible preference shares of TBL, which when converted along with the convertible preference shares purchased directly from TBL would result in IGC owning a 77% equity interest in TBL,
- to elect Sudhakar Shenoy and Suhail Nathani to IGC’s board of directors to hold office as Class A directors for a period to expire at the fourth annual meeting of stockholders;
 - to adopt the IGC 2008 Omnibus Incentive Plan (“Stock Plan”); and
- to approve any adjournments or postponements of the special meeting to a later date or dates, if necessary, for the purpose of soliciting additional proxies.

The approval of the Acquisition Proposal, the approval of the proposal to elect the director-nominees and the approval of any adjournments or postponements of this meeting are not conditioned on the approval of the other proposals listed above. However, the approval of the proposal to adopt the Stock Plan is conditioned upon the approval of the Acquisition Proposal.

The affirmative vote of a majority of the shares of common stock, issued in our initial public offering, that are present in person, or by proxy, and entitled to vote at the meeting is required to approve the Acquisition Proposal. The affirmative vote of a majority of the outstanding shares of our common stock that are present in person or by proxy and entitled to vote at the meeting is required to approve adoption of the Stock Plan and the adjournment proposal. To be elected as a director a nominee must receive the affirmative vote of a plurality of the shares of our common stock present in person or represented by proxy and entitled to vote at the special meeting.

Each stockholder that holds shares of the common stock issued in our initial public offering or purchased following that offering in the open market has the right to vote against the acquisition proposal and, at the same time, demand that we convert that stockholder’s shares into cash equal to a pro rata portion, or approximately \$5.82 per share as of September 30, 2007 of the trust account in which a substantial portion of the net proceeds of our initial public offering is deposited. If the acquisition is not completed, then your shares will not be converted to cash at this time, even if you so elected. However, if holders of 2,260,900 or more shares of common stock issued in our initial public offering, an amount equal to 20% of the total number of shares of common stock issued in the initial public offering, vote

against the acquisition and demand conversion of their shares into a pro rata portion of the trust account, then we will not be able to consummate the acquisition. Our units, shares of common stock and warrants are listed on the American Stock Exchange under the symbols IGC.U, IGC, and IGC.WT, respectively. The securities of Sricon and TBL are not listed or quoted on any Indian or US securities exchange.

PROXY STATEMENT FOR SPECIAL MEETING OF
STOCKHOLDERS OF
India Globalization Capital, Inc.

The board of directors of India Globalization Capital, Inc., which we call IGC, acting directly or indirectly through one or more newly formed affiliates (“IGC Group”), has unanimously approved the following proposed acquisitions: a) acquisition of a 63% equity interest in Sricon Infrastructures, Limited (“Sricon”), b) the acquisition of convertible preference shares, and a direct equity interest in Techni Bharathi (“TBL”), and c) the acquisition from Odeon Limited of convertible preference shares of TBL, which when converted along with the convertible preference shares purchased directly from TBL would result in IGC owning a 77% equity interest in TBL.

If approved by our stockholders, we will make the Sricon and TBL related purchases pursuant to the laws of India through a wholly owned subsidiary in Mauritius. We refer to the proposed acquisitions collectively as the Acquisition Proposal.

Furthermore, our board of directors has unanimously approved the adoption of the IGC 2008 Omnibus Incentive Plan, which we refer to as the Stock Plan, the nomination of two individuals to serve on our board of directors, and a proposal to authorize the adjournment or postponement of the special meeting to a later date, if necessary to permit further solicitation of proxies.

If the Acquisition Proposal is approved, you will continue to hold the IGC securities that you currently own, unless you vote against the Acquisition Proposal and elect a cash conversion of your common stock, as described below.

IGC was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition or other similar business combination with an unidentified operating business with operations in India. Sricon and TBL are infrastructure companies that specialize in road maintenance and road building, in India. Sricon also has a contract to Build Operate and Transfer (BOT) one of the highways in India. In addition, IGC, if the Acquisition Proposal is approved, will purchase a 24-megawatt wind energy farm to be built by CWEL. It is expected that CWEL will take between 9 and 12 months to build out the wind energy farm. The wind energy farm will serve as a platform for future growth and acquisitions in the alternative energy sector in India.

We believe that these acquisitions will provide you with an opportunity to participate in a company with significant growth potential in the infrastructure and alternative energy sectors in India.

IGC’s units, shares of common stock and warrants are listed under the symbols IGC.U, IGC, and IGC.WT on the American Stock Exchange, respectively. The securities of Sricon and TBL are not listed or quoted on any securities exchange.

As the stockholders of IGC are not receiving any consideration or exchanging any of their outstanding securities in connection with the Acquisition Proposal, and are simply being asked to vote on the matter, it is not expected that the IGC stockholders will have any tax-related issues as a result of voting on these matters. However, if you vote against the Acquisition Proposal and elect a cash conversion of your common stock into your pro-rata portion of the trust account and as a result receive cash in exchange for your common stock, there may be certain adverse tax consequences, such as realizing a gain or loss on your investment in IGC shares. **WE URGE YOU TO CONSULT YOUR OWN TAX ADVISORS REGARDING YOUR PARTICULAR TAX CONSEQUENCES.**

SUMMARY TERM SHEET

While this summary term sheet describes the material terms that you should consider when evaluating the Acquisition Proposal, the proxy statement contains a more detailed description of these terms. We encourage you to read the proxy statement and the documents to which we refer in this entire proxy statement before voting your shares of IGC common stock.

India Globalization Capital, Inc. (IGC)

India Globalization, Inc., or IGC, organized under the laws of the State of Maryland on April 29, 2005, was formed to be a publicly traded “blank check” vehicle for the acquisition of one or more operating businesses with operations primarily in India through a merger, capital stock exchange, asset acquisition or other similar business combination.

IGC has identified two sectors that it believes are fundamental to the development of India’s infrastructure:

- 1) the building of high quality road, airport, seaport, railroad and other basic infrastructure, and
- 2) the production of adequate sustainable energy, and in particular renewable clean energy, to power the anticipated growth in the Indian economy.

IGC’s management believes that in order for India to become one of the leading global economies of the world, as predicted, India will have to vastly improve its basic infrastructure. For example, according to the World Bank (WB) 40% of India’s villages has no access to all weather roads and are often cut off during the monsoon season. In addition, according to a report by Ernst and Young (E&Y), 60% of India’s population has no electricity and even major cities face power cuts. IGC has identified companies in both road building and renewable energy that provide investors with:

- 1) high projected growth rates,
- 2) valuations that management believes provide an arbitrage comparable to similar public companies in the Indian markets, and
- 3) a potential “early well-funded mover” advantage for these companies to become sector leaders, with U.S. level of corporate governance and reporting.

Pursuant to our amended and restated certificate of incorporation, if we do not effect a business combination by March 8, 2008, then, pursuant to our certificate of incorporation, our officers and directors must take all actions necessary to promptly dissolve and liquidate IGC.

The mailing address of our principal executive office is 4336 Montgomery Avenue, Bethesda, MD 20814 and our telephone number is 301-983-0998. See, “Information about IGC.”

IGC-M

India Globalization Capital, Mauritius, Limited (IGC-M) is a wholly-owned subsidiary of IGC. It was formed on February 19, 2007 under the laws of Mauritius as a company that will hold assets in India. The governments of India and Mauritius have a tax treaty that treats investments routed through Mauritius favorably, including favorable treatment of corporate, dividend and capital gain taxes. India also has a Bilateral Investment Protection Agreement with Mauritius (June 2000). It is expected that IGC-M will hold the shares of the companies incorporated in India. The

financial statements of IGC-M will be reflected in the financial statements of the holding company IGC.

Industry of the Companies in the Proposals, Road Building

India's road network:

According to the World Bank, India's roads face major challenges:

- Lane capacity is insufficient and most highways are still two lanes or less.
- The national highway system in India currently carries 40% of the total traffic, but constitutes only two percent of the total road network.
- Seventy percent of India's population lives in rural areas and forty percent of villages do not have access to all weather roads and remain cut off during the monsoon season.
- Currently, only one third of routine road maintenance needs are being met.
- By the year 2011, the state and national highways will need to be widened and maintained at a cost of around \$39 billion.

The road building industry is broadly divided into three areas: maintenance, road building and Build Operate and Transfer, an approach taken by the government using a mechanism that can attract private investment as well as rapidly build out world-class roads.

The total funding gap in creating and maintaining an adequate highway system is estimated at around \$24 billion over a decade (WB). To fill the funding gap, the government has begun to encourage private investments in the form of Build Operate and Transfer of highways. BOT may also include design services to the extent that the proposed roadway requires more elaborate structures such as tunnels or bypasses. The government of India has already created a list of roads requiring an aggregate investment of between \$23 and \$24 billion that it expects to put out for bids as BOTs through the National Highway Authority India (NHAI), an organization charged with building out the national network of roads.

Sricon is accredited with ISO 9001:2000 certification and its present and past clients include various Indian government organizations that are responsible for the construction and maintenance of the network of Indian roads. For more on Sricon please see "Information about Sricon."

TBL: IGC proposes to acquire an approximately 77% equity interest in TBL for a total price of around \$12 million (the “TBL Acquisition”). IGC proposes to purchase an approximately 38.7% equity interest directly from TBL for around \$6.9 million, purchase directly from TBL a new convertible debenture that may be converted to approximately 11.3% equity interest in TBL for about \$3.13 million, and purchase a convertible preferred debenture from Odeon Limited that may be converted to an approximately 27% equity interest in TBL for \$2 million. The preceding percentages are calculated on a fully-diluted basis after giving effect to the TBL Acquisition.

Satisfaction of 80% Test

Our initial target business or businesses must have an aggregate fair market value equal to at least 80% of our net assets at the time of the business combination. As the fair market value of the equity shares of Sricon acquired in the Sricon Acquisition and the fair market value of the equity shares of Sricon acquired in the Sricon Acquisition will individually constitute less than 80% of the net assets of IGC at the time of the Sricon Acquisition and the TBL Acquisition, IGC will be required to simultaneously close on both the Sricon Acquisition and the TBL Acquisition because the fair market value of what is acquired in the Sricon Acquisition and the TBL Acquisition, is, in the aggregate at least 80% of the net assets of IGC at the time of the acquisitions.

Conversion Rights

Pursuant to our certificate of incorporation, a holder of shares of IGC's common stock issued in our initial public offering may, if the stockholder votes against the Acquisition Proposal, demand that we convert such shares into cash. This demand must be made in writing to IGC or its proxy solicitor and must be received by IGC or its proxy solicitor prior to or at the special meeting. If properly demanded, we will convert each share of common stock into a pro rata portion of the trust account in which a substantial portion of the net proceeds of our initial public offering are held (approximately \$5.82 per share), plus all interest earned thereon. If you exercise your conversion rights, then you will be exchanging your shares of IGC common stock for cash and will no longer own these shares. You will only be entitled to receive cash for these shares if you continue to hold these shares through the effective time of the Acquisition and then tender your stock certificate to IGC. If the transactions contemplated by the Acquisition Proposal are not completed, then these shares will not be converted into cash at this time. Shares that are not voted or are broker non-voted or where the stockholder abstains from voting shall not in any event be eligible to be converted into cash upon completion of the transactions contemplated by the Acquisition Proposal. The transactions contemplated by the Acquisition Proposal will not be consummated if the holders of 20% or more of the shares of common stock issued in IGC's initial public offering exercise their conversion rights.

Appraisal or Dissenters Rights

No appraisal rights are available under the Maryland General Corporation Law for our stockholders in connection with the Acquisition Proposal.

Proxies

Proxies may be solicited by mail, telephone or in person. We do not plan to pay any one to solicit proxies on our behalf.

Beneficial Ownership of Securities.

The following table sets forth information regarding the beneficial ownership of our common stock as of November 19, 2007 by:

- each person known by us to be the beneficial owner of more than 5% of our outstanding shares of common stock;
 - each of our executive officers, directors and our special advisors; and
 - all of our officers and directors as a group.

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and does not necessarily indicate beneficial ownership for any other purpose. Under these rules, beneficial ownership includes those shares of common stock over which the stockholder has sole or shared voting or investment power. It also includes shares of common stock that the stockholder has a right to acquire within 60 days through the exercise of any option, warrant or other right. The percentage ownership of the outstanding common stock, which is based upon 13,974,500 shares of common stock outstanding as of October 15, 2007, is based on the assumption, expressly required by the rules of the Securities and Exchange Commission, that only the person or entity whose ownership is being reported has converted options or warrants into shares of our common stock.

Our Board of Directors’ Recommendation

After careful consideration, our board of directors has determined unanimously that the Acquisition Proposal is fair to, and in the best interests of, our stockholders and us. Our board of directors did not obtain a fairness opinion in making this determination. The board determined that, in light of the likely cost, IGC’s existing cash resources and the board’s belief that the extensive resources devoted to evaluating and conducting due diligence of all our acquisition candidates, including IGC’s directors, personnel at Ferris, Baker Watts, Incorporated and other professionals that IGC hired for due diligence, including investment banks and India-based legal and accounting professionals had the skill and experience to properly evaluate the fairness of the Acquisition Proposal and that IGC’s assets should not be used to pay for a formal fairness opinion.

Our board of directors has unanimously approved the Acquisition, the adoption of the Employee Stock Option Plan, the nominations of Mr. Sudhakar Shenoy and Mr. Suhail Nathani and the proposal to allow the adjournment of the special meeting, and unanimously recommends that you vote or instruct your vote to be cast “FOR” the approval of the Acquisition Proposal, “FOR” the approval of the Employee Stock Option Plan Proposal, and “FOR” the election of Mr. Shenoy and Mr. Nathani and “FOR” the approval of the Adjournment Proposal.

Interests of Our Directors and Officers in the Acquisition

When you consider the recommendation of our board of directors that you vote in favor of adoption of the Acquisition Proposal, you should keep in mind that certain of our directors and officers have interests in the Acquisition that are different from, or in addition to, your interest as a stockholder. These interests include, among other things, that if the

Acquisition is not approved, and we are required to liquidate, the stock held by our executives and directors will be worthless as will the nominal number of units they acquired prior to our initial public offering, because these shares will not participate in any distribution of the assets held in our trust fund. As of the record date, our executives and directors owned a total of 2,125,000 shares of our common stock and 170,000 of our Units. Ranga Krishna, our Chairman of the Board, is further entitled to receive 446,226.42 shares of our common stock if we consummate the Acquisition under the terms of a \$4,300,000 loan made by Dr. Krishna to us, which loan shall be due and payable 10 days after the completion of the Acquisition. In addition, we anticipate that following the completion of the Acquisition, Dr. Krishna will continue to serve as the chairman of our board of directors, Ram Mukunda will 446,226.42 serve as the executive chairman, president and chief executive officer, Richard Prins will remain on our board of directors and Sudhakar Shenoy and Suhail Nathani will serve as directors, if elected.

Regulatory Matters:

The Acquisition and related transactions are not subject to any federal or state regulatory requirements or approvals, including the Hart-Scott-Rodino Antitrust Improvements Act of 1976 (HSR Act).

Material United States Federal Income Tax Consequences of the Acquisition

It is expected that IGC and its stockholders will not recognize any gain or loss as a result of the approval of the Acquisition Proposal for U.S. federal income tax purposes.

Enforceability of Civil Liabilities Against Non-U.S. Persons

Odeon is incorporated in Mauritius. Sricon and TBL are incorporated under the laws of India and operate only in India. Substantially all of the assets of Sricon and TBL will be located in India and the majority of its officers and directors and the experts named in this proxy statement are outside the United States. Although India and the United States are signatories to the 1965 Hague Convention on the Service Abroad of Judicial and Extra Judicial Documents in Civil and Commercial Matters, service under this treaty is cumbersome and time consuming, and may result in inadequate notice, so that any judgment based on that service may be reopened, re-litigated and overturned. It is therefore unlikely that service of process upon Sricon and TBL, their officers and directors, assets and experts will be obtainable within the United States, and it may be difficult to enforce outside the United States a judgment obtained in the United States in an action against one or more of them. These difficulties stem from the lack of official judicial arrangements between the United States and India, which means that judgments of United States courts may not be enforced in India without review and re-litigation of the merits of their claims.

There is doubt as to the enforceability in India of actions to enforce judgments of United States courts arising out of or based on ownership of the securities of Sricon and TBL, including judgments arising out of or based on civil liability provisions of United States federal or state securities laws. There is also doubt whether the Indian courts would enforce, in original actions, judgments against Sricon, TBL or the persons mentioned above predicated solely based upon United States securities laws.

Original actions may be brought in India against these parties only if the actions are not required to be arbitrated by Indian law and only if the facts alleged in the complaint give rise to a cause of action under Indian law, in which event, an Indian court may award monetary damages.

QUESTIONS AND ANSWERS

The following briefly address some commonly asked questions about the Acquisition Proposal, the special meeting of the stockholders of IGC and the effect of the Acquisition Proposal on the holders of common stock of IGC. These questions and answers may not include all of the information that is important to you. We urge you to read carefully this entire document, including the annexes and the other documents to which we have referred you.

Q. What is being voted on?

There are four proposals being voted on:

1. To approve the “Acquisition Proposal” of IGC acting directly or indirectly through the IGC Group, consisting of the following proposed acquisitions: a) acquisition of a 63% equity interest in Sricon, b) the acquisition of convertible preference shares, and a direct equity interest in Techni Bharathi (“TBL”), and c) the acquisition from Odeon Limited of convertible preference shares of TBL, which when converted along with the convertible preference shares purchased directly from TBL would result in IGC owning a 77% equity interest in TBL.
2. To elect Sudhakar Shenoy and Suhail Nathani to IGC’s board of directors to hold office as Class A directors for a period to expire at the fourth annual meeting of stockholders.
3. To adopt the IGC 2008 Omnibus Incentive Plan.
4. To approve any adjournments or postponements of the special meeting to a later date or dates, if necessary, for the purpose of soliciting additional proxies.

Q. Why is IGC proposing the Acquisition Proposal?

IGC was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition or other similar business combination in an unspecified industry, with an unidentified business or businesses with operations primarily in India. We are making acquisitions in the infrastructure and clean technology sectors in India. Sricon and TBL are infrastructure companies with contracts for the building and maintenance of roads in India. Sricon also has a contract to Build Operate and Transfer (“BOT”) one of the highways in India. In addition, TBL has experience in the building of tunnels, bridges, airport runways and roads. We believe that these acquisitions will provide you with an opportunity to participate in a company with significant growth potential, in one of the fastest growing economies in the world.

Q. Why are we proposing to adopt the 2008 Omnibus Incentive Plan?

We are proposing the Stock Plan, which would be adopted only upon the consummation of the Acquisition, to:

1. Attract and retain qualified executives and other employees, and to provide such persons with an opportunity to acquire an equity interest in us.
2. Create incentives designed to motivate our employees and employees of our subsidiaries to significantly contribute to our growth and profitability.
3. Provide our executives, directors, advisors and other employees and persons who, by their position, ability and diligence, are able to make important contributions to our growth and profitability with an incentive to assist us in

achieving our long-term objectives.

19

Q. What vote is required in order to approve the Acquisition Proposal?

The approval of the Acquisition Proposal will require the affirmative vote of a majority of the shares of our common stock issued in our initial public offering that are present in person or by proxy and entitled to vote at the meeting. In addition, each stockholder who holds shares of our common stock issued in our initial public offering or purchased our shares following such offering in the open market has the right to vote against the Acquisition Proposal and, at the same time, demand that we convert that stockholder's shares into cash equal to a pro rata portion of the trust account in which a substantial portion of the net proceeds of our initial public offering is deposited. However, if holders of 2,260,900 or more shares of common stock issued in our initial public offering, an amount equal to 20% of the total number of shares of common stock issued in the initial public offering, vote against the acquisition and demand conversion of their shares into a pro rata portion of the trust account, then we will not be able to consummate the acquisition. These shares will be converted into cash only if the Acquisition is completed. Based on the amount of cash held in the trust account as of September 30, 2007, including interest accrued as of that date, you will be entitled to convert each share of common stock that you hold into approximately \$5.82.

Q. What vote is required in order to approve the Stock Plan Proposal?

The approval of the Stock Plan Proposal will require the affirmative vote of a majority of the outstanding shares of our common stock that are present in person or by proxy and entitled to vote at the meeting.

Q. What vote is required in order to approve the Adjournment Proposal?

The approval of the Adjournment Proposal will require the affirmative vote of a majority of the outstanding shares of our common stock that are present in person or by proxy and entitled to vote at the meeting.

Q. What vote is required in order to elect the board members?

The election of a nominee to the board requires the affirmative vote of a plurality of the outstanding shares of our common stock that are present in person or by proxy and entitled to vote at the meeting. Plurality means that the individuals who receive the largest number of votes cast are elected as directors. Consequently, votes that are withheld and broker shares that are not voted in the election of directors will not be included in determining the number of votes cast.

Q. What will I receive in the Acquisition?

Holders of our securities will continue to hold the securities of IGC that they currently own, and will not receive any of the cash paid in connection with the Acquisition Proposal, unless a holder elects to demand conversion of his shares after voting against the Acquisition Proposal.

Q. How are we paying for the Acquisition?

We will use the proceeds from the initial public offering that we completed last year to pay the cash portion of the purchase price for the Acquisition of stock and convertible preference shares. We do not anticipate that we will require additional financing to consummate the Acquisition. However, we are in the process of obtaining additional financing to provide bridge financing to the two target companies prior to consummation of the Acquisition. If we enter into a definitive agreement to obtain financing after the date of this proxy statement but prior to the special meeting, we will file a current report on Form 8-K with the Securities and Exchange Commission, describing the material terms of the financing.

Q. Do I have conversion rights in connection with the Acquisition?

If you hold shares of common stock issued in our initial public offering, whether you purchased them in the offering or in secondary trading following the offering, then you have the right to vote against the Acquisition Proposal and demand that we convert your shares of common stock into a pro rata portion of the trust account in which a substantial portion of the net proceeds of our initial public offering are held. These rights to vote against the Acquisition and demand conversion of the shares into a pro rata portion of the trust account are sometimes referred to in this proxy statement as conversion rights.

20

Q. If I have conversion rights, how do I exercise them?

If you wish to exercise your conversion rights, you must vote against the Acquisition Proposal and, at the same time, demand that we convert your shares into cash. If, notwithstanding your vote, the Acquisition is completed, then you will be entitled to receive a pro rata share of the trust account in which a substantial portion of the net proceeds of our initial public offering are held, including any interest earned thereon through the date of the special meeting. Based on the amount of cash held in the trust account as of September 30, 2007, including interest accrued as of that date, you will be entitled to convert each share of common stock that you hold into approximately \$5.82. If you exercise your conversion rights, then you will be exchanging your shares of our common stock for cash and will no longer own these shares of common stock. You will only be entitled to receive cash for these shares of common stock if you continue to hold these shares through the closing date of the Acquisition and then tender your stock certificate to us. If you convert your shares of common stock, you will still have the right to exercise any warrants you may hold. If, however the Acquisition is not completed, then your shares will not be converted to cash at this time, even if you so elected.

Q. Do I have dissenter or appraisal rights in connection with the proposals?

No dissenter or appraisal rights are available under the Maryland General Corporation Law for our stockholders in connection with the Acquisition Proposal.

Q. What happens to the funds deposited in the trust account after completion of the Acquisition?

Upon the consummation of the Acquisition, any funds remaining in the trust account after payment of amounts, if any, to stockholders exercising their conversion rights will no longer be subject to the trust account and will be used to fund the Acquisition Proposal, provide working capital and fund future acquisitions and expansions.

Q. Who will manage the company upon completion of the Acquisition?

Upon the completion of the Acquisition, we anticipate that Ranga Krishna will continue to serve as the chairman of our board of directors; Ram Mukunda will continue to serve as our executive chairman, chief executive officer and president. Richard Prins, will continue to serve on our board of directors and, if elected, Suhail Nathani and Sudhakar Shenoy will continue to serve on our board of directors. Ravindra Lal Srivastava will continue to serve as the chairman and managing director of Sricon, and Jortin Antony will continue to serve as managing director of TBL. All of our Advisors will continue to serve, and we expect some of them to serve as board directors and advisors for our Indian and Mauritius subsidiaries.

Q. What happens if the Acquisition is not consummated?

We will dissolve and promptly distribute only to our public stockholders the amount in our trust account inclusive of the \$1,769,400 attributable to the underwriters' non-accountable expense allowance, plus any remaining net assets, if we do not effect a business combination by March 8, 2008. If we are unable to consummate the Acquisition, we do not believe that we will be able to effect another business combination by March 8, 2008.

Q. When do you expect the Acquisition to be completed?

It is currently anticipated that the Acquisition will be completed promptly following our special meeting of stockholders on _____, 2008.

Q. If I am not going to attend the special meeting of stockholders in person, should I return my proxy card instead?

Yes. After carefully reading and considering the information contained in this proxy statement, please complete and sign your proxy card. Then return the enclosed proxy card in the return envelope provided herewith as soon as possible, so that your shares may be represented at our special meeting.

21

Q. What will happen if I abstain from voting or fail to vote?

An abstention will have the same effect as a vote AGAINST the Acquisition Proposal, and a failure to vote will have no effect on the outcome of the Acquisition Proposal. Only stockholders who vote against the Acquisition Proposal may elect to convert their shares into a pro rata portion of the trust account in which a substantial portion of the net proceeds of our initial public offering are held. An abstention will have the same effect as a vote AGAINST the Stock Plan Proposal and the Adjournment Proposal, and a failure to vote will have no effect on the outcome of those proposals.

Q. What do I do if I want to change my vote?

If you wish to change your vote, please send a later-dated, signed proxy card prior to the date of the special meeting or attend the special meeting and vote in person. You may revoke your proxy by sending a notice of revocation to our CEO, Ram Mukunda, at the address of our corporate headquarters prior to the special meeting.

Q. If my shares are held in “street name” by my broker, will my broker vote my shares for me?

No. Your broker cannot vote your shares unless you provide instructions on how to vote in accordance with the information and procedures provided to you by your broker. Broker non-votes, while considered present for the purposes of establishing a quorum, will have no effect on the proposals.

Q. Do I need to turn in my certificates?

No. You do not need to turn in your certificates. However, if you elect to exercise your conversion rights, you will need to deliver your certificates to us at the address below.

Q. Will IGC’s securities still be traded on the American Stock Exchange (AMEX) after the Acquisition is completed?

Yes, they will continue to trade on AMEX.

Q. Who can help answer my questions?

If you have questions about the Acquisition, you may write, fax, email or call Ram Mukunda, India Globalization Capital, 4336 Montgomery Avenue, Bethesda, MD 20817. Telephone: (301) 983-0998. Fax (240) 465-0273. Email. Ram@indiaglobalcap.com.

RISK FACTORS

You should carefully consider the following risk factors, together with all of the other information included in this proxy statement, before you decide whether to vote or instruct your vote to be cast on the proposals described in this proxy statement. We make various statements in this section, which constitute “forward-looking statements.” See “Forward-Looking Statements. We refer to Sricon Infrastructure Private Limited as Sricon and Techni Bharathi Limited as TBL.

Risks associated with our industry and doing business in India

Any downgrading of India’s debt rating by an international rating agency, or an increase in interest rates in India, could have a negative impact on our ability to borrow in India.

Both our road building and power business are leveraged businesses. Any adverse revisions to India’s credit ratings for domestic and international debt by international rating agencies as well as an increase in Indian interest rates may adversely impact our ability to finance growth through debt and could lead to a tightening of our margins, adversely affecting our business.

A change in government policy, a down turn in the Indian economy or a natural disaster could adversely affect our business, financial condition, results of operations and future prospects.

Our business is road building and alternative energy in India. Sricon and TBL, our road builders, and CWEL, our energy sector, presently conduct all their operations in India. Sricon and TBL are dependent on the government of India as well as the state governments for contracts to maintain and build roads. Their operations and financial results may be affected by changes in the government’s policy towards road maintenance and road building. In addition, a slow down in the Indian economy or its growth rate, social unrest, natural disasters, or a change in government could cause the government to slow down the pace of road building which could adversely affect our future performance.

Political, economic, social and other factors in India may adversely affect business.

Our ability to grow our business may be adversely affected by political, economic, social and religious factors, changes in Indian law or regulations and the status of India’s relations with other countries. In addition, the economy of India may differ favorably or unfavorably from the U.S. economy in such respects as the rate of growth of gross domestic product, the rate of inflation, capital reinvestment, resource self-sufficiency and balance of payments position. According to the World Factbook published by the United States Central Intelligence Agency, the Indian government has exercised and continues to exercise significant influence over many aspects of the economy, and privatization of government-owned industries proceeds at a slow pace. Accordingly, Indian government actions in the future could have a significant effect on the Indian economy, which could have a material adverse affect on our ability to achieve our business objective.

Since mid-1991, the Indian government has committed itself to implementing an economic structural reform program with the objective of liberalizing India’s exchange and trade policies, reducing the fiscal deficit, controlling inflation, promoting a sound monetary policy, reforming the financial sector, and placing greater reliance on market mechanisms to direct economic activity. A significant component of the program is the promotion of foreign investment in key areas of the economy and the further development of, and the relaxation of restrictions in, the private sector. These policies have been coupled with the express intention to redirect the government’s central planning function away from the allocation of resources and toward the issuance of indicative guidelines. While the government’s policies have resulted in improved economic performance, there can be no assurance that the economic improvement will be sustained. Moreover, there can be no assurance that these economic reforms will persist, and that any newly elected government will continue the program of economic liberalization of previous governments. Any change may adversely affect Indian laws and policies with respect to foreign investment and currency exchange. Such

changes in economic policies could negatively affect the general business and economic conditions in India, which could in turn adversely affect our business.

Table of Contents

Terrorist attacks and other acts of violence or war involving India and other countries could adversely affect the financial markets and our business.

Terrorist attacks and other acts of violence could have the direct effect of destroying our plant and property causing a loss and interruption of business. According to the World Factbook, religious and border disputes persist in India and remain pressing problems. For example, India has from time to time experienced civil unrest and hostilities with neighboring countries such as Pakistan. The longstanding dispute with Pakistan over the border Indian state of Jammu and Kashmir, a majority of whose population is Muslim, remains unresolved. If the Indian government is unable to control the violence and disruption associated with these tensions, the results could destabilize the economy and, consequently, adversely affect our business.

Since early 2003, there have also been military hostilities and civil unrest in Afghanistan, Iraq and other Asian countries. These events could adversely influence the Indian economy and, as a result, negatively affect our business.

While we will have insurance to cover these risks there can be no guarantee that we will be able to collect in a timely manner. Terrorist attacks, or the threat of violence could slow down road building activity adversely affecting our road building business.

Exchange controls that exist in India may limit our ability to utilize our cash flow effectively following a business combination.

Following the consummation of the Acquisition Proposal, we will be subject to India's rules and regulations on currency conversion. In India, the Foreign Exchange Regulation Act or FERA, regulates the conversion of the Indian rupee into foreign currencies. FERA provisions previously imposed restrictions on locally incorporated companies with foreign equity holdings in excess of 40%, known as FERA companies. However, comprehensive amendments have been made to FERA to support the economic liberalization. Such companies are now permitted to operate in India without any special restrictions, effectively placing them on par with wholly Indian owned companies. In addition, foreign exchange controls have been substantially relaxed. Notwithstanding these changes, the Indian foreign exchange market is not yet fully developed and we cannot assure you that the Indian authorities will not revert back to regulating FERA companies and impose new restrictions on the convertibility of the Indian rupee. Any future restrictions on currency exchanges may limit our ability to use our cash flow for the distribution of dividends to our stockholders or to fund operations we may have outside of India.

Returns on investment in Indian companies may be decreased by withholding and other taxes.

Our investments in India will incur tax risk unique to investment in India and in developing economies in general. Income that might otherwise not be subject to withholding of local income tax under normal international conventions may be subject to withholding of Indian income tax. Under treaties with India and under local Indian income tax law, income is generally sourced in India and subject to Indian tax if paid from India. This is true whether or not the services or the earning of the income would normally be considered as from sources outside India in other contexts. Additionally, proof of payment of withholding taxes may be required as part of the remittance procedure. Any withholding taxes paid by us on income from our investments in India may or may not be creditable on our income tax returns.

We intend to avail ourselves of income tax treaties with India and minimize any Indian withholding tax or local taxes. However, there is no assurance that the Indian tax authorities will always recognize such treaties and its applications. We have also created a foreign subsidiary in Mauritius, in order to limit the potential tax exposure.

Our industry depends on the stability of policies and the political situation in India and a change in policy could adversely affect our business.

The role of the Indian central and state governments in the Indian economy on producers, consumers and regulators has remained significant over the years. Since 1991, the Government of India has pursued policies of economic liberalization, including significantly relaxing restrictions on the private sector. We cannot assure you that these liberalization policies will continue under the present or under newly elected governments. Protests against privatization could slowdown the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting companies in the infrastructure sector in India, foreign investment, currency exchange rates and other matters affecting our business could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our business.

Table of Contents

Because the Indian judiciary will determine the scope and enforcement under Indian law of almost all of Sricon and TBL's material agreements, we may be unable to enforce our rights inside and outside of India.

Sricon and TBL will operate under the laws of India. Substantially all of the assets of Sricon and TBL are located in India and the majority of its officers and directors and the experts named in this proxy statement/prospectus are outside the United States. Although India and the United States are signatories to the 1965 Hague Convention on the Service Abroad of Judicial and Extra Judicial Documents in Civil and Commercial Matters, service under this treaty is cumbersome and time consuming, and may result in inadequate notice so that any judgment based on that service may be reopened, re-litigated and overturned. It is therefore unlikely that service of process on Sricon and TBL or their officers and directors can be obtained within the United States. Further, it may be difficult to enforce in India a judgment obtained in the United States. These difficulties stem from the lack of official judicial arrangements between the United States and India, which means that judgments of United States courts will not be enforced in India without review and re-litigation of the merits of their claims.

There is doubt as to the enforceability in India of actions to enforce judgments of United States courts arising out of or based on ownership of the securities of Sricon and TBL, including judgments arising out of or based on civil liability provisions of United States federal or state securities laws. There is also doubt whether the Indian courts would enforce, in original actions, judgments against Sricon, TBL or the persons mentioned above predicated solely based upon United States securities laws.

Original actions may be brought in India against these parties only if the actions are not required to be arbitrated by Indian law and only if the facts alleged in the complaint give rise to a cause of action under Indian law, in which event, an Indian court may award monetary damages.

Risks associated with the acquisitions and our business

The cost of obtaining bank financing may reduce TBL's income.

TBL has restructured some of its bank debt and may, in the future, face higher interest rates or will require higher collateral with the banks. This increases the cost of money for TBL and could decrease its margins. While IGC expects to provide collateral support for two to three years, by which time we expect the credit worthiness of TBL to increase to adequate levels, there can be no assurance that TBL will not have to pay higher interest rates in the future, which could reduce its income.

We may not be able to obtain necessary raw materials at competitive prices.

Construction contracts are primarily dependent on adequate and timely supply of raw materials, such as cement, steel and aggregates, at competitive prices. As competition from larger and well-established players increases for procuring raw materials, we could face an increase in the price of raw materials that negatively impacts our profitability.

Our business is dependent on contracts awarded by the Government and its agencies.

The businesses of Sricon and TBL are dependent on the implementation of the central and state budget allocations to the infrastructure sector. Sricon and TBL derive the bulk of their revenue from contracts awarded by the central and state governments of India and their agencies. If there are delays in the payment of invoices by the government, our working capital requirements could increase. The BOT industry is a competitive one, and Sricon and TBL may be outbid for government contracts. In addition, to the extent that Sricon and TBL fail to perform in accordance with the criteria of existing contracts, the governments may be more inclined to seek alternative sources of BOT services.

We may face penalties for time overruns.

Sricon and TBL execute construction contracts primarily in the roads and infrastructure development sectors. Sricon and TBL typically enter into high value contracts for these activities, which provide for penalties if contracts are not executed in a timely manner. If Sricon and TBL are unable to meet the performance criteria as prescribed by the respective contracts and if penalties are levied, the financial performance of these companies could be adversely affected.

Table of Contents

Our business is dependent on continuing relationships with clients and strategic partners.

Our business is dependent on developing and maintaining strategic alliances with contractors that undertake turnkey contracts for infrastructure development projects as well as government organizations.

The business and our results could be adversely affected if we are unable to maintain a continuing relationship and pre-qualified status with key clients and strategic partners.

Our business relies heavily on our management team and any unexpected loss of key officers may adversely affect our operations.

The continued success of our business is largely dependent on the continued services of key employees in IGC, Sricon, and TBL as well as all our subsidiaries. The loss of the services of certain key personnel, without adequate replacement, could have an adverse effect on our performance. Our senior management as well as the senior management of our subsidiaries have played a significant role in developing and executing the overall business plan, maintaining client relationships, proprietary processes and technology. While none is irreplaceable, the loss of the services of any would be disruptive to our business.

Our quarterly revenue, operating results and profitability will vary.

Factors that may contribute to the variability of quarterly revenue, operating results or profitability include:

- Fluctuations in revenue due to seasonality: For example, during the monsoon season, the heavy rains slow down road building and during the summer months the winds are not strong enough to power the wind turbines. This results in uneven revenue and operating results over the year.
 - Commencement, completion and termination of contracts during any particular quarter.
 - Additions and departures of key personnel.
- Claims filed against the contractee for delays and changes in scope, among others, can sometimes enter arbitration and take time to settle. This could result in a tightening of working capital.
- Strategic decisions made by us and our competitors, such as acquisitions, divestitures, spin-offs, joint ventures, strategic investments and changes in business strategy.

The revenue recognition policy records contract revenue for those stages of a project that we complete, after we receive certification from the client that such stage has been successfully completed. Since revenue is not recognized until we receive a certification from our clients, revenue recognition can be uneven.

Our subsidiaries may become involved in litigation in the future.

Our subsidiaries are fairly large companies and may have to initiate actions in the Indian Courts to enforce their rights and may also be drawn into legal litigation. The expenses of litigation and any judgments against us could have a material adverse effect on us.

We face intense competition in the Indian infrastructure industry.

The Indian real estate and infrastructure industries are increasingly attracting foreign capital. We currently have competition from international as well as domestic companies that operate at the national level. Smaller localized

contractors / companies are also competing in their respective regions. If we are unable to offer competitive prices and obtain contracts, there could be a significant reduction in our revenue.

Table of Contents

Our operations are sensitive to weather conditions.

Our business activities in India could be materially and adversely affected by severe weather conditions. Severe weather conditions may require Sricon and TBL to evacuate personnel or curtail services and may result in damage to a portion of Sricon and TBL's fleet of equipment or to our facilities, resulting in the suspension of operations, and may further prevent Sricon and TBL from delivering materials to project sites in accordance with contract schedules or generally reduce our productivity. Difficult working conditions and extremely high temperatures also adversely affect the operations of Sricon and TBL during summer months and during monsoon season, which restrict our ability to carry on construction activities and fully utilize our resources.

The revenue recorded in the first half of our fiscal year between April and September is traditionally lower than revenue recorded during the second half of our fiscal year due to the weather conditions. During periods of curtailed activity due to adverse weather conditions, Sricon and TBL may continue to incur operating expenses, reducing profitability.

If we are unable to provide interim financing to Sricon and TBL, they may have difficulty meeting their projected revenue targets.

We believe that Sricon and TBL will require financing prior to the consummation of the Acquisitions in order to maintain their operations at a level necessary to give them the opportunity to meet their financial projections for 2008 and 2009. We estimate that Sricon will require between \$ 3,250,000 to \$4,000,000 and TBL between \$ 2,500,000 to \$3,000,000. On December 19, 2007 we entered into an agreement with Sricon and subsequently funded Sricon with \$3,250,000. On December 21, 2007 we entered into an agreement with TBL under which we agreed to fund TBL up to \$2,670,000. While we intend to raise funds in a private placement to provide such interim financing, there is no guarantee that we will be able to do so or that Sricon and TBL could obtain alternative sources of such financing at reasonable rates. While we believe that the interim funding is sufficient for these companies to meet their projected FYE 2009 revenue targets, the timing of the interim funding may put pressure on their ability to meet the projections for FYE March 31, 2008.

Risks Related to the Acquisition Proposal

Changes in the conversion rate between the U.S. dollar and Indian rupee, may adversely affect our purchase price.

We plan to make all payments in respect to the Acquisition Proposal in Indian rupees and therefore exchange rate fluctuations may directly affect the purchase price.

The exchange rate between the Indian rupee and the U.S. dollar has changed substantially in the last two decades and may fluctuate substantially in the future. Between October 1, 2006 and December 28, 2007, the noon buying rate of the Federal Reserve Bank of New York has fluctuated from a high of 45.97 rupees per dollar on October 2, 2006 to a low of 38.48 rupees per dollar on October 9, 2007. As of December 27, 2007, the rate was 39.40 rupees per dollar. Any decline in value of the U.S. dollar against the Indian rupee will render the Acquisition more expensive. Furthermore, we may incur additional costs in connection with conversions between U.S. dollars and Indian rupees.

We may issue equity securities in a private placement which would dilute your equity interest in us.

Prior to the consummation of the Acquisitions we anticipate requiring additional funds to provide short-term capital infusions to Sricon and TBL. We are currently raising such financing in the form of debt coupled with a grant of common stock. Based on the anticipated levels of such financing, we may issue up to 754,953 shares of our common stock in connection with such financing. The issuance of such stock would dilute your equity position in us.

If the Acquisition's benefits do not meet the expectations of financial or industry analysts, the market price of our common stock may decline.

The market price of our common stock may decline as a result of the Acquisition if:

- we do not achieve the perceived benefits of the Acquisition as rapidly as, or to the extent anticipated by, financial or industry analysts; or
- the effect of the Acquisition on our financial statements is not consistent with the expectations of financial or industry analysts.

Accordingly, investors may experience a loss as a result of a decreasing stock price.

If we are unable to consummate the Acquisition Proposal by January 31, 2008, there is no guarantee that Odeon will extend the deadline.

We have a deadline of January 31, 2008 by which we must consummate the transaction and fund TBL in the Odeon SPA. While the promoters of TBL have agreed to assist us in attempting to persuade Odeon to extend the deadline to April 30, 2008, if we do not complete the Acquisition by that date there is no guarantee that Odeon, the holder of certain TBL securities, will agree to extend the deadline.

If we are unable to consummate the Acquisition Proposal by March 8, 2008 we will be forced to liquidate.

If we do not effect a business combination by March 8, 2008, we will dissolve and promptly distribute only to our public stockholders the amount in our trust account inclusive of the \$1,769,400 attributable to the underwriters' non-accountable expense allowance, plus any remaining net assets. If we are unable to consummate the Acquisition, we do not believe that we will be able to effect another business combination by March 8, 2008.

Our directors may have certain conflicts in determining to recommend the Acquisition Proposal, since certain of their interests, and certain interests of their affiliates and associates, are different from, or in addition to, your interests as a stockholder.

IGC's management and directors have interests in and arising from the Acquisition Proposal that are different from, or in addition to, your interests as a stockholder, which could result in a real or perceived conflict of interest. These interests include the fact that certain of the shares of common stock owned by our management and directors, or their affiliates and associates, would become worthless if the Acquisition Proposal is not approved and we otherwise fail to consummate a business combination prior to our liquidation date and that our chairman of the board is entitled to receive additional shares of common stock if we consummate a business combination prior to our liquidation date under the terms of a loan he made to us.

We have not had operations, and Sricon and TBL have not operated as a US public company. Fulfilling our obligations incident to being a US public company after completing the Acquisition Proposal will be expensive and time consuming.

Although, we have maintained disclosure controls and procedures and internal control over financial reporting as required under the Federal securities laws with respect to our very limited activities, we have not been required to maintain and establish such disclosure controls and procedures and internal control as will be required with respect to operating Sricon or TBL, each with potentially substantial operations. Under the Sarbanes-Oxley Act of 2002 and the related rules and regulations of the SEC, we will need to implement additional corporate governance practices and adhere to a variety of reporting requirements and complex accounting rules. Compliance with these obligations will require increased management and could result in delays if we cannot recruit individuals with the requisite experience

and technical accounting knowledge in India.

Compliance with Foreign Corrupt Practices Act could adversely impact our competitive position. Failure to comply could subject us to penalties and other adverse consequences.

We will be subject to the United States Foreign Corrupt Practices Act, which generally prohibits United States public companies from engaging in bribery or other prohibited payments to foreign officials to obtain or retain business. While we will take precautions to educate the employees of our subsidiaries of the Foreign Corrupt Practices Act, there can be no assurance that we or the employees or agents of our subsidiaries will not engage in such conduct, for which we might be held responsible. We could suffer penalties that may have a material adverse effect on our business, financial condition and results of operations.

There are three ways to vote your shares of our common stock at the special meeting:

- You can vote by signing and returning the enclosed proxy card. If you vote by proxy card, your “proxy,” whose name is listed on the proxy card, will vote your shares as you instruct on the proxy card. If you sign and return the proxy card, but do not give instructions on how to vote your shares, your shares will be voted, as recommended by our board, “FOR” the approval of the Acquisition Proposal, “FOR” the 2008 Stock Option Plan Proposal, “FOR” the election of the proposed nominees to the board of IGC and “FOR” the Adjournment Proposal.

That is the only way we can be sure that the broker, bank or nominee has not already voted your shares.

IF YOU DO NOT VOTE YOUR SHARES OF OUR COMMON STOCK IN ANY OF THE WAYS DESCRIBED ABOVE, IT WILL HAVE (1) NO EFFECT ON THE ACQUISITION PROPOSAL, BUT YOU WILL NOT BE ELIGIBLE TO DEMAND THE CONVERSION OF YOUR COMMON SHARES INTO A PRO RATA SHARE OF THE TRUST ACCOUNT IN WHICH A SUBSTANTIAL PORTION OF THE PROCEEDS OF OUR INITIAL PUBLIC OFFERING ARE HELD, AND (2) NO EFFECT ON THE STOCK PLAN PROPOSAL AND THE ADJOURNMENT PROPOSAL.

Revoking Your Proxy

If you give a proxy, you may revoke it at any time before it is exercised by doing any one of the following:

- You may send another proxy card with a later date,
- You may notify Ram Mukunda, our CEO, in writing before the special meeting that you have revoked your proxy, with such written notification addressed to us at India Globalization Capital, Inc. 4336 Montgomery Avenue, Bethesda, Maryland, 20814, or
- You may attend the special meeting, revoke your proxy and vote in person.

Vote Required

The approval of the Acquisition Proposal will require the affirmative vote of a majority of the shares of our common stock issued in our initial public offering that are present in person or by proxy and entitled to vote at the meeting.

The approval of our Stock Plan and of the Adjournment Proposal will require the affirmative vote of a majority of the outstanding shares of our common stock that are present in person or by proxy and entitled to vote at the meeting.

The election of the proposed nominees to our board, will require a plurality of the outstanding shares of our common stock that are present in person or by proxy and entitled to vote at the meeting.

Abstentions and Broker Non-Votes

If you abstain from voting, either in person or by proxy or by voting instruction, it will have the same effect as a vote “against” the Acquisition Proposal, the 2008 Stock Option Plan Proposal, the election of the proposed nominees and the Adjournment Proposal, but not as a demand of conversion of your shares into a pro rata portion of the trust account.

If your broker holds your shares in its name and you do not give the broker voting instructions, your broker may not vote your shares. If you do not give your broker voting instructions and the broker does not vote your shares, this is referred to as a “broker non-vote.” Broker non-voting shall be treated as shares not entitled to vote at the special meeting, and, therefore, shall have no impact on the Acquisition Proposal, the 2008 Stock Option Plan Proposal, the election of the proposed nominees or the Adjournment Proposal. A broker non-vote will not entitle you to demand conversion of your shares into a pro rata portion of the trust account if the Acquisition Proposal is approved.

To exercise your conversion rights as a stockholder, you must affirmatively elect to convert your shares by checking the appropriate box, or directing your broker to check the appropriate box, on the proxy card and ensure that the proxy card is delivered prior to the special meeting.

Conversion Rights

Any stockholder holding shares of common stock issued in our initial public offering who votes against the Acquisition Proposal may, at the same time or at any time before the special meeting, demand that we convert his shares into a pro rata portion of the trust account. If so demanded, we will convert these shares into a pro rata portion of funds held in a trust account, if the Acquisition is consummated. If the holders of 20% or more of the shares of common stock issued in our initial public offering, or at least 2,260,900 shares, vote against the Acquisition Proposal and demand conversion of their shares into a pro rata portion of the trust account, we will not be able to consummate the Acquisition.

Table of Contents

Based on the amount of cash held in the trust account as of September 30, 2007, including interest accrued as of that date, you will be entitled to convert each share of common stock that you hold into approximately \$5.82.

If you exercise your conversion rights, then you will be exchanging your shares of our common stock for cash and will no longer own these shares. You will only be entitled to receive cash for these shares of common stock if you continue to hold these shares through the closing date of the Acquisition and then tender your stock certificate to us. The closing price of our common stock on January 2, 2008, the most recent trading day practicable before the printing of this proxy statement, was \$5.90. Prior to exercising conversion rights, our stockholders should verify the market price of our common stock as they may receive higher proceeds from the sale of their common stock in the public market than from exercising their conversion rights.

Solicitation Costs

We are soliciting proxies on behalf of our board of directors. This solicitation is being made by mail but also may be made by telephone or in person. We and our directors and officers may also solicit proxies in person, by telephone or by other electronic means. These persons will not be paid for doing this, other than the salaries they might otherwise receive.

We have not hired a firm to assist in the proxy solicitation process but may do so if we deem this assistance necessary. We will pay all fees and expenses related to the retention of any proxy solicitation firm.

We will ask banks, brokers and other institutions, nominees and fiduciaries to forward our proxy statement materials to their principals and to obtain their authority to execute proxies and voting instructions. We will reimburse them for their reasonable expenses.

Stock Ownership

At the close of business on the record date, our founders, past and present executive officers, directors and advisors beneficially owned and were entitled to vote, in the aggregate, 2,670,000 shares of our common stock, representing around 20% of the then outstanding shares of common stock. As of January 2, 2008, these shares had a market value of approximately \$15,753,000 based on our common stock price of \$5.90 per share.

For information on beneficial ownership of our common stock by executive officers, directors and 5% stockholders, see "Beneficial Ownership of Securities."

THE ACQUISITION PROPOSAL

General Description of the Acquisition

IGC, through its wholly-owned subsidiary in Mauritius (IGC-M), will:

1. acquire a total of 63% of the issued and outstanding securities of Sricon Infrastructure for around \$29m in cash, this transaction will be in two parts:
 - we will purchase a 58% equity interest in Sricon, on a fully diluted basis, directly from Sricon for about \$26m and
 - we will purchase an additional 5% equity interest in Sricon, on a fully diluted basis, from the promoters of Sricon for about \$3m;
2. acquire a total of 77% of the issued and outstanding securities of Techni Bharathi (TBL) for around \$12m. This transaction will be in three parts:
 - for approximately \$6.9 m, we will purchase a 38.7% equity interest directly from TBL,
 - for \$2 m, we will purchase from Odeon Limited, a holder of TBL securities, a convertible preferred debenture, which may be converted to approximately a 26.9% equity interest in TBL (IGC intends to exercise the conversion of this instrument),
 - for approximately \$3.13 m, we will purchase directly from TBL a new convertible preferred stock, which may be converted to 11.3% equity interest of TBL.

Both acquisitions are collectively referred to as the “Acquisition Proposal.” It is anticipated that all three transactions will close simultaneously.

Background of the Acquisition

The terms of each of the Share Subscription and Purchase Agreement (SSPA) with Sricon and the Share Purchase Agreement (SPA) with TBL were the result of arm’s-length separate negotiations between representatives of the respective companies. The following is a brief discussion of the background of these negotiations.

India Globalization Capital, Inc. was incorporated in the State of Maryland on April 29, 2005. We were formed to serve as a vehicle for the acquisition of an operating business in an unspecified industry located in India through a merger, capital stock exchange, asset acquisition, or other similar business combination.

A registration statement for our initial public offering was declared effective on March 2, 2006. On March 8, 2006, we consummated an initial public offering of 11,304,500 units at a price of \$6 per unit. In addition, management of IGC bought 170,000 additional units in a private placement, just prior to the IPO, for the same price as that offered to the public. Each unit consists of one share of common stock and two warrants. Each warrant entitles the holder to purchase one share of our common stock at a price of \$5.00. Each warrant will be exercisable on the later of our completion of a business combination or March 3, 2007 and will expire on March 3, 2011, or earlier upon redemption. The units sold in the private placement are identical to the units sold in the IPO with the exception that the individuals who bought the units in the private placement will have no right to any liquidation distributions with

respect to the shares included in the private placement units, in the event we fail to consummate a business combination. Further, the private placement units may not be sold, assigned or transferred until we consummate a business combination. The purchasers in the private placement further agreed to waive their right to any liquidation distributions with respect to such shares in the event we fail to consummate a business combination.

Table of Contents

We received aggregate net proceeds from the private placement and the IPO of approximately \$62,815,000. This amount was deposited in trust and, in accordance with our amended and restated certificate of incorporation, will be released either upon the consummation of a business combination or upon our liquidation. An additional \$1,769,400, representing a deferred portion of the commissions payable to our underwriter Ferris, Baker Watts, Incorporated in connection with the IPO, was also deposited in the trust account. In the event that we consummate a business combination, those funds will be paid to Ferris, Baker Watts. Of the interest income earned on the monies in trust, \$2,150,000, net of taxes, was deposited into our working capital account and the rest has been retained in the trust account. In addition, unsecured notes were issued to two of our founding stockholders for an aggregate amount of \$870,000 in order to fund working capital, including business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses. These notes carried interest at 4% and were due at the earlier of March 3, 2007, or the consummation of a business combination. Of the amounts represented by these notes, the principal amount of \$600,000 has been repaid to date and a new note issued for \$220,000 of the remaining principal amount. We have also issued a new note to a founding stockholder for an additional principal amount of \$275,000 in order to fund working capital, including business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses. On October 2, 2007, one of our Founders extended a loan of \$250,000 to the Company on substantially the same terms as the other notes. The new notes are payable on the earlier of March 31, 2008 or the consummation of a business combination. The notes bear interest at 8% per annum. On December 24, 2007, one of our founders extended a loan of \$4,300,000 to the Company. The note evidencing this loan is payable on the earlier of December 24, 2008 or 10 days after the consummation of a business combination. The note bears interest at 5% per annum.

After the IPO in March 2006, we began evaluating prospective businesses regarding potential business combinations. We attempted to source opportunities proactively as well as reactively. We also explored many business combination structures taking into account Indian laws and our mandate. We considered, among others, stand-alone businesses, corporate spin-offs, management buy-outs, straight mergers and cash and stock buyouts. We also looked at structures that involved intermediary countries like Mauritius and Singapore as a way to minimize our tax exposure.

During the period from March 2006 to September 2007, we evaluated over 150 companies, engaged in negotiations with several companies and signed seven letters of intent, before the board decided for a variety of reasons not to pursue a business combination with many of them.

Sricon

On or around November 15, 2006 Roop Chand Betala, president of Volvie Capital, India contacted our CEO Ram Mukunda, about potential acquisitions. After showing us several potential business combinations in the power sector, all of which we rejected, Mr. Roop Chand introduced us to Sricon in March 2007.

From March through July 2007, we continued to meet with Volvie Capital to discuss the business and a potential business combination. Several structures including a reverse merger, minority investment and acquisition of stock were discussed, as were valuations and projections. During these months, we also continued to pursue other potential business combinations.

In July 2007, we had a serious discussion with the management of Sricon about a possible transaction and began financial due diligence.

In August 2007, Mr. Mukunda had a discussion with members of our board and pursuant to the discussion we made a verbal offer to Sricon. After several rounds of negotiations, on August 28, 2007 we signed a letter of intent with Sricon. We immediately increased efforts at conducting due diligence. Members of Economic Laws Practice (ELP), a law firm based in India, our directors Mr. Prins and Mr. Nathani, our Chairman Dr. Krishna and Ram Mukunda,

members of Societe Generale (SG) as well as eleven consultants carried out the process of audit, drafting of definitive agreements and legal due diligence. We simultaneously began negotiating the definitive agreements. On September 15, 2007, we signed the definitive agreements. In December 2007 we had discussions with Sricon regarding providing Sricon with a refundable down payment on the shares to be purchased under the definitive agreements, and on December 19, 2007 we signed an amendment to the definitive agreements.

TBL

In April 2006, we hired Master Aerospace Consultants (MAC) to help source potential business combinations.

In June 2006 MAC introduced Ram Mukunda to Ajax Engineering Pvt. Ltd as a possible acquisition. In June 2007, the CEO of Ajax Engineering Mr. A. K. Singh introduced us to Techni Bharathi Infrastructure (TBL). After several meetings with the management of TBL, we began to evaluate the company and conduct due diligence on TBL.

In August 2007, members of our board discussed a potential transaction with TBL. On September 5, 2007, we signed a letter of intent with TBL. We immediately scaled up our efforts at conducting due diligence. Members of ELP, our directors Mr. Prins and Mr. Nathani, our chairman Dr. Krishna, Ram Mukunda, members of SG as well as six consultants carried out the process of audit, drafting of definitive agreements and legal due diligence. The roles of the various parties in the process are described in the section entitled "Due Diligence and Valuation" below. We simultaneously began negotiating the definitive agreements. On September 15, 2007, we signed the definitive agreements. In December 2007 we had discussions with TBL regarding providing TBL with a refundable down payment on the shares to be purchased under the definitive agreements, and on December 21, 2007 we signed an amendment to the definitive agreements

On September 23, 2007, our board met formally to discuss all three transactions and unanimously agreed to present these transactions to the stockholders.

Interests of Our Directors and Officers in the Acquisition

When you consider the recommendation of our board of directors that you vote in favor of adoption of the Acquisition Proposal, you should keep in mind that certain of our directors and officers have interests in the Acquisition that are different from, or in addition to, your interest as a stockholder. These interests include, among other things, that if the Acquisition is not approved and we are required to liquidate, the stock and units issued to our executives and directors prior to the consummation of our public offering, including those purchased by our executives and directors in the private placement immediately preceding the public offering, will be worthless, because these shares will not participate in any distribution of the assets held in our trust fund. As of the record date, our present and past executives, directors and advisors owned a total of 2,500,000 shares of our common stock and 170,000 of our Units. In addition, Richard Prins has received an option to purchase 71,250 units, at a strike price of \$7.50, from the Underwriters Purchase Option (UPO) that we granted to the underwriter, Ferris, Baker Watts and Ranga Krishna, our Chairman of the Board, is entitled to receive 446,226.42 shares of our common stock if we consummate the Acquisition under the terms of a \$4,300,000 loan made by Dr. Krishna to us, which loan shall be due and payable 10 days after the completion of the Acquisition.

Mr. Suhail Nathani is a partner at the law firm of ELP in Mumbai, India. He is also one of our directors. His law firm is responsible for the legal due diligence and for drafting the purchase agreements. Our board of directors took the relationship into consideration, and debated the potential conflicts before approving the hiring of ELP for representing us in India. Nathani did not take part in the board's approval process of choosing ELP as our Indian legal council. One of the key considerations that the board took into account was the experience that Nathani and other ELP partners have in mergers, acquisitions, Indian and US securities law and cross border relations. While ELP is paid their standard fee for the work they did and continue to do for us, there is no arrangement of a success fee of any kind associated with the Acquisition Proposal.

In addition, we anticipate that following the completion of the Acquisition, Ranga Krishna will serve as the chairman of our board of directors, Ram Mukunda will serve as the executive chairman, president and chief executive officer, Sudhakar Shenoy, Suhail Nathani and Richard Prins will remain on our board of directors. Each of our directors and officers will, following the Acquisition, be compensated in such manner, and in such amounts, as our board of directors may determine to be appropriate, subject in the case of our officers to the requirements of any employment agreements entered into with them.

Our Reasons for the Acquisition and Recommendation of Our Board

The board has concluded that the acquisitions of Sricon, TBL and the wind energy farm are in the best interests of our stockholders. Our board of directors considered a wide range of factors in evaluating the Acquisition. The board considered the following factors, among others, in recommending the Acquisition Proposal:

- Our top down analysis and why the selected industries are attractive: our analysis of the industry shows that macro growth drivers for the industry are very strong. According to Committee for Infrastructure Financing, India & Bloomberg India expects to spend \$475 billion on infrastructure build out. The major sectors where this spending will take place are in the areas of Power, Urban infrastructure, irrigation, airports, ports, railways and roads. Overall the industry sector is very attractive and the Indian infrastructure companies have increased, in value, over 800 percent, (source: Bloomberg) over the past three years. Further, we found the market to be fragmented with many local undercapitalized players. We also found barriers to entry in the form of new government regulations that made contract bid qualifications more stringent.
- The specific acquisitions and why they are attractive: both Sricon and TBL have industry knowledge and prior experience. Sricon in particular has the ability to bid on large contracts. Sricon has expertise in building cement plants, and mining, both high margin, recurring businesses. TBL has a strong regional presence in three states as well prior experience in states where the margins for basic infrastructure build out are higher. The ownership of these companies allows us to participate in building and owning assets in the form of build operate and transfer

contracts, owing these companies gives us significant advantage in controlling costs associated with the engineering and building of these types of assets. As an example, the wind energy plant to be built by CWEL is a green energy power plant that we could own as a platform, from which we could build out several hundred mega watts of power plants including hydro, solar and clean thermal plants. Either Sricon or TBL could manage and eventually build out some of these assets helping in driving down costs.

• Companies willing to sell majority stakes: both TBL and Sricon were willing to sell majority stakes in their companies and allow a substantial portion of the money to be used to capitalize the companies. The management believed in their ability to grow the companies and was willing to take future awards of stock as an incentive to meet projections.

• Valuation and discount to public market multiples: the infrastructure industry in India is growing very rapidly and we have an opportunity to acquire two companies at fairly steep discounts to the public markets, providing arbitrage and high growth to our shareholders.

• The management teams and their commitment to corporate governance, and the ability of the company to potentially comply with SOX 404: we found that part of the challenge in acquiring majority stakes in companies, in India, was that entrepreneurs want to hold on to their stock even if it means not participating in high growth. The other challenge was that companies would have to become SOX 404 compliant. Several of the companies we spoke to including ones that we made offers to were reluctant to potentially comply with SOX 404. The management of Sricon and TBL were aware and willing to let us institute changes to their financial reporting and disclosure methodologies in order to become SOX 404 compliant.

Among the negative factors that the board considered in reaching its determination were the following:

- Size and managing multiple companies: the board considered that the companies were small in size and that scaling these companies would present challenges. Part of the mitigating factors considered was IGC management's experience with managing rapid growth and our access to Indian management that can help with scaling operations. With respect to multiple companies the board believed that the IGC's management had considerable experience managing holding companies and that we could postpone integration and operate Sricon and TBL independently, as these companies had capable management teams.
- Government clients and branding: the board considered that this is a business where contracts are being awarded by the government and the brand of both Sricon and TBL will need to be enhanced. The mitigating factors considered were, 1) our board and advisors have extensive contacts with the Indian government and could actively help in positioning and branding the companies with the government of India; 2) some of our board members have experience dealing with federal government contracting in the US and 3) some of our board members have been dealing with Indian government owned companies for the past twenty years.
- Cash business: the fact that the business is labor intensive and that cash was used to pay employees, or contract workers was considered. In order to mitigate risk associated with this aspect of the business, especially in light of SOX 404, we negotiated clauses in our ownership that allows us to overhaul the accounting department hire and fire the chief financial officer.
- Corporate governance, reporting and SOX 404 compliance: the board considered that these companies would need to comply with SOX 404 in two years. The mitigating factors were the 1) Indian management's willingness to let us install people, systems and processes that could meet public company corporate governance standards and SOX 404 compliance, 2) our management's experience with public companies in the US and SOX 404 and 3) our access to experienced people that could help with reporting, governance and compliance.

Industry Background: Infrastructure:

We were formed for the purpose of executing a business combination with a company with operations in India. We were not restricted to an industry group. We considered various industry groups, including home building, retail space construction, hotel construction, cement, steel, health care, information technologies and out-sourcing, retail, among others. Within each industry group, we looked at industry trends, competition, niche players, valuation metrics, economies of scope and scale, labor risk, foreign direct investment regulations and a several other factors.

Our analysis showed that Indian engineering and construction companies, specifically those with expertise in road maintenance, road building, Build Operate and Transfer (BOT) roads, construction of power plants, airports, sea ports, rail roads, coal and ore mining, and other heavy construction, as well as the energy sector and in specific the alternative energy industry provide high growth where the demand far outstrips supply. The Indian economy is growing at a GDP of between 8 and 9.5% per year. The infrastructure in major cities is under enormous stress and the infrastructure in secondary cities requires expansion. The Indian government recently announced that it expected to spend approximately \$475 billion by 2012 in order to improve Indian infrastructure. This includes approximately \$40 billion on highways and over \$160 billion on power. Among other infrastructures that will be expanded and built out are railroads, seaports and airports. Below, we provide background and an analysis of the Indian road infrastructure followed by an analysis of the energy sector.

India's road network

Category	Indian Roads and Highways Length (miles)	%
Expressways	124	*
National Highways	41,352	2%
State Highways	79,488	4%
Major District Roads	291,870	14%
Rural Roads	1,645,650	80%
Total Length	2,058,485	
*less than 1%		

The road network in India remains inadequate in terms of reach and quality and is unable to handle the traffic demands of its rapidly growing economy. While India currently has around 2 million miles of roads, most highways are narrow and congested with poor surface quality. According to the World Bank ("WB"), approximately 40% of India's villages do not have access to all-weather roads. In the last 50 years, the government has built just 334 miles of 4-lane roads.

Goldman Sachs Global Economics Paper No-152, titled "India's rising growth potential" (GS-152), cites gains in productivity as one major driver for sustaining India's GDP growth rate. It further argues that there are six reasons why India can continue to maintain or increase its growth rate. Among them, new highways are expected to jump start India's competitiveness. The analogy drawn is with the US where the national highway construction in the 1920s and the 1950s fuelled commerce and development, and created the suburbs. The first of India's most ambitious infrastructure project since the building of the railway network by the British in the 19th century is the building of the Golden Quadrilateral Highway. It connects four major cities – Delhi in the north, Kolkata in the east, Chennai in the south and Mumbai in the west. Along the way it runs through 13 states and 17 other cities with a million or more inhabitants, and is expected to be fully functional in 2007. The study concludes that the new highways from the Golden Quadrilateral Highway are expected to impact productivity in dramatic ways. For example, the expected build out of a network of highways are expected to reduce travel times by half, lower fuel costs and freight delivery times, and enable firms to leverage economies of scale. The new arteries are expected to attract economic activity, including hotels, gas stations and shops. The highways are expected to open up and out the closed worlds of Indian villages.

According to the World Bank, India's roads face major challenges:

- Lane capacity is insufficient and most highways are still two lanes or less.
- A quarter of all highways are congested to the point that truck traffic is greatly impeded.

- Currently, only one third of routine road maintenance needs are being met.
- Seventy percent of India's population lives in rural areas and forty percent of villages do not have access to all weather roads and are cut off during the monsoon season.
- In urban centers the dramatic growth in vehicle ownership (around 15% a year during the past decade) has reduced rush hour speeds to less than 10 mph in the central areas of major cities.
- The continued anticipated growth in the India economy will only exacerbate these trends unless significant new capital is deployed quickly.

Further, “since the early 1990s India’s growing economy has seen a rise in demand for transport infrastructure and services by around 10% a year. The sector has not been able to keep pace with rising demand and is proving to be a drag on the economy. Major improvements are required to support India’s continued economic growth and to reduce poverty” (WB). By the year 2011, the state and national highways will need to be widened and maintained at a cost of around \$40 billion. The replacement cost of India’s highways is around \$53 billion. Given the value of the highway assets, and given the vital role that roads play in economic growth and alleviating poverty, “India cannot afford to lose these assets.” (WB).

In summary, the road building industry is at the cusp of a major growth thrust lasting, we believe, for the next decade. The road building industry is broadly divided into three areas, maintenance, road building and an approach taken by the government using a Build Operate and Transfer (BOT) mechanism that can attract private investment as well as rapidly build out world-class roads.

Build Operate and Transfer (BOT)

The total funding gap in creating and maintaining an adequate highway system is estimated at around \$24 billion over a decade (WB). The national highway system in India currently carries 40% of the total traffic, but constitutes only two percent of the total road network. To fill the funding gap, the government has begun to encourage private investments in the form of Build Operate and Transfer of highways (BOT). The government of India has already created an impressive list of roads requiring an investment of around \$23 billion that it expects to put out for bids as BOTs through the National Highway Authority India (NHAI), an organization charged with building out the national network of roads. The bidding process for a BOT, broadly, is as follows:

- The NHAI identifies the end points and creates plans for a toll road, and solicits bids for these roads.
- The bidders must show prior experience, technical expertise, financial strength, appropriate inventory of equipment, experienced personal and logistics support among other factors, to qualify as a viable bidder.
 - Once technically qualified the financial bids are opened and awarded.

Table of Contents

The financial model is based on projecting revenue by taking into consideration the expected number of cars traveling on the highway, the growth of traffic over time, toll per car, which is based on government stipulated norms, cost of maintaining the highway, cost of building the highway, etc. Based on a financial model the potential bidder has three choices for the financial bid:

- the potential bidder can ask the government to subsidize the cost of building the highway by asking for concessions, or
 - the potential bidder can subsidize the government by offering to share the toll revenue, or
 - the bidder can offer to do neither.

The toll road is awarded to the bidder the government determines is the most, first, technically qualified and, second, most cost effective. The winning bidder collects toll for a period between 15 to 30 years, at the end of which the ownership of the highway is transferred to the government.

We see an opportunity to own a portfolio of BOTs, we believe that there are early mover advantages in the BOT sector and that we can, over the next several years, own a lucrative portfolio of BOTs. Further, as we will have visibility into the locations of our BOTs, we expect to also invest in the development of service areas along the highways. While the scale of BOTs that India is slated to offer is large, the associated services (hotels, office complexes, gas stations, restaurants, etc) along the toll roads also provide an expansive opportunity.

As part of our analysis we also looked at how serious the Government of India has been about addressing systemic risk, creating transparency and safeguarding foreign investments.

Government Initiatives in Road Building

The government of India, having recognized the need to provide transparency in the bidding process and attract foreign capital has implemented the following:

- 1) tax incentives on income from designated infrastructure projects;
- 2) deregulation of complimentary industries that are essential to such projects;
- 3) independent government oversight for the bidding process; and
- 4) fast track clearance for foreign investors in qualifying projects.

As these initiatives are in an early stage of implementation, the road-building sector provides a first mover advantage and provides an opportunity for investors to capture economic market-share at reasonable valuations.

Table of Contents

According to the Economics Law Practice (ELP), some regulatory changes in this sector include:

- The National Highways Act, 1956 has been amended to permit private entrepreneurs to undertake National Highway (NH) projects on a Build Operate and Transfer (BOT), sometimes referred to as Build Own Operate and Transfer (BOOT), basis and collect tolls. Under this Act, a simplified procedure has been prescribed for acquisition of land for the building, maintenance, management or operation of highways and separate provisions have been made for the levy and collection of fees for both public and private funded highways.
- State legal framework: The Indian Toll Act, 1851, makes it possible for State Governments to levy and collect tolls on any road or bridge that has been made or repaired at the expense of the Central Government or any State Government. However, the Act still needs to be amended by respective State Governments to allow the private sector to levy and collect tolls on State roads and bridges. Some State Governments have amended the Act – for example Uttar Pradesh and Madhya Pradesh, and others have taken legal steps in order to promote private sector participation. In addition to amending the Indian Toll Act, some states (e.g. Andhra Pradesh, Gujarat, etc.) have taken steps to enact a uniform law for infrastructure development.

Further, the Indian Government has also enacted a series of far reaching measures to promote investment in roads. These include:

- 1) Automatic approval for foreign equity investments up to 100 per cent, and foreign commercial borrowing to the extent of 30 per cent of the project cost.
- 2) Granting road building the status of an “Industry.”
- 3) Exemption from import duty on identified high quality construction plant and equipment, including duty free import of bitumen (used to make “asphalt”).
- 4) The restriction on the maximum equity holding by a foreign company in an Indian joint venture has been lifted.

In order to lay the foundation for safeguarding foreign investments India has finalized the Investment Promotion and Protection Agreements (IPPAs) with over 40 countries, including Mauritius and Canada, but not the US. This is one of the reasons that we expect to make our investments out of our wholly-owned subsidiary in Mauritius, IGC-M. Under the IPPA, setting up a joint venture or a 100% foreign owned subsidiary qualifies as an “investment,” which offers free transferability, repatriations of funds and provides for dispute settlement mechanisms as well as increased protection against expropriation. Further, India places no restrictions on “current account” transactions. Payments under construction contracts are considered to be current account transactions and are therefore permitted.

Sricon Infrastructures, Limited (Sricon)

Sricon is currently a small to medium size engineering and construction company. Sricon’s main areas of business activity are road and infrastructure building, BOT projects, civil and engineering works for power plants, steel mills, sugar plants, building of water supply and treatment systems, mining and other heavy construction.

Sricon recently entered the BOT market by winning a contract to build a 25-mile state highway in the state of Maharashtra. The cost of the BOT is approximately \$6 million and is expected to be operational in late 2008 and Sricon is expected to collect toll for an ownership period of approximately 9 years and 11 months.

Sricon has already established the technical experience on a national basis to be a leading engineering and construction contractor of BOTs. We believe the company is well positioned to scale its operations in its main areas of business.

History: The promoters founded Vijay Engineering Enterprises in 1994. They founded Srivastava Construction Private Limited in 1996. In 2004, it changed its name to Sricon Infrastructure Private Limited and was merged with Vijay Engineering Enterprises. Apart from the maintenance and building of roads and highways:

- Sricon is one of a few companies in India that has the expertise to construct and overhaul high temperature cement plants;
- Sricon is also one of a few companies with expertise in the construction of jetties for overhauling ships on sea ports;
 - Sricon has expertise in the mining of coal and iron ore; and
 - Sricon is an ISO 9001:2000 accredited company.

Indicative Customer list

National Highway Authority of India
(NHAI)

National Thermal Power Corporation
(NTPC)

Maharashtra- PWD, Gujarat- PWD,
Orissa- PWD, MP- PWD/RDA, among
others.

- Customers: Over the past 10 years Sricon has qualified in all states in India and has worked in several, including Maharashtra, Gujarat, Orissa and Madhya Pradesh. The National Highway Authority of India (NHAI) awards contracts on a national level (interstate highways) and the National Thermal Power Corporation (NTPC) awards contracts for the civil works associated with power plants. NCL awards mining contracts. Intra-state contracts are awarded by agencies within the state. The table titled “Indicative Customer List” sets out some of Sricon’s present and former customers. In the table, MP is the state of Madhya Pradesh and PWD stands for Public Works Department and RDA stands for Road Development Authority. Each state and some cities have a PWD/RDA and Sricon is registered across India and is qualified to bid on contracts anywhere in India.
- Human Resources: Sricon currently has a team of 282 technical and skilled individuals and deploys a labor force of around 600 unskilled individuals. It is located in the center of India, with easy access to all major metros around the country.
- Strategic differentiation: Sricon obtains all of its work through a process of bidding with agencies of the Indian federal, state, and local governments. Over the past 10 years, Sricon has created core competencies that differentiate it from its competition. Sricon established a national reach and an expertise in the building of jetties and docks at river and sea ports. It also established an expertise in the building and maintenance of high tech chimneys and high temperature cement plants, as well as mining of coal, limestone and iron ore. It then established a national presence and a brand in road maintenance and building, including the equipment and processes that today has resulted in brand equity among its key customers. Sricon has a track record of successful projects that in the aggregate establishes its technical qualifications on most future projects. From a technical qualifications perspective, management believes that Sricon is well positioned to specialize in certain areas, consistently win contracts in the road, highway sector, mining, construction of airports, sea ports and rapidly scale its operations, provided that it gets an adequate influx of capital.
- Contract bidding process: In order to create transparency, the Indian government has centralized the process for awarding contracts for the building of inter-state roads. The process is as follows:

- At the “federal” level, as an example, the National Highway Authority of India (NHAI) puts out a Statement of Work. The statement of work has a detailed description of the work to be performed as well as the time frame.
- Two proposals are submitted, the first sets out technical capabilities, prior experience, specialized machinery and manpower, among other criteria and the second proposal sets out a financial bid.
 - The NHAI evaluates the technical bids and short lists technically qualified companies.
- The short list of technically qualified companies are then invited to place a financial bid and show financial strength through revenue, net worth, and balance sheet. The financial bids are opened and typically the lowest bid wins the contract.

Table of Contents

- The process of bidding on a contract is capital intensive on the contractor as it must have the following financial resources: 1) earnest money deposit to show financial strength of between 2% to 10% of the project cost, 2) performance guarantee of between 5% and 10%, 3) working capital and 4) capital for plant and machinery.
- Technical expertise, stable of equipment combined with financial resources can enable the company to bid on large highway construction contracts as well as the building of airports and sea ports, where the environment is frequently less competitive, technical expertise is greater and the margins are larger.
- The financial qualifications for bidding on larger projects are also determined by a limit that NHAI places on its contractors. As the contractor executes larger highways, the ceiling is lifted. For example, currently Sricon's ceiling is fairly high. It can bid on highway construction projects worth \$114 million each, if it has the adequate financial resources. As and when it executes a \$114 million highway successfully, the ceiling will be lifted. We believe that the current ceiling is a competitive advantage, as Sricon can bid on highway, airport and sea port construction projects in the \$100 million range, providing substantial growth opportunities.
- Management: Sricon is currently a traditional Indian family-owned and managed business that is transitioning to a professionally run business. The officers and directors of the business have over a decade of road building and heavy construction experience. They have led the company from a small subcontractor, to a medium sized business. Our board of directors, after evaluating over 150 companies and associated management teams in India, believe that the management of Sricon, in particular its leadership team, is in large part poised to be successful in what we expect will be a meteoric raise in road building and BOT activity. We expect to combine Sricon's extensive in-country experience and road building expertise with our strategic, financing, structuring, and business process experience to lead the company in an exciting and dynamic environment. The leadership of Sricon is set out below:
 - Mr. Rabindralal B. Srivastava (54) is Founder and Chairman. In 1974, he started his career in Larsen and Toubro (L&T), one of India's premier engineering and construction companies. In 1994, he became a civil engineering sub-contractor to L&T, as Vijay Engineering. He worked as a sub-contractor for L&T in Haldia, West Bengal and Tuticorin in South India among others. Under his leadership, Vijay Engineering expanded to include civil engineering and construction of power plants, water treatment plants, steel mills, sugar plants and mining. In 1996, Mr. Srivastava founded Srivastava Construction Limited, which in 2004 changed its name to Sricon Infrastructure to address the larger infrastructure needs in India like highway construction. He merged Vijay Engineering and Sricon in 2004. Mr. Srivastava graduated with a BSc. from Banaras University in 1974.
 - Mr. Srivastava founded Hi-tech Pro-Oil Complex in 1996. The company is involved in the extraction of soy bean oil.
 - He founded Aurobindo Laminations Limited in 2003. The company manufactures laminated particleboards.
 - Mr. Abhay Wakhare (36) has been the General Manager of Finance and Accounting and the company secretary since 2004 where he is responsible for finance, accounting, human resources, and is the corporate secretary of the company. Mr. Wakhare has broad experience, having worked in several industries. From 2002-2004 he was the General Manager Finance, for the ammunitions manufacturing division of the Eros Group of companies. From 1999-2002, he was an entrepreneur having founded a perfume company. From 1996-1999, he was the chief executive officer of Disani Agro Limited, a \$50m pesticide and herbicide manufacturer. From 1994-1996, he was the Assistant General Manager Finance, at Hindustan Lever. Mr. Wakhare's education and qualifications are as follows: Bachelor of Commerce, 1990, Masters of Commerce, 1992, Nagpur University. 1993 Indian Institute of Cost Accountants. 1993, Chartered Financial Analyst. 1993, Bachelor of Law, Pune University. MBA, 1994, SIMB, Pune. Masters in Law 1996, Osmaniya University. MSc. Finance, 1997, Business School of Hyderabad.
-

Mr. Ajay Dhiman, (40), is Project Manager. He joined Sricon in 2006 and is responsible for the planning and oversight of highway construction. From 1994 to 2006, he held various positions including as the AE-Superintendent with the Border Road Organization, which is responsible for the construction and maintenance of all border roads in India. Mr. Dhiman graduated in 1994 from the Associate Member Institute of Engineers, Delhi with the equivalent of a B.E. (civil).

- S.K. Dubey, (39), is General Manager (Projects). Since 1995, he has been responsible for Planning & Execution of Civil & Mechanical Engineering Projects. From 1992 to 1995, he was a Project Engineer with Reva Engineering Industries Pvt. Ltd. New Delhi. Mr. Dubey graduated from Pune University in 1990 with a BE.

Table of Contents

Past financial performance: For the fiscal years ending March 31, 2005, 2006 and 2007, Sricon's overall revenue has been flat due primarily to financial constraints. The overall revenue for FY 2005, 2006 and 2007 have been about \$11.5 million, \$11.0 million and about \$10.6 million, respectively.

- Gross margins: Over the past two years Sricon borrowed money in order to buy heavy construction equipment, which in turn has allowed it to improve gross margin and position itself for the future. We expect to continue to purchase plant and machinery in order to further increase gross margins. Its gross margins for FY 2005, FY 2006, and FY 2007 were approximately 19.2%, 21.9% and 23.6%, respectively.
- Depreciation: There is a significant difference in the way that IGAAP treats depreciation and the way USGAAP treats depreciation. Under Indian accounting standards, companies depreciate assets over much longer periods. For example, buildings are depreciated over 58 years and 25 years in IGAAP and USGAAP respectively. Other differences include vehicles, furniture, and office equipment, which are depreciated over 20 years and 5 years in IGAAP and USGAAP respectively. This creates a difference in the earnings reported under IGAAP and USGAAP. Earnings will be reported in USGAAP subsequent to the Acquisition
- Interest: Sricon pays an average of 13.5% interest on its loans. In addition, it pays an average of 16.5% interest on plant and equipment that it leases. Not including lease payments, Sricon paid \$312 thousand, \$389 thousand and \$533 thousand in interest for FY 2005, 2006 and 2007, respectively.
- Sricon's earnings for FY 2005, 2006, and 2007 are about \$544 thousand, \$482 thousand and \$410 thousand, respectively. The decline in earnings over the past three years has been due to the increase in finance costs. It is our belief that by lowering the cost of capital and providing liquidity to the company, there will be a substantial improvement in earnings.

Projected financial performance: The projections for Sricon, based on the present backlog of work on hand, are as follows:

- The projected revenue for the fiscal year ending March 31, 2008 is around \$22 million with after tax earnings of around \$2.8 million.
- The projected revenue for the fiscal year ending March 31, 2009 is around \$92 million with after tax earnings of around \$13 million, with the increase from 2008 expected to come from increased execution of the contracts into which Sricon has already entered.
- Sricon has a backlog of contracts to be completed worth approximately \$195 million not including the BOT. The major contracts are as follows:
 - for the construction of the Seoni-Lakhanadaon section of National Highway number seven (NH-7) valued at around \$18.25 million over the next eighteen months,
 - for the construction of the Seoni-Mandala section of NH-7 valued at around \$19.25 million over the next eighteen months,
 - for the construction and expansion of a part of the Nagpur to Hyderabad section of NH-7 valued at around \$35 million over the next 21 months,
 - the Northern Coal Limited contract for evacuation and partial mining of coal valued at around \$62.5 million over the next 36 months, and

- three cement plant contracts with a total back log of around \$60 million over 36 months.
- At the end of FY 2009 (March 31, 2009), we anticipate that the backlog of current contracts will be around \$80.8 million. The following shows the projected revenue, by project, of the backlogged work for fiscal years 2008 and 2009, and the projected earnings from these projects in total:

- Short/Medium Term Margin Expansion: We project an improvement in earnings margins from 3-5% to between 14-18% on a post tax basis for the following reasons:
- Typically, Sricon pays between 1% and 2% a month more on raw materials because it does not have the cash to pre-pay or pay vendors on a current basis. Adequate capital provides leverage with vendors that results in purchasing power. Sricon expects to reduce its overall cost of raw materials, which would result in an increase in margins of about 5%.
- Sricon expects to become more vertical by adding machinery like crushers, which would allow Sricon to make its own aggregate. This increases cost efficiency and productivity, which translates into added margin. It is estimated that this will result in an overall improvement in margins of approximately 3%.
- Sricon expects to reduce its overall cost of capital. It expects to reduce its interest rate from an average 13.5% to around 9% through an improved balance sheet resulting from the infusion of capital from the acquisition and the ability to access less expensive lending sources in the United States. It also expects to reduce the cost of leasing equipment by purchasing plant and machinery. We project an increase in margins of between 5-7% from a reduction of the overall cost of capital.

- **Customers:** Over the past 10 years, TBL has focused on four states: Karnataka, Tamilnadu, Kerala and Assam. The table titled “TBL Indicative Customer List” sets out some of TBL’s present and former customers.
- **Human Resources:** TBL currently has a team of 110 technical and skilled individuals and deploys a labor force of around 250 unskilled individuals. It is located in the south of India, with easy access to all major Indian metropolitan areas.
- **Strategic differentiation:** TBL obtains all of its work through a process of bidding with agencies of the Indian federal, state and local governments. Over the past 25 years, TBL has created core competencies that differentiate it from the competition. It has core competencies in the construction of highways, irrigation projects and railroads. From a technical qualifications perspective, management believes that TBL is well positioned to specialize in certain areas and consistently win contracts in the road, highway, irrigation, railroad and power sectors and rapidly scale its operations, provided that it gets an adequate influx of capital.
- **Management:** TBL is currently a traditional Indian family-owned and managed business that is transitioning to a professionally run business. The officers and directors of the business have over a decade of road building and heavy construction experience. They have led the company from a small sub-contractor, to a medium sized business. Our board of directors, after evaluating over 150 companies and associated management teams in India, believe that the management of TBL, in particular its leadership team, is in large part poised to be successful in what we expect will be a significant raise in road building, BOT and heavy construction activity. We expect to combine TBL’s extensive in-country experience with IGC’s strategic, financing, structuring, and business process experience to lead the company in an exciting and dynamic environment. The leadership of TBL is set out below:
 - **Mr. V.C Antony (76)** is Chairman. Mr. Antony brings over 50 years of experience in the construction of highways, bridges, dams, railroads and offshore platforms. He is the founder of TBL and became its Chairman in 1991. In 1976 he became Founder, Chairman and Managing Director of Bhagheeratha Engineering. In 1990 he took it public on the Bombay Stock Exchange. Under his leadership, Bhagheeratha grew to be one of the 10 largest construction companies in India. He expanded Bhagheeratha into the Middle East, specifically Iraq, UAE, Qatar and Yemen. Mr. Antony retired as the Managing Director in 1997. Mr. Antony became the South Zone Chairman of the Confederation of Indian Industry (CII) in 1991. He is currently on the board of the Lakeshore Hospital and Research Centre in Kerala, India.
 - **Mr. Jortin Antony (40)** is the son of V.C. Antony. He has been the Managing Director of TBL since 2000. Prior to that he held various positions at Bhagheeratha starting as a management trainee in 1991. From 1997 to 2000 he was the Director of Projects at Bhagheeratha. In 2003, Mr. Jortin Antony was awarded the Young Entrepreneur Award from the Rashtra Deepika. He graduated with a B.Eng, in 1991, from Bangalore Institute of Technology, University of Bangalore.
 - **Mr. Benoi Madhavan (44)** joined Techni Bharathi Limited as General Manager (Technical) in December 2006. He has been responsible for preparing bids, budgets and technical monitoring of contracts. From February 2004 to December 2006, he was the Deputy General Manager in Aarvee Associates, Hyderabad, a company engaged as a consultant to the National Highways Authority of India (NHAI). From 1998 to 2004, he was with TBL as Manager (Contracts & Projects). Mr. Madhavan graduated in 1987 from the University of Calicut, Kerala with a BEng in Civil Engineering. He is a member of the Institution of Engineers and the Indian Road Congress.

Past financial performance: For the fiscal years ending March 31, 2005, 2006 and 2007, TBL's overall revenue has been \$8.9 million, \$2.3 million and about \$4.3 million, respectively.

- Gross Margins: For FY 2005, 2006 and 2007, TBL's gross margins were (\$1.1 million), (\$0.3 million) and \$1.7 million, respectively.
- Interest: TBL pays an average of 14% interest on its loans. In addition, it pays an average of 16% on plant and equipment that it leases. Not including lease payments, TBL paid \$1.9 million, \$1.5 million and \$1.1 million in interest for FY 2005, 2006 and 2007, respectively. As a percentage of revenue interest payment in FY 2005, 2006 and FY 2007 were about 21%, 67% and 26%, respectively. It is our belief that by appropriately reducing the leverage and reducing the cost of capital, TBL will be able to increase its profitability.
- Bank Loans: TBL has been restructuring and continues to restructure its debt. In FY 2005, FY 2006 and FY 2007 the long-term component of debt was \$3.9 million, \$3.7 million and \$2.3 million, respectively. TBL's total liabilities at FYE 2006, FYE 2007 and September 30, 2007 were approximately \$16 million, \$12 million and \$8 million, respectively. The reduction of was achieved through : 1) the sale of real estate assets, 2) the sale of shares to Odeon and 3) discounts obtained from banks for one time settlements.
- TBL's earnings for FY 2005, 2006, and 2007 were about (\$3.3 million), (\$2.3 million) and \$0.5 million, respectively. It is our belief that by lowering the cost of capital and providing liquidity to the company, there will be a substantial improvement in earnings.

Projected financial performance: The projections for TBL, based on the present backlog of work on hand, are as follows:

 - for the partial construction of the Tiruneivi road, valued at around \$11 million over the next eighteen months.
- The following is a projection of the revenue and earnings of TBL, based on the current back log, and IGC funding, through fiscal year 2009:

Short/Medium Term Margin Expansion: We project an improvement in earnings margins from 3-5% to between 13-15% on a post tax basis for the following reasons:

- Typically, TBL pays between 1 and 3 percent a month more on raw materials because it does not have the cash to pre-pay or pay vendors on a current basis. Adequate capital provides leverage with vendors that result in purchasing power, and an anticipated increase in margin of an estimated 5%.
- TBL expects to add plant and machinery enhancing productivity and resulting in an estimated margin improvement of around 3%.
- In FY 2007, TBL's interest payments were around 26% of revenue. We expect to decrease interest costs through a progressive improvement of the balance sheet, reduced debt levels resulting from the infusion of capital from IGC and our ability to access less expensive lending sources in the United States. We expect these efforts to result in margin improvement of approximately 5%.
 - We expect to increase G&A in the short term by an additional 3% of revenue.

Due diligence and Valuation

Our board members Ram Mukunda and Richard Prins are highly experienced in matters involving valuation of companies and performance of the requisite due diligence to arrive at such valuations.

- Our President and Chief Executive Officer, Ram Mukunda has over 10 years of international experience acquiring and integrating acquisitions. He has led teams that conducted due diligence, valuations, made acquisitions and integrated minority and majority stakes of companies in the US, India, Germany, France, Hong Kong, Guam and Canada. He has led and managed several multimillion-dollar international business transactions involving high growth, business restructuring, turn around, cost reduction, corporate governance and off-shoring strategies. He has led public companies through capital raises, high growth, restructuring, involving both organic and inorganic expansion. He has been on the sell-side and buy-side of an acquisition. His experience has helped him gain valuable insight in creating business models, evaluating risk, conducting due diligence and the principals of evaluating and valuing businesses.

- Our board director Dick Prins, over the past 24 years, has been involved in valuing companies, rendering fairness opinions, conducting due diligence and practically all services related to mergers and acquisitions. Specifically, he analyzed and valued companies for five years at the leveraged buyout firm of Tuscarora Corporation. For eight years he led the investment banking team at Crestar Financial Corporation that conducted valuations and due diligence as well as helped companies acquire and sell business. For the past eleven years he has been involved in all aspects of mergers and acquisitions at the firm of Ferris, Baker Watts, where he is the Director of Investment Banking.

In conducting due diligence and arriving at a valuation, we retained the services of the following:

- Societe Generale's (SG) M&A team, based in Singapore. The lead banker Mr. Vivek Dixit and his team help companies manage due diligence, value companies and negotiate transactions. They have extensive experience with mergers and acquisitions in India, Singapore and Hong Kong. SG was responsible for coordinating with Odeon, which is based in Singapore. They were also responsible for helping interview and recruit professionals, helping us analyze various industry sectors, managing and reviewing the transaction agreements, helping with negotiating strategies, providing market intelligence and helping with the due diligence and valuation.
- The firm of Economic Laws Practice (ELP) is a law firm in India with offices in Mumbai and Delhi. One of their Partners, Suhail Nathani, is a director on our board. The Partner responsible for our matters, Sujjain Talwar, has teams that specialize in conducting legal due diligence, negotiating and drafting agreements, mergers and acquisitions, and general Indian corporate law. The firm was responsible for conducting legal due diligence on Sricon, TBL and the wind energy farm to be built by CWEL. The firm was also responsible for drafting the acquisition agreements and ensuring compliance with Indian law. Sujjain Talwar and Suhail Nathani were also responsible for legal negotiations with Sricon, TBL, CWEL and their respective legal representatives.
- Ferris, Baker Watts (FBW) based in the U.S. assisted in due diligence, valuation and feed back on our acquisitions from a US public markets perspective. Mr. Prins is Director of Investment Banking at FBW and also a director on our board.
- Mercurius Advisory Services based in Delhi, India, was responsible for conducting financial due diligence and helping the accounting staff at Sricon and TBL prepare USGAAP statements, schedules and the requisite back-up required for a successful USGAAP audit. The principals at Mercurius are individuals with prior experience at the accounting firm of Price Waterhouse, Coopers. Their clients include several multi national companies located in India. Mercurius was also responsible for modeling the future earnings of Sricon and TBL.
- Tamilnadu Financial Services Limited (TFS), was hired by us to conduct due diligence and manage the financial workflow at TBL. TFS was asked to focus on the ongoing negotiations between TBL and their bankers and to assess the risk and feasibility of bank settlements as well as to evaluate the probability of collecting on delay claims filed by TBL, as these are important qualitative considerations that impacted our offer to TBL.
- PCAOB listed audit firm Yoganandh & Ram based in Chennai, India, was responsible for conducting a three-year USGAAP audit of Sricon and TBL.
- Ernst and Young LLP, India was hired by us to conduct due diligence on the wind energy farm to be built by CWEL and to specifically analyze the eligibility of the wind energy farm to generate carbon credits.

Based on the extensive resources devoted to evaluating and conducting due diligence of all our acquisition candidates, we decided not to devote additional resources and engage an investment bank to render a fairness opinion, instead we relied on the team consisting of Ram Mukunda, Dick Prins, S G, FBW, Mercurius Advisory Services, ELP and TFS to value the companies.

Valuation Analysis

According to the underwriting agreement we entered into in connection with our initial public offering, our initial target business or businesses in the aggregate must have a fair market value, as determined by our board of directors, equal to at least 80% of our net assets at the time of the business combination. The value of the equity interest we propose to acquire in Sricon and TBL was calculated, during negotiations with the companies, in the aggregate, at \$113.6 million, which represents 169% of our net assets as of September 30, 2007.

Our approach to valuing the companies, consisted first of an analysis of the infrastructure sector in India, this included analyzing historical growth, future growth, competitive landscape, market size, and an analysis of the companies that are publicly traded on the Indian stock market. We then analyzed the US market for comparable companies and considered the multiples at which the U.S. companies trade on the U.S. stock exchange. We then considered, qualitatively, the different types of risks including the following:

- Country/political risk consists of the likelihood that our business would be affected adversely from mass riots, civil war, currency devaluation, regulatory changes etc. While this risk would apply to all companies in India its impact on the infrastructure sector could be more than a sector like Information Technology (IT) or Business Process Outsourcing (BPO). For example, civil disturbance is likely to hurt our business, versus a business in IT or BPO.
- Currency risk consists of risk associated with the relative value of the Indian Rupee versus the U.S. dollar. We determined that while a likely increase in value of the Indian Rupee could potentially hurt other sectors like IT or BPO, it would actually benefit the Infrastructure sector as raw materials and heavy machinery are imported into India.
- Labor risk consists of risk associated with labor. This is an important risk factor as certain aspects of the business depend on a large unskilled labor-force. We determined that this risk while real, was a risk factor that potentially was limited to certain states in India where Sricon and TBL did not have much, if any, business.
- Risk associated with clients (collection risk) was determined to be relatively low as most of the contracts that are awarded are by companies owned by the government. While we perceived a likely hood of payment delays, we did not expect any defaults. We also determined that our two companies were not at risk, as they did not have any contracts with states that had a higher likelihood of default.
- We analyzed the transparency of the contract award process in India and determined that the government had overhauled the process and introduced a great deal of transparency including sealed bids and strict guidelines for technical qualifications as well as stringent rules for financial qualifications.

Based on the market outlook and a qualitative analysis of risk the board decided that the infrastructure sector would be very attractive to our shareholders.

We used three methodologies, peer group multiples, comparable transaction and discounted cash flow, for valuing Sricon and TBL.

Public Peer Group: The valuation of Sricon and TBL involved comparing these companies to the peer group of companies that were publicly traded on the Indian stock market and the price earnings multiple for the Fiscal Year Ending (FYE) March 31, 2009. We focused on the Fiscal Year Ending March 31, 2009 (FYE 2009), as that would be the first full year post funding. The FYE 2009, trading multiples (source: Bloomberg) for each of the companies in the peer group are shown below as of August 27, 2007, the date just before we signed a letter of intent with Sricon. We also show the FYE 2009 trading multiple as of December 28, 2007 (source: Bloomberg) to update and illustrate the dramatic increase in value of infrastructure companies between August and December of 2007. The aggregate stock price of the peer group as a whole has increased over 197% between August and December 2007. We also applied the analysis to the FYE 2008. Below, P/E refers to the Price Earnings Ratio. The P/E ratios are shown for FYE March 31, 2009 as of August 27, 2007 and December 28, 2007. We also provide the P/E ratios for FYE March 31, 2008 as of August 27, 2007 and as of December 28, 2007. (source: Bloomberg).

Based on detailed discussions with the management of Sricon and TBL, we developed a model of their FYE 2009 revenue and earnings based on contracts in hand.

Based on our due diligence and development of a model for FYE 2009, we projected Sricon's earnings at \$13.03 million and TBL's earnings at \$3.57 million. Applying the average public market multiple of 15.0 times earnings resulted in a valuation of \$195.9 million and \$53.7 million for Sricon and TBL respectively. We propose to acquire 63% of Sricon and 77% of TBL. This results in a value for IGC's portion of Sricon at about \$123.4 million and about \$41.3 million for IGC's ownership of TBL, or a combined value of \$164.7 million.

We modified the aggregate value of \$164.7 million using three factors; a private company discount factor, a scale factor and a control premium factor. Each is discussed below. The private company discount factor is generally arrived at using:

- Market liquidity: As both Sricon and TBL are private, their stock is illiquid contributing to a discount in its value over the value calculated using public market metrics.
- Capital structure: Both Sricon and TBL have been paying interest rates that are higher than the public companies. Further, they are leveraged to a greater extent than their public company counterparts. While, it is

expected that IGC will use its balance sheet to reduce the overall cost of capital for Sricon and TBL and will normalize the capital structure to make it comparable to the public companies, their capital structure contributes to a discount over public market multiples.

- Profitability: Both Sricon and TBL have been run as private companies optimized for minimal tax, we would expect to run these companies as public companies seeking to maximize profit. This also results in a discount over public company multiples.
- Operations: The peer group, while in the same industry as Sricon and TBL, tend to have products, services and revenue mix that are broader than Sricon and TBL. These result in a discount over the public market multiples.
- Scale: Both Sricon and TBL are smaller than the public market peer group resulting in a different risk profile. While the capitalization that IGC will provide is expected to remove financial risk, the risk of scaling operations will remain. This also results in a discount over the public market multiples.

We qualitatively assessed the discount factor for the first four factors (market liquidity, capital structure, profitability and operations) at 20%. This discount is consistent with private-public market discounts in India (source: Societe Generale). For the fourth factor, Scale, we added an additional 20%. We arrived at this by analyzing the trading discount of smaller companies over the average. For example on August 27, 2007 the smaller companies were trading at an aggregate average of 20%, to the overall average.

In the case of Sricon and TBL we are purchasing a controlling interest of these companies. Further, even in the event that all the management shares over the next several years are awarded to the management of Sricon and TBL, IGC would continue to hold a controlling interest in these companies. Typical control premiums in India are between 10% and 20% (source: Societe Generale). We used the premium at the lower end of the range of 10%.

Combining all three of the factors we arrived at an overall private market discount of 30.0% for Sricon and TBL, compared to the public peer group. Applying this discount we arrived at a value of \$86.4 million for the IGC ownership in Sricon and \$28.9 million for the IGC ownership of TBL. This resulted in a combined value of \$115.3 million for the IGC owner ship in both these companies. This corresponds to a valuation for Sricon that is 129% of the amount of money in escrow as on September 30, 2007 and a valuation for TBL of 43% of the money in escrow. The combined valuation of \$115.3 million is 172% of the money in escrow.

Since August 2007 the Indian market and specifically the infrastructure sector has increased in value considerably. For example, on August 27, 2007 the aggregate stock price of the peer group was INR 3,858.5 (about USD 96.5) and on December 28, 2007 the aggregate stock price was INR 7,617 (about USD 190.4) an increase of 197% (source: Bloomberg). The peer group analysis on December 28, 2007 results in a value of IGC's portion in Sricon at \$160.3 million or 239% of escrow and the IGC's value in TBL at \$53.7 million or 80% of escrow. The aggregate value of the two acquisitions would be \$214.0 million or 319% of escrow.

Applying the analysis to FYE March 31, 2008 yields a value for the combined companies at \$36.5 million or 54% of escrow. The analysis for FYE March 31, 2008 as of December 28, 2007, for the combined companies, yields a value of \$68.0 million or 101% of escrow.

Comparable Transactions: This is an analysis, which involves a review of merger, acquisition and asset purchase transactions involving target companies that are in industries related to Sricon and TBL. This type of analysis generally provides a wide range of value, because of the varying importance of an acquisition to a buyer. For example, a strategic buyer may be willing to pay more than a financial buyer. In addition there are potential differences in the transaction process based on how competitive a bid may become. Information involving private buyers and sellers are not typically disclosed unless they involve a public company and the transaction is deemed to be material. As a result, the selected comparable transaction analysis is limited to transactions involving investments made by private equity into public companies, in a private transaction.

Although the comparable transaction analysis is inherently based on incomplete information, it does provide insight into the types of investments that have being carried out in India. We asked Societe Generale to assess and compile the comparable transactions. While some of the companies listed below are not in our original peer group, they provide valuable information. The following is a list of transactions and the dates on which they were announced as compiled by Societe Generale.

The average of private transactions carried out in India show an average multiple of 31.4 times current year's earnings. There is not enough information to assess what the multiples were for earnings one year out. However, we estimated conservatively that if earnings were to double in the year following the investment the average multiple would have been around 15.7, slightly higher than the 15.0 used in the peer group analysis. Applying the methodology to Sricon and TBL, using the same discount and premiums used in the peer group analysis to adjust from public multiples to private multiples, yields an aggregate value of \$120.4 million or 179% of escrow. This analysis is unchanged as of December 28, 2007. Applying the analysis to FYE 2008 yields a value of \$52.4 million or 78% of escrow.

Discounted Cash flow: The third methodology used was a discounted cash flow (DCF) methodology. A DCF estimates value based upon a company's free cash flow discounted at a rate reflecting risks inherent in its business and capital structure. The analysis used unlevered free cash flow after estimated capital expenditures. This represents the amount of cash generated and available for interest, principal and dividend payments after providing for on going business operations and capital expenditures. While a DCF analysis is the most scientific of the methodologies used, it is dependent on projections and numerous industry specific and macroeconomic factors.

A standard DCF analysis was used to determine the value of Sricon and TBL's equity on the basis of its financial results and projected estimates of revenue and net profit for the fiscal years 2009, 2010, 2011. Key inputs used in the DCF analysis were the projections for revenue and net profit for the next three fiscal years and the cost of equity for the two companies using standard market data. The key assumptions for projecting revenue and profit were a) the successful completion of the backlogs, b) new contracts based on management's estimates, c) a continuing commitment by the Indian Government to build out infrastructure.

As of March 31, 2007 the Indian market returned 15.9%. The "risk free" rate in India was around 8.0%. This yields an equity risk premium of 7.9%. We calculated the beta for our peer group at 1.22 (source: Bloomberg) and used the Capital Asset Pricing Model to derive a cost of equity of 17.7% for our industry group. We then made adjustments for illiquidity and derived an over all discount rate of 18.52%. We applied this discount rate to DCF valuation for the IGC portion of Sricon and TBL. The DCF yielded a valuation of \$73.4 million and \$31.4 million for the IGC portion of Sricon and TBL respectively, and an aggregate valuation of \$105.0 million or 157% of escrow. The analysis remains unchanged as of December 28, 2007. Applying the DCF analysis to the FYE 2008, 2009 and 2010 yields a value for the combined companies at \$120.2 million or 179% of escrow.

All three-valuation methodologies are relevant in their own way and provide useful information, we combined all three analyses, allocating each analysis an equal weight of 33.33%. Based on the analysis described the board recommended that the acquisitions, as providing the stockholders considerable value and in the aggregate meeting the 80% threshold. The results are summarized below for the FYE March 31, 2009, FYE March 31, 2008 as of August 27, 2007 and as of December 28, 2007.

	As of August 27, 2007	As of December 28, 2007
FYE March 31, 2009	169% of escrow	218% of escrow
FYE March 31, 2008	84% of escrow	100% of escrow

Any estimates contained in the analysis were not necessarily indicative of actual values or predictive of future results or values, which may be significantly more or less favorable than as set forth in the analysis. In addition, analyses relating to the value of businesses do not purport to be appraisals or to reflect the prices at which businesses actually may be sold.

Appraisal or Dissenters Rights

No appraisal rights are available under the Maryland General Corporation Law for our stockholders in connection with the Acquisition Proposal. However, pursuant to our articles, stockholders voting against the transaction may convert their shares to cash. See “Conversion Rights”

United States Federal Income Tax Consequences of the Acquisition

As the stockholders of IGC are not receiving any consideration or exchanging any of their outstanding securities in connection with the Acquisition, and are simply being asked to vote on the matter, it is not expected that the stockholders will have any US federal income tax related issues as a result of voting on these matters. However, if you vote against the Acquisition Proposal and elect a cash conversion of your common stock into your pro-rata portion of the trust account and as a result receive cash in exchange for your common stock, you may have to recognize gain or loss on your investment in IGC shares. **WE URGE YOU TO CONSULT YOUR OWN TAX ADVISORS REGARDING YOUR PARTICULAR TAX CONSEQUENCES.**

Regulatory Matters

The Acquisition and related transactions are not subject to any federal or state regulatory requirement or approval, including the Hart-Scott-Rodino Antitrust Improvements Act of 1976 (HSR Act).

Consequences if Acquisition Proposal is Not Approved

If stockholders do not approve the Acquisition Proposal, we will not acquire Sricon and TBL. Pursuant to our amended and restated certificate of incorporation, if we do not effect a business combination by March 8, 2008, then pursuant to our certificate of incorporation, our officers and directors must take all actions necessary to promptly dissolve and liquidate IGC.

Recommendation

For the reasons described above, among others, we believe that the Acquisition is attractively valued, and that our stock is currently trading at a marked discount to that of companies that are comparable to the company that would result from the Acquisition. We also note that our common stock has recently been trading near or below the inherent cash value of a common share, which is the estimated amount of cash held in the trust fund that would be payable for each common share if we were to liquidate, subject to potential claims of creditors. Accordingly, after careful consideration, our board of directors has determined unanimously that the Acquisition Proposal is fair to, and in our best interest and those of our stockholders.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDERS VOTE “FOR” THE ACQUISITION PROPOSAL.

THE ACQUISITION AGREEMENTS

The following summarizes the material provisions of the agreements between us and Sricon, TBL and Odeon relating to the Acquisition Proposal.

The agreements, as amended, are attached as Annexes A-G to this proxy statement. All stockholders are encouraged to read the agreements, as amended, in their entirety.

These agreements have been included to provide you with information regarding their terms. It is not intended to provide any other factual information about us. ADDITIONAL INVESTMENT ACTIVITY

Wind Farm Purchase Agreement:

Contract Agreement Dated April 29, 2007 Between IGC, Chiranjjevi Wind Energy Limited, Arul Mariamman Textiles Limited, and Marudhavel Industries Limited.

As previously disclosed in our Form 8-Ks dated May 2, 2007 and August 23, 2007 and Form 10-QSBs for the quarterly period ended June 30, 2007 and September 30, 2007, on April 29, 2007, IGC entered into a Contract Agreement dated April 29, 2007, as subsequently amended (“CWEL Purchase Agreement”), with Chiranjjevi Wind Energy Limited, Arul Mariamman Textiles Limited, and Marudhavel Industries Limited (collectively, “CWEL”). Pursuant to the CWEL Purchase Agreement, IGC will acquire 100% of a 24-mega watt wind energy farm, consisting of 96 250-kilowatt wind turbines, located in Karnataka, India to be manufactured by CWEL (the “CWEL Acquisition”).

The following description summarizes the material provisions of the CWEL Purchase Agreement. Stockholders should read carefully the CWEL Purchase Agreement that is attached as Annex H to this Proxy Statement, as amended by the First Amendment that is attached as Annex I to this Proxy Statement. The CWEL Purchase Agreement contains representations and warranties that IGC, on the one hand and CWEL on the other hand, have made to one another and are for the benefit of such parties only, and may not be relied upon by any other person. The assertions embodied in the representations and warranties contained in the CWEL Purchase Agreement are qualified by information in disclosure schedules to the CWEL Purchase Agreement. Although IGC does not believe the disclosure schedules contain information the securities laws require IGC to publicly disclose, the disclosure schedules contain information that modifies, qualifies and creates exceptions to the representations and warranties set forth in the CWEL Purchase Agreement. Accordingly, you should not rely on the representations and warranties as characterizations of the actual state of facts, since the representations and warranties are subject in important part to the underlying disclosure schedules. The disclosure schedules contain nonpublic information. Information concerning the subject matter of the representations and warranties may change following the date of the CWEL Purchase Agreement, and subsequent information may or may not be fully reflected in IGC’s public disclosures.

Scope of work under the CWEL Purchase Agreement

CWEL will be responsible for the design, manufacture and supply of wind turbines, including the tower, rotor, cables, control-panel and sub-station. CWEL will be responsible for all liaison work with government agencies in India. CWEL will also be responsible for the operations and maintenance of the wind energy farm once it is operational.

Table of Contents

Purchase Price — Payment

At closing, the purchase price for the 24-mega watt wind energy farm is INR 1,140,000,000 (approximately \$28,500,000 based on a conversion ratio of \$0.025 per INR.) The price is subject to revision based on the prices of major components at closing. The actual payments made to CWEL will be spread over nine to twelve months.

IGC paid a deposit of approximately \$250,000 on May 22, 2007. If the Agreement is not consummated by March 31, 2008, twenty five percent of the deposit will be forfeited by IGC.

Security Interest

CWEL will grant IGC a security interest in all major goods and components purchased by CWEL in connection with the construction of the wind energy farm. CWEL shall further assign to IGC all its rights under any agreements between CWEL and vendors of goods and components purchased for the purpose of the construction of the wind energy farm.

Closing of the CWEL Acquisition

The CWEL Purchase Agreement contemplates that the closing of the CWEL Acquisition will take place on a date mutually agreed upon by IGC and CWEL, following the satisfaction of certain customary closing conditions, which date shall be no later than March 31, 2008 unless the parties agree to a later date. IGC expects that the closing will occur concurrently with, or shortly following the consummation of the transactions contemplated by the Acquisition Proposal. While IGC anticipates seeking additional debt financing to partially fund the CWEL Acquisition and may not consummate the CWEL Acquisition if such funding is not available, IGC believes that it is probable it will consummate the CWEL Acquisition.

Implementation Schedule

CWEL has contracted to supply, install and commission all wind turbines within 12 months from the effective date of the CWEL Purchase Agreement. The effective date is defined as the date on which the first payment, not counting the deposit, is made to CWEL. However, IGC shall extend the completion date by an additional 3 months provided that CWEL has made adequate progress and met certain milestones.

Power Purchase Agreement

As part of the turnkey nature of the contract, CWEL undertakes to put in place a power purchase agreement between IGC and the Bangalore Electricity Supply Company (BESCOM), unless IGC chooses to sell the power generated by the wind farm to a third party in accordance with prevailing Government of India rules.

Power Generation Guarantee

During the time that CWEL is responsible for the operations and maintenance of the wind energy farm, CWEL guarantees a performance of 550,000 units of power per wind energy turbine, within a 10% variation for changes in wind patterns. If the aggregate generation of the wind energy farm is below the amount guaranteed, CWEL undertakes to reimburse IGC the shortfall at the prevailing power purchase rate.

Liquidated Damages

If CWEL fails to complete the commissioning of all wind turbines in accordance with the Agreement, specifically within the mandated time frame, CWEL will pay liquidated damages equal to 5% of the total contract price up to a maximum of INR 57,000,000 (approximately \$1,425,000 based on a conversion ratio of \$.25 per INR).

Table of Contents

Operations and Maintenance (O&M)

CWEL will undertake the operations and maintenance of the wind energy farm at a price of INR 10,800,000 (approximately \$270,000 based on a conversion ratio of \$0.25 per INR) per year. The term of the O&M contract is for seven years and is non-cancelable in the first three years of operations. The O&M pricing is subject to a 5% escalation per year commencing with the third year of operations.

Representations and Warranties

The Purchase Agreement contains customary representations and warranties that CWEL has made to IGC and that IGC has made to CWEL. Several of the representations and warranties of the parties are qualified by materiality or material adverse effect.

Each warrant entitles the holder to purchase from the Company one share of common stock at an exercise price of \$5.00 commencing on the earlier of the completion of a Business Combination with a target business or the distribution of our Trust Fund and expiring five years from the date of issuance. Following the receipt of the \$3,000,000 from Oliveira Capital, the Company on February 6, 2007 purchased \$3,000,000 of convertible debentures from MBL. The debentures carry interest at the rate of 8%, are secured by 1,131,356 shares of MBL common stock and are carried at cost. On April 25, 2007, the Company entered into the First Amendment to the Share Subscription Cum Purchase Agreement (the "First Amendment to MBL Purchase Agreement") with MBL and the MBL Promoters.

Pursuant to the First Amendment to MBL Purchase Agreement, the conditions precedent to the Company's consummation of the transactions contemplated by the MBL Purchase Agreement were amended to provide that: (i) MBL's audited financial statements converted to US GAAP for the periods ended March 31, 2006, March 31, 2005 and March 31, 2004 and unaudited financial statements converted to US GAAP for the period commencing April 1, 2006 and ending December 31, 2006 (collectively, the "Required Financial Statements") previously required to be delivered under the MBL Purchase Agreement be delivered to us by May 15, 2007 and (ii) MBL and the MBL Promoters deliver audited financial statements converted to US GAAP for the period ended March 31, 2007 by June 30, 2007. In addition, Clause 5.3 of the MBL Purchase Agreement was amended to extend the deadline for the completion of our acquisition of MBL shares from September 30, 2007 to November 30, 2007.

Table of Contents

On April 25, 2007, concurrently with the execution of the First Amendment to the Purchase Agreement, the Company entered into the First Amendment to the Debenture Subscription Agreement (the “First Amendment to Debenture Agreement”) with MBL and the MBL Promoters.

Pursuant to the First Amendment to the Debenture Agreement, Clause 14 of the Debenture Subscription Agreement dated February 2, 2007 was amended to extend the deadline by which time the Company must either obtain the requisite stockholder approvals for the acquisition of MBL shares under the MBL Purchase Agreement or purchase an additional USD \$3,000,000 in MBL Convertible Debentures from April 30, 2007 to 45 days after receiving the Required Financial Statements.

As noted above, the deadline for the acquisition of the MBL shares was November 30, 2007. This deadline has passed, and the Company has been unable to negotiate acceptable terms to further extend the deadline. Accordingly, the Company will not consummate the proposed transaction with MBL.

THE STOCK PLAN PROPOSAL

General

We are seeking your approval to adopt the 2008 Omnibus Incentive Plan. On October 5, 2007, our board of directors approved, subject to approval of our stockholders, our Stock Plan. If our stockholders approve our Stock Plan, up to 300,000 shares of common stock initially, which number shall be increased each year on April 1, commencing April 1, 2008, by 15% of the number of shares issued and outstanding minus 13,974,500, will be available for issuance in connection with the grant of options and/or other stock-based or stock-denominated awards.

The Stock Plan is being submitted to holders of our common stock for approval at the meeting in order to ensure (i) favorable federal income tax treatment for grants of incentive stock options under Section 422 of the Internal Revenue Code of 1986, and (ii) continued eligibility to receive a federal income tax deduction for certain compensation paid under the Stock Plan by complying with Rule 162(m) of the Internal Revenue Code. Our board of directors believes that the approval of the Stock Plan is necessary to provide us with a sufficient number of shares to attract, retain and motivate employees, directors and consultants and to give us the flexibility we need to make various types of grants in light of the recent changes in tax and accounting rules relating to equity-based compensation.

This proposal to approve the Stock Plan is conditioned upon and subject to the approval of the Acquisition Proposal. If the Acquisition Proposal is not approved, the Stock Plan Proposal will not be presented at the special meeting.

Table of Contents

Material Features of our Plan

The following paragraphs provide a summary of the principal features of the Stock Plan and its operation. The following summary is qualified in its entirety by reference to our Plan as set forth in Annex J.

The purpose of the Stock Plan is to encourage ownership of our common stock by our and our subsidiary employees, directors and certain consultants in order to attract such people, to induce them to work for our benefit and to provide additional incentive for them to promote our success.

The Stock Plan provides for the grant of incentive stock options, non-qualified stock options restricted and unrestricted stock awards and other stock-based awards to our and our subsidiary employees, directors and consultants. Upon approval, an aggregate of 300,000 shares of common stock initially, which number shall be increased each year on April 1, commencing April 1, 2008, by 15% of the number of shares issued and outstanding minus 13,974,500 will be available for issuance under the Stock Plan.

In accordance with the terms of the Stock Plan, our board of directors has authorized our compensation committee to administer the Stock Plan. The compensation committee may delegate part of its authority and powers under the Stock Plan to one or more of our directors and/or officers, but only the compensation committee can make awards to participants who are our directors or executive officers. In accordance with the provisions of the Stock Plan, our compensation committee will determine the terms of options and other awards, including:

- the determination of which employees, directors and consultants will be granted options and other awards;
 - the number of shares subject to options and other awards;
- the exercise price of each option, which may not be less than fair market value on the date of grant;
 - the schedule upon which options become exercisable;
- the terms and conditions of other awards, including conditions for repurchase, termination or cancellation, issue price and repurchase price; and
 - all other terms and conditions upon which each award may be granted in accordance with the Stock Plan.

The maximum term of options granted under the Stock Plan is ten years. Awards are generally subject to early termination upon the termination of employment or other relationship of the participant with us or our subsidiaries, whether such termination is at our option or as a result of the death or disability of the participant. Generally, in the event of a participant's termination for cause, all outstanding awards shall be forfeited.

In addition, our compensation committee may, in its discretion, amend any term or condition of an outstanding award provided (i) such term or condition as amended is permitted by our Stock Plan, and (ii) any such amendment shall be made only with the consent of the participant to whom such award was made, if the amendment is adverse to the participant.

If our common stock shall be subdivided or combined into a greater or smaller number of shares or if we issue any shares of common stock as a stock dividend, the number of shares of our common stock deliverable upon exercise of an option issued or upon issuance of an award shall be appropriately increased or decreased proportionately, and appropriate adjustments shall be made in the purchase price per share to reflect such subdivision, combination or stock dividend.

Table of Contents

Upon a merger or other reorganization event, our board of directors may, in their sole discretion, take any one or more of the following actions pursuant to our Plan, as to some or all-outstanding awards:

- provide that all outstanding options shall be assumed or substituted by the successor corporation;
- upon written notice to a participant, (i) provide that the participant's unexercised options or awards will terminate immediately prior to the consummation of such transaction unless exercised by the participant; or (ii) terminate all unexercised outstanding options immediately prior to the consummation of such transaction unless exercised by the optionee;
- in the event of a merger pursuant to which holders of our common stock will receive a cash payment for each share surrendered in the merger, make or provide for a cash payment to the optionees equal to the difference between the merger price times the number of shares of our common stock subject to such outstanding options, and the aggregate exercise price of all such outstanding options, in exchange for the termination of such options;
- provide that all or any outstanding options shall become exercisable in full immediately prior to such event; and
- provide that outstanding awards shall be assumed or substituted by the successor corporation, become realizable or deliverable, or restrictions applicable to an award will lapse, in whole or in part, prior to or upon the reorganization event.]

Our stockholders may amend the Stock Plan. It may also be amended by the board of directors, provided that any amendment approved by the board of directors that is of a scope that requires stockholder approval as required in order to ensure favorable federal income tax treatment for any incentive stock options under Code Section 422 or for any other reason is subject to obtaining such stockholder approval. If adopted, our Stock Plan will expire on the tenth anniversary of the adoption of the plan by our stockholders.

Approval of the Stock Plan Proposal is contingent on approval of the Acquisition Proposal.

Material Federal Income Tax Considerations

The following discussion was prepared by Seyfarth Shaw LLP, our counsel, with respect to the material federal income tax considerations relating to stock options and stock grants under the Stock Plan:

Incentive Stock Options: Incentive stock options are intended to qualify for treatment under Section 422 of the Code. An incentive stock option does not result in taxable income to the optionee or deduction to the company at the time it is granted or exercised, provided that no disposition is made by the optionee of the shares acquired pursuant to the option within two years after the date of grant of the option nor within one year after the date of issuance of shares the optionee (referred to as the "ISO holding period"). However, the difference between the fair market value of the shares on the date of exercise and the option price will be an item of tax preference includible in "alternative minimum taxable income." Upon disposition of the shares after the expiration of the ISO holding period, the optionee will generally recognize long term capital gain or loss based on the difference between the disposition proceeds and the option price paid for the shares. If the shares are disposed of prior to the expiration of the

ISO holding period, the optionee generally will recognize taxable compensation, and we will have a corresponding deduction, in the year of the disposition, equal to the excess of the fair market value of the shares on the date of exercise of the option over the option price. Any additional gain realized on the disposition will normally constitute capital gain. If the amount realized upon such a disqualifying disposition is less than fair market value of the shares on the date of exercise, the amount of compensation income will be limited to the excess of the amount realized over the optionee's adjusted basis in the shares.

Table of Contents

Non-Qualified Options: Options otherwise qualifying as incentive stock options, to the extent the aggregate fair market value of shares with respect to which such options are first exercisable by an individual in any calendar year exceeds \$100,000, and options designated as non-qualified options will be treated as options that are not incentive stock options.

A non-qualified option ordinarily will not result in income to the optionee or deduction to us at the time of grant. The optionee will recognize compensation income at the time of exercise of such non-qualified option in an amount equal to the excess of the then value of the shares over the option price per share. Such compensation income of optionees may be subject to withholding taxes, and a deduction may then be allowable to us in an amount equal to the optionee's compensation income.

An optionee's initial basis in shares so acquired will be the amount paid on exercise of the non-qualified option plus the amount of any corresponding compensation income. Any gain or loss as a result of a subsequent disposition of the shares so acquired will be capital gain or loss.

Stock Grants: With respect to stock grants under the Stock Plan that result in the issuance of shares that are either not restricted as to transferability or not subject to a substantial risk of forfeiture, the grantee must generally recognize ordinary income equal to the fair market value of shares received. Thus, deferral of the time of issuance will generally result in the deferral of the time the grantee will be liable for income taxes with respect to such issuance. We generally will be entitled to a deduction in an amount equal to the ordinary income recognized by the grantee.

With respect to stock grants involving the issuance of shares that are restricted as to transferability and subject to a substantial risk of forfeiture, the grantee must generally recognize ordinary income equal to the fair market value of the shares received at the first time the shares become transferable or are not subject to a substantial risk of forfeiture, whichever occurs earlier. A grantee may elect to be taxed at the time of receipt of shares rather than upon lapse of restrictions on transferability or substantial risk of forfeiture, but if the grantee subsequently forfeits such shares, the grantee would not be entitled to any tax deduction, including as a capital loss, for the value of the shares on which he previously paid tax. The grantee must file such election with the Internal Revenue Service within 30 days of the receipt of the shares. We generally will be entitled to a deduction in an amount equal to the ordinary income recognized by the grantee.

The company has no current plans to grant options or stock awards under the Stock Plan upon consummation of the Acquisition.

Approval of the Stock Plan Proposal will require the affirmative vote of a majority of the outstanding shares of our common that are present in person or by proxy and entitled to vote at the meeting. Description of Business

We were formed on April 29, 2005 as a blank check company for the purpose of acquiring, through a merger, capital stock exchange, asset acquisition or other similar business combination, one or more businesses in an unspecified industry, with operations primarily in India. We intend to use cash derived from the proceeds of our initial public offering, our capital stock, debt or a combination of cash, capital stock or debt to effect a business combination.

Results of Operations

Six Months Ended September 30, 2007

For the six months ended September 30, 2007, and September 30, 2006 we had net income of \$47,331 and \$847,155 respectively, derived primarily from interest income related to the cash held in our trust account, net of legal, interest expense, formation, travel, and other start-up costs.

Year Ended March 31, 2007

For the year ended March 31, 2007, we had net income of \$1,517,997, derived primarily from interest income related to the cash held in our trust account, net of legal, interest expense, formation, travel and other start-up costs. For the period from April 29, 2005 (inception) through March 31, 2007, we had net income of \$1,074,157, derived primarily from interest income related to the cash held in our trust account, net of legal, interest expense, formation, travel, other and start-up costs and compensation expense.

For the period from April 29, 2005 (inception) through March 31, 2006, we had net loss of \$443,840, derived primarily from compensation expense, legal, interest expense, formation, travel, other and start-up costs net of interest income related to the cash held in our trust account.

Plan of Operation

To date, we have entered into four definitive agreements as described in our current reports on Form 8-K filed on February 12, 2007, May 2, 2007 and September 21, 2007. As described in the referenced Form 8-Ks, we have identified the infrastructure sector including the road-building sector and the alternative energy sector. Currently, we are conducting due diligence and audits in accordance with U.S. generally accepted accounting principles on the companies that we propose to acquire.

We currently are not engaged in any business operations, and we do not expect to engage in, any substantive commercial business until the consummation of a proposed transaction. We expect these transactions to close shortly after we obtain stockholder consent to the Acquisition Proposal. Currently, our business activities consist solely of pursuing businesses with operations primarily in India in order to consummate a business combination. Our management has completed the due diligence on Sricon, TBL and CWEL and we anticipate that our only business activity until the consummation of a business combination will be to prepare for the consummation of the Acquisition Proposal.

The net proceeds from the sale of the Units in our initial public offering, our private placement to officers and directors, loans from our founders and the deferred offering costs were \$63,845,850, after deducting offering expenses and underwriting discounts. This amount is held in trust for the benefit of investors in our public offering (the "Trust Account"). Additionally, \$1,769,400 of the proceeds attributable to the underwriters' non-accountable expense allowance was deposited in the Trust Account.

We do not believe we will need additional financing to supplement the proceeds of our initial public offering, our private placement to officers and directors and loans from our founders in order to meet the expenditures required for operating our business prior to consummating a business combination. Interest earned on the Trust Account up to a maximum of \$2,150,000, may be used to pay for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses incurred by the Company prior to consummation of a business combination. As of December 31, 2006, the maximum amount of \$2,150,000 was transferred into our operating account. We anticipate that the funds available to us outside of the Trust Account will be sufficient to sustain our business activities until approximately March 2008, assuming that a business combination is not consummated during that time. However, we anticipate we will need to obtain additional financing to pay portions of the purchase price for the wind farms not payable to CWEL at closing, and to provide bridge financing to Sricon and TBL, in which case we may issue additional securities or incur debt to finance such activities.

To fund our purchase of a debenture in MBL Infrastructures Limited, an Indian roadbuilding company we had considered acquiring, on February 5, 2007, we entered into a Note and Warrant Purchase Agreement dated as of February 5, 2007 (the "Warrant Agreement") with Oliveira Capital, LLC ("Oliveira") pursuant to which we sold Oliveira a Promissory Note ("Note") in the principal amount of \$3,000,000 and a warrant (the "Warrant") to purchase up to 425,000 shares of our common stock (the "Warrant Shares") at an initial exercise price of \$5.00 per share. The Note bears interest at a rate of 8% per annum and is due and payable in full upon the earlier of February 5, 2008 and the date on which we consummate a Business Combination. The Note is secured by the Debentures pursuant to a Pledge Agreement. The Warrant is exercisable during the period commencing on the consummation of a Business Combination and ending on March 2, 2011.

The proceeds held in the Trust Account are invested in government securities (Treasury Bills and money market funds) until the earlier of (i) the consummation of our first business combination or (ii) the distribution of the trust account. In the event that the Company does not consummate a business combination within 18 months from the date of the consummation of the public offering (March 8, 2006), or 24 months from the consummation of the public offering if certain extension criteria have been satisfied (see "Plan of Operations - Timing of Business Combination")

below), we will be forced to liquidate and the proceeds held in the trust account will be distributed to the Company's public stockholders. However, our founding stockholders (stockholders prior to our public offering) will not participate in any liquidation distribution with respect to any shares of our common stock acquired prior to the public offering. If we are forced to liquidate, the per-share liquidation may be less than the price at which public stockholders purchased their shares because of the expenses related to our initial public offering, our general and administrative expenses and the anticipated costs of seeking a business combination. Additionally, if third parties make claims against us, the offering proceeds held in the trust account could be subject to those claims, resulting in a further reduction to the per-share liquidation price.

Sources of target businesses

Since our public offering, we have been actively engaged in sourcing a suitable business combination candidate. As described above, we have the three pending transactions that constitute the Acquisition Proposal.

We have relied on finding candidates through three possible sources: (1) the professional community, including, without limitation, investment bankers, attorneys and accountants; (2) quasi-governmental associations such as the International Finance Corporation, which is a member of the World Bank; and (3) the industries subject to deregulation by the Indian government. In addition, we have located acquisition candidates through other unaffiliated sources, including private equity and venture capital funds and public and private companies. Our officers, directors and special advisors and their affiliates have also brought acquisition candidates to our attention. In addition to contacting the sources described above for potential acquisition candidates, we have been contacted by unsolicited parties who become aware of our interest in prospective targets through press releases, word of mouth, media coverage and our website. We have offered to pay a one-time Finder's Fee of .25%, of the value of our investment to any unaffiliated party that makes an introduction, or provides information about prospective targets to us. All such fees have been conditioned on our consummating a business combination with the identified target.

We have entered into a financial advisory agreement with Ferris, Baker Watts, Incorporated, the representative of the underwriters in our public offering, and SG Americas Securities, LLC, one of the participating underwriters in the public offering, whereby Ferris, Baker Watts and SG Americas Securities, LLC will serve as our financial advisors in connection with a business combination for a period of two years from the effective date of the public offering, March 2, 2006. Ferris, Baker Watts and SG Americas Securities, LLC will perform certain advisory services for us, including without limitation, assisting us in determining an appropriate acquisition strategy and tactics, evaluating the consideration that may be offered to a target business, assisting us in the negotiation of the financial terms and conditions of a business combination and preparing a due diligence package regarding a business combination for our board of directors. The due diligence services that have been provided, and continue to be provided, by Ferris, Baker Watts and SG Americas Securities, LLC consist of gathering, preparing and organizing information to be considered by our board of directors, among other things. Pursuant to the terms of this agreement, Ferris, Baker Watts, will be entitled to receive two percent of the consideration associated with any business combination by us, a portion of which shall be allocated to SG Americas Securities, LLC pursuant to a separate agreement between the parties. The fee will be capped at \$1,500,000 and will be paid out of the trust proceeds only upon consummation of a suitable business combination. In addition to the foregoing fee, we have agreed to reimburse Ferris, Baker Watts and SG Americas Securities, LLC, for all of the reasonable out-of-pocket expenses incurred by it, whether or not a business combination is consummated; provided, however, that such expenses in the aggregate will not exceed \$25,000 without our prior consent.

Other than our advisory agreement with Ferris, Baker Watts and SG Americas Securities, LLC, we have also engaged the services of several professional firms that specialize in due diligence, USGAAP audits, legal audits, and other services that could help us in determining valuation and other criteria. In addition on or around November 27, 2006, we engaged the firm of SJS Associates, which provides the services of Mr. John Selvaraj an individual with extensive experience in US GAAP, Indian GAAP and SEC reporting. Mr. Selvaraj was also appointed as our Treasurer on November 27, 2006, following the resignation of Mr. Cherin. SJS Associates is a company held by Mr. Selvaraj. Following a search for legal firms in India that had U.S. and Indian trained attorneys that could represent us, the Board appointed Economic Laws Practice (ELP), a legal firm located in India, with six partners and over fifty professionals. Mr. Suhail Nathani, one of our board directors, is a Partner with ELP.

Other than what has been disclosed above (Ferris, Baker Watts, ELP, and SJS Associates), we have not and do not anticipate paying any other officer, director, founding stockholder or any entity with which they are affiliated, any Finder's Fee or similar compensation for services rendered to us prior to or in connection with the consummation of a business combination.

Timing of business combination

Pursuant to the terms of our public offering, we must complete a business combination within 24 months after the consummation of the public offering (March 8, 2006). If we do not complete the business combination, then we will dissolve the Company and distribute to all of our public stockholders, in proportion to their respective equity interests, an aggregate sum equal to the amount in the trust account, inclusive of any interest, plus any remaining net assets.

Employees

We currently have two executive officers, one of whom is a member of our board of directors, as well as six special advisors. We also utilize the services of advisors, consultants and legal and tax professionals, among others, to assist in evaluating potential target industries and companies, among other tasks. We expect to add employees to handle the additional work load brought on by the transactions.

Mr. Ram Mukunda, our President and Chief Executive Officer is dedicated full time to conducting due diligence on the target companies that we have identified. Our Chairman, Dr. Ranga Krishna and our Treasurer, Mr. Selvaraj, are dedicated part time in helping with the due diligence on the target companies. Following a business combination, or an agreement for a business combination we may recruit additional managers to supplement the incumbent management of the target business or businesses, and we expect to hire full-time employees as well.

Off Balance Sheet Arrangements

Options and warrants issued in conjunction with our initial public offering are equity linked derivatives; accordingly, they represent off balance sheet arrangements. The options and warrants meet the scope exception in paragraph 11(a) of FAS 133 and are accordingly not accounted for as derivatives for purposes of FAS 133, but instead are accounted for as equity. See the Notes to the March 31, 2007 financial statements for a discussion of outstanding options and warrants.

Critical Accounting Policies

Our critical accounting policies are described in Notes to our financial statements included elsewhere in this proxy statement. They are summarized here for convenience. We believe the critical accounting polices described involve the most significant judgments and estimates used in the preparation of our financial statements. The assumptions made in the computation of volatility in estimating a value for the Non-Cash Compensation Expenses and Warrants issued to Oliveira Capital represents the most significant subjective estimate. The volatility used in the two computations are different because at the time the Non-Cash Compensation Expense was computed, we did not have a particular industry group that served as a peer group, instead we used a basket of Indian companies that traded in the US. At the time of the Oliveira warrants we had the infrastructure industry as a peer group. Changes in the estimates of volatility would have the effect of changing our results of operations as the non-cash compensation expense and amortization of debt discount on Oliveira debt would change. However, any changes in the estimates used in these calculations would have no effect on our liquidity or capital resources as the related changes would effect non-cash items only.

- i. **Non-Cash Compensation Expenses:** In February 2006, prior to the IPO, the Company issued an aggregate of 200,000 shares of common stock to its founders and advisors. The shares were issued for an aggregate price of \$2,000. The fair value of these shares was estimated to be \$537,741; the difference of \$535,741 was recorded as compensation expense on the accompanying statement of operations. The fair value was determined by allocating the \$6.00 Unit price in the subsequent Offering between the estimated fair value of the shares and warrants to be included therein. The per share fair value was estimated to be \$2.69. The Company estimated this using the Black-Scholes method, using a U.S. risk-free interest rate of 4.5% and a volatility of 52.44%. The March 31, 2006 financial statements as originally issued were restated to record this compensation expense. As a result, the deficit accumulated during the development stage and net loss increased by \$535,741 (\$0.17 per share, from income per share of \$.03 to loss per share of \$0.14) and additional paid in capital increased by \$535,741. A ten percent increase or decrease in volatility would change our estimated fair value by about four percent. The impact on our Statement of Operations would not exceed \$25,000. The estimates used related to a one-time charge and therefore will not change on an ongoing basis.
- ii. **Warrants issued to Oliveira Capital:** In February 2007, the Company sold a promissory note and 425,000 warrants to Oliveira Capital, LLC for \$3,000,000. Each warrant will entitle the holder to purchase from the Company one share of common stock at an exercise price of \$5.00 commencing on the earlier of the completion of a Business Combination with a target business or the distribution of the Trust Fund and expiring five years from the date of issuance. The warrants have an exercise price of \$5.00. The Company has determined, based upon a Black-Scholes model, that the fair value of the warrants on the date of issuance would approximately be \$1,235,000 using an expected life of five years, volatility of 46% and a U.S. risk-free interest rate of 4.8%. We computed volatility for a period of five years. For approximately the first four years we used the trading history of two representative companies that are listed on the Indian Stock exchange. For approximately one year the trading history of the Company's common stock was used. The average volatility of the combined data extending over five years was calculated as 46%. A ten percent increase or decrease in volatility would change our estimated fair value by about five percent. Management believes that this volatility is a reasonable benchmark to use in estimating the value of the warrants. The impact on our Statement of Operations would not exceed \$75,000. This estimate is not expected to change from period to period.
- iii. **Deferred Acquisition costs:** MBL, Sricon, TBL and CWEL. In each period we have accrued expenses associated with these acquisitions. To the extent that we do not consummate any one of the transactions, we will expense all costs associated with that particular potential acquisition in the quarter where the decision is made. For example, as the MBL acquisition has become improbable we expect to expense deferred acquisition costs (approximately \$150,000) associated with MBL.
- iv. **Income per common share:** Basic earnings per share is computed by dividing net income (loss) applicable to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflect the additional dilution for all potentially dilutive securities such as stock warrants and options. The effect of the 22,949,000 outstanding warrants, issued in connection with the Public Offering and the Private Placement, the 500,000 outstanding units issued to the underwriters in connection with the Public Offering and the 425,000 warrants to purchase shares of common stock issued to Oliveira Capital, LLC in connection with the promissory note has not been included in the diluted weighted average shares since the warrants are contingently exercisable at the consummation of a business combination. The underling stock associated with the exercise of warrants arising from the private placement and the warrants issued to Oliveira Capital will become dilutive at the consummation of a business combination. The dilutive effects of these have been captured in the Pro-Forma statements, presented elsewhere. The units and attached warrants issued to the underwriter is exercisable at a price of \$6.50 and will become dilutive once the common stock reaches \$6.50 post consummation of a business combination.

Quantitative and Qualitative Disclosures About Market Risk

Market risk is the sensitivity of income to changes in interest rates, foreign exchanges, commodity prices, equity prices and other market-driven rates or prices. We are not presently engaged in and, if a suitable business target is not identified by us prior to the prescribed liquidation date of the trust account, we may not engage in, any substantive commercial business. Accordingly, we are not and, until such time as we consummate or, to the extent, that the acquisition price for a business combination may be denominated in a foreign currency, enter into an agreement to consummate, a business combination, we will not be exposed to risks associated with foreign exchange rates, commodity prices, equity prices or other market-driven rates or prices. The net proceeds of our initial public offering held in the trust account have been invested only government securities, such as Treasury Bills and money market funds, meeting conditions of the Investment Company Act of 1940. Given our limited risk in our exposure to money market funds, we do not view the interest rate risk to be significant.

Opportunities, Industry Overview

The Indian economy in general and its stock markets in particular experienced significant growth during the fiscal year ended March 31, 2007. GDP growth reached 9.2%, compared to 8.4% in the previous 12-month period. The factors contributing to this growth included favorable demographic dynamics, the savings rate and habits of the Indian middle class, changing investment patterns, increasing consumerism, healthy business confidence, inflows of foreign investment and improvements in the Indian banking system.

The benchmark indices of the Indian capital markets breached historic highs on several occasions during the 2006-07 fiscal year. The BSE Sensex and S&P CNX Nifty rose by 15.9% and 12.3%, respectively, during the fiscal year and market capitalization on the BSE and NSE rose by 17.3% and 19.7%, respectively. According to the BSE, the Sensex is calculated on a free float market capitalization-weighted methodology and measures the performance of 30 component stocks representing a sample of large, well-established and financially sound companies. The NSE website describes the S&P CNX Nifty as a well diversified index of 50 stocks accounting for 22 sectors of the economy. Total net investment by foreign institutional investors into equity and debt amounted to USD 586 million and USD 5,607 million, respectively, for the year ended March 31, 2007, and cumulative investment by foreign institutional investors in the Indian market reached USD 46,404 million.

Public offerings of equity and rights offerings during the year ended March 31, 2007 amounted to USD 7,774 million, compared to USD 6,353 million during the previous 12-month period. Initial public offerings (“IPO”) have the largest presence among public offerings of equity. Of 85 public offerings in India, 77 were IPOs. Gross proceeds from IPOs rose by 160.64%, or USD 6,613 million, from USD 2,537 million in the fiscal year 2005-06. Total turnover in the derivatives segment of the NSE in the 2006-07 fiscal year rose by 52.5% to USD 1,706,791 million from USD 1,119,315 million in 2005-06. Single stock futures contributed 43.5% of total turnover in the 2006-07 fiscal year, followed by index futures (27.3%), calls on index option (5.4%) and puts on index option (5.3%). In the futures and options segments of the Indian exchanges, the number of contracts and turnover has substantially increased during the 2006-07 fiscal year. The National Stock Exchange was ranked second in the world in terms of the number of transactions conducted, behind only the New York Stock Exchange (NYSE), and third largest in the world with respect to exchange turnover, just behind the NYSE and NASDAQ.

The size of the construction industry in India is over USD 28 billion which accounts for more than 6% of the GDP. This industry is the largest employer in the country – almost 32 million people. The sector is riding on a high growth wave powered by the large spends on the on going infrastructure programs – evidenced all over the country in the form of new highways, dams, power plants and pipelines. The sectors contributing to the high growth rates are power, transport, petroleum and urban infrastructure. According to Indian Prime Minister Dr. Manmohan Singh, addressing the Finance Ministers of ASEAN countries, at the Indo ASEAN Summit at New Delhi, in August 2007, India needs USD 150 billion at the rate of USD 15 billion per annum for next 10 years. Out of these projections, India is getting foreign direct investment (“FDI”) at the rate of USD 5 billion per annum. More than 50% of the FDI’s will be utilized for infrastructure, telecom, and power among others.

As relates to roads, the Golden Quadrilateral Highway is progressing well with an extent of approximately 4,500 miles, to be followed with the north-south corridor of 13,300 miles. Besides this, the Government is also planning to create East and West Coast corridors. The Nodal Government of India Highway Agencies – NHAI, NTPC, NHPC, and PGCL – have ambitious plans for the planning periods. In addition, the value of overseas projects, under execution by Indian Companies, is conservatively estimated to be around USD 4,176 million covering major markets in Malaysia, Middle East, and East Africa. The industry is characterized by a large number of players – a trend mirrored even in larger and mature markets such as the US and Japan. However, no single company controls a large share of the overall market, thus the market is very large and fragmented. The infrastructure budget of the Government of India is given below:

The Infrastructure Budget of the Government for the period FY 2002 -2007 is:

Sector	FY2001-04 USD millions	FY2004-07 USD millions
Roads	\$ 7,656.61	\$ 14,617.16
Power	9,280.74	19,721.57
Oil and Gas	8,816.70	15,313.22
Ports/Airports/Shipping	2,088.16	3,712.29
Railways	7,424.59	11,136.89
Telecom	15,313.22	16,937.35
Total	\$ 50,580.02	\$ 81,438.48

The outlay for the Central Sector Roads alone is USD 12,642.69 millions.

The current road projects commissioned in India are:

Funding Agency/Source	No. of Projects	Total Value (USD in Millions)
NHAI	50	\$ 2,218.46
World Bank	15	1,043.20
Asian Development Bank	8	290.14

QUALITATIVE AND QUANTITATIVE RISKS AND CHALLENGES.

The industry is highly governed by the political environment and economic policies in the country. Any change in policies may slow down the growth of the industry.

Foreign Competition – The government of India has opened the sector to bids by foreign companies. In the future we may face increased competition from international companies.

Domestic Competition - The Company faces two types of competition in the domestic sector:

- Competition from the local companies that have a small regional footprint - These types of companies typically compete for small local contracts.
- Marketing /Business Development - Construction contracts are offered by the Government sector including the Central and the State Governments. Funds for these are allocated through their budgets as well as through international and domestic financial institutions such as the World Bank, Asian Development Bank, Japan Bank for International Co-operation, Housing & Urban Development Corporation, National Bank for Agricultural & Rural Development. In view of the nature of our market, the major sources of information of ensuing tenders for construction contracts are newspapers and government gazettes. In addition, construction contracts are also offered by the private sector. While there is increased transparency in the bid process, a change in the methodology of bidding and award of contracts could adversely affect the Company.

For a more detailed discussion, see “Risk Factors.”

Client Risk

The Company focuses on projects undertaken by government and government enterprises. Our business therefore requires that we continue to maintain a pre-qualified status with key clients and that we are not disqualified from future projects. The loss of a significant client, or a number of significant clients for any reason, including as a result of disqualification or dispute, may have an adverse effect on Company.

Vendor Risk

The Company is significantly affected by the availability, cost and quality of raw materials including fuel. The prices and supply of raw materials and fuel depend on factors beyond the control of the Company, including general economic conditions, competition, production levels, transportation costs and import duties. The Company typically builds contingencies into the contracts. However, drastic changes in the global markets for raw material and fuel could affect our vendors creating a disruption in delivery schedules that could affect our ability to execute contracts in a timely manner.

Compliance, Legal and Operational Risks

Sricon operates under regulatory and legal obligations imposed by local governments and securities regulators. Those obligations relate, among other things, to the company’s financial reporting, trading activities, capital requirements and the supervision of its employees. Failure to fulfill legal or regulatory obligations can lead to fines, censure or disqualification of management and/or staff and other measures that could have negative consequences for Sricon’s activities and financial performance.

Table of Contents

Interest Rate Risk

The industry is one in which leverage plays a large role. In the past Sricon has borrowed heavily and sometimes at high interest rates because of inadequate equity capitalization. With the sale of Sricon shares to IGC, it is projected that Sricon will have a much stronger balance sheet and will be able to borrow at lower interest rates. However, as the Indian economy grows and if interest rates in general raise, Sricon's overall profitability will be impacted.

Exchange Rate Sensitivity

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in conformity with U.S. GAAP requires Sricon management to make estimates and judgments that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Sricon has based its estimates and judgments on historical experience and other assumptions that it finds reasonable under the circumstances. Actual results may differ from such estimates under different conditions and could have a material impact on the financial statements, and it is possible that such changes could occur in the near term.

Significant estimates and assumptions are used when accounting for certain items, such as but not limited to, revenue recognition, the useful lives and the evaluation of impairment of property and equipment, income taxes, contingencies and the provision for impairment of receivables and advances. Actual results could differ from these estimates.

Accounting Developments and their impact on Sricon.

In September 2006, the FASB issued FAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Benefit Plans" (FAS 158). This Statement requires companies to recognize the over-funded or under-funded status of a defined benefit postretirement plan as an asset or liability in its statement of financial position. The Company has applied FAS 158, which has no impact on the financial statements.

In May 2005, the FASB issued FAS No. 154, "Accounting Changes and Error Corrections—a replacement of APB Opinion No. 20 and FASB Statement No. 3" (FAS 154). This Statement replaces APB Opinion No. 20, "Accounting Changes," and FASB Statement No. 3, "Reporting Accounting Changes in Interim Financial Statements." This Statement requires retrospective application to prior periods' financial statements for changes in accounting principle, unless it is impractical to determine either the period-specific effects or the cumulative effect of the change. FAS 154 also requires that a change in depreciation, amortization, or depletion method for long, non-financial assets be accounted for as a change in accounting estimate effected by a change in accounting principle. The Company adopted FAS 154 for accounting changes and corrections of errors made after the adoption date. The adoption of the provisions of FAS 154 did not have an impact on the Company's financial statements.

In September 2006, the Securities and Exchange Commission ('SEC') staff issued Staff Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements" ('SAB 108'). SAB 108 provides guidance on how prior year misstatements should be taken into consideration when quantifying misstatements in current year financial statements for purposes of determining whether the current year's financial statements are materially misstated. The provisions of SAB 108 are required to be applied by registrants in their annual financial statements covering fiscal years ending on or before November 15, 2007. The adoption of the provisions of SAB 108 did not have an impact on the Company's financial statements.

In June 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109" (FIN 48). FIN 48 clarifies the accounting and reporting for uncertainties in income tax law. This Interpretation prescribes a comprehensive model for the financial statement recognition,

measurement, presentation and disclosure of uncertain tax positions taken or expected to be taken in income tax returns. The provisions of FIN 48 will be applied beginning in the first quarter of 2008 (i.e. from April 1, 2008), with the cumulative effect of the change in accounting principle recorded as an adjustment to retained earnings. The Company is currently assessing the impact of the adoption of this Interpretation on its financial statements.

OVERVIEW

TBL was incorporated in 1982. The various construction activities that the Company undertakes are:

- Roads and bridges

OPPORTUNITIES AND INDUSTRY OVERVIEW

The business of TBL is substantially the same as that of Sricon. Accordingly, the industry outlook overview and opportunities are substantially the same as that presented for Sricon. Please see “Management’s Discussion and Analysis of Financial Conditions and Results of Operations of Sricon Infrastructure Private Limited – Opportunities and Industry Overview”.

QUALITATIVE AND QUANTITATIVE RISKS AND CHALLENGES.

The competition and risks to the business are substantially the same as those outlined for Sricon. Please see “Management’s Discussion and Analysis of Financial Conditions and Results of Operations of Sricon Infrastructure Private Limited.-Qualitative and Quantitative Risks and Challenges”.

Credit Risk

TBL has been restructuring its debt with the banks. In most cases it has managed to obtain concessions on the amount of loans repaid by TBL. These concessions mostly correspond to the amount of unpaid interest. Management expects, based on common practice in India, banks to tighten its credit limits to TBL for the next one to three years. While there is no guarantee, it is expected that the change of ownership brought on by IGC’s acquisition of TBL, the recapitalization of TBL’s balance sheet and IGC own balance sheet could meet the higher credit standards imposed by the banks in India. If the banks in India stop lending to TBL, the rate at which TBL can grow will be curtailed unless IGC intervenes with funding and stronger credit guarantees.

Client Risk

The Company focuses on projects undertaken by government and government enterprises. Our business therefore requires that we continue to maintain a pre-qualified status with key clients and that we are not disqualified from future projects. The loss of a significant client, or a number of significant clients for any reason, including as a result of disqualification or dispute, may have an adverse effect on Company.

Vendor Risk

The Company is significantly affected by the availability, cost and quality of raw materials including fuel. The prices and supply of raw materials and fuel depend on factors beyond the control of the Company, including general economic conditions, competition, production levels, transportation costs and import duties. The Company typically builds contingencies into the contracts. However, drastic changes in the global markets for raw material and fuel could affect our vendors creating a disruption in delivery schedules that could affect our ability to execute contracts in a timely manner.

Compliance, Legal and Operational Risks

TBL operates under regulatory and legal obligations imposed by local governments and securities regulators. Those obligations relate, among other things, to the company’s financial reporting, trading activities, capital requirements and the supervision of its employees. Failure to fulfill legal or regulatory obligations can lead to fines, censure or disqualification of management and/or staff and other measures that could have negative consequences for TBL’s activities and financial performance.

Recent Accounting Developments and their impact on TBL

In May 2005, the FASB issued FAS No. 154, "Accounting Changes and Error Corrections—a replacement of APB Opinion No. 20 and FASB Statement No. 3" (FAS 154). This Statement replaces APB Opinion No. 20, "Accounting Changes," and FASB Statement No. 3, "Reporting Accounting Changes in Interim Financial Statements." This Statement requires retrospective application to prior periods' financial statements for changes in accounting principle, unless it is impractical to determine either the period-specific effects or the cumulative effect of the change. FAS 154 also requires that a change in depreciation, amortization, or depletion method for long, non-financial assets be accounted for as a change in accounting estimate effected by a change in accounting principle. The Company adopted FAS 154 for accounting changes and corrections of errors made after the adoption date. The adoption of the provisions of FAS 154 did not have an impact on the Company's financial statements.

In September 2006, the Securities and Exchange Commission ("SEC") staff issued Staff Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements" ("SAB 108"). SAB 108 provides guidance on how prior year misstatements should be taken into consideration when quantifying misstatements in current year financial statements for purposes of determining whether the current year's financial statements are materially misstated. The provisions of SAB 108 are required to be applied by registrants in their annual financial statements covering fiscal years ending on or before November 15, 2007. The adoption of the provisions of SAB 108 did not have an impact on the Company's financial statements.

In June 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109" (FIN 48). FIN 48 clarifies the accounting and reporting for uncertainties in income tax law. This Interpretation prescribes a comprehensive model for the financial statement recognition, measurement, presentation and disclosure of uncertain tax positions taken or expected to be taken in income tax returns. The provisions of FIN 48 will be applied beginning in the first quarter of 2008 (i.e. from April 1, 2008), with the cumulative effect of the change in accounting principle recorded as an adjustment to retained earnings. The Company is currently assessing the impact of the adoption of this Interpretation on its financial statements.

We are providing the following information to aid you in your analysis of the financial aspects of the acquisition.

We derived the pro forma information for the six months ended September 30, 2007 from the condensed unaudited condensed financial statements of Sricon for the six months ended September 30, 2007, the condensed unaudited financial statements of TBL for the six months ended September 30, 2007 and from the unaudited condensed financial statements of IGC for the six months ended September 30, 2007.

We derived the pro forma information for the fiscal year ended March 31, 2007 from the audited financial statements of Sricon, TBL and IGC for the fiscal year ended March 31, 2007.

This information should be read together with IGC's audited and unaudited financial statements and related notes, the Sricon audited and unaudited financial statements and related notes, the TBL audited and unaudited financial statements and related notes, "Management's Discussion and Analysis of Financial Condition and Results of Operations" of each of Sricon, TBL and IGC and other financial information included elsewhere in this proxy statement.

The unaudited pro forma condensed information is for illustrative purposes only. The financial results may have been different had the companies always been combined. You should not rely on the unaudited pro forma condensed financial information as being indicative of the historical results that would have been achieved had the companies always been combined or the future results that the combined company will experience. IGC, Sricon and TBL have not had any historical relationships prior to the Acquisition. Accordingly, no pro forma adjustments were required to eliminate activities among the companies.

In the proposed acquisition of Sricon, IGC intends to acquire 4,041,676 newly-issued equity shares directly from Sricon and 351,840 equity shares from the promoters so that at the conclusion of the transactions contemplated by the Sricon Subscription Agreement, IGC will own approximately 63% of the outstanding equity shares of Sricon in exchange for consideration consisting of: (i) INR 120,000,000 (approximately \$3,000,000 at an exchange rate of INR 40 per USD) in cash at closing for the Sale Shares, representing a price per share of INR 341.06 (approximately \$8.53 per share at an exchange rate of INR 40 per USD), (ii) INR 1,030,000,000 (approximately \$25,750,000 at an exchange rate of INR 40 per USD) in cash at closing for the New Sricon Shares, representing a price per share of INR 254.84 (approximately \$6.37 at an exchange rate of INR 40 per USD).

In the proposed acquisition of TBL, IGC intends to acquire 7,150,000 newly-issued equity shares and 12,500,000 newly-issued 6% compulsorily convertible preference shares (CPS), which may be converted to 2,100,000 shares of common stock, directly from TBL, and 5,000,000 convertible preference shares of TBL (the "TBL Preference Shares") from Odeon so that at the conclusion of the transactions contemplated by the TBL Subscription Agreement, IGC will own, assuming both convertibles are converted, approximately 77% of the outstanding equity shares of TBL on a fully-diluted basis for consideration consisting of: (i) INR 275,000,000 (approximately \$6,875,000 at an exchange rate of INR 40 per USD) in cash at closing for the 7,150,000 new equity shares, representing a price per share of INR 38.46 (approximately \$0.96 at an exchange rate of INR 40 per USD), (ii) INR 125,000,000 (approximately \$3,125,000 at an exchange rate of INR 40 per USD) in cash at closing for the CPS, representing a price per share of INR 10.00

(approximately \$0.25 at an exchange rate of INR 40 per USD) and (iii) \$2,000,000 in cash at closing for the TBL convertible preference shares acquired from Odeon, representing a price per share of \$0.40.

The Acquisition will be accounted for as a business combination with IGC as the accounting acquirer. The determination of IGC as the accounting acquirer has been made based on an evaluation of the relevant factors and circumstances of the Acquisition, including among other factors that IGC stockholders will own a majority stake of the acquired companies upon consummation of the Acquisition, and that certain members of IGC's board of directors will serve on the board of directors of the acquired companies. Under the purchase method of accounting, the assets and liabilities of Sricon and TBL acquired by IGC will be recorded as of the acquisition date at their respective fair values, and added to those of IGC.

The purchase price for the respective acquisitions will be determined based on the cash consideration given in exchange for the issued and outstanding shares of Sricon and TBL. The allocation of the purchase price including the evaluation and computation of deferred taxes, if any, resulting from the Acquisition reflected in the unaudited pro forma condensed financial statements is preliminary and subject to change based on finalization of IGC's valuation of the acquired assets and liabilities of Sricon and TBL. The pro forma information presented, for the purchase price allocation, is based on preliminary estimates of the fair values of assets acquired and liabilities assumed in connection with the Acquisition. These preliminary estimates are based on available information and certain assumptions we consider reasonable and may be revised as additional information becomes available. These preliminary valuation estimates were derived by management and are reflected in the fair values in these unaudited pro forma condensed financial statements. The final purchase price allocation for the Acquisition will be dependent upon the finalization of asset and liability valuations, which may depend in part on prevailing market rates and conditions. A final determination of these fair values will include assistance provided by an independent appraiser, which will be completed subsequent to the consummation of the Acquisition. These final valuations will be based on the actual net tangible and intangible assets that existed as of the closing date of the Acquisition. Any final adjustments may change the allocations of purchase price, which could affect the fair value assigned to the assets acquired and liabilities assumed and could result in a material change to the unaudited pro forma condensed financial statements, including the amount recorded in respect of goodwill.

In accordance with Statement of Financial Accounting Standards, or SFAS, No. 141 “Business Combination”, under the purchase method of accounting, the total estimated purchase price for each Sricon and TBL has been allocated to Sricon’s and TBL’s net tangible and intangible assets based on their estimated fair values as of the date of the consummation of the purchase. The estimated purchase price included on the accompanying unaudited pro forma condensed balance sheet is based on the preliminary allocation of purchase price to the estimated fair values of assets acquired and liabilities assumed, and is subject to material changes upon receipt of the final valuation as described in the introduction to these unaudited pro forma condensed financial statements. The preliminary estimate of the purchase price allocation, including recognition of goodwill, is as follows:

	Sricon	TBL	IGC-Power	Total
Current assets	\$ 22,472,976	\$ 9,907,857	\$ -	\$ 32,380,833

Long-term debt, net of current portion	(1,562,001)	(2,974,890)	(22,100,000)	(26,636,891)
Other non-current liabilities	(1,177,118)	(679,540)	-	(1,856,657)
Total	\$ 29,439,973	\$ 12,338,006	\$ 7,096,712	\$ 48,874,691

Goodwill is calculated as the difference between tangible and intangible net assets (liabilities) acquired and the estimated purchase price. In accordance with Statement of Financial Accounting Standards No. 142, “Goodwill and Other Intangible Assets,” if the management of IGC determines that the value of goodwill or intangible assets with indefinite lives has become impaired, IGC will incur an accounting charge for the amount of impairment during the fiscal quarter in which the determination is made.

(iii) Reflects the elimination of deferred acquisition costs as of September 30, 2007

(iv) Reflects the elimination of each of Sricon’s, TBL’s, and IGC historical capital stock amounts, paid-in capital, treasury stock, accumulated deficits and other comprehensive income and the resulting adjustment to minority interest. Minority interest is generated as IGC is purchasing 63% and 77% of Sricon and TBL respectively.

(b) This amount reflects the adjustment to the provision (benefit) for income taxes as a result of net operating losses generated for Federal and State income tax purposes on a combined basis.

(c) This amount reflects the cash paid out of the trust towards the purchase of the wind energy farm. In addition to this there is a deposit of \$250,000, which will be transferred from CWEL for a total of \$6.4 million, corresponding to the amount shown in Note b for IGC-Power. It is expected that we will obtain bank financing of around \$22.10 million. The interest on the debt will be capitalized during the construction period, as they are pre-operational expenses. In addition we have included acquisition related expenses of \$696,712.

(d) Reflects the repayment of notes payable to the founding stockholders inclusive of accrued interest.

(e) Reflects the repayment of notes payable to Oliveira Capital, LLC inclusive of accrued interest.

Board of Directors

Our board of directors is divided into three classes (Class A, Class B and Class C) with only one class of directors being elected in each year and each class serving a three-year term. The term of office of the Class A directors, consisting of Mr. Nathani and Mr. Shenoy, will expire at our first annual meeting of stockholders. They are being nominated for election at this special meeting as provided in the Nomination Proposal. The term of office of the Class B directors, consisting of Mr. Prins and Dr. Krishna, will expire at the second annual meeting of stockholders. The term of office of the Class C director, consisting of Mr. Mukunda, will expire at the third annual meeting of stockholders. These individuals have played a key role in identifying and evaluating prospective acquisition candidates, selecting the target businesses, and structuring, negotiating and consummating the acquisition. The American Stock Exchange, where we are listed, has rules mandating that the majority of the board be independent. Our board of directors will consult with counsel to ensure that the boards of directors' determinations are

consistent with those rules and all relevant securities laws and regulations regarding the independence of directors. The Amex listing standards define an “independent director” generally as a person, other than an officer of a company, who does not have a relationship with the company that would interfere with the director’s exercise of independent judgment. Consistent with these standards, the board of directors has determined that Messrs. Krishna, Shenoy and Nathani are independent directors.

Table of Contents

Committee of the Board of Directors

Our Board of Directors has established an Audit Committee currently composed of two independent directors who report to the Board of Directors. Messrs. Krishna and Shenoy, each of whom is an independent director under the American Stock Exchange's listing standards, serve as members of our Audit Committee. In addition, we have determined that Mr. Shenoy is an "audit committee financial expert" as that term is defined under Item 407 of Regulation S-B of the Securities Exchange Act of 1934, as amended. The Audit Committee is responsible for meeting with our independent accountants regarding, among other issues, audits and adequacy of our accounting and control systems. We intend to locate and appoint at least one additional independent director to our Audit Committee to increase the size of the Audit Committee to three members.

The Audit Committee will monitor our compliance on a quarterly basis with the terms of our initial public offering. If any noncompliance is identified, then the Audit Committee is charged with the responsibility to take immediately all action necessary to rectify such noncompliance or otherwise cause compliance with our initial public offering. The Board currently does not have a compensation committee or nominating and corporate governance committee.

Audit Committee Financial Expert

The Audit Committee will at all times be composed exclusively of "independent directors" who are "financially literate" as defined under the American Stock Exchange listing standards. The American Stock Exchange listing standards define "financially literate" as being able to read and understand fundamental financial statements, including a company's balance sheet, income statement and cash flow statement.

In addition, we must certify to the American Stock Exchange that the Audit Committee has, and will continue to have, at least one member who has past employment experience in finance or accounting, requisite professional certification in accounting, or other comparable experience or background that results in the individual's financial sophistication. The Board of Directors has determined that Mr. Shenoy satisfies the American Stock Exchange's definition of financial sophistication and qualifies as an "audit committee financial expert," as defined under rules and regulations of the Securities and Exchange Commission.

Compensation Committee

Upon the completion of the Acquisition, we intend to establish a compensation committee composed entirely of independent directors. The compensation committee's purpose will be to review and approve compensation paid to our officers and directors and to administer the Stock Plan, if approved by our stockholders.

Nominating and Corporate Governance Committee

Upon the completion of the Acquisition, we intend to establish a nominating and corporate governance committee. The primary purpose of the nominating and corporate governance committee will be to identify individuals qualified to become directors, recommend to the board of directors the candidates for election by stockholders or appointment by the board of directors to fill a vacancy, recommend to the board of directors the composition and chairs of board of directors committees, develop and recommend to the board of directors guidelines for effective corporate governance, and lead an annual review of the performance of the board of directors and each of its committees.

We do not have any formal process for stockholders to nominate a director for election to our board of directors. Currently, the entire board of directors decides on nominees, on the recommendation of one or more members of the board of directors. Any stockholder wishing to recommend an individual to be considered by our board of directors as a nominee for election as a director should send a signed letter of recommendation to the following address: India Globalization Capital, Inc. c/o Corporate Secretary, 4336 Montgomery Avenue, Bethesda, MD 20817.

Recommendation letters must state the reasons for the recommendation and contain the full name and address of each proposed nominee as well as a brief biographical history setting forth past and present directorships, employments, occupations and civic activities. Any such recommendation should be accompanied by a written statement from the proposed nominee consenting to be named as a candidate and, if nominated and elected, consenting to serve as a director. We may also require a candidate to furnish additional information regarding his or her eligibility and qualifications. The board of directors does not intend to evaluate candidates proposed by stockholders differently than it evaluates candidates that are suggested by our board members, execution officers or other sources.

We have filed the code of conduct and ethics as Exhibit 99.1 to our Registration Statement on Form S-1/A, filed with the Securities and Exchange Commission on March 2, 2006.

Board Meetings

During the fiscal year ended March 31, 2007, our board of directors held three meetings. Although we do not have any formal policy regarding director attendance at our annual meetings, we will attempt to schedule our annual meetings so that all of our directors can attend. During the fiscal year ended March 31, 2007, all of our directors attended 100% of the meetings of the board of directors.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our directors, executive officers and persons who beneficially own more than 10% of our common stock to file reports of their ownership of shares with the Securities and Exchange Commission). Such executive officers, directors and stockholders are required by SEC regulation to furnish us with copies of all Section 16(a) reports they file. Based solely upon review of the copies of such reports received by us, our senior management believes that all reports required to be filed under Section 16(a) for the fiscal year ended March 31, 2007 were filed in a timely manner.

Director Compensation

Our directors do not currently receive any cash compensation for their service as members of the board of directors. As described under the heading "Certain Relationships and Related Transactions," below, we pay certain fees to Integrated Global Networks, LLC, an affiliate of Mr. Mukunda.

Upon completion of the Acquisition, the current and newly elected non-employee directors will receive varying levels of compensation for their services as directors based on their eligibility to be members of our audit and compensation committees. We anticipate determining director compensation in accordance with industry practice and standards

Executive Compensation

Other than payments made to Integrated Global Networks, LLC, an affiliate of Mr. Mukunda, our Chief Executive Officer and President, and SJS Associates, an affiliate of Mr. Selvaraj, our Treasurer, no executive officer or any affiliate of an executive officer received any cash compensation for services rendered during the fiscal year ended March 31, 2007. See "-Conflicts of Interest."

As of our fiscal year ended March 31, 2007, other than the \$4,000 per month fee paid to Integrated Global Networks, LLC and the \$5,000 per month fee paid to SJS Associates, no compensation of any kind, including finder's and consulting fees, was paid to any of our existing stockholders or affiliates, including our officers, directors and special advisors, or any of their respective affiliates, for services rendered prior to or in connection with a business combination. However, these individuals will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. There is no limit on the amount of these out-of-pocket expenses and there will be no review of the reasonableness of the expenses by anyone other than our board of directors, which includes persons who may seek reimbursement, or a court of competent jurisdiction if such reimbursement is challenged. If none of our directors are deemed "independent," we will not have the benefit of independent directors examining the propriety of expenses

incurred on our behalf and subject to reimbursement.

Prior to the formation of a compensation committee, a majority of independent directors shall determine, or recommend to the full Board for determination, the compensation to be paid to our executive officers.

Upon the completion of the Acquisition, we expect to enter into an employment agreement with Ram Mukunda, terms of which have not been decided.

The holders of the majority of these shares will be entitled to make up to two demands that we register these shares pursuant to an agreement to be signed prior to or on the date of this prospectus. The holders of the majority of these shares can elect to exercise these registration rights at any time after the date on which the lock-up period expires. In addition, these stockholders have certain “piggy-back” registration rights on registration statements filed subsequent to such date. We will bear the expenses incurred in connection with the filing of any such registration statements.

Mr. Mukunda and certain of our other officers and directors collectively purchased in the aggregate 170,000 units in a private placement immediately prior to the IPO of IGC’s units at a price equal to the offering price of the IPO, \$6.00 per unit.

Dr. Krishna, our Chairman of the Board, has entered into a Note Purchase Agreement with us pursuant to which we have agreed to issue him 446,226.42 shares of our common stock within 10 days of the consummation of the Acquisition as partial consideration for a \$4,300,000 loan made by Dr. Krishna to the Company. These shares shall be entitled to the registration rights described above.

The stockholders referenced above have agreed to waive their respective rights to participate in any liquidation distribution occurring upon our failure to consummate a business combination, but only with respect to those shares of common stock acquired by them prior to the IPO, and the 170,000 shares included in the units they have purchased in the private placement, therefore, they will participate in any liquidation distribution with respect to any shares of common stock acquired in connection with or following the IPO. In addition, in connection with the vote required for our initial business combination, all of our pre IPO stockholders, including all of our officers, directors and special advisors, have agreed to vote all of the shares of common stock owned by them, including those acquired in the private placement or during or after our IPO, in accordance with the majority of the shares of common stock voted by the public stockholders.

Conflicts of Interest

Investors should be aware of the following potential conflicts of interest:

IGN, LLC, an affiliate of Mr. Mukunda, had agreed that, commencing on the effective date of the IPO through the acquisition of a target business, it will make available to us office space and certain general and administrative services, as we may require from time to time. We have agreed to pay IGN, LLC \$4,000 per month for these services. Mr. Mukunda is the Chief Executive Officer of IGN, LLC. As a result of this affiliation, Mr. Mukunda will benefit from the transaction to the extent of his interest in IGN, LLC. However, this arrangement is solely for our benefit and is not intended to provide Mr. Mukunda with compensation in lieu of a salary. We believe, based on rents and fees for similar services in the Washington, DC metropolitan area, that the fee charged by IGN, LLC is at least as favorable as we could have obtained from an unaffiliated third party. However, as our directors at the time we entered into this agreement may not be deemed “independent,” we did not have the benefit of disinterested directors approving this

transaction. At the consummation of the Acquisition, IGC will no longer pay IGN.

On or around November 27, 2006, we engaged SJS Associates an affiliate of Mr. Selvaraj, which provides the services of Mr. John Selvaraj as our Treasurer. We have agreed to pay SJS Associates \$5,000 per month for these services. Mr. Selvaraj is the Chief Executive Officer of SJS Associates. As a result of this affiliation, Mr. Selvaraj will benefit from the transaction to the extent of his interest in SJS Associates.

In connection with the vote required for any business combination, all of our pre-IPO stockholders (which includes all of our officers, directors and special advisors other than John Selvaraj) have agreed to vote all of their respective shares of common stock, including shares they may acquire in the private placement or during or after the IPO, in accordance with the vote of the public stockholders owning a majority of the shares of our common stock sold in the IPO. Accordingly, they will not be entitled to exercise the conversion rights available to public stockholders who vote against a business combination. In addition, they have agreed to waive their respective rights to participate in any liquidation distribution, but only with respect to those shares of common stock acquired by them prior to the IPO and the 170,000 shares included in the units they have purchased in the private placement.

Other than the reimbursable out-of-pocket expenses payable to our officers, directors and our special advisor, no compensation or fees of any kind, including finder's and consulting fees, will be paid to any of our pre-IPO stockholders, officers, directors or special advisors, other than under the general and administrative services arrangement with IGN, LLC and the agreement with SJS Associates, to any of their respective affiliates for services rendered to us prior to or with respect to the business combination.

Our officers, directors and special advisors, collectively, will beneficially own 15.2% of the issued and outstanding shares of our common stock, not including the shares issued to Dr. Krishna pursuant to the Note Purchase Agreement. All of the shares of our common stock outstanding prior to the IPO have been subject to lock-up agreements between us, the holders of the shares and Ferris, Baker Watts restricting the sale of such shares until six months after a business combination is successfully completed. During the lock-up period, the holders of the shares will not be able to sell or transfer their shares of common stock except in certain limited circumstances such as to their spouses and children or trusts established for their benefit, but will retain all other rights as our stockholders, including without limitation, the right to vote their shares of common stock. If we are unable to effect a business combination and liquidate, none of our pre-IPO stockholders will receive any portion of the liquidation proceeds with respect to common stock owned by them prior to the consummation of the IPO.

Our officers and directors have purchased an aggregate of 170,000 units in a private placement that occurred immediately prior to the IPO. The shares comprising such units may not be sold, assigned or transferred until we consummate a business combination. Such individuals have further agreed to waive their right to any liquidation distributions with respect to such shares in the event we fail to consummate a business combination. These shares are subject to a lock-up on transferability until we complete a business combination. Our pre-IPO stockholders have agreed to waive their respective rights to participate in any liquidation distribution occurring upon our failure to consummate a business combination, but only with respect to those shares of common stock acquired by them prior to the IPO; they will participate in any liquidation distribution with respect to any shares of common stock acquired in connection with or following the IPO.

If we consummate the Acquisition, Dr. Krishna, our Chairman, will receive 446,226.42 shares of our common stock within 10 days of the consummation of the Acquisition. These shares, if issued, will be subject to a lock-up agreements between us and Dr. Krishna restricting the sale of such shares until nine months after such shares have been issued (which would effectively be nine months and ten days after a business combination is successfully completed). During the lock-up period, Dr. Krishna will not be able to sell or transfer these shares of common stock except in certain limited circumstances such as to his spouse and children or trusts established for their benefit, but will retain all other rights as our stockholder, including without limitation, the right to vote his shares of common stock. If we are unable to effect a business combination and liquidate, Dr. Krishna will not receive these shares.

In addition, in connection with the vote required for our initial business combination, all of our existing pre-IPO stockholders, including John Cherin, all of our officers, directors and our special advisors, have agreed to vote all of the shares of common stock owned by them, including shares they acquired in the private placement or during or after the IPO, in accordance with the majority of the shares of common stock voted by the public

stockholders. Accordingly, they will not be entitled to exercise the conversion rights available to public stockholders who vote against a business combination.

Messrs. Mukunda and Krishna may be deemed to be our “parent,” “founder” and “promoter,” as these terms are defined under the Federal securities laws.

NOTES TO CONDENSED FINANCIAL STATEMENTS

NOTE A — BASIS OF PRESENTATION

The financial statements at September 30, 2007 and for the three and six months ended September 30, 2007 and 2006, and the period from April 29, 2005 (date of inception) to September 30, 2007 are un-audited and include the accounts of India Globalization Capital, Inc. (a corporation in the development stage) (the “Company”, or “IGC”).

In the opinion of management, all adjustments (consisting of normal accruals) have been made that are necessary to present fairly the financial position of the Company as of September 30, 2007 and the results of its operation and cash flows for the three and six months ended September 30, 2007 and 2006 and the period from April 29, 2005 (date of inception) to September 30, 2007. Operating results for the interim periods presented are not necessarily indicative of the results to be expected for a full year.

The statements and related notes have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission applicable to interim financial statements. Accordingly, certain information and footnotes disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been omitted pursuant to such rules and regulations.

These financial statements should be read in conjunction with the financial statements that were included in the Company’s Annual Report on Form 10-KSB for the year ended March 31, 2007. The March 31, 2007 balance sheet and the statement of stockholders’ equity through March 31, 2007 have been derived from these audited financial statements.

The Company adopted FASB Interpretation No. 48, “Accounting for Uncertainty in Income Taxes,” an interpretation of FASB Statement No. 109 (“FIN 48”) on April 1, 2007. FIN 48 clarifies the criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. A tax benefit from an uncertain position may be recognized only if it is “more likely than not” that the position is sustainable based on its technical merits. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. In May 2007, the FASB issued Staff Position, FIN 48-1, “Definition of Settlement in FASB Interpretation No. 48” (FSP FIN 48-1) which provides guidance on how an enterprise should determine whether a tax position is effectively settled for the purpose of recognizing previously unrecognized tax benefits. FSP FIN 48-1 was effective with the initial adoption of FIN 48. The adoption of FIN 48 or FSP FIN 48-1 did not have a material effect on the Company’s financial condition or results of operations.

Management does not believe that any other recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the accompanying financial statements.

NOTE B — ORGANIZATION AND BUSINESS OPERATIONS

The Company was incorporated in Maryland on April 29, 2005. The Company was formed to serve as a vehicle for the acquisition of an operating business in an unspecified industry located in India through a merger, capital stock exchange, asset acquisition or other similar business combination. The Company has neither engaged in any operations nor generated significant revenue to date. The Company is considered to be in the development stage and is subject to the risks associated with activities of development stage companies.

The registration statement for the Company's initial public offering (the "Public Offering") (as described in Note C) was declared effective March 2, 2006. The Company consummated the Public Offering including the over allotment option on March 8, 2006, and preceding the consummation of the Public Offering on March 2, 2006 certain of the officers and directors of the Company purchased an aggregate of 170,000 units (the "Units") from the Company in a private placement (the "Private Placement"). The Units sold in the Private Placement were identical to the 11,304,500 Units sold in the Public Offering, but the purchasers in the Private Placement have waived their rights to conversion and receipt of the distribution on liquidation in the event the Company does not complete a business combination (as described below). The Company received net proceeds from the Private Placement and the Public Offering of approximately \$62,815,000 (Note C).

F-6

Index to Financial Statements

The Company's management has broad discretion with respect to the specific application of the net proceeds of the Private Placement and the Public Offering (together, the "Offering") although substantially all of the net proceeds of the Offering are intended to be generally applied toward acquiring one or more operating businesses in an unspecified industry located in India ("Business Combination"), which may not constitute a business combination for accounting purposes. Furthermore, there is no assurance that the Company will be able to effect a Business Combination. Upon the closing of the Public Offering, approximately ninety-seven percent (97%) of the gross proceeds of the Public Offering are being held in a trust account ("Trust Fund") and invested in government securities until the earlier of (i) the consummation of its first Business Combination or (ii) the distribution of the Trust Fund as described below. The remaining proceeds, along with interest earned on the Trust Fund, may be used to pay for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses. The Company, after signing a definitive agreement for the acquisition of a target business, will submit such transaction for stockholder approval. In the event that holders of 50% or more of the shares of common stock issued in the Public Offering vote against the Business Combination or the holders of 20% or more of the shares of common stock issued in the Public Offering elect to exercise their conversion rights, the Business Combination will not be consummated. However, the persons who were stockholders prior to the Public Offering (the "Founding Stockholders") will not participate in any liquidation distribution with respect to any shares of the common stock acquired in connection with or following the Public Offering (Note C).

Pursuant to the terms of our Public Offering, in the event that the Company does not consummate a Business Combination within 18 months from the date of the consummation of the Public Offering, or 24 months from the consummation of the Public Offering if certain extension criteria have been satisfied (the "Acquisition Period"), the proceeds held in the Trust Fund will be distributed to the Company's public stockholders, excluding the Founding Stockholders to the extent of their initial stock holdings. In the event of such distribution, it is likely that the per share value of the residual assets remaining available for distribution (including Trust Fund assets) will be less than the initial public offering price per share in the Public Offering (assuming no value is attributed to the warrants contained in the Units offered in the Public Offering discussed in Note C). The Company has satisfied the extension criteria and, therefore, the Acquisition Period expires on March 8, 2008. There is no assurance that the Company will be able to successfully effect a Business Combination during this period. This factor raises substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements are prepared assuming the Company will continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

In the event of such distribution, it is likely that the per share value of the residual assets remaining available for distribution (including Trust Fund assets) will be less than the initial public offering price per share in the Public Offering (assuming no value is attributed to the warrants contained in the Units offered in the Public Offering discussed in Note C).

NOTE C — INITIAL PUBLIC OFFERING

On March 8, 2006, the Company sold 11,304,500 Units in the Public Offering. Each Unit consists of one share of the Company's common stock, \$.0001 par value, and two redeemable common stock purchase warrants ("Warrants"). Each Warrant entitles the holder to purchase from the Company one share of common stock at an exercise price of \$5.00 commencing the later of the completion of a Business Combination or one year from the effective date of the Public Offering and expiring five years from the effective date of the Public Offering. The Warrants become redeemable, at a price of \$6.25 per Warrant, only in the event that the last sale price of the common stock is at least \$8.50 per share for any 20 trading-days within a 30-trading day period ending on the third day prior to the date on which notice of redemption is given.

In connection with the Public Offering, the Company paid the underwriters in the Public Offering (collectively, the “Underwriter”) an underwriting discount of approximately 5% of the gross proceeds of the Public Offering (\$3,391,350). In addition, a non-accountable expense allowance of 3% of the gross proceeds of the Public Offering, excluding the over-allotment option, is due to the Underwriter, who has agreed to deposit the non-accountable expense allowance (\$1,769,400) into the Trust Fund until the earlier of the completion of a Business Combination or the liquidation of the Trust Fund. The Underwriter has further agreed to forfeit any rights to or claims against such proceeds unless the Company successfully completes a Business Combination.

The Warrants separated from the Units and began to trade on April 13, 2006. After separation, each Warrant entitles the holder to purchase from the Company one share of common stock at an exercise price of \$5.00 commencing on the later of (a) one year from the effective date of the Public Offering or (b) the earlier of the completion of a Business Combination with a target business or the liquidation of the Trust Fund and expiring five years from the date of the Public Offering. The Company has a right to redeem the Warrants, provided the common stock has traded at a closing price of at least \$8.50 per share for any 20 trading days within a 30 trading day period ending on the third business day prior to the date on which notice of redemption is given. If the Company redeems the Warrants, either the holder will have to exercise the Warrants by purchasing the common stock from the Company for \$5.00 or the Warrants will expire.

Index to Financial Statements

The Underwriter's over-allotment option of 1,474,500 Units was exercised, and the 11,304,500 Units sold at the closing of the Public Offering include the over-allotment.

In connection with the Public Offering, the Company issued an option, for \$100, to the Underwriter to purchase 500,000 Units at an exercise price of \$7.50 per Unit, exercisable the later of March 2, 2007 or the consummation of a Business Combination. The Company has accounted for the fair value of the option, inclusive of the receipt of the \$100 cash payment, as an expense of the Public Offering resulting in a charge directly to stockholders' equity. The Company estimated, using the Black-Scholes method, the fair value of the option granted to the Underwriter as of the date of grant was approximately \$756,200 using the following assumptions: (1) expected volatility of 30.1%, (2) risk-free interest rate of 3.9% and (3) expected life of five years. The estimated volatility was based on a basket of Indian companies that trade in the United States or the United Kingdom. The option may be exercised for cash or on a "cashless" basis, at the holder's option, such that the holder may use the appreciated value of the option (the difference between the exercise prices of the option and the underlying Warrants and the market price of the Units and underlying securities) to exercise the option without the payment of any cash. The Warrants underlying such Units are exercisable at \$6.25 per share.

NOTE D — INVESTMENTS HELD IN TRUST FUND

Investments held in the Trust Fund consist of Treasury Bills and money market funds. The Treasury Bills have been accounted for as trading securities and recorded at their fair market value. The excess of market value over cost is included in interest income in the accompanying statement of operations. Investments held in the Trust Fund as of September 30 and March 31, 2007 include the following:

	September 30, 2007 (Unaudited)	March 31, 2007 (Audited)
Investment held for the benefit of the Company	\$ 63,845,850	\$ 63,845,850
Investment held for the benefit of the Underwriter	1,769,400	1,769,400
Investment earnings (available to fund Company expenses up to a maximum of \$2,150,000, net of taxes)(1)	1,476,440	489,025
	\$ 67,091,690	\$ 66,104,275

- (1) Through March 31, 2007, the Company has transferred approximately \$2,150,000 of investment earnings (the maximum amount permitted pursuant to the terms of the Public Offering) from the Trust Fund into its operating account.

NOTE E — NOTES PAYABLE TO STOCKHOLDERS

The founding stockholders (the "Founders") made three unsecured loans to the Company totaling \$870,000 that came due on March 31, 2007. The notes all bore interest at 4% per annum. On April 6, 2007, \$100,000 of the \$870,000 in loans was repaid. One of the Founders made available a line of credit for \$100,000 by personally guaranteeing the line.

Also on April 6, 2007, the loan of \$720,000 made by one of the Founders was partially repaid. The Company paid the founding stockholder \$500,000 plus accrued interest, cancelled the note for \$720,000 and issued the Founder a new note for \$220,000. The remaining \$50,000 not yet paid will be repaid on the earlier of March 31, 2008 or the consummation of a Business Combination. On May 8, 2007, the same Founder loaned the Company an additional \$275,000. We issued him a new note for \$275,000.

The rights under the two new notes are similar to those set out in the original Founder's notes. The new notes are payable on the earlier of March 31, 2008 or the consummation of a Business Combination. The notes bear interest at 8% per annum. Due to the short-term nature of the notes, the fair value of the notes approximates their carrying amount. Interest expense of approximately \$10,400 and \$18,710 has been included in the statement of operations for the three and six months ended September 30, 2007, respectively and \$9,200 and \$17,500 has been included in the statement of operations for the three and six month periods ended September 30, 2006, respectively, and \$59,910 for the period from inception to September 30, 2007 relating to these notes.

From inception to September 30, 2007, \$45,000 was paid to SJS Associates for Mr. Selvaraj's services.

The Company has agreed to pay Integrated Global Network, LLC ("IGN, LLC"), an affiliate of our Chairman and Chief Executive Officer, Mr. Mukunda, an administrative fee of \$4,000 per month for office space and general and administrative services from the closing of the Public Offering through the date of a Business Combination. From inception to September 30, 2007, approximately \$72,000 was paid to IGN, LLC.

The Company uses the services of Economic Law Practice (ELP), a law firm in India. A member of our Board Directors is a Partner with ELP. Since inception to September 30, 2007, the Company has incurred \$138,815 for legal services provided by ELP.

NOTE G — COMMITMENTS AND CONTINGENCY

In connection with the Public Offering and pursuant to an advisory agreement, the Company has engaged the Underwriter as its investment bankers to provide the Company with assistance in structuring the Business Combination. As compensation for the foregoing services, the Company will pay the Underwriter a cash fee at the closing of a Business Combination equal to 2% of the aggregate consideration paid in such Business Combination, up to a maximum of \$1,500,000, and pay up to \$25,000 of expenses. In addition, a fee of \$90,000 will be paid to Ferris, Baker for facilitating the loan to the Company by Oliveira Capital, LLC, at the closing of a Business Combination.

Pursuant to letter agreements with the Company and the Underwriter, the Founders have waived their rights to participate in any liquidation distribution occurring upon our failure to complete a Business Combination, with respect to those shares of common stock acquired by them prior to the Public Offering and with respect to the shares of common stock included in the 170,000 Units they purchased in the Private Placement.

The Founders will be entitled to registration rights with respect to their shares of common stock acquired prior to the Public Offering and the shares of common stock they purchased in the Private Placement pursuant to an agreement executed on March 3, 2006. The holders of the majority of these shares are entitled to make up to two demands that the Company register these shares at any time after the date on which the lock-up period expires. In addition, the Founders have certain "piggy-back" registration rights on registration statements filed subsequent to the anniversary of the effective date of the Public Offering. The basic and fully diluted shares include shares acquired by the founders prior to the Public Offering and the shares of common stock they purchased in the Private Placement. There is no cash penalty under the registration rights agreement.

The Company, from time to time, may enter into oral and or written understandings with entities (and supporting professionals for conducting due diligence) who potentially could refer or make introductions to potential target entities in various industry sectors in India and to conduct industry analysis or due diligence on potential target companies. Such arrangements typically require nominal amounts of retainer fees and expenses for services and success fees based upon successful completion of acquisitions resulting from such referrals. Fees for services and expenses incurred to date with such entities have been expensed in the accompanying financial statements.

In connection with our proposed acquisition of a majority interest in MBL Infrastructures Limited ("MBL"), an unaffiliated third party has claimed that it is entitled to a finder's fee of approximately five percent of the purchase

price (or, \$1.75 million) for the acquisition if the acquisition is consummated. While we do not admit that the unaffiliated third party is a finder that is entitled to payment, we have expressed a willingness to pay our customary Finder's fee of 0.25%. The parties are attempting to reach agreement on the amount of the fee to be paid if the acquisition is consummated.

In connection with our proposed acquisition of a wind energy farm from Chiranjjevi Wind Energy Limited ("CWEL"), and our proposed acquisition of an interest in TBL (discussed in Note H below), we have agreed to pay a finder's fee of 0.25% of the purchase price to Master Aerospace Consultants (Pvt) Ltd, a consulting firm located in India. The fee is contingent on the consummation of the transaction.

NOTE I – VALUATION OF WARRANTS ISSUED TO OLIVEIRA CAPITAL, LLC

As previously disclosed, the Company sold a promissory note and 425,000 warrants to Oliveira Capital, LLC for \$3,000,000. Each warrant will entitle the holder to purchase from the Company one share of common stock at an exercise price of \$5.00 commencing on the earlier of the completion of a Business Combination with a target business or the distribution of the Trust Fund and expiring five years from the date of issuance. The Company has determined, based upon a Black-Scholes model, that the fair value of the warrants on the date of issuance would approximately be \$ 1,235,000 using an expected life of five years, volatility of 46% and a risk-free interest rate of 4.8%. This amount is accounted for as a discount of the notes payable to Oliveira Capital, LLC. The amortization of this amount for the six months ended September 30, 2007 was \$726,985.

We computed volatility for a period of five years. For approximately the first four years, we used the trading history of two representative companies that are listed on the Indian Stock exchange. For approximately one year, the trading history of the Company's common stock was used. The average volatility of the combined data extending over five years was calculated as 46%. Management believes that this volatility is a reasonable benchmark to use in estimating the value of the warrants.

NOTE J – SUBSEQUENT EVENTS

On October 2, 2007, one of our Founders extended a loan of \$250,000 to the Company on substantially the same terms as those described in Note E. On October 3, 2007, the Company made a refundable deposit of \$170,000 in connection with the TBL Subscription Agreement.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
India Globalization Capital, Inc.

We have audited the accompanying balance sheets of India Globalization Capital, Inc. (a development stage company) as of March 31, 2007 and 2006 and the related statements of operations, stockholders' equity and cash flows for the year ended March 31, 2007, the period from April 29, 2005 (inception) to March 31, 2006 and the cumulative period from April 29, 2005 (inception) through March 31, 2007. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of India Globalization Capital, Inc. as of March 31, 2007 and 2006 and the results of its operations and its cash flows for the year ended March 31, 2007, the period from April 29, 2005 (inception) through March 31, 2006 and the cumulative period from April 29, 2005 (inception) to March 31, 2007 in conformity with United States generally accepted accounting principles.

The accompanying financial statements have been prepared assuming that India Globalization Capital, Inc. will continue as a going concern. As discussed in Note A to the financial statements, the Company may face a mandatory liquidation by March 8, 2008 if a business combination is not consummated, unless certain extension criteria are met, which raises substantial doubt about its ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

INDIA GLOBALIZATION CAPITAL, INC.
(a development stage company)

NOTES TO FINANCIAL STATEMENTS

NOTE A — ORGANIZATION AND BUSINESS OPERATIONS

India Globalization Capital, Inc. (the “Company”) was incorporated in Maryland on April 29, 2005. The Company was formed to serve as a vehicle for the acquisition of an operating business in an unspecified industry located in India through a merger, capital stock exchange, asset acquisition or other similar business combination. The Company has neither engaged in any operations nor generated significant revenue to date. The Company is considered to be in the development stage and is subject to the risks associated with activities of development stage companies.

The registration statement for the Company’s initial public offering (the “Public Offering”) (as described in Note C) was declared effective March 2, 2006. The Company consummated the Public Offering including the over allotment option on March 8, 2006, and preceding the consummation of the Public Offering on March 2, 2006 certain of the officers and directors of the Company purchased an aggregate of 170,000 units from the Company in a private placement (the “Private Placement”). The units sold in the Private Placement were identical to the units sold in the offering, but the purchasers in the Private Placement have waived their rights to conversion and receipt of the distribution on liquidation in the event the Company does not complete a business combination (as described below). The Company received net proceeds from the Private Placement and the Offering of approximately \$62,815,000 (Note C).

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Private Placement and the Public Offering (together, the “Offering”) although substantially all of the net proceeds of the Offering are intended to be generally applied toward acquiring one or more operating businesses in an unspecified industry located in India (“Business Combination”), which may not constitute a business combination for accounting purposes. Furthermore, there is no assurance that the Company will be able to successfully effect a Business Combination. Upon the closing of the Offering, approximately ninety-seven percent (97%) of the gross proceeds of the Public Offering are being held in a trust account (“Trust Fund”) and invested in government securities until the earlier of (i) the consummation of its first Business Combination or (ii) the distribution of the Trust Fund as described below. The remaining proceeds, along with interest earned on the Trust Fund, may be used to pay for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses. The Company, after signing a definitive agreement for the acquisition of a target business, will submit such transaction for stockholder approval. In the event that holders of 50% or more of the shares issued in the Offering vote against the Business Combination or the holders of 20% or more of the shares issued in the Public Offering elect to exercise their conversion rights, the Business Combination will not be consummated. However, the persons who were stockholders prior to the Public Offering (the “Founding Stockholders”) will not participate in any liquidation distribution with respect to any shares of the common stock acquired in connection with or following the Public Offering. (Note I)

In the event that the Company does not consummate a Business Combination within 18 months from the date of the consummation of the Public Offering, or 24 months from the consummation of the Public Offering if certain extension criteria have been satisfied (the “Acquisition Period”), the proceeds held in the Trust Fund will be distributed to the Company’s public stockholders, excluding the Founding Stockholders to the extent of their initial stock holdings. There is no assurance that the Company will be able to successfully affect a Business Combination during the period. This factor raises substantial doubt about the Company’s ability to continue as a going concern. The accompanying financial statements are prepared assuming the Company will continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Index to Financial Statements

In the event of such distribution, it is likely that the per share value of the residual assets remaining available for distribution (including Trust Fund assets) will be less than the initial public offering price per share in the Public Offering (assuming no value is attributed to the warrants contained in the Units offered in the Public Offering discussed in Note C).

NOTE B — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Income per common share:

Basic earnings per share is computed by dividing net income (loss) applicable to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflect the additional dilution for all potentially dilutive securities such as stock warrants and options. The effect of the 22,949,000 outstanding warrants, issued in connection with the Public Offering and the Private Placement described in Note C, the 500,000 outstanding units issued to the underwriters in connection with the Public Offering and the 425,000 warrants to purchase shares of common stock issued to Oliveira Capital, LLC in connection with the promissory note has not been included in the diluted weighted average shares since the warrants are contingently exercisable.

[2] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

[3] Income taxes:

Deferred income taxes are provided for the differences between the bases of assets and liabilities for financial reporting and income tax purposes. A valuation allowance is established when necessary to reduce deferred tax assets to the amount expected to be realized.

[4] Cash and Cash Equivalents:

For financial statement purposes, the Company considers all highly liquid debt instruments with a maturity of three months or less when purchased to be cash equivalents. The company maintains its cash in bank deposits accounts in the United States of America which, at times, may exceed applicable insurance limits. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash and cash equivalents.

[5] Recent Accounting Pronouncements:

In July 2006, the Financial Accounting Standards Board (“FASB”) issued FASB Interpretation No. 48, “Accounting for Uncertainty in Income Taxes”, an interpretation of FASB Statement No. 109 (“FIN 48”), which provides criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. A tax benefit from an uncertain position may be recognized only if it is “more likely than not” that the position is sustainable based on its technical merits. In May 2007, the FASB issued Staff Position, FIN 48-1, “Definition of Settlement in FASB Interpretation No. 48” (FSP FIN 48-1) which provides guidance on how an enterprise should determine whether a tax position is effectively settled for the purpose of recognizing previously unrecognized tax benefits. FSP FIN 48-1 is effective with the initial adoption of FIN 48. The provisions of FIN 48 are effective for fiscal years beginning after

December 15, 2006. We do not expect the adoption of FIN 48 or FSP FIN 48-1 will have a material effect on our financial condition or results of operations.

Management does not believe that any other recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the accompanying financial statements.

NOTE C — INITIAL PUBLIC OFFERING

On March 8, 2006, the Company sold 11,304,500 units (“Units”) in the Public Offering. Each Unit consists of one share of the Company’s common stock, \$.0001 par value, and two redeemable common stock purchase warrants (“Warrants”). Each Warrant entitles the holder to purchase from the Company one share of common stock at an exercise price of \$5.00 commencing the later of the completion of a Business Combination or one year from the effective date of the Public Offering and expiring five years from the effective date of the Public Offering. The Warrants become callable for \$0.01 per Warrant only in the event that the last sale price of the common stock is at least \$8.50 per share for any 20 trading days within a 30 trading day period ending on the third day prior to the date on which notice of redemption is given.

In connection with the Offering, the Company paid the underwriters of the Public Offering (collectively, the “Underwriter”) an underwriting discount of approximately 5% of the gross proceeds of the Public Offering (\$3,391,350). In addition, a non-accountable expense allowance of 3% of the gross proceeds of the Public Offering, excluding the over-allotment option, is due to the Underwriter, who has agreed to deposit the non-accountable expense allowance (\$1,769,400) into the Trust Fund until the earlier of the completion of a business combination or the liquidation of the Trust Fund. The Underwriter has further agreed to forfeit any rights to or claims against such proceeds unless the Company successfully completes a business combination.

The warrants separated from the Units and began to trade on April 13, 2006. After separation, each Warrant entitles the holder to purchase from the Company one share of common stock at an exercise price of \$5.00 commencing on the later of (a) one year from the effective date of the Public Offering or (b) the earlier of the completion of a Business Combination with a target business or the distribution of the Trust Fund and expiring five years from the date of the Public Offering. The Company has a right to call the Warrants, provided the common stock has traded at a closing price of at least \$8.50 per share for any 20 trading days within a 30 trading day period ending on the third business day prior to the date on which notice of redemption is given. If the Company calls the Warrants, the holder will either have to redeem the Warrants by purchasing the common stock from the Company for \$5.00 or the Warrants will be repurchased for \$0.01 per Warrant.

The Underwriter’s over-allotment option of 1,474,500 Units was exercised and the 11,304,500 units sold at the closing of the Public Offering include the over-allotment.

In connection with this Offering, the Company issued an option, for \$100, to the Underwriter to purchase 500,000 Units at an exercise price of \$7.50 per Unit, exercisable the later of March 2, 2007 or the consummation of a Business Combination. The Company has accounted for the fair value of the option, inclusive of the receipt of the \$100 cash payment, as an expense of the Public Offering resulting in a charge directly to stockholders’ equity. The Company estimated, using the Black-Scholes method, the fair value of the option granted to the underwriters as of the date of grant was approximately \$756,200 using the following assumptions: (1) expected volatility of 30.1 %, (2) risk-free interest rate of 3.9% and (3) expected life of five years. The estimated volatility was based on a basket of Indian companies that trade in the U.S. or the U.K. The option may be exercised for cash or on a “cashless” basis, at the holder’s option, such that the holder may use the appreciated value of the option (the difference between the exercise prices of the option and the underlying warrants and the market price of the units and underlying securities) to exercise the option without the payment of any cash. The warrants underlying such Units are exercisable at \$6.25 per share.

NOTE D — INVESTMENTS HELD IN TRUST FUND

Investments held in trust consist of Treasury Bills and money market funds. The Treasury Bills have been accounted for as trading securities and recorded at their fair market value. The excess of market value over cost is included in interest income in the accompanying statement of operations. Investments held in trust as of March 31, 2007 and 2006

include the following:

	March 31,	
	2007	2006
Investment held for the benefit of the Company	\$ 63,845,850	\$ 63,845,850
Investment held for the benefit of the Underwriter	1,769,400	1,769,400
Investment earnings (available to fund Company expenses up to a maximum of \$2,150,000, net of taxes)(1)	489,025	209,766
	\$ 66,104,275	\$ 65,825,016

(1) Through March 31, 2007, the Company has transferred approximately \$2,150,000 of Investment Earnings from the Trust Account into its operating account.

NOTE E — NOTES PAYABLE TO STOCKHOLDERS

Three unsecured notes were issued to two of the Founding Stockholders of the Company. One note of \$100,000 and another for \$50,000 were issued on May 2, 2005 and on September 26, 2005, respectively, and were payable the earlier of April 30, 2006 or upon the consummation of the Public Offering. On December 15, 2005, the unsecured notes referred to above were amended to provide that they become payable upon the earlier of the consummation of a Business Combination or the first anniversary of the consummation of the Public Offering. Another note of \$720,000 was issued on March 3, 2006 and was payable on the earlier of March 31, 2007 or the consummation of a Business Combination. The notes all bore interest at 4% per annum. Due to the short-term nature of the notes, the fair value of the notes approximate their carrying amount. Interest expense of approximately \$ 41,200 and \$5,500 has been included in the statement of operations for the year ended March 31, 2007 and the period ended March 31, 2006 relating to these notes, respectively.

On April 6, 2007, the \$100,000 note was repaid and cancelled. One of the founding stockholders made available a line of credit for \$100,000 by personally guaranteeing the line.

Also on April 6, 2007 the loan of \$720,000 made by one of the founding stockholders was partially repaid. The Company paid the founding stockholder \$500,000 plus some accrued interest, cancelled the note for \$720,000 and issued the founding stockholder a new note for \$220,000.

On May 8, 2007 the same founding stockholder loaned the company an additional \$275,000. We issued him a new note for \$275,000.

The rights under the two new notes are similar to those set out for the original Founder's notes. The new notes are payable on the earlier of March 31, 2008 or the consummation of a Business Combination. The notes bear interest at 8% per annum.

NOTE F — RELATED PARTY TRANSACTION

Since inception to March 31, 2007 approximately \$ 53,810 has been paid to ELP for legal services. No payments were made in the financial year ending March 31, 2006.

In February 2006, the Company issued an aggregate of 200,000 shares of common stock to its founders and advisors. The shares were issued for an aggregate price of \$2,000. The fair value of these shares was estimated to be \$537,741; the difference of \$535,741 was recorded as compensation expense on the accompanying statement of operations. The fair value was determined by allocating the \$6.00 Unit price in the Offering between the estimated fair value of the shares and warrants to be included therein. The per share fair value was estimated to be \$2.69.

NOTE G — COMMON STOCK

On August 24, 2005, the Company's Board of Directors authorized a reverse stock split of one share of common stock for each two outstanding shares of common stock and approved an amendment to the Company's Certificate of Incorporation to decrease the number of authorized shares of common stock to 75,000,000. All references in the accompanying financial statements to the number of shares of stock have been retroactively restated to reflect these transactions.

NOTE H — INCOME TAXES

The provision for income taxes for the year ended March 31, 2007 and the period ended March 31, 2006 consists of the following:

	March 31,	
	2007	2006
Current:		
Federal	\$ 902,510	\$ 70,000
Deferred:		
Federal	(117,652)	(25,000)
Total tax provision	\$ 784,858	\$ 45,000

The total tax provision for income taxes for year ended March 31, 2007 and the period ended March 31, 2006 differs from that amount which would be computed by applying the U.S. Federal income tax rate to income before provision for income taxes as follows:

	March 31,	
	2007	2006
Statutory Federal income tax rate	34%	34%
Non-cash compensation expense		(45.7)%
State tax benefit net of federal tax	(1.3)%	(1.3)%
Increase in state valuation allowance	1.3%	1.3%
Other	-	.4%
Effective income tax rate	34%	(11.3)%

The tax effect of temporary differences that give rise to the net deferred tax asset is as follows:

	March 31,	
	2007	2006
Operating costs deferred for income tax purposes	\$ 242,015	\$ 30,000
Interest income deferred for reporting purposes	11,059	-
Difference between accrual accounting for reporting purposes and cash accounting for tax purposes	(75,514)	-
Less: Valuation Allowance	(34,908)	(5,000)
Net deferred tax asset	\$ 142,652	\$ 25,000

The Company has recorded a valuation allowance against the state deferred tax asset since they cannot determine realizability for tax purposes and therefore can not conclude that the deferred tax asset is more likely than not recoverable at this time.

In addition, a broker fee of \$ 90,000 will be paid to Ferris, Baker Watts in conjunction with the loan to the Company by Oliveira Capital, LLC, if the Business Combination is successful.

Such arrangements typically may require nominal amounts of retainer fees and expenses for services and success fees based upon successful completion of acquisitions resulting from such referrals. Fees for services and expenses incurred to date with such entities have been expensed in the accompanying financial statements.

In connection with our proposed acquisition of a majority interest in MBL Infrastructures Limited (“MBL”), an unaffiliated third party has claimed that it is entitled to a finder's fee of approximately five percent of the purchase price (or, \$1.75 million) for the acquisition if the acquisition is consummated. While we do not admit that the unaffiliated third party is a finder that is entitled to payment, we have expressed a willingness to pay our customary finder's fee of 0.25%. The parties are attempting to reach agreement on the amount of the fee to be paid if the acquisition is consummated.

NOTE L – VALUATION OF WARRANTS ISSUED TO OLIVEIRA CAPITAL, LLC

The Company sold a promissory note and 425,000 warrants to Oliveira Capital, LLC for \$3,000,000. Each warrant will entitle the holder to purchase from the Company one share of common stock at an exercise price of \$5.00 commencing on the earlier of the completion of a Business Combination with a target business or the distribution of the Trust Fund and expiring five years from the date of issuance. The warrants have an exercise price of \$5.00. The Company has determined, based upon a Black-Scholes model, that the fair value of the warrants on the date of issuance would approximately be \$ 1,235,000 using an expected life of five years, volatility of 46% and a risk-free interest rate of 4.8%

We computed volatility for a period of five years. For approximately the first four years we used the trading history of two representative companies that are listed on the Indian Stock exchange. For approximately one year the trading history of the Company's common stock was used. The average volatility of the combined data extending over five years was calculated as 46%. Management believes that this volatility is a reasonable benchmark to use in estimating the value of the warrants.

Review Report of Independent Registered Public Accounting Firm

To

The Board of Directors

Sricon Infrastructure Private Limited (Formerly Srivastava Construction Private Limited):

We have reviewed the condensed balance sheet of Sricon Infrastructure Private Limited (Formerly Srivastava Construction, Private Limited) as of September 30, 2007, and the related condensed statements of income for the six months period ended September 30, 2007 and 2006, and cash flows for the six months period ended September 30, 2007 and 2006. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the condensed financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board, the balance sheet of Sricon Infrastructure Private Limited (formerly Srivastava Construction, Private Limited) as of March 31, 2007, and the related statements of operations, stockholders' equity, and cash flows for the each of the three years ended March 31, 2005, 2006 and 2007 (not presented herein); and in our report dated 21st September, 2007, we expressed an unqualified opinion on those financial statements. The estimated amount of contracts remaining to be executed on capital account not provided for as on March 31, 2007 and September 30, 2007 are USD zero.

b) Guarantees

The Company had outstanding financial / performance bank guarantees of USD 153 and USD 1,494 as of March 31, 2007 and September 30, 2007.

Contingencies

The company was awarded a contract from National Highway Authority of India ('NHAI') in 2004-05, for restoring the Jaipur – Gurgaon National Highway 8. The total contract value was USD 5.10 million to be completed in 9 months. The entire stretch of the site was handed over on piecemeal basis without any defined schedule in contravention with contractual provisions and approved construction program and methodology. This has resulted in additional costs due to additional deployment of resources for prolonged period. Thus, the company invoked the escalation clause of the contract and filed a claim of USD 7.65 million. The dispute has been referred to arbitration. The company has not recognized the claim amounts on its books.

The company was awarded a contract from National Highway Authority of India ('NHAI') in 2001-02 for construction of a four-lane highway on the Namkkal bypass on National Highway 7, in the state of Tamilnadu. The total contract value was USD 4 million and the construction was to have been completed by November 30, 2002. The escalation and variation claim of USD 4.94 million is pending with NHAI. An arbitration process was initiated on July 3, 2007. The company has not recognized the claim amounts on its books.

e) Risks and Threats

- The industry is highly governed by the political environment and economical policies prevalent within the country since significant portion of infrastructure spending originates from the Government. Any adverse change in the policies may slow down the Government's commitment towards Infrastructure development.

- Competition:

Foreign Competition – The Government has opened the sector to foreign companies who can bid on projects on their own, or through joint ventures with domestic companies. This could create more competition in the future.

Domestic Competition - The Company faces two types of competition in the domestic sector:

(i) Competition from the local players in and around their state, typically this is applicable to low value contracts.

(ii) Marketing / Business Development - Construction contracts for infrastructure in India are offered by the Government sector, Central Government and the State Governments. Funds for these are allocated through their budgetary support as well as through international and domestic financial institutions such as World Bank, Asian Development Bank, Japan Bank for International co-operation, Housing & Urban Development Corporation, National Bank for Agricultural & Rural Development, etc. In view of the nature of our market, the major sources of information of ensuing tenders for construction contracts are newspapers and government gazettes. In addition to these, construction contracts are also offered by the private sector.

f) Strengths and Opportunities

Lease payments under operating leases are recognized as an expense on a straight-line basis over the lease term.

o) Capital leases

Assets acquired under capital leases are capitalized as assets by the Company at the lower of the fair value of the leased property or the present value of the related lease payments or where applicable, the estimated fair value of such assets. Amortization of leased assets is computed on straight line basis over the useful life of the assets. Amortization charge for capital leases is included in depreciation expense.

p) Impairment of long – lived assets

The Company reviews its long-lived assets, including identifiable assets with finite lives, for impairment whenever events or changes in business circumstances indicate that the carrying amount of assets may not be fully recoverable. Such circumstances include, though are not limited to, significant or sustained declines in revenues or earnings and material adverse changes in the economic climate. For assets that the Company intends to hold for use, if the total of the expected future undiscounted cash flows produced by the assets or asset Company is less than the carrying amount of the assets, a loss is recognized for the difference between the fair value and carrying value of the assets. For assets the Company intends to dispose of by sale, a loss is recognized for the amount by which the estimated fair value less cost to sell is less than the carrying value of the assets. Fair value is determined based on quoted market prices, if available, or other valuation techniques including discounted future net cash flows.

q) Borrowing costs

The interest cost incurred for funding a qualifying asset during the construction period is capitalized based on actual investment in the asset at the average interest rate. The capitalized interest is included in the cost of the relevant asset and is depreciated over the estimated useful life of the asset.

The Company provides for the Plan based on actuarial valuations in accordance with FAS No. 87, "Employers' Accounting for Pensions".

(ii) Provident Fund and employees' state insurance schemes

In accordance with Indian law, all employees of the Company are entitled to receive benefits under the Provident Fund, which is a defined contribution plan. Both the employees and the employer make monthly contributions to the plan at a predetermined rate (presently 12.0%) of the employees' basic salary. These contributions are made to the fund administered and managed by the Government of India (GoI). In addition some employees of the Company are covered under the employees' state insurance schemes, which are also defined contribution schemes recognized by the Indian Revenue Authorities, and are administered through the GoI.

t) Income taxes

In accordance with the provisions of FAS 109, "Accounting for Income Taxes", income taxes for the years ended March 31, 2005, 2006 and 2007 are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and their respective tax bases and operating loss carry-forwards. Deferred tax assets

and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the statement of operations in the period in which the change is enacted. Based on management's judgment, the measurement of deferred tax assets is reduced, if necessary, by a valuation allowance for any tax benefits for which it is more likely than not that some portion or all of such benefits will not be realized.

w) Recent accounting pronouncements

In September 2006, the FASB issued FAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Benefit Plans" (FAS 158). This Statement requires companies to recognize the over-funded or under-funded status of a defined benefit postretirement plan as an asset or liability in its statement of financial position. The Company has applied FAS 158 which has no impact on the financial statements.

In May 2005, the FASB issued FAS No. 154, "Accounting Changes and Error Corrections—a replacement of APB Opinion No. 20 and FASB Statement No. 3" (FAS 154). This Statement replaces APB Opinion No. 20, "Accounting Changes," and FASB Statement No. 3, "Reporting Accounting Changes in Interim Financial Statements." This Statement requires retrospective application to prior periods' financial statements for changes in accounting principle, unless it is impractical to determine either the period-specific effects or the cumulative effect of the change. FAS 154 also requires that a change in depreciation, amortization, or depletion method for long, non-financial assets be accounted for as a change in accounting estimate effected by a change in accounting principle. The Company adopted FAS 154 for accounting changes and corrections of errors made after the adoption date. The adoption of the provisions of FAS 154 did not have an impact on the Company's financial statements.

In September 2006, the Securities and Exchange Commission ("SEC") staff issued Staff Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements" ("SAB 108"). SAB 108 provides guidance on how prior year misstatements should be taken into consideration when quantifying misstatements in current year financial statements for purposes of determining whether the current year's financial statements are materially misstated. The provisions of SAB 108 are required to be applied by registrants in their annual financial statements covering fiscal years ending on or before November 15, 2007. The adoption of the provisions of SAB 108 did not have an impact on the Company's financial statements.

In June 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109" (FIN 48). FIN 48 clarifies the accounting and reporting for uncertainties in income tax law. This Interpretation prescribes a comprehensive model for the financial statement recognition, measurement, presentation and disclosure of uncertain tax positions taken or expected to be taken in income tax returns. The provisions of FIN 48 will be applied beginning in the first quarter of 2008 (i.e. from April 1, 2008), with the cumulative effect of the change in accounting principle recorded as an adjustment to retained earnings. The Company is currently assessing the impact of the adoption of this Interpretation on its financial statements.

7. Segment information

The Company follows the provisions of SFAS No 131 "Disclosure about Segments of an Enterprise and Related Information". SFAS No 131 establishes standards for reporting information regarding operating segments in annual financial statements and requires selected information for those segments to be presented in interim financial reports issued to stockholders. The Company operates in a single infrastructure construction segment.

13. Commitments and contingencies

The company has to observe the laws, government orders and regulations of the state in which they operate. A number of them are currently involved in administrative proceedings arising out of the normal conduct of their business. In the opinion of management, however, the outcome of these actions will not materially affect the financial position, result of operations or cash flow.

Commitments

a) Capital commitments

The estimated amount of contracts remaining to be executed on capital account not provided for as on March 31, 2005, March 31, 2006, March 31, 2007 are USD zero.

b) Guarantees

The Company had outstanding financial / performance bank guarantees of USD 1,031, USD 4,116 and USD 153 as of March 31, 2005, March 31, 2006, March 31, 2007.

Contingencies

a) The company was awarded a contract from National Highway Authority of India ('NHAI') in 2004-05, for restoring the Jaipur – Gurgaon National Highway 8. The total contract value was USD 5.10 million to be completed in 9 months. The entire stretch of the site was handed over on piecemeal basis without any defined schedule in contravention with contractual provisions and approved construction program and methodology. This has resulted in additional costs due to additional deployment of resources for prolonged period. Thus, the company invoked the escalation clause of the contract and filed a claim of USD 7.65 million. The dispute has been referred to arbitration. The company has not recognized the claim amounts on its books.

b) The company was awarded a contract from National Highway Authority of India ('NHAI') in 2001-02 for construction of a four lane highway on the Namkkal bypass on National Highway 7, in the state of Tamilnadu. The total contract value was USD 4 million and the construction was to have been completed by November 30, 2002. The escalation and variation claim of USD 4.94 million is pending with NHAI. An arbitration process was initiated on July 3, 2007. The company has not recognized the claim amounts on its books.

14. Concentration of credit risk

The Company is concentrated on projects undertaken by government and government enterprises.

Company's business therefore requires that we continue to maintain pre-qualified status with key clients and we are not disqualified from future projects that these clients may award. Company's major clients vary from period to period depending on the demand and the completion schedule of projects. The loss of a significant client or a number of significant clients or projects from such clients for any reason, including as a result of disqualification or dispute, may have an adverse effect on Company's results of operations.

15. Vendor Risk

The Company is significantly affected by the availability, cost and quality of the raw material bought out items and fuel, which we need to construct and develop Company's projects. The prices and supply of raw materials, bought out items and fuel depend on factors not under Company's control, including general economic conditions, competition, production levels, transportation costs and import duties. Although we generally provide for price contingencies in Company's contracts to limit Company's exposure, if, for any reason, Company's primary suppliers of raw materials, bought out items and fuel should curtail or discontinue their delivery of such materials to us in the quantities we need or at prices that are competitive or expected by us, Company's ability to meet Company's material requirements for our projects could be impaired, Company's construction schedules could be disrupted, or Company's earnings and business could suffer. Additionally, we rely on manufacturers and other suppliers and do not have control over the quality of products they supply, which may adversely affect the quality and workmanship of Company's projects.

16. Subsequent events

The Company has signed a Letter of Intent with India Globalization Capital, Inc. (USA) ("IGC") dated August 28, 2007 to accept investment through its subsidiary IGC-M (Mauritius) by allotment of new equity shares leading to post investment ownership of 51% by IGC. IGC also offers to buy a 12% stake post investment directly from the promoters. On September 15, 2007 the Company signed a Share Subscription Cum Purchase Agreement and a Shareholders Agreement with India Globalization Capital, Inc (USA) for the purchase and subscription of shares resulting in a 63% post investment ownership by IGC.

These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board, the balance sheet of Techni Bharathi Limited as of March 31, 2007, and the related statements of operations, stockholders' equity, and cash flows for each of the three years ended March 31, 2005, 2006 and 2007 (not presented herein); and in our report dated 21st September, 2007, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying balance sheet as of March 31, 2007 is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

c) Revenue Recognition

For Revenue from construction contracts, we recognize revenue on construction type of contracts using the percentage of completion method of accounting where by revenue is recognized as performance under contract progresses. The Company has also made requisite adjustments in the recognized revenues under Indian GAAP (IGAAP) in order to ensure conformity with the provisions of SOP 81-1. All infrastructure contracts of TBL are in the nature of item rate contracts, where there is a Bill of Quantity (BOQ) and item rate prescribed for each activity done. Accordingly, percentage of completion is determined in terms of the proportion of value added (the contract value of total work performed to date) to the total contract value.

d) Use of estimates

The preparation of our financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) necessarily requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the balance sheet dates and the reported amounts of revenue and cost during the reporting periods. Actual results could differ from those estimates. On an ongoing basis, we review our estimates based on information that is currently available. Changes in facts and circumstances may result in revised estimates.

Estimated losses on un-completed contracts and changes in contract estimates

The Company records the provisions for estimated losses on uncompleted contracts in the period in which such losses are identified. The cumulative effects of revisions to contract revenue and estimated completion costs are recorded in the accounting period in which the amounts became evident and can be reasonably estimated. 1. BACKGROUND

a) Incorporation and History:

Techni Bharathi Limited (“TBL”) was incorporated in the year 1982 by a team of enterprising technocrats who, inspired by the revolutionary ideas in the field, started pursuing the goal of becoming a world-class construction specialist. For TBL, the first decade was a period of learning. The TBL team worked vigorously on projects of moderate size, finding new ways to build without compromising on quality, designing innovative building methods and charting out cost-effective construction formulas.

The Year 1991 witnessed the company's first foray into the strategic construction arena when Kudremukh Iron Ore Company Limited (a leading Government of India Company) assigned TBL for the construction of Lakhya Dam for a cost of US \$ 2,750. Since then TBL is engaged in engineering construction contracts for national infrastructure development like highways, bridges, dams, hydro electric projects and rail roads.

b) Description of Business:

The various construction activities taken up by the company are given below:

- Roads and Bridges
- Mechanized Earthworks
- Hydro Electric Projects
- High Rise Building Complexes and Townships
- Dams and Tunnels
- Irrigation Projects
- Rail Road Construction

c) Industry Overview

The size of the construction industry in India is over USD 28 billion, which accounts for more than 6% of the GDP. This industry is the largest employer in the country – almost 32 million people. The sector is riding on a high growth wave powered by the large spends on the on going infrastructure programs – evidenced all over the country in the form of new highways, dams, power plant and pipelines. The sectors contributing to the high growth rates are Power, Transport, Petroleum and urban Infrastructure.

According to Indian Prime Minister Dr. Manmohan Singh, while addressing the Finance Ministers of ASEAN countries, at the Indo ASEAN Summit at New Delhi, has informed the august gathering that India needs USD 150 billion at the rate of USD 15 billion per annum for next 10 years. Out of these projections, India is getting FDI at the rate of USD 5 billion per annum. More than 50% of the FDI's will be utilized for Infrastructure, Telecom, and Power among others.

As relates to roads, the Golden Quadrilateral is progressing well with an extent of approximately 4225 Miles followed up with north-south corridor of 12427 Miles. Besides, the Government is also planning to have East and West Coast corridors.

The Nodal Agencies – NHAI, NTPC, NHPC, and PGCL – have ambitious plans over the 10th and 11th Five Year Plans. (USD 81,438 million in the 10th Plan itself). The value of overseas projects, under execution by Indian Companies, is conservatively estimated to be around USD 4,176 million covering major markets being Malaysia, Middle East, and East Africa. The Industry is characterized by a large number of players – a trend mirrored even in larger and mature markets such as the US and Japan. No single company controls a very large share of the overall market.

e) Risks and Threats

- The industry is highly governed by the political environment and economical policies prevalent within the country since significant portion of infrastructure spending originates from the Government. Any adverse change in the policies may slow down the Government's commitment towards Infrastructure development.
- Competition:

Foreign Competition – The Government has opened the sector to foreign companies who can bid on projects on their own, or through joint ventures with domestic companies. This could create more competition in the future.

Domestic Competition - The Company faces two types of competition in the domestic sector:

(i) Competition from the local players in and around their state, typically this is applicable to low value contracts.

(ii) Marketing / Business Development - Construction contracts for infrastructure in India are offered by the Government sector, Central Government and the State Governments. Funds for these are allocated through their budgetary support as well as through international and domestic financial institutions such as World Bank, Asian Development Bank, Japan Bank for International co-operation, Housing & Urban Development Corporation, National Bank for Agricultural & Rural Development, etc. In view of the nature of our market, the major sources of information of ensuing tenders for construction contracts are newspapers and government gazettes. In addition to these, construction contracts are also offered by the private sector.

The translation of the functional currencies into U.S. dollars is performed for assets and liabilities using the exchange rates in effect at the balance sheet date and for revenues, costs and expenses using average exchange rates prevailing during the reporting periods. Adjustments resulting from the translation of functional currency financial statements to reporting currency are accumulated and reported as other comprehensive income/(loss), a separate component of shareholders' equity.

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are expressed in the functional currency at the exchange rates in effect at the balance sheet date. Revenues, costs and expenses are recorded using exchange rates prevailing on the date of transaction. For Revenue from construction contracts, we recognize revenue on construction type of contracts using the percentage of completion method of accounting where by revenue is recognized as performance under contract progresses. The Company has also made requisite adjustments in the recognized revenues under Indian GAAP (IGAAP) in order to ensure conformity with the provisions of SOP 81-1. All infrastructure contracts of TBL are in the nature of item rate contracts, where there is a Bill of Quantity (BOQ) and item rate prescribed for each activity done. As on closing date of all individual activities of the BOQ executed are jointly measured and valued at the item quoted rate. Accordingly, percentage of completion is determined in terms of the proportion of value added (the contract value of total work performed to date) to the total contract value.

d) Use of estimates

The preparation of financial statements in conformity with US GAAP requires the use of management estimates and assumptions that affect the amounts reported. These estimates are based on historical experience and information that is available to management about current events and actions that the Company may take in the future. Significant items subject to estimates and assumptions include revenue recognition, the useful lives and the evaluation of impairment of property and equipment, the income tax, the contingencies and the provision for impairment of receivables and advances. Actual results could differ from these estimates.

Estimated losses on uncompleted contracts and changes in contract estimates

The Company records the provisions for estimated losses on uncompleted contracts in the period in which such losses are identified. The cumulative effects of revisions to contract revenue and estimated completion costs are recorded in the accounting period in which the amounts became evident and can be reasonably estimated. These revisions may interalia include such items as the effects of change orders, claims, warranty claims, liquidated damages or other contractual penalties, adjustments for audit findings on government contracts and contract closeout settlements.

Over time, the liability is accreted to its present value of each period, and the capitalized cost is depreciated over the estimated useful life of the related asset. w) Recent accounting pronouncements

In May 2005, the FASB issued FAS No. 154, "Accounting Changes and Error Corrections—a replacement of APB Opinion No. 20 and FASB Statement No. 3" (FAS 154). This Statement replaces APB Opinion No. 20, "Accounting Changes," and FASB Statement No. 3, "Reporting Accounting Changes in Interim Financial Statements." This Statement requires retrospective application to prior periods' financial statements for changes in accounting principle, unless it is impractical to determine either the period-specific effects or the cumulative effect of the change. FAS 154 also requires that a change in depreciation, amortization, or depletion method for long, non-financial assets be accounted for as a change in accounting estimate effected by a change in accounting principle. The Company adopted FAS 154 for accounting changes and corrections of errors made after the adoption date. The adoption of the provisions of FAS 154 did not have an impact on the Company's financial statements.

In September 2006, the Securities and Exchange Commission ("SEC") staff issued Staff Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements" ("SAB 108"). SAB 108 provides guidance on how prior year misstatements should be taken into consideration when quantifying misstatements in current year financial statements for purposes of determining whether the current year's financial statements are materially misstated. The provisions of SAB 108 are required to be applied by registrants in their annual financial statements covering fiscal years ending on or before November 15, 2007. The adoption of the provisions of SAB 108 did not have an impact on the Company's financial statements.

In June 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109" (FIN 48). FIN 48 clarifies the accounting and reporting for uncertainties in income tax law. This Interpretation prescribes a comprehensive model for the financial statement recognition, measurement, presentation and disclosure of uncertain tax positions taken or expected to be taken in income tax returns. The provisions of FIN 48 will be applied beginning in the first quarter of 2008 (i.e. from April 1, 2008), with the cumulative effect of the change in accounting principle recorded as an adjustment to retained earnings. The Company is currently assessing the impact of the adoption of this Interpretation on its financial statements.

15. Concentration of credit risk

The Company is concentrated on projects undertaken by government and government enterprises.

Company's business therefore requires that we continue to maintain pre-qualified status with key clients and that we are not disqualified from future projects that these clients may award. Company's major clients vary from period to period depending on the demand and the completion schedule of projects. The loss of a significant client or a number of significant clients or projects from such clients for any reason, including as a result of disqualification or dispute, may have an adverse effect on Company's results of operations.

16. Vendor Risk

The Company is significantly affected by the availability, cost and quality of the raw material bought out items and fuel, which we need to construct and develop Company's projects. The prices and supply of raw materials, bought out items and fuel depend on factors not under Company's control, including general economic conditions, competition, production levels, transportation costs and import duties. Although we generally provide for price contingencies in Company's contracts to limit Company's exposure, if, for any reason, Company's primary suppliers of raw materials, bought out items and fuel should curtail or discontinue their delivery of such materials to us in the quantities we need or at prices that are competitive or expected by us, Company's ability to meet Company's material requirements for our projects could be impaired, Company's construction schedules could be disrupted, or Company's earnings and business could suffer. Additionally, we rely on manufacturers and other suppliers and do not have control over the quality of products they supply, which may adversely affect the quality and workmanship of Company's projects.

17. Subsequent events

(USA), ("IGC"), dated 5th September 2007 to accept investment through its subsidiary IGC (Mauritius) by allotment of new equity shares leading to post investment ownership of approximately 74% by IGC and or its assignee. ARTICLE ELIGIBILITY AND PARTICIPATION

5.

5.1 Eligibility. Any Director, Employee, or Third-Party Service Provider to the Company or any Parent, Subsidiary, or Affiliate shall be eligible to receive an Award under the Plan. In determining the individuals to whom such an Award shall be granted and the number of Shares which may be granted pursuant to that Award, the Committee may take into account the duties of the respective individual, his or her present and potential contributions to the success of the Company or a Parent, Subsidiary, or Affiliate, and such other factors as the Committee shall deem relevant in connection with accomplishing the purposes of the Plan.

5.2 Leaves of Absence. Notwithstanding any other provision of the Plan to the contrary, for purposes of determining Awards granted hereunder, a Participant shall not be deemed to have incurred a termination of employment if such Participant is placed on military or sick leave or such other leave of absence which is considered as continuing intact the employment relationship with the Company, any Parent, any Subsidiary, or any Affiliate. In such a case, the employment relationship shall be deemed to continue until the date when a Participant's right to reemployment shall no longer be guaranteed either by law or contract.

5.3 Transfer of Service. Notwithstanding any other provision of the Plan to the contrary, for purposes of determining Awards granted hereunder, a Participant shall not be deemed to have incurred a termination of employment if the Participant's status as an Employee, Director, or Third-Party Service Provider terminates and the Participant is then, or immediately thereafter becomes, an eligible individual due to another status or relationship with the Company, any Parent, any Subsidiary, or any Affiliate.

ARTICLE STOCK OPTIONS

6.

6.1 Grant of Options. Subject to the terms and provisions of the Plan, Options may be granted to Employees, Directors and/or Third-Party Service Providers at any time and from time to time as shall be determined by the Committee. The Committee shall have sole discretion in determining the number of Shares subject to Options granted to each Participant. No Participant may be granted ISOs (under the Plan and all other incentive stock option plans of the Company and any Parent or Subsidiary) which are first exercisable in any calendar year for Common Stock having an aggregate Fair Market Value (determined as of the date an Option is granted) that exceeds One Hundred Thousand Dollars (\$100,000). The preceding annual limit shall not apply to NQSOs. The Committee may grant a Participant ISOs, NQSOs or a combination thereof, and may vary such Awards among Participants; provided that only an Employee may be granted ISOs. The maximum aggregate number of shares of Stock subject to ISOs issued under the Plan shall not exceed ten million (10,000,000) shares.

6.2 Agreement. Each Option grant shall be evidenced by an Agreement that shall specify the Option Price, the duration of the Option, the number of Shares to which the Option pertains and such other provisions as the Committee shall determine. The Option Agreement shall further specify whether the Award is intended to be an ISO or an

NQSO. Any portion of an Option that is not designated as an ISO or otherwise fails or is not qualified as an ISO (even if designated as an ISO) shall be a NQSO. The Committee may provide in the Option Agreement for transfer restrictions, repurchase rights, vesting requirements and other limitations on the Shares to be issued pursuant to the exercise of an Option.

6.3 Option Price. The Option Price for each grant of an Option under this Plan shall be determined by the Committee in its sole discretion and shall be specified in the Agreement; provided, however, the Option Price must be at least equal to one hundred percent (100%) of the Fair Market Value of a Share on the date the Option is granted. In no event, however, shall any Participant who owns (within the meaning of Section 424(d) of the Code) stock of the Company possessing more than ten percent (10%) of the total combined voting power of all classes of stock of the Company, any Parent, any Subsidiary, or any Affiliate be eligible to receive an ISO at an Option Price less than one hundred ten percent (110%) of the Fair Market Value of a share on the date the ISO is granted. The Option Price for any Option may be greater than the Fair Market Value of a Share on the date the Option is granted.

Table of Contents

6.4 Duration of Options. Each Option shall expire at such time as the Board shall determine at the time of grant; provided, however, that no Option shall be exercisable later than the tenth (10th) anniversary date of its grant; provided, further, however, that any ISO granted to any Participant who at such time owns (within the meaning of Section 424(d) of the Code) stock of the Company possessing more than ten percent (10%) of the total combined voting power of all classes of stock of the Company, shall not be exercisable later than the fifth (5th) anniversary date of its grant.

6.5 Termination of Options. Each Option granted under the Plan to any Optionee shall expire no later than ninety (90) days from the date the Optionee terminates employment or services with the Company, unless earlier terminated pursuant to Section 6.4. However, the Committee may provide in each Participant's Agreement the extent to which the Participant shall have the right to exercise the Option following termination of the Participant's employment or services to the Company, its Affiliates, and/or its Subsidiaries, as the case may be, subject to Sections 5.2 and 5.3. The Committee shall determine any such provisions in its sole discretion, which provisions need not be uniform among all Options issued pursuant to this Article 6, and may reflect distinctions based on, among other things, the reasons for termination, or reasons relating to breach or threatened breach of restrictive covenants to which the Participant is subject, if any.

6.6 Exercise of Options. Options granted under the Plan shall be exercisable at such times and be subject to such restrictions and conditions as set forth in each Agreement, including conditions related to the employment of or provision of services by the Participant with the Company or any Parent, Subsidiary or other entity, which need not be the same for each grant or for each Participant. Each Option shall be exercisable for such number of Shares and at such time or times, including periodic installments, as set forth in each Agreement at the time of the grant. Each Agreement may establish a minimum number of Shares (e.g., 100) for which an Option may be exercised at a particular time and may provide for an automatic accelerated vesting and other rights upon the occurrence of certain events as specified in the Agreement. In addition, in order to exercise any ISOs granted under this Article 6, the Participant must be an Employee of the Company, any Subsidiary, or any Affiliate from the Grant Date until at least three months before the date the ISO is exercised. Except as otherwise provided in the Agreement and Article 15, the right to purchase Shares that is exercisable in periodic installments shall be cumulative so that when the right to purchase any Shares has accrued, such Shares or any part thereof may be purchased at any time thereafter until the expiration or termination of the Option.

6.7 Payment. Options shall be exercised by the delivery of a written notice of exercise to the Company or an agent designated by the Company in a form specified or accepted by the Committee, setting forth the number of Shares with respect to which the Option is to be exercised, accompanied by full payment for the Shares. The Option Price upon exercise of any Option shall be payable to the Company in full under any of the following methods as determined by the Committee, in its discretion: (a) in cash, (b) cash equivalent approved by the Committee, (c) if approved by the Committee, by tendering previously acquired Shares (or delivering a certification of ownership of such Shares) having an aggregate Fair Market Value at the time of exercise equal to the total Option Price, provided that the Company may refuse any such tender if the Committee, in its sole discretion, determines that such tender will cause adverse consequences under federal securities laws or applicable accounting standards, (d) by a cashless (broker-assisted) exercise as permitted under Federal Reserve Board's Regulation T, subject to applicable securities law restrictions; or (e) by a combination of (a), (b), (c), and/or (d); or (f) any other method approved or accepted by the Committee in its sole discretion.

Subject to any governing rules or regulations, as soon as practicable after receipt of a written notification of exercise and full payment of an Option, the Company shall deliver to the Participant evidence of book entry Shares, or upon the Participant's request, Share certificates in an appropriate amount based upon the number of Shares purchased under the Option(s), and may place appropriate legends on the certificates representing such Shares.

Unless otherwise determined by the Committee, all payments under all methods indicated above shall be paid in United States dollars.

6.8 Restrictions on Share Transferability. The Committee may impose such restrictions on any Shares acquired pursuant to the exercise of an Option granted under this Article 6 as it may deem advisable, including, without limitation, minimum holding period requirements, restrictions under applicable federal securities laws, under the requirements of any stock exchange or market upon which such Shares are then listed and/or traded, or under any blue sky or state securities laws applicable to such Shares.

6.9 Limited Transferability. If permitted in the Agreement, a Participant may transfer an Option granted hereunder, including but not limited to transfers to members of his or her Immediate Family (as defined below), to one or more trusts for the benefit of such Immediate Family members, or to one or more partnerships where such Immediate Family members are the only partners, if (a) the Participant does not receive any consideration in any form whatsoever for such transfer, (b) such transfer is permitted under applicable tax laws, and (c) if the Participant is an Insider, such transfer is permitted under Rule 16b-3 of the Exchange Act, or its successor provisions as in effect from time to time. Any Option so transferred shall continue to be subject to the same terms and conditions in the hands of the transferee as were applicable to said Option immediately prior to the transfer thereof. Any reference in any such Agreement to the employment by or performance of services for the Company by the Participant shall continue to refer to the employment of, or performance by, the transferring Participant. For purposes hereof, "Immediate Family" shall mean the Participant and the Participant's spouse, children and grandchildren and any other member of the Participant's family approved by the Committee. Any Option that is granted pursuant to any Agreement that did not initially expressly allow the transfer of said Option and that has not been amended to expressly permit such transfer, shall not be transferable by the Participant other than by will or by the laws of descent and distribution and such Option thus shall be exercisable in the Participant's lifetime only by the Participant.

7.1 Grant of SARs. Subject to the terms and conditions of this Plan (including, if applicable, any Appendix), SARs may be granted to Employees, Directors and/or Third-Party Service Providers at any time and from time to time as shall be determined by the Committee. The Committee may grant Non-Tandem SARs, Tandem SARs, or any combination of these forms of SARs.

Subject to the terms and conditions of this Plan, the Committee shall have complete discretion in determining the number of SARs granted to each Participant and, consistent with the provisions of this Plan, in determining the terms and conditions pertaining to such SARs.

The Grant Price for each grant of a SAR shall be determined by the Committee and shall be specified in the Agreement. Notwithstanding the foregoing, the Grant Price of a Non-Tandem SAR on the Grant Date shall be at least equal to one hundred percent (100%) of the FMV of the Shares as determined on the Grant Date. The Grant Price of a Tandem SAR on the Grant Date shall equal the Option Price of the related Option.

7.2 SAR Agreement. Each SAR Award shall be evidenced by an Agreement that shall specify the Grant Price, the term of the SAR, and such other provisions as the Committee shall determine.

7.3 Term of SAR. The term of a SAR granted under this Plan shall be determined by the Committee, in its sole discretion, and except as determined otherwise by the Committee and specified in the SAR Agreement, no SAR shall be exercisable later than the tenth (10th) anniversary of the Grant Date. Notwithstanding the foregoing, for SARs granted to Participants outside the United States, the Committee has the authority to grant SARs that have a term greater than ten (10) years.

7.4 Exercise of Tandem SARs. Tandem SARs may be exercised for all or part of the Shares subject to the related Option upon the surrender of the right to exercise the equivalent portion of the related Option. A Tandem SAR may be exercised only with respect to the Shares for which its related Option is then exercisable. Notwithstanding the foregoing, with respect to a Tandem SAR granted in connection with an ISO: (i) the Tandem SAR shall expire no later than the expiration of the underlying ISO; (ii) the value of the payout with respect to the Tandem SAR may be for no more than one hundred percent (100%) of the difference between the Option Price of the underlying ISO and the Fair Market Value of the Shares subject to the underlying ISO at the time the Tandem SAR is exercised; and (iii) the Tandem SAR may be exercised only when the Fair Market Value of the Shares covered by the ISO exceeds the Option Price of the ISO.

7.5 Exercise of Non-Tandem SARs. SARs may be exercised upon whatever terms and conditions the Committee, in its sole discretion, imposes.

7.6 Settlement of SARs. Upon the exercise of a SAR, a Participant shall be entitled to receive payment from the Company in an amount determined by multiplying:

- (a) The excess of the Fair Market Value of a Share on the date of exercise over the Grant Price; by

(b) The number of Shares with respect to which the SAR is exercised.

At the discretion of the Committee, the payment upon SAR exercise may be in cash, fully paid Shares, or any combination thereof, or in any other manner approved by the Committee in its sole discretion. The Committee's determination regarding the form of SAR payout shall be set forth in the Agreement pertaining to the grant of the SAR.

Such provisions shall be determined in the sole discretion of the Committee, shall be included in the Agreement entered into with Participants, need not be uniform among all SARs issued pursuant to this Plan, and may reflect distinctions based on, among other things, the reasons for termination, or reasons relating to breach or threatened breach of restrictive covenants to which the Participant is subject, if any.

7.8 Other Restrictions. The Committee shall impose such other conditions and/or restrictions on any Shares received upon exercise of a SAR granted pursuant to this Plan as it may deem advisable or desirable. These restrictions may include, but shall not be limited to, a requirement that the Participant hold the Shares received upon exercise of a SAR for a specified period of time.

Each grant of Restricted Stock or Restricted Stock Units shall be evidenced by an Agreement that shall specify the Period(s) of Restriction, the number of Shares of Restricted Stock or the number of Restricted Stock Units granted, and such other provisions as the Committee shall determine. To the extent a Restricted Stock Unit Award constitutes "deferred compensation" within the meaning of Code Section 409A, the Committee shall establish Agreement terms and provisions which comply with Code Section 409A and regulations thereunder.

8.3 Other Restrictions. At the time a grant of Restricted Stock and/or Restricted Stock Units is made, the Committee shall impose such other conditions and/or restrictions on any Shares of Restricted Stock or Restricted Stock Units granted pursuant to this Plan as it may deem advisable including, without limitation, a requirement that Participants pay a stipulated purchase price for each Share of Restricted Stock (which price shall not be less than par value of such Share) or each Restricted Stock Unit, restrictions based upon the achievement of specific performance goals, time-based restrictions on vesting following the attainment of the performance goals, time-based restrictions, and/or restrictions under Applicable Laws or under the requirements of any stock exchange or market upon which such Shares are listed or traded, or holding requirements or sale restrictions placed on the Shares by the Company upon vesting of such Restricted Stock or Restricted Stock Units.

Upon a grant of Restricted Stock, a stock certificate (or certificates) representing the number of Shares of Restricted Stock granted to the Participant shall be registered in the Participant's name and, to the extent deemed appropriate by the Committee, may either be (i) held in custody by the Company or a bank selected by the Committee for the Participant's account, or (ii) retained by the Company in the Company's possession until such time as all condition and/or restrictions applicable to such Shares have been satisfied or lapse.

- (c) All of the Shares of Restricted Stock that have not vested shall be forfeited and all rights of the Participant to such Shares of Restricted Stock shall terminate without further obligation on the part of the Company, unless the Participant has remained an employee of (or Director of or active Third-Party Service Provider providing services to) the Company or any of its Subsidiaries, until the expiration or termination of the Period of Restriction and the satisfaction of any and all other conditions prescribed in the Agreement or by the Committee or Board applicable to such Shares of Restricted Stock. Upon the forfeiture of any Shares of Restricted Stock, such forfeited Shares shall be transferred to the Company without further action by the Participant and shall, in accordance with Section 4.2, again be available for grant under the Plan. If the Participant paid any amount for the Shares of Restricted Stock that are forfeited, the Company shall pay the Participant the lesser of the Fair Market Value of the Shares on the date they are forfeited or the amount paid by the Participant.

With respect to any Shares received as a result of adjustments under Section 4.2 hereof and any Shares received with respect to cash dividends declared on Restricted Stock, the Participant shall have the same rights and privileges, and be subject to the same restrictions, as are set forth in this Article 8.

8.6 Lapse of Restrictions. Restricted Stock Units shall be paid in cash, Shares or a combination of cash and Shares as the Committee, in its sole discretion shall determine.

Notwithstanding any provision in the Plan or any Agreement to the contrary, to the extent an Award (i) constitutes "deferred compensation" within the meaning of Code Section 409A, (ii) is not exempt from the application of Code Section 409A and (iii) is payable to a specified employee (as determined in accordance with Code Section 409A(a)(2)(B) and applicable regulations) due to separation from service (as such term is defined under Code Section 409A), payment shall be delayed for a minimum of six (6) months from the date of separation from service.

Such provisions shall be determined in the sole discretion of the Committee, shall be included in the Agreement entered into with each Participant, need not be

8.8 Nonassignability. Unless otherwise provided in the Agreement, no grant of, nor any right or interest of a Participant in or to, any Restricted Stock, or in any instrument evidencing any grant of Restricted Stock under the Plan, may be assigned, encumbered or transferred except, in the event of the death of a Participant, by will or the laws of descent and distribution.

8.9 Section 83(b) Election. The Committee may provide in an Agreement that the Award of Restricted Stock is conditioned upon the Participant making or refraining from making an election with respect to the Award under Code Section 83(b). - (x) Identifying and completing strategic acquisitions

Any Performance Measure(s) may be used to measure the performance of the Company, any Subsidiary, or an Affiliate as a whole or any business unit of the Company, any Subsidiary, or an Affiliate or any combination thereof, as the Committee may deem appropriate, or any of the above Performance Measures as compared to the performance of a group of comparator companies, or published or special index that the Committee, in its sole discretion, deems appropriate, or the Committee may select Performance Measure (j) above as compared to various stock market indices. The Committee also has the authority to provide for accelerated vesting of any Award based on the achievement of performance goals pursuant to the Performance Measures specified in this Article 11.

Notwithstanding the foregoing, for each Award designed to qualify for the Performance-Based Exception, the Committee shall establish and set forth in the Award the applicable performance goals for that Award no later than the latest date that the Committee may establish such goals without jeopardizing the ability of the Award to qualify for the Performance-Based Exception and the Committee shall be satisfied that the attainment of such Performance Measure(s) shall represent value to the Company in an amount not less than the par value of any related Performance Shares.

Table of Contents

11.2 Evaluation of Performance. Subject to Section 11.3, the Committee may provide in any such Award that any evaluation of performance may include or exclude any of the following events that occurs during a Performance Period: (a) asset write-downs and other asset revaluations, (b) litigation or claim judgments or settlements, (c) the effect of changes in tax laws, accounting principles, or other laws or provisions affecting reported results, (d) any reorganization and restructuring programs, (e) extraordinary nonrecurring items as described in Accounting Principles Board Opinion No. 30 and/or in management's discussion and analysis of financial condition and results of operations appearing in the Company's annual report to shareholders for the applicable year, (f) acquisitions or divestitures, (g) foreign exchange gains and losses, and (h) changes in material liability estimates. To the extent such inclusions or exclusions affect Awards to Covered Employees, they shall be prescribed in a form that meets the requirements of Code Section 162(m) for deductibility.

11.3 Adjustment of Performance-Based Compensation. The degree of payout and/or vesting of Awards designed to qualify for the Performance-Based Exception shall be determined based upon the written certification of the Committee as to the extent to which the performance goals and any other material terms and conditions precedent to such payment and/or vesting have been satisfied. The Committee shall have the sole discretion to adjust the determinations of the value and degree of attainment of the pre-established performance goals; provided, however, that the performance goals applicable to Awards which are designed to qualify for the Performance-Based Exception, and which are held by Covered Employees, may not be adjusted so as to increase the payment under the Award (the Committee shall retain the sole discretion to adjust such performance goals upward, or to otherwise reduce the amount of the payment and/or vesting of the Award relative to the pre-established performance goals).

11.4 Committee Discretion. In the event that applicable tax and/or securities laws change to permit Committee discretion to alter the governing Performance Measures without obtaining shareholder approval of such changes, the Committee shall have sole discretion to make such changes without obtaining shareholder approval. In addition, in the event that the Committee determines that it is advisable to grant Awards that shall not qualify as Performance-Based Compensation, the Committee may make such grants without satisfying the requirements of Code Section 162(m) and base vesting on Performance Measures other than those set forth in Section 11.1.

ARTICLE DIVIDEND EQUIVALENTS

12.

Any Employees, Directors and/or Third-Party Service Providers selected by the Committee may be granted dividend equivalents based on the dividends declared on Shares that are subject to any Award, to be credited as of dividend payment dates, during the period between the date the Award is granted and the date the Award is exercised, vests or expires, as determined by the Committee. Such dividend equivalents shall be converted to cash or additional Shares by such formula and at such time and subject to such limitations as may be determined by the Committee.

Notwithstanding the foregoing, if the grant of an Award to a Covered Employee is designed to comply with the requirements of the Performance-Based Exception, the Committee may apply any restrictions it deems appropriate to the payment of dividends declared with respect to such Award, such that the dividends and/or the Award maintain eligibility for the Performance-Based Exception. With respect to Restricted Stock and/or Restricted Stock Units, in the event that any dividend constitutes a derivative security or an equity security pursuant to the rules under Section 16 of the Exchange Act, such dividend shall be subject to a vesting period equal to the remaining vesting period of the Shares of Restricted Stock and/or Restricted Stock Unit with respect to which the dividend is paid.

ARTICLE BENEFICIARY DESIGNATION

13.

To the extent applicable, each Participant under the Plan may, from time to time, name any beneficiary or beneficiaries (who may be named contingently or successively) to whom any benefit under the Plan is to be paid in case of his or her death before he or she receives any or all of such benefit. Each such designation shall revoke all prior designations by the same Participant, shall be in a form prescribed by the Committee and shall be effective only when filed by the Participant, in writing, with the Committee or its delegate during the Participant's lifetime. In the absence of any such designation, benefits remaining unpaid at the Participant's death shall be paid to the Participant's estate. If required, the spouse of a married Participant domiciled in a community property jurisdiction shall join in any designation of a beneficiary or beneficiaries other than spouse.

ARTICLERIGHTS OF PARTICIPANTS

14.

14.1 Employment or Other Services. Nothing in the Plan shall interfere with or limit in any way the right of the Company or a Parent, Subsidiary, or Affiliate to terminate any Participant's employment by, or performance of services for, the Company or any Parent, Subsidiary, or Affiliate at any time, nor confer upon any Participant any right to continue in the employ or service of the Company or a Parent, Subsidiary, or Affiliate. For purposes of the Plan, transfer of employment of a Participant between the Company and any one of its Affiliates (or between Affiliates) shall not be deemed a termination of employment. Further, neither an Award nor any benefits arising under this Plan shall constitute an employment contract or other service contract with the Company, its Affiliates, and/or its Subsidiaries and, accordingly, subject to Articles 3 and 17, this Plan and the benefits hereunder may be terminated at any time in the sole and exclusive discretion of the Committee without giving rise to any liability on the part of the Company, its Affiliates, and/or its Subsidiaries.

14.2 Participation. No Employee shall have the right to be selected to receive an Award under this Plan, or, having been so selected, to be selected to receive a future Award.

14.3 Rights as a Shareholder. Except as otherwise provided herein, a Participant shall have none of the rights of a shareholder with respect to Shares covered by any Award until the Participant becomes the registered holder of such Shares.

ARTICLECHANGE IN CONTROL AND OTHER REORGANIZATIONS

15.

15.1 Adjustments to Awards Upon a Change in Control. Upon a Change in Control (defined below), merger or other reorganization event, the Committee or Board may, in their sole discretion, take any one or more of the following actions pursuant to our Plan, as to some or all-outstanding Awards:

- (a) provide that all outstanding Options shall be assumed or substituted by the successor corporation;
- (b) in the event of a Change in Control or merger pursuant to which holders of the Company's common stock will receive a cash payment for each share surrendered in the merger, make or provide for a cash payment to the Participants equal to the difference between the merger price times the number of shares of the Company's common stock subject to such outstanding Options, and the aggregate Option Price of all such outstanding Options, in exchange for the termination of such Options;
- (c) upon written notice to a Participant, (i) provide that the Participant's unexercised Options or Awards will terminate immediately prior to the consummation of such transaction unless exercised by the Participant; or (ii) terminate all unexercised outstanding Options immediately prior to the consummation of such transaction unless exercised by the Participant;
- (d) provide that all or any outstanding Options shall become exercisable in full immediately prior to such event; and
- (e) provide that outstanding Awards shall be assumed or substituted by the successor corporation, become realizable or deliverable, or restrictions applicable to an Award will lapse, in whole or in part, prior to or upon the Change in Control, merger or other reorganization event, as the case may be.

15.2 Definition. For purposes of the Plan, a "Change in Control" means (i) the same definition for "Change in Control" set forth in any employment agreement between the Participant and the Company, Subsidiary and/or Affiliate

in effect when the event(s) occur, or, (ii) in the absence of such an employment agreement, the occurrence of any of the following events:

- (a) The closing of the sale of all or substantially all of Company's assets as an entirety to any person or related group of persons other than an existing holder or existing holders of Company's equity;
- (b) The merger or consolidation of Company with or into another entity or the merger or consolidation of another entity with or into Company, in either case with the effect that immediately after such transaction the equity holders of Company immediately prior to such transaction hold less than a majority in interest of the total voting power of the outstanding voting interests of the entity surviving such merger or consolidation; or
- (c) The closing of a transaction pursuant to which beneficial ownership of more than fifty percent (50%) of Company's outstanding voting equity is transferred to any person or related group of persons other than an existing holder or existing holders of Company's equity.

15.3 Provisions in Agreement. Unless the Committee provides otherwise in an Award, the vesting of an Award shall accelerate 100% upon a Change in Control. Notwithstanding the foregoing, to the extent an Award constitutes "deferred compensation" subject to Code Section 409A and provides for payment (in addition to vesting) upon a change in control, the Agreement shall define "change in control" pursuant to Treasury Regulation Section 1.409A-3(i)(5).

ARTICLE CANCELLATION OF AWARDS

16.

16.1 Limitation or Cancellation of Award. The Committee may provide in the Agreement that if a Participant engages in any Detrimental Activity, the Committee may, notwithstanding any other provision in this Plan to the contrary, cancel, rescind, suspend, withhold or otherwise restrict or limit any unexpired, unexercised or unpaid Award as of the first date the Participant engages in the Detrimental Activity, unless sooner terminated by operation of another term of this Plan or any other agreement. Without limiting the generality of the foregoing, the Agreement may also provide that if the Participant exercises an Award hereunder at any time during the period beginning six months prior to the date the Participant first engages in Detrimental Activity and ending six months after the date the Participant ceases to engage in any Detrimental Activity, the Participant shall be required to pay to the Company the excess of the Fair Market Value of the Shares subject to the Award exercised over the total exercise price paid for such Shares.

16.2 Severability. Should any provision of this Article 16 be held to be invalid or illegal, such illegality shall not invalidate the whole of this Article 16, but, rather, the Plan shall be construed as if it did not contain the illegal part or narrowed to permit its enforcement, and the rights and obligations of the parties shall be construed and enforced accordingly.

ARTICLE AMENDMENT, MODIFICATION AND TERMINATION

17.

17.1 Amendment, Modification and Termination. The Committee may, at any time and from time to time, alter, amend, suspend or terminate the Plan and any Agreement in whole or in part; provided, that, unless approved by the holders of a majority of the total numbers of Shares of the Company represented and voted at a meeting at which a quorum is present, no amendment shall be made to the Plan if such amendment would (a) materially modify the eligibility requirements provided in Article 5; (b) increase the total number of Shares (except as provided in Section 4.2) which may be granted under the Plan; (c) extend the term of the Plan; (d) reprice, replace or regrant through cancellation Options or SARs issued under this Plan or lower the Option Price of a previously granted Option or the Grant Price of a previously granted SAR; or (e) amend the Plan in any other manner which the Committee, in its discretion, determines should become effective only if approved by the shareholders even if such shareholder approval is not expressly required by the Plan or by law.

17.2 Adjustment of Awards Upon Occurrence of Certain Unusual or Nonrecurring Events. The Committee may make adjustments in the terms and conditions of, and the criteria included in, Awards in recognition of unusual or nonrecurring events (including, without limitation, the events described in Section 4.4 hereof) affecting the Company or the financial statements of the Company or of changes in Applicable Laws, regulations, or accounting principles, whenever the Committee determines that such adjustments are appropriate in order to prevent unintended dilution or enlargement of the benefits or potential benefits intended to be made available under this Plan. The determination of the Committee as to the foregoing adjustments, if any, shall be conclusive and binding on Participants under this Plan.

17.3 Awards Previously Granted. No termination, amendment or modification of the Plan shall adversely affect in any material way any Award previously granted under the Plan without the written consent of the Participant holding such Award. The Committee shall, with the written consent of the Participant holding such Award, have the authority to cancel Awards outstanding.

17.4 Amendment to Conform to Law. Notwithstanding any other provision of this Plan to the contrary, the Board may amend the Plan or an Agreement, to take effect retroactively or otherwise, as deemed necessary or advisable for the purpose of conforming the Plan or an Agreement to any present or future law relating to plans of this or similar

nature (including, but not limited to, Code Section 409A), and to the administrative regulations and rulings promulgated thereunder. By accepting an Award under this Plan, each Participant agrees to any amendment made pursuant to this Section 17.4 to any Award granted under the Plan without further consideration or action.

ARTICLE WITHHOLDING

18.

18.1 Tax Withholding. The Company shall have the power and the right to deduct or withhold, or require a Participant to remit to the Company, an amount sufficient to satisfy federal (including the Participant's FICA obligation), state and local taxes, domestic or foreign, required by law to be withheld with respect to any taxable event arising in connection with an Award under this Plan.

18.2 Stock-Settled Awards. Each Participant shall make such arrangements as the Committee may require, within a reasonable time prior to the date on which any portion of an Award settled in Shares is scheduled to vest, for the payment of all withholding tax obligations through (i) giving instructions to a broker for the sale on the open market of a sufficient number of Shares to pay the withholding tax in a manner that satisfies all applicable laws, (ii) depositing with the Company an amount of funds equal to the estimated withholding tax liability, (iii) withholding Shares having a Fair Market Value on the date the tax is to be determined equal to the minimum statutory total tax which could be imposed on the transaction, or (iv) such other method as the Committee in its discretion may approve, including a combination of (i), (ii) and (iii). If a Participant fails to make such arrangements, or if by reason of any action or inaction of the Participant the Company fails to receive a sufficient amount to satisfy the withholding tax obligation, then, anything else contained in this Plan or any Award to the contrary notwithstanding, the Shares that would otherwise have vested on such date shall be withheld, as determined by the Committee, regardless of the Participant's status as an Employee, Director or Third-Party Service Provider; provided, that the Committee, in its sole discretion, may permit a Participant to cure any failure to provide funds to meeting the withholding tax obligation (including any penalties or interest thereon), if the Committee determines that the failure was due to factors beyond the Participant's control. Any method elected by an Insider shall additionally comply with all legal requirements applicable to such Share transactions by such Participants.

ARTICLE INDEMNIFICATION

19.

Each person who is or shall have been a member of the Committee, or the Board, shall be indemnified and held harmless by the Company against and from any loss, cost, liability or expense that may be imposed upon or reasonably incurred by him or her in connection with or resulting from any claim, action, suit or proceeding to which he or she may be a party or in which he or she may be involved by reason of any action taken or failure to act under the Plan and against and from any and all amounts paid by him or her in settlement thereof, with the Company's approval, or paid by him or her in satisfaction of any judgment in any such action, suit or proceeding against him or her, provided he or she shall give the Company an opportunity, at its own expense, to handle and defend the same before he or she undertakes to handle and defend it on his or her own behalf. The foregoing right of indemnification shall be in addition to any other rights of indemnification to which such persons may be entitled under the Company's Articles of Incorporation or Bylaws, as a matter of law, or otherwise, or any power that the Company have to indemnify them or hold them harmless.

ARTICLE SUCCESSORS

20.

All obligations of the Company under the Plan, with respect to Awards granted hereunder, shall be binding on any successor to the Company, whether the existence of such successor is the result of a direct or indirect purchase, merger, consolidation or otherwise, of all or substantially all of the business and/or assets of the Company.

ARTICLE GENERAL PROVISIONS

21.

21.1 Gender and Number. Except where otherwise indicated by the context, any masculine term used herein also shall include the feminine; the plural shall include the singular and the singular shall include the plural.

21.2 Severability. If any provision of the Plan shall be held illegal or invalid for any reason, the illegality or invalidity shall not affect the remaining parts of the Plan, and the Plan shall be construed and enforced as if the illegal or invalid provision had not been included.

21.3 Requirements of Law. The granting of Awards and the issuance of Shares under the Plan shall be subject to all applicable laws, rules and regulations, and to such approvals by any governmental agencies or national securities exchanges as may be required.

Table of Contents

21.4 Regulatory Approvals and Listing. The Company shall not be required to issue or deliver evidence of title for Shares under the Plan prior to (a) obtaining any approval from any governmental agency which the Company shall, in its discretion, determine to be necessary or advisable, (b) the admission of such shares to listing on any national securities exchange or NASDAQ on which the Company's Shares may be listed, and (c) the completion of any registration or other qualification of such Shares under any state, federal or foreign law or ruling or regulation of any governmental body which the Company shall, in its sole discretion, determine to be necessary or advisable.

Notwithstanding any other provision set forth in the Plan, if required by the then-current Section 16 of the Exchange Act, any "derivative security" or "equity security" offered pursuant to the Plan to any Insider may not be sold or transferred for at least six (6) months after the date of grant of such Award. The terms "equity security" and "derivative security" shall have the meanings ascribed to them in the then-current Rule 16(a) under the Exchange Act.

21.5 Investment Representation. The Committee may require any individual receiving Shares pursuant to an Award under this Plan to represent and warrant in writing that the individual is acquiring the Shares for investment and without any present intention to sell or distribute such Shares.

21.6 Employees Based Outside of the United States. Notwithstanding any provision of this Plan to the contrary, in order to comply with the laws in other countries in which the Company, its Affiliates, and/or its Subsidiaries operate or have Employees, Directors, or Third-Party Service Providers, the Committee, in its sole discretion, shall have the power and authority to:

- (a) Determine which Affiliates and Subsidiaries shall be covered by this Plan;
- (b) Determine which Employees, Directors, and/or Third-Party Service Providers outside the United States are eligible to participate in this Plan;
- (c) Modify the terms and conditions of any Award granted to Employees and/or Third-Party Service Providers outside the United States to comply with applicable foreign laws;
- (d) Establish subplans and modify exercise procedures and other terms and procedures, to the extent such actions may be necessary or advisable. Any subplans and modifications to Plan terms and procedures established under this Section 21.6 by the Committee shall be attached to this Plan document as appendices; and
- (e) Take any action, before or after an Award is made, that it deems advisable to obtain approval or comply with any necessary local government regulatory exemptions or approvals.

Notwithstanding the above, the Committee may not take any actions hereunder, and no Awards shall be granted, that would violate applicable law.

21.7 Uncertificated Shares. To the extent that this Plan provides for issuance of certificates to reflect the transfer of Shares, the transfer of such Shares may be effected on a noncertificated basis, to the extent not prohibited by applicable laws.

21.8 Unfunded Plan. Participants shall have no right, title, or interest whatsoever in or to any investments that the Company, and/or its Subsidiaries, and/or its Affiliates may make to aid it in meeting its obligations under this Plan. Nothing contained in this Plan, and no action taken pursuant to its provisions, shall create or be construed to create a trust of any kind, or a fiduciary relationship between the Company and any Participant, beneficiary, legal representative, or any other individual. To the extent that any individual acquires a right to receive payments from the Company, its Subsidiaries, and/or its Affiliates under this Plan, such right shall be no greater than the right of an

unsecured general creditor of the Company, any Subsidiary, or an Affiliate, as the case may be. All payments to be made hereunder shall be paid from the general funds of the Company, any Subsidiary, or an Affiliate, as the case may be and no special or separate fund shall be established and no segregation of assets shall be made to assure payment of such amounts except as expressly set forth in this Plan.

Table of Contents

21.9 No Fractional Shares. No fractional Shares shall be issued or delivered pursuant to this Plan or any Award. The Committee shall determine whether cash, Awards, or other property shall be issued or paid in lieu of fractional Shares or whether such fractional Shares or any rights thereto shall be forfeited or otherwise eliminated.

21.10 Retirement and Welfare Plans. Neither Awards made under this Plan nor Shares or cash paid pursuant to such Awards may be included as “compensation” for purposes of computing the benefits payable to any Participant under the Company’s, any Subsidiary’s, or an Affiliate’s retirement plans (both qualified and non-qualified) or welfare benefit plans unless such other plan expressly provides that such compensation shall be taken into account in computing a Participant’s benefit.

21.11 Deferred Compensation. If any Award granted under the Plan is considered deferred compensation as defined under Code Section 409A, and if this Plan or the terms of an Award fail to meet the requirements of Code Section 409A with respect to such Award, then such Award shall remain in effect and be subject to taxation in accordance with Section 409A. In this circumstance, the Committee may accelerate distribution or settlement of an Award in accordance with Code Section 409A. The Company shall have no liability for any tax imposed on a Participant under Section 409A, and if any tax is imposed on a Participant, the Participant shall have no recourse against the Company for payment of any such tax. Notwithstanding the foregoing, if any modification of an Award causes the Award to be deferred compensation under Code Section 409A, the Committee may rescind such modification in accordance with Code Section 409A.

21.12 Nonexclusivity of this Plan. The adoption of this Plan shall not be construed as creating any limitations on the power of the Board or Committee to adopt such other compensation arrangements as it may deem desirable for any Participant.

21.13 No Constraint on Corporate Action. The adoption of this Plan shall not be construed as creating any limitations on the power of the Board or Committee to adopt such other compensation arrangements as it may deem desirable for any Participant.

21.14 Securities Law Compliance. With respect to Insiders, transactions under this Plan are intended to comply with all applicable conditions of Rule 16b-3 or its successors under the Exchange Act. To the extent any provisions of the Plan or action by the Committee fails to so comply, it shall be deemed null and void, to the extent permitted by law and deemed advisable by the Committee.

21.15 Governing Law. To the extent not preempted by Federal law, the Plan, and all agreements hereunder, shall be construed in accordance with and governed by the laws of the State of Maryland.
