REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Plan Administrator of the

AZZ incorporated Employee Benefit Plan & Trust

We have audited the accompanying statements of net assets available for benefits of the AZZ incorporated Employee Benefit Plan & Trust as of February 28, 2006 and 2005, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the AZZ incorporated Employee Benefit Plan & Trust as of February 28, 2006 and 2005, and the changes in its net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental information is the responsibility of the Plan's management. The supplemental information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The following description of the AZZ incorporated Employee Benefit Plan & Trust (the Plan) provides only general information. The Plan is sponsored by AZZ incorporated (the Company). Participants should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan s provisions.

Entry dates into the Plan are no later than the earlier of (a) six months after such eligibility requirements are met, or (b) the first day of the first Plan year after such requirements are met.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan sponsor has adopted the MFS Retirement Services, Inc. (MFS) Non-Standardized 401(k) Profit Sharing Plan and Trust and appointed First Nebraska Trust Company as the trustee of the trust established under the Plan. Effective June 30, 2004, the Administrative Committee of the Board of Directors of the Company approved the appointment of MFS Heritage Trust Company as the new directed trustee to replace First Nebraska Trust. The Plan was amended for this change in trustee.

Contributions

Participants may elect to contribute from 1% to 15% of their eligible compensation, subject to Internal Revenue Service (IRS) limitations. The Company provides discretionary matching contributions equal to a percentage of participant contributions as determined annually by the Company s Board of Directors. Additionally, the Company may contribute discretionary profit sharing amounts to the Plan as determined each year by the Company s Board of Directors. To be eligible to receive matching contributions and profit sharing contributions, participants must be actively employed on the last day of the Plan year and must have completed 1,000 hours of service.

Participants may elect to commence voluntary contributions or modify the amount of voluntary contributions made on the first day of each quarter within the Plan year.

Participant Accounts

A separate account is maintained for each participant and is credited with the participant s contributions, the Company s contributions, and actual earnings thereon as well as forfeitures of terminated participants non-vested accounts.

The Plan's assets are invested in accordance with directions provided by the Company.

Participant Withdrawals

On termination of service, if a participant's vested benefits are less than \$5,000, the benefit is payable in a lump sum. If the vested benefit is greater than \$5,000, the participant may elect to receive either a lump-sum amount or annual installments over a period not to exceed the life expectancy of the participant and the participant's beneficiary. Prior to termination of service, a participant may elect to receive all or any portion of their accrued benefit if the participant has participated in the Plan at least five years and is 100% vested.

B. Summary of Significant Accounting Policies

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Accordingly, actual results may differ from these estimates.

Investment Valuation

Investments in mutual funds are stated at fair value using quoted prices in an active market, which represent the net asset values of shares held by the Plan at year end. The investments in AZZ incorporated common stock are valued at the closing price at year end on the New York Stock Exchange. Amounts invested on a short-term basis are in highly liquid assets; the fair value and cost basis of these invested funds are equal. Purchases and sales of securities are recorded on the trade dates. Gains or losses on sales of securities are calculated using the average cost of the securities sold. Interest income is recorded on the accrual basis.

All investments, earnings thereon, and uninvested cash were held by MFS under a trust agreement. The Plan's investments are generally subject to market or credit risks customarily associated with debt and equity investments.

Contributions

Contributions from the participants and the employer are accrued in the period in which they are deducted in accordance with salary deferral agreements and as they become obligations of the Company, as determined by the Plan's administrator.

The Plan sponsor, effective January 1, 2003, adopted the MFS Retirement Services, Inc.
