non-GAAP financial measures comprising non-GAAP net loss per share. This non-GAAP financial measure excludes from the directly comparable GAAP measures, amortization of stock compensation expense. As required by Regulation G, the press release contains a reconciliation of the non-GAAP financial measure to the most directly comparable GAAP measure. The Company believes the non-GAAP measure is useful to investors because it provides an alternative method for measuring the operating performance of the Company's business, excluding certain non-cash and non-recurring items that would normally be included in the most directly comparable GAAP financial measure. The Company's management uses these non-GAAP financial measures along with the most directly comparable GAAP financial measures in evaluating the Company's operating performance. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with GAAP, and non-GAAP financial measures as reported by the Company may not be comparable to similarly titled items reported by other companies.
