Item 4.02 Non-Reliance on Previously Issued Financial Statement or a Related Audit Report or Completed Interim Review

(a) On August 9, 2007, the management of ABX Air, Inc. (the Company) concluded and the Audit Committee of the Board of Directors approved that the previously filed consolidated financial statements contained in Forms 10-Q for the three month periods ended March 31, 2006, June 30, 2006, September 30, 2006 and March 31, 2007 and the Form 10-K for the year ended December 31, 2006 (collectively the 2006 and 2007 Reports), as well as the related report of the Company's independent registered public accounting firm, should no longer be relied upon.

During the preparation of the Company's quarterly report on Form 10-Q for the three months ended June 30, 2007, the management of the Company determined that the 2006 and 2007 Reports did not appropriately classify cash payments for capital expenditures as investing activities in the consolidated statements of cash flows. Specifically, certain capital expenditures were incorrectly classified as cash used for operating activities. This misclassification resulted in an understatement of cash provided by operating activities and an equal understatement of cash used in investing activities for all aforementioned periods. As a result, management concluded that the Consolidated Statements of Cash Flows and discussion of cash flows in Management's Discussion and Analysis of Financial Condition and Results of Operations reported in the Company's 2006 and 2007 Reports should be restated in order to correct the errors. Management of the Company is currently reassessing the effectiveness of the Company's design and operation of the disclosure controls and procedures for the periods reported in the 2006 and 2007 Reports.

As a result of the restatement, the Company expects that cash provided from operating activities will increase \$33.5 million, while cash used for capital expenditures will increase by an equal amount for the three month period ended March 31, 2007. For the year ended December 31, 2006 and for the three, six and nine month quarter-end periods of 2006, the Company expects that the restatement will increase cash provided from operating activities by \$10.6 million, while cash used for capital expenditures will increase by the same amount.

The Company will file an amended Form 10-Q for the three months ended March 31, 2007, amended Form 10-K for the fiscal year ended December 31, 2006, and other Form 10-Q's as required, as soon as reasonably practicable to include the restated cash flow statements and any other required disclosure. The Company will also correct June 30, 2006 and September 30, 2006 consolidated statements of cash flows when it files its Forms 10-Q for the second and third quarters of 2007.

The restatements discussed above will not change our previously reported consolidated balance sheets or statements of earnings, including net income, earnings per share or stockholders' equity, for all aforementioned periods.

Management and the Audit Committee discussed these matters with the Company's independent registered public accounting firm, Deloitte & Touche LLP.
