NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

June 30, 2006

1. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements of Zions Bancorporation (the Parent) and its majority-owned subsidiaries (collectively the Company, we, our, us) have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Certain prior period amounts have been reclassified to conform to the current period presentation.

Operating results for the three- and six-month periods ended June 30, 2006 are not necessarily indicative of the results that may be expected in future periods. The balance sheet at December 31, 2005 is from the audited financial statements at that date, but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in Zions Bancorporation's Annual Report on Form 10-K for the year ended December 31, 2005.

The Company provides a full range of banking and related services through banking subsidiaries in ten states as follows: Zions First National Bank (Zions Bank), in Utah and Idaho; California Bank & Trust (CB&T); Amegy Corporation (Amegy), in Texas; National Bank of Arizona (NBA); Nevada State Bank (NSB); Vectra Bank Colorado (Vectra), in Colorado and New Mexico; The Commerce Bank of Washington (TCBW); and The Commerce Bank of Oregon (TCBO). Amegy was acquired effective December 3, 2005 as discussed in Note 3. TCBO was opened in October 2005 and is not expected to have a material effect on consolidated operations for several years.

2. OTHER RECENT ACCOUNTING PRONOUNCEMENTS

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48 (FIN 48), *Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109, Accounting for Income Taxes*. FIN 48 prescribes that a tax position must meet a minimum more-likely-than-not threshold before it can be recognized in the financial statements. FIN 48 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure, and transition. In addition, FIN 48 removes income taxes from the scope of Statement of Financial Accounting Standards (SFAS) No. 5, *Accounting for Contingencies*. FIN 48 is effective for fiscal years beginning after December 15, 2006, or January 1, 2007 for calendar year-end companies. Management is currently evaluating the impact this Interpretation may have on the Company's financial statements.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

In February 2006, the FASB issued SFAS No. 155, *Accounting for Certain Hybrid Financial Instruments, an amendment of FASB Statements No. 133 and 140*. This Statement amends SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, to require evaluation of all interests in securitized financial assets under SFAS 133, eliminating a previous exemption under SFAS 133 for such financial instruments. Entities must now distinguish interests that are freestanding derivatives, hybrid financial instruments containing embedded derivatives requiring bifurcation, or hybrid financial instruments containing embedded derivatives that do not require bifurcation. In addition, the Statement permits fair value remeasurement for any hybrid instrument (on an instrument-by-instrument basis) that contains an embedded derivative that would otherwise require bifurcation. The Statement also amends SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, by eliminating the prohibition on a qualifying special-purpose entity (QSPE) from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument.

In March 2006, the FASB issued SFAS No. 156, *Accounting for Servicing of Financial Assets, an amendment of FASB Statement No. 140*. This Statement permits entities to choose to either subsequently measure recorded servicing rights at fair value and report changes in fair value in earnings, or amortize servicing rights in proportion to the estimated net servicing income or loss and assess the rights for impairment or the need for an increased obligation. In addition, the Statement, among other things, clarifies when a servicer should separately recognize servicing assets and liabilities, and requires initial fair value measurement, if practicable, of such recognized assets and liabilities.

In general, both Statements are effective as of the beginning of an entity's fiscal year after September 15, 2006, or January 1, 2007 for calendar year-end companies. Management is evaluating the impact these Statements may have on the Company's financial statements.

The Company's adoption of SFAS No. 123R, *Share-Based Payment*, is discussed in Note 6.

3. MERGER AND ACQUISITION ACTIVITY

Effective December 3, 2005, we acquired 100% of the outstanding stock of Amegy Bancorporation, Inc. headquartered in Houston, Texas. The tax-free merger included the formation of a new holding company, Amegy Corporation (Amegy), which became a wholly-owned subsidiary of the Company. The merger expands the Company's banking presence into Texas. Amegy's results of operations for the month of December 2005 and for the six months ended June 30, 2006 were included with the Company's results of operations.

Details of the merger, including the allocation of the purchase price, are included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005. The allocation of the purchase price is subject to change when the determination of Amegy's asset and liability values is finalized within one year from the merger date. As of June 30, 2006, the allocation had not changed from December 31, 2005.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

The following unaudited pro forma condensed combined financial information presents the Company's results of operations assuming the merger had taken place as of January 1, 2005. Also shown for comparative purposes are the historical results of operations for the Company without Amegy (in thousands, except per share amounts):

	Three Months Ended		Six Months Ended	
	June 30, 2005		June 30, 2005	
	Pro forma combined	Zions historical without Amegy	Pro forma combined	Zions historical without Amegy
Net interest income	\$ 388,636	\$ 330,928	\$ 761,037	\$ 645,879
Provision for loan losses	12,917	11,417	25,400	20,800
Noninterest income	137,279	105,932	268,729	208,830
Noninterest expense	315,683	242,046	623,783	481,283
Income before income taxes and minority interest	197,315	183,397	380,583	352,626
Net income	130,009	118,810	250,909	229,044
Net income per common share:				
Basic	\$ 1.25	\$ 1.32	\$ 2.41	\$ 2.55
Diluted	1.22	1.30	2.35	2.50
Weighted average shares outstanding during the period:				
Basic	104,198	89,846	104,213	89,861
Diluted	106,621	91,610	106,582	91,596

Merger related expenses for this merger of \$8.9 million and \$15.7 million for the three- and six-month periods ended June 30, 2006 consisted of systems integration and related charges of \$5.9 million and \$10.1 million, and severance and other employee-related costs of \$3.0 million and \$5.6 million, respectively.

As disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2005, Amegy accrued as of the date of merger approximately \$15.2 million of liabilities from purchase accounting adjustments for certain exit and termination costs. These costs consisted of employee-related costs of \$12.2 million and other exit costs of \$3.0 million. As of June 30, 2006, Amegy had paid approximately \$10.5 million of these costs.

4. LONG-TERM DEBT

On March 31, 2006, we filed an automatic shelf registration statement with the Securities and Exchange Commission (SEC) as a well-known seasoned issuer under their revised rules effective December 1, 2005 with respect to the registration, communications and offering processes under the Securities Act of 1933. The shelf registration replaced a previous shelf registration and covers securities of the Company, Zions Capital Trust C and Zions Capital Trust D.

On April 27, 2006, under the new shelf registration, we issued \$250 million of floating rate senior notes due April 15, 2008. The notes require quarterly interest payments at three-month LIBOR plus 0.12%. They are not redeemable prior to maturity and are not listed on any national securities exchange. Proceeds from the notes were used to retire all of the \$150 million of 2.70% senior notes due May 1, 2006 and all of the remaining \$104.2 million of 6.95% subordinated notes due May 15, 2011 and redeemable May 15, 2006.

Balance, June 30, 2005	\$ 21,288	\$ (15,980)	\$ (18,213)	\$ (12,905)

6. SHARE-BASED COMPENSATION

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 10-Q

We have a stock option and incentive plan which allows us to grant stock options and restricted stock to employees and nonemployee directors. The total shares authorized under the plan are 8,900,000 of which 6,604,869 shares are available for future grant as of June 30, 2006.

Prior to January 1, 2006, we accounted for share-based compensation under the recognition and measurement provisions of Accounting Principles Board Opinion No. 25 (APB 25), *Accounting for Stock Issued to Employees*, and related Interpretations, as permitted by SFAS No. 123, *Accounting for Stock-Based Compensation*. Accordingly, we did not record any compensation expense for stock options, as the exercise price of the option was equal to the quoted market price of the stock on the date of grant.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

Effective January 1, 2006, we adopted SFAS No. 123R, *Share-Based Payment*, which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the statement of income based on their fair values. This accounting utilizes a modified grant-date approach in which the fair value of an equity award is estimated on the grant date without regard to service or performance vesting conditions. We adopted SFAS 123R using the modified prospective transition method. Under this transition method, compensation expense is recognized beginning January 1, 2006 based on the requirements of SFAS 123R for all share-based payments granted after January 1, 2006, and based on the requirements of SFAS 123 for all awards granted to employees prior to January 1, 2006 that remain unvested as of that date. Results of operations for prior periods have not been restated.

The adoption of SFAS 123R, compared to the previous accounting for share-based compensation under APB 25, reduced the Company's income before income taxes and minority interest and net income along with the related basic and diluted per common share amounts as follows (*in thousands, except per share amounts*):

	June 30, 2006	
	Three Months Six Months	
	Ended	Ended
Reduction in:		
Income before income taxes and minority interest	\$ 4,147	\$ 8,066
Net income	2,756	5,570
Net income per common share:		
Basic	\$ 0.03	\$ 0.05
Diluted	0.03	0.05

As required by SFAS 123R, upon adoption, we reversed \$11.1 million of unearned compensation related to restricted stock from deferred compensation and common stock.

The impact on net income and net income per common share if we had applied the provisions of SFAS 123 to stock options for the three- and six-month periods ended June 30, 2005 was as follows (*in thousands, except per share amounts*):

	June 30, 2005	
	Three Months Six Months	
	Ended	Ended
Net income, as reported	\$ 118,810	\$ 229,044
Deduct: Total share-based compensation expense determined under fair value based method for stock options, net of related tax effects	(1,991)	(4,454)

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 10-Q

Pro forma net income	\$ 116,819	\$ 224,590
<hr/>		
Net income per common share:		
Basic as reported	\$ 1.32	\$ 2.55
Basic pro forma	1.30	2.50
Diluted as reported	1.30	2.50
Diluted pro forma	1.28	2.45

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

We classify all share-based awards as equity instruments and recognize the vesting of the awards ratably over their respective terms. As of June 30, 2006, compensation expense not yet recognized for nonvested share-based awards was approximately \$55.2 million, which is expected to be recognized over a weighted average period of 1.4 years.

SFAS 123R also requires the benefits of tax deductions in excess of recognized compensation expense resulting from the exercise of share-based awards to be reported as a financing cash flow. For the three- and six month periods ended June 30, 2006, this requirement reduced net operating cash flows and increased net financing cash flows by approximately \$7.9 million and \$13.0 million, respectively.

Stock Options

Options granted to employees vest at the rate of one third each year and expire seven years after the date of grant. Options granted to non employee directors are exercisable in increments from six months to three and a half years and expire ten years after the date of grant.

In 2005, we discontinued our broad-based employee stock option plan under which options were made available to substantially all employees; however, existing options continue to vest at the rate of one third each year and expire four years after the date of grant.

For the three- and six-month periods ended June 30, 2006, the additional compensation expense of \$4.1 million and \$8.1 million, respectively, for stock options under SFAS 123R is included in salaries and employee benefits in the statements of income with the corresponding increase to shareholders' equity included in common stock. The related tax benefit recognized as a reduction of income tax expense was \$1.4 million and \$2.5 million, respectively, for the same periods.

During the three- and six-month periods ended June 30, 2006, the amount of cash received from the exercise of stock options was \$14.4 million and \$55.4 million, respectively, and the tax benefit realized as a reduction of income taxes payable was \$5.2 million and \$14.4 million, respectively. Of these amounts, \$3.0 million and \$6.4 million reduced goodwill for the tax benefit of vested share-based awards converted in the Amegy acquisition that were exercised during the three- and six-month periods, and \$2.2 million and \$8.0 million, respectively, were included in common stock as part of net stock options exercised.

Compensation expense was determined from the estimates of fair values of stock options granted using the Black-Scholes option-pricing model. The following significant assumptions were used for options granted during the three months ended June 30, 2006:

Weighted average of fair value for options granted	\$ 15.02
Weighted average assumptions used:	
Expected dividend yield	2.0%
Expected volatility	18.0%
Risk-free interest rate	4.96%

Expected life (in years)

4.1

No stock options were granted during the three months ended March 31, 2006. The methodology used to estimate the fair values of stock options is consistent with the estimates used for the pro forma presentation in periods prior to the adoption of SFAS 123R. The preceding assumptions reflect management's judgment and include consideration of historical experience. The risk-free interest rate is based on the U. S. Treasury yield curve in effect at the time of grant for periods corresponding with the expected life of the option.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

The following summarizes our stock option activity for the six months ended June 30, 2006:

	Number of shares	Weighted average exercise price
Balance at December 31, 2005	7,497,566	\$ 52.79
Granted	977,024	81.14
Exercised	(1,155,141)	48.81
Expired	(24,671)	51.64
Forfeited	(59,339)	59.97
	<hr/>	
Balance at June 30, 2006	7,235,439	57.19
	<hr/>	
Outstanding options exercisable as of June 30, 2006	4,748,241	\$ 50.14

We issue new authorized shares for the exercise of stock options. During the three- and six-month periods ended June 30, 2006, the total intrinsic value of options exercised was approximately \$8.3 million and \$36.4 million, respectively.

Additional selected information on stock options at June 30, 2006 follows:

Exercise price range	Outstanding options			Exercisable options	
	Number of shares	Weighted average exercise price	Weighted average remaining contractual life (years)	Number of shares	Weighted average exercise price
\$ 0.32 to \$ 19.99	96,878	\$ 12.03	1.1 (1)	96,878	\$ 12.03
\$ 20.00 to \$ 39.99	191,305	27.77	2.8	191,305	27.77
\$ 40.00 to \$ 44.99	1,429,342	42.22	3.0	1,430,146	42.22
\$ 45.00 to \$ 49.99	397,394	48.28	4.9	390,394	48.27
\$ 50.00 to \$ 54.99	1,113,240	53.72	2.9	1,108,356	53.72
\$ 55.00 to \$ 59.99	1,712,404	56.95	4.9	1,038,065	57.00
\$ 60.00 to \$ 64.99	211,605	61.51	3.1	87,742	61.90
\$ 65.00 to \$ 69.99	210,897	67.28	6.9	146,210	67.45
\$ 70.00 to \$ 74.99	781,474	70.86	6.0	257,437	70.88
\$ 75.00 to \$ 82.92	1,090,900	80.59	6.9	1,708	75.58
	<hr/>			<hr/>	
	7,235,439	57.19	4.5 (1)	4,748,241	50.14

- (1) The weighted average remaining contractual life excludes 35,023 stock options which expire between the date of termination and one year from the date of termination, depending upon certain circumstances.

For outstanding options at June 30, 2006, the aggregate intrinsic value was \$154.7 million. For exercisable options at June 30, 2006, the aggregate intrinsic value was \$133.1 million and the weighted average remaining contractual life was 3.9 years.

Restricted Stock

Restricted stock granted vests over four years. During the vesting period, the holder has full voting rights and receives dividend equivalents. For the three- and six-month periods ended June 30, 2006, compensation expense recognized for issuances of restricted stock and included in salaries and employee benefits in the

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

statement of income was \$1.9 million and \$2.9 million, respectively. Amounts for the corresponding periods in 2005 were \$0.4 million and \$0.5 million, respectively. The corresponding increase to shareholders' equity was included in common stock. Compensation expense was determined based on the number of restricted shares granted and the market price of our common stock at the grant date.

The following summarizes our restricted stock activity for the six months ended June 30, 2006:

	Number of shares	Weighted average grant price
Nonvested restricted shares at December 31, 2005	203,983	\$ 68.99
Granted	279,625	80.16
Vested	(46,865)	70.98
Forfeited	(9,113)	72.44
Nonvested restricted shares at June 30, 2006	427,630	77.11

The total fair value of restricted stock vesting during the three- and six-month periods ended June 30, 2006 was \$3.3 million and \$3.4 million, respectively. Amounts for the corresponding periods in 2005 were not significant.

7. GUARANTEES

The following are guarantees issued by the Company (*in thousands*):

	June 30, 2006	December 31, 2005
Standby letters of credit:		
Financial	\$ 1,072,389	\$ 1,015,019
Performance	301,295	240,763
	\$ 1,373,684	\$ 1,255,782

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 10-Q

The Company's Annual Report on Form 10-K for the year ended December 31, 2005 contains further information on the nature of these letters of credit along with their terms and collateral requirements. At June 30, 2006, the carrying value recorded by the Company as a liability for these guarantees was \$4.8 million.

Certain mortgage loans sold have limited recourse provisions for periods ranging from three months to one year. The amount of losses resulting from the exercise of these provisions has not been significant.

As of June 30, 2006, the Parent has guaranteed approximately \$476.1 million of debt issued by affiliated trusts issuing trust preferred securities. The trusts and related trust preferred securities are described in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

Zions Bank provides a liquidity facility (Liquidity Facility) for a fee to Lockhart Funding, LLC (Lockhart), a QSPE securities conduit. Lockhart purchases floating rate U.S. Government and AAA-rated securities with funds from the issuance of commercial paper. Zions Bank also provides interest rate hedging support and administrative and investment advisory services for a fee. Pursuant to the Liquidity Facility contract, Zions Bank is required to purchase securities from Lockhart to provide funds for Lockhart to repay maturing commercial paper upon Lockhart's inability to access the commercial paper market, or upon a commercial paper market disruption as specified in governing documents for Lockhart. Pursuant to the

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

governing documents, including the liquidity agreement, if any security in Lockhart is downgraded below AA-, Zions Bank must either 1) place its letter of credit on the security, 2) obtain credit enhancement from a third party, or 3) purchase the security from Lockhart at book value. At any given time, the maximum commitment of Zions Bank is the book value of Lockhart's securities portfolio, which is not allowed to exceed the size of the Liquidity Facility commitment. At June 30, 2006, the book value of Lockhart's securities portfolio was \$5.0 billion, which approximated market value, and the size of the Liquidity Facility commitment was \$6.12 billion. No amounts were outstanding under the Liquidity Facility at June 30, 2006.

The FASB continues to deliberate other projects that propose to amend SFAS 140 in addition to those discussed in Note 2. These include isolation of transferred assets and permitted activities of QSPEs. The proposed amendments, among other things, may require changes to the operating activities of QSPEs and other aspects relating to the transfer of financial assets. Subject to the requirements of any final standards when they are issued, Lockhart's operations may need to be modified to preserve its off-balance sheet status.

8. RETIREMENT PLANS

The following disclosures are required for interim financial statements by SFAS No. 132R, *Employers' Disclosures about Pensions and Other Postretirement Benefits* (in thousands):

	Pension benefits		Postretirement benefits		Pension benefits		Postretirement benefits	
	Three Months Ended June 30,				Six Months Ended June 30,			
	2006	2005	2006	2005	2006	2005	2006	2005
Service cost	\$ 129	\$ 133	\$ 32	\$ 29	\$ 258	\$ 286	\$ 64	\$ 60
Interest cost	2,148	1,990	86	86	4,300	4,269	172	175
Expected return on plan assets	(2,588)	(2,428)			(5,180)	(5,209)		
Amortization of net actuarial (gain) loss	491	336	(67)	(86)	983	720	(134)	(175)
Net periodic benefit cost	\$ 180	\$ 31	\$ 51	\$ 29	\$ 361	\$ 66	\$ 102	\$ 60

As disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2005, we expect to contribute \$634 thousand in 2006 to meet estimated benefit payments to participants in our postretirement health and welfare plan. As of June 30, 2006, we have contributed \$317 thousand of this amount and expect to contribute the remaining portion during the rest of 2006. We do not expect to make any contributions to the pension plan in 2006 and have not done so as of June 30, 2006. As disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2005, participation and benefit accruals for the pension plan were frozen effective January 1, 2003.

9. OPERATING SEGMENT INFORMATION

We manage our operations and prepare management reports and other information with a primary focus on geographical area. As of June 30, 2006, we operate eight community/regional banks in distinct geographical areas. Performance assessment and resource allocation are based upon this geographical structure. Zions Bank operates 112 branches in Utah and 24 in Idaho. CB&T operates 91 branches in California. Amegy operates 77 branches in Texas. NBA operates 53 branches in Arizona. NSB operates 72 branches in Nevada. Vectra operates 38 branches in Colorado and one branch in New Mexico. TCBW operates one branch in the state of Washington. TCBO operates one branch in Oregon. The operating segment identified as Other includes the Parent, certain nonbank financial service and financial technology subsidiaries, other smaller nonbank operating units, TCBO, and eliminations of transactions between segments. Results for Amegy only include the three- and six month periods ended June 30, 2006.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

The accounting policies of the individual operating segments are the same as those of the Company. Transactions between operating segments are primarily conducted at fair value, resulting in profits that are eliminated for reporting consolidated results of operations. Operating segments pay for centrally provided services based upon estimated or actual usage of those services.

The following table presents selected operating segment information for the three months ended June 30, 2006 and 2005:

(In millions)	Zions Bank		CB&T		Amegy		NBA		NSB

FORWARD-LOOKING INFORMATION

Statements in Management's Discussion and Analysis that are based on other than historical data are forward-looking, within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements provide current expectations or forecasts of future events and include, among others:

statements with respect to the Company's beliefs, plans, objectives, goals, guidelines, expectations, anticipations, and future financial condition, results of operations and performance;

statements preceded by, followed by or that include the words may, could, should, would, believe, anticipate, estimate, expect, plan, projects, or similar expressions.

These forward-looking statements are not guarantees of future performance, nor should they be relied upon as representing management's views as of any subsequent date. Forward-looking statements involve significant risks and uncertainties and actual results may differ materially from those presented, either expressed or implied, in Management's Discussion and Analysis. Factors that might cause such differences include, but are not limited to:

the Company's ability to successfully execute its business plans, manage its risks, and achieve its objectives;

changes in political and economic conditions, including the economic effects of terrorist attacks against the United States and related events;

changes in financial market conditions, either nationally or locally in areas in which the Company conducts its operations, including without limitation, reduced rates of business formation and growth, commercial real estate development and real estate prices;

fluctuations in the equity and fixed-income markets;

changes in interest rates, the quality and composition of the loan and securities portfolios, demand for loan products, deposit flows and competition;

acquisitions and integration of acquired businesses, including Amegy;

increases in the levels of losses, customer bankruptcies, claims and assessments;

changes in fiscal, monetary, regulatory, trade and tax policies and laws, including policies of the U.S. Treasury and the Federal Reserve Board;

continuing consolidation in the financial services industry;

new litigation or changes in existing litigation;

success in gaining regulatory approvals, when required;

changes in consumer spending and savings habits;

increased competitive challenges and expanding product and pricing pressures among financial institutions;

demand for financial services in Zions' market areas;

inflation and deflation;

technological changes and Zions' implementation of new technologies;

Zions' ability to develop and maintain secure and reliable information technology systems;

legislation or regulatory changes which adversely affect the Company's operations or business;

the Company's ability to comply with applicable laws and regulations; and

changes in accounting policies or procedures as may be required by the Financial Accounting Standards Board or regulatory agencies.

Additional factors that could cause actual results to differ materially from those expressed in the forward-looking statements are discussed in the 2005 Annual Report on Form 10-K of Zions Bancorporation filed with the Securities and Exchange Commission (SEC) and available at the SEC's Internet site (<http://www.sec.gov>).

The Company specifically disclaims any obligation to update any factors or to publicly announce the result of revisions to any of the forward-looking statements included herein to reflect future events or developments.

CRITICAL ACCOUNTING POLICIES AND SIGNIFICANT ESTIMATES

The Company has made no significant changes in its critical accounting policies and significant estimates from those disclosed in its Annual Report on Form 10-K for the year ended December 31, 2005, except as noted below.

Note 6 of the Notes to Consolidated Financial Statements discusses the Company's adoption on January 1, 2006 of SFAS No. 123R, *Share-Based Payment* (SFAS 123R), which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the statement of income based on their fair values. The Company adopted SFAS 123R using the modified prospective transition method and did not restate results of operations for prior periods. Rather, the Company presented the pro forma effect on operations as if it had adopted the provisions of SFAS 123.

The Company uses the Black-Scholes option-pricing model to estimate the fair value of stock options granted under SFAS 123R and for the pro forma presentations in prior periods. Use of the assumptions described in Note 6 is subjective and requires judgment. The adoption of SFAS 123R decreased income before income taxes and minority interest and net income by approximately \$4.1 million and \$2.8 million, respectively, for the three months ended June 30, 2006, or \$0.03 per diluted share, and \$8.1 million and \$5.6 million, respectively for the six months ended June 30, 2006, or \$0.05 per diluted share. The Company currently estimates that the adoption of SFAS 123R will reduce 2006 pretax income by approximately \$17 million. In 2005, the Company began granting shares of restricted stock in connection with the adoption of a new stock option and incentive plan. During the second quarter of 2006, the Company granted 977,024 stock options and 219,000 shares of restricted stock.

RESULTS OF OPERATIONS

As previously disclosed, the Company completed its acquisition of Amegy Bancorporation, Inc. in December 2005. All comparisons to 2005 periods reflect the effects of the Amegy acquisition.

Zions Bancorporation (the Parent) and subsidiaries (collectively Zions, the Company, we, our) reported net income of \$145.3 million, or \$1.30 per diluted share for the second quarter of 2006 compared with \$118.8 million, or \$1.30 per diluted share for the second quarter of 2005. The annualized return on average assets was 1.33% in the second quarter of 2006 compared to 1.47% in the second quarter of 2005. For the same comparative periods, the annualized return on average common equity was 13.20% compared to 16.56%. In addition, the efficiency ratio, which is defined as the percentage of noninterest expenses to taxable-equivalent revenue, was 57.5% compared to 54.8% for the second quarter of 2005.

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 10-Q

Net income for the first six months of 2006 was \$282.9 million or \$2.62 per diluted share, compared to \$229.0 million or \$2.50 per diluted share for the first six months of 2005. For the first six months of 2006, the annualized return on average assets was 1.32% compared to 1.44% for the same period of 2005. For the same comparative periods, the annualized return on average common equity was 13.06% compared to 16.20%. The efficiency ratio for the first six months was 57.8% compared to 55.6% for 2005.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

Net Interest Income, Margin and Interest Rate Spreads

Taxable-equivalent net interest income for the second quarter of 2006 increased 31.6% to \$442.3 million compared with \$336.1 million for the comparable period of 2005. The increase reflects the acquisition of Amegy, growth in both loans and deposits coupled with the effect of an increase in the net interest margin. For the first six months of 2006, net interest income on a fully taxable-equivalent basis was \$871.1 million, an increase of 32.7% compared to \$656.2 million in 2005. The incremental tax rate used for calculating all taxable-equivalent adjustments is 35% for all periods presented.

Although taxable-equivalent net interest income increased sequentially in the second quarter of 2006, the Company's net interest margin was 4.64% for the second quarter of 2006, compared to 4.69% for the first quarter of 2006 and 4.60% for the second quarter of 2005. The decreased net interest margin for the second quarter of 2006 resulted mainly from robust loan growth being funded primarily by time deposits and Federal Home Loan Bank advances and other short-term borrowings.

One of the challenges we continue to face in 2006 is an increase in pricing pressures on both loans and deposits as the economy expands and competition for good business increases. Reflecting this pricing pressure, the spread on average interest-bearing funds for the second quarter for 2006 was 3.81%, down from 3.95% and 4.03% from the first quarter of 2006 and second quarter of 2005, respectively. The yield on average earning assets increased 21 basis points during the second quarter as compared to the first quarter of 2006 and 95 basis points during the second quarter of 2006 compared to the same period in 2005. The average rate paid this quarter on interest-bearing funds increased 35 basis points from the first quarter and 117 basis points from the second quarter of 2005.

The Federal Reserve raised its target for the federal funds rate twice during the quarter by a combined 50 basis points. These increases were followed by corresponding increases in the prime rate charged by most major banks, including Zions' subsidiary banks. The Federal Reserve has indicated that it may implement additional rate changes, as appropriate. The Company expects to continue its efforts to maintain a slightly asset sensitive position with regard to interest rate risk. However, our estimates of the Company's actual position are highly dependent upon changes in both short-term and long-term interest rates, modeling assumptions, and the actions of competitors and customers in response to those changes.

ZIONS BANCORPORATION AND SUBSIDIARIES

Provisions for Credit Losses

The provision for loan losses is the amount of expense that, based on our judgment, is required to maintain the allowance for loan losses at an adequate level based upon the inherent risks in the portfolio. The provision for unfunded lending commitments is used to maintain the allowance for unfunded lending commitments at an adequate level. See **Credit Risk Management** for more information on how we determine the appropriate level for the allowances for loan and lease losses and unfunded lending commitments.

The provision for loan losses for the second quarter was \$17.0 million compared to \$11.4 million for the same period in 2005. On an annualized basis, the provision was 0.21% and 0.20% of average loans for the second quarters of 2006 and 2005, respectively. The provision for unfunded lending commitments was \$(0.2) million for the second quarter of 2006 compared to \$1.0 million for the second quarter of 2005. When combined, the provisions for credit losses for the second quarter of 2006 were \$16.8 million compared to \$12.5 million for the second quarter of 2005.

The provision for loan losses for the first six months of 2006 was \$31.5 million, 51.6% greater than the \$20.8 million provision for the first six months of 2005. The increased loan loss provision for the second quarter and the first six months is primarily impacted by strong net loan growth of \$2.6 billion during the first six months of 2006 as compared to \$1.2 billion net loan growth during the first six months of 2005. The provision for unfunded lending commitments was \$(0.5) million for the first half of 2006 compared to \$2.7 million for the same period in 2005. From period to period, the amounts of unfunded lending commitments may be subject to sizeable fluctuation due to changes in the timing and volume of loan originations and fundings. The related provision will generally reflect these fluctuations.

Noninterest Income

Compared with the second quarter of 2005, noninterest income for the second quarter of 2006 increased 30.0%, or \$31.8 million. The increases in total and individual categories of noninterest income for the second quarter of 2006 compared to the second quarter of 2005 were mainly due to the Amegy acquisition. Significant changes and trends in noninterest income categories not resulting from the Amegy acquisition are discussed as follows.

Excluding Amegy, loan sales and servicing income decreased \$1.6 million for the second quarter of 2006 compared to the second quarter of 2005. The decrease includes a \$1.1 million impairment loss recognized on capitalized residual cash flows for certain small business securitizations.

Market making, trading and nonhedge derivative income for the second quarter of 2006, excluding Amegy, decreased \$3.4 million or 52.0% compared with the same period in 2005. Excluding Amegy, trading income declined \$1.9 million compared to the second quarter of 2005. The decrease mainly results from a decision made by the Company in the fourth quarter of 2005 to close the London trading office and reduce the amount of trading assets in response to contracted margin pressures. Nonhedge derivative income was \$0.3 million for the second quarter of 2006 compared to \$1.8 million for the second quarter of 2005.

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 10-Q

Net equity securities losses were \$1.8 million for the second quarter of 2006 compared with net losses of \$2.8 million for the same period in 2005. Net losses for the second quarter of 2006 include a \$3.4 million loss on the sale of a mortgage mutual fund investment, a \$0.7 million gain on venture capital equity investments, and a \$0.9 million gain from the sale of other equity securities. The losses for the second quarter of 2005 were all from venture capital equity investments. Adjusted for expenses, minority interest and income taxes, venture capital investments increased net income by \$0.3 million in the second quarter of 2006 and decreased net income by \$1.0 million in the second quarter of 2005. Fixed income securities gains were \$5.2 million in the second quarter of 2006 compared to a loss of \$1.2 million for the comparative period of 2005.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

Noninterest income for the first six months of 2006 of \$266.2 million increased 27.5% from \$208.8 million for the first six months of 2005. Explanations previously provided for the quarterly changes also apply to the year-to-date changes. Additional explanations of variances follow.

Loan sales and servicing income without Amegy decreased 12.8% or \$4.5 million for the first six months of 2006. The decline results from the impact of rising rates and on excess servicing income, higher prepayments, and the aforementioned impairment loss on certain retained interests relating to small business securitized loans.

Trust and investment management income fees for the first six months of 2006 increased 24.0% compared to the same period in 2005 as a result of increases in fees from the Amegy acquisition and increased fees from the trust and investment management business. Excluding the Amegy acquisition, trust and investment management income fees for the first six months of 2006 increased 6.2%.

Noninterest Expense

Noninterest expense for the second quarter of 2006 of \$333.3 million increased \$91.2 million or 37.7% over the \$242.0 million for the second quarter of 2005. The increases in total and individual categories of noninterest expense for the second quarter of 2006 compared to the second quarter of 2005 were mainly due to the Amegy acquisition. The Company's efficiency ratio was 57.5% for the second quarter of 2006 compared to 54.8% for the same period of 2005. The deterioration in the efficiency ratio reflects higher noninterest expenses, including merger related expenses and amortization of intangibles related to the acquisition of Amegy, and a higher cost structure at Amegy. Significant changes and trends in noninterest expense categories not resulting from the Amegy acquisition are discussed as follows.

Salaries and employee benefits increased \$47.4 million or 34.3%, compared to the second quarter of 2005. However, salaries and employee benefits were essentially unchanged when compared to the first quarter of 2006. Excluding Amegy-related salaries and employee benefits of \$34.4 million and share-based compensation expense of \$4.1 million resulting from the adoption of SFAS 123R, salaries and benefits increased \$8.9 million or 6.4%. The increase from the prior year, excluding Amegy, was due to salary increases and increased staffing levels in selected areas.

Noninterest expense for the first six months of 2006 of \$657.7 million increased 36.7% from \$481.3 million for the first six months of 2005. The Company's efficiency ratio was 57.8% for the first six months of 2006 compared to 55.6% for the same period of 2005. Explanations previously provided for the quarterly changes also apply to the year-to-date changes. Additional explanations of variances follow.

Excluding the impact of the Amegy acquisition, salaries and employee benefits for the first half of 2006 increased \$25.3 million or 9.2% when compared to the same period in 2005, primarily as a result of share-based compensation costs attributable to the adoption of SFAS 123R, salary increases, and increased staffing levels in selected areas.

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 10-Q

See Note 3 of Notes to Consolidated Financial Statements for an explanation of the \$15.7 million of Amegy merger related expenses incurred during the first half of 2006.

At June 30, 2006, the Company had 10,146 full-time equivalent employees, 470 domestic branches, and 577 ATMs, compared to 8,043 full-time equivalent employees, 388 domestic branches, and 473 ATMs at June 30, 2005.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

Income Taxes

The Company's income tax expense increased to \$78.8 million for the second quarter of 2006 compared to \$66.3 million for the same period in 2005. The Company's effective income tax rates, including the effects of minority interest, were 35.2% and 35.8% for the second quarters of 2006 and 2005, respectively. The effective income tax rates for the first six months of 2006 and 2005 were 35.3% and 35.5% respectively. As discussed in previous filings, the Company has received federal income tax credits under the Community Development Financial Institutions Fund set up by the U.S. Government that will be recognized over the next seven years. The effect of these tax credits was to reduce income tax expense by \$2.1 million for the first six months of 2006 and \$1.5 million for the first six months of 2005. The effective tax rates reflect a lower proportion of tax exempt income to total income, offset by the increased tax credits.

ZIONS BANCORPORATION AND SUBSIDIARIES

BALANCE SHEET ANALYSIS

As previously discussed, the Company completed its acquisition of Amegy Bancorporation, Inc. in December 2005. The Company's consolidated balance sheets at June 30, 2006 and December 31, 2005 include Amegy.

Interest-Earning Assets

Interest-earning assets are those assets that have interest rates or yields associated with them and consist of money market investments, securities and loans.

Average interest-earning assets increased 29.9% to \$37.7 billion for the six months ended June 30, 2006 compared to \$29.0 billion for the comparable period in 2005. Interest-earning assets comprised 87.1% of total average assets for the first half of 2006, compared with 90.1% for the comparable period of 2005. The decreased percentage is mainly a result of increased goodwill and other intangible assets from the Amegy acquisition. Average interest-earning assets as a percentage of total average assets for the second quarter of 2006 was 87.4% compared to 86.9% for the first quarter.

Average money market investments, consisting of interest-bearing deposits, federal funds sold and security resell agreements, decreased 41.2% to \$493.4 million for the first six months of 2006 compared to \$839.4 million for the first six months of 2005. Reductions in money market instruments have been used to fund new loan growth. Average net loans and leases for the first half of 2006 increased by 35.6% when compared to the same period in 2005. Average total deposits for the first six months of 2006 increased 36.6% compared to the same period in 2005.

Investment Securities Portfolio

The following table presents the Company's held-to-maturity and available-for-sale investment securities:

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

The amortized cost of investment securities at June 30, 2006 decreased 3.0% from the amount at December 31, 2005 but was up 25.9% from the balance at June 30, 2005 as a result of the Amegy acquisition. During the first half of 2006, we reduced the securities portfolio to fund a portion of the Company's new loan growth.

We review investment securities on an ongoing basis for other than temporary impairment taking into consideration current market conditions, offering prices, trends and volatility of earnings, current analysts' evaluations, our ability and intent to hold investments until a recovery of fair value, which may be maturity, and other factors. Our review did not result in an other than temporary impairment adjustment during the quarter ended June 30, 2006.

The investment securities portfolio includes \$0.9 billion of nonrated, fixed income securities, compared to \$1.0 billion at both December 31, 2005 and June 30, 2005. These securities include nonrated municipal securities as well as nonrated, asset-backed subordinated tranches.

Loan Portfolio

Net loans and leases at June 30, 2006 were \$32.7 billion, an annualized increase of 17.0% from December 31, 2005 and an increase of 37.2% over the balance at June 30, 2005. The Company experienced strong loan growth in the first half of 2006, especially during the second quarter.

The following table sets forth the loan portfolio by type of loan:

(In millions)	June 30, 2006	December 31, 2005	June 30, 2005
	_____	_____	_____
Loans held for sale	\$ 249	\$ 256	\$ 207

Sold Loans Being Serviced

Zions performs loan servicing on both loans that it holds in its portfolios and also on loans that are owned by third party investor-owned trusts. In addition, Zions has a practice of securitizing and selling a portion of the loans that it originates, and in many instances provides the servicing on these loans as a condition of the sale.

(In millions)	Residual interests				
	Sold loans being serviced	on balance sheet at June 30, 2006			
	Sales for six months ended	Outstanding balance at June 30, 2006	Subordinated retained interests	Capitalized residual cash flows	Total
	June 30, 2006	June 30, 2006	June 30, 2006	June 30, 2006	June 30, 2006
Home equity credit lines	\$ 98	\$ 357	\$ 10	\$ 6	\$ 16
Small business loans		2,082	229	85	314
SBA 7(a) loans	22	159		3	3
Farmer Mac	22	405		5	5
Total	\$ 142	\$ 3,003	\$ 239	\$ 99	\$ 338

Securitized loans being serviced for others totaled \$3.0 billion at the end of the second quarter of 2006, \$3.4 billion at December 31, 2005 and \$2.9 billion at June 30, 2005.

As of June 30, 2006, the Company had recorded assets, comprised of subordinated retained interests and capitalized residual cash flows, in the amount of \$338 million in connection with the \$3.0 billion of sold loans being serviced. As is a common practice with securitized transactions, the Company had retained subordinated interests in the securitized assets that totaled \$239 million at June 30, 2006, and represented junior positions to the other investors in the trust securities. The capitalized residual cash flows, which are sometimes referred to as excess servicing, of \$99 million primarily represent the present value of the excess cash flows that have been projected over the lives of the sold loans.

As of June 30, 2006, conforming long-term first mortgage real estate loans being serviced for others were \$1,235 million, compared with \$1,274 million at December 31, 2005 and \$462 million at June 30, 2005. The increase from June 30, 2005 reflects the acquisition of Amegy.

Other Noninterest-Bearing Investments

As of June 30, 2006, the Company had \$993 million of other noninterest-bearing investments compared with \$939 million at December 31, 2005 and \$699 million at June 30, 2005.

(In millions)	June 30,	December 31,	June 30,
	2006	2005	2005
Bank-owned life insurance	\$ 614	\$ 605	\$ 412
Federal Home Loan Bank and Federal Reserve stock	194	153	128
SBIC investments (1)	85	80	73
Non-SBIC investment funds	29	27	16
Other public companies	36	39	40
Other nonpublic companies	15	15	14
Trust preferred securities	20	20	16
	<u>\$ 993</u>	<u>\$ 939</u>	<u>\$ 699</u>

- (1) Amounts include minority investors' interests in Zions' managed SBIC investments of approximately \$28 million, \$27 million, and \$24 million as of the respective dates.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

The increases in other noninterest-bearing investments are mainly a result of the Amegy acquisition.

Deposits

Total deposits at the end of the second quarter of 2006 increased to \$33.3 billion, an annualized increase of 3.7% from the balances reported at December 31, 2005, and increased 36.3% over the June 30, 2005 amounts. Core deposits at June 30, 2006 decreased 1.8%, annualized, compared to the December 31, 2005 balance and increased 30.7% compared to the balance at June 30, 2005. Demand and time deposits accounted for most of the deposit growth in the second quarter of 2006, with savings and money market account balances declining during the period.

At the end of the second quarter of 2006 demand, savings and money market deposits comprised 78.1% of total deposits, compared with 79.7% and 85.1% as of December 31, 2005 and June 30, 2005, respectively. The decrease in this ratio from June 30, 2005 is a primarily a result of the mix of deposits at Amegy.

We expect to see deposit growth throughout 2006; however, we expect that the pace of such growth may be less than that of the loan portfolio. As a result, we will continue to use alternative funding sources as necessary to fund the additional loan growth.

RISK ELEMENTS

Since risk is inherent in substantially all of the Company's operations, management of risk is an integral part of its operations and is also a key determinant of its overall performance. We apply various strategies to reduce the risks to which the Company's operations are exposed, including credit, interest rate and market, liquidity, and operational risks.

Credit Risk Management

Effective management of credit risk is essential in maintaining a safe and sound financial institution. We have structured the organization to separate the lending function from the credit administration function, which adds strength to the control over and the independent evaluation of credit activities. Formal loan policies and procedures provide the Company with a framework for consistent underwriting and a basis for sound credit decisions. In addition, the Company has a well-defined set of standards for evaluating its loan portfolio, and management utilizes a comprehensive loan grading system to determine the risk potential in the portfolio. Further, an independent, internal credit examination department periodically conducts examinations of the Company's lending departments. These examinations are designed to review credit quality, adequacy of documentation, appropriate loan grading administration and compliance with lending policies, and reports thereon are submitted to the Credit Review Committee of the Board of Directors.

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 10-Q

Both the credit policy and the credit examination functions are managed centrally. Each affiliate bank is permitted to modify corporate credit policy to be more conservative; however, corporate approval must be obtained if a bank wishes to create a more liberal exception to the policy. Historically, only a limited number of such exceptions have been approved. This entire process has been designed to place an emphasis on early detection of potential problem credits so that action plans can be developed and implemented on a timely basis to mitigate any potential losses.

Another aspect of the Company's credit risk management strategy is to pursue the diversification of the loan portfolio. The Company maintains a diversified loan portfolio with some emphasis in real estate. As set forth in the following table, at June 30, 2006 no single loan type exceeded 23.0% of the Company's total loan portfolio.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

(In millions)	June 30, 2006		December 31, 2005		June 30, 2005	
	Amount	% of total loans	Amount	% of total loans	Amount	% of total loans
Commercial lending:						
Commercial and industrial	\$ 7,539	23.0%	\$ 7,192	23.8%	\$ 4,760	19.9%

Other	453	1.4%	537	1.8%	468	2.0%
Other	427	1.3%	452	1.5%	305	1.3%
Total loans	\$ 32,825	100.0%	\$ 30,252	100.0%	\$ 23,925	100.0%

We believe the Company's potential risk from concentration in owner occupied commercial loans is reduced by the emphasis we place on lending programs sponsored by the Small Business Administration. On these types of loans, the Small Business Administration bears a major portion of the credit risk. In addition, the Company attempts to avoid the risk of an undue concentration of credits in a particular industry, trade group or property type. The Company also has no significant exposure to highly-leveraged transactions and the majority of the Company's business activity is with customers located within the geographical footprint of its banking subsidiaries. Finally, the Company has no significant exposure to any individual customer or counterparty.

A more comprehensive discussion of our credit risk management is contained in Zions' Annual Report on Form 10-K for the year ended December 31, 2005. In addition, as discussed in the following sections, the Company's level of credit quality continued to be very strong during the second quarter of 2006 compared to historical standards.

Nonperforming Assets

Nonperforming assets include nonaccrual loans, restructured loans and other real estate owned. Loans are generally placed on nonaccrual status when the loan is 90 days or more past due as to principal or interest, unless the loan is both well secured and in the process of collection. Consumer loans are not normally placed on a nonaccrual status, inasmuch as they are generally charged off when they become 120 days past due. Loans occasionally may be restructured to provide a reduction or deferral of interest or principal payments. This generally occurs when the financial condition of a borrower deteriorates to the point that the borrower needs to be given temporary or permanent relief from the original contractual terms of the loan. Other real estate owned is acquired primarily through or in lieu of foreclosure on loans secured by real estate.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

The following table sets forth the Company's nonperforming assets:

(Amounts in millions)	June 30,	December 31,	June 30,
	2006	2005	2005
Nonaccrual loans	\$ 57	\$ 69	\$ 62
Restructured loans			1
Other real estate owned	16	20	11
Total	\$ 73	\$ 89	\$ 74
% of net loans and leases* and other real estate owned	0.22%	0.30%	0.31%
Accruing loans past due 90 days or more	\$ 29	\$ 17	\$ 13
% of net loans and leases*	0.09%	0.06%	0.06%

* Includes loans held for sale.

Total nonperforming assets decreased 17.5% as of June 30, 2006 compared with the balance at December 31, 2005.

Included in nonaccrual loans are loans that we have determined to be impaired. Loans, other than those included in large groups of smaller-balance homogeneous loans, are considered impaired when, based on current information and events, it is probable that the Company will be unable to collect all amounts due in accordance with the contractual terms of the loan agreement, including scheduled interest payments. The amount of the impairment is measured based on either the present value of expected cash flows, the observable market price of the loan, or the fair value of the collateral securing the loan.

The Company's total recorded investment in impaired loans was \$32 million at June 30, 2006, compared with \$31 million at December 31, 2005 and \$36 million at June 30, 2005. Estimated losses on impaired loans are included in the allowance for loan losses. At June 30, 2006, the allowance for loan losses included \$5 million for impaired loans with a recorded investment of \$15 million. At December 31, 2005, the allowance included \$3 million for impaired loans with a recorded investment of \$14 million, and at June 30, 2005 the allowance included \$5 million for impaired loans with a recorded investment of \$18 million.

Allowances for Credit Losses

Allowance for Loan Losses In analyzing the adequacy of the allowance for loan losses, we utilize a comprehensive loan grading system to determine the risk potential in the portfolio and also consider the results of independent internal credit reviews. To determine the adequacy of the allowance, the Company's loan and lease portfolio is broken into segments based on loan type.

For commercial loans, we use historical loss experience factors by loan segment, adjusted for changes in trends and conditions, to help determine an indicated allowance for each portfolio segment. These factors are evaluated and updated using migration analysis techniques and other considerations based on the makeup of the specific segment. These other considerations include:

volumes and trends of delinquencies;

levels of nonaccruals, repossessions and bankruptcies;

trends in criticized and classified loans;

expected losses on real estate secured loans;

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

new credit products and policies;

economic conditions;

concentrations of credit risk; and

experience and abilities of the Company's lending personnel.

The allowance for consumer loans is determined using historically developed experience rates at which loans migrate from one delinquency level to the next higher level. Using average roll rates for the most recent twelve-month period and comparing projected losses to actual loss experience, the model estimates expected losses in dollars for the forecasted period. By refreshing the model with updated data, it is able to project losses for a new twelve-month period each month, segmenting the portfolio into nine product groupings with similar risk profiles. This methodology is an accepted industry practice, and the Company believes it has a sufficient volume of information to produce reliable projections.

The methodology used by Amegy to estimate its allowance for loan losses has not yet been conformed to the process used by the other affiliate banks. However, the process used by Amegy is not significantly different than the process used by our other affiliate banks.

The following table shows the changes in the allowance for loan losses and a summary of loan loss experience:

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

(Amounts in millions)	Six Months Ended June 30,	Twelve Months Ended December 31,	Six Months Ended June 30,
	2006	2005	2005
Loans* and leases outstanding (net of unearned income) at end of period	\$ 32,682	\$ 30,127	\$ 23,822
Average loans* and leases outstanding (net of unearned income)	\$ 31,188	\$ 24,009	\$ 23,005
Allowance for loan losses:			
Balance at beginning of period	\$ 338	\$ 271	\$ 271
Allowance of companies acquired		49	
Provision charged against earnings	32	43	21
Loans and leases charged-off:			
Commercial lending	(23)	(20)	(9)
Commercial real estate	(2)	(3)	(1)
Consumer	(7)	(19)	(10)
Other receivables		(1)	
Total	(32)	(43)	(20)
Recoveries:			
Commercial lending	6	12	6
Commercial real estate	1	1	
Consumer	3	5	3
Total	10	18	9
Net loan and lease charge-offs	(22)	(25)	(11)
Balance at end of period	\$ 348	\$ 338	\$ 281
Ratio of annualized net charge-offs to average loans and leases	0.14%	0.10%	0.09%
Ratio of allowance for loan losses to net loans and leases at end of period	1.07%	1.12%	1.18%
Ratio of allowance for loan losses to nonperforming loans	606.56%	489.74%	449.49%
Ratio of allowance for loan losses to nonaccrual loans and accruing loans past due 90 days or more	402.01%	394.08%	374.97%

* Includes loans held for sale.

Net loan and lease charge-offs, along with their annualized ratios to average loans and leases, are shown in the preceding table for the periods presented. The same respective amounts for the second quarter of 2006 were \$9.8 million and 0.12%.

The allowance for loan losses at the end of the first half of 2006 increased \$10.1 million from the level at year-end 2005. Excluding Amegy, which as previously discussed has not yet been conformed to Zions methodology, the amount of the allowance for loan losses attributable to the commercial loan portfolio increased \$10.6 million when compared to year-end 2005. During the first six months of 2006, the Company experienced a slight increase in the levels of its criticized and classified loans. As a result, the amount of the allowance for loan losses indicated for criticized and classified loans increased when compared to year-end 2005 by approximately \$0.8 million. Both commercial real estate loans and the commercial lending portfolio contributed to this increase. In addition, we had a \$9.8 million increase in the level of the allowance indicated for noncriticized and classified loans as a result of \$2.1 billion of commercial and commercial real estate loan growth since year-end 2005, excluding Amegy loans. The allowance for consumer loans at June 30,

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

2006 decreased by \$3.4 million when compared to the allowance at the end of 2005 principally as a result of improving consumer loan delinquencies.

Allowance for Unfunded Lending Commitment The Company also estimates an allowance for potential losses associated with off-balance sheet commitments and standby letters of credit. We determine the allowance for unfunded lending commitments using a process that is similar to the one we use for commercial loans. Based on historical experience, we have developed experience-based loss factors that we apply to the Company's unfunded lending commitments to estimate the potential for loss in that portfolio. These factors are generated from tracking commitments that become funded and develop into problem loans.

The following table sets forth the allowance for unfunded lending commitments:

(In millions)	Six Months Ended	Twelve Months Ended	Six Months Ended
	June 30, 2006	December 31, 2005	June 30, 2005
Balance at beginning of period	\$ 18.1	\$ 12.7	\$ 12.7
Allowance of company acquired		2.0	
Provision charged (credited) against earnings	(0.5)	3.4	2.7
Balance at end of period	\$ 17.6	\$ 18.1	\$ 15.4

The following table sets forth the combined allowances for credit losses:

(In millions)	June 30,	December 31,	June 30,
	2006	2005	2005
Allowance for loan losses	\$ 348	\$ 338	\$ 282
Allowance for unfunded lending commitments	18	18	15
Total allowances for credit losses	\$ 366	\$ 356	\$ 297

Interest Rate and Market Risk Management

Interest rate risk is the potential for loss resulting from adverse changes in the level of interest rates on the Company's net interest income. Market risk is the potential for loss arising from adverse changes in the prices of fixed income securities, equity securities, other earning assets and derivative financial instruments as a result of changes in interest rates or other factors. As a financial institution that engages in transactions involving an array of financial products, Zions is exposed to both interest rate risk and market risk.

Interest Rate Risk Interest rate risk is one of the most significant risks to which the Company is regularly exposed. In general, our goal in managing interest rate risk is to have the net interest margin increase slightly in a rising interest rate environment. We refer to this goal as being slightly asset sensitive. This approach is based on our belief that in a rising interest rate environment, the market cost of equity, or implied rate at which future earnings are discounted, would also tend to rise. However, in recent months, competitive pressures and market conditions have resulted in higher deposit costs, slower deposit growth, and increases in borrowed funds, resulting in some contraction of the net interest margin.

We attempt to control the effects that changes in interest rates will have on net interest income through the management of maturities and repricing of the Company's assets and liabilities and also with the use of interest rate swaps. The prime lending rate and the London Interbank Offer Rate (LIBOR) curves are the primary indices used for pricing the Company's loans, and the 91-day Treasury bill rate is the index used for pricing many of the Company's liabilities. The Company does not hedge the prime/LIBOR/Treasury Bill spread risk through the use of derivative instruments.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

We monitor interest rate risk through the use of two complementary measurement methods: duration of equity and income simulation. In the duration of equity method, we measure the expected changes in the market values of equity in response to changes in interest rates. In the income simulation method, we analyze the expected changes in income in response to changes in interest rates. For income simulation, Company policy requires that interest sensitive income from a static balance sheet is expected to decline by no more than 10% during one year if rates were to immediately rise or fall in parallel by 200 basis points.

As of June 30, 2006, the Company's duration of equity was estimated to be within a range of positive 0.9 years and positive 3.3 years as compared to negative 0.2 years and positive 2.3 years at December 31, 2005. Income simulation computations at June 30, 2006, resulted in interest sensitive income being expected to decline in the first year after the rate change up to 2.3% and increase up to 1.1% if interest rates were to sustain an immediate parallel increase of 200 basis points and decline between 0.7% and 3.0% if rates were to sustain an immediate parallel decrease of 200 basis points. This compares to interest sensitive income expected to decline in the first year after the rate change up to 1.1% and increase up to 2.4% if interest rates were to sustain an immediate parallel increase of 200 basis points and decline between 0.7% and 4.5% if rates were to sustain an immediate parallel decrease of 200 basis points at December 31, 2005.

Market Risk Fixed Income The Company engages in trading and market making of U.S. Treasury, U.S. Government Agency, municipal and corporate securities. This trading and market making exposes the Company to a risk of loss arising from adverse changes in the prices of these fixed income securities held by the Company.

During the fourth quarter of 2005, the Company closed its London trading office and substantially reduced the size of its trading assets in response to continued narrow margins in its odd-lot electronic bond trading business. At June 30, 2006 the Company had \$71 million of trading account assets and \$27 million of securities sold, not yet purchased compared with \$102 million and \$282 million of trading assets and \$65 million and \$291 million of securities sold, not yet purchased at December 31, 2005 and June 30, 2005, respectively.

The Company monitors risk in fixed income trading and market making through Value-at-Risk (VAR). VAR is the worst-case loss expected within a specified confidence level, based on statistical models using historical data.

Market Risk Equity Investments Through its equity investment activities, the Company owns equity securities that are publicly traded and subject to fluctuations in their market prices or values. In addition, the Company owns equity securities in companies that are not publicly traded and that are accounted for under either the fair value, equity, or full consolidation methods of accounting, depending upon the Company's ownership position and degree of involvement in influencing the investees' affairs. In each case, the value of the Company's investment is subject to fluctuation. Since the market prices or values associated with these securities may fall below the Company's investment costs, the Company is exposed to the possibility of loss.

The Company conducts minority investing in pre-public venture capital companies in which it does not have strategic involvement, through four funds collectively referred to as Wasatch Venture Funds (Wasatch). Wasatch screens investment opportunities and makes investment decisions based on its assessment of business prospects and potential returns. After an investment is made, Wasatch actively monitors the performance of each company in which it has invested, and often has representation on the board of directors of the company.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

In addition to the program described above, Amegy has in place an alternative investments program. These investments are primarily directed towards equity buyout and mezzanine funds with a key strategy of deriving ancillary commercial banking business from the portfolio companies. Early stage venture capital funds are not part of the strategy since the underlying companies are typically not credit worthy.

The Company also, from time to time, either starts and funds businesses or makes significant investments in companies of strategic interest. These investments may result in either minority or majority ownership positions, and usually give board representation to Zions or its subsidiaries. These strategic investments generally are in companies that are financial services or financial technologies providers.

A more comprehensive discussion of the Company's interest rate and market risk management is contained in Zions' Annual Report on Form 10-K for the year ended December 31, 2005.

Liquidity Risk Management

Liquidity is managed centrally for both the Parent and the bank subsidiaries. The Parent's cash requirements consist primarily of debt service, investment in and advances to subsidiaries, operating expenses, income taxes, dividends to shareholders and share repurchases. The Parent's cash needs are routinely met through dividends from its subsidiaries, investment income, subsidiaries' proportionate share of current income taxes, management and other fees, bank lines, equity contributed through the exercise of stock options, and debt issuances.

During the first six months of 2006, the Parent received \$116.0 million in dividends from its subsidiaries. At June 30, 2006, \$434.4 million of dividend capacity was available for the subsidiaries to pay to the Parent under regulatory guidelines.

Operational cash flows, while constituting a funding source for the Company, are not large enough to provide funding in the amounts that fulfill the needs of the Parent and the bank subsidiaries. For the first six months of 2006, operations contributed \$456.8 million toward these needs. As a result, the Company utilizes other sources at its disposal to manage its liquidity needs.

On March 31, 2006, the Company filed an automatic shelf registration statement with the Securities and Exchange Commission as a well-known seasoned issuer. This new type of shelf registration does not require a maximum amount of securities that may be issued to be specified. The shelf registration replaced a previous shelf registration and covers securities of the Company, Zions Capital Trust C and Zions Capital Trust D.

On April 27, 2006 under the new shelf registration, we issued \$250 million of floating rate senior notes due April 15, 2008. The notes require quarterly interest payments at three-month LIBOR plus 0.12%. They are not redeemable prior to maturity and are not listed on any national securities exchange. Proceeds from the notes were used to retire all of the \$150 million of 2.70% senior notes due May 1, 2006 and all of the remaining \$104.2 million of 6.95% subordinated notes due May 15, 2011 and redeemable May 15, 2006.

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 10-Q

The Parent also has a program to issue short-term commercial paper. At June 30, 2006, outstanding commercial paper was \$245.1 million. In addition, at June 30, 2006, the Parent had a secured revolving credit facility with a subsidiary bank totaling \$40 million. No amount was outstanding on this facility at June 30, 2006.

The subsidiaries' primary source of funding is their core deposits, consisting of demand, savings and money market deposits, time deposits under \$100,000, and foreign deposits. At June 30, 2006, these core deposits, in aggregate, constituted 89.8% of consolidated deposits, compared with 92.3% of consolidated deposits at

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

December 31, 2005. For the first six months of 2006, increases in deposits resulted in net cash inflows of \$0.6 billion.

The Federal Home Loan Bank (FHLB) system is also a significant source of liquidity for the Company's subsidiary banks. Zions Bank and TCBW are members of the FHLB of Seattle. CB&T, NBA and NSB are members of the FHLB of San Francisco. Vectra is a member of the FHLB of Topeka and Amegy is a member of the FHLB of Dallas. The FHLB allows member banks to borrow against their eligible loans to satisfy liquidity requirements. For the first six months of 2006, the activity in short-term FHLB borrowings resulted in a net cash inflow of approximately \$1.2 billion. Amounts of unused lines of credit available for additional FHLB advances were approximately \$5.2 billion at June 30, 2006.

The Company has used asset securitizations to sell loans, which have provided an alternative source of funding for the subsidiaries and have enhanced flexibility in meeting their funding needs. During the first six months of 2006, loan sales (other than loans held for sale) provided \$142 million in cash inflows.

At June 30, 2006, the Company managed approximately \$3.0 billion of securitized assets that were originated or purchased by its subsidiary banks. Of these, approximately \$1.8 billion were credit-enhanced by a third party insurance provider and held in Lockhart Funding, LLC, which is a qualifying special-purpose entity securities conduit and an important source of funding for the Company's loans. Zions Bank provides a Liquidity Facility for a fee to Lockhart, which purchases floating-rate U.S. Government and AAA-rated securities with funds from the issuance of commercial paper. Zions Bank also provides interest rate hedging support and administrative and investment advisory services for a fee. Pursuant to the Liquidity Facility, Zions Bank is required to purchase securities from Lockhart to provide funds for it to repay maturing commercial paper upon Lockhart's inability to access the commercial paper market, or upon a commercial paper market disruption, as specified in the governing documents of Lockhart. In addition, pursuant to the governing documents, including the Liquidity Facility, if any security in Lockhart is downgraded below AA-, Zions Bank must either 1) place its letter of credit on the security, 2) obtain a credit enhancement on the security from a third party, or 3) purchase the security from Lockhart at book value. At any given time, the maximum commitment of Zions Bank is the book value of Lockhart's securities portfolio, which is not allowed to exceed the size of the Liquidity Facility.

At June 30, 2006, the book value of Lockhart's securities portfolio was \$5.0 billion, which approximated market value, and the size of the Liquidity Facility commitment was \$6.12 billion. No amounts were outstanding under this Liquidity Facility at June 30, 2006, December 31, 2005 or June 30, 2005. Lockhart is limited in size by program agreements, agreements with rating agencies and by the size of the Liquidity Facility.

As described in Note 2 of the Notes to Consolidated Financial Statements, the FASB has recently issued two accounting pronouncements that amend SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. These amendments and other proposals to further amend SFAS No. 140 may require changes to the operating activities of qualifying special-purpose entities and other aspects relating to the transfer of financial assets. As a result of these amendments and proposals, Lockhart's operations may need to be modified to preserve its off-balance sheet status.

The Company's investment activities can also provide or use cash. Investment securities activities resulted in a decrease in investment securities holdings and a net increase of cash in the amount of \$88.9 million for the second quarter and \$182.8 million for the first six months of 2006.

Table of Contents**ZIONS BANCORPORATION AND SUBSIDIARIES**

Maturing balances in the various loan portfolios also provide additional flexibility in managing cash flows. In most cases, however, loan growth has resulted in net cash outflows from a funding standpoint. For the first half of 2006, loan growth resulted in a net cash outflow of \$2.8 billion.

A more comprehensive discussion of our liquidity management is contained in Zions' Annual Report on Form 10-K for the year ended December 31, 2005.

Operational Risk Management

Operational risk is the potential for unexpected losses attributable to human error, systems failures, fraud, or inadequate internal controls and procedures. In its ongoing efforts to identify and manage operational risk, the Company has created an Operating Risk Management Group, whose responsibility is to help Company management identify and monitor the key internal controls and processes that the Company has in place to mitigate operational risk.

To manage and minimize its operating risk, the Company has in place transactional documentation requirements, systems and procedures to monitor transactions and positions, regulatory compliance reviews, and periodic reviews by the Company's internal audit and credit examination departments. In addition, reconciliation procedures have been established to ensure that data processing systems consistently and accurately capture critical data. Further, we maintain contingency plans and systems for operations support in the event of natural or other disasters. We expect to continue efforts to improve the Company's oversight of operational risk throughout 2006.

CAPITAL MANAGEMENT

Zions has a fundamental financial objective to consistently produce superior risk-adjusted returns on its shareholders' capital. We believe that a strong capital position is vital to continued profitability and to promoting depositor and investor confidence.

Total shareholders' equity on June 30, 2006 was \$4.4 billion, up 5.0% from \$4.2 billion at December 31, 2005 and 51.4% from \$2.9 billion at June 30, 2005, reflecting the Amegy acquisition. The Company's capital ratios were as follows as of the dates indicated:

	June 30, 2006	December 31, 2005	June 30, 2005
Tangible common equity ratio	5.54%	5.28%	6.98%
Average common equity to average assets (three months ended)	10.08%	9.32%	8.85%

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 10-Q

Risk-based capital ratios:

Tier 1 leverage	7.51%	8.16%	8.54%
Tier 1 risk-based capital	7.63%	7.52%	9.55%
Total risk-based capital	12.34%	12.23%	14.12%

The changes in the average common equity to average assets ratio and the Tier 1 leverage ratios at June 30, 2006 compared to December 31, 2005 both mainly result from the Amegy acquisition. The averages used in determining the ratios at December 31, 2005 only included the impact of Amegy for one month since it was acquired in December 2005.

ZIONS BANCORPORATION AND SUBSIDIARIES

It is our belief that capital not considered necessary to support current and anticipated business should be returned to the Company's shareholders through dividends and repurchases of its shares.

In July 2005, the Company announced that it had suspended the repurchase of shares of its common stock in conjunction with its acquisition of Amegy. The Company anticipates that the common stock buyback program will remain suspended until it achieves a tangible common equity ratio of at least 6.25%.

The Parent and its subsidiary banks are required to maintain adequate levels of capital as measured by several regulatory capital ratios. As of June 30, 2006, the Company and each of its banking subsidiaries met the "well capitalized" guidelines under regulatory standards.

The Company paid dividends of \$0.36 per common share in both the second quarter of 2006 and 2005. For the three months ended June 30, 2006, the Company paid \$38.3 million in common stock dividends compared to \$32.5 million in the same period of 2005.

At its July 2006 meeting, the Company's Board of Directors declared a dividend in the amount of \$0.36 per share of common stock. The dividend is payable on August 23, 2006 to shareholders of record as of the close of business on August 9, 2006.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest rate and market risks are among the most significant risks regularly undertaken by the Company, and they are closely monitored as previously discussed. A discussion regarding the Company's management of interest rate and market risk is included in the section entitled "Interest Rate and Market Risk Management" in this Form 10-Q.

ITEM 4. CONTROLS AND PROCEDURES

An evaluation was carried out by the Company's management, with the participation of the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, these disclosure controls and procedures were effective. There have been no changes in the Company's internal control over financial reporting during the period covered by this report that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 10-Q

The Company is a defendant in various legal proceedings arising in the normal course of business. The Company does not believe that the outcome of any such proceedings will have a material effect on its consolidated financial position, operations, or liquidity.

ITEM 1A. RISK FACTORS

The Company believes there have been no significant changes in risk factors compared to the disclosures contained in Zions Bancorporation's Annual Report on Form 10-K for the year ended December 31, 2005.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**Share Repurchases**

The following table summarizes the Company's share repurchases for the second quarter of 2006.

<u>Period</u>	<u>Total number of shares repurchased (1)</u>	<u>Average price paid per share</u>	<u>Total number of shares purchased as part of publicly announced plans or programs</u>	<u>Approximate dollar value of shares that may yet be purchased under the plan (2)</u>
April	1,768	\$ 80.90		\$59,253,657
May	15,498	81.62		59,253,657
June	2,597	79.49		59,253,657
Quarter	19,863	81.28		

(1) Includes 3,733 shares tendered for exercise of stock options.

(2) The Company has suspended the repurchase of shares in conjunction with the acquisition of Amegy Bancorporation, Inc.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

- a) The annual meeting of shareholders of the Registrant was held on May 1, 2006. The total number of shares eligible for voting was 105,906,324.
- b) Election of Directors

Proxies were solicited by the Company's management pursuant to Regulation 14A of the Securities Exchange Act of 1934. Those directors nominated (Proposal 1) in the proxy statement are shown under c) following. There was no solicitation opposing management's nominees for directors and all such nominees were elected pursuant to the vote of the shareholders. Directors whose terms of office continued after the meeting were:

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 10-Q

Jerry C. Atkin
Roger B. Porter

Stephen D. Quinn
L. E. Simmons

Shelley Thomas Williams
Steven C. Wheelwright
