Section 1 Registrant's Business and Operations

Item 1.01 Entry into a Material Definitive Agreement.

On February 15, 2006, a \$30 million Revolving Senior Credit Facility (Credit Facility) between VAALCO Energy's (the Company) Gabon subsidiary, as borrower, and the International Finance Corporation (IFC), as Lender, became effective. The Credit Facility will be utilized to finance a portion of the Company's Avouma and Ebouri development activities. The obligations under the Credit Facility are secured by substantially all of the assets of the Company's Gabon subsidiary. This Credit Facility replaced the existing term credit facility with the IFC, which was repaid on February 15, 2006. The description of the material terms of the Credit Facility included in Item 2.03 of this Form 8-K is incorporated by reference into this Item.

Section 2 Financial Information

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

The Credit Facility provides for a revolving credit line in the aggregate principal amount of \$30 million.

Borrowings under the Credit Facility bear interest at LIBRO plus 3.5%. The full amount borrowed under the Credit Facility will mature on October 15, 2009. The Company can request an extension of the Credit Facility for a period of up to two years, which extension will be subject to the IFC's consent.

The obligations under the Credit Facility are secured by a security interest in substantially all of the assets of the Company's Gabon subsidiary. The obligations under the Credit Facility are further secured by a pledge of 100% of the capital stock of the Company's Gabon subsidiary held by the Company.

The Credit Facility contains covenants that will limit the ability of the Company's Gabon subsidiary to, among other things, incur or guarantee additional indebtedness; create liens; pay dividends; and sell assets or merge with another entity. The Credit Facility also requires compliance with the customary financial covenants, including, among others, a minimum interest coverage ratio and a maximum leverage ratio.

Borrowings under the Credit Facility will be used by the Company's Gabon subsidiary for general corporate purposes, including capital expenditures, working capital and refinancing of existing indebtedness.
