Explanatory Note

This Quarterly Report on Form 10-Q/A is being filed as an amendment to our Quarterly Report on Form 10-Q for the quarter ended June 30, 2005, which was filed with the Securities and Exchange Commission on August 15, 2005. We are filing this amendment to correct an error in the timing of revenue recognized in relation to a multiple element arrangement for the licensing of certain software and related support. The effect of the changes was to reduce sales and net income for the quarter ended June 30, 2005 by \$767,000 and \$744,000, respectively. The changes were all non-cash and had no effect on the previously reported amounts of cash in the Company's financial statements. For the convenience of the reader, this Form 10-Q/A sets forth the entire June 30, 2005 Quarterly Report on Form 10-Q. However, this Form 10-Q/A amends and restates only Part I Items 1 and 2 of the June 30, 2005 Form 10-Q.

This Form 10-Q/A continues to reflect circumstances as of the date of the original filing of the Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2005 and we have not updated the disclosures contained herein to reflect events that occurred at a later date, except for items related to the restatement or where otherwise indicated.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited, in thousands)

Reference is made to the financial statements included in the Company's Annual Report (Form 10-K) filed with the Securities and Exchange Commission for the year ended March 31, 2005.

The financial statements for the periods ended June 30, 2005 and 2004 are unaudited and include all adjustments necessary to a fair presentation of the results of operations for the periods then ended. All such adjustments are of a normal recurring nature. The results of the Company's operations for any interim period are not necessarily indicative of the results of the Company's operations for a full year.

OPERATIONS

Under Statement of Financial Accounting Standards No. 131, Disclosure about Segments of an Enterprise and Related Information, the Company's operations are treated as one operating segment as it only reports profit and loss information on an aggregate basis to the chief operating decision maker of the Company. Information about the Company's product sales are as follows:

Product Sales	Three Months Ended	
	June 30,	
	2005	2004
Reference	\$ 16,690	\$ 14,662
ROLODEX® Electronics	264	482
Seiko	497	667
eBookMan	6	48
Other	195	131
Total Sales	\$ 17,652	\$ 15,990

Approximate foreign sources of revenues including export sales were as follows:

Product Sales	Three Months Ended	
	June 30,	
	2005	2004
Europe	\$ 3,233	\$ 2,867
Other International	1,009	769

For the three month period ended June 30, 2005 one customer accounted for more than 10% of the Company's revenue. Sales to the customer were approximately \$1,881 and consisted exclusively of reference products. For the three month period ended June 30, 2004 one customer accounted for more than 10% of the Company's revenue. Sales to the customer were approximately \$2,383 and also consisted exclusively of reference products.

For the quarter ended June 30, 2005, two suppliers accounted for more than 10% of the Company's purchases of inventory. The two suppliers each accounted for 24% of inventory purchases.

Table of Contents

FRANKLIN ELECTRONIC PUBLISHERS, INCORPORATED

AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited, in thousands)

For the quarter ended June 30, 2004, three suppliers accounted for more than 10% of the Company's purchases of inventory. The three suppliers individually accounted for 23%, 14% and 10% of inventory purchases.

MULTIPLE ELEMENT ARRANGEMENTS

The Company occasionally enters into multiple element arrangements, primarily involving its software technology. During the June 2005 quarter the Company entered into a single multiple element arrangement which included technology licensing fees and annual support fees for a value of \$800 and \$160 respectively. The technology was delivered and accepted by the customer in the June 2005 quarter and will be, together with the support fees, recognized as earned, at a rate of \$20 per month, over the four year term of the agreement.

STOCK OPTIONS

At June 30, 2005, the Company had two employee stock option plans, Franklin's 1988 Stock Option Plan, as amended, and Franklin's 1998 Stock Option Plan, as amended. The Company accounts for these plans under the recognition and measurement principles of APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations. No stock based employee compensation cost is reflected in net income.

The following table illustrates the effect on net income and earnings per share if the company had applied the fair value recognition provisions of SFAS No. 123, *Accounting for Stock Based Compensation*, to stock-based employee compensation:

	Three months ended June 30,	
	2005	2004
Reported net income	\$ 898	\$ 779
Deduct:		
Total stock-based employee compensation expense determined under fair value based method.	(118)	(215)
Proforma net income	\$ 780	\$ 564
(a) Earnings per share:		
Basic-as reported	\$ 0.10	\$ 0.07
Basic- pro forma	\$ 0.08	\$ 0.04
Diluted as reported	\$ 0.09	\$ 0.06
Diluted pro forma	\$ 0.08	\$ 0.04

(a) After preferred stock dividends of \$122 and \$229 for the three-month periods ended June 30, 2005 and 2004 respectively.

PREFERRED STOCK

On June 30, 2005, the Company paid a cash dividend of \$122 on its Preferred Stock.

LEGAL PROCEEDINGS

The Company is subject to litigation from time to time arising in the ordinary course of its business. The Company does not believe that any such litigation is likely, individually or in the aggregate, to have a material adverse effect on the financial condition of the Company.

RECLASSIFICATIONS

Certain reclassifications have been made to the prior period's financial statements to conform to the current period presentation. These reclassifications had no effect on previously reported results of operations or retained earnings.

RESTATEMENTS

This Quarterly Report on Form 10-Q/A is being filed as an amendment to our Quarterly Report on Form 10-Q for the quarter ended June 30, 2005, which was filed with the Securities and Exchange Commission on August 15, 2005. We are filing this amendment to correct an error in the timing of revenue recognized in relation to a multiple element arrangement for the licensing of certain software and related support. The changes were all non-cash and had no effect on the previously reported amounts of cash in the Company's financial statements. For the convenience of the reader, this Form 10-Q/A sets forth the entire June 30, 2005 Quarterly Report on Form 10-Q. However, this Form 10-Q/A amends and restates only Part I Items 1 and 2 of the June 30, 2005 Form 10-Q.

This Form 10-Q/A continues to reflect circumstances as of the date of the original filing of the Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2005 and we have not updated the disclosures contained herein to reflect events that occurred at a later date, except for items related to the restatement or where otherwise indicated.

RECENT ACCOUNTING PRONOUNCEMENTS

In September 2004, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) on Emerging Issues Task Force (EITF) Issue 03-1, *The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments*, which delays the effective date for the recognition and measurement guidance in EITF Issue No. 03-1. In addition, the FASB has issued a proposed FSP to consider whether further application guidance is necessary for securities analyzed for impairment under EITF Issue No. 03-1. The Company does not believe the adoption of the proposed FSP will have a material impact on its financial statements.

In November 2004, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 151, *Inventory Costs*, which clarifies the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material. SFAS No. 151 will be effective for inventory costs incurred during fiscal years beginning after June 15, 2005. The Company does not believe the adoption of SFAS No. 151 will have a material impact on its financial statements.

In December 2004, the FASB issued SFAS No. 153, *Exchanges of Nonmonetary Assets*, which eliminates the exception for nonmonetary exchanges of similar productive assets and replaces it with a general exception for exchanges of nonmonetary assets that do not have commercial substance. SFAS No. 153 will be effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The Company does not believe the adoption of SFAS No. 153 will have a material impact on its financial statements.

Table of Contents

In December 2004, the FASB issued SFAS No. 123(R), Share-Based Payment, which establishes standards for transactions in which an entity exchanges its equity instruments for goods or services. This standard requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. This eliminates the exception to account for such awards using the intrinsic method previously allowable under APB Opinion No. 25. In March 2005, the Securities and Exchange Commission (SEC) released Staff Accounting Bulletin (SAB) 107, Share-Based Payment, which expresses views of the SEC Staff about the application of SFAS No. 123(R). SFAS No. 123(R) was to be effective for interim or annual reporting periods beginning on or after June 15, 2005, but in April 2005 the SEC deferred its effective date so that it will be effective for annual reporting periods beginning on or after June 15, 2005. The Company plans to adopt SFAS No. 123 (R) for the quarter ending June 30, 2006. If the Company had adopted SFAS No, 123 (R) for the quarter ended June 30, 2005, the Company would have recognized an additional expense based on the fair value of the stock options granted of \$118.

In May 2005, the FASB issued SFAS 154 Accounting Changes and Error Corrections which requires accounting changes to be applied retroactively as of the earliest practicable date and all financial statements for periods subsequent to that date to reflect the adopted principle as if it had been in effect for all periods. SFAS 154 is effective for fiscal years beginning after December 15, 2005. The adoption of SFAS No. 154 did not have a material impact on the Company's financial statements.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (in thousands)**

This 2005 Quarterly Report on Form 10-Q may contain statements which constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, as amended. Those statements include statements regarding the intent and belief or current expectations of Franklin and its management team. Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially from those projected in the forward-looking statements. Such risks and uncertainties include, among other things, the timely availability and acceptance of new electronic books, and other electronic products, changes in technology, the impact of competitive electronic products, the management of inventories, dependence on key licenses, titles and products, dependence on third party component suppliers and manufacturers, including those that provide Franklin-specific parts, and other risks and uncertainties that may be detailed herein, and from time-to-time, in Franklin's reports filed with the Securities and Exchange Commission. Franklin undertakes no obligation to publicly update any forward-looking statements for any reason, even if new information becomes available or other events occur in the future.

RESULTS OF OPERATIONS***Three months ended June 30, 2005 compared with three months ended June 30, 2004:******Net Sales***

Sales of \$17,652 for the quarter ended June 30, 2005, increased by \$1,662 from sales of \$15,990 for the same quarter last year. The higher sales in the quarter were attributable to increased revenue of \$1,699 in our Proximity Technology Division resulting from the delivery during the quarter of technology pursuant to a technology development and licensing agreement. Revenue from this agreement is included in our reference product line. Excluding the above technology and licensing revenue, an increase in reference product sales of \$329 was more than offset by declines in ROLODEX® Electronics and Seiko products of \$218 and \$170 respectively. The increase in reference product sales was due to higher international sales of \$585 partially offset by lower sales in the US of \$270. The decrease in ROLODEX® Electronics and Seiko product sales occurred primarily in the US Consumer market where sales declined by \$215 and \$228 respectively.

Gross Margin

The gross margin percentage decreased to 49% of sales in the current quarter from 50% in the quarter ended June 30, 2004, while gross margin dollars increased by \$671. Of the increase in the gross margin dollar amount, \$824 is due to higher year-over-year sales which is partly offset by a decline of \$153 due to the lower margin percentage. The slightly lower gross margin percentage resulted primarily from the reduced margins in the UK as we began distributing our products through a distributor in that region in October 2004.

Operating Expenses

Total operating expenses increased to \$7,673 in the current quarter from \$7,089 in the same period last year. Sales and marketing expense increased to \$4,523 (25% of sales) from \$4,272 (27% of sales) last year. The increase in sales and marketing expense was due primarily to higher professional fees of \$110, an increase in advertising and promotions expense of \$67 and higher freight expense of \$96. Research and development expense increased by \$262 to \$1,144 (6% of sales) from \$882 (6% of sales) last year due primarily to increased professional fees and outside engineering cost of \$138 and \$58 respectively. General and administrative expense increased by \$71 to \$2,006 (11% of sales) compared with \$1,935 (12% of sales) in the prior year due to higher personnel costs of \$100 and higher accounting fees of \$89 partially resulting from Sarbanes-Oxley compliance work partly offset by reduced bank fees of \$43.

Table of Contents

Interest Expense, net

Interest expense, net declined to \$11 in the current period from \$67 last year because of lower levels of debt outstanding and lower interest rates under our new credit facility.

Other, net

Other, net was a gain of \$19 for the quarter ended June 30, 2005 compared with a gain of \$35 in the same period last year. The change is due primarily to the positive results of our program of selling euros at current rates for future settlement which recorded a gain of \$135, resulting from weakness in the euro, in the quarter ended June 30, 2005 as compared to a gain of \$39 in the same quarter last year. This improvement was partly offset by a loss of \$119 on the repatriation of funds from our foreign subsidiaries in the quarter ended June 30, 2005, compared with gain of \$5 in the same period last year.

Net Income

For the quarter ended June 30, 2005, net income increased by \$119 to \$898 from \$779 in the same period last year. The increase is due primarily to higher development and licensing income, of \$619 resulting from the delivery during the quarter of technology pursuant to a technology development and licensing agreement and reduced interest expense of \$56. This gain was partially offset by an increase in operating expenses of \$584.

We have operations in a number of foreign countries and record sales and incur expenses in various foreign currencies. As the value of these currencies fluctuate from year to year against the US dollar, our revenues, operating expenses and results of operations are impacted. For the quarter ended June 30, 2005, approximately 18% of our sales were denominated in currencies other than the US dollar. For the quarter ended June 30, 2005, our sales and gross margin benefited by approximately \$124 from the year over year change in exchange rates for the various currencies (primarily the euro) in which we operate, while our selling, general and administrative expenses increased by approximately \$54 due to the fluctuations in exchange rates. The change in exchange rates had no effect on our research and development expense or cost of sales. The net effect of the year over year fluctuations in exchange rates on our results of operations for the quarter ended June 30, 2005 was an increase in income of approximately \$69.

We enter into forward foreign exchange contracts to protect the cash flow from our existing assets valued in foreign currency. Economic gains or losses on these contracts are generally offset by the gains or losses on underlying transactions.

As of June 30, 2005 we had one outstanding foreign exchange contract in the amount of 1,500 euros (equivalent to US dollars of \$1,860) with an unrealized gain of \$123 and an expiration date of October 2005. The unrealized gain was included in results of operations under the Other, net caption with the offsetting balance included in Accounts Receivable on our balance sheet.

As of June 30, 2004 we had two outstanding foreign exchange contracts each in the amount of 1,500 euros (each equivalent to US dollars of \$1,830) with total unrealized gains of \$88 and expiration dates of July and October 2004. The unrealized gains were included in results of operations under the Other, net caption with the offsetting balance included in Accounts Receivable on our balance sheet.

Changes in Financial Condition

Accounts receivable increased by \$9,818 to \$15,655 at June 30, 2005 from \$5,837 at March 31, 2005 primarily because of a seasonal increase in sales of \$7,683 during the June 2005 quarter compared with the March 2005 quarter and from higher receivables of \$2,278 resulting from the sale of component parts

Table of Contents

to vendors. Inventory increased by \$1,964 to \$10,744 on June 30, 2005 from \$8,780 on March 31, 2005 due to normal seasonal increases as we build inventory for the back-to-school and holiday seasons. Accounts payable and the balance of our borrowings under our credit facility increased by \$4,757 and \$3,775 respectively, from March 31, 2005 primarily because of seasonal inventory and cash requirements.

Liquidity and Capital Resources

We had cash and cash equivalents of \$2,473 and borrowings under our credit facility of \$3,775 at June 30, 2005 compared with cash and cash equivalents of \$2,786 and zero borrowings at March 31, 2005.

In June 2005 we paid the dividend due on our Preferred Stock of \$122 in cash rather than in additional shares of Preferred Stock. As of June 30, 2005, 2,434 shares of Preferred Stock were outstanding.

On December 7, 2004, we entered into a new Revolving Credit and Security Agreement (the *Credit Agreement*) with PNC Bank, National Association (*PNC*). The Credit Agreement provides for a \$20,000 revolving credit facility (the *Loan*) for the Company. At our option, Loans under the Credit Agreement will be either Domestic Rate Loans based on PNC's Base Rate with the interest rate varying from the PNC Base Rate minus 50 basis points to the PNC Base Rate plus 50 basis points or LIBOR Rate Loans with the interest rate varying from LIBOR plus 100 basis points to LIBOR plus 225 basis points, both rates depending upon the ratio of our Funded Debt to EBITDA and the composition of collateral provided. Loans under the Credit Agreement are secured by substantially all of the assets of the Company. The Credit Agreement contains certain financial covenants and restrictions on indebtedness, business combinations and other related items. As of June 30, 2005 we were in compliance with all covenants.

We rely primarily on our operating cash flow to support our operations. Over the last three fiscal years we generated aggregate cash flow from operations of \$18,423. This operating cash flow is supplemented by our revolving credit facility to meet seasonal financing needs. We believe our cash flow from operations, available borrowing under our revolving credit facility and existing cash balances will be adequate to satisfy our cash needs for the next twelve months. The amount of credit available under the facility at any time is based upon a formula applied to our accounts receivable, inventory, real estate, and certain capital equipment. As of June 30, 2005, we had credit available of \$17,194 of which \$3,775 was drawn down and \$13,419 remained available. Our credit availability and borrowings under the facility fluctuate during the year because of the seasonal nature of our business. During the year ended March 31, 2005, maximum availability and borrowings under our current and previous credit facilities approximated \$14,200 and \$7,200 respectively. We do not have any significant capital leases and anticipate that depreciation and amortization for fiscal 2006 will exceed planned capital expenditures.

Seasonality

The back to school season (August to mid-September) and Christmas selling season (October, November and December) are the strongest selling periods at retail for our products.

Future Income Tax Benefits

Because of net operating loss carryforwards, no US federal income taxes have been provided for during the quarter ending June 30, 2005. Our deferred tax asset of \$5,700 is based upon our estimate of taxes that would be due and offset against our net operating loss carried forward, based upon our estimate of future earnings.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Table of Contents***Contractual Obligations***

In April 2003, the Company began to distribute handheld reference products in North America under the Seiko® trademark. In June 2004, the Company entered into cross-distribution agreements with Seiko Instruments, Inc. (SII), which provide for Franklin to continue purchasing Seiko® reference products for distribution in North America for the five years ending March 31, 2009 with a minimum purchase guarantee of approximately \$14,042 during the period.

The minimum purchase guarantee by fiscal year is as follows:

Fiscal 2005	\$ 2,300
Fiscal 2006	2,530
Fiscal 2007	2,783
Fiscal 2008	3,061
Fiscal 2009	3,368

The agreement provides for a payment to SII, generally calculated at 35% of the shortfall for any distribution year. For the year ended March 2005, purchases of SII product in the United States were \$1,775. A provision of \$175 was recorded during the fiscal year to provide for amounts due SII related to the shortfall in purchases.

In the quarter ended June 30, 2005, we recorded a provision of \$75 for a portion of the estimated amounts due SII for the projected shortfall of purchases in the current fiscal year based upon our estimates of sales of Seiko products for the remainder of the fiscal year. Future year sales and purchases of Seiko products will be determined by the development and introduction of new products and the market acceptance of such products.

Critical Accounting Policies and Estimates

Management's discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements which have been prepared in accordance with accounting principles generally accepted in the U.S. The preparation of these financial statements requires that we make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures. On an ongoing basis, we evaluate these estimates and judgments based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. We annually review our financial reporting and disclosure practices and accounting policies to ensure that our financial reporting and disclosures provide accurate and transparent information relative to the current economic and business environment. We believe that of our significant accounting policies, the following policies involve a higher degree of judgment and/or complexity:

Asset Impairment In assessing the recoverability of our fixed assets, goodwill and other non-current assets, we consider changes in economic conditions and make assumptions regarding estimated future cash flows and other factors. During the year ended March 31, 2002, we recorded a charge for impairment in the value of our license for the ROLODEX® Electronics trademark of \$11,147. In the year ended March 31, 2005, we recorded an additional charge of \$1,531 related to the value of this asset. As of March 31, 2005 the asset is recorded at its estimated fair value of \$732 as determined by the discounted cash flow method.

Inventory Valuation We review the net realizable value and forecast demand for our products on a quarterly basis to ensure that inventory is stated at the lower of cost or net realizable value and that obsolete inventory is written off. Factors that could impact forecast demand and selling prices for our products include the timing and success of new product launches, competitor actions, supplier prices and

Table of Contents

general economic conditions. Although we make every effort to ensure the accuracy of our forecasts of future product demand, any significant unanticipated changes in demand could have a significant impact on the value of our inventory and reported operating results.

Allowance for Bad Debts and Returns We provide an allowance for bad debts and product returns on a monthly basis based upon historical sales, credit and return experience. The adequacy of these allowances is determined by regularly reviewing accounts receivable and returns and applying historical experience to the current balance with consideration given to the current condition of the economy, assessment of the financial position of our customers as well as past payment history and overall trends in past due accounts and returns. Historically, our allowances have been sufficient for any customer write-offs or returns. Although we cannot guarantee future results, management believes its policies and procedures relating to customer exposure are adequate.

Multiple Element Arrangements We occasionally enter into multiple element arrangements, primarily involving our software technology. During the June 2005 quarter we entered into a single multiple element arrangement which included technology licensing fees and annual support fees for a value of \$800 and \$160 respectively. The technology was delivered and accepted by the customer in the June 2005 quarter and will be, together with the support fees, recognized as earned, at a rate of \$20 per month, over the four year term of the agreement.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There were no material changes from the information presented in Item 7A of the Company's Annual Report on Form 10-K for the year ended March 31, 2005, which is hereby incorporated by reference, with respect to the Company's quantitative and qualitative disclosures about market risks.

ITEM 4. CONTROLS AND PROCEDURES

As of June 30, 2005 (the end of the period covered by this report), our management carried out an evaluation, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

In designing and evaluating our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) of the Securities Exchange Act of 1934), management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurances of achieving the desired control objectives, as ours are designed to do, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. We believe that our disclosure controls and procedures provide such reasonable assurance.

No change occurred in our internal controls concerning financial reporting during the quarter ended June 30, 2005 that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is subject to litigation from time to time arising in the ordinary course of its business. The Company does not believe that any such litigation is likely, individually or in the aggregate, to have a material adverse effect on the financial condition of the Company.
