Defined Benefit Pension Plan

Effective January 1, 1998, we established a non-contributory defined benefit pension plan covering all of our employees who are at least 21 years of age and who have completed at least one year of service. Under the Plan, the benefits payable to each employee at the normal retirement age of 62 are based on years of service and compensation during the three consecutive years of the 10 years immediately preceding retirement that would yield the highest monthly benefit payment. Employees who have at least 20 years of service at the time of their retirement would receive the maximum retirement benefit. Our general funding policy is to contribute annually to the Plan the maximum amount that can be deducted for Federal income tax purposes.

Table of Contents

Effective January 1, 2003, we amended the Plan to provide that benefits earned after 2002 will accrue at the rate of 1.5% of average compensation (with no cap on service) and will be payable at age 65 rather than age 62. Existing accrued benefits will remain intact. The amended Plan has a two-year waiting period before employees enter the Plan, rather than one year. Employees who join the Plan after two years will be fully vested at that time.

The following table shows the estimated annual pension benefits payable upon retirement to a participant of the Plan for various salary levels and years of service.

Average Annual Compensation	Years of Service			
	10	15	20	25
100,000	15,000	22,500	30,000	37,500
150,000	22,500	33,750	45,000	56,250
200,000	30,000	45,000	60,000	75,000
250,000	30,000	45,000	60,000	75,000

During fiscal year 2004, the maximum amount of annual compensation that may be included for Plan purposes was \$205,000. The figures shown above apply under the Plan as amended. The benefit amounts listed are not subject to any deduction for Social Security or other offset amounts. As a result of limitations imposed under the Federal income tax law, the maximum annual benefit payable under the Plan for the fiscal year ending December 31, 2004 is \$165,000, although the amount will be actuarially adjusted in accordance with Federal income tax regulations if payments commence prior to or following the date that unreduced Social Security benefits become payable. Under the Plan, as of December 31, 2004, Messrs. Cresci and Livingston each had over twenty years of credited service, and Mr. Macartney had 2.7 years of credited service, and Mr. Tejwani had 1.5 years of credited service.

Employment, Termination and Change-in-Control Arrangements

On July 3, 2003, we entered into an Employment Agreement and a related Non-Statutory Stock Option Agreement with Mr. Tejwani. These agreements were amended on March 29, 2004. Under the terms of the Employment Agreement, as amended, Mr. Tejwani is an at will employee until the Renewal Date, which is defined as the closing of the sale of equity securities of the Company or its subsidiary, Microgy, Inc., referred to as Microgy, resulting in gross proceeds of at least \$3,500,000. Provided that the Renewal Date occurs and neither the Company nor Mr. Tejwani has terminated his employment, Mr. Tejwani would be employed under the terms of the Employment Agreement until July 3, 2006. In accordance with the terms of the Employment Agreement, Mr. Tejwani receives an annual base salary of \$225,000, subject to discretionary salary increases and annual discretionary bonuses determined by the Board of Directors. Other compensation and benefits include full health care coverage, paid vacation, the use of the company leased vehicle, and stock options under the terms of the Non-Statutory Stock Option Agreement. The original Non-Statutory Stock Option Agreement provided for options to acquire 714,286 shares of EPC's common stock that would vest at exercise prices of \$1.75, \$7.00, and \$10.50 over 3 different periods. The amended Non-Statutory Stock Option Agreement provides for options to acquire 571,429 shares of EPC's common stock that are exercisable in two tranches. The first tranche consists of 357,143 options exercisable at \$1.75. The second tranche consists of 214,286 options exercisable at \$7.00. These options will vest upon the successful completion of one or more Qualified Financings, defined as the sale of equity securities of the Company or Microgy on or before July 3, 2006, provided that the first such financing results in gross proceeds of at least \$3,500,000. The options will vest in the same percentage as the percentage of \$8,000,000 which the gross proceeds in each Qualified Financing represents, with such percentage applied to the lower-priced options first. As of March 31, 2005, all of Mr. Tejwani's options had vested. If Mr. Tejwani's employment is terminated after the Renewal Date but before the ending date of July 3, 2006, he would receive a maximum of 12 months of salary and benefits.

Edgar Filing: ENVIRONMENTAL POWER CORP - Form 10-K/A

Effective March 29, 2004, we issued 142,858 performance-based options each to Joseph E. Cresci, Chairman, and Donald A Livingston, Executive Vice President, as part of their executive compensation packages that also included a reduction in their base salaries to \$225,000 each. The agreements relating to these options were amended and restated effective June 23, 2004 to clarify the vesting criteria, which relate to the successful completion of specific milestones related to the development of Microgy. These options have a term of 10 years, expiring on March 29, 2014, and are exercisable at a price of \$7.00 per share. These options vested completely on September 23, 2004.

On April 1, 2005, we delivered to R. Jeffrey Macartney, our Chief Financial Officer, a letter confirming the terms of Mr. Macartney's employment with us. The employment letter, which is retroactive to July 1, 2004, provides for the following compensation terms:

An annual salary of \$185,000;

A minimum annual bonus of \$15,000, to be paid on each April 30 that Mr. Macartney remains employed by us;

Table of Contents

The grant of an option to purchase 21,428 shares of our common stock (which option has already been granted);

Eligibility to participate in any bonus or incentive plan adopted by us;

100% medical and dental insurance coverage;

\$10,000 in life insurance premiums;

Participation in our employee pension plan;

Participation in our 401(k) plan; and

Three weeks accrued vacation per year.

The employment letter further provides that, notwithstanding the fact that Mr. Macartney remains an employee-at-will, he will be entitled to participate in our 2004 Severance Pay Plan, and that, for purposes of the 2004 Severance Pay Plan, his severance period will be 12 months from the date of the termination of his employment.

Compensation of Directors

Each of our non-employee directors receives \$2,000, plus expenses, for each scheduled meeting of the board of directors or non-coincident meeting of a board committee which he or she attends. In addition, the chairman of the Audit Committee receives \$4,000 for each meeting of the Audit Committee attended. Furthermore, under our Restated 2002 Director Option Plan, each non-employee director receives 14,286 options on the date of his or her first election or appointment. In addition, each non-employee director receives 14,286 options on the date of the first board meeting following our annual meeting of stockholders.

Compensation Committee Interlocks and Insider Participation

The Compensation Committee is comprised of Jessie Knight, Jr., August Schumacher, Jr., and Robert I. Weisberg. No member of the Compensation Committee is now an officer or an employee of EPC or any of its subsidiaries or has been at any time an officer or employee of EPC or any of its subsidiaries. R. Jeffrey Macartney, our Chief Financial Officer, assisted the Compensation Committee with the retention and evaluation of the report of the compensation consultant hired by the Company in 2004. Based on this report, Mr. Macartney made recommendations to the Compensation Committee regarding compensation for all employees, including himself, but did not participate in any deliberations regarding his own compensation. In addition, Mr. Cresci participated in discussions with the Compensation Committee regarding the reduction of his and Mr. Livingston's salaries in 2004 and related equity compensation for each of them, but did not participate in the Compensation Committee's final deliberations on these matters.

Report of the Compensation Committee on Executive Compensation

Executive Compensation Generally

The Compensation Committee of the Board of Directors determines the Company's executive compensation policies and sets compensation for our Chairman and our President and Chief Executive Officer, referred to as the CEO.

The Compensation Committee's policy is to offer competitive compensation packages that will permit the Company to attract and retain individuals with superior abilities, and to motivate and reward such individuals on the basis of the Company's performance in an appropriate fashion that is in the long-term interests of the Company and its stockholders. Currently, executive compensation is comprised of salary and cash bonuses that may be awarded from time to time, as well as long-term incentive opportunities in the form of stock options as warranted.

The Compensation Committee takes into account various qualitative and quantitative indicators of corporate and individual performance in determining the level and composition of compensation for the Chairman and the CEO. While the Compensation Committee considers corporate performance measures such as net income, earnings per share, return on assets and return on equity, the Compensation Committee also appreciates the importance of achievements that may be difficult to quantify, and accordingly recognizes qualitative factors, such as successful supervision of major projects and demonstrated leadership ability. Base salaries for the Chairman and the CEO are established at levels considered appropriate in light of the duties and scope of responsibilities of each officer's position. Salaries are generally reviewed periodically and adjusted as warranted to reflect individual officer performance. The Compensation Committee focuses primarily on total annual compensation, including incentive awards and benefits derived from other fringe benefits such as the pension plan, rather than base salary alone, as the appropriate measure of compensation for executive officer performance and contribution. Compensation decisions regarding executive officers other than the Chairman and CEO are made by the Chairman and CEO, in consultation with the Compensation Committee and the Chief Financial Officer, except that the Chief Financial Officer does not participate in deliberations relating to his own compensation.

In March 2004, after reviewing the compensation arrangements for Joseph E. Cresci, our Chairman, and Donald A. Livingston, our Executive Vice President and President of Microgy, we determined that a reduction in their base salaries, coupled with the grant of performance based options, would be appropriate in light of the current stage of the Company's growth and development. We believed that such a change in their compensation arrangements would help conserve cash, while also giving both individuals a significant incentive to pursue the achievement of certain important goals relating to the development of Microgy's business. As a result of this determination, at the request of the Compensation Committee, Messrs. Cresci and Livingston agreed to a reduction in their base salaries to \$225,000 per year, and were each granted an option to purchase 142,857 shares of common stock at an exercise price of \$7.00 per share, vesting upon the satisfaction of certain goals relating to Microgy. These goals were determined to have been satisfied in September 2004, and these options have now vested in full.

In June 2004, we undertook a comprehensive review of the Company's compensation policies. At the request of the Compensation Committee, an outside compensation consultant was hired to review the Company's compensation practices in light of the industry in which the Company operates, as well as its current stage of development. Our review of this report indicated that the compensation of our Chairman and CEO was generally in line with that of persons with similar roles in similarly situated companies. However, such review indicated that our Chief Financial Officer, as well as the Company's employees generally, ought to receive further equity incentives in the form of stock options, as well as certain adjustments in their base salaries. These equity incentives and salary adjustments have been implemented.

Compensation of the CEO

Mr. Tejwani was hired as CEO in July 2003. In connection with the hiring of Mr. Tejwani, the Compensation Committee determined to pay him a base salary of \$225,000, which the Compensation Committee believed to be commensurate with Mr. Tejwani's experience and the level of compensation accorded to chief executive officers of similarly-situated companies. This salary level is reflected in Mr. Tejwani's employment agreement as his minimum salary, and did not change in 2004. In addition, as part of his employment package as CEO, the Company made an option grant to acquire 714,286 shares of common stock to Mr. Tejwani, which was subsequently reduced to 571,289 shares in March 2004. See

Repricing of Options below. The Compensation Committee believed that it was important to give Mr. Tejwani a strong equity-based incentive given his lack of ownership of the Company's stock, in order to more closely align his interests with those of the Company's stockholders. The March 2004 amendment to Mr. Tejwani's stock options was intended to tie the vesting of those options more closely with certain financing objectives important to the Company's future growth and for which Mr. Tejwani has principal responsibility, and to bring his equity-based incentive more into line with the overall distribution of equity incentives throughout the Company. Given the Company's cash constraints, no bonus was paid to Mr. Tejwani for 2004.

Section 162(m)

In 1993, Congress enacted Section 162(m) of the Internal Revenue Code, which prevents publicly held corporations from deducting compensation in excess of \$1 million paid to CEO's and the four highest compensated officers unless the compensation is performance-based and certain other conditions are satisfied. The Compensation Committee takes the limitations of Section 162(m) into account in making its compensation decisions, but such limitations are not a determining factor. The Compensation Committee does not anticipate that the limitations of Section 162(m) would apply in any material respect to the Company's current compensation arrangements, if at all.

Repricing of Options

Based on an evaluation of Mr. Tejwani's overall compensation package, on March 29, 2004, the Company entered into an amended and restated non-statutory stock option agreement with him. Pursuant to this agreement, Mr. Tejwani's option to acquire 714,286 shares of our common stock

Edgar Filing: ENVIRONMENTAL POWER CORP - Form 10-K/A

was reduced by 142,857 shares. In exchange for this reduction, Mr. Tejwani's option was repriced as to 35,714 shares having an exercise price of \$10.50 per share, with such exercise price being reduced to \$7.00 per share. The Compensation Committee believes that this reduction was appropriate, in light of the fact that the original exercise price of \$10.50 per share was far in excess of the market price of the Company's common stock on the original grant date, which was \$1.40, and that the new exercise price was set at the then-current market price. The exercise prices for the remaining 505,715 shares subject to this option remained unchanged.

Respectfully submitted by the Compensation Committee,

Jessie J. Knight, Jr.

August Schumacher, Jr.

Robert I. Weisberg

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

During 1993 and 1995, Messrs. Cresci and Livingston exercised options to purchase shares of the Company's Common Stock. As payment for the exercise price of these stock options, EPC accepted promissory notes payable upon our demand from Messrs. Cresci and Livingston aggregating \$332,875 and \$428,281, respectively. In 2000, EPC asked that a portion of these notes be repaid using the proceeds from bonuses due to concerns about ongoing cash requirements. In April 2001, the Company received \$1,500,000 pursuant to a settlement of the Sunnyside litigation and Messrs. Cresci and Livingston were allowed to each borrow \$100,000. As of December 31, 2004, Messrs. Cresci and Livingston had aggregate balances due to EPC of \$181,036 and \$410,498, respectively under these notes and loans. Interest on these notes and loans, which is payable monthly at the Applicable Federal Rate, amounted to \$11,881 in the aggregate during 2004 and has been fully collected from Messrs. Cresci and Livingston. Mr. Cresci also made principal repayments totaling \$5,839 during 2004. In accordance with applicable federal law, the Company has adopted a policy of not making any new loans to its officers or directors.
