Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of

the DuPont Specialty Grains, LLC Retirement and Savings Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of DuPont Specialty Grains, LLC Retirement and Savings Plan (the Plan) at December 31, 2003 and 2002, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

December 31, 2003 and 2002

1. Description of the Plan

The following description of the DuPont Specialty Grains, LLC Retirement and Savings Plan (the **Plan**) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of DuPont Specialty Grains, LLC (the **Company**), a wholly-owned subsidiary of E. I. du Pont de Nemours and Company (**DuPont**). The Plan was established on January 1, 1998. The Plan is subject to the Employee Retirement Income Security Act of 1974 (**ERISA**) and the Internal Revenue Code (**IRC**).

The designated trustee of the Plan is Merrill Lynch Trust Co., FSB (**Merrill Lynch**).

Contributions

Effective January 1, 2002, the Plan was frozen and all participants of the Plan became participants of the Savings and Investment Plan of E. I. du Pont de Nemours and Company (SIP). Accordingly, all contributions made on or after that date are invested in SIP with no further contributions made directly to the Plan.

Prior to January 1, 2002, participants authorized payroll deductions which were contributed to the Plan and credited to their individual accounts. Participant contributions were limited to a maximum of 16% of a participant's earnings, as defined. Participants could also contribute amounts representing rollovers from other qualified retirement plans. The Company made matching contributions in the amount of 50% of all participant contributions up to 6% of the participant's earnings, as defined. Company contributions were invested in accordance with the participant's investment elections. The Company could also make a discretionary monthly profit sharing contribution to participants in an amount equal to 6% of a participant's earnings, as defined. There were no contributions made to the plan for the years ended December 31, 2003 and 2002.

Participant Accounts

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form 11-K

Each participant's account is credited with Plan earnings. Allocations are based on account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested in their contributions. Participants who were actively employed on December 31, 2000 are 100% vested in the portion of their account attributable to Company Profit Sharing Contributions and participants who were actively employed on December 31, 2001 are 100% vested in the portion of their account attributable to Company Matching Contributions.

5 or more	100%

Participant Loans

Participants may borrow from their accounts, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms shall not exceed 5 years, unless the loan is for the purchase of a primary residence, then it shall not exceed 10 years. The loans are collateralized by the balance in the participant's account and bear interest at the average rate for secured personal loans in effect at five banks on the last working day of the month preceding the date on which the loan application was made. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

A participant may make three withdrawals in a calendar year, withdrawing all or a portion of his or her account balance, except the portion attributable to pre-tax contributions allocated to the participant's loan account. If a participant is under age 59 ½, a withdrawal may be made from the participant's pre-tax contributions and earnings account without penalty only if a financial hardship is demonstrated.

If a participant's employment terminates due to the participant's death, total and permanent disability, retirement or separation from service, the participant or the participant's beneficiary is entitled to receive the vested balance of the participant's accounts in a single lump-sum distribution.

Forfeited Accounts

At December 31, 2003 and 2002, forfeited nonvested accounts totaled \$24,031 and \$18,947. These accounts can be used to reduce future employer contributions. No forfeitures were used to offset Company contributions during the years ended December 31, 2003 and 2002.

2. Significant Accounting Policies

The following accounting policies, which conform to accounting principles generally accepted in the United States of America, have been used consistently in the preparation of the Plan's financial statements.

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The investments of the Plan are carried at fair value, except for the Plan's interest in the DuPont and Related Companies Defined Contribution Plan Master Trust (Master Trust). The Plan's interest in the Master Trust relating to stable value investment contracts is based upon its beginning value plus actual contributions and allocated investment income less actual distributions (see Note 3). The Master Trust's stable value investment contracts are fully benefit responsive and thus, are stated at contract value, which has a ratio of fair value to contract value of approximately 106% and 108% at December 31, 2003 and 2002, respectively. Shares of registered investment companies (mutual funds) are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Shares of common and collective trust funds are valued at net unit value, which is based upon the value of the underlying securities as determined by the trustee at year-end. The Company stock funds are valued at their year-end unit closing price (defined as the year-end market price of common stock plus the uninvested cash position). Participant loans and short-term investments are valued at cost, which approximates fair value.

Dividend income is recorded on the ex-dividend date and interest income is recorded when earned. Realized gains and losses on the sale of the Company Stock Fund securities are based on average cost on the securities sold. Purchases and sales of investments are recorded on a trade-date basis. Capital gain distributions are included in dividend income.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the financial statements. Actual results could differ from those estimates.

3. DuPont and Related Companies Defined Contribution Plan Master Trust

On April 1, 1999, the Company and certain affiliates (employers) entered into a Master Trust Agreement with Merrill Lynch (Trustee) to establish a master trust to allow participants from affiliated plans to invest in a Stable Value Fund and three different Asset Allocation Funds: the Conservative, Moderate, and Aggressive asset allocation funds. Prior to April 1, 1999, the Stable Value Fund and Asset Allocation Funds were separate investment options of the Plan. To participate in the Master Trust, affiliates who sponsor qualified savings plans and who have adopted the Master Trust Agreement are required to make monthly payments to the Trustee of designated portions of employees' savings and other contributions by the affiliate. Investment income relating to the Master Trust is allocated proportionately by investment fund to the plans within the Master Trust based on the plan's interest to the total fair value of the Master Trust investment funds.

The Stable Value Fund is invested in a money market fund, guaranteed investment contracts (GIC's), separate account GIC's, and synthetic GIC's which are backed by fixed income assets. The crediting interest rates on investment contracts ranged from 4.21% to 7.10% for the year ended December 31, 2003 and from 4.67% to 7.10% for the year ended December 31, 2002. The rate of return was 5.71% in 2003 and 6.17% in 2002.

The contract or crediting rates for certain stable value investment contracts are reset annually and are based on the market value of the portfolio of assets underlying these contracts. Inputs used to determine the crediting rate include each contract's portfolio market value, current yield-to-maturity, duration (i.e., weighted average life) and market value relative to contract value. All contracts have a guaranteed rate of 0% or higher with respect to determining interest rate resets.

A synthetic GIC provides for a guaranteed return on principal over a specified period of time through benefit responsive wrapper contracts issued by a third party which are backed by underlying assets. Included in the contract value of synthetic guaranteed investment contracts is \$(219,759,535) and \$(240,684,040) at December 31, 2003 and 2002, respectively, attributable to wrapper contract providers representing the amounts by which the value of contracts are greater than (less than) the value of the underlying assets.

The carrying value of Synthetic Guaranteed Investment contracts held by the Master Trust is \$4,047,684,669 and \$3,710,590,717 at December 31, 2003 and 2002, respectively.

5. ConocoPhillips Stock Fund

On September 28, 1998, DuPont announced that the Board of Directors had approved a plan to divest DuPont's 100 percent-owned petroleum business, Conoco, Inc. On August 6, 1999, DuPont completed the planned divestiture through a tax-free split-off. DuPont exchanged its shares of Conoco, Inc. Class B common stock for shares of DuPont common stock. Plan participants had the option to exchange shares of DuPont company stock, which were held in their participant accounts in the DuPont Stock Fund. For each share of DuPont common stock exchanged, the participant received an appropriate number of shares of Conoco Class B common stock. Accordingly, the Conoco Class B Stock Fund was created as an investment fund of the Plan. No additional shares of Conoco Class B common stock may be purchased by Plan participants through payroll deductions, fund transfers, or the reinvestment of dividends. Dividends earned on Conoco Class B common stock are distributed pro rata to the investment options in participants' accounts based upon their current investment elections. On August 30, 2003, The Conoco Stock Fund became the ConocoPhillips Stock Fund. The balance of the ConocoPhillips Stock Fund was \$9,871 and \$11,244 at December 31, 2003 and 2002, respectively.

6. Tax Status

The Plan is a qualified plan pursuant to Section 401(a) of the Internal Revenue Code (the Code) and the related Trusts are exempt from federal taxation under Section 501(a) of the Code. A favorable tax determination letter from the Internal Revenue Service dated April 9, 2003 covering the Plan and amendments through December 2, 2002 has been received by the Plan. Accordingly, no provision has been made for federal income taxes in the accompanying financial statements.

7. Related Party Transactions

Certain Plan investments are shares of mutual funds and units of common/collective trust funds managed by Merrill Lynch, the Trustee. In addition, the Plan offers the DuPont Company Stock Fund investment option. The assets allocated to the Stable Value Fund are managed by DuPont Capital Management Corporation (DCMC), a registered investment adviser and wholly-owned subsidiary of DuPont, under the terms of an investment management agreement between DCMC and DuPont. DCMC hires additional investment managers to manage a portion of the assets allocated to the Stable Value Fund. Transactions in these investments qualify as party-in-interest transactions which are exempt from prohibited transaction rules.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the employer contributions.
