* Total gross revenue is total room revenue from franchised hotels and total hotel revenue from managed, owned and leased hotels. It is not revenue attributable to IHG as it is derived mainly from hotels owned by third parties. The metric is highlighted as an indicator of the scale and reach of IHG's brands. All figures and movements unless otherwise noted are at actual exchange rates and before exceptional items. See appendix 3 for analysis of financial headlines. Constant exchange rate comparatives shown in appendix 4.

Commenting on the results and trading, Andrew Cosslett, Chief Executive of InterContinental Hotels Group PLC said:

"IHG has had a good third quarter, with strong performances across all our brands and the continuation of a record signings pace, which is seeing us sign two new hotels a day and keeping us on track to beat our net room additions target. Last month's announcement of the global relaunch of Holiday Inn has been well received by our hotel owners and we look forward to opening our first rebranded hotel in spring next year. Our outlook for the rest of the year remains positive."

Increase in development pipeline

- o 29,379 rooms were signed; 22,769 in the Americas, 2,097 in EMEA and 4,513 in Asia Pacific.
- o 201,776 rooms are now in the pipeline, up 43,785 (+28%) since the start of the year, at 1,533 hotels.

- o IHG's development activity in Asia Pacific continues to be successful. In Greater China 12 hotels, 3,653 rooms, were signed in the quarter comprising five Crowne Plazas, five Holiday Inns and two Holiday Inn Expresses.
- o Five new hotels were signed into the InterContinental pipeline, which now stands at a record 53 hotels.
- o The pipeline of Crowne Plaza hotels grew by 3,144 rooms (11 hotels) in the quarter, with 5,837 rooms (18 hotels) signed.
- o The pipeline of Holiday Inn and Holiday Inn Express hotels grew by 6,573 rooms (62 hotels) in the quarter. Candlewood Suites and Staybridge Suites added 3,219 rooms (32 hotels) to their pipeline and Hotel Indigo added 1,238 rooms (11 hotels)

Strong growth in net room count

IHG maintains its focus on enhancing the quality of its portfolio, in conjunction with growth. In the quarter:

- o 14,035 rooms (87 hotels) opened; 8,791 (71) in the Americas, 2,549 (12) in EMEA and 2,695 (4) in Asia Pacific.
- o 6,640 rooms exited; 5,563 in the Americas and 1,209 in EMEA. There were no removals in Asia Pacific.
- o The room count at the end of the period increased by 7,395 rooms to 571,071. Since the June 2005 starting position, 33,396 net rooms have been added towards the target of 50,000-60,000 additions by the end of 2008.

Americas: solid performance

Revenue performance

RevPAR increased 5.6% with rate generating all of the increase. InterContinental and Crowne Plaza outperformed their market segments. Holiday Inn and Holiday Inn Express grew rate faster than their segments and delivered RevPAR premiums to their segments of 15% and 13% respectively.

Operating profit performance

Operating profit from continuing operations increased 11% to \$120m. Continuing owned and leased hotel operating profit of \$9m includes a \$2m profit from the InterContinental Boston where trading continues to improve post its November 2006 opening. The underlying improvement was primarily driven by growth in RevPAR and operating margin at the InterContinental New York. Managed hotels performed well with RevPAR up 7% in the quarter, however profit was down from \$13m to \$9m after increased revenue investment to support growth in contract signings, the impact of fewer hotels under management following the restructure of the FelCor contract last year, and the non-recurrence of income from a minority interest now sold and business interruption insurance. Franchised hotels profit increased 12% to \$119m reflecting RevPAR growth of 5% and net room count growth of 4%.

EMEA: strong performance in the Middle East

Revenue performance

RevPAR increased 6.7%, driven by 6.0% rate growth. The Middle East continued to perform strongly, growing RevPAR by 18.0%. Continental Europe delivered a RevPAR increase of 6.4%, comprising a 10.5% increase in France but also a 3.1% fall in Germany, where RevPAR was boosted this time last year by the football world cup. Year to date in the UK, Holiday Inn and Express by Holiday Inn both outperformed their market segment recording RevPAR growth of 6.6%.

Operating profit performance

Operating profit from continuing operations increased 82% from £11m to £20m. Continuing owned and leased hotel operating profit increased from £0m to £7m, £5m of which was from the InterContinental London Park Lane following the completion of its refurbishment. InterContinental Le Grand Paris delivered a 7.5% RevPAR increase and a £1m profit increase. Managed hotels profit increased 22% from £9m to £11m reflecting a full period contribution from assets disposed in September 2006 and strong fee growth in the UK and Middle East managed portfolios. Franchised hotels profit increased from £6m to £8m reflecting RevPAR growth of 4.9% and net room count growth of 6%.

Asia Pacific: further growth across all brands

Revenue performance

RevPAR increased 8.6%, mainly driven by rate. All brands performed strongly, InterContinental RevPAR increased 12.0%, Crowne Plaza 4.5%, Holiday Inn 8.6% and Express 12.2%. Greater China RevPAR increased 5.1% driven by rate increases, year to date RevPAR growth of 5.9% is significantly ahead of the market as strong demand for IHG brands continues.

Operating profit performance

Operating profit from continuing operations increased from \$8m to \$14m. Owned and leased hotel operating profit increased by \$2m to \$6m due to RevPAR and operating margin growth at the InterContinental Hong Kong. Managed hotels profit increased 44% to \$13m, driven by the increasing number of hotels under IHG management.

Overheads and Tax

In the third quarter aggregated regional overheads increased £2m to £17m. Regional overheads in the Americas increased \$2m to \$17m and in EMEA by £2m to £6m due to the non-recurrence of a rate rebate received in the same period last year. Overheads in Asia Pacific were flat. Central overheads increased £2m to £21m. As previously disclosed, IHG expects that in 2007 central overheads will increase in line with inflation.

Based on the position at the end of the quarter, the tax charge on profit from continuing and discontinued operations, excluding the impact of exceptional items, has been calculated using an estimated effective annual tax rate of 22% (Q3 2006: 24%). IHG's tax rate may be more volatile in the immediate future due to changes in tax legislation, tax case law developments and possible settlements of prior year issues but in the longer term is expected, as previously indicated, to show an upward trend.

After the period end, IHG announced its intention to make a non-recurring revenue investment of up to £30m to accelerate implementation of the global relaunch of Holiday Inn and Holiday Inn Express brands. This cost is anticipated to be taken as an exceptional item. IHG expects to generate a strong return on this investment through RevPAR increases across the Holiday Inn brand family following completion of the relaunch.

Disposals and returns of funds

IHG's net debt at the period end was £811m, including the \$200m (£98m) finance lease on the InterContinental Boston. During the quarter IHG's 74.11% interest in the InterContinental Montreal was sold for £17m, and 15% investment in the InterContinental Miami was sold for £5m. The profit on disposal of these properties is included in exceptional items.

2.4m shares were repurchased under IHG's buyback programme during the third quarter, at a cost of £23m, leaving £127m of the current buyback programme to be completed.

Notes to the interim financial statements

1. Basis of preparation

These interim financial statements have been prepared in accordance with International Accounting Standard 34 'Interim Financial Reporting' using, on a consistent basis, the accounting policies set out in the 2006 InterContinental Hotels Group PLC (the Group or IHG) Annual Report and Financial Statements.

In the current year, the Group will adopt International Financial Reporting Standard 7 'Financial instruments: Disclosures' (IFRS 7) for the first time. As IFRS 7 is a disclosure standard only, there is no impact from the adoption of this standard on these interim financial statements.

These interim financial statements are unaudited and do not constitute statutory accounts of the Group within the meaning of Section 240 of the Companies Act 1985. The auditors have carried out a review of the financial information in accordance with the guidance contained in ISRE 2410 (UK and Ireland) 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' issued by the Auditing Practices Board.

The financial information for the year ended 31 December 2006 has been extracted from the Group's published financial statements for that year which contain an unqualified audit report and which have been filed with the Registrar of Companies.

Amounts that have previously been disclosed as special items have now been called exceptional items in accordance with market practice. There has been no change to the Group's accounting policy for identifying these items.

* Relates to continuing operations.

- a. Profit on sale and leaseback of new head office less costs incurred to date. Costs will continue to be incurred until completion of the office move in 2008 and also in relation to the closure of the Aylesbury offices which was announced on 1 October 2007.
- b. The exceptional tax credit relates to the release of provisions which are exceptional by reason of their size or incidence relating to tax matters which have been settled or in respect of which the relevant statutory limitation period has expired, together with, in 2006, a credit in respect of previously unrecognised losses.

9. Tax

The tax charge on the combined profit from continuing and discontinued operations, excluding the impact of exceptional items (note 8), has been calculated using an estimated effective annual tax rate of 22% (2006 24%).

By also excluding the effect of prior year items, the equivalent effective tax rate would be approximately 35% (2006 31%). Prior year items, arising from settlement of tax liabilities and other changes in estimates, have been treated as relating wholly to continuing operations.

10. Discontinued operations

Discontinued operations are those relating to hotels sold or those classified as held for sale as part of the asset disposal programme that commenced in 2003. These disposals underpin IHG's strategy of growing its managed and franchised business whilst reducing asset ownership.

The results of discontinued operations which have been included in the consolidated income statement are as follows:

11. Earnings per ordinary share

Basic earnings per ordinary share is calculated by dividing the profit for the period available for IHG equity holders by the weighted average number of ordinary shares, excluding investment in own shares, in issue during the period.

Diluted earnings per ordinary share is calculated by adjusting basic earnings per ordinary share to reflect the notional exercise of the weighted average number of dilutive ordinary share options outstanding during the period.

On 1 June 2007, shareholders approved a share capital consolidation on the basis of 47 new ordinary shares for every 56 existing ordinary shares, together with a special dividend of 200 pence per existing ordinary share. The overall effect of the transaction was that of a share repurchase at fair value, therefore no adjustment has been made to comparative data.

Adjusted earnings per ordinary share is disclosed in order to show performance undistorted by exceptional items, to give a more meaningful comparison of the Group's performance.

17. Other commitments

In March and June 2007, the Company made the first two payments of £10m under the agreement to make special pension contributions of £40m to the UK pension plan. A further payment of £10m will be paid in both 2008 and 2009.

On 24 October 2007, the Group announced a worldwide relaunch of its Holiday Inn brand family. In support of this relaunch, IHG will make a non recurring revenue investment of up to £30m which it is anticipated will be charged to the income statement as an exceptional item.

INDEPENDENT REVIEW REPORT TO InterContinental Hotels Group pLC

Introduction

We have been engaged by the Company to review the condensed set of financial statements in the interim financial report for the three and nine months ended 30 September 2007 which comprises the Group income statement, Group statement of recognised income and expense, Group cash flow statement, Group balance sheet and the related notes 1 to 17. We have read the other information contained in the interim financial report and considered whether it contains any apparent misstatements or material inconsistencies with the information in the condensed set of financial statements.

This report is made solely to the Company in accordance with guidance contained in ISRE 2410 (UK and Ireland) 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' issued by the Auditing Practices Board. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company, for our work, for this report, or for the conclusions we have formed.

Directors' Responsibilities

The interim financial report is the responsibility of, and has been approved by, the Directors. The Directors are responsible for preparing the interim financial report in accordance with the Disclosure and Transparency Rules of the United Kingdom's Financial Services Authority.

As disclosed in note 1, the annual financial statements of the Group are prepared in accordance with IFRSs as adopted by the European Union. The condensed set of financial statements included in this interim financial report has been prepared in accordance with International Accounting Standard 34, 'Interim Financial Reporting', as adopted by the European Union.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements (UK and Ireland) 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' issued by the Auditing Practices Board for use in the United Kingdom. A review of interim financial information consists of making enquiries, primarily of persons responsible for financial and accounting

matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing (UK and Ireland) and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the condensed set of financial statements in the interim financial report for the three and nine months ended 30 September 2007 is not prepared, in all material respects, in accordance with International Accounting Standard 34 as adopted by the European Union and the Disclosure and Transparency Rules of the United Kingdom's Financial Services Authority.
