FIRST CAPITAL, INC.

PROXY STATEMENT

This proxy statement is furnished in connection with the solicitation of proxies by the Board of Directors of First Capital, Inc. (First Capital or the Company) to be used at the annual meeting of shareholders of the Company. The Company is the holding company for First Harrison Bank (First Harrison or the Bank). The annual meeting will be held at the main office of First Harrison, 220 Federal Drive, N.W., Corydon, Indiana, on Wednesday, April 18, 2007, at 12:00 noon, local time. This proxy statement and the enclosed proxy card are being first mailed on or about March 26, 2007 to shareholders of record.

General Information About Voting

Who Can Vote at the Meeting

You are entitled to vote your shares of First Capital common stock if the records of the Company show that you held your shares as of the close of business on March 8, 2007. As of the close of business on March 8, 2007, a total of 2,840,515 shares of First Capital common stock were outstanding. Each share of common stock has one vote. The Company's Articles of Incorporation provide that recordholders of the Company's common stock who beneficially own, either directly or indirectly, in excess of 10% of the Company's outstanding shares are not entitled to any vote with respect to the shares held in excess of the 10% limit.

Attending the Meeting

If you are a beneficial owner of First Capital common stock held in street name by a broker, bank or other nominee, you will need proof of ownership for admission to the meeting. A recent brokerage statement or letter from your bank or broker are examples of proof of ownership. If you want to vote your shares of First Capital common stock held in street name in person at the meeting, you will have to obtain a written proxy in your name from the broker, bank or other nominee who holds your shares.

Quorum and Vote Required

The annual meeting will be held only if there is a quorum. A quorum exists if a majority of the outstanding shares of common stock entitled to vote is represented at the meeting. If you return valid proxy instructions or attend the meeting in person, your shares will be counted for purposes of determining whether there is a quorum, even if you abstain from voting. Broker non-votes also will be counted for purposes of determining the existence of a quorum. A broker non-vote occurs when a broker, bank or other nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that item and has not received voting instructions from the beneficial owner.

At this year's annual meeting, shareholders will elect five directors to serve a term of three years. In voting on the election of directors, you may vote in favor of all nominees, withhold votes as to all nominees or withhold votes as to specific nominees. There is no cumulative voting for the election of

directors. Directors must be elected by a plurality of the votes cast at the annual meeting. This means that the nominees receiving the largest number of votes cast will be elected up to the maximum number of directors to be elected at the annual meeting. The maximum number of directors to be elected at the annual meeting is five. Votes that are withheld and broker non-votes will have no effect on the outcome of the election.

In voting on the approval of the appointment of Monroe Shine & Co., Inc. as the independent registered public accounting firm, you may vote in favor of the proposal, vote against the proposal or abstain from voting. This matter will be decided by the affirmative vote of a majority of the votes cast at the annual meeting. On this matter, abstentions and broker non-votes will have no effect on the voting.

Voting by Proxy

The Board of Directors of First Capital is sending you this proxy statement for the purpose of requesting that you allow your shares of First Capital common stock to be represented at the annual meeting by the persons named in the enclosed proxy card. All shares of First Capital common stock represented at the meeting by properly executed and dated proxies will be voted according to the instructions indicated on the proxy card. If you sign, date and return a proxy card without giving voting instructions, your shares will be voted as recommended by the Company's Board of Directors. **The Board of Directors recommends a vote FOR each of the nominees for director and FOR ratification of Monroe Shine & Co., Inc. as the independent registered public accounting firm.**

If any matters not described in this proxy statement are properly presented at the annual meeting, the persons named in the proxy card will use their own best judgment as to how to vote your shares. This includes a motion to adjourn or postpone the annual meeting in order to solicit additional proxies. If the annual meeting is postponed or adjourned, your First Capital common stock may be voted by the persons named in the proxy card on the new meeting date as well, unless you have revoked your proxy. The Company does not know of any other matters to be presented at the meeting.

You may revoke your proxy at any time before the vote is taken at the annual meeting. To revoke your proxy, you must either advise the Company's Corporate Secretary in writing before your shares have been voted at the annual meeting, deliver valid proxy instructions with a later date, or attend the meeting and vote your shares in person. Attendance at the annual meeting will not in itself constitute revocation of your proxy.

If your First Capital common stock is held in street name, you will receive instructions from your broker, bank or other nominee that you must follow in order to have your shares voted. Your broker, bank or other nominee may allow you to deliver your voting instructions via the telephone or Internet. Please see the instruction form provided by your bank, broker or other nominee that accompanies this proxy statement.

Participants in First Harrison's ESOP

If you participate in First Harrison's Employee Stock Ownership Plan (the ESOP), you will receive a voting instruction form that reflects all shares you may vote under the plan. Under the terms of the ESOP, the ESOP trustees vote all shares held by the ESOP, but each participant in the ESOP may direct the trustees how to vote the shares of Company common stock allocated to his or her account. The ESOP trustees, subject to the exercise of their fiduciary duties, will vote all unallocated shares of

common stock held by the ESOP and all allocated shares for which no timely voting instructions are received in the same proportion as shares for which the trustees have received valid voting instructions. The deadline for returning your voting instructions to the ESOP trustees is April 11, 2007.

independent registered public accounting firm. This approval process ensures that the firm does not provide any non-audit services to the Company that are prohibited by law or regulation.

Report of the Audit Committee

The Company's management is responsible for the Company's internal control over financial reporting. The independent registered public accounting firm is responsible for performing an independent audit of the Company's consolidated financial statements and issuing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States of America. The Audit Committee oversees the Company's internal controls and financial reporting process on behalf of the Board of Directors.

In this context, the Audit Committee has met and held discussions with management and the independent registered public accounting firm. Management represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, and the Audit Committee has reviewed and discussed the consolidated financial statements with management and the independent registered public accounting firm. The Audit Committee discussed with the independent registered public accounting firm matters required to be discussed by Statement on Auditing Standards No. 61 (Communication With Audit Committees), including the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of the disclosures in the financial statements.

In addition, the Audit Committee has received the written disclosures and the letter from the independent registered public accounting firm required by the Independence Standards Board Standard No. 1 (Independence Discussions With Audit Committees) and has discussed with the independent registered public accounting firm the firm's independence from the Company and its management. The Audit Committee discussed with the Company's independent registered public accounting firm the overall scope and plans for their audit. The Audit Committee meets with the independent registered public accounting firm, with and without management present, to discuss the results of their examination, their evaluation of the Company's internal control over financial reporting and the overall quality of the Company's financial reporting process.

In performing all of these functions, the Audit Committee acts only in an oversight capacity. In its oversight role, the Audit Committee relies on the work and assurances of the Company's management, which has the primary responsibility for financial statements and reports, and of the independent registered public accounting firm who, in their report, express an opinion on the conformity of the Company's financial statements to accounting principles generally accepted in the United States of America. The Audit Committee's oversight does not provide it with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal control over financial reporting designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions with management and the independent registered public accounting firm do not assure that the Company's financial statements are presented in accordance with accounting principles generally

accepted in the United States of America, that the audit of the Company's financial statements has been carried out in accordance with the standards of the Public Company Accounting Oversight Board (United States) or that the Company's independent registered public accounting firm is in fact independent.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board of Directors has approved, that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006 for filing with the Securities and Exchange Commission. The Audit Committee has appointed, subject to shareholder ratification, the selection of the Company's independent registered public accounting firm for the fiscal year ending December 31, 2007.

Compensation Discussion and Analysis

Our Compensation Philosophy

Our compensation philosophy is founded on the premise that our success depends, in large part, on the dedication and commitment of the people we place in key operating positions to drive our business strategy. We strive to satisfy the demands of our business model by providing our named executive officers with incentives tied to the successful implementation of our corporate objectives. However, we recognize that we operate in a competitive environment for talent. Therefore, our approach to compensation considers the full range of compensation techniques that enable us to compare favorably with our peers as we seek to attract and retain key personnel.

We base our compensation decisions on the following principles:

Meeting the Demands of the Market. Our goal is to compensate our named executive officers at competitive levels that position us as the employer of choice among our peers who provide similar financial services in the markets we serve.

Aligning with Shareholders. We use equity compensation as a component of our compensation mix to develop a culture of ownership among our named executive officers and to align their individual financial interest with the interests of our shareholders.

Driving Performance. We structure executive compensation around the attainment of company-wide, business unit and individual targets that return positive results to our bottom line.

Reflecting our Business Philosophy. Our approach to compensation reflects our values and the way we do business in the communities we serve.

Our compensation program relies on two primary elements: (i) base compensation or salary; and (ii) cash-based, short-term incentive compensation. These elements are complimented, in part, by our occasional use of long-term equity based compensation. We believe that we can meet the objectives of our compensation philosophy by achieving a balance between these elements that is competitive with our industry peers and creates appropriate incentives for our management team. To achieve a competitive pay scale, our Compensation Committee reviews survey data provided by the Indiana Bankers Association, as well as compensation data derived from publically available proxy statements for financial institutions of similar asset size and geographic area. The Compensation Committee's analysis of the peer group data includes a review of executive compensation for the past three years, as well as the financial strength of the institutions in the peer group based on return on assets and return on equity.

Base Compensation. The salaries of our named executive officers are reviewed at least annually to assess their performance, to evaluate our competitive position on base pay and to make any necessary adjustments. Our goal is to maintain salary levels for our executives at a level consistent with base pay received by those in comparable positions at peer institutions. To further that goal, we obtain peer group information from a variety of sources. We also evaluate salary levels at the time of promotion or other change in responsibilities or as a result of specific commitments we made when a specific officer was hired. Individual performance and retention risk are also considered as part of our annual assessment.

Cash-Based Incentive Compensation. The Compensation Committee authorizes bonuses for key personnel based on the terms of a cash-based incentive program which rewards the attainment of annual company-wide financial objectives at specified levels and individual performance relative to the specific tasks we expect our named executive officers to accomplish during the year. Our objective is to drive annual performance at both the company and individual levels to the highest attainable levels by establishing floor, target and ceiling thresholds tied to increasing levels of incentive awards. A more detailed discussion of our 2006 compensation program appears below.

Role of the Compensation Committee

We rely on the Compensation Committee to develop our compensation program and to monitor the success of the program in achieving the objectives of our compensation philosophy. The Committee, which consists of six independent directors, is also responsible for the administration of our compensation programs and policies, including the administration of our cash- and stock-based incentive programs. The Committee operates under the mandate of a formal charter that establishes a framework for the fulfillment of the Committee's responsibilities. The Committee reviews the charter at least annually to ensure that the scope of the charter is consistent with the Committee's expected role.

The Compensation Committee occasionally requests one or more members of executive management to attend Committee meetings where executive compensation and Company or individual performance are discussed and evaluated. Executives are free to provide insight, suggestions or recommendations regarding executive compensation. However, only independent Compensation Committee members are allowed to vote on decisions regarding executive compensation. For non-executive employees, the Compensation Committee approves a pooled amount of incentive compensation

for the Company and the department managers then distribute these funds to their employees based on individual performance.

The Compensation Committee meets with our Chief Executive Officer and Chief Operating Officer to discuss their respective performances and compensation packages, but ultimately decisions regarding their packages are made solely based upon the Compensation Committee's deliberations.

Role of Management

Our senior management team makes recommendations to the Compensation Committee from time to time regarding the appropriate mix and level of compensation for their subordinates. In particular, our Chief Executive Officer and Chief Operating Officer evaluate all other employees' compensation. Those recommendations consider the objectives of our compensation philosophy and the range of compensation programs authorized by the Compensation Committee.

Peer Group Analysis

A critical element of our compensation philosophy and a key driver of specific compensation decisions for our named executive officers is the comparative analysis of our compensation mix and levels relative to a peer group of publicly traded banks and thrifts. We firmly believe that the cornerstone of our compensation program is the maintenance of a competitive compensation program relative to the companies with whom we compete for talent. In 2006, our peer group was selected on the basis of several factors, including geographic location, size, operating characteristics and financial performance. We utilized the Indiana Bankers Association surveys and publically available proxy statements to gather the data based on these criteria.

Severance and Change in Control Benefits

We recognize that an important consideration in our ability to attract and retain key personnel is our ability to minimize the impact on our management team of the possible disruption associated with our analysis of strategic opportunities. Accordingly, we believe that it is in the best interest of First Capital and its shareholders to provide our key personnel with reasonable financial arrangements in the event of termination of employment following a change in control or involuntary termination of employment for reasons other than cause. Each of our named executive officers who has an employment agreement has a provision in his agreement that provides for certain benefits in the event of voluntary or involuntary termination following a change in control. In addition, the employment agreements contain provisions which provide for certain severance benefits in the event we terminate an executive's employment for reasons other than cause. See *Executive Compensation - Potential Post-Termination Benefits* for estimates of the severance and change in control benefits provided under these agreements.

Tax and Accounting Considerations

In consultation with our advisors, we evaluate the tax and accounting treatment of each of our compensation programs at the time of adoption and continue to review them to ensure that we understand the financial impact of each program. Our analysis includes a detailed review of recently adopted and pending changes in tax and accounting requirements. As part of our review, we consider modifications and/or alternatives to existing programs to take advantage of favorable changes in the tax or accounting environment or to avoid adverse consequences.

Retirement Benefits; Employee Welfare Benefits

We offer our employees tax-qualified retirement and savings plans. Our primary retirement vehicle is our 401(k) Savings Plan. The 401(k) Plan provides our employees with an opportunity to defer a portion of their compensation for retirement. We make a 3% safe harbor contribution into the plan for the benefit of eligible participants and match 33 1/3% of the first 6% a participant defers into the plan up to a maximum of 2% of the participant's compensation. Our 401(k) Savings Plan is complemented by our employee stock ownership plan (ESOP). Our ESOP allows participants to accumulate a retirement benefit in our common stock at no cost to the participants. In addition to tax-qualified retirement programs, we provide our employees with coverage under medical, dental, life insurance and disability plans on terms consistent with industry practice.

Perquisites

We provide certain of our officers with perquisites similar to those provided to executives employed by our peers. The perquisites are intended to further the officers' abilities to promote our business interests and to reflect competitive practices for similarly situated officers employed by our peers.

Director Compensation

Our directors are compensated on a per meeting fee basis. Directors who are also employees of the Company receive the same fee that is paid to non-employee directors. Certain directors have elected to defer a portion of their fees into the First Harrison Directors' Deferred Compensation Plan. See *Director Compensation* for a discussion on the terms of the plan. In addition to meeting fees, and in recognition of their performance as board members, the non-employee directors of the board, as a group, received cash bonuses totaling approximately \$9,600. The level of director compensation is reviewed by the Compensation Committee on a periodic basis and adjusted as necessary to ensure consistency with our overall compensation objectives.

Stock Compensation Grant and Award Practices

Our Compensation Committee considers whether to make stock option grants and/or award other forms of equity. Under our current plan, which was approved by shareholders in 1999, the exercise price of an option is the sales price of the underlying stock on the date of grant. The grant date is the date the Compensation Committee approves the award.

As a general matter, the Compensation Committee's process is independent of any consideration of the timing of the release of material nonpublic information, including with respect to the determination of grant dates or the stock option exercise prices. The Compensation Committee's decisions are reviewed and ratified by the full Board of Directors.

Stock Ownership Requirements

We have not adopted formal stock ownership requirements for our named executive officers or Board members. As a practical matter, our officers and directors hold meaningful interests in our stock, which they have accumulated through participation in stock compensation programs and individual purchases.

Our 2006 Compensation Program

The Compensation Committee meets at least annually to approve salary and short-term incentive compensation plans for officers and management. The 2006 compensation plan included a short-term cash portion and a salary portion.

The short-term cash portion is based on our net income after tax targets. Officers and key management personnel are eligible for higher or lower cash payments based on the achievement of our net income targets. The Compensation Committee believes a balanced range based on net income after tax is appropriate. As leadership improves net income, individual cash compensation improves. The short-term cash compensation combined with salary administration provides the Compensation Committee with a competitive compensation package to attract and retain management.

Officers and management may earn as much as 125% of their incentive compensation based on fixed and variable factors. The Compensation Committee approved a payment equal to 35% of base compensation as the fixed portion and 65% of compensation as the variable portion. The objective of this plan is to drive variable performance higher, improving our financial performance. Named executive officers that contribute at a higher level are recognized for their efforts and become eligible for higher short-term cash compensation.

Each year, our human resources manager looks at the consumer price index, inflation, pay adjustments in the market, and budgeting issues and provides this information to the Compensation Committee. Based on this information, the Compensation Committee recommends a salary pool for annual compensation adjustments. The Compensation Committee believes the salary part of compensation plays a vital role in keeping and attracting quality staff. Our goal is to retain our best people and attract highly skilled people as we grow.

Our goal is to have a short-term cash plan, with a salary plan, and complement that with our 401(k) Savings Plan, ESOP, and health benefit plans to attract and retain excellent staff. We believe that our existing programs accomplish this, while rewarding those that exceed expectations.

2007 Short-Term Incentive Awards Covering 2006 Results. On January 16, 2007, the Compensation Committee considered awards under our cash-based short-term incentive program relating to corporate and individual performance during fiscal year 2006. The 2006 program, which covered five officers at the level of senior vice president and above and approximately 45 other officers and key personnel at the level of vice president and below, established specific net income after tax thresholds for award eligibility. Since our performance fell below the expected net income target, the Committee authorized aggregate incentive awards for these two groups of \$161,344, or approximately 7% of this group's compensation. In addition to the short-term incentive plan, this group of officers and managers was granted annual pay adjustments ranging from 3.5% to 5.5% of their individual annual pay.

The Compensation Committee also considered chief executive officer and chief operating officer incentive awards at its meeting, including a review of progress toward the attainment of an individual performance objectives. On an adjusted basis, the Compensation Committee authorized awards to our chief executive officer and chief operating officer at 7%, or approximately \$17,378. Our chief executive officer and chief operating officer earned 93.7% and 84.4%, respectively, of their short-term incentive awards based on our net income target and other related goals.

2006 Short-Term Incentive Program. In 2006, we took steps to simplify our cash-based, short-term incentive program, while continuing to emphasize a reward based on a weighted mix of financial and individual performance objectives. The 2006 program applies to the determination of awards to be made during the first quarter of 2007. Under the 2006 program, the attainment of a targeted net income after tax number determines the percentage payout. Of the 35%, 7% is guaranteed and 65% of the 7% must be earned based on individual goals. For the fiscal 2006 year, we paid out approximately 97% of the accrued 7% bonus based on individual and company performance. Individual performance targets for both our chief executive officer and chief operating officer focused on a series of strategic and operational initiatives deemed critical by the Board of Directors. For other officers, the individual performance objectives were set by our chief executive officer and chief operating officer in consultation with department managers.

The maximum and minimum bonus amount for 2006 was 10.85% of compensation and a financial target of \$4.5 million after tax net income and 6.5% of compensation and a financial target of \$3.9 million after tax net income. These targets are established after management presents the annual budget to the Board of Directors for approval.

In 2006, the plan covered approximately 50 officers and managers, including our chief executive officer, chief operating officer and our other named executive officers. See *Executive Compensation - Summary Compensation Table* for the cash bonuses paid to our named executive officers in 2006.

2006 Review of CEO and COO Compensation; Other Named Executive Officer Compensation. The Compensation Committee reviewed base compensation for our named executive officers on January 16, 2007. Taking into consideration the individual performances, the overall financial performance of the Company, and survey data, the Compensation Committee elected to increase base compensation by 4% for both our chief executive officer and chief operating officer. Our chief financial officer received an increase in base pay of 4% and our senior lending officer received an increase of 2%, along with a one-time cash payment of \$1,740. The salary adjustments became effective on January 1, 2007. These adjustments bring our named executive officers to a level slightly below the median level in our peer group. See *Executive Compensation - Employment Agreements* for the current base salaries paid to our named executive officers.

2006 Stock-Based Long-Term Incentive Program. The Compensation Committee did not make any equity based awards in 2006.

Employment Agreements

First Harrison and First Capital maintain employment agreements with William W. Harrod, Samuel E. Uhl, Michael C. Frederick and Dennis L. Thomas. The employment agreements provide for a three-year term which is renewable annually. The employment agreements provide that each executive's base salary will be reviewed annually. The current base salary under the employment agreements for Messrs. Harrod, Uhl, Frederick and Thomas (each an executive) is \$133,639, \$133,639, \$83,633 and

\$86,824, respectively. In addition to base salary, the employment agreements provide for, among other things, participation in stock benefits plans and other fringe benefits applicable to executive personnel. The employment agreements provide for termination for cause, as defined in the employment agreements, at any time. If an executive is terminated for reasons other than for cause, or if an executive voluntarily terminates his employment after specified circumstances that would constitute constructive termination (as set forth in the agreements), the executive (or, if the executive dies, his beneficiary), would be entitled to receive severance payments and benefits. See *Executive Compensation - Potential Post-Termination Benefits* for a discussion of the termination benefits for Messrs. Harrod, Uhl, Frederick and Thomas. In addition, upon executive's termination of employment for reasons other than cause or a change in control, executive must adhere to a one-year non-competition agreement.

First Capital guarantees the payments to executive under the employment agreement if they are not paid by First Harrison. All reasonable costs and legal fees incurred by the executive under any dispute or question of interpretation relating to the employment agreements will be paid by First Capital, if the executive is successful on the merits in a legal judgment, arbitration or settlement. The employment agreements also provide that executive will be indemnified to the fullest extent legally allowable for all expenses and liabilities he may incur in connection with any suit or proceeding in which he may be involved by reason of his having been a director or officer of First Harrison or First Capital.

(1) Stock options granted pursuant to the First Capital, Inc. 1999 Stock-Based Incentive Plan that vest in five equal annual installments commencing on June 21, 2005.

Potential Post-Termination Benefits

Employment Agreements. Under the terms of the employment agreements with Messrs. Harrod, Uhl, Frederick and Thomas, the executives may be terminated for cause, as defined in the employment agreements, at any time. If an executive is terminated for cause he will receive only his base salary earned as of the effective date of his termination and he will forfeit all unvested shares of restricted stock and stock options.

If an executive is terminated for reasons other than for cause, or if an executive voluntarily terminates his employment after specified circumstances that would constitute constructive termination (as set forth in the agreements), the executive (or, if the executive dies, his beneficiary), would be entitled to receive an amount equal to the payments that executive would have received during the remaining term of his employment agreement, including base salary, bonuses and other cash or deferred compensation paid or to be paid to the executive and contributions that would have been made on the executive's behalf to any employee benefit plans of First Harrison during the remaining term of the employment agreement. First Harrison would also continue to pay for the executive's life, medical, dental and disability coverage for the remaining term of the employment agreement. If, as of December 31, 2006, Messrs. Harrod, Uhl, Frederick and Thomas were involuntarily terminated for reasons other than cause, or the executives voluntarily terminated their employment as a result of events that constituted a constructive termination under the employment agreements, Messrs. Harrod, Uhl, Frederick and Thomas would receive a pre-tax lump sum cash payment equal to approximately \$285,858, \$287,234, \$179,574 and \$186,874, respectively. In addition to a cash payment, Messrs. Harrod, Uhl, Frederick and Thomas would also be entitled to continued insurance coverage valued at approximately \$20,630, \$19,826, \$15,254 and \$19,682, respectively. Severance payments are made within 30 days of an executive's termination date.

If a named executive terminates his employment due to a disability (as defined in the employment agreement) during the term of his employment agreement, First Harrison will pay the executive, as disability pay, a bi-weekly payment equal to three-quarters of the executive's bi-weekly rate of salary on the date of his termination. Executive will also continue to receive life, medical, dental and disability coverage until the earlier of: executive's attainment of age 65, executive's death, the expiration of the term of the employment agreement or executive's return to full-time employment.

Upon a change in control (as defined in the agreement) followed by an executive's termination of employment, the executive is entitled to a lump sum cash payment equal to 2.99 times the executive's average annual compensation during the five-year period preceding the effective date of the change in control (the base amount). If Messrs. Harrod, Uhl, Frederick and Thomas each had their employment terminated (for reasons other than cause) on December 31, 2006, in connection with a change in control, Messrs. Harrod, Uhl, Frederick and Thomas would be entitled to receive a pre-tax cash payment equal to approximately \$407,585, \$408,615, \$255,513 and \$251,243, respectively. In addition to a cash payment, Messrs. Harrod, Uhl, Frederick and Thomas would also be entitled to continued insurance coverage valued at approximately \$30,945, \$29,739, \$22,881 and \$29,523, respectively. However, in accordance with the terms of the employment agreements, the total value of the benefits provided and payments made to an executive in connection with a change in control may not exceed three times an executive's base amount (280G Limit). Had Messrs. Harrod, Uhl, Frederick and Thomas terminated employment in connection with a change in control on December 31, 2006, First Harrison or First Capital would have provided Messrs. Harrod, Uhl, Frederick and Thomas, taking into account each executive's 280G Limit, a severance benefit valued at \$407,585, \$408,615, \$255,513 and \$251,243, respectively.

Employee Stock Ownership Plan. In the event of a change in control (as defined in the plan), the First Harrison employee stock ownership plan will terminate as of the effective date of the change in control and the plan trustee will repay in full any outstanding acquisition loan. After repayment of the acquisition loan, all remaining shares of First Capital stock held in the loan suspense account, all other stock or securities, and any cash proceeds from the sale or other disposition of any shares of First Capital stock held in the loan suspense account will be allocated among the accounts of all participants in the plan who were employed by First Capital or First Harrison on the date immediately preceding the effective date of the change in control. The allocations of shares or cash proceeds will be credited to each eligible participant in proportion to the opening balances in their accounts as of the first day of the valuation period in which the change in control occurred. As of December 31, 2006, the employee stock ownership plan had an outstanding loan of \$212,801. As of that date, 44,030 shares of our stock had been allocated to plan participants and 18,861 shares remained unallocated. Assuming a change in control occurred on December 31, 2006 and using a stock price of \$18.55 (the year end closing price of the stock as reported on Nasdaq), the plan trustee would have sold approximately 11,471 of the unallocated shares held in the loan suspense account to generate the funds needed to repay the acquisition loan in full. Following the repayment of the acquisition loan, the plan would have 7,390 shares remaining in the plan trust. Based on the terms of the plan and assuming Messrs. Harrod, Uhl, Frederick and Thomas had account balances as of December 31, 2006 that represented 4%, 13%, 8%, and 4% of the total allocated plan assets, Messrs. Harrod, Uhl, Frederick and Thomas would have been entitled to receive a surplus share allocation valued at approximately \$5,472, \$17,808, \$10,963 and \$5,472, respectively. The value of the surplus share allocation was determined by multiplying the number of shares allocated to each participant by \$18.55. Payments under the First Harrison's tax-qualified employee stock ownership plan are not categorized as parachute payments under Section 280G of the Internal Revenue Code.

Equity Awards. As of December 31, 2006, Messrs. Frederick and Thomas have unvested stock options of 1,320 shares each. In the event of a change in control of First Harrison or First Capital, or in the event either executive dies or becomes disabled the outstanding options will automatically vest and remain exercisable until the later of one year from the date of death or the expiration of the stock option.

Had a change in control occurred on December 31, 2006, or had Messrs. Frederick and Thomas become disabled or died on that date, the intrinsic value (that is, the value based upon our stock price minus the option exercise price) of their equity awards would have been zero because the exercise price of such options exceeded the fair market value of First Capital's common stock at December 31, 2006.

Other Information Relating to Directors and Executive Officers

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's executive officers and directors, and persons who own more than 10% of any registered class of the Company's equity securities, to file reports of ownership and changes in ownership with the Securities Exchange Commission. Executive officers, directors and greater than 10% shareholders are required by regulation to furnish the Company with copies of all Section 16(a) reports they file.

Based solely on its review of the copies of the reports it has received and written representations provided to the Company from the individuals required to file the reports, the Company believes that each of its executive officers, directors and greater than 10% beneficial owners has complied with applicable reporting requirements for transactions in First Capital common stock during the fiscal year ended December 31, 2006, with the following exceptions: a late report filed by each of Mr. Samuel Uhl and Ms. Ernstberger. Mr. Samuel Uhl's late report reflected two late transactions of an option exercise and Ms. Ernstberger's late report reflected one late purchase transaction.

Transactions with Related Persons

Loans to Officers and Directors. The Sarbanes-Oxley Act of 2002 generally prohibits loans by First Capital to its executive officers and directors. However, the Sarbanes-Oxley Act contains a specific exemption from such prohibition for loans by First Harrison to its executive officers and directors in compliance with federal banking regulations. Federal regulations require that all loans or extensions of credit to executive officers and directors of insured financial institutions must be made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons and must not involve more than the normal risk of repayment or present other unfavorable features. First Harrison is therefore prohibited from making any new loans or extensions of credit to executive officers and directors at different rates or terms than those offered to the general public. Notwithstanding this rule, federal regulations permit First Harrison to make loans to executive officers and directors at reduced interest rates if the loan is made under a benefit program generally available to all other employees and does not give preference to any executive officer or director over any other employee, although the Bank does not currently have such a program in place.

The Company does not have a comprehensive written policy for the review, approval or ratification of certain transactions with related persons. However, in accordance with banking regulations, the Board of Directors reviews all loans made to a director or executive officer in an amount that, when aggregated with the amount of all other loans to such person and his or her related interests, exceed the greater of \$25,000 or 5% of First Capital's capital and surplus (up to a maximum of \$500,000) and such loan must be approved in advance by a majority of the disinterested members of the Board of Directors. Additionally, pursuant to the Company's Code of Ethics and Business Conduct, all executive officers and directors of the Company must disclose any existing or emerging conflicts of interest to the President and Chief Executive Officer of the Company. Such potential conflicts of interest include, but are not limited to, the following: (i) the Company conducting business with or competing against an organization in which a family member of an executive officer or director has an ownership or employment interest and (ii) the ownership of more than 5% of the outstanding securities or 5% of total assets of any business entity that does business with or is in competition with the Company.

Other Transactions. Director Gerald L. Uhl is a shareholder in and the Business Manager of Jacobi Sales, Inc. (JSI), a farm implement dealership that has contracted with First Harrison to provide sales financing to customers of JSI. First Harrison does not grant preferential credit under this arrangement. All sales contracts are presented to First Harrison on a 50% recourse basis, with JSI responsible for the sale and disposition of any repossessed equipment. During the fiscal year ended December 31, 2006, First Harrison granted approximately \$826,000 of credit to JSI customers. At December 31, 2006, four outstanding loans totaling approximately \$48,000 to JSI customers were delinquent 30 days or more.

Nominating Committee Procedures

General

It is the policy of the Nominating Committee of the Board of Directors to consider director candidates recommended by shareholders who appear qualified to serve on the Board of Directors. The Nominating Committee may choose not to consider an unsolicited recommendation if no vacancy exists on the Board of Directors and the Nominating Committee does not perceive a need to increase the size of

the Board of Directors. In order to avoid the unnecessary use of the Nominating Committee's resources, the Nominating Committee will consider only those director candidates recommended in accordance with the procedures set forth below.

Procedures to be Followed by Shareholders

To submit a recommendation of a director candidate to the Nominating Committee, a shareholder should submit the following information in writing, addressed to Kathryn W. Ernstberger, Chairperson of the Nominating Committee, care of the Corporate Secretary, at the main office of the Company:

1. The name of the person recommended as a director candidate;
2. All information relating to such person that is required to be disclosed in solicitations of proxies for election of directors pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended;
3. The written consent of the person being recommended as a director candidate to being named in the proxy statement as a nominee and to serving as a director if elected;
4. As to the shareholder making the recommendation, the name and address, as he or she appears on the Company's books, of such shareholder; provided, however, that if the shareholder is not a registered holder of the Company's common stock, the shareholder should submit his or her name and address, along with a current written statement from the recordholder of the shares that reflects ownership of the Company's common stock; and
5. A statement disclosing whether such shareholder is acting with or on behalf of any other person and, if applicable, the identity of such person.

In order for a director candidate to be considered for nomination at the Company's annual meeting of shareholders, the Nominating Committee must receive the recommendation at least 120 calendar days before the date the Company's proxy statement was released to shareholders in connection with the previous year's annual meeting, advanced by one year.

Minimum Qualifications

The Nominating Committee has adopted a set of criteria that it considers when it selects individuals to be nominated for election to the Board of Directors. First, a candidate must meet the age limitation requirements set forth in the Company's Bylaws. A candidate also must meet any qualification requirements set forth in any Board or committee governing documents.

The Nominating Committee will consider the following criteria in selecting nominees: financial, regulatory and business experience; familiarity with and participation in the local community; integrity, honesty and reputation; dedication to the Company and its shareholders; independence; and any other factors the Nominating Committee deems relevant, including age, diversity, size of the Board of Directors and regulatory disclosure obligations.

In addition, before nominating an existing director for re-election to the Board of Directors, the Nominating Committee will consider and review an existing director's Board and committee attendance and performance; length of Board service; experience, skills and contributions that the existing director brings to the Board; and independence.

Process for Identifying and Evaluating Nominees

The process that the Nominating Committee follows when it identifies and evaluates individuals to be nominated for election to the Board of Directors is as follows:

Identification. For purposes of identifying nominees for the Board of Directors, the Nominating Committee relies on personal contacts of the committee members and other members of the Board of Directors, as well as its knowledge of members of First Capital's local communities. The Nominating Committee will also consider director candidates recommended by shareholders in accordance with the policy and procedures set forth above. The Nominating Committee has not used an independent search firm in identifying nominees.

Evaluation. In evaluating potential candidates, the Nominating Committee determines whether the candidate is eligible and qualified for service on the Board of Directors by evaluating the candidate under the selection criteria set forth above. In addition, the Nominating Committee will conduct a check of the individual's background and interview the candidate.

Submission of Business Proposals

and Shareholder Nominations

Proposals that shareholders seek to have included in the proxy statement for the Company's next annual meeting must be received by the Company no later than November 27, 2007. If next year's annual meeting is held on a date more than 30 days from April 18, 2008, a shareholder proposal must be received within a reasonable time before the Company begins to print and mail its proxy solicitation materials for such annual meeting. Any such proposals will be subject to the requirements of the proxy rules adopted by the Securities Exchange Commission.

The Company's Bylaws provide that, in order for a shareholder to make nominations for the election of directors or proposals for business to be brought before the annual meeting, a shareholder must deliver notice of such nominations and/or proposals to the Corporate Secretary not less than 90 nor more than 120 days before the date of the annual meeting; provided that if less than 100 days' notice of the annual meeting is given to shareholders, such notice must be delivered not later than the close of the tenth day following the day on which notice of the annual meeting was mailed to shareholders. A copy of the Bylaws may be obtained from the Company.

Shareholder Communications

The Company encourages shareholder communications with the Board of Directors and/or individual directors. Shareholders who wish to communicate with the Board of Directors or an individual director may be made in writing to William W. Harrod, President and Chief Executive Officer of First Capital, Inc., 220 Federal Drive, N.W., Corydon, Indiana 47112. Communications regarding financial or accounting policies may be made in writing to the Chairperson of the Audit Committee,

James E. Nett, at the same address. All other communications should be sent in writing to the attention of the Chairperson of the Nominating Committee, Kathryn W. Ernstberger, also at the same address.

Miscellaneous

The Company will pay the cost of this proxy solicitation. The Company will reimburse brokerage firms and other custodians, nominees and fiduciaries for reasonable expenses they incur in sending proxy materials to the beneficial owners of First Capital common stock. In addition to soliciting proxies by mail, directors, officers and regular employees of the Company may solicit proxies personally or by telephone without receiving additional compensation.

The Company's Annual Report to Shareholders has been mailed to persons who were shareholders as of the close of business on March 8, 2007. Any shareholder who has not received a copy of the Annual Report may obtain a copy by writing to the Corporate Secretary of the Company. The Annual Report is not to be treated as part of the proxy solicitation material or as having been incorporated in this proxy statement by reference.

Voyles, Corporate Secretary, First Capital, Inc., 220 Federal Drive, N.W., Corydon, Indiana 47112.
