Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

SECTION 8 OTHER EVENTS

ITEM 8.01 OTHER EVENTS.

On January 5, 2006, Gastar Exploration, Ltd. announced that it had drilled the Donelson #2 well to a total depth of 14,690 feet and, based on gas shows during drilling and electric logs, the well encountered approximately 50 net feet of apparent pay within the Knowles formation. The Donelson #2 well also encountered an apparently productive 10 foot zone within the Pettet formation. Gastar is in the process of installing production casing and tubing with plans to complete the well in the Knowles formation and start initial gas sales by late-January 2006. Following the installation of the production casing and tubing, Nabors Rig 623 will be moved to another Knowles location and completion activities will begin on the Donelson #1 well for a planned completion in the lower Bossier formations encountered in that well.

A copy of the Company's press release, dated January 5, 2006, regarding this filing is attached as Exhibit 99.1 hereto and is incorporated herein by reference.

SECTION 9 FINANCIAL STATEMENTS AND EXHIBITS

ITEM 9.01 FINANCIAL STATEMENTS AND EXHIBITS.

(c) Exhibits

The following is a list of exhibits filed as part of this Form 8-K:
