-

**Item 1.01. Entry into a Material Definitive Agreement.**

On December 18, 2005, the Compensation Committee of the Board of Directors of Epicor Software Corporation (the Company) authorized the Company's accelerating the vesting of certain unvested and out-of-the-money stock options outstanding under the company's stock plans that have exercise prices per share of \$14.31 or higher. Options to purchase approximately 475,000 million shares of the company's common stock became exercisable immediately. Options held by non-employee directors were not included in the vesting acceleration. In addition, in order to prevent unintended personal benefits to executive officers, restrictions will be imposed on any shares received through the exercise of accelerated options held by those individuals. Those restrictions will prevent the sale of any shares received from the exercise of an accelerated option until the date on which such shares would have vested under the options original vesting terms.

The Company is taking this action in order to reduce the future compensation expense associated with unvested stock options following the adoption of Statement of Financial Accounting Standards No. 123, Share Based Payment (revised 2004) (SFAS 123R). The Company will be required to apply the expense recognition provisions of SFAS 123R beginning in the first quarter of 2006. As a result of the acceleration, the Company expects to reduce the stock option expense it otherwise would be required to record in connection with the accelerated options by approximately \$2.5 million over the original option vesting periods.

**Item 8.01. Other Events.**

On December 19, 2005, the company issued a press release announcing the acceleration of vesting described under Item 1.01 of this report on Form 8-K. A copy of the press release is attached as Exhibit 99.1.
