Notes to Consolidated Financial Statements

NOTE 1. Management Statement

In the opinion of the Company, the accompanying audited and unaudited Consolidated Financial Statements reflect all adjustments necessary for a fair presentation of the financial position of the Company as of March 31, 2004 and December 31, 2003, as well as the results of operations and changes in financial position for the three-month, year-to-date periods ended March 31, 2004 and 2003. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed statements be read in conjunction with the Independent Auditor's Report and Financial Statements contained in the Company's most recent Annual Report on Form 10-KSB, as of December 31, 2003.

Certain reclassifications of March 31, 2003 balances have been made to conform to the March 31, 2004 presentation; there was no impact on net income or stockholders' equity. The number of weighted average shares outstanding, the effect of dilutive securities on earnings per share and the calculation of earnings per share have been restated for the three-month, year-to-date period ending March 31, 2003 to reflect the effect of a five-percent stock dividend effective for shareholders of record as of May 15, 2003. A similar adjustment has been made to all periods presented to reflect the effect of a five-percent stock dividend effective for shareholders of record as of May 14, 2004 and payable on June 15, 2004.

NOTE 2. Securities

Most of the securities are classified as available-for-sale and are stated at fair value, and unrealized holding gains and losses, net of related deferred taxes, are reported as a separate component of stockholders' equity. Gains or losses on available-for-sale securities sales are reported as part of non-interest income based on the net proceeds and the adjusted carrying amount of the securities sold, using the specific identification method. Pre-tax, realized net gains of \$36,756 are included in the financial results for the three-month, year-to-date period ending March 31, 2004; and, net gains of \$32,483 are included in the financial results for the three-month, year-to-date period ending March 31, 2003. Carrying amounts and fair values at March 31, 2004 and December 31, 2003 were as follows (in thousands):

NOTE 4. Allowance for Loan Losses

The allowance for loan losses is maintained at a level considered adequate by management to provide for reasonably anticipated credit losses in the Bank's loan portfolio. Future credit losses are estimated through an analysis of various factors affecting the performance of the loan portfolio, including: individual review of problem loans, including an evaluation of the quality of underlying collateral; current business conditions and the Bank's historical loan loss experience; the term, in years, that the average loan is expected to remain on the Bank's books; and other factors that management determines to be relevant at the time of the analysis. Changes in the allowance for loan losses during the three-month, year-to-date periods ended March 31, 2004 and 2003 were as follows (in thousands):

	Three months,

As discussed in the Company's most recent Annual Report on Form 10-KSB, as of December 31, 2003, the Bank had purchased property in Post Falls in 2003 in anticipation of relocating its existing Post Falls branch from a retail grocery store to a stand-alone facility.
