**Item 2.05 Costs Associated with Exit or Disposal Activities.**

On February 20, 2007, Transgenomic, Inc. (the Registrant ) announced that it will be closing the Cramlington, England production facility and consolidating production of the bioconsumable products at its facilities in Omaha, Nebraska. The majority of workforce reductions at the Cramlington site are expected to be completed by the end of March 2007. The closure of the Cramlington facility is the principal component of a cost reduction plan designed to align the Registrant s cost structure with anticipated revenues. The plan is expected to yield annualized savings of approximately \$1.5 million once all components of the plan are fully implemented. In conjunction with the cost reduction plan, the Registrant expects to incur aggregate charges estimated at \$1.2 million to \$1.4 million during the first and second quarters of 2007, relating primarily to severance, benefits and facility closing costs.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, as amended, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
