**Item 7.01 Regulation FD Disclosure**

Management of Company's subsidiary, First Advantage Corporation, recently determined that payments made to certain vendors in its occupational health division were not properly accrued for in 2005, 2004, 2003 and certain prior years. First Advantage currently estimates that the amount of the under accrual is between \$4 million and \$5 million as of December 31, 2005. First Advantage management estimates that the impact of the under accrual is to reduce First Advantage's diluted earnings per share by \$.02, \$.01 and \$.01 for each of the years ending December 31, 2005, 2004 and 2003, respectively.

Management of First Advantage is in the process of making a final determination of the amount of the under accrual, the impact on First Advantage's diluted earnings per share for the applicable periods and the method by which the impact of the under accrual will be reflected in First Advantage's audited financial statements to be included in its 2005 Form 10-K.

The Company believes the impact of this under accrual on its consolidated financial statements is immaterial and, therefore, does not intend to restate any prior year financial statements.

The information in this current report is being furnished in accordance with General Instruction B.2 of Form 8-K. As such, this information is not deemed to be filed for the purposes of Section 18 of the Securities Exchange Act and is not incorporated by reference into any filings with the SEC unless it shall be explicitly so incorporated in such filings.
