- A Rule 144a Security - A security purchased pursuant to Rule 144a under the Securities Act of 1933 which may not be resold subject to that rule except to qualified institutional buyers. These securities represent 19.1% of net assets applicable to common shareholders.*
- B Floating Rate Security - The rate of interest on this type of security is tied to the London Interbank Offer Rate (LIBOR). The coupon rate is as of September 30, 2005.*
- C Stepped-coupon Security - A security with a predetermined schedule of interest or dividend rate changes at which time it begins to accrue interest or pay dividends.*
- D Convertible Bond - Bond may be converted into the issuer's common stock.*
- E Bond in default as of September 30, 2005.*
- F Zero-coupon Bond - A bond with no periodic interest payments which is sold at such a discount as to produce a current yield to maturity.*
- G Yankee Bond - A dollar-denominated bond issued in the U.S. by foreign entities.*
- H Stripped Security - Security with interest-only or principal-only payment streams. For interest-only securities, the amount shown as principal is the notional balance used to calculate the amount of the interest due.*
- I Treasury Inflation Protected Security - Treasury security whose principal value is adjusted daily in accordance with changes to the Consumer Price Index (CPI). Interest is calculated on the basis of the current adjusted principal value.*
- J Position, or a portion thereof, with an aggregate market value of \$25,367 have been segregated to collateralize reverse repurchase agreements.*

*K Pay-in-kind Security - Dividend income is paid with additional shares instead of receiving cash.*

*L Collateral to cover futures contracts written.*

*N.M. - Not meaningful.*

**Notes**

**Security Valuation**

*Securities owned by the Fund for which market quotations are readily available are valued at current market value. Securities for which market quotations are not readily available are fair valued by the Board of Trustees or the Fund's Valuation Committee pursuant to procedures adopted by the Board. In determining fair value, the Board of Trustees or the Fund's Valuation Committee consider all relevant qualitative and quantitative information available. The factors are subject to change over time and are reviewed periodically. The values assigned to fair value investments are based on available information and do not necessarily represent amounts that might ultimately be realized, since such amounts depend on future developments inherent in long-term investments. Further, because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material.*

*Where a security is traded on more than one market, which may include foreign markets, the securities are generally valued on the market considered by the Fund's adviser to be the primary market. The Fund will value its foreign securities in U.S. dollars on the basis of the then-prevailing exchange rates.*
