Richard Solomons, Chief Executive of InterContinental Hotels Group PLC, said:

"We have achieved a strong first half performance, with our preferred brands continuing to drive good momentum through the second quarter. With underlying operating profit<sup>2</sup> up 6% and solid net system growth, our long-term winning strategy is delivering results. This has given us the confidence to increase the interim dividend by 9%.

We have had our best half for signings<sup>4</sup> in six years, underpinning our future growth prospects and demonstrating owners' preference for our brands. Openings included the first two EVEN Hotels in the US, a major milestone for this new brand, which satisfies a previously unmet guest need in the wellness segment.

We remain committed to reducing the asset intensity of the business, completing two asset disposals in the half, and good progress is being made with the strategic review of our remaining owned hotels. During the half we completed our \$500m share buyback programme and in July we paid a \$750 million special dividend, continuing our long track record of returning funds to shareholders.

Looking ahead, whilst several of our key markets continue to experience some political or economic uncertainty, we are encouraged by current trading trends."

  - Americas 6.7% (US 6.6%); Europe 4.9%; AMEA 3.7%; Greater China 4.3%.
  - Q2 comparable RevPAR up 5.7%: Americas 6.7% (US 6.7%); Europe 4.1%; AMEA 3.6%; Greater China 4.6%.

1 All figures are before exceptional items unless otherwise noted. Refer appendices for further financial information and definitions.

2 At constant exchange rates (CER) and excluding owned asset disposals, significant liquidated damages, and results from managed lease hotels. Underlying adjusted EPS is based on Underlying EBIT and uses effective tax rate and interest as reported at actual exchange rates.

3 Including exceptional items.

4 Adjusted for rooms on US Army bases: 2014: 2k signed, 2013: 4k signed and opened.

5 On a Total RevPAR basis.

Americas - Strong RevPAR growth and signings pace

Comparable RevPAR increased 6.7%, with 3.1% rate growth, and second quarter RevPAR also increased 6.7%. US comparable RevPAR was up 6.6% in the first half and 6.7% in the second quarter.

Reported revenue decreased 5% (CER (5)%) to \$435m and reported operating profit decreased 5% (CER (5)%) to \$268m, but on an underlying basis<sup>1</sup>, revenue increased 9% and operating profit increased 7%. This was driven primarily by our franchise business where royalties were up 7%. Underlying<sup>1</sup> owned and leased hotel profits increased 80%, driven by 6.7% RevPAR growth at InterContinental Boston, and 30.5% RevPAR growth at Holiday Inn Aruba, which is benefiting from its recent refurbishment. Recent changes to the Venezuelan exchange rate had an unfavourable impact on managed operating profit of approximately \$2m, with a further \$2m impact expected in the second half.

We opened 9k rooms (74 hotels) in the half, including the first two properties for our new EVEN Hotels brand. Signings of 19k rooms (158 hotels) are up 25% year on year<sup>2</sup>, as the hotel debt financing environment continues to improve, and included over 100 hotels (12k rooms) for the Holiday Inn brand family. Maintaining the quality of our system by removing hotels that no longer meet the requirements of our brands remains a key focus, and we removed 7k rooms (54 hotels) in the first half. Excluding removals, gross rooms growth was 4%.

The refurbishment of InterContinental New York Barclay is due to commence in the third quarter, with the hotel closing for up to 18 months. IHG's share of the second half loss associated with the hotel joint venture is still expected to be around \$5m, which will be reflected in Americas managed results.

<sup>1</sup> At CER & excluding owned asset disposals, significant liquidated damages and results from managed lease hotels. Year on year operating profit impact of \$(31)m comprising (a) results from owned assets disposals of \$(7)m ( H1'14: \$(1)m; H1'13: \$6m) (b) significant liquidated damages receipts of \$(24)m (H1'14: \$7m (franchised) of which \$4m was previously announced; H1'13: \$31m (managed)) and (c) results from managed lease hotels of \$nil (H1'14: \$1m, H1'13: \$1m). Revenue impact set out in appendix 5

<sup>2</sup> Excluding rooms on US Army bases: 2014: 2k signed, 2013: 4k signed and opened.

#### Europe - Strong trading performance in key markets

Comparable RevPAR increased 4.9%, with second quarter RevPAR up 4.1%. First half trading was particularly strong in the UK, up 8.7%, with high single digit growth in both London and the provinces, while Germany delivered another solid performance with RevPAR up 3.1%.

Reported revenue of \$182m was down 12% (CER 16%) and reported operating profit of \$38m decreased 28% (CER 32%), but on an underlying basis<sup>1</sup>, revenue was down 2% and operating profit down 3%. This reflects good operating profit growth in the managed and franchised business driven by mid-single digit RevPAR growth, offset by a \$7m operating profit decline at our only remaining owned hotel in this region, InterContinental Paris - Le Grand (with \$7m associated revenue decline). As previously guided, this was primarily due to the refurbishment of the historic Salon Opera ballroom and c.15% of the guest rooms at the hotel, with an additional small negative impact from the absence of the biannual Paris air show in 2014. No further impact is expected from the refurbishment for the full year.

We opened 3k rooms (18 hotels) in the half, including three Hotel Indigo hotels in the prime city locations of Rome, Madrid and St Petersburg. We signed 2k rooms (14 hotels) including two Holiday Inn hotels in Germany and three Holiday Inn Express hotels in the UK.

---

<sup>1</sup> At CER & excluding owned asset disposals, significant liquidated damages and results from managed lease hotels. Year on year operating profit impact of \$(16)m comprises (a) results from owned assets disposals of \$(8)m ( H1'14: \$nil; H1'13: \$8m) (b) significant liquidated damages receipts of \$(9)m (H1'14: \$nil; H1'13: \$9m (franchised)) and (c) results from managed lease hotels of \$1m (H1'14: \$nil, H1'13: \$(1)m).

AMEA - Rate driven RevPAR growth and increasing contribution from developing markets

Comparable RevPAR increased 3.7% driven primarily by rate growth, with second quarter RevPAR up 3.6%. Excluding Thailand and Egypt where there has been ongoing political unrest, first half RevPAR increased 5.4%. Performance was led by Japan up 8.8% and South East Asia which, excluding Thailand, was up 7.2%. Australia and the Middle East continue to perform solidly with RevPAR growth of 6.0% and 4.1% respectively.

Total RevPAR grew 1.7%, reflecting an increasing mix of new rooms opening in lower RevPAR developing markets.

Reported revenue increased 15% (CER 19%) to \$117m and operating profit decreased 7% (CER (7%)) to \$38m. However, on an underlying basis<sup>1</sup> revenue was flat, and operating profit decreased 12%. This reflects solid underlying growth in our managed business offset by a \$2m increased investment to support future growth, a \$3m negative impact from certain small one-off items, and \$1m lower fees from our hotels in Thailand. The continuing political unrest in Thailand is expected to have a \$2m impact on managed operating profit in the second half of the year. In addition, the managed hotel refurbishment programmes scheduled to take place in 2014, as previously disclosed, had no material impact on fees in the half, but are expected to have a \$2m negative impact on fees in the second half of the year.

We opened 2k rooms (8 hotels) in the half, including the 442 room Holiday Inn Express Clarke Quay in Singapore and two Holiday Inn hotels in Japan. We signed 2k rooms (8 hotels) in the first half, including two new hotels in Abu Dhabi, which will mark the entry of a second InterContinental and second Holiday Inn property into the UAE capital.

---

<sup>1</sup> At CER and excluding results from managed lease hotels. Year on year operating profit impact of \$2m comprises results from managed lease hotels (H1'14: \$2m, H1'13: \$nil).

Greater China - Continued industry outperformance

Comparable RevPAR increased 4.3% driven by occupancy growth, with second quarter RevPAR up 4.6%. This performance was significantly ahead of the industry, which continues to experience a number of challenges including slower macro-economic conditions and austerity measures. Our industry outperformance reflects the strength of IHG's brands in the region and the leading position we have built up over 30 years of operating in the Chinese market.

Total RevPAR for the region decreased 1.4% reflecting an increasing mix of new rooms opening in lower RevPAR developing markets as we increase our distribution across the country.

Reported (and CER) revenue and operating profit were in line with last year at \$112m and \$36m respectively. This reflects good growth in the managed business, where 16% net rooms growth drove strong incremental fees despite the total RevPAR declines. In addition, the on-going industry austerity measures have continued to impact our food and beverage revenues in the region, up 5% compared to rooms revenues up 9%. InterContinental Hong Kong, our only owned hotel in the region, reported a \$3m decrease in revenue to \$66m and a \$3m decrease in operating profit to \$19m due to the continuing impact from the significant redevelopment of the area adjacent to the hotel; this is expected to continue into the second half.

We opened 4k rooms (9 hotels) in the half, including five Crowne Plaza hotels, taking our system size for the brand in the region to 25k rooms. We signed 7k rooms (28 hotels) taking the pipeline to 55k rooms and reflecting the confidence owners have in IHG and the compelling long term growth opportunity for this region.

Sources and uses of cash

- Progress on asset disposals

-

- Strategic review of opportunities for further asset disposals is progressing well.
  - Disposals of InterContinental Mark Hopkins San Francisco and an 80% interest in InterContinental New York Barclay completed with net cash proceeds of \$346m.
  - \$13m proceeds received from recycled investments in the first half.
  - Capital Expenditure
    - \$98m capital expenditure in the first half comprised: \$52m maintenance capex and key money; \$27m recyclable investments; and \$19m system funded capital investments.
    - Gross capex guidance remains unchanged at up to \$350m per annum into the medium term.
  - Continued return of funds to shareholders
    - \$763m<sup>1</sup> returned to shareholders in July via \$2.93 per share special dividend with 12 for 13 share consolidation.
    - \$500m share buyback programme completed, including 3.4m shares repurchased for \$110m in 2014.
    - Ordinary interim dividend up 9% to 25¢ reflects confidence in IHG's future prospects and our cash generative business model.
- \_\_\_\_\_
- 1 The difference from announced \$750m is due to exchange rate movements.

#### Interest, tax, net debt, and exceptional items

- Interest: H1 charge of \$39m (H1 2013: \$36m) includes \$1m impact from \$/£ exchange rate movements. We expect higher interest charges year on year in the second half of 2014 following the payment of the special dividend in July.
- Tax: Based on the position at the end of the half, the tax charge has been calculated using an estimated annual tax rate of 33% (H1 2013: 31%). The full year tax rate is expected to be in the low 30s in 2014 and 2015.
- Net debt: \$1,031m at the end of the half (including the \$216m finance lease on the InterContinental Boston). This is up from \$861m at 30 June 2013 as a result of the \$350m special dividend paid in October 2013 and the completion of our \$500m share buyback (\$257m of which occurred in the 12 month period). Net debt is down on the year end position of \$1,153m due to net cash inflow from disposals. The special dividend paid in July will increase net debt to approximately \$1.8bn, equivalent to 2.5x last 12 months EBITDA.
- Exceptional items: net exceptional credit of \$106m for the half comprised: \$130m net gain on asset disposals, \$14m charge relating to recent changes to the Venezuelan currency exchange rate mechanisms, and a \$10m charge related to corporate restructuring.

Revenue decreased by 3.0% to \$908m and operating profit before exceptional items decreased by 8.3% to \$310m during the six months ended 30 June 2014. On an underlying trading basis<sup>1</sup>, revenue and operating profit increased by \$31m (4.1%) and \$17m (6.0%) respectively when translated at constant currency and applying 2013 exchange rates.

Fee revenue<sup>2</sup> increased by 6.2% during the six months ended 30 June 2014, when translated at constant currency and applying 2013 exchange rates. Group RevPAR increased by 5.8% over the same period, with average daily rate increasing by 2.3%.

Group trading was strong over the first half of the year, with favourable economic trends in the US and the UK, and healthy RevPAR growth in certain markets in AMEA (primarily Japan, Australasia and Southeast Asia, excluding Thailand which was impacted by political unrest). Greater China outperformed the industry, achieving 4.3% RevPAR growth.

IHG completed the sale of the InterContinental Mark Hopkins San Francisco on 27 March 2014 and the disposal of 80% of its interest in the InterContinental New York Barclay on 31 March 2014 retaining the remaining 20% in a joint venture. Net cash proceeds totalled \$346m.

On an underlying basis, operating profit in the Americas increased whereas profits in Europe declined (largely driven by lower profits at the InterContinental Paris-Le Grand due to refurbishment). Operating profit declined in AMEA, reflecting additional investment to support hotel operations and a number of individually small adverse one off items together with weaker trading in Thailand. Operating profit in Greater China was flat affected by lower profits at the InterContinental Hong Kong due to the ongoing impact from the significant redevelopment of the area adjacent to the hotel. The Group's results also benefited from System size growth of 2.2% year-on-year to 693,072 rooms.

Profit before tax decreased by \$85m from \$462m to \$377m. Adjusted earnings per ordinary share decreased by 9.6% to 70.7¢.

The IHG global System (the number of hotels which are franchised, managed, owned or leased by the Group) increased in the first half of 2014 by 35 hotels (6,199 rooms) to 4,732 hotels (693,072 rooms). Openings of 109 hotels (17,298 rooms) were driven by continued expansion of the Holiday Inn brand family, which has opened more than 10,000 rooms in the first half of the year. 8,844 rooms were opened in the Americas, with 3,957 rooms in Greater China. 74 hotels (11,099 rooms) were removed from the System.

At 30 June 2014, the pipeline totalled 1,175 hotels (186,534 rooms), an increase of 55 hotels (6,073 rooms) since the year-end. The IHG pipeline represents hotels and rooms where a contract has been signed and the appropriate fees paid. Almost a third of the pipeline (measured by number of rooms) is located in the Greater China region.

Signings of 208 hotels (29,844 rooms) for the six months ended 30 June 2013 were 13 hotels (635 rooms) higher than in the same period in 2013 (excluding hotels signed as part of the US government's Privatization of Army Lodgings in 2013 and 2014). Terminations of 44 hotels (6,473 rooms) were lower than the corresponding period in the prior year (63 hotels, 6,915 rooms).

1 Excluding owned asset disposals, results from managed lease hotels and significant liquidated damages.

2 Fee revenue is defined as Group revenue excluding revenue from owned and leased hotels, managed leases and significant liquidated damages

During the six months ended 30 June 2014, revenue decreased by \$22m (4.8%) to \$435m and operating profit before exceptional items decreased by \$14m (5.0%) to \$268m. On an underlying basis, revenue increased by \$31m (8.8%) and operating profit by \$17m (7.0%). RevPAR increased by 6.7% in the first half of 2014, with the US up 6.6% supported by strong industry dynamics.

Franchised revenue increased by \$27m (9.7%) to \$305m, whilst operating profit increased by \$18m (7.3%) to \$263m. Excluding the benefit of \$7m liquidated damages receipts relating to the exits of two hotels during the first half of the year, revenue and operating profit increased by \$20m (7.2%). Royalties growth of 6.8% was driven by RevPAR growth of 6.5%, together with year-on-year System size growth of 0.2%.

Managed revenue decreased by \$27m (34.2%) to \$52m and operating profit decreased by \$27m (51.9%) to \$25m. Revenue and operating profit included \$21m (2013 \$19m) and \$1m (2013 \$1m) respectively from a property that is structured for legal reasons as an operating lease but has the same characteristics as a management contract. Excluding this property, as well as the benefit of \$31m liquidated damages receipts relating to the exit of eight hotels owned by FelCor Lodging Trust during the first half of the year in 2013, revenue increased by \$2m (6.9%) and operating profit increased by \$4m (20.0%). RevPAR increased by 8.3%, partly reflecting the completion of renovations at a number of hotels.

Owned and leased revenue decreased by \$22m (22.0%) to \$78m and operating profit decreased by \$3m (27.3%) to \$8m, due to the disposal of two owned hotels (the InterContinental New York Barclay (an 80% interest) and the InterContinental Mark Hopkins San Francisco) during the first quarter. Excluding these two hotels, revenue and operating profit increased by \$9m (19.6%) and \$4m (80.0%) respectively. RevPAR increased by 9.1%, with a particularly strong performance at the Holiday Inn Aruba, which achieved RevPAR growth of 30.5% boosted by the completion of renovations, and InterContinental Boston, which achieved RevPAR growth of 6.7%.

Revenue and operating profit before exceptional items remained flat at \$112m and \$36m respectively. RevPAR increased by 4.3% in the first half of the year, which was a significant outperformance to the industry. Trading in the first half of 2014 was impacted by the ongoing industry-wide challenges including slower macroeconomic conditions and austerity measures and also by lower results at the InterContinental Hong Kong

Franchised revenue and operating profit remained flat at \$2m.

Managed revenue and operating profit increased by \$3m (7.3%) to \$44m and by \$2m (8.7%) to \$25m respectively. Year-on-year System size growth of 13.8% was supplemented by RevPAR growth of 3.7%, however total RevPAR was lower reflecting an increasing mix of new rooms opening in lower RevPAR developing markets. Total gross revenue derived from non-rooms business also increased by 5.2%, compared to the six months ended 30 June 2013.

In the owned and leased estate, revenue decreased by \$3m (4.3%) to \$66m and operating profit decreased by \$3m (13.6%) to \$19m. RevPAR remained flat at the InterContinental Hong Kong, with results impacted by a \$3m (7%) decline in non-rooms revenues due to the ongoing impact from the significant redevelopment of the area adjacent to the hotel.

Seven hotels (2,697 rooms) were terminated from the pipeline.

## CENTRAL

Net central costs decreased by \$4m (5.4%) to \$70m during the six months ended 30 June 2014. This favourability largely related to timing of expenditure.

## SYSTEM FUNDS

In the six months ended 30 June 2014, System Fund income increased by \$64m (10.2%) to \$693m due to the growth in hotel-room revenues and marketing programmes.

## OTHER FINANCIAL INFORMATION

### Exceptional operating items

Exceptional operating items totalled a net gain of \$106m. The exceptional gain of \$130m related to the sale of the InterContinental Mark Hopkins San Francisco and the disposal of an 80% interest in the InterContinental New York Barclay. Exceptional charges included \$14m foreign exchange losses resulting from recent changes to the Venezuelan currency rate mechanisms and the adoption of the SICAD II exchange rate, and \$10m relating to the restructuring of the Group's corporate functions.

### Net financial expenses

Net financial expenses increased by \$3m to \$39m for the six months ended 30 June 2014.

## Taxation

The tax charge on profit before tax, excluding the impact of exceptional items, has been calculated using an estimated effective annual tax rate of 33%. By also excluding the effect of prior-year items, the equivalent effective tax rate would be approximately 37%. This rate is higher than the average UK statutory rate for the year of 21.5% due mainly to certain overseas profits (particularly in the US) being subject to statutory rates higher than the UK statutory rate, unrelieved foreign taxes and disallowable expenses.

Taxation within exceptional items totalled a charge of \$49m. This represented, primarily, tax charges arising as a consequence of the disposal of an 80% interest in the InterContinental New York Barclay.

Net tax paid in the six months ended 30 June 2014 totalled \$59m.

## Dividends

The Board has proposed an interim dividend per ordinary share of 25¢ (14.8p), representing growth of 9% on the 2013 interim dividend.

On 2 May 2014, the Group announced a \$750m return to shareholders by way of special dividend and share consolidation. The dividend was paid to shareholders on 14 July 2014.

Under the \$500m share buyback programme announced on 7 August 2012, a total of 17.3m shares have been repurchased for a total consideration of \$500m.

## Capital structure and liquidity management

During the six months ended 30 June 2014, \$205m of cash was generated from operating activities. Net cash inflows due to investing activities totalled \$261m, reflecting the sale of the InterContinental Mark Hopkins San Francisco and the disposal of an 80% interest in the InterContinental New York Barclay for net proceeds of \$346m. Net cash used in financing activities was \$282m and included returns to shareholders of \$232m comprising ordinary dividends and share buybacks. Net debt at 30 June 2014 was \$1,031m and included \$216m in respect of the finance lease obligations for the InterContinental Boston.

On 14 July 2014, the Group paid a special dividend of \$763m which was funded from surplus cash and borrowings under the Group's \$1.07bn Syndicated Facility, which was undrawn at 30 June 2014.

The Group had net liabilities of \$89m at 30 June 2014 reflecting that its brands, in accordance with accounting standards, are not recorded on the balance sheet.

## RISKS AND UNCERTAINTIES

The principal risks and uncertainties which could materially affect the Group's business for the remainder of the financial year remain those set out on pages 164 to 167 of the IHG Annual Report and Form 20-F 2013.

In summary, the Group is exposed to risks relating to:

- political and economic developments;
- events that adversely impact domestic or international travel;

- the hotel industry supply and demand cycle;
- a competitive and changing industry;
- the dependency on a wide range of external stakeholders and business partners;
- identifying, securing and retaining franchise and management agreements;
- changing technology and systems;
- the reputation of its brands and the protection of intellectual property rights;
- the reliance upon its proprietary reservations system and is exposed to the risk of failures in the system and increased competition in reservations infrastructure;
- information security and data privacy;
- safety, security and crisis management;
- requiring the right people, skills and capability to manage growth and change;
- compliance with existing and changing regulations across numerous countries, territories and jurisdictions;
- litigation;
- corporate responsibility;
- its financial stability, ability to borrow and satisfy debt covenants; and
- difficulties insuring its business.

We have achieved a strong first half performance, with our preferred brands continuing to drive good momentum through the second quarter. With underlying operating profit up 6% and solid net system growth, our long-term winning strategy is delivering results. This has given us the confidence to increase the interim dividend by 9%.

Looking forward, leading economic indicators remain positive. Booking pace is up for the Group as a whole, with increases in both rate and rooms on the books for the rest of the year.

The favourable supply and demand dynamic in the US continues to support good growth in our largest region, with record industry room nights sold for the last 40 months. This combined with IHG's preferred brands and best-in-class delivery systems gives us confidence in the outlook, despite the political and economic uncertainty we are expecting in a number of our key markets.

## GOING CONCERN

An overview of the business activities of IHG, including a review of the key business risks that the Group faces, is given in this Interim Management Report. Information on the Group's treasury management policies can be found in note 21 to the Group Financial Statements in the IHG Annual Report and Form 20-F 2013. The Group refinanced its bank debt in November 2011 and put in place a five-year \$1.07bn facility. In November 2009, the Group issued a seven-year £250m sterling bond and, in November 2012, a 10-year £400m sterling bond. At the end of June 2014, the Group was trading significantly within its banking covenants and debt facilities.

The Group's fee-based model and wide geographic spread means that it is well placed to manage through uncertain times and our forecasts and sensitivity projections, based on a range of reasonably possible changes in trading performance, show that the Group should be able to operate within the level of its current facilities.

After making enquiries, the Directors have a reasonable expectation that the Company and the Group have adequate resources to continue in operational existence for the foreseeable future and, accordingly, they continue to adopt the

going concern basis in preparing the Financial Statements.

## DIRECTORS' RESPONSIBILITY STATEMENT

- The Interim Management Report includes a fair review of the important events during the first six months, and their impact on the financial statements and a description of the principal risks and uncertainties for the remaining six months of the year, as required by DTR 4.2.7R; and
- The Interim Management Report includes a fair review of related party transactions and changes therein, as required by DTR 4.2.8R.

Basic earnings per ordinary share is calculated by dividing the profit for the period available for IHG equity holders by the weighted average number of ordinary shares, excluding investment in own shares, in issue during the period.

Adjusted earnings per ordinary share is disclosed in order to show performance undistorted by exceptional items, to give a more meaningful comparison of the Group's performance.

Equity securities available-for-sale and derivatives are held in the Group statement of financial position at fair value as set out below. The fair value of loans and receivables approximates book value based on prevailing market rates. The fair value of the £250m and £400m bonds is based on their quoted market price. The fair value of finance lease obligations is calculated by discounting future cash flows at prevailing interest rates. The fair value of other borrowings approximates book value as interest rates reset to market rates on a frequent basis. The following table provides the fair value measurement hierarchy of the above assets and liabilities, other than those with carrying amounts which are reasonable approximations of their fair values.

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Edgar Filing: INTERCONTINENTAL HOTELS GROUP PLC /NEW/ - Form 6-K

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

30 June 2014	Level 1 \$m	Level 2 \$m	Level 3 \$m	Total \$m
Assets				
Equity securities available-for-sale:				
Quoted equity shares	16	-	-	16
Unquoted equity shares	-	-	126	126
Derivatives	-	5	-	5
31 December 2013	Level 1 \$m	Level 2 \$m	Level 3 \$m	Total \$m
Assets				
Equity securities available-for-sale:				
Quoted equity shares	9	-	-	9
Unquoted equity shares	-	-	127	127
Derivatives	-	1	-	1

The Level 2 derivatives consist of currency swaps which are valued using data from observable swap curves, adjusted to take account of the Group's own credit risk.

The Level 3 equity securities relate to investments in unlisted shares which are valued either by applying an average price-earnings (P/E) ratio for a competitor group to the earnings generated by the investment, or by reference to share of net assets. The average P/E ratio used for the period was 25.0 and a non-marketability factor of 30% is applied.

A 10% increase in the average P/E ratio would result in a \$5m increase in the fair value of the investments and a 10% decrease in the average P/E ratio would result in a \$5m decrease in the fair value of the investments. A 10% increase in net assets would result in a \$5m increase in the fair value of investments and a 10% decrease in net assets would result in a \$5m decrease in the fair value of the investments.

There were no transfers between Level 1 and Level 2 fair value measurements during the period and no transfers into and out of Level 3.

The following table reconciles movements in instruments classified as Level 3 during the period:

## 12. Commitments and contingencies

At 30 June 2014, the amount contracted for but not provided for in the financial statements for expenditure on property, plant and equipment and intangible assets was \$128m (2013 31 December \$83m; 30 June \$63m). The Group has also committed to invest up to \$97m in four investments accounted for under the equity method, of which \$43m had been spent at 30 June 2014. In addition, the Group has outstanding loan commitments to these equity investments of \$27m at 30 June 2014.

At 30 June 2014, the Group had contingent liabilities of \$46m (2013 31 December \$nil; 30 June \$2m), largely related to amendments to management agreement contractual obligations.

In limited cases, the Group may provide performance guarantees to third-party hotel owners to secure management contracts. The maximum unprovided exposure under such guarantees is \$51m (2013 31 December \$48m; 30 June \$47m).

In limited cases, the Group may guarantee bank loans made to facilitate third-party ownership of hotels in which the Group has an equity interest and also a management contract. At 30 June 2014, there were guarantees of \$20m in place (2013 31 December \$20m; 30 June \$20m).

From time to time, the Group is subject to legal proceedings the ultimate outcome of each being always subject to many uncertainties inherent in litigation. In particular, the Group is currently subject to class action law suits in the US. The Group has also given warranties in respect of the disposal of certain of its former subsidiaries. It is the view of the Directors that, other than to the extent that liabilities have been provided for in these financial statements, it is not possible to quantify any loss to which these proceedings or claims under these warranties may give rise, however, as at the date of reporting, the Group does not believe that the outcome of these matters will have a material effect on the Group's financial position.
