**Table of Contents****Trend Micro Announces Revision of Forecast of Consolidated Financial Results (U.S. GAAP) for the Fourth Quarter of Fiscal Year Ended December 31, 2003**

Tokyo, Japan January 30, 2004 Trend Micro (TSE: 4704; Nasdaq: TMIC), a leader in network antivirus and Internet content security software and services, today announced that the forecast of financial results (U.S. GAAP) for the fourth quarter of the fiscal year ended December 31, 2003, previously announced on October 21, 2003, is revised as set forth below.

## 1. Revision of forecast of financial results for the fourth quarter of FY2003

(October 1, 2003 to December 31, 2003)

(in millions of yen)

	<u>Net Sales</u>	<u>Operating Income</u>	<u>Net Income</u>
Forecast previously published (A)	12,800	4,300	2,450
Revision made (B)	13,390	5,251	3,607
Amount of increase (B - A)	590	951	1,157
Ratio of increase or decrease	+ 4.6%	+ 22.1%	+ 47.2%

<Note> Forecast of annual results reflected by above revisions

(in millions of yen)

	<u>Net Sales</u>	<u>Operating Income</u>	<u>Net Income</u>
From January 1, 2003 to December 31, 2003	48,088	15,153	9,250

## 2. Reason for Revision

We have decided to revise our forecasts because net income is expected to deviate by more than 30% from the previous forecast, due to the fact that net sales may be higher than the previous forecast, and that income taxes were adjusted in this fourth quarter due to an increase of deferred tax assets of our some subsidiaries which we expect to become profitable and due to certain tax reduction policies.

We will disclose further details when we announce our financial results for the year and quarter ended December 31, 2003, which is scheduled for February 4, 2004.

### **Notice Regarding Forward Looking Statements**

Certain statements that we make in this release are forward-looking statements. These forward-looking statements are based upon management's current assumptions and beliefs in light of the information currently available to it, but involve known and unknown risks and uncertainties.

Many important factors could cause our actual results to differ materially from those expressed in our forward-looking statements. These factors include:

- Difficulties in addressing new virus and other computer security problems;
- Timing of new product introductions and lack of market acceptance for our new products;
- The level of continuing demand for, and timing of sales of, our existing products;
- Rapid technological change within the anti-virus software industry;
- Changes in customer needs for anti-virus software;
- Existing products and new product introductions by our competitors and the pricing of those products;
- Declining prices for our products and services;
- The effect of future acquisitions on our financial condition and results of operations;
- The effect of adverse economic trends on our principal markets;
- The effect of foreign exchange fluctuations on our results of operations;
- An increase in the incidence of product returns;
- The potential lack of attractive investment targets; and
- Difficulties in successfully executing our investment strategy.

We assume no obligation to update any forward-looking statements.
