Cresud announces its results for the first quarter ended September 30, 2003

Buenos Aires, September 11, 2003 Cresud S.A.C.I.F.y A. (Nasdaq: CRESY BASE: CRES), one of the leading agricultural companies in Argentina, today announces the results for its first quarter fiscal year 2003 ended September 30, 2003.

The Financial Statements ended on September 30, 2003 show the effects of inflation up to February 28, 2003, the date on which the adjustment for inflation of financial statements was eliminated as established by the Argentine Securities Commission. The corresponding amounts for the period ended on September 30, 2003 have been restated at year-end, adjusted by the 0.9938 wholesale inflation coefficient during September 2002 and February 2003.

Results for the first quarter of fiscal Year 2004 showed a net loss of Ps. 2.0 million as compared to a Ps. 9.1 million profit registered during the same period of the previous fiscal year.

The decrease in the net result is a consequence of the lesser amount of crops sold, the lower revaluation of cattle compared to the previous year and the net loss derived from our share in IRSA Inversiones y Representaciones S.A

The operating result showed for the three month period ended on September 30, 2003 a Ps. 1.6 million profit, compared to a Ps. 10.8 million profit registered during the same period of the previous fiscal year.

Consolidated net sales for the period amounted to Ps. 12.2 million, 44% lower than those registered during the same period of the previous fiscal year, mainly due to the lesser volume of crops sold during the quarter.

Gross profit during the first three months of FY 2004 amounted to Ps. 2.1 million as compared to Ps. 5.2 million registered during the same period of the previous year. The main cause of this reduction was the lower gross profit obtained in the crop segment.

Results from related companies showed a Ps. 2.8 million loss, mainly due to our 23% ownership share in IRSA Inversiones y Representaciones S.A.

Summary of operations

Crops

During the quarter, the harvest corresponding to the previous season was completed reaching a total production of 72.8 million tons, of which 41 % corresponded to corn, 34% to soybean, 13% to wheat, 4% to sunflower and the rest to other crops.

Crop sales for the quarter amounted to Ps. 5.6 million as compared to Ps. 16.8 million registered during the previous year. The volume of crops sold reached 12,202 tons at an average price of Ps. 383 per ton as compared to 37,268 tons sold at an average price of Ps. 439 per ton during the same quarter of the previous fiscal year.

Our crop stock at the closing of the quarter amounted to 15,317 tons of which 2,542 tons correspond to soybean and 12,734 to corn.

Gross profit corresponding to this segment for the quarter ended on September 30, 2003 amounted to Ps. 1.1 million as compared to a Ps. 3.4 million profit registered during the same period of the previous fiscal year.

Forecasts for the price of crops are promising, due to the increasing demand of China, the low world stocks and cuts to US and European production estimates. The price of soybean will be determined according to the advance of the US and Latin American harvests.

For the current season we have destined 21,706 hectares to agriculture, of which 8,489 hectares were leased to third parties. The total area destined to agriculture decreased 1,932 hectares, as compared to the previous year, due to the lesser land leased to third parties.

Considering the rise in the price of leased land, we adopted a cautious decision not accepting such rise and only leasing land at prices which would allow us to acquire appropriate margins, and not speculating with the price that commodities could reach in the future.

Most of the land leases were agreed at a fixed price prior to harvest and only a small percentage was leased under crop sharing agreements.

Cattle Beef

As of September 30, 2003, the Company's cattle stock amounted to 83,767 heads with 126,100 hectares destined to this activity.

Livestock sales increased 32 % from Ps. 4.2 million as of September 30, 2002 to Ps. 5.5 million as of September 30, 2003. During the quarter a total of 3,048 tons were sold at an average price of Ps. 1.8 per kilogram, while during the first three months of fiscal year 2002 the tons sold amounted to 2,147 with an average price of Ps. 1.52 per kilogram.

Gross profit for the cattle beef segment amounted to Ps. 0.9 million, as compared to Ps. 1.8 million registered during the first quarter of the previous fiscal year. This decrease in the profit was a consequence of the cattle finished in our Feed Lot where costs were higher, though generating an increase in the production due to the higher cattle rotation and the shorter fattening period.

Cattle beef production amounted 2,069 tons, representing a 4.6% increase compared to the previous fiscal year, mainly due to an increase in the average cattle stock.

Milk

Milk production increased 6.5% during the quarter from 1.7 million liters as of September 30, 2002 to 1.8 million liters as of September 30, 2003.

Gross profit as of September 30, 2003, increased to Ps. 0.3 million, 25% higher than the profit obtained during the same quarter of the previous fiscal year.

Currently the Company's only dairy farm is located at La Juanita, where the feeding system is based solely on pastures. This feeding system, of lower cost, allows an enhancement of milk margins as compared to systems based on grains.

The milk business in Argentina went through severe oscillations during the course of time, from the euphoria of 1997 and 1998 to the 2001 crisis. Actually, with firm prices, this segment is once again attractive.

Clearing and development of marginal land

We believe that the business's potential, as has happened in various countries, relies on the development of marginal land; using state of the art technology, yields comparable to those of the nucleus area can be obtained.

Edgar Filing: CRESUD INC - Form 6-K

For the current season, to the 14,000 productive hectares destined to cattle in our Los Pozos farm, located in Salta, we have added 1,300 hectares for soybean production and clearing works on 18,000 additional hectares for cattle were started. Actually, our Los

Pozos farm shows returns in the cattle business above the company's media and the industry's average.

Additionally, we continue to clear 1,185 hectares in our AgroRiego San Luis farm, located in the province of San Luis, for crop irrigation.

Cresud's land reserves amount to 272,000 hectares which were acquired at very low prices. We believe that with the development of these areas, together with proper technology, the value of land will rise generating interesting returns for the Company.

Sale of El 41-42 farm

On August 22, 2003, the bill of sale of our cattle ranch El 41-42, of 6,478 hectares, located in the province of Chaco, was signed for a total of U\$ 1 million. This operation will generate a U\$ 0.4 million profit, which will be recorded in our next quarter's balance sheet.

Feed Lot

During the quarter, our 170 hectare Feed Lot, located in the province of San Luis, where the Company's equity interest through Cactus Argentina S.A. is 50%, kept consolidating its growth, operating at 100% of its capacity and with an approximate 20 day delay in the waiting list.

Due to the constant increase in the demand for the use of our Feed Lot, we have started works to enlarge the capacity of our first enterprise in approximately 4,000 heads and we plan the development of a second enterprise with a capacity that has not been determined yet.

The uniformity obtained in the final product of the feed lot cattle has granted buyers a high quality product, making its commercialization easy and obtaining higher prices at the moment of selling.

During the quarter ended September 30, 2003, Cactus Argentina S.A.'s income amounted to Ps. 5 million, 17% higher than that registered during the same quarter of the previous fiscal year.

INTERNET

Fyo.com, internet site where the company's equity interest amounts 70%, maintains its position as leading agriculture site and has started to expand the scope of commercial services for the farming community through the direct sale of inputs and crop brokerage.

Actually, Futuros y Opciones.com S.A. has a database of 35,000 users and more than 5,000 farmers entitled to carry out deals. Our strategy is focused in commercial services for farmers, using Cresud's expertise and operative capacity in the business, being FyO the link with the client.

During the quarter ended on September 30, 2003, Futuros y Opciones.com S.A.'s income amounted to Ps. 0.2 million, 35% higher than that registered during the same quarter of the previous fiscal year. The net result for the quarter showed a Ps. 0.2 million loss.

Principal Operative Indicators

For the three-month period ended September 30, 2003 and 2002

	3 months as of September, 30 2003	3 months as of September, 30 2002	%

Results from IRSA Inversiones y Representaciones S.A.

Quarters result derived from our equity interest in IRSA Inversiones y Representaciones (NYSE: IRS BCBA: IRSA) showed a Ps. 3.5 million loss as compared to a Ps. 11.9 million profit as of September 30, 2002.

IRSA's result was strongly influenced by fluctuations of the exchange rates, which derived in a 4% appreciation during the quarter, generating a Ps. 14.1 million negative result to such company. Regarding its operating result IRSA showed a Ps. 8.8 million profit as compared to a Ps. 4.7 million loss during the same period of the previous fiscal year.

IRSA is Argentina's leading real estate company with a totally diversified portfolio of properties. IRSA participates in the following business segments:

- **Office rental** with more than 85,000 m2 for lease.
- Operation of **Shopping Centers** through its 55% equity interest in Alto Palermo S.A. (APSA) (Nasdaq: APSA, BCBA: APSA). APSA is one of the leading operators of shopping centers in Argentina and owns or has majority interest in 7 shopping centers with 147,021 m2 of gross leasable area.
- Sale of **residential properties**.
- Holding and operation of luxury **hotels** through its equity interest in 3 five star hotels.

Besides, IRSA owns land reserves for future developments valued at Ps. 370 million.

IRSA's total assets amount to Ps. 2,033.5 million and its net worth amounts Ps. 794,3 million.

As of September 30, 2003, our equity interest in IRSA amounted to 23.3% of the outstanding shares in circulation. Additionally, we own US\$ 49.9 million in bonds convertible to shares issued by IRSA which bear an option to purchase additional shares of the company. If both the option and our warrants are executed like the rest of the other holders, CRESUD would own 40% of IRSA stock. Currently, our equity interest in IRSA is valued through the proportional equity

value method.

Other relevant highlights

Conversion of bonds

Up to date, the total amount of converted bonds reached 428,055 units of US\$ 1 nominal value each, while the corresponding ordinary shares issued amounted 842,952 at Ps. 1 nominal value each.

Likewise, 150,003 warrants were executed, issuing the corresponding 295,396 shares, in return for US\$ 180,000.

Consequently, as of today the amount of outstanding bonds, totals US\$ 49,571,945 while the amount of company's stock is 125,422,740.

Distribution of Dividends

On October 31, 2003, the Ordinary and Extraordinary Shareholder's Meeting approved the distribution of cash dividends for a total amount of Ps. 1.5 million or Ps. 1,2 cents per share (Ps. 12 cents per ADR). Likewise, the availability of such amount was delegated to the Board of Directors.
