ITEM 9. REGULATION FD DISCLOSURE

ITEM 12. RESULTS OF OPERATIONS AND FINANCIAL CONDITION

On February 18, 2004, the Registrant presented at the Roth Capital Partners Growth Stock Conference. During the presentation, information related to the comparable sales and earnings per share for the fourth quarter of 2003 were inadvertently disclosed. Copies of the information disclosed are being filed herewith as Exhibit 99.1 and Exhibit 99.2, respectively. In addition, on February 19, 2004, the Registrant issued a news release entitled CHECKERS DRIVE-IN RESTAURANTS, INC. PROVIDES FOURTH QUARTER 2003 GUIDANCE, and a copy is being filed herewith as Exhibit 99.4.

The information disclosed in the presentation on February 18, 2004, included financial measures (earnings per share before income taxes, excluding the sale of 22 Company-owned restaurants ( Restaurant sale ) previously announced on December 18, 2003 and Restaurant EBITDA (Exhibit 99.3)) that are non-GAAP financial measures as defined under SEC Regulation G. Checkers Drive-In Restaurants, Inc. (Checkers) used these non-GAAP financial measures (Exhibits 99.2 and 99.3) as tables in the presentation to present its continuing operations and to monitor, assess and identify meaningful trends in its operating and financial performance

The non-GAAP, Pre-tax income per share represents income before income taxes, excluding the effect of the Restaurant sale, divided by the weighted average diluted shares outstanding. The Company reported the pre-tax income per share, excluding the effects of the Restaurant sale because management believes that, although not a GAAP measurement, it is widely understood and assists management and investors in reviewing period to period results on a more consistent, comparable basis. While instructive, the pre-tax, pre-Restaurant sale income per share should be considered in addition to, rather than as a substitute for, net income per share. This non-GAAP measure has been reconciled to net income per share, the most directly comparable financial measure calculated in accordance with GAAP below:

**CHECKERS DRIVE-IN RESTAURANTS, INC.**

**AND SUBSIDIARIES**

**Pre-tax income per share, excluding the effects of the Restaurant sale**

**(UNAUDITED)**

	<b>Quarter Ended</b>		
	<b>December 29, 2003</b>		
	<u>          </u>	<u>          </u>	<u>          </u>
Diluted earnings per share (RANGE)	\$ 0.43	\$ 0.44	\$ 0.45
<b>ADJUSTMENTS TO DILUTED EARNINGS PER SHARE:</b>			
Income tax benefit	(0.02)	(0.02)	(0.02)
Restaurant sale	(0.15)	(0.15)	(0.15)
	<u>          </u>	<u>          </u>	<u>          </u>
Pre-tax income per share, excluding the effects of the Restaurant sale	<u>\$ 0.26</u>	<u>\$ 0.27</u>	<u>\$ 0.28</u>

The non-GAAP, Restaurant EBITDA is presented in the earnings release because management believes that it is of interest to its investors, as it is used by management to evaluate Company-owned restaurants. Checkers defines restaurant EBITDA as restaurant sales less restaurant food

## Edgar Filing: CHECKERS DRIVE IN RESTAURANTS INC /DE - Form 8-K

and paper costs, restaurant labor, restaurant occupancy expenses and other restaurant operating expenses. Restaurant EBITDA does not represent cash flow from operations, as defined by generally accepted accounting principles in the United States. Restaurant EBITDA should not be considered as a substitute for net income or loss, or as an indicator of operating performance or liquidity. This non-GAAP measure has been reconciled to net income per share, the most directly comparable financial measure calculated in accordance with GAAP below:

## CHECKERS DRIVE-IN RESTAURANTS, INC.

## AND SUBSIDIARIES

## RESTAURANT EBITDA
